**Year of Establishment**

1963

(through amalgamation of Chung Chi College, New Asia College and United College)

**Motto**

博文約禮

Through Learning and Temperance to Virtue

**Our Mission**

To assist in the preservation, creation, application and dissemination of knowledge by teaching, research and public service in a comprehensive range of disciplines, thereby serving the needs and enhancing the well-being of the citizens of Hong Kong, China as a whole, and the wider world community.

**Our Vision**

To be acknowledged locally, nationally and internationally as a first-class comprehensive research university whose bilingual and multicultural dimensions of student education, scholarly output and contribution to the community consistently meet standards of excellence.

**Emblem**

The emblem of the University is the mythical Chinese bird feng (鳯) which has been regarded as the Bird of the South since the Han dynasty. It is a symbol of nobility, beauty, loyalty and majesty. The University colours are purple and gold, representing devotion and loyalty, and perseverance and resolution, respectively.

Campus

Main Campus

The University’s stunning campus commanding panoramic views of the Tolo Harbour and the mountain range nearby is the largest in Hong Kong. Nestled among the greenery are tasteful buildings featuring a mix of Chinese and Western architectural styles. The University has formulated a sustainable Campus Master Plan to protect and enhance its campus, which is a haven for many varieties of flora and fauna.

Prince of Wales Hospital

Situated in Siu Lek Yuen, Shatin, the Prince of Wales Hospital is the teaching hospital of the Faculty of Medicine of CUHK, offering training for medical professionals and the ground for medical research. It also houses most departments of the Faculty and several CUHK research institutes.

Teaching Centres in Town

The Graduate Law Centre, the MBA Town Centre, and one of the enrolment and learning centres of the CUHK School of Continuing and Professional Studies are housed at the Bank of America Tower in Admiralty, Hong Kong.

Shenzhen Research Institute

Situated in the Shenzhen Virtual University Park in Nanshan, the Shenzhen Research Institute, wholly-owned by CUHK, was officially opened in November 2011. It serves as a pivotal base for CUHK staff members to conduct research, training and technology transfer in mainland China.

CUHK’s research strategies aim to realize its vision as a centre of excellence for developing cutting-edge research and emerging interdisciplinary strengths that have global impact and significant contributions to society, through translating research findings into practical applications. Riding on our current research strengths, four major research areas incorporating 16 cross-cutting themes have been identified in its Strategic Plan 2016–2020.
Areas of Excellence

The University Grants Committee (UGC)* has provided preferential funding to the local tertiary institutions to conduct research into 18 selected Areas of Excellence (AoEs). Three ongoing projects are led by researchers at CUHK:

**Institute of Network Coding**
With an aim to making Hong Kong a major centre of network coding, the world-leading Institute of Network Coding conducts forefront research on the theory of network coding and its various applications on the Internet, wireless communications, information security, data storage and bioinformatics.

**The Historical Anthropology of Chinese Society**
This project studies 15 geographic areas in China to recover the history of both how local society acquired its own characteristics, and was incorporated into the broad expanse of a unified culture. Local ritual traditions, including architectural features, literal traditions, the hagiography of local deities, and village ceremonies are documented to reconstruct the history of the local institutions in which they were employed. By comparing the time frame of separate local histories, this project will construct a history of China from the bottom up.

**Centre for Organelle Biogenesis and Function**
The centre focuses on understanding the biogenesis and functions of three organelles, namely, Golgi, TGN and EXPO. This research will not only address the fundamental questions concerning organelle biogenesis and functions in important biological processes, such as cell wall formation and stress signalling pathways in plants, but will also have potential applications for the biotechnology industry in Hong Kong and China.

State Key Laboratories

State Key Laboratory of Agrobiotechnology
(Partner Laboratory in The Chinese University of Hong Kong)
The laboratory was established in 2008 with the mission of up-scaling China’s agricultural technology to increase agricultural productivity, safeguard food security in China, and improve people’s nutrition by combining the traditional wisdom of farmers and breeders and modern biotechnology.

State Key Laboratory of Digestive Disease
(Partner Laboratory in The Chinese University of Hong Kong)
Established in 2013, the laboratory aims to promote research and improve the level of diagnosis and treatment of digestive disease by carrying out basic, translational and clinical research on the gastrointestinal cancer, peptic ulcer bleeding, chronic liver disease and inflammatory bowel disease.

State Key Laboratory of Oncology in South China
(Partner Laboratory in The Chinese University of Hong Kong)
Backed by a strong clinical base, the laboratory, established in 2006, conducts research into the early detection of cancers particularly prevalent in Asian populations, and seeks to develop novel therapeutics for the treatment.

State Key Laboratory of Phytochemistry and Plant Resources in West China
(Partner Laboratory in The Chinese University of Hong Kong)
By drawing on the expertise in research into Chinese medicinal plants developed both at CUHK and in the Kunming Institute of Botany, Chinese Academy of Sciences, the laboratory, established in 2009, aims to conduct research into the modernization of traditional Chinese medicine and the application of biotechnology in medical science.

State Key Laboratory of Synthetic Chemistry
Established in 2010 in partnership with the University of Hong Kong and the State Key Laboratory of Organometallic Chemistry located in the Shanghai Institute of Organic Chemistry, the Chinese Academy of Sciences, the laboratory aims to create and identify novel chemical compounds with important structural and bonding features or with notable potential for practical applications.

Meeting and Outdoor Venues

*The Gate of Wisdom and the Beacon*

The broad rectangular base of the sculpture *The Gate of Wisdom*, also known as the Beacon, is a popular place for student activities, especially public forums and ceremonies.

*University Mall*

Lined between the University Library and the Science Centre, the University Mall is the most famous icon on campus. It is also the place for the University’s annual congregation.

*Cultural Square*

Outside the Benjamin Franklin Centre, a popular place for student activities including open-air concerts, drama, as well as cultural festivals.

*Cho Yiu Conference Hall*

The 162-seat conference room is equipped with simultaneous interpretation system and projection screen for video-conferencing. Portraits of past chancellors, council chairmen and vice-chancellors adorn its walls.
