The Chinese University of Hong Kong Calendar 1981-82 contains information known as of June 30, 1981.
The emblem of the University is the mythical Chinese bird *feng* (鳳), which is chosen because of its symbolism as Bird of the South since the Han Dynasty. It is also a symbol of nobility, beauty, loyalty and majesty.

The University colours are purple and gold, representing devotion and loyalty (purple), perseverance and resolution (gold).

The motto of the University is ‘博文約禮’ (po-wen yueh-li): ‘博文’ is to broaden one’s intellectual horizon; ‘約禮’ is to keep within the bounds of propriety.

These words of Confucius have long been considered a principal precept of his teaching. It is recorded in the *Analects of Confucius* that the Master says, ‘By extensively studying all learning, and keeping himself under the restraint of the rules of propriety, one may thus likewise not err from what is right.’ (Legge’s version of the *Four Books*).

In choosing ‘博文約禮’ as its motto, the University is laying equal emphasis on the intellectual and moral aspects of education.

THE CHINESE UNIVERSITY OF
HONG KONG ORDINANCE 1976

An Ordinance to repeal and replace The Chinese University of Hong Kong Ordinance, to repeal the Chung Chi College Incorporation Ordinance, the Board of Trustees of The United College of Hong Kong Incorporation Ordinance and the New Asia College Incorporation Ordinance and to make new provision concerning the Chung Chi College, The United College of Hong Kong and the New Asia College, and for purposes connected therewith.

WHEREAS —

(a) The Chinese University of Hong Kong was established and incorporated in 1963 by The Chinese University of Hong Kong Ordinance as a University with a federal constitution;

(b) The constituent Colleges of the University are Chung Chi College, New Asia College and The United College of Hong Kong;

(c) it is considered desirable that some of the powers and functions conferred on the said Colleges under their respective constitutions and Ordinances should be vested in The Chinese University of Hong Kong and that the principal role of the said Colleges be the provision of student-orientated teaching under the direction of The Chinese University of Hong Kong.

(d) it is also considered desirable to make certain alterations in the constitution of The Chinese University of Hong Kong;

(e) it is declared that The Chinese University of Hong Kong, in which the principal language of instruction shall be Chinese, shall continue to —

(i) assist in the preservation, dissemination, communication and increase in knowledge;

(ii) provide regular courses of instruction in the humanities, the sciences and other branches of learning of a standard required and expected of a University of the highest standing;

(iii) stimulate the intellectual and cultural development of Hong Kong and thereby to assist in promoting its economic and social welfare:

[24th December, 1976]

Now, THEREFORE, BE IT ENACTED by the Governor of
Hong Kong, with the advice and consent of the Legislative Council thereof, as follows —

Short title.

1. This Ordinance may be cited as The Chinese University of Hong Kong Ordinance 1976.

Definitions.

2. (1) In this Ordinance, unless the context otherwise requires —
“approved course of study” means a course of study approved by the Senate;
“Assembly of Fellows” means the Assembly of Fellows of a College;
“Board of Trustees” means the Board of Trustees of a College;
“Chancellor”, “Pro-Chancellor”, “Vice-Chancellor”, “Pro-Vice-Chancellors” and “Treasurer” respectively mean the Chancellor, Pro-Chancellor, Vice-Chancellor, Pro-Vice-Chancellors and the Treasurer of the University;
“College” means a constituent College of the University as provided by section 3;
“Council”, “Senate”, “Convocation”, “Faculties”, “Schools of Studies” and “Boards of Studies” respectively mean the Council, Senate, Convocation, Faculties, Schools of Studies and Boards of Studies of the University;
“Fellow” means a Fellow of a College;
“graduates” and “students” respectively mean the graduates and students of the University;
“Head” means the Head of a College;
“members” means such persons as are prescribed by the Statutes to be members of the University;
“officers” means the officers of the University as provided by section 5;
“precincts” means, in relation to the University, the boundaries of Lot No. 725 in Demarcation District 42;

(Cap. 1109.) “repealed Ordinance” means The Chinese University of Hong Kong Ordinance repealed by section 21;

First Schedule. “Statutes” means the Statutes of the University contained in the First Schedule as the same may from time to time be amended or replaced under section 13(1);
“teacher” means a member of the full-time teaching staff of the University of the rank of Assistant Lecturer and above;
“University” means The Chinese University of Hong Kong (香港中文大學) continued under section 4.

(2) A special resolution is a resolution passed at one meeting of the Council and confirmed at a subsequent meeting held not less than one month nor more than 6 months thereafter and which is approved at each such meeting by —
(a) not less than three-fourths of those present and voting; and
(b) not less than half the whole membership of the Council.
3. (1) The constituent Colleges of the University are Chung Chi College, New Asia College and The United College of Hong Kong and such other institutions as may from time to time by Ordinance, in accordance with a special resolution of the Council, be declared to be Colleges of the University.

(2) No provision in the constitution of any College shall be of effect if it is in conflict with or inconsistent with this Ordinance.

(3) No person shall be excluded from being a member of the University by reason of sex, race or religion.

4. (1) The Colleges and members of the University shall continue to be a body corporate called The Chinese University of Hong Kong (香港中文大學) which shall be the same University as that established by The Chinese University of Hong Kong Ordinance 1963.

(2) The University shall have perpetual succession and may sue and be sued in that name and shall have and may use a common seal and may take by gift or otherwise purchase and hold, grant, demise or otherwise dispose of real or personal estate.

(3) No dividend or bonus shall be paid and no gift or division of money shall be made by or on behalf of the University to any of its members except by way of prize, reward or special grant.

5. (1) The officers of the University shall be the Chancellor, the Pro-Chancellor, the Vice-Chancellor, the Pro-Vice-Chancellors, the Treasurer, the Head of each College, the Dean of each Faculty and of the Graduate School, the Secretary, the Registrar, the Librarian, the Bursar and such other persons as may by special resolution be designated as officers.

(2) The Chancellor shall be the head of the University and may confer degrees in the name of the University.

(3) The Governor shall be the Chancellor.

(4) The Chancellor may appoint a person to be the Pro-Chancellor of the University; and the Pro-Chancellor shall exercise such powers and perform such duties as may be prescribed in the Statutes.

(5) The Vice-Chancellor shall be the chief academic and administrative officer of the University and shall be a member of the Council and the Chairman of the Senate, and may confer degrees in the name of the University.

(6) The Council shall appoint, after consultation with the Vice-Chancellor, one or more Pro-Vice-Chancellors from among the regular staff of the University to exercise such powers and perform such duties as the Council may direct.

(7) A Pro-Vice-Chancellor shall carry out all the functions and duties of the Vice-Chancellor in the absence of the Vice-
Chancellor, except that he may not confer degrees.

(8) The manner and period of appointment of the Treasurer shall be prescribed by the Statutes, and his duties shall be such as the Council may determine.

6. There shall be a Council, a Senate and a Convocation whose respective constitutions, powers and duties shall be as prescribed by this Ordinance and the Statutes.

7. Subject to this Ordinance and the Statutes, the Council shall —
   (a) be the governing and executive body of the University;
   (b) have the management and control of the affairs, purposes and functions of the University;
   (c) have the control and management of the property and financial affairs of the University including the property of the Colleges, but in the exercise of such power of control and management in respect of any immovable property of any College the Council shall not alter the use of any such property without the prior consent of the Board of Trustees of the College concerned;
   (d) make such University appointments as it thinks proper;
   (e) have power to approve the fees charged by the University in respect of approved courses of study;
   (f) provide for the custody and use of the University’s seal.

8. Subject to this Ordinance and the Statutes and subject also to review by the Council, the Senate shall have the control and regulation of —
   (a) instruction, education and research;
   (b) the conducting of examinations for students;
   (c) the award of degrees other than degrees *honoris causa*;
   (d) the award of diplomas, certificates and other academic distinctions of the University.

9. Subject to this Ordinance and the Statutes, the Convocation shall consist of the graduates and such other persons as may be prescribed by the Statutes and may make representations to the Council and the Senate upon any matters affecting or concerning the interests of the University.

10. (1) The Council and the Senate may establish such committees as they think fit.

(2) Unless otherwise provided, any committee may consist partly of persons who are not members of the Council or the Senate, as the case may be.

(3) Subject to this Ordinance and the Statutes, the Council
and the Senate may, subject to such conditions as they may impose, delegate any of their powers and duties to any Board or committee or to any officer.

(4) Any committee established under this section may make such Standing Orders, including provision allowing a casting vote to the chairman thereof, for the conduct of meetings as it thinks fit.

11. Subject to this Ordinance and the Statutes, the Council shall appoint, on such terms and conditions as it thinks fit, the staff of the University.

12. (1) The Council may establish such Faculties, Schools of Studies and other institutions as it thinks fit.

(2) The Council, on the recommendation of the Senate, may form such institutions for the promotion of study and learning as the Council may from time to time determine.

(3) The Senate may establish such Boards of Studies as it may from time to time determine.

13. (1) The Council may by special resolution make Statutes, subject to the approval thereof by the Chancellor, prescribing or providing for —

(a) the administration of the University;
(b) the membership of the University;
(c) appointments, elections, resignation and retirement and removal of officers and teachers of the University;
(d) examinations;
(e) the conferring of degrees and the award of other academic distinctions;
(f) the composition, powers and duties of the Council and the Senate;
(g) the Faculties and Schools of Studies, their membership and functions;
(h) the Boards of Studies, their membership and functions;
(i) the Convocation;
(j) the exercise of any function by the University, the Council, the Senate, the Chancellor, the Pro-Chancellor, the Vice-Chancellor, the Pro-Vice-Chancellors, other officers, teachers and other members;
(k) financial procedure;
(l) fees payable to the University as a condition of admission to any examinations held by the University or for the conferring of any of the degrees of the University or for the award of any diploma or certificate or other academic distinction or for attendance at a University Extension Course or any similar purpose;
(m) the admission, welfare and discipline of students; and
(n) generally, the carrying into effect of this Ordinance.

First Schedule.

(2) The Statutes contained in the First Schedule shall have effect as if made and approved under subsection (1).

Decrees and regulations.

14. Subject to this Ordinance and the Statutes, the Council and the Senate may from time to time make decrees and regulations respectively to direct and regulate the affairs of the University.

Degrees and other awards.

15. The University may —
(a) confer such degrees as may be specified in the Statutes;
(b) award diplomas and certificates and such other academic distinctions as may be specified in the Statutes;
(c) provide such lectures and instruction for persons not being members of the University as the University may determine;
(d) confer degrees honoris causa of Master or Doctor in accordance with the Statutes; and
(e) subject to the Statutes, deprive any person of any degree conferred or diploma, certificate or other academic distinction awarded by the University.

Honorary Degrees Committee.

16. There shall be an Honorary Degrees Committee which shall be constituted as provided by the Statutes for the purpose of advising the Council with regard to the award of degrees honoris causa.

Execution and authentication of documents.

17. Any instrument purporting to be executed under the seal of the University and signed by the Chancellor, Pro-Chancellor, Vice-Chancellor, a Pro-Vice-Chancellor or Treasurer and counter-signed by the Secretary shall be received in evidence upon its production without further proof and shall, unless the contrary is proved, be deemed to be an instrument so executed.

Crown rent.

18. Rent payable to the Crown in respect of all land granted to the University by the Crown shall be limited in total to $10 a year.

Transfer of property etc. from Colleges to University.

19. (1) The Second Schedule shall apply to the transfer of property and staff of the Colleges to the University.

(2) No stamp duty shall be payable in respect of any transfer or vesting of property, whether movable or immovable, or any surrender of an agreement or any assignment of rights affected by the Second or Third Schedule; and no stamp duty shall be payable on any agreement executed in accordance with paragraph 2 of Part I of the Second Schedule.
20. (1) The Chung Chi College Incorporation Ordinance, the Board of Trustees of The United College of Hong Kong Incorporation Ordinance and the New Asia College Incorporation Ordinance are repealed.

(2) The Third Schedule shall have effect with respect to the constitution and powers of the Boards of Trustees of Chung Chi College, The United College of Hong Kong and the New Asia College.

21. The Chinese University of Hong Kong Ordinance and the Statutes of The Chinese University of Hong Kong are repealed.

22. (1) The Council and Senate appointed under the repealed Ordinance shall continue to be the Council and the Senate of the University until a new Council and Senate are constituted under the Statutes.

(2) No other appointment made under the repealed Ordinance shall be affected by the repeal but shall, unless otherwise varied, continue on the same terms and conditions as if this Ordinance had not been enacted.

(3) All property, whether movable or immovable, rights and privileges vested in the University immediately prior to the commencement of this Ordinance shall continue to be vested in the University on the terms and conditions, if any, on which the same were then vested at that date, and the University shall continue to be subject to the obligations and liabilities to which it was subject immediately prior to the commencement of this Ordinance.

The Vice-Chancellor, the Pro-Vice-Chancellors and all other salaried officers and teachers—
(a) shall vacate their offices or appointments by the 31st July following the date on which they attain the age of 60 years unless the Council by a vote of at least two-thirds of the number of members present shall request any such person to continue in his office or appointment for such period thereafter as it shall from time to time determine, or
(b) may retire, or upon the direction of the Council shall retire, at any time after attaining the age of 55 and before attaining the age of 60.

STATUTE 23
REIGNATIONS

Any person wishing to resign from any office or membership of any body shall do so by notice in writing.

STATUTE 24
REMOVAL FROM OFFICE, MEMBERSHIP OR APPOINTMENT

1. The Council may for good cause as defined in paragraph 2 remove the Treasurer from his office and any member of the Council other than the Chairman and any person appointed under paragraph 1(k) and (l) of Statute 11 from his membership of the Council.

2. “Good cause” in paragraph 1 means—
(a) conviction of any crime which shall be judged by the Council to be of an immoral, scandalous or disgraceful nature;
(b) actual physical or mental incapacity which shall be
judged by the Council to prevent the proper execution of the duties of the officer or membership; or

(c) any conduct which shall be judged by the Council to be of an immoral, scandalous or disgraceful nature.

3. The Council may for good cause as defined in paragraph 5 remove from their appointments the Vice-Chancellor, the Pro-Vice-Chancellors, the Head of each of the Colleges, any of the Professors or Readers or Senior Lecturers, the Secretary, the Registrar, the Librarian, the Bursar and any other person holding an academic or administrative appointment made by the Council.

4. The Council may and shall if requested by the person concerned or by any 3 members of the Council before such removal appoint a committee consisting of the Chairman of the Council, 2 other members of the Council and 3 members of the Senate to examine the complaint and to report to the Council thereof.

5. “Good cause” in paragraph 3 means —

(a) conviction of any crime which the Council after consideration if necessary of a report of the committee referred to in paragraph 4 shall consider to be of an immoral, scandalous or disgraceful nature;

(b) actual physical or mental incapacity which the Council after consideration if necessary of a report of the committee referred to in paragraph 4 shall consider to be such as to render the person concerned unfit for the execution of the duties of his office or appointment;

(c) conduct of an immoral, scandalous or disgraceful nature which the Council after consideration if necessary of a report of the committee referred to in paragraph 4 shall consider to be such as to render the person concerned unfit to continue to hold his office or appointment;

(d) conduct which the Council after consideration if necessary of a report of the committee referred to in paragraph 4 shall consider to be such as to constitute failure or inability to perform the duties of his office or appointment or to comply with the conditions of the tenure of his office or appointment.

6. Subject to the terms of his appointment no person referred to in paragraph 3 shall be removed from his appointment save for good cause as defined in paragraph 5 and in pursuance of the procedure specified in paragraph 4.
1. No student shall be permitted to pursue an approved course of study for a Bachelor's degree of the University unless he shall have —
   (a) been admitted by and to the University;
   (b) been registered as a matriculated student of the University; and
   (c) satisfied such other requirements for admission to the course as shall have been prescribed by regulation.

2. No student shall be permitted to pursue an approved course of advanced study or research leading to a certificate, diploma or higher degree of the University unless he shall have —
   (a) been admitted by and to the University;
   (b) been registered as an advanced student of the University; and
   (c) satisfied such other requirements for admission to the course as shall have been prescribed by regulation.

3. No student shall be permitted to pursue an approved course of study or research not leading to a degree or diploma of the University unless he shall have —
   (a) been registered as an associate student of the University; and
   (b) satisfied such other requirements for admission to the course as shall have been prescribed by regulation.

4. Each student shall be subject to the disciplinary control of the University.

5. The University may demand and receive from any student such fees as the Council may from time to time determine.

6. The Senate shall from time to time determine the requirements which an applicant must fulfil for matriculation as a student of the University.

7. There may be a University Students Union. The constitution shall be subject to the approval of the Council.

8. There may be a Students Union for each College. The constitution shall be subject to the approval of the Council, on the recommendation of the Assembly of Fellows of the College concerned.
1. (1) The University may confer the degrees of Bachelor, Master and Doctor with the designations prescribed in sub-paragraphs (a), (b), (c), (d), (da) and (e) of paragraph 2 to students who —
(a) have attended an approved course of study;
(b) have passed the appropriate examination or examinations; and
(c) have complied in all other respects with the requirements prescribed therefor.

(2) The University may confer any of the degrees with the designations prescribed in sub-paragraph (f) of paragraph 2 on any person who has rendered distinguished service in the advancement of any branch of learning or who has otherwise rendered himself worthy of such a degree.

Doctor of Science *honoris causa* (D.Sc. *honoris causa*)

Doctor of Social Science *honoris causa* (D.S.Sc. *honoris causa*).

3. Save as provided by paragraph 4 the degree of Bachelor shall not be conferred upon a student unless he shall have attended approved courses of study as a matriculated student of the University for at least 4 academic years.

4. The Senate may, by way of special exception to the conditions prescribed in paragraph 3, accept as part of the attendance of a student qualifying him for the conferment of the degree of Bachelor periods of attendance as a matriculated student at another university recognized by the Senate for this purpose:

Provided that the degree of Bachelor shall not be conferred upon such student unless —

(a) he shall have attended an approved course of study as a matriculated student of the University for at least 2 academic years, one of which shall be the final year; and

(b) his total period of attendance as a matriculated student of this and another university or universities shall have been not less than 3 academic years.

5. The Senate may accept a certificate of proficiency in any subject issued by another university recognized for this purpose by the Senate as exempting from any examination of the University in such subject for the degree of Bachelor other than an examination qualifying for that degree in the final year of an approved course of study therefor.

6. Save as provided in paragraphs 10 and 11, the degree of Master shall not be conferred upon any person in any Faculty unless he has pursued an approved course of study or research for a period of at least 12 months after satisfying the requirements for the conferment of the degree of Bachelor in the Faculty concerned or after admission as a postgraduate student in terms of paragraph 9.

7. Save as provided in paragraphs 10 and 11, the degree of Doctor of Philosophy in any Faculty shall not be conferred upon any person unless he has —
(a) followed an approved course of research as a student of the University for a period of at least 24 months after satisfying the requirements for the conferment of the degree of Bachelor in the Faculty concerned or after admission as a postgraduate student in terms of paragraph 9; and

(b) submitted a thesis which is certified by examiners to make a distinct contribution to the knowledge or understanding of the subject and to afford evidence of originality shown either by the discovery of new facts or by the exercise of independent critical power.

8. Save as provided in paragraphs 10 and 11, the degree of Doctor of Literature, Doctor of Science, Doctor of Social Science, Doctor of Business Administration or Doctor of Medicine shall not be conferred upon any person unless —

(a) he shall be a graduate of the University of not less than 7 years standing; and

(b) he shall have made in the opinion of the examiners a sustained contribution of distinction to the advancement of his subject.

9. (1) A person who has graduated in another university or who as a registered student of Chung Chi College, The United College of Hong Kong or New Asia College has obtained before the date of establishment of the University a diploma or certificate issued by or on behalf of such Colleges may be exempted from the matriculation requirement of the University and may be admitted as a postgraduate student and may proceed to the degree of Master or Doctor under such conditions as may be prescribed by the Statutes and by decrees and regulations made thereunder.

(2) A person who —

(a) has completed a course of study in a tertiary educational institution and holds professional or similar qualifications equivalent to a degree; and

(b) has satisfied such other requirements as may be prescribed by the Statutes and by decrees and regulations made thereunder,

may be exempted from the matriculation requirements of the University and may be admitted to be a postgraduate student with the approval of the Senate.

10. The Senate may recommend the award of the degree of Master or Doctor in any Faculty to any member of the academic staff of the University and for this purpose may exempt any such person from any of the requirements pre-
scribed for the conferment of the degree other than the examination therefor.

11. The Council may recommend the award without requiring attendance or examination of a degree of Master or Doctor *honoris causa*:

Provided that the holder of a degree which has been conferred *honoris causa* shall not, by the fact that he has been admitted thereto, be entitled to practise any profession.

12. The Council shall not recommend the award of any degree of Master or Doctor *honoris causa* except after consideration of recommendations submitted by an Honorary Degrees Committee consisting of—

(a) the Chancellor;
(b) the Vice-Chancellor;
(c) the Heads of the Colleges;
(d) the Chairman of the Council;
(e) two members of the Council nominated by the Council; and
(f) members of the Senate, equal in number to the number of the Colleges, elected by the Senate.

13. The University may award diplomas and certificates—

(a) to students who—

(i) have attended an approved course of study;
(ii) have passed the appropriate examination or examinations; and
(iii) have complied in all other respects with the requirements prescribed therefor; and

(b) to persons other than those provided for in sub-paragraph (a) above who are deemed by the Senate to possess the qualification appropriate for the award of such diplomas and certificates provided that such persons—

(i) have pursued a course of study therefor at one or more educational institutions in Hong Kong recognized for this purpose by the Senate; and
(ii) have passed the appropriate examination or examinations of the University.

14. Subject to the right of appeal from the decision of the Senate to the Council and from the decision of the Council to the Chancellor, the Senate may deprive any person who has been convicted of an arrestable offence or who in their opinion has been guilty of dishonourable or scandalous conduct of any degree, diploma, certificate or other award of the University.
STATUTE 27

Examinations

Every examination or other test of the University qualifying in any subject of study for a degree or diploma or qualifying for a higher degree of the University shall be conducted by a board of examiners which shall consist of—

(a) one or more internal examiners who shall be teachers in the subject of the examination; and

(b) one or more external examiners who shall not be members of the academic staff of the University and who shall not have taken part in the teaching of the candidates.

STATUTE 28

Citation

The Statutes may be cited as the Statutes of The Chinese University of Hong Kong.

SECOND SCHEDULE

**THIRD SCHEDULE**  
[ss. 19(2) & 20(2).]

**CONSTITUTION OF THE COLLEGES**

**Interpretation**

1. In this Schedule, unless the context otherwise requires —  
   “Boards of Trustees” means the Boards of Trustees of the Colleges incorporated under paragraph 2;  
   “Chairman” means the Chairman of each Board of Trustees;  
   “Council” means the Council of The Chinese University of Hong Kong.

2. (1) There shall be a Board of Trustees of Chung Chi College which shall be a body corporate and shall have the name of “The Trustees of Chung Chi College” and in that name shall have perpetual succession, and may sue and be sued, and shall have and use a common seal.  
   (2) There shall be a Board of Trustees of The United College of Hong Kong which shall be a body corporate and shall have the
name of “The Trustees of The United College of Hong Kong” and in that name shall have perpetual succession, and may sue and be sued, and shall have and use a common seal.

(3) There shall be a Board of Trustees of New Asia College which shall be a body corporate and shall have the name of “The Trustees of New Asia College” and in that name shall have perpetual succession, and may sue and be sued, and shall have and use a common seal.

3. (1) Each Board of Trustees shall hold in trust, and administer for the benefit of its College the movable property which is vested in the Board under paragraph 7; and shall hold in trust for the benefit of the University the buildings the subject of the agreements to be made under paragraph 2 of the Second Schedule.

(2) Subject to sub-paragraph (3), each Board of Trustees may, for the purpose of the trusts under sub-paragraph (1), exercise the powers conferred on trustees by the Trustee Ordinance.

(3) A Board of Trustees shall not, without the prior approval of the Council, which may be subject to such conditions as the Council thinks fit, accept any gift for the benefit of the College.

(4) Each Board shall make written provision for its procedure in the transaction of business, the discharge of its aims and duties and the maintenance of good order at its meetings.

(5) The Board of Trustees of Chung Chi College shall —

(a) recommend to the Council, through the Administrative and Planning Committee, all appointments to the Theology Division, or whatever part of the University shall succeed the Division as being responsible for theological education, including the appointment of the Head of the Theology Division (or equivalent post) and of the warden of the Theology Hostel;

(b) allocate for the promotion of theological education, including the upkeep of the Theology Building, the resources made available from private funds;

(c) provide for and appoint the Chaplain of the Chapel; and

(d) advise the Senate on all major policy matters relating to theological education.

and the Board of Trustees may delegate to a Theological Council appointed by it the power to discharge the functions and duties imposed on the Board by this sub-paragraph.

4. (1) The persons who, immediately before the commencement of this Ordinance, were members of the Board of Governors of Chung Chi College shall, on the commencement of Composition of Boards of Trustees.
this Ordinance, become the members of the Board of Trustees of that College incorporated under paragraph 2(1).

(2) The persons who, immediately before the commencement of this Ordinance, were members of the Board of Trustees of The United College of Hong Kong shall, on the commencement of this Ordinance, become members of the Board of Trustees of that College incorporated under paragraph 2(2).

(3) The persons who, immediately before the commencement of this Ordinance, were members of the Board of Governors of New Asia College shall, on the commencement of this Ordinance, become members of the Board of Trustees of that College incorporated under paragraph 2(3).

(4) Any person who is at the commencement of this Ordinance, or who becomes, a member of a Board of Trustees may retire as a member of that Board of Trustees, but no person shall retire so as to reduce the number of members of the Board of Trustees below 4.

(5) Vacancies in the number of members of a Board of Trustees shall from time to time be filled by such legal means as would have been available for the appointment of new trustees if the Board of Trustees had not been incorporated, and, without prejudice to the generality to the foregoing, section 42 of the Trustee Ordinance shall apply in relation to the appointment of new Trustees.

5. (1) Each Board of Trustees shall forward to the Registrar of Companies —

(a) notice of the address of the principal office of the Board of Trustees and any change thereof;

(b) a list of the names and addresses of the members of the Board of Trustees, and any change therein, certified as correct by the Chairman; and

(c) a copy of the written provision made under paragraph 3(4), and any change therein, certified as correct by the Chairman.

(2) Notification in accordance with sub-paragraph (1)(a) and (b) shall be made —

(a) within 3 months of the commencement of this Ordinance; and

(b) thereafter within 28 days of any change.

(3) Notification under sub-paragraph (1)(c) shall be made within 28 days after the making of any written provision under paragraph 3(4) or the making of any change therein.

(4) Any person may inspect at the office of the Registrar of Companies any of the documents registered under this paragraph.

(5) A fee of $5 shall be payable for registering or inspecting any document referred to in this paragraph.
6. Each Board of Trustees shall in each year, prepare and produce to the Council its audited accounts in such form and at such times as the Council may determine.

7. On the commencement of this Ordinance—

(a) all movable property held on trust by or for each College and all immovable property held by or on behalf of the Colleges outside the precincts of the University shall vest in the Board of Trustees of the College concerned without further assurance and on the same trusts and subject to the same terms and conditions, if any, on which the same was then held;

(b) the Board of Trustees of each College shall succeed to all rights, privileges, obligations and liabilities of the Colleges relating to the property vested in the Boards of Trustees under sub-paragraph (a).

8. Nothing in this Schedule shall affect or be deemed to affect the rights of Her Majesty the Queen, Her Heirs or Successors or the rights of any body politic or corporate or of any other persons except such as are mentioned in this Schedule and those claiming by, from or under them.

PART II

GENERAL INFORMATION
THE UNIVERSITY

The Chinese University of Hong Kong was incorporated in October 1963 under a Hong Kong Ordinance 'to establish a university with a federal constitution in which the principal language of instruction shall be Chinese'. It is a self-governing corporation drawing its income mainly from grants made by the Hong Kong Government, supplemented by fees and donations from private sources. Although the principal language of instruction is Chinese, the University is international in outlook and enjoys a close association with many universities, foundations and organizations abroad.

Origin

The University has its origin in three Post-Secondary Colleges: New Asia College (founded 1949), Chung Chi College (founded 1951), and United College (founded 1956), which drew, in their early days, a sizeable proportion of their teachers and some of their students from the mainland of China.

In 1957, these three Colleges came together to form the Chinese Colleges Joint Council with the object of securing Government recognition for their efforts in providing higher education for the students of Hong Kong. In 1959, Mr. John S. Fulton (now Lord Fulton of Falmer) was invited to advise on general lines of development for the three Colleges as a whole. In 1960, the Government introduced the Post-Secondary Colleges Ordinance and Regulations which approved financial support to the three Colleges with a view to raising their standards to a higher level.

In 1961, a University Preparatory Committee, chaired by the late Dr. the Hon. Sir Cho-Yiu Kwan, was appointed to advise on sites and buildings and matters relating to the establishment of the University. A group of advisers from Britain and the United States visited Hong Kong in the same year to advise the Colleges on development to university level of courses in arts, science, commerce and social science. The report of these advisers was encouraging, and so in 1962, the Government appointed a commission under the chairmanship of Mr. John S. Fulton to consider and determine whether and how a Chinese University should be created.

The Report of the Fulton Commission, known as the Fulton Report and published in April 1963, recommended the establishment of the new University. This Report was approved in principle by the Government shortly after its publication. A Provisional Council was set up in June 1963, and The Chinese University Ordinance and Statutes were enacted in September 1963. On October 17, 1963 the University was formally inaugurated.
The New Ordinance

In November 1975, the Governor, in his capacity as Chancellor of the University, appointed an external commission to review the constitutional arrangements governing the University and its constituent Colleges. Lord Fulton of Falmer was again invited to serve as Chairman of the Commission.

The second Fulton Report was submitted to the Chancellor in March 1976 and published in May. The Report recommended important changes to the constitutional arrangements governing the University and the Colleges. Under the new arrangements proposed by the Commission, the University would be responsible for academic and development policy, financial management, the matriculation of students, the appointment of staff, the determination of curriculum, the conduct of examinations and the award of degrees. The participation of senior academics in the governing bodies of the University would be strengthened. In addition, the Report also recommended that the teaching work of the University should reflect a balance between "subject-orientated" teaching and small group "student-orientated" teaching, and that the latter should be implanted in the Colleges. This "student-orientated" teaching would be designed to build in the students habits and aptitudes of mind characteristic of the expert in their chosen fields and relevant to the solution of the kind of problems they are likely to encounter later in life; it would also be designed to equip students for meeting change in a rapidly changing world.

A new Ordinance to give effect to the recommendations in the Fulton Report was enacted in December 1976. The Ordinance (No. 86 of the Laws of Hong Kong 1976) and the Statutes of the University are printed on pp. 5-43 of this Calendar.

Finance

Apart from fees which are comparatively low, the main source of income for recurrent expenses and capital equipment is the Hong Kong Government. In addition, the University and its constituent Colleges have small endowment funds at their disposal and also receive contributions from private donors and interested associations for scholarships, research and other designated purposes.

Negotiations between the University and the Government are conducted by the University and Polytechnic Grants Committee, established in 1965. This Committee advises the Government on the financial requirements of the University.

The capital cost of buildings in the new campus will amount to some HK$240 million by 1981 and the cost of the site formation and external works has been about HK$43 million. The Hong Kong Government has assumed responsibility for several basic buildings in addition to site formation and external works.
Lands and Buildings

The University has under lease from the Hong Kong Government a tract of land measuring some 113.8 hectares located north of the Shatin New Town in the New Territories. The site overlooks the beautiful Tolo Harbour to the north and Tide Cove to the east.

The campus varies in elevation from 4.4 to 140 metres above sea level and was carved from a rocky promontory into four plateaux in the late sixties to provide the building sites.

In the valley at the foot of the hill is Chung Chi College, which has been operating at the locality since 1956. The College’s scores of buildings are spread over a scenic expanse next to the University Station of the Kowloon—Canton Railway. Midway, from west to east, stand the Li Dak Sum Building, a teaching building; the University Library; the University Administration Building; the Benjamin Franklin Centre, an amenities building for staff and students; the Sui-Loong Pao and Pi-Ch’iu Buildings, two teaching blocks; the Institute of Chinese Studies and Art Gallery; the Y.C. Liang Hall, a complex of lecture rooms; the Sir Run Run Shaw Hall, a 1,500-seat multi-purpose auditorium; the Science Centre Complex; the Choh-Ming Li Building for Basic Medical Sciences; the Postgraduate Hall Complex, a dormitory mainly for postgraduates; the Health Centre; the Yali Guest House; the Estates and Maintenance Building; and the Sports Centre. A dominating feature of this central portion of the campus is the tree lined University Mall, 80 metres long and 35 metres wide, around which the aforesaid buildings cluster, including the University Library and the University Square at the western end and the Science Centre and the Choh-Ming Li Building at the eastern end. To either side of the highest elevation on campus stand United College and New Asia College, which moved from urban Hong Kong and Kowloon to their present sites in 1972 and 1973 respectively. Each of these two Colleges has two teaching blocks, a library, a staff/student amenities building and two student hostels.

Close to the shore to the southeast is the Fong Shu Chuen Building, a Chinese language centre. Further north are the Marine Science Laboratory and a sewage treatment plant. The latter, the first of its kind in Hong Kong, was constructed in 1970 for disposing of sewage from most buildings on campus.

During the past decade, over fifty new buildings have been erected on this once barren hillside. Buildings completed more recently include the Sir Run Run Shaw Hall, the Choh-Ming Li Building for Basic Medical Sciences (the Prince of Wales Hospital at Shatin for clinical teaching by the Faculty of Medicine will be operational by 1983), and the Li Dak Sum Building. A building that will serve as an extension to the Science Centre will be constructed shortly to the south of the Choh-Ming Li Building. Meanwhile, planning is underway...
for another teaching building and a building to house the Transport Office and the Fire Prevention/Security Office.

Sports facilities on campus include two sports fields built on the lowlands that face the shore to the east. Each of these provides, among other things, a 400-metre track, a soccer pitch, tennis courts, basketball courts, and volleyball courts. Both New Asia College and United College have a sizable indoor gymnasium which houses a basketball court with tiered spectator seating. The Benjamin Franklin Centre has an outdoor Olympic-size swimming pool. Another gymnasium is being constructed on central campus adjacent to the 2,800-seat, partly covered spectator stand of the University Sports Field.

Some land and facilities of the University are likely to be affected by the imminent Government New Territories Trunk Road System which would infringe onto the University’s reclamation area. Under a proposed borrow-fill scheme associated with the Trunk Road project, the University will have new building sites and campus roads formed by the Government.

Residential Accommodation

The University provides a variety of accommodation for staff members, academic visitors and students.

Staff Housing

Staff quarters are allocated by the University to appointees who are eligible for staff housing. There are 230 senior staff flats on campus in multi-storey apartment buildings plus a number of flats for single teachers and junior staff, and several blocks of quarters for minor staff. Further blocks of senior staff quarters are being planned.

The Inter-University Hall provides fully-furnished and self-contained accommodation for academic visitors coming to The Chinese University for periods of one to two years.

Guest Houses

The University operates three guest houses which provide room and board facilities for guests on short periods of stay in the University. The Yali Guest House, completed in 1974, is a gift from the Yale-China Association. The University Guest Houses I and II began operation in 1980.

Student Hostels

The University and its constituent Colleges operate a number of hostels for students who wish to live on campus.
The Postgraduate Hall Complex consisting of Sir Cho-Yiu Hall, Lady Ho Tung Hall, and the Postgraduate Hall provides 250 places for graduate students as well as 3rd and 4th year undergraduates. Chung Chi College has seven hostels: Ming Hua Tang, Wen Lin Tang, Ying Ling Tang, Hua Lien Tang, Theology Hostel, Madam S. H. Ho Hall and Wen Chih Tang. Together they accommodate a total of 784 students. At New Asia College, the Chih Hsing Hall, Xuési Hall and a new hostel due to be completed in 1982 can accommodate another 770. At United College, the Adam Schall Residence and Bethlehem Hall have a combined capacity for 470, and a new hostel capable of housing 300 students is being planned.

With the exception of the Postgraduate Hall Complex which contains 120 single rooms, most student hostels in general provide shared accommodation in the form of twin-bed rooms. They are available to all undergraduates except where specified. Because competition for residential places is very keen, intending students are advised to apply early to their respective College authorities.

In addition to the above student residences, there are five temporary hostels which could house over 300 students in dormitory-style rooms, but these are only temporary structures and are not intended to remain permanently.

Hostel fees range from HK$200 to $800 a term, depending on the type of accommodation. Special rooms for married students without children are available at HK$340 to $450 per month. Detailed information on hostel fees is listed on pp. 446-447.

Liaison with the World of Learning

The University has since its inception in 1963 strived to become a Chinese institution of international character. It sees as its main mission the cross fertilization of Chinese and Western cultural traditions. To this end, the University has through the years cultivated
and maintained connections with a large number of overseas bodies, including universities, institutes and centres of learning, governmental agencies, and in particular, with regional and international associations of universities.

The University enjoys a close relationship with numerous overseas universities. Under an agreement drawn up in 1965, it arranges annually for an exchange of students and staff with the University of California System. In recent years, the number of students in the two universities involved under this arrangement has hovered around 20 each year. There are also student exchange programmes with New York University and the University of Missouri in America. Staff exchanges are also maintained with a number of French universities through the efforts of the government of France, with the majority of the outgoing staff members from this University being China specialists. In Japan, a short-term staff visit programme with the Soka University and a student exchange programme with the Tsukuba University have been established. Beginning in 1982, further exchanges will be put into effect through the International Student Exchange Programme (Washington, D.C.) of which the University is now a member.

The University's constituent Colleges, too, have cultivated links with certain universities abroad. New Asia has close relations with the Yale-China Association, Chung Chi with the Wellesley-Yenching Committee and the Princeton-in-Asia Committee, and United with Williams College and Indiana University. For the exchange of undergraduates, Chung Chi has special arrangements with Redlands University and Washington and Lee University, and New Asia, with Asia University (Tokyo).

In response to the growing demand of overseas students and scholars for Chinese and Asian studies, the University launched the International Asian Studies Programme (IASP) in 1977 in cooperation with the Yale-China Association. The Programme makes it possible for participants to take credit-earning courses on China and Asia taught in English and Chinese, as well as a rich curriculum of Chinese language instruction. So far over 240 participants from nineteen countries have joined the Programme. For details of admission to the Programme, see pp. 439 of this Calendar.

The facilities at the University for international conferences and seminars have continued to attract scholars from far and wide. The Luce Scholars Programme administered by The Asia Foundation, for example, has been conducted in the University for several years. In recent years, the University has been the venue for many regional conferences or gatherings of international stature. Some of these were organized with various local organizations, others were co-sponsored with institutions abroad including the International Association of Schools of Social Work, the International Public Relations Association, the International Development Research Centre in Canada, the Josiah
Macy Jr. Foundation in America, the Association of Commonwealth Universities, the Southeast Asian Mathematical Society, the Association of Southeast Asian Institutions of Higher Learning, and the Inter-University Consortium for International Social Development. The international character of the University has been significantly enhanced by foreign government contributions to the language and literature instruction programme. Visiting lectureships have been provided by the governments of France, West Germany, Italy and Japan for instruction in their respective languages, and many graduates of the University have obtained fellowships for advanced studies in these countries. In addition, the University has since its very early days benefited from grants from various foundations for such important uses as staff development, research, scholarships and exchange programmes. These foundations include the Lingnan University Board of Trustees in New York, The Asia Foundation, the Yale-China Association, the Harvard-Yenching Institute, the World Health Organization, the Leverhulme Trust and the Japan Foundation.

Cooperation with other universities has always been encouraged and maintained through various associations of universities. Today, the University is a member of the Association of Commonwealth Universities (ACU), the Association of Southeast Asian Institutions of Higher Learning (ASAIHL), and the International Association of Universities (IAU). It has also been closely associated with the former Inter-University Council for Higher Education Overseas (IUC) in the United Kingdom.
THE CONSTITUENT COLLEGES

Chung Chi College

Chung Chi College was founded in October 1951 by representatives of Protestant churches in Hong Kong to fill the need for a local institution of higher learning that would be both Chinese and Christian. In 1955 it was formally incorporated under an Ordinance of the Hong Kong Government.

The College had a very modest beginning with only 63 students in the first year. It used borrowed and rented premises, first in the Cathedral Hall and St. Paul’s Co-educational College, then in Caine Road and Lower Albert Road. Expansion was made possible by financial help from North America through the United Board for Christian Higher Education in Asia and the Trustees of Lingnan University and from Britain through the Asia Christian College Association. Local churches, firms and private individuals also gave considerable support. In 1956 the College moved to its permanent site in the New Territories in the beautiful Ma Liu Shui Valley. Between 1959 and 1963 the College received the bulk of its funds from the Hong Kong Government. In 1963 the College was incorporated as one of the three Colleges of The Chinese University of Hong Kong.

Board of Trustees

With the reorganization of the University following the enactment of The Chinese University of Hong Kong Ordinance 1976, the Board of Trustees of Chung Chi College was reconstituted. Its duties are mainly concerned with the management of the movable property vested in the Board and of certain College buildings and, through fund-raising campaigns, the promotion of scholastic and cultural activities of the College. The membership of the Board is as follows:

Theological Training

From 1957 religious education and theological training have been part of the academic programme of Chung Chi College. Since the establishment of The Chinese University of Hong Kong in 1963, training in religious studies has received government funds for teachers' salaries, while training of Christian ministers was, from 1963 to 1968, on an affiliated basis through the Chung Chi Theological Seminary. In 1968, the Seminary as such ceased to exist and its function was transferred to a new Division of Theology in the Department of Philosophy and Religion. The new Division, under a Theological Council, is financed independently by church gifts, but academically is a recognized part of the College and the University. Students enter by fulfilling the University's entrance requirements, and University degrees are awarded to those who qualify. A small number of selected non-degree students are also trained, but with a separate curriculum.

Students and Extra-Curricular Activities

In academic year 1980-81 Chung Chi College had a student enrolment of 1,445, of whom 881 were men and 564 were women. Most of the students were born in Hong Kong, but a few of them are overseas Chinese from Macau, Indonesia and Taiwan. About one third of the students are Christians.

Student activities of all sorts are organized by the Chung Chi College Student Union and a host of student societies. Together they
are responsible for the many cultural, athletic and extra-curricular activities that serve to provide a social meeting ground for students from different hostels and different faculties.

New Asia College

New Asia College was founded in 1949 by its former President, Dr. Ch'ien Mu, and a small group of scholars from China. Their purpose was to preserve traditional Chinese culture and to balance it with Western learning so that students might at once have a thorough knowledge of their cultural heritage and be prepared to cope with the modern world.

The College began humbly in impoverished circumstances, but soon attracted support both locally and from overseas. Since 1954, it has had the cooperation and support of the Yale-China Association which had been active in educational development in China for many years.* It has also received support from other educational institutions and foundations, notably the Harvard-Yenching Institute, The Asia Foundation, the Rockefeller Foundation, the British Council, the Mencius Foundation, and the Ford Foundation. As a grant College from 1959 to 1963, and now as a constituent College of the University, it has received generous financial support from the Hong Kong Government.

Board of Trustees

With the reorganization of the University following the enactment of The Chinese University of Hong Kong Ordinance 1976, the Board of Trustees of New Asia College was reconstituted. Its duties are mainly concerned with the management of the movable property vested in the Board and of certain College buildings and, through fund-raising campaigns, the promotion of scholastic and cultural activities of the College. The membership of the Board is as follows:

Chairman
Mr. Edwin Tao 陶學鶴, BA, MS

Vice-Chairman

Students and Extra-Curricular Activities

In academic year 1980-81 New Asia College had a student enrolment of 1,375, of whom 862 were men and 513 were women. Over 74% of the student population received scholarships, bursaries or other forms of financial assistance.

Extra-curricular activities form an important part of student life in the College and are freely organized by the New Asia College Student Union and a host of student clubs and societies.

United College

The United College was founded in 1956 by the amalgamation of five Post-Secondary Colleges (namely, Canton Overseas College, Kwang Hsia College, Wah Kiu College, Wen Hua College, and Ping Jing College of Accountancy) which decided to pool their resources so as to better provide higher education for local students. It was incorporated under an Ordinance of the Hong Kong Government in 1957 with a Board of Trustees as its governing body.

In 1962, the College Board of Trustees was broadened to include representation from the local community, and Dr. the Hon. Kenneth Ping-fan Fung was elected Chairman. In July 1962, Mr. T. C. Cheng, then Chief Assistant Secretary for Chinese Affairs, accepted the Board of Trustees’ offer of appointment as President, and assumed office in January 1963. The United College became a constituent College of The Chinese University of Hong Kong in October 1963. Since then, the College has made rapid progress which is reflected by the rapid increase in enrolment, the improved quality of staff and students, as well as by a general enlivening in all aspects of college life.

In March 1971, foundation stones were laid for the five new buildings for the College in Shatin. Late in December in that same year, the College moved from the premises in Bonham Road to the new campus.
In May 1972, Sir Kenneth resigned from the Chairmanship of the College to take up his appointment as a member of the University and Polytechnic Grants Committee. He was succeeded by Dr. the Hon. P. C. Woo.

Students and Extra-Curricular Activities

In the academic year 1980/81, a total of 1,597 students were assigned to United College, of whom 1,088 were men and 509 were women. 1,204 students received interest-free loans and grants from the Government. Students received a total of 221 awards in the form of prizes, scholarships, fellowships and bursaries administered by the College and the University.

Inaugurated in 1963, the United College Student Union is a statutory body representing all the students of the College. Various student organizations are registered under the Student Union. They include faculty, department, and class societies, and various interest clubs. Each year, the Student Union organizes a wide range of activities, including academic, athletic and other social functions.
PART III

ADMISSION AND
PROGRAMMES
OF STUDIES
UNDERGRADUATE ADMISSION AND DEGREES

Eligibility for admission is conditional upon fulfilling the entrance requirements of the University or obtaining exemption therefrom under the provisions in Section IV of the Regulations Governing Admission to Undergraduate Studies. In addition to satisfying the entrance/exemption requirements mentioned above, applicants for admission to the first-year courses leading to a Bachelor's degree of the University shall be required to satisfy the relevant Faculty Admission Requirements (Section III of the Regulations Governing Admission to Undergraduate Studies). The Regulations Governing Admission to Undergraduate Studies are printed on pp. 491-494 of this Calendar.

The University's five Faculties of Arts, Business Administration, Medicine, Science, and Social Science offer a wide range of courses leading to the BA, BBA, MB ChB, BSc, and BSSc Degrees. Programmes of Studies and General Regulations Governing Undergraduate Studies are respectively printed on pp. 125-420 and pp. 495-507 of this Calendar. Major and Minor subjects offered by Faculties other than the Faculty of Medicine are as follows:

Faculty of Arts
Chinese Language and Literature (including Translation), English, Fine Arts, French, German, History, Italian, Japanese, Music, Philosophy, Religion and Theology.

Faculty of Business Administration

Faculty of Science
Biochemistry, Biology, Chemistry, Computer Science, Electronics, Mathematics, Physics, and Statistics.

Faculty of Social Science

Students of the four Faculties listed above follow a four-year programme. First-year students are admitted on a Faculty basis. They do not have to make a firm choice of Major subject until they have
completed their first year of study. Students must pass the Degree Examination in partial fulfilment of the requirements for admission to a Bachelor’s degree. The Examination consists of Parts I and II, to be taken at the end of the third and fourth years of study respectively. Graduates are eligible for honours degrees awarded on the basis of their Degree Examination results. Regulations for Degree Examination are printed on pp. 508-515 of this Calendar.

Faculty of Medicine

The Faculty of Medicine starts admitting students on a Faculty basis in 1981. The Faculty does not offer major/minor programmes but a single professional undergraduate course of Medicine instead. During the two preclinical years of the professional courses, an integrated curriculum will be adopted, with Anatomy, Physiology, Pharmacology and Biochemistry as the main subjects; and introductory courses in social and behavioural sciences will also be conducted. Professional examinations will be held towards the end of the second preclinical year. The three clinical years of study thereafter will have classes held at the teaching hospital in Shatin in the various clinical departments. Further professional examinations will be held during the clinical years. Students must pass both the professional examinations and continuous assessment of individual subjects for admission to a Bachelor’s degree. Graduates in Medicine are also required to serve one year’s internship at a recognised hospital.

ENG 121/122
Analytical Writing
Core, Majors & Minors, 2-Term
1st year
4 units; 2 hrs. class work/wk.
A course designed to improve the English communication skills of
Major and Minor students in the English Department. Specially pre-
pared materials based on the needs of such students are used to develop
listening, speaking, reading and writing skills to an advanced level of
proficiency.

ENG 125
Introduction to Literature
(Methodology)
Core, Majors; 1st Term
1st year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.
This course is designed to give the students a general understanding of
the nature and variety of literature. It will try to provide the students
with the critical terms and basic tools to analyze and evaluate literature.
Readings will include poetry, fiction, and drama.

ENG 128
Historical Survey of English
Core, Majors; 2nd Term
1st year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.
This course attempts to give an overall view of the chronological de-
velopment of English Literature up to the end of the 17th century. It will
introduce a sampling of representative literary works which help to
form the tradition and are, in turn, informed by it. Individual works of
different genres will be integrated with their respective historical back-
grounds as well as related to antecedent works to show the continuity
of the tradition. Lectures will concentrate on cultural background and
illustrations of it through particular works. Audio-visual aids (e.g.
movies, filmstrips, slides, overhead transparencies, tapes, etc.) will be
used extensively to help bridge the culture gap. Seminars will concen-
trate on examining major works and the students’ responses to them.

ENG 130

Course Descriptions

GER 101  
German I  
Core, Minor; Elective, Others; Year  
1st—4th year  
6 units; 4 hrs. Lect./wk.
This course aims at a basic knowledge of the written and spoken language. Emphasis will be placed on integrated grammar explanation and application. The course will include oral drills in the language laboratory, written assignments and dictation.

GER 102  
Introduction to Contemporary Germany  
Core, Minor; Elective, Others  
1st—4th year  
2 units; 1 hr. Lect./wk.
This course will provide the students with some basic information on recent historical events, political structure, social life and cultural trends in Germany. Students who take German as their Minor subject have to attend this course, preferably at the beginning of their studies. The course will be mainly conducted in English.

GER 103  
Science German I  
Elective; Science Students; Year  
1st—4th year  
4 units; 2 hrs. Lect./wk.
This course is designed to give a basic knowledge of the written language, emphasizing elementary grammar. The course aims at preparing students to be able to read scientific texts and to translate them into English or Chinese.

GER 104  
Business German I  
Elective; Year  
1st—4th year  
4 units; 2 hrs. Lect./wk.
This course is designed to give a basic reading and translating knowledge of German with growing emphasis on business texts. It provides an elementary knowledge of grammar and of typical patterns of business letters. The course requires no prior knowledge of German. It leads up to Business German II, where the writing of business letters will be practised.

GER 201  
German II  
Core, Minor; Elective, Others; Year  
2nd—4th year  
6 units; 4 hrs. Lect./wk.
This course is a continuation of GER 101, and introduces some fundamental concepts of syntax. Emphasis will be put on a systematic extension of vocabulary and drills in the language laboratory. Together with German I, the course will provide a serviceable knowledge of German for those students who wish to use German as a tool language. GER 201 leads up to GER 301.
GER 202  
German Conversation  
Elective; Year  
2nd—4th year  
4 units; 2 hrs. Lect./wk.

This course is designed for students who have already taken one year of German. The course practises spoken German and includes audiovisual aids and oral drills in the language laboratory.

GER 203  
Science German II  
Elective; Science Students; Year  
2nd—4th year  
4 units; 2 hrs. Lect./wk.

This course is a direct continuation of Science German I. After basic grammar has been introduced, more emphasis is laid on grammatical and syntactical practice on a linguistically more advanced level and with special regard to the structural framework. Texts will include originals from German scientific reviews. The course aims to provide students with the ability to independently translate German scientific texts.

GER 204  
Business German II  
Elective; Year  
2nd—4th year  
4 units; 2 hrs. Lect./wk.

This course is a continuation of Business German I. More emphasis is laid on syntactical problems and on practising the reading and composition of everyday business letters. In the second term, the students may choose from a number of fields and topics relating to the business world.

GER 205  
Intensive German  
Core, Opt., Minor; Elective, Others; Year; 1st—4th year  
8 units; 5 hrs. Lect. + 1 hr. Lab./wk.

This intensive language course covers the same ground as German I and German II. It will provide a serviceable knowledge of German. The course is mainly designed for potential Minor students. But it is open to freshmen, too. In case of good and excellent results GER 205 leads up to GER 301.

GER 301  
German III, Language  
Core, Minor; Elective, Others; Year  
3rd & 4th year  
5 units; 2 hrs. Lect.+1 hr. Sem./wk.

This course offers training for students to further improve their knowledge of the German language. It includes composition writing and a systematic repetition of essential problems of grammar, and drills in spoken German.

GER 302  
Introduction to the History of Modern German Literature and to Cultural History  
Core, Minor; Year  
3rd & 4th year  
4 units; 2 hrs. Lect.+1 hr. Sem./wk.
This course will give an outline knowledge of the history of German literature with emphasis laid on modern developments. The lectures will be supplemented by an introduction to the cultural and social background of the respective periods.

GER 401
German IV, Language
Core, Minor; Elective, Others; Year
4th year
5 units; 2 hrs. Lect.+1 hr. Sem./wk.
This course provides special training in composition, comprehension, precis writing, and spoken language for students already proficient in German. It includes a thorough practice of advanced grammatical and stylistic phenomena. This course is a continuation of GER 301.

GER 402
Special Topic in German Literature or Culture
Core, Minor; Year
4th year
4 units; 2 hrs. Lect.+1 hr. Sem./wk.
This course will deal with an important epoch, the work of a dominant figure, or the development of a particular genre in German literature or culture.

*GER 403

Composition I, II  
Core, Optional, Major; Elective, Others, Year; 3rd & 4th year  
6 units; 1 hr. Lect./wk.  
The student practises writing in forms, styles, and techniques from as many countries and historical periods preceding the 20th Century as time permits. His own ingenuity will be exercised within the limits of the language of various historical periods. The motet, sonata, and rondo are among the many models studied.

The student first explores some of the many 20th Century musical idioms, writing short compositions in polytonality, atonality, seriality, and so on. After these procedures have been thoroughly absorbed, the student will be encouraged to write original pieces. The strength of his original work will come not from adherence to any one system but from his imagination, and a discipline enabling him to organise a set of consistent ideas into a coherent individual language.

* Not offered in 1981-82.

*THE 212
Ancient Near Eastern History and Archaeology
Core, Opt., Major; 2nd term
2nd-4th year
3 units; 3 hrs. Lect./wk.
THE 101 or 501 (M.Div.) is a prerequisite for this course. This course attempts to introduce the history of Israel/Judah on the broad background of ANE history. Selected documents from the Bible and ANE empires, and outstanding archaeological materials will be studied. The main focus will be on an understanding of the early history of Israel and the developments leading to the downfall of both states.

THE 213
History of Religions in the Ancient Near East and Ancient China
Core, Opt., Major; 1st term
2nd-4th year
3 units; 3 hrs. Lect./wk.
THE 101/501 is a prerequisite for this course. The religions of Mesopotamia, Egypt, Canaan and China have many points of similarities due to the common human heritage of primeval, or early historical experiences, resulting myths and traditions and also comparable religious ideas. In order to appreciate better the traditions and ideas preserved in the Bible and in one's own culture this course attempts to study relevant documents from the ANE, the Bible and China.

*THE 214

FACULTY OF MEDICINE

The Faculty of Medicine admits its first class of students in 1981. For the year 1981-82, the Faculty offers pre-clinical courses which will consist of four subjects: Anatomy, Physiology, Pharmacology, and Biochemistry, extending over two academic years. In addition, there are introductory courses consisting of three topics: ‘Mind, Body and Behaviour’, ‘Man, Medicine and Society’, and ‘Statistics in Medicine’, given only during the first pre-clinical year. Each academic year is of 33 weeks in duration and divided into two terms. The curriculum will be integrated as far as possible in lectures, laboratory classes and tutorials. All students will be required to take courses in General Education, General Chinese, General English and Physical Education in compliance with University requirements. Assessment of each individual subject will be made periodically throughout the course. Towards the end of the first pre-clinical year, an examination will be held on all subjects and the introductory courses. For the four main subjects, an examination will be held at the end of the second pre-clinical year.

Anatomy

During the first year, human gross anatomy will be studied mainly by dissection and this will be correlated with surface and radiological anatomy in tutorials. In addition, cell biology and microscopic anatomy of tissues and organ systems will be taught in the first part of the year, followed by a course in human developmental anatomy.

In the second year, the main subject studied will be neuroanatomy after which the course in developmental anatomy will be completed, including congenital abnormalities and genetics.

The teaching will be by means of lectures, demonstrations, tutorials and practical classes and an emphasis will be placed upon the functional and clinical relevance of anatomical knowledge.

Physiology

The topics taught during the first year include general physiology, nutrition, physiology of the gastro-intestinal tract, cardiovascular system, respiratory system and the kidneys. Teaching during the second year covers endocrinology including reproduction, neurophysiology and integrated topics. It will be an important teaching aim to lay the foundation for a good understanding of the pathophysiology of diseases. Physiology will be taught in lectures, practical classes and tutorials with a strong emphasis on small group teaching.

Pharmacology

The overall aims of the course are to provide the scientific basis for the use of drugs and to develop the appropriate attitudes to ensure rational drug therapy.
The course will extend over 2 years and will comprise lectures, tutorials, practical classes, student presentations and class discussions.

In the first year elementary pharmacological ideas will be introduced when their fundamental bases are considered in biochemistry and physiology. In the second year a more rigorous treatment of pharmacokinetic and pharmacodynamic principles will be given. This will include a consideration of the pharmacokinetic factors which determine drug dosage and their modification by pathological and pharmacological events, the modes of action of drugs in common clinical use and elementary aspects of toxicology. In the latter part of the course there will be increasing participation in the interdisciplinary clinical presentations as preparation for the course of clinical pharmacology which will follow.

Biochemistry

This course is designed to acquaint students with the biochemistry necessary for an understanding of the molecular basis of medicine. Fundamental biochemistry concepts are introduced through a consideration of the chemical facets of tissue function. Subjects covered include the biochemistry of the vascular, alimentary, endocrine, musculoskeletal, immune and nervous systems. Topics in molecular biology relevant to medicine are also introduced. Lectures are supplemented by practical classes, tutorials and audio-visual material. The application of biochemistry to the analysis of health-related problems is emphasised.

Mind, Body and Behaviour

This course aims at studying man as an organism adapting to his psychological, physical, and interpersonal environment. The emphasis will be on those aspects of human behaviour science relevant to basic medical practical. The subjects include normal and abnormal psychological functions, biological rhythms, stress and adaptation, the meaning of behaviour, body-mind connections, human life stages, human sexuality, concept of disease, sick role and illness behaviour, compliance and attribution, human communication and interviewing techniques, and interpersonal relationship and group processes, etc.

It is to be introduced throughout the first year by means of lectures, small group tutorials and/or seminars. In appropriate circumstances, clinical demonstrations as well as laboratory and field work will be introduced.

Man, Medicine and Society

This first year course considers people as members of communities and of society as a whole, drawing contrasts with individual people considered as biological organisms (anatomy, physiology, biochemistry etc.) and as personalities (Mind, body and behaviour).
The course points out that groups of people must be studied in order to decide which individuals are "healthy" or "normal", or the opposite.

The structures of society are discussed, with special attention to their influence on health and disease; aspects such as family, housing, work and personal habits are considered. The influence of doctors and other health workers, in the past and the present, on the health of individual people and population groups is also discussed.

Teaching will include small-group seminars, lectures and clinical examples.

Statistics in Medicine

This brief introductory course in the first year begins by discussing biological variability and variations within and between observers of biological phenomena. Methods of analysing biological data are described using students' experiments in physiology and pharmacology and also clinical examples.

Students will be shown how to assess and interpret published laboratory and clinical research as well as routine vital statistics. Basic concepts of sampling and epidemiological methods will be introduced.

† Core courses.
Course Description

BCH 210 Introduction to Biomolecules
Core, Major; Year
2nd year
1st term: 3 units; 3 hrs. Lect./wk.
2nd term: 2 units; 1 hr. Lect./wk. + 1 hr. Tut./wk.

This course attempts to acquaint the beginning students with basic chemical knowledge relevant to the understanding of biological systems. Constituent molecules of living systems will be described with emphasis on structures and properties. Certain biological functions will be discussed in relation to their structures.

BCH 290 Introduction to Biomolecules Laboratory
Core, Major; 1st term
2nd year
3 units; 1 hr. Lect. + 4 hrs. Lab./wk.

This laboratory course is designed for beginning majors to acquaint with basic biochemical techniques and methods. Their application in the study of the structures and properties of carbohydrates, lipids, proteins and nucleic acids are illustrated in the experiments. Quantitative aspects are emphasized whenever applicable.

BCH 211 Principles of Biochemistry (I)
(for Majors only)
Core, Major; 2nd term
2nd year
2 units; 2 hrs. Lect./wk.

This course introduces the principles of bioenergetics, the properties of enzymes and the metabolism of carbohydrates and lipids with special emphasis on their control mechanisms. Other topics, such as oxidative phosphorylation and photosynthesis will also be discussed.

BCH 221 Introductory Biochemistry
Core, Minor; Year
2nd year
4 units; 2 hrs. Lect./wk.

This course attempts to acquaint the beginning students with the basic concepts in Biochemistry such as cellular organization and function and to promulgate the impact of biochemistry on man and his future. Topics discussed in the first term will include such subjects as pH, water, aspects of energy flow, man’s adaptation to nature and the effect of environmental factors on man’s biological and behavioural responses. The second term will be devoted to considering the chemical and structural aspects of biological molecules such as carbohydrates, lipids, amino acids, proteins, purines and pyrimidines, nucleic acids and vitamins.

BCH 281 Introductory Biochemistry Laboratory
Core, Minor; 2nd term
2nd year
2 units; 4 hrs. Lab./wk.

This laboratory course is designed for minor and elective students in
their first year of studies in biochemistry. Basic techniques are introduced.

**BCH 311**  
Principles of Biochemistry  
(for Majors only)  
Core, Major; 1st term  
3rd year  
4 units; 4 hrs. Lect./wk.  
This course presents a general study of the phenomenon of life by chemical approach with special emphasis on metabolism and control of metabolism. The topics cover the metabolism of carbohydrates, lipids, amino acids, purines and pyrimidines, nucleosides and nucleotides. The kinetics and catalytic properties of enzymes, bioenergetics, biosynthesis of macromolecules and biochemical genetics will also be discussed. The practical work is given in BCH 312 & 392.

**BCH 321**  
Principles of Biochemistry  
(for Minors only)  
Core, Minor; Year  
3rd year  
4 units; 2 hrs. Lect./wk.  
This course presents similar material as given in BCH 311 but is designed for minor and elective students.

**BCH 381**  
Principles of Biochemistry Laboratory  
(Minor)  
Core, Minor; Year  
3rd year  
5 units; 1 hr. Lect. + 3 hrs. Lab./wk.  
This course will attempt to acquaint the students with the principles and practice of basic biochemical techniques such as the purification and characterization of proteins and enzymes, nucleic acids, lipids and carbohydrates; electrophoresis; column, paper, thin-layer and gas chromatography. (see BCH 321)

**BCH 312**  
Analytical Biochemistry  
Core, Major; 1st term  
3rd year  
2 units; 2 hrs. Lect./wk.  
This course, aiming at experimental competence with biological systems and their components at a quantitative level, covers the following: Chromatographic and electrophoretic methods, differential centrifugation, liquid scintillation counting, Warburg Manometry, UV and fluorescence spectrophotometry, purification and characterization of lipids, hormones and enzymes, DNA and RNA; and a small project of research interest.

**BCH 392**  
Analytical Biochemistry Laboratory  
Core, Major; 1st term  
3rd year  
4 units; 8 hrs. Lab./wk.  
The laboratory course serves to provide basic training in biochemical techniques. Students will learn the application of different biochemical methods in the qualitative and quantitative estimation of biologically active molecules.
BCH 041
Guided Studies in Biochemistry

Core, Major, STOT¹; Year
4th year
4 units; 2 hrs. STOT/wk.

Students participating in this course are required to submit oral and written reports on current topics in biochemical literature or where applicable, on research work carried out under the supervision of a faculty adviser.

BCH 411
Proteins and Enzymes

Core, Both; 1st term
4th year
3 units; 3 hrs. Lect./wk.

This course discusses topics such as the physical properties of proteins, their structural determination and chemical synthesis. The study of enzymes, particularly with respect to the probing of active sites, mechanisms of catalysis and regulation of enzyme activities will be emphasized. The chemical and functional aspects of proteins such as the tropic hormones and antibodies will also be considered in detail. (see BCH 491)

BCH 491
Proteins and Enzymes Laboratory

Core, Both; 1st term
4th year
3 units; 1 hr. Lect. + 4 hrs. Lab./wk.

This course emphasizes instrumental analysis such as pH-stat, spectrophotometric titrations employed in protein chemistry, molecular weight determinations of macromolecules. (see BCH 411)

BCH 412
Clinical Biochemistry

Core, Optional, Major; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

This course presents the basic principles in clinical biochemistry and its methodology. Tests of functions will be described.

BCH 492
Clinical Biochemistry Laboratory

Core, Optional, Major; 2nd term
3rd & 4th year
2 units; 4 hrs. Lab./wk.

Relevant assays of biochemical constituents in body fluids will be performed.

BCH 413
Endocrinology

Core, Optional, Major; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

This course emphasizes the structure-function relation of catecholamines, steroid, peptide and hypothalamic hormones. The regulatory role of hormones in physiological and biochemical processes will be discussed in detail.

¹ Student-orientated Teaching.
BCH 493
Endocrinology Laboratory
Core, Optional, Major; 2nd term
3rd & 4th year
2 units; 4 hrs. Lab./wk.

This laboratory course serves to demonstrate the biological effects of hormones. Students will also learn to quantitate hormones from live animals by biological and chemical methods.

BCH 415
Radioisotope Application in Biological Science
Core, Optional, Major; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

This course is designed to acquaint students with the principles and applications of radioisotopes in the biological sciences. Topics to be covered will include safety precautions, nature of radioactive decay, counting equipments, counting techniques, tracer applications and kinetics in addition to specific examples of applications.

BCH 495
Radioisotope Application in
Biological Science Laboratory
Core, Optional, Major; 2nd term
3rd & 4th year
2 units; 4 hrs. Lab./wk.

Experiments designed to demonstrate the safe handling of radioactive materials, the counting of radioactivity and the use of radioisotopes in biological studies will be performed.

* BCH 416
Carbohydrates and Lipids
Core, Optional, Major; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

This course presents a survey of recent advances in chemistry and biochemistry of carbohydrates and lipids. Relevant emphasis will be placed on the relationship of structure and biological functions. Research techniques concerned will also be discussed.

* BCH 496
Carbohydrates and Lipids Laboratory
Core, Optional, Major; 2nd term
3rd & 4th year
2 units; 4 hrs. Lab./wk.

The content of this course will emphasize experimental techniques specifically related to carbohydrates and lipid biochemistry.

BCH 417
Neurochemistry
Core, Optional, Both; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

This course will discuss the structure and composition of nervous tissue in relation to its functions. Aspects of metabolism special to the nerve and brain will be examined. These include energy metabolism, water and electrolyte balance, exchanges between blood and brain, and between brain and cerebrospinal fluid, neurotransmitters and modulators.

* Not offered in 1981-82.
nutrition and development of the nervous system, neuroendocrinology and the biochemistry of mental diseases.

BCH 497  
Neurochemistry Laboratory  
Core, Optional, Both; 2nd term  
3rd & 4th year  
3 units; 1 hr. Lect. + 4 hrs. Lab./wk.  
This course will consist of a set of experiments to illustrate various biochemical techniques for the study of neurochemistry.

BCH 418  
Physical Biochemistry  
Core, Major; 1st term  
4th year  
3 units; 3 hrs. Lect./wk.  
This course deals with the application of physical principles in biochemistry and discusses topics such as the energetic basis of life process, water and electrolytes, diffusion and transport processes and physical methods such as ultracentrifugation, viscosimetry, light scattering, circular dichroism, optical rotatory dispersion and X-ray diffraction.

BCH 498  
Physical Biochemistry Laboratory  
Core, Major; 1st term  
4th year  
2 units; 4 hrs. Lab./wk.  
This course consists of the experimental application of the physical principles enunciated in BCH 418 to the determination of the shape and size of macromolecules. The use of viscosimetry, fluorometry, optical rotatory dispersion and light-scattering will be emphasized.

BIO 410  
Molecular Biology  
Core, Optional, Both; 2nd term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.  
This course considers the nature of gene at the molecular level. The structure, organization, synthesis and biological activities of DNA, RNA with special reference to regulation of RNA and protein biosynthesis will be discussed. Attention will be directed particularly to current concepts and methods of reasoning wherever applicable.

BIO 490  
Molecular Biology Laboratory  
Core, Optional, Both; 2nd term  
3rd & 4th year  
2 units; 4 hrs. Lab./wk.  
In the laboratory practicals, the techniques in handling bacterial virus, DNA and RNA preparation, and DNA-RNA hybridization method will be introduced.

BIO 428  
Plant Biochemistry  
Core, Optional, Both; 2nd term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.
Emphasis of this course will be placed on the biochemical processes which are unique to plants such as the fixation, reduction and assimilation of carbon dioxide and inorganic nitrogenous compounds. Other topics will be the effect of light on plant metabolism other than photosynthesis, and the biochemistry of cell wall substances with special reference to controlling mechanisms in the synthesis of these substances in relation to plant differentiation.

BIO 488  Plant Biochemistry Laboratory
Core, Optional, Both; 2nd term
3rd & 4th year
2 units; 4 hrs. Lab./wk.

This laboratory course accompanies course BIO 428.

Examination Scheme

Major Programme

All 6-2 Majors are required to take: (a) Papers 1A and 2, and one paper from Papers 5, 6, 7, 8, 9, 10 and 11 in their Part I Examination, and (b) Papers 3 and 4, and one paper from Papers 5, 6, 7, 8, 9, 10 and 11 in their Part II Examination. All 4-2-2 Majors are required to take Papers 1A and 2 in their Part I Examination and Papers 3 and 4 in their Part II Examination.

Minor Programme

All students minoring in Biochemistry are required to take Paper 1B in their Part I Examination and Paper 3 in their Part II Examination.

Degree Papers

Paper 1A  — Principles of Biochemistry (for Majors)
          BCH 311  Principles of Biochemistry

### Study Scheme

**Major Programme**

All students majoring in Biology are required to take (1) all core courses, (2) four core optional courses, (3) either BIO 041 or 042, and (4) two elective courses. Selection of core optional courses in category (2) should be confined to one of the five streams of courses. Details of lists of courses for various streams are available in the Department of Biology.

**Minor Programme**

All students who take Biology as a minor subject shall (subject to the specific requirements of their major Board), in their first or second years take Principles of Biology and a minimum of nine additional units (lectures — 6 units, practical — 3 units) including two courses from Diversity of Life I, II and III. During their third and fourth years, they are required to take two core/core optional courses, and one elective course.

Students who begin to take Biology as a minor subject in their second year are required to take Principles of Biology and Diversity of Life I and II or III plus one elective course in their second or third year and one core/core optional course plus one elective course in the fourth year.

Course Description

NSC 101/102 Perspectives in Life Sciences

Elective, Gen. Ed.; Both terms
1st -- 4th year
3 units; 3 hrs. Lect./wk.

This course is offered jointly by the Departments of Biochemistry, Chemistry and Biology. It is intended to provide a treatment, in breadth rather than in depth, which covers the environment for life, the nature, origin and continuity of life, the fundamental chemical structure of materials, the diversity of and interactions among organisms, together with some implications of the products of chemical technology for life. Demonstrations and field work may replace or supplement some lectures.

A knowledge of science (e.g. up to the level of Certificate of Education) will not be assumed.

BIO 103 Principles of Biology

Core, Both; 1st term
1st year
3 units; 3 hrs. Lect./wk.

This course is intended to integrate the student's knowledge of biology, and apply it to some aspects of the subject which are of universal importance. Some of the topics to be treated in lectures are: the origin of life, evolution, the problem of classification, interrelationships of various organisms at all levels, and imminent problems in biology.

BIO 193 Principles of Biology Laboratory

Core, Both; 1st term
1st year
1 unit; 3 hrs. Lab./wk.

To accompany BIO 103. Stress is laid upon the development of scientific method.

BIO 104 Diversity of Life I: Protista

Core, Major; Core, Opt., Minor; 2nd term
1st year
2 units; 2 hrs. Lect./wk.

This course is the first of three courses with the general title of Diversity of Life. It is designed to give a sound general knowledge of the viruses, bacteria, blue-green algae and protozoa in preparation for advanced courses.

BIO 194 Diversity of Life I: Protista Laboratory

Core, Major; Core, Opt., Minor; 2nd term
1st year
1 unit; 3 hrs. Lab./wk.

To accompany BIO 104.
BIO 201
Entomology
Elective; 2nd term
2nd year
2 units; 2 hrs. Lect./wk.
This course mainly deals with insect physiology and applied entomology.

BIO 291
Entomology Laboratory
Elective; 2nd term
2nd year
1 unit; 3 hrs. Lab./wk.
Laboratory periods include the study of classification, morphology, anatomy and life history of insects, and field trips.

*BIO 202
Phycology
Elective; 2nd term
2nd year
2 units; 2 hrs. Lect./wk.
An introduction to both fresh-water and marine algae, which includes the classification, morphology, structure, physiology, phylogeny and interrelationships between different groups of algae. Their ecological role and economic importance are discussed.

*BIO 292
Phycology Laboratory
Elective; 2nd term
2nd year
1 unit; 3 hrs. Lab./wk.
The laboratory includes the identification and morphological survey of different groups of algae. Field trips are required for ecological observations and identification of local species.

BIO 203
Mycology
Elective; 2nd term
2nd year
2 units; 2 hrs. Lect./wk.
Mycology is the branch of science for fungi. The systematic study of fungi is less than two hundred years old, but the manifestations of this group of organisms have been known to man for thousands of years, ever since the first toast was proposed over a shell full of wine, and the first loaf of leavened bread was baked. This course provides the discussion not only on descriptions of various types of fungi and their growth patterns but also to realize how intimately our lives are linked with those of the fungi.

BIO 293
Mycology Laboratory
Elective; 2nd term
2nd year
1 unit; 3 hrs. Lab./wk.
To accompany BIO 203.

*Not offered in 1981-82
BIO 204
Biotechnique
Elective; 1st term
2nd year
2 units; 2 hrs. Lect./wk.
This course will attempt to acquaint the students with the basic principles and practice of biological techniques such as culture methods, demonstration methods, preserving animal and plant specimens, and microtechniques. The course is primarily designed for students whose future career will be teaching Biology in secondary schools.

BIO 294
Biotechnique Laboratory
Elective; 1st term
2nd year
1 unit; 3 hrs. Lab./wk.
To accompany BIO 204.

BIO 207
Diversity of Life II: Non-vascular and Vascular Plants
Core, Major; Core, Opt., Minor; Year
2nd year
4 units; 2 hrs. Lect./wk.
This course presents a comparative study of the form, ecology and phylogenetic relationships of different groups of plants, from algae to angiosperms.

BIO 297
Diversity of Life II: Non-vascular and Vascular Plants Laboratory
Core, Major; Core, Opt., Minor; Year
2nd year
2 units; 3 hrs. Lab./wk.
Laboratory sessions will include observation, collection and identification of representative plants of different groups.

BIO 208
Diversity of Life III: Invertebrate and Vertebrate Zoology
Core, Major; Core, Opt., Minor; Year
2nd year
6 units; 3 hrs. Lect./wk.
A comprehensive treatment of the multicellular animals with/without backbone. The course considers the morphology, anatomy, ecology, development and life history and phylogenetic relationships of various groups of animals. The function of organ systems will be discussed with reference to the adaptation of the mode of life of the animal.

BIO 298
Diversity of Life III: Invertebrate and Vertebrate Zoology Laboratory
Core, Major; Core, Opt., Minor; Year
2nd year
2 units; 3 hrs. Lab./wk.
To accompany BIO 208.

BIO 301
Principles of Ecology
Core, Major; Core, Opt., Minor; 1st term; 3rd & 4th year
3 units; 3 hrs. Lect./wk.
This course deals with the general principles of ecology which apply to both plants and animals. It includes a general analysis of the physical, chemical, and biological environmental factors and their relation to organisms; population development; intraspecific and interspecific
relations; communities and community types, with an introduction to bio-geography. The significance of ecology is stressed in its application to modern environmental problems.

BIO 391  
Principles of Ecology Laboratory  
Core, Major; Core, Opt., Minor;  
1st term  
3rd & 4th year  
2 units; 4 hrs. Lab./wk.

To accompany BIO 301.

BIO 302  
Plant Anatomy  
Core, Opt., Both; 1st term  
3rd year  
3 units; 3 hrs. Lect./wk.

The course offers comparative studies of the structure of seed plants with emphasis on the angiosperms, origin and differentiation of different tissues and organs and relation of structure to function.

*BIO 392  
Plant Anatomy Laboratory  
Core, Opt., Both; 1st term  
3rd & 4th year 
2 units; 4 hrs. Lab./wk.

Laboratory studies include prepared slides and fresh plant materials from which students are required to make temporary preparations.

BIO 303  
Principles of Embryology  
Core, Opt., Both; 1st term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

This course deals with the general principles and patterns of animal development with emphasis on mechanisms and experimental analyses. Topics will include: gametogenesis, fertilization, cleavage, gastrulation, early mammalian development, organogenesis, postembryonic development, metamorphosis, and regeneration. Selected current topics in developmental biology will also be discussed.

BIO 393  
Principles of Embryology Laboratory  
Core, Opt., Both; 1st term  
3rd & 4th year  
2 units; 4 hrs. Lab./wk.

To accompany BIO 303.

BIO 304  
Environmental Biology  
Core, Opt., Both; 2nd term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

This course deals with the relations between population, resources, and environment, stressing particularly the ecological viewpoint on such resources process as agriculture, nature conservation, and energy supply and use, together with their waste products.

*Not offered in 1981-82.
BIO 394
Environmental Biology Laboratory
Core, Opt., Both; 2nd term
3rd & 4th year
2 units; 4 hrs. Lab./wk.
To accompany BIO 304.

BIO 305
Animal Histology
Core, Opt., Both; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.
This course is microscopic study of the animal body. The structure and physiological function of different tissues, namely, epithelial tissue, connective tissue, muscular tissue and nervous tissue are discussed. This is followed by the presentation of the various tissues that are closely associated with the structure of organ systems namely, circulatory system, skin, respiratory system, digestive system, urinary system, male and female reproductive systems, organ of special senses and central nervous system.

BIO 395
Animal Histology Laboratory
Core, Opt., Both; 2nd term
3rd & 4th year
2 units; 4 hrs. Lab./wk.
To accompany BIO 305.

*BIO 307
Microbiology
Core, Opt., Both; 1st term
3rd & 4th year
3 units; 3 hrs. Lect./wk.
This course is designed to introduce the students to the biology of microorganisms, with emphasis on bacteria. The lectures cover the survey of microbial morphology, structures, classification, growth and physiology, and the reactions of microorganisms to their physical, chemical and biological environments.

*BIO 397
Microbiology Laboratory
Core, Opt., Both; 1st term
3rd & 4th year
2 units; 4 hrs. Lab./wk.
The laboratory exercises cover the taxonomic and physiological survey of the microbial world, as well as the general principles and techniques of bacteriology.

BIO 308
Marine Biology
Core, Opt., Both; 1st term
3rd & 4th year
3 units; 3 hrs. Lect./wk.
This course gives an introduction to the physical and chemical aspects of the marine environment, and to life in the oceans and coastal waters. The major groups of marine organisms will be treated, with a consideration of the factors influencing their distribution and abundance. Productivity of the marine environment, and its present and future utilization by man.

* Not offered in 1981-82.
BIO 398
Marine Biology Laboratory
Core, Opt., Both; 1st term
3rd & 4th year
2 units; 4 hrs. Lab./wk.
To accompany BIO 308. Laboratory and field work (including work on boats) designed to give practical experience in the use of sampling and measuring equipment, fishing methods, and diving (optional). Field and laboratory studies of the main habitats.

BIO 041
Experimental Senior Seminar
Core, Major; STOT; Year
4th year
4 units; 2 hrs. STOT/wk.
A supervised laboratory or field investigation, together with a survey of the relevant literature. The results will be presented as a seminar in early January of the fourth year, and a written report handed in for assessment during second semester.

BIO 042
Literature Senior Seminar
Core, Major; STOT, Year
4th year
2 units; 1 hr. STOT/wk.
A supervised review of the literature on a selected topic. The results will be presented as a seminar in early January of the fourth year, and a written review handed in during second semester.

(NB — All major students are required to take BIO 041 or BIO 042 during their fourth year, and will work in close association with a faculty adviser. Either Experimental or Literature Seminar may be chosen, and research should be started during the summer vacation preceding the fourth year.)

BIO 403
Principles of Physiology
Core, Opt., Both; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.
This course considers the physiochemical basis of cellular processes such as regulation, coordination and correlation between structural and functional changes of the cell.

BIO 493
Principles of Physiology Laboratory
Core, Opt., Both; 2nd term
3rd & 4th year
2 units; 4 hrs. Lab./wk.
To accompany BIO 403.

BIO 404
Plant Physiology
Core, Opt., Both; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.
This course considers the functional activity of plants, i.e. the study of the processes involved in plant growth and plant behaviour. It includes an examination of the internal mechanisms by which the plant carries on its many complex synthetic chemical processes and the ways in
which these processes are integrated. Physiological processes are also considered in relation to the plants in their natural environment competing with other organisms.

BIO 494
Plant Physiology Laboratory
Core, Opt., Both; 2nd term
3rd & 4th year
2 units; 4 hrs. Lab./wk.

To accompany BIO 404.

BIO 405
Genetics
Core, Major; Core, Opt., Minor;
1st term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

This course offers to study variations and their origin and methods of inheritance as known in the plant and animal kingdoms. Genetic material, its nature, its potentialities, and manner of transmission are emphasized. Mutation, selection, evolution, and the interaction of heredity with environment are included.

BIO 495
Genetics Laboratory
Core, Major; Core, Opt., Minor;
1st term
3rd & 4th year
2 units; 4 hrs. Lab./wk.

Laboratory work is devoted to the breeding of Drosophila and the study of the mutations induced by ultraviolet light in microorganisms. Corn and tobacco are also used in the laboratory for demonstrating the fundamental principles of genetics.

*BIO 406
Cytology
Core, Opt., Both; 1st term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

A study of the cell and its components at all levels. Topics considered will include cytological techniques and instruments, multiplication and growth, ultrastructure, and chromosome behaviour.

*BIO 496
Cytology Laboratory
Core, Opt., Both; 1st term
3rd & 4th year
2 units; 4 hrs. Lab./wk.

Laboratory sessions will emphasize the histochemistry, autoradiography and chromosome technique.

BIO 408
Mariculture
Elective, 2nd term
3rd & 4th year
2 units; 2 hrs. Lect./wk.

This course deals with the theoretical aspects of culturing marine organisms, and with the condition of mariculture in Hong Kong. BIO 308 is a prerequisite.

* Not offered in 1981-82.
BIO 498  
Mariculture Laboratory  
Elective; 2nd term  
3rd & 4th year  
1 unit; 3 hrs. Lab./wk.

To accompany BIO 408. Practical exercises on the use of maricultural equipment, and the culture of fish, invertebrates, plankton and algae. An introduction to practices used to induce spawning. Visits to maricultural installations, including travelling by boat.

BIO 409  
Animal Physiology  
Core, Opt., Both; 1st term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

This course considers both generally and with a comparative approach, the different functions of animals such as muscle contraction, nervous conduction, irritability, integration, reproduction, circulation, respiration, excretion, etc., and the maintenance of a stable internal environment. The adaptive and evolutionary changes in the different classes of animals are discussed and compared.

BIO 499  
Animal Physiology Laboratory  
Core, Opt., Both; 1st term  
3rd & 4th year  
2 units; 4 hrs. Lab./wk.

The laboratory work includes experiments illustrating the above phenomena.

BIO 410  
Molecular Biology  
Core, Opt., Both; 2nd term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

This course considers the nature of gene at the molecular level. The structure, organization, synthesis and biological activities of DNA, RNA with special reference to regulation of RNA and protein biosynthesis will be discussed. Attention will be directed particularly to current concepts and methods of reasoning where applicable.

BIO 490  
Molecular Biology Laboratory  
Core, Opt., Both; 2nd term  
3rd & 4th year  
2 units; 4 hrs. Lab./wk.

In the laboratory practicals, the techniques in handling bacterial virus, DNA and RNA preparation, and DNA-RNA hybridization method will be introduced.

*BIO 428  
Plant Biochemistry  
Core, Opt., Both; 2nd term  
3rd – Grad.  
3 units; 3 hrs. Lect./wk.

Emphasis of this course will be placed on the biochemical processes which are unique to plants such as the fixation, reduction and assimilation of carbon dioxide and inorganic nitrogenous compounds. Other

* Not offered in 1981-82.
topics will be the effect of light on plant metabolism other than photosynthesis, and the biochemistry of cell wall substances with special reference to controlling mechanisms in the synthesis of these substances in relation to plant differentiation. Prerequisite: at least one term of Principles of Biochemistry or its equivalent.

*BIO 488  
Plant Biochemistry Laboratory  
Core, Opt., Both; 2nd term  
3rd — Grad.  
2 units; 4 hrs. Lab./wk.

This laboratory course accompanies course BIO 428.

BIO 501  
Fish Physiology  
Elective; 2nd term  
4th & Grad.  
2 units; 2 hrs. Lect./wk.

This course is designed to extend the basic physiological principles covered in the physiology core courses to fishes. Instead of covering every aspect of fish physiology, this course only attempts to indicate some unique physiological processes in fish and delineate lines of active research. This will include a detailed coverage of piscine cardiovascular, respiratory, osmoregulatory and endocrine physiology. Emphasis will also be laid on the physiological adaptations to changes in the aquatic environment. Prerequisite: Principles of Physiology and Animal Physiology.

BIO 591  
Fish Physiology Laboratory  
Elective; 2nd term  
4th & Grad.  
1 unit; 3 hrs. Lab./wk.

This laboratory course accompanies course BIO 501.

BIO 507  
Advanced Genetics  
Elective; 2nd term  
4th & Grad.  
2 units; 2 hrs. Lect./wk.

This course deals with recent advances in genetics. Topics to be discussed will vary from year to year. However, the course will emphasize three aspects, e.g. gene concepts, the role of genes in development and behaviour genetics. Open to students who have had general genetics or its equivalent.

BIO 597  
Advanced Genetics Laboratory  
Elective; 2nd term  
4th & Grad.  
1 unit; 3 hrs. Lab./wk.

This laboratory course accompanies course BIO 507.

* Not offered in 1981-82.
*BIO 526  Comparative Endocrinology
Elective; 2nd term
4th & Grad.
2 units; 2 hrs. Lect./wk.

This course presents a survey of the structure and function of various endocrine tissues/glands in the vertebrates (without special emphasis on mammals) and invertebrates (mainly insects and crustaceans).

*BIO 596  Comparative Endocrinology Laboratory
Elective; 2nd term
4th & Grad.
1 unit; 3 hrs. Lab./wk.

The laboratory course accompanies course BIO 526.

**Examination Scheme**

**Major Programme**

The six Degree Papers for Biology major students are as follows:

a) Papers 7 and 8;
b) One paper from 2, 6 or 9;
c) One paper appropriate to the respective streams, viz
   
   Stream A: one paper from 9, 6 or 2
   Stream B: one paper from 12 and 14
   Stream C: 11
   Stream D: 5
   Stream E: 1
d) Plus two more Papers from the selected stream.

**Minor Programme**

Biochemistry/Chemistry students minoring in Biology are required to take two papers from Papers 2, 3, 5, 6, 7, 9, 10, 11, 13 or 14 in their Parts I and II Degree Examinations or other papers approved by the Board concerned.

Geography students minoring in Biology are required to take two papers from Papers 1, 2, 6, 8, 12 and 14 in their Parts I and II Degree Examinations or other papers approved by the Board concerned.

Those beginning Biology in their second year can take Papers 15 or 16 in their Part I Degree Examination and one paper from Papers listed above depending on their Major subject.

Course Description

CHM 101/102 General Chemistry  
Core, Both; Year  
1st year  
6 units; 3 hrs. Lect./wk. +  
1 hr. tutorial/fortnight  

CHM 181/182 General Chemistry Laboratory  
Core, Both; Year  
1st year  
1 unit;  
one 3 hrs. Lab./fortnight  
To be taken in conjunction with General Chemistry. Laboratory work consists of elementary inorganic preparations, volumetric analysis and some physical chemistry experiments.

* Not offered in 1981-82
CHM 027/028
Guided Studies in Chemistry
Core, Major; STOT1; Year
2nd year
2 units; 1 hr. STOT/wk.

This course is conducted in small groups under the supervision of the lecturing staff. Its contents are closely related to those of CHM 230, 240, 231 and 220.

CHM 220
Organic Chemistry I
Core, Major; 2nd term
2nd year
3 units; 3 hrs. Lect./wk.

Fundamental concepts in structure, chemical bonding, stereochemistry, and physical properties of carbon compounds. Preparations, physical properties, and chemical reactions of aliphatic and aromatic hydrocarbons.

Stereochemistry, types of reagents and reaction mechanisms, spectroscopy, and modern theories in the interpretation of structures.

Prerequisite: General Chemistry.

CHM 230
Physical Chemistry I
Core, Major; 1st term
2nd year
3 units; 3 hrs. Lect./wk.

Thermodynamics. Applications to phase equilibria, solutions, chemical equilibria, electrochemistry and living systems.

Prerequisites: General Chemistry, General Physics, and Calculus.

CHM 283
Physical Chemistry Laboratory I
Core, Major; 2nd term
2nd year
2 units; one 4 hrs. Lab./wk.

To be taken in conjunction with CHM 230. This course attempts to acquaint the students with the basic principles of thermodynamics and the applications to chemical and phase equilibria.

CHM 240
Analytical Chemistry
Core, Major; 1st term
2nd year
3 units; 3 hrs. Lect./wk.

1Student-orientated Teaching
Prerequisite: General Chemistry.

CHM 284 Analytical Chemistry Laboratory
Core, Major; 1st term
2nd year
4 units; two 4 hrs. Lab./wk.
To be taken in conjunction with CHM 240. The laboratory work covers quantitative determinations by volumetric gravimetric and elementary instrumental methods of analysis.

CHM 280 Integrated Laboratory I
Core, Major; 2nd term
2nd year
2 units; one 4 hrs. Lab./wk.
To be taken after or in conjunction with CHM 220 and CHM 240. The laboratory work covers instrumental analysis and basic operations in organic chemistry.

CHM 231 Chemical Bonding
Core, Major; 2nd term
2nd year
3 units; 3 hrs. Lect./wk.
Prerequisites: General Chemistry, Calculus, and General Physics.

CHM 225/226 Organic Chemistry (Minor)
Core, Minor; 2nd year
1st term: 3 units; 3 hrs. Lect./wk.
2nd term: 2 units; 2 hrs. Lect./wk.
Prerequisite: General Chemistry.

CHM 287 Organic Chemistry (Minor) Laboratory
Core, Minor; 2nd term
2nd year
2 units; one 4-hrs. Lab./wk.
To be taken in conjunction with CHM 226. Experiments are designed to illustrate the principles of reactions covered in the lectures.

CHM 245 Analytical Chemistry (Minor)
Core, Minor; 1st term
2nd year
3 units; 3 hrs. Lect./wk.
Special course designed for biochemistry and biology majors covering the basic aspects of analytical chemistry.

CHM 289  
Analytical Chemistry (Minor)  
Laboratory  
Core, Minor; 1st or 2nd term  
2nd year  
2 units; one 4-hrs. Lab./wk.  
To be taken in conjunction with CHM 245. The laboratory work covers quantitative determinations by volumetric, gravimetric and elementary instrumental methods of analysis.

CHM 312/313  
Inorganic Chemistry I/II  
Core, Major; Year  
3rd or 4th year  
4 units; 2 hrs. Lect. + 1 hr. Tut./wk.  
Prerequisite: CHM 231.

CHM 322/323  
Organic Chemistry II/III  
Core, Major; Year  
3rd year  
4 units; 2 hrs. Lect./wk.  
Continuation of CHM 220. Systematic studies of the preparations, physical properties and chemical reactions of mono- and bi-functional groups: halides, alcohols, phenols, ethers, epoxides, glycols and glycerols, aldehydes and ketones, carboxylic acids and derivatives, amines and ketoacids.  
Prerequisite: CHM 220.

CHM 381/382  
Organic Chemistry Laboratory II/III  
Core, Major; Year  
3rd year  
4 units; one 4-hrs. Lab./wk.  
To be taken in conjunction with CHM 322/323 Laboratory work consists of experiments designed to illustrate the more important procedures and manipulation encountered in organic chemistry.

CHM 332/333  
Physical Chemistry II/III  
Core, Major; Year  
3rd year  
4 units; 2 hrs. Lect./wk.  
Chi, Physical Chemistry, Chinese ed.
Prerequisite: CHM 230.

CHM 383/384  
Physical Chemistry Laboratory II/III  
Core, Major; Year  
3rd year  
2 units; one 4-hrs. Lab./fortnight  
To be taken in conjunction with CHM 332/333. The practical work deals with the application of principles related to the lectures.

*CHM 335  
Physical Chemistry (Minor)  
Core, Minor; 1st term  
(offered in alternate year)  
3rd or 4th year  
3 units; 3 hrs. Lect./wk.

Thermodynamics, electrochemistry, chemical kinetics, macromolecules, radiochemistry, with emphasis on biochemical relevance.

Prerequisite: General Chemistry.

CHM 420  
Organic Chemistry IV  
Core, Major; Either term  
4th year  
2 units; 2 hrs. Lect./wk.

CHM 430  
Physical Chemistry IV  
Core, Major; Either term  
4th year  
2 units; 2 hrs. Lect./wk.

CHM 480  
Integrated Laboratory II  
Core, Major; 1st term  
4th year  
2 units; one 4-hrs. Lab./fortnight

Laboratory work involves more advanced experiments in physical chemistry.

CHM 041  
Seminar  
Core, Major; STOT; Year  
4th year  
2 units; 1 hr. wk.

Oral and written reports on important topics from the current chemical literature.

* Not offered in 1981-82.
CHM 481
Inorganic Chemistry Laboratory
Core, Major; 2nd term
4th year
2 units; one 4-hrs. Lab./wk.
To be taken after or in conjunction with CHM 312/313.
Laboratory work covers inorganic syntheses, modern techniques of analysis, and experiments designed to illustrate the theoretical principles.

CHM 410
Inorganic Chemistry III
Core, Major; Either term
4th year
2 units; 2 hrs. Lect./wk.
Continuation of Inorganic Chemistry I and II; may be taken concurrently with the latter. Discussion of two or more of the following topics: Symmetry in inorganic chemistry. Organometallic chemistry. Inorganic chains, rings, and cages. Inorganic reaction mechanisms.

CHM 415/416
Inorganic Chemistry (Minor)
Core, Minor; Year
(offered in alternate years)
3rd or 4th year
4 units; 2 hrs. Lect./wk.
Prerequisite: General Chemistry.

Elective Courses
The following courses are for 4th year and graduate students. The topics offered usually change from year to year and not all of them will be offered every year. Each course is weighted as a half-paper in the Part II Degree Examination.

(a) Selected Topics in Analytical Chemistry
CHM 441 Instrumental Analysis
Year: 3 units

(b) Selected Topics in Applied Chemistry
*CHM 401/402 Fundamentals of Chemical Engineering I/II
Year: 4 units
*CHM 403 Medicinal Chemistry of Chinese Herbs
Term: 2 units
*CHM 404 Polymer Chemistry
Term: 2 units
*CHM 405 Textile Chemistry
Term: 3 units
*CHM 406 Environmental Chemistry
Term: 2 units

* Not offered in 1981-82
(c) Selected Topics in Inorganic Chemistry
CHM 451 Inorganic Reaction Mechanisms Term: 2 units
*CHM 452 Physical Methods in Inorganic Chemistry Term: 2 units
*CHM 453 Organometallic Chemistry Term: 2 units

(d) Selected Topics in Organic Chemistry
*CHM 461 Organic Photochemistry Term: 2 units
CHM 462 Synthetic Methods in Organic Chemistry Term: 2 units
*CHM 463 Stereochemistry Term: 2 units
CHM 464 Instrumental Methods in Organic Chemistry Term: 2 units
*CHM 465 Pericyclic Reactions Term: 2 units
*CHM 466 Organic Reaction Mechanisms Term: 2 units
*CHM 467 Organic Mass Spectrometry Term: 2 units

(e) Selected Topics in Physical Chemistry
*CHM 471 Quantum Chemistry Term: 2 units
*CHM 472 Molecular Spectroscopy Term: 2 units
*CHM 473 Radiochemistry Term: 2 units
CHM 474 Chemical Kinetics Term: 2 units
*CHM 475 Applied Physical Chemistry Term: 2 units
CHM 476 X-ray Crystallography Term: 2 units

Research Project
CHM 499 Research Project Year: 4 units

Examination Scheme

Major Programme

All 6-2 Chemistry Majors are required to take:
(a) three full papers in their Part I Examination: Papers 1, 2 and 3
(b) Equivalent to three full papers in their Part II Degree Examination taking at least two from Papers 11, 12 and 13 (weight half-paper each) and choose from selected topics Papers 4, 5, 6, 7 and 8 (weight half-paper each), Paper 10 and Biochemistry Paper 1C (weight one Paper each).

All 4-2-2 Chemistry Majors are required to take:
(a) two full papers in their Part I Examination: Papers 2 and 3
(b) Equivalent to two full papers in their Part II Examination:
   Paper 1 and two half-papers selected from Papers 4, 5, 6, 7, 8, 11, 12 and 13.

* Not offered in 1981-82
The Degree classification for Chemistry majors will be based on both the Degree Paper results and the Grade Point Average of all Chemistry courses except General Chemistry.

Minor Programme

All students minoring in Chemistry are required to take Paper 14 and Paper 15 in their Part I/II Examinations. These two papers may be offered in alternate years.

Degree Papers

Paper 1 — Inorganic Chemistry
CHM 312/313 Inorganic Chemistry I/II
CHM 481 Inorganic Chemistry Laboratory

Paper 2 — Organic Chemistry
CHM 322/323 Organic Chemistry II/III
CHM 381/382 Organic Chemistry Laboratory II/III

Paper 3 — Physical Chemistry
CHM 332/333 Physical Chemistry II/III
CHM 383/384 Physical Chemistry Laboratory II/III

†Paper 4 — Selected Topics in Inorganic Chemistry
†Paper 5 — Selected Topics in Organic Chemistry
†Paper 6 — Selected Topics in Physical Chemistry
†Paper 7 — Selected Topics in Analytical Chemistry
†Paper 8 — Selected Topics in Applied Chemistry

Paper 10 — Undergraduate Thesis
CHM 499 Research Project

Paper 11 — Advanced Inorganic Chemistry
CHM 410 Inorganic Chemistry III

Paper 12 — Advanced Organic Chemistry
CHM 420 Organic Chemistry IV

Paper 13 — Advanced Physical Chemistry
CHM 430 Physical Chemistry IV

Paper 14 — Physical Chemistry (Minor)
*CHM 335 Physical Chemistry (Minor)

Paper 15 — Inorganic Chemistry (Minor)
CHM 415/416 Inorganic Chemistry (Minor)

Biochemistry Paper 1C — Principles of Biochemistry
(for Chemistry Majors)

BCH 321 Principles of Biochemistry

*Not offered in 1981-82
†Several different selected topics in the same branch of Chemistry may be taken as separate half papers 5A, 5B, 5C etc.

Course Description

CSC 111
Computer Principles and Programming Fundamentals
Core, Both; 1st term; 1st year
1st-Grad.
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.
Introduction to programming in high-level language. Algorithms, computer organization and solution of simple problems. Intended for students who want a general knowledge of computers. Prerequisite: None.

CSC 112
Introduction to Computer Science (Major)
Core, Major; 2nd term
1st year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.

CSC 201
Logic Design and Switching Theory
Core, Major; 1st term
2nd year
3 units; 2 hrs. Lect. + 1 hr. Lab./wk.
Number systems, codes, and switching algebra; design of time-independent and time-dependent logic circuits; their organization into data processing and computing systems. Prerequisite: CSC 112.

CSC 202
Machine Structure and Assembly Language Programming
Core, Major; 2nd term
2nd year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.
Binary and hexadecimal number systems. Description of machine organization, including memory, addressing schemes, registers, and data channels. Internal representation of data and instructions. Assembly language programming. Program segmentation and subroutine linking. Macro definition and use. Applications. Prerequisites: CSC 112, CSC 201.

CSC 211
Introduction to Computer Science
Core, Minor; Year
2nd year
6 units; 2 hrs. Lect. + 1 hr. Tut./wk.
This course is designed to provide the basic knowledge and experience necessary to use computers effectively in the solution of problems. It is an introductory course for prospective minors in Computer Science.

Algorithms, programmes and computers. Basic programming and programme structure. Programming and computing systems. Debugging and verification of programmes. Data representation. Organization and
characteristics of computers. Survey of computers, languages, systems and applications. Computer solution of several numerical and non-numerical problems using one or more programming languages. Algorithmic languages. Prerequisite: CSC 111.

CSC 221
Data Processing and
COBOL Programming

Core, Major; Core, Opt., Minor
1st term; 2nd year
Elective, others
Both terms; 2nd - Grad.
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.

Information structure in COBOL: files, records and fields. Structure of a COBOL Programme. Concepts of Structured Programming. Details of the four COBOL divisions. Data processing cycle and file processing on tapes and discs. System flowcharts. Several exercises and programming problems will be presented for solution. Prerequisite: CSC 111.

CSC 222
Introduction to Information Systems
(Major)
Core, Major
2nd term, 2nd year
Elective, others
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.

Study of information systems in relation to both operational and decision-making activities in an organization. The role of the information analyst and systems designer. The development cycle of information processing systems; project control, and tools and techniques used in information systems analysis and design. Prerequisites: CSC 112, CSC 221.

CSC 231
Introduction to Numerical Methods
Core, Major; Core, Opt., Minor
Both terms; 2nd year
Elective, others
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.

An introduction to the numerical algorithms fundamental to scientific computing work. Includes elementary discussion of error, polynomial interpolation, quadrature, linear systems of equations, solution of non-linear equations and numerical solution of ordinary differential equations. The algorithmic approach and the efficient use of the computer are emphasized. Prerequisites: CSC 111, PMA 101.

CSC 301
Data Structures I
Core, Major; 1st term; 3rd year
Core, Minor; 1st term; 4th year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.

This course introduces the student to the relations which hold among the elements of data involved in problems, the structures of storage media and machines, the methods which are useful in representing structured data in storage and the techniques for operating upon data structures.

External and internal representation of information. Representation of arrays, linear lists (stacks, queues and deques) and trees. Multi-
linked structures. Symbol tables and searching techniques. Sorting (ordering) techniques.

CSC 302  
Data Structures II  
Core, Major; 2nd term  
3rd year  
3 units; 2 hrs. Lect.+1 hr. Tut./wk.

A rigorous course in the theory and applications of Data Structures. Continuation of CSC 301.

CSC 303/304  
Computer Systems  
(Hardware and Software) I/II  
3 units; 2 hrs. Lect.+1 hr. Tut./wk.  
Core, Major; Year  
3rd year

CSC 305  
Introduction to System Programming  
Core, Opt., Both; Both terms  
3rd year  
3 units; 2 hrs. Lect.+1 hr. Tut./wk.

System programming is presented in such a way as to emphasize how hardware and software complement each other.

Hardware and software control of input/output devices. Control structure, logic and microprogramming. Multiprogramming, multiprocessing and time-sharing, the assembler. Introduction to compiling techniques.

CSC 306  
Real-Time Computer System  
Core, Opt., Major; 2nd term  
3rd year  
3 units; 2 hrs. Lect.+1 hr. Tut./wk.

This course aims to equip the student with basic ideas of real time computer systems. The design, analysis and management of real time data processing systems will be studied. Although the concept of operating system support will be introduced, the main emphasis of this course is on commercial real-time application systems. Examples from existing real time data processing systems, such as banking and airline reservation system will be studied.

CSC 311  
Elementary Computer Organization  
Core, Minor; Both terms  
3rd year  
3 units; 2 hrs. Lect.+1 hr. Tut./wk.

This course is designed to familiarize the student with the basic structure and language of machines and to give him a better understanding of the internal behaviour of computers.

CSC 321
Information Systems Analysis
Core, Opt., Both; 1st term
3rd year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
This course lays the groundwork for CSC 322, and bridges the gap between the tools and techniques, and the management practitioner, providing an understanding of how they should be used to create viable management information systems. Industrial engineering tools. Computer-oriented techniques. Operations Research techniques.

CSC 322
System Design and Implementation
Core, Opt., Both; 2nd term
3rd & 4th year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
This course is the second covering the system life cycle. The lectures focus on underlying principles of design and implementation as well as on techniques. The techniques are utilized in the project. Selected topics on Information Systems administration, Information Systems for Operating. Management Control, Planning and Organization are discussed.

CSC 331
Numerical Methods I
Core, Opt., Both; 1st term
3rd year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
A thorough treatment of solutions of equations, interpolation and approximations, numerical differentiation and integration and the numerical solution of initial value problems in ordinary differential equations. Selected algorithms will be programmed for solution on computers.

CSC 332
Numerical Methods II
Core, Opt., Both; 2nd term
3rd & 4th year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
This course is designed as an introduction to numerical linear algebra and its application.

The solution of linear systems by direct and iterative methods, matrix inversion, the evaluation of determinants and the calculation of eigenvalues and eigenvectors of matrices. Application to boundary value problems in ordinary differential equations. Introduction to the numerical solution of partial differential equations. Selected algorithms will be programmed for solution on computers.

CSC 401
Operating Systems
Core, Major; 1st term; 4th year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
CSC 402  
Programming Languages and Compiling Techniques  
Core, Major; Opt., Minor;  
2nd term; 4th year  
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.  
This course is designed to present a systematic approach to the study of computer programming language design, the interplay between language design and implementation, and an introduction to advanced material in compilation.  
Data types and structures; Control structures and data flow; Runtime consideration. Scanners; Parsers; Syntax-directed translation.

CSC 413  
Computer Graphics and C.A.D.  
Core, Opt., Major  
1st term; 4th year  
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.  
Graphical display of information and the processing of visual data by computer. The topics covered in this course include C.A.D. of curves and surfaces; interactive techniques in C.A.D.; raster scan display of time-variant information and studies of currently available graphics packages.

CSC 414  
Distributed Processing and Networks  
Core, Opt., Major  
2nd term; 4th year  
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.  
Interconnected networks: input, output type connections and network alignment characteristics; multiprocessing and parallel processing systems; centralised and distributed networks; communication protocols, languages; and system considerations.

CSC 415  
Formal Languages and Automata Theory  
Core, Opt., Major  
1st term; 4th year  
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.  

CSC 416  
Artificial Intelligence  
Core, Opt., Major  
2nd term; 4th year  
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.  
This course introduces students to basic concepts and techniques of artificial intelligence, and gives insights into active research areas and applications. Topics covered include representation of knowledge, natural languages, vision system, search strategies, control and applications.

CSC 417  
Project  
Core, Opt., Major; year; 4th year  
6 units; 9 hrs. Lab. &/3 hrs. Tut./wk.  
This course involves a significant project in any area of Computer
Science. The project may be undertaken individually or in small groups. The course is offered by arrangement with a Computer Science faculty member.

CSC 421 Systems Simulation and Applications Core, Opt., Major
1st term; 4th year
3 units; 2 hrs. Lect.+ 1 hr. Tut./wk.
Introduction to the logical development of numerical and statistical models of systems; deterministic and probabilistic models, simulation methodology including random number generation, queuing service times, discrete random variables and description of experiment. Application of simulation techniques to the solution of various problems. The concepts and technical aspects of design, construction, operation and testing of simulation models. Simulation languages. Case studies.

CSC 422 Computational Methods in Operations Research Core, Opt., Major
2nd term; 4th year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.
The use of computer for the application of operations research techniques such as linear programming, inventory control, transportation problem, etc.

CSC 423 Database Management Core, Opt., Major
1st term; 4th year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.
Introduction to database concepts, including data independence, relationships, logical and physical organizations, schema and subschema. Hierarchical, network and relational data models with a description of the logical and data structure representation of the database system. Studies of some popular file and database systems. Data normalization, data description languages, query facilities, file security, data integrity and reliability. Prerequisites: CSC 301, CSC 302.

CSC 424 Business Information Systems Core, Opt., Major
2nd term; 4th year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.
Discussion and analysis of current topics and developments in business information systems, e.g. software systems, data management, computer security and privacy issues, social implications of computer use, artificial intelligence and automated systems design. Sampling of current work in systems for administering justice, welfare and health care are discussed. Prerequisites: CSC 321, CSC 322.

CSC 431 Selected Topics in Numerical Analysis I Core, Opt., Major
1st term; 4th year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.
Topics must be pre-arranged with the individual instructor.
CSC 432
Selected Topics in Numerical Analysis II

Core, Opt., Major
2nd term; 4th year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.
Topics must be pre-arranged with the individual instructor.

Examination Scheme

Major Programme

6-2 majors are required to take:
(a) Papers 11, 12 and one from Papers 13, 14, 15 in their Part I Examination.
(b) Paper 21 and two from Papers 22, 23, 24, 25, 26, 27 in their Part II Examination.

Minor Programme

All students minoring in Computer Science are required to take:
(a) Paper 1 in their Part I Examination and Paper 4 in their Part II Examination, OR
(b) Paper 2 in their Part I Examination and Paper 5 in their Part II Examination, OR
(c) Paper 3 in their Part I Examination and Paper 6 in their Part II Examination.

First Year Potential Majors are required to take ELE 101, 102, 103 and laboratory course ELE 182.

Second Year Majors are required to take ELE 201, 202, 203, 204, 205, 206 and laboratory courses ELE 281/282 and ELE 283.

Course Description

ELE 101  Core, Major; 1st term
Introductory Electronics I  1st year
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

ELE 102  Core, Major; 2nd term
Introductory Electronics II  1st year
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

ELE 103  Core, Major; 1st term
Basic Engineering  1st year
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

Introduction to engineering and local electronics industry. Mechanical and environmental consideration for engineering systems. Engineering materials. Destructive and non-destructive testings. Tolerance, limits and confidence limits. Quality control and materials control. Engineering design of electronic equipment: aspects of structure, parts, standards, layouts, metals, assembly and wiring, printed wiring boards and the choice of electronic components. Professional ethics, the role of professional learned societies and regulatory bodies and the role of engineers in society. (Each year, speakers will be invited from the local engineering institutions to give seminars covering these specific topics.)

† Core course
ELE 182  
First Year Experiments  
Core, Major; 2nd term  
1st year  
1 unit; 4 hrs. Lab./wk.

ELE 201  
Introductory Electronics III  
Core, Major; 1st term; 2nd year  
Core, Minor; 1st term; 3rd year  
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

ELE 202  
Electrical Networks  
Core, Major; 2nd term  
2nd year  
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

ELE 203  
Switching and Logic System  
Core, Major; 1st term; 2nd year  
Core, Minor; 1st term; 3rd year  
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

ELE 204

Elective, Major; 2nd term
2nd year
1 unit; 1 hr. Lect.+½ hr. Tut./wk.

*ELE 232
Instrumentation and Measurement
Elective, Non-major; 1st term
1st - 3rd year
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

* Not offered in 1981-82.
ELE 281/ELE 282
Second Year Experiments
Core, Major; 2 terms
2nd year
4 units; 4 hrs. Lab./wk.

ELE 283
Engineering Drawings
Core, Major; 2nd term
2nd year
2 units; 4 hrs. Lab./wk.

ELE 291/ELE 292
Second Year Experiments
Core, Minor; 2 terms
3rd year
2 units; 2 hrs. Lab./wk.

ELE 301
Electronic Circuits
Core, Major; 2nd term
3rd year
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

Switching characteristics of transistors in pulse circuits: steady state and transient. Linear and diode wave-shapings. Multivibrators: analysis and applications. Principle and applications of negative-resistance devices as multivibrators. Time-base generators. Selected topics: e.g. blocking oscillators, pulse transformer, phase sensitive detector, PLL etc.

ELE 302
Digital Techniques
Core, Major; 1st term; 3rd year
Core, Minor; 1st term; 4th year
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

ELE 303
Communications
Core, Major; 1st term
3rd year
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

Introduction to concepts of information and information capacity. Limits of information transfer. Time and frequency relationship. C.W. modulation and demodulation: amplitude, phase and frequency modulations. Pulse modulation and demodulation: PAM, PDM and PPM. Link between CW and pulse modulation. Information band-width and sampling theorem. Digital modulation and demodulation: PCM, quantisation noise and intersymbol interference. Transmission of PCM pulses, OOK FSK PSK. Modulators and demodulators; circuits for AM, FM and PM.
ELE 304
Semiconductors and Devices
Core, Major; 1st term; 3rd year
Core, Minor; 1st term; 4th year
2 units; 2 hrs. Lect. + 1 hr. Tut./wk.

ELE 305
Basic Probability and Quantum Theory
Core, Major; 2nd term
3rd year
2 units; 2 hrs. Lect. + 1 hr. Tut./wk.

Random variables: discrete and continuous probability; distribution functions; mean and standard deviation; conditional probability, independence and conditional independence; Bayes’ theorem; law of large numbers. Stochastic processes; stationarity, ergodicity, correlation, power density spectrum. Introduction to quantum physics. Operator formalism. Postulates and Schrödinger equation. Simple cases; potential well and barrier, simple harmonic oscillator. Tunneling and thermionic electronic emission.

ELE 306
Control
Core, Major; 2nd term
3rd year
2 units; 2 hrs. Lect. + 1 hr. Tut./wk.

ELE 307
High Frequency Techniques
Core, Major; 1st term
3rd year
2 units; 2 hrs. Lect. + 1 hr. Tut./wk.

Principles and characteristics of transmission lines. Impedance concepts, matching, etc. Smith charts and their uses. Maxwell’s Equation. Rectangular and circular waveguides. Antennas and radiation. High frequency measurement techniques.

ELE 381/ELE 382
Third Year Experiments
Core, Major; 2 terms; 3rd year
(Scheme C, 3rd & 4th year)
4 units; 4 hrs. Lab./wk.
ELE 391/ELE 392
Third Year Experiments
Core, Minor; 2 terms
4th year
2 units; 2 hrs. Lab./wk.

ELE 041/042
Fourth Year Project
Core, Major, STOT\(^1\); Year
4th year
1st term: 4 units
2nd term: 6 units
4 afternoons/wk.

The student independently proposes and performs active experimental or theoretical research on a current topic of electronics under the supervision of a staff member.

Examination Scheme

Major Programme

Third Year Majors — The students, in consultation with the Department, may choose to follow one of the following schemes:

Scheme A: I-1  
Advanced Electronics 1 (4 units): 
courses ELE 303, ELE 307

I-2  
Advanced Electronics 2 (4 units): 
courses ELE 302, ELE 304
I-3  Advanced Electronics 3 (4 units):
courses ELE 301, ELE 306
Experiments: ELE 381/ELE 382 (4 units)

Scheme B: Any two papers from I-1, I-2 and I-3
Experiments: ELE 381/ELE 382 (4 units)

Scheme C: (Work-Study Programme)
I-1  Advanced Electronics 1 (4 units):
courses ELE 303, ELE 307
I-2  Advanced Electronics 2 (4 units):
courses ELE 302, ELE 304
Experiments: ELE 381 (2 units)

Fourth Year Majors
Scheme A: II-1  Microprocessors, Digital Signal Processing
courses ELE 401, ELE 410
II-2  Advanced Digital Systems, Communications
courses ELE 403, ELE 411
II-3  Microwave Engineering, Antennas
courses ELE 404, ELE 408
II-4  Semiconductor Devices, Quantum
courses ELE 406, ELE 409
II-5  Analog Techniques, Network Theory
courses ELE 405, ELE 407
(Any three papers; Total: 12 units)
Project: ELE 041/ELE 042 (10 units)

Scheme B: (Any two papers; Total: 8 units)
Design exercise: ELE 491/ELE 492 (4 units)

Scheme C: (Work-Study Programme)
I-3  Advanced Electronics 3 (6 units):
courses ELE 301, ELE 306
Any one paper in fourth year (4 units)
Experiments: ELE 382 (2 units)
Project: ELE 041/ELE 042 (10 units)

Fifth Year Majors — Work-Study Programme only: any two other
papers (8 units)

Minor Programme

Third Year Minors
(Prerequisites: ELE 101 and ELE 102)
I-4  Fundamental Electronics (6 units):
courses ELE 201, ELE 203, ELE 206
Experiments: ELE 291/ELE 292 (2 units)

Fourth Year Minors
II-6  Advanced Electronics (4 units):
(Any one paper in third year)
Experiments: ELE 391/ELE 392 (2 units)

        AMA 123  Mathematics for Application .... 6

Second  AMA 221  Advanced Mathematics for Business
         Administration .................. 3

Course Description

AMA 123  Elective; Year; 1st year
Mathematics for Application  6 units; 3 hrs. Lect.+1 hr. Tut./wk.
This course gives a systematic introduction to the mathematics needed
for the study and application of statistical and analytic methods in the
Social, Economics, and other Sciences.

*AMA 202  Elective, Major; 1st term
Methods of Differential Equations  2nd year
3 units; 3 hrs. Lect.+1 hr. Tut./wk.
This course introduces the student to the elementary methods of
solving ordinary differential equations. Some partial differential
equations are also considered.

AMA 221  Elective; 2nd term
Advanced Mathematics for
        Business Administration  2nd year
3 units; 3 hrs. Lect.+1 hr. Tut./wk.
A one-term continuation of the first year course giving further mathe-
matical concepts and methods for application in the Social Science,
including some probability and statistics.

AMA 301  Core, Optional, Both; Year
Operations Research  3rd year
6 units; 3 hrs. Lect.+1 hr. Tut./wk.
The basic methods of operations research will be explained. Topics
treated include: the theory of games, linear programming and its
applications, introduction to dynamic programming, nonlinear pro-
gramming, and the theory of queues.

* Not offered in 1981-82.
AMA 401
Mathematical Statistics
Core, Optional, Major; Year
4th—Grad.
6 units; 3 hrs. Lect.+1 hr. Tut./wk.
This course is intended as an introduction to the mathematical theory of statistics for students of mathematics. The emphasis is on basic concepts and the theory underlying statistical methods.

AMA 402
Differential Equations
Core, Optional, Both; Year
4th—Grad.
6 units; 3 hrs. Lect.+1 hr. Tut./wk.
This course is divided into two parts. The first part deals with the properties of ordinary differential equations and methods of solutions. The second part concerns partial differential equations and solutions of boundary value problems.

AMA 403
Optimization Theory
Core, Optional, Both; Year
4th—Grad.
6 units; 3 hrs. Lect.+1 hr. Tut./wk.
The purpose of this course is to present the theory of optimization in the finite dimensional case. Topics include: unconstrained and linear constrained extrema; applications to matrices and quadratic forms; the Lagrange multiplier rule; general constrained minimization problems, augmentability and range and Lagrange multipliers; the calculus of variation.

*AMA 404
Control Theory
Core, Optional, Both; Year
4th—Grad.
6 units; 3 hrs. Lect.+1 hr. Tut./wk.
This course covers the fundamentals of control theory with emphasis on state-space structures; controllability and observability; aspects of the theory of optimal control and differential games. Numerical methods will also be included.

PMA 021
Topics in Modern Mathematics
Core, Major, STOT; Year
2nd year
4 units; 2 hrs. STOT/wk.
This is a course conducted with student-orientated teaching. Topics for small-group discussion may be chosen from but not confined to metric spaces and applications, basic principles and computational technique in elementary complex analysis, projective geometry.

PMA 031
Pro-Seminar
Core, Optional Major, STOT; Year
3rd year
4 units; 2 hrs. STOT/wk.
Small-group discussion on topics in probability theory, number theory, theory of manifold, topology, theory of equation.

* Not offered in 1981-82.
PMA 032
Pro-Seminar
Core, Optional Major, STOT; Year
3rd year
4 units; 2 hrs. STOT/wk.
Small-group discussion on topics in probability theory, harmonic
analysis, theory of manifold, numerical analysis with emphasis on
application.

PMA 101
Calculus and Linear Algebra
Core, Major; Year
1st year
6 units; 3 hrs. Lect. + 2 hrs. Tut./wk.
Functions of one variable, limits of sequences and functions, the
differential and integral calculus with applications. The fundamental
theory of matrices and determinants.

PMA 111
Mathematical Methods I
Core, Minor; Year
1st year
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.
This course is split into subgroups with slightly different syllabus. The
content is a selection of basic principles and techniques from differential
and integral calculus, linear algebra and statistics.

PMA 121
Mathematics for
Business Administration
Elective; Year
1st year
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.
An introduction to the Calculus and Matrix Algebra with applications,
necessary for the study of Business Administration.

PMA 123
Mathematics for Social Science
Elective; Year; 1st year
6 units; 3 hrs. Lect. + 1 hr. Exer./wk.
This course gives a systematic introduction to the mathematics needed
for the study and application of statistical and analytic methods in the
Social, Economics, and other Sciences. This course is designed for the
student with a stronger mathematical background.

PMA 131/132
Perspectives in Mathematics
Elective; Both terms; Extra-field
1st year; 3 units each term
3 hrs. Lect. + 1 hr. Exer./wk.
This course is designed for interested students with a minimum of
mathematical experience. Particular emphasis will be laid on the nature
of mathematical reasoning, related to the number system, aspects of
algebra, functions, probability and statistics.

PMA 151
Pro-Seminar
Core, Optional, Both; Year
1st year
6 units; 3 hrs. Lect./wk.
Topics covered in this course include: Operations of sets, relations and
mappings, product set and quotient set, the Peano axioms, ordered sets,
the axiom of choice and Zorn’s lemma, well-ordered sets, the Bernstein
theorem, denumerability and non-denumerability, ordinal numbers and cardinal numbers.

PMA 201
Advanced Calculus
Core, Major; Year
2nd year
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.

Vectors in 3-dimensional Euclidean space, functions of several variables, differential and integral calculus, line and surface integrals, series of functions, improper integrals.

PMA 202
Advanced Linear Algebra
Core, Major; Year
2nd year
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.

Topics covered include: abstract vector spaces, linear maps, matrix, Jordan canonical form, bilinear form and duality.

*PMA 203
Elementary Complex Analysis
Elective, Major; 2nd term
2nd year
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.

This is a first course on the subject with emphasis on basic principles and computational techniques.

PMA 204
Algebraic Structures
Core, Opt., Major; 1st term
2nd year
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.

The course includes an introductory survey of the basic algebraic structures with internal laws of operations: semigroups, groups, rings and fields. Particular attention is directed to quotient structures and the theory of factorisation in a Euclidean Domain.

PMA 205
Elementary General Topology
Core, Opt., Major; 2nd term
2nd year
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.

This is a first course on general topology with emphasis on metric spaces and applications.

PMA 211
Advanced Mathematical Methods II
Core, Minor; Year
2nd year
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.

The course includes the differential and integral calculus of several variables and applications, infinite series including Fourier series and elementary ordinary differential equations.

PMA 301
Real Analysis
Core, Opt., Major; Year
3rd year
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.

* Not offered in 1981-82
Topics covered in this course include: properties of measurable sets, measurable functions, the Lebesgue integral, absolute continuity and the Radon-Nikodym theorem, $L_p$-spaces, product measure and iterated integrals, the Daniel integral and Stone’s theorem, introduction to Fourier transforms.

*PMA 302
General Topology
Core, Optional, Major; Year
3rd year
6 units; 3 hrs. Lect.+1 hr. Tut./wk.
Topics covered include Hausdorff spaces, Regular and normal space, Tietz’s extension theorem, compact and locally compact spaces, compactification, metrization theorems, uniformity, function spaces.

PMA 303
Algebra
Core, Optional, Major; Year
3rd year
6 units; 3 hrs. Lect.+1 hr. Tut./wk.
Topics covered in this course include: groups, abelian groups, categories and functors, modules, integral domains, semi-simple rings, Ext and Tor, field theory.

*PMA 304
Probability Theory
Elective, Major; 2nd term
3rd year
3 units; 3 hrs. Lect.+1 hr. Tut./wk.
This is a first course on the mathematical theory of probability.

PMA 305
Complex Analysis
Core, Optional, Major; Year
3rd/4th year
6 units; 3 hrs. Lect.+1 hr. Tut./wk.
A basic course in complex analysis. Topics covered included: Complex numbers and complex functions, Cauchy’s theorem and applications, series expansions, residues, harmonic functions, conformal mappings, Riemann surfaces.

PMA 312
Complex Variable Theory
Core, Optional, Minor; Year
3rd/4th year
6 units; 3 hrs. Lect.+1 hr. Tut./wk.
The course covers the basic theorems and techniques of analytic functions, to prepare students for a minor paper in the subject.

PMA 402
Functional Analysis
Elective, Major; Year
4th - Grad.
6 units; 3 hrs. Lect.+1 hr. Tut./wk.
Topics covered in this course include: the algebras of bounded continuous functions, Stone Weierstrass theorems, normed linear space and Banach spaces, Hilbert space and Banach algebras.

* Not offered in 1981-82
PMA 403  Elective, Major; Year
Differential Geometry  4th year
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.

PMA 404  Elective, Major; Year
Topics in Algebra  4th-Grad.
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.
Topics will be selected from: Linear algebra and representations, commutative algebras, homological algebras.

PMA 405  Elective, Major; Year
Algebraic and Differential Topology  4th year-Grad.
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.
This is an introduction to differential and algebraic topology. The course covers topics on: Smooth manifolds and maps, theorem of Sard, vector field, Poincaré-Hopf theorem, germs and singularities. Homotopy, fundamental groups, covering space, Knots, Homology and cohomology.

Examination Scheme

Major Programme

6-2 Majors are required to take:
(a) Three papers from Papers 1, 2, 3, 4, 5 in their Part I Examination.
(b) Three papers from Papers 5, 12, 13, 14, 15, 21, 22, 23, 24 in their Part II Examination.

4-2-2 Majors are required to take:
(a) Two papers from Papers 1, 2, 3, 4, 5 in their Part I Examination.
(b) Two papers from Papers 5, 12, 13, 14, 15, or one paper from Papers 1, 2, 3, 5, 12, 13, 14, 15 and one from Papers 4, 21, 22, 23, 24 in their Part II Examination.

No duplication with either Part I or Minor subject degree paper is allowed.

Minor Programme

All students minoring in Mathematics are required to take Papers 4, 22 or Paper 32 in their Part I Examination and one paper from Papers 4, 22, 23, 32 (excluding that passed in Part I) in their Part II Examination.

† Core courses
Course Description

NSC 111/112
Perspectives in Physical Science
Elective; Gen. Ed; Both terms
1st—4th year
3/3 units; 3 hrs. Lect./wk.
A qualitative survey of elementary physical sciences, organized around
the historical development and philosophical foundation of the main
concepts in physical sciences. The course is designed for interested
students with a minimum of scientific training.

PHY 101/102
General Physics
Core, Major; two terms
1st year
3/3 units; 3 hrs. Lect. + 1 hr. Tut./wk.
An introductory course covering the principles and applications of
mechanics, heat, light, sound, electricity and magnetism, and modern
physics; suitable for potential majors in Physics. Co-requisite: PHY
181/182.

PHY 103/104
General Physics
Core, Minor; two terms
1st year
3/3 units; 3 hrs. Lect. + 1 hr. Tut./wk.
Same as PHY 101/102; suitable for potential majors in Electronics,
Computer Science, Mathematics, or Biochemistry. Co-requisite: PHY
181/182.

PHY 105/106
General Physics
Core, Minor; two terms
1st year
3/3 units; 3 hrs. Lect. + 1 hr. Tut./wk.
Same as PHY 101/102; suitable for potential majors in Chemistry or

PHY 107/108
General Physics
Core, Minor; Elective, Others
two terms
1st year
3/3 units; 3 hrs. Lect. + 1 hr. Tut./wk.
Same as PHY 101/102; suitable for potential majors in Medicine. Co-
requisite: PHY 181/182.

PHY 121/122
Introductory Physics
Elective; two terms
1st/2nd year
3/3 units; 3 hrs. Lect. + 1 hr. Tut./wk.
Similar to PHY 101/102, but at a lower standard; suitable for potential
majors in Biochemistry or Biology whose physics and mathematics
foundations are relatively weak.
PHY 181/182
Practical Physics 1
Core, Both; Elective, Others
two terms
1st year
1/1 units; 4 hrs. Lab./wk.
Laboratory experiments illustrating the principles in PHY 101-108, required for those who take PHY 101/102, 103/104, 105/106 or 107/108.
This course is offered in 4 sections: Section A for potential major in Physics; Section B for potential major in Electronics, Computer Science, Mathematics or Biochemistry; Section C for potential major in Chemistry or Biology; Section D for potential major in Medicine.

PHY 021/022
Mechanics and Electricity (Problems)
Core, Major; STOT¹; two terms
2nd year
1/1 unit; 1 hr./wk.
Small-group discussion on topics/problems in Classical Mechanics and Electricity and Magnetism.

PHY 201/202
Classical Mechanics
Core, Both; two terms
2nd year
1st term: 3 units;
3 hrs. Lect. + 1 hr. Tut./wk.
2nd term: 2 units;
2 hrs. Lect. + 1 hr. Tut./wk.

PHY 203
Electromagnetism
Core, 2nd year Major; Optional,
3rd year Minor²
1st term
3 units; 3 hrs Lect. + 1 hr. Tut./wk.

PHY 204
Basic Electronics
Core, Major; 2nd term
2nd year
3 units; 3 hrs. Lect.+1 hr. Tut./wk.

¹ Student-orientated Teaching.
² For majors other than Electronics.
PHY 281
Practical Physics II (A)
Core, Both; two terms
2nd year
½½ unit; 4 hrs. Lab./3 weeks
Laboratory experiments illustrating the principles in PHY 201/202.

PHY 283
Practical Physics II (B)
Core, 2nd year Major; Optional,
3rd year Minor
1st term
1.5 units; 4 hrs. Lab./wk.
Laboratory experiments illustrating the principles in PHY 203.

PHY 284
Practical Physics II (C)
Core, Major; 2nd term
2nd year
1.5 units; 4 hrs. Lab./wk.
Laboratory experiments illustrating the principles in PHY 204.

PHY 301
Special Relativity
Core, 3rd year Major; Optional,
3rd & 4th year Minor; 1st term
1.5 units; 1 hr. Lect. + 2 hrs. Tut./wk.
Galileian transformation, principle of relativity, Lorentz transformation.
Relativistic mechanics; space-time and energy-momentum four vectors.
Aberration and Doppler effect.

PHY 302
Atomic Physics
Core, 3rd year Major; Optional,
3rd & 4th year Minor; 2nd term
3.5 units; 3 hrs. Lect. + 2 hrs. Tut./wk.
Scattering cross-section. Discrete energy levels in atoms; the Bohr atom.
Schroedinger equation; quantum numbers and quantization of energy
and angular momentum. Atoms spectra: spectroscopic term classification;
fine structure; L-S and j-j coupling. Zeeman effect. X-rays: absorption
and diffraction.

PHY 303
Electromagnetic Theory
Core, Major; 1st term
3rd year
2.5 units; 2 hrs. Lect. + 2 hrs. Tut./wk.
Maxwell’s equation. Electrostatics in empty and dielectric media;
electro-magnet induction. Electromagnetic waves; field energy and
momentum; boundary conditions of different media; production and
propagation of electromagnetic waves.

PHY 304
Optics
Core, Major, Opt., Minor; 2nd term
3rd year
2.5 units; 2 hrs. Lect. + 2 hrs. Tut./wk.
Superposition of waves; coherence and wave packets. Two-beam and
multiple-beam interference; Fraunhofer and Fresnel diffractions.
Polarization; Optical activity. Light interaction with matter: dispersion,
scattering.
PHY 305  
Thermal Physics  
Core, Major; 1st term  
3rd year  
2 units; 2 hrs. Lect. + 1 hr. Tut./wk.  
Thermodynamics: concept and measurement of temperature. First and second laws of thermodynamics; thermodynamic relations. Change of phase in the first and second orders. Low temperatures; third law of thermodynamics.  
Kinetic Theory: Maxwell velocity distribution; free path distribution; effusion. Transport coefficients.

*PHY 307  
Electronic Circuits  
Elective, Major; 1st term  
3rd & 4th year  
4 units; 2 hrs. Lect., 1 hr. Tut. + 4 hrs. Lab./wk.  

PHY 381/382  
Practical Physics III  
Core, 3rd year Major; Optional, 3rd & 4th year Minor; two terms 2/2 units; 6 hrs. Lab./wk.  
Laboratory experiments illustrating the principles in PHY 301-305.

PHY 041/042  
Seminar  
Core, Major, STOT; two terms  
4th year  
1/1 units; 1 hr. STOT/wk.  
Small-group discussion on topics in Quantum Mechanics, Statistical Mechanics, Nuclear Physics, and Solid State Physics.

PHY 401  
Quantum Mechanics  
Core, Major; Optional, Minor; 1st term  
4th year  
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.  

PHY 403  
Statistical Mechanics  
Core, Major; Optional, Minor, 1st term  
4th year  
2 units; 2 hrs. Lect. + 1 hr. Tut./wk.  
Maxwell-Boltzmann distribution; equipartition of energy. Diatomic gases: partition function and heat capacity. Bose-Einstein and Fermi-

* Not offered in 1981-82
Dirac statistics; properties of Bose, Fermi and Boltzmann gases; blackbody radiation.

PHY 404  
Solid State Physics  
Core, Major; Optional,  
Minor; 2nd term  
4th year  
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.

PHY 406  
Nuclear Physics  
Core, Major; Optional,  
Minor; 2nd term  
4th year  
2 units; 2 hrs. Lect. + 1 hr. Tut./wk.

General properties of nuclei. Radioactivity. Nuclear reaction; neutron and position; artificial radioactivity. Neutrino, fission and chain reactions.

*PHY 408  
Biophysics  
Core, Optional, Major; 2nd term  
4th year  
2 units; 2 hrs. Lect./wk.

PHY 409  
Digital Instrumentation  
Core, Optional, Major; 1st term  
4th year  
3 units; 2 hrs. Lect. + 4 hrs. Lab./fortnight

This course gives a general concept of digital measurement in frequency, events, voltage, and pulse duration. It includes the analysis and synthesis of counters and some experiments.

PHY 410  
Gemmology  
Core, Optional, Major; 2nd term  
3rd/4th year  
2 units; 2 hrs. Lect. + 2 hrs. Lab./fortnight

Elementary crystallography; crystal form and habit. Physical and optical properties of gem materials: refractive index and birefringence, absorption spectra, luminescence. Gem identification by various means. Description of gem materials. Synthetic gemstones.

PHY 481/482  
Practical Physics IV  
Core, Optional, Both; two terms  
4th year  
2/2 units; 6 hrs. Lab./wk.

Laboratory experiments illustrating the principles in PHY 401-406.

* Not offered in 1981-82.
PHY 483  Core, Optional, Major; Year
Physics Project  4th year
4 units; 6 hrs. Lab. &/or
2 hrs. Tut./wk.
Projects on topics in theoretical or experimental physics, on which a
student shall write a report and give a seminar.

PHY 485  Core, Optional, Major; Year
Project with Thesis  4th year
6 units; 9 hrs. Lab. &/or
3 hrs. Tut./wk.
Projects on topics in theoretical or experimental physics, on which a
student shall write a thesis and defend the thesis orally after systematic
investigation.

*PHY 502  Core, Optional, Major; 2nd term
Advanced Mathematical Methods in  4th–Grad.
Physics  3 units; 3 hrs. Lect./wk.
Techniques in contour integration, methods of steepest descent and
stationary phase; special functions; integral transforms; boundary value
problems; approximation methods and numerical techniques. Stress
will be given to the mathematical formulation of physical problems
and the choice of appropriate methods for solution.

*PHY 503  Core, Optional, Major; 1st term
Polymer Physics  4th–Grad.
3 units; 3 hrs. Lect./wk.
Physical states of amorphous polymers; crystallinity; orientation.
Linear viscoelasticity, mechanical models; time-temperature equiva-
ence; mechanical anisotropy. Heat capacity, thermal conductivity.
Electrical conduction; dielectric constant and loss. Optical properties,
nuclear magnetic resonance.

*PHY 505  Core, Optional, Major; 1st term
Optical-electronics  4th–Grad.
3 units; 3 hrs. Lect./wk.
Optical resonator; laser oscillation; mode selection and control of
laser radiation; detection and measurement; Fourier optics, holography
and laser communication systems: non-linear optics.

PHY 508  Core, Opt., Major; 2nd term
Plasma Physics  4th – Grad.
3 units; 3 hrs. Lect./wk.
Charged-particle motions. Plasmas as fluids. Waves in the fluid plasma.
Equilibrium and stability. Collisions and transport Phenomena. Intro-
duction to kinetic theory. Introduction to controlled fusion.

* Not offered in 1981-82.
Examination Scheme

**Major Programme**

All Majors are required to take: (a) Papers 1, 2, 3A and 3B in their Part I Examination, and (b) Papers 4, 5 and one paper from Papers 6A+6B and 7 in their Part II Examination.

**Minor Programme**

All Electronics majors minoring in Physics are required to take Paper 1 or 2 in their Part I Examination and Paper 4 or 5 in their Part II Examination.

All non-Electronics majors minoring in Physics are required to take Paper 1 or Paper 8 in their Part I Examination and one paper from Papers 4 and 5 in their Part II Examination.

This is an elementary course introducing the basic concepts of statistics.

---

* Not offered in 1981-82
1 Student-orientated Teaching.
2 Core optional courses.
at a level which involves very little mathematics. Interesting examples from economics, education (I.Q. Test), genetics (Mendelian Theory), political science (Gallup poll) and other fields will be used to illustrate the underlying statistical concepts. This course also deals with basic descriptive statistical methods: collection methods, compilation, presentation and summarising of data, presentation of results in tabulated and graphical form, and interpretation of results.

STA 201  Core, Optional, Minor; Year
Fundamentals of Statistics 2nd year
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.
This course offers background knowledge of statistics through discussions of fundamental logical principles. Materials considered will be probability theory, sampling distribution, estimation, testing of hypotheses, elementary analysis of variances, data analysis, nonparametric inference and statistical decision theory.

*STA 221  Core, Optional; Year
Statistical Programming 2nd year
6 units; 3 hrs. Lect. + 2 hrs. Tut./wk.
This is an introductory course in basic computer programming concepts in high level languages, and the application of computer technology to statistical problems in social sciences and data management. Topics include data filing, inventory, presentation of data in numerical form and graphical form, frequency distribution, construction of histograms and charts, and descriptive statistics.

STA 231  Elective; 1st term
Introductory Statistics I 2nd year
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.
This is a term course in elementary statistics with emphasis on the application of basic statistical techniques to behavioral, natural and social sciences. The contents cover statistical treatment and description of data, elementary probability theory with applications, sampling frequency distributions, simple methods of estimation, fundamental ideas of hypotheses testing and applications.

STA 232  Elective; 2nd term
Introductory Statistics II 2nd year
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.
This is a continuation term course of STA 231 with emphasis on the application of statistical techniques to behavioral, natural and social sciences. The contents cover simple regression, correlation analysis, goodness of fit tests, contingency tables, nonparametric statistical methods, index numbers, elementary decision theory with application, simple experimental design and analysis of variance. Prerequisite: STA 231.

* Not offered in 1981-82.
STA 301  
Experimental Designs  
Core, Optional, Minor; 1st term  
3rd year  
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.  
This course is designed to study various statistical aspects of models in experimental design. It covers factorial, blocking, and nested designs, fixed, random, and mixed models. Emphasis will be placed on the use of these models in analysing real data. Introduction to the general concept of linear model and its applications to experimental design and regression analysis will be given. Prerequisite: STA 201 or equivalent.

STA 302  
Applied Regression  
Core, Optional, Minor; 1st term  
3rd year  
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.  
This course involves the general concepts of linear model and its applications to natural and behavioral science data. It covers the theory of least squares estimation, linear and multiple regression and correlation, stepwise regression, one way and two way analysis of variance, and analysis of covariance. The use of the related statistical package programs will be demonstrated.

STA 303  
Statistical Quality Control  
Core, Optional, Minor; 2nd term  
3rd year  
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.  
This course deals with the application of statistical techniques to problems associated with the quality of a product which is produced in large numbers. It covers construction of control charts for variables, control charts for attributes, cumulative sum control charts. Design of acceptance sampling plan by attributes, acceptance sampling plan by variables, and rectifying inspection.

STA 304  
Actuarial Science  
Core, Optional, Minor; 2nd term  
3rd year  
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.  
This is an introductory course in basic principles of actuarial science. It deals with actuarial aspects of life assurance, annuities, pension scheme and other social and private insurance. Topics include life contingencies, annuities, assurances, premium, measurement of mortality, pension fund and risk theory.

STA 311  
Survey Sampling  
Core, Optional, Minor; 1st term  
3rd year  
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.  
This course is an introduction to the design, analysis and interpretation of sample surveys. Types of sampling covered include simple random sampling, stratified random sampling, systematic sampling, cluster sampling, and double sampling. Methods of estimation are described to estimate means, proportions, totals, ratios and regression coefficients. Detailed description of sample size determinations to achieve goals of
desired precision at least cost. Also, techniques of questionnaire design, the problems of nonresponse, and sources of nonsampling error. Prerequisite: STA 201 or equivalent.

STA 312  
Data Analysis  
Core, Optional, Minor; 2nd term  
3rd year  
3 units; 2 hrs. Lect. + 2 hrs. Tut./wk.  
This course emphasizes the use of statistical package programs in assessing real data. Topics include data screening, detection of outliers and multivariate outliers, stratifying the data, summary statistics, statistical plots, correlations, cross tabulations, test for normality, transformations, regression and stepwise regression.

STA 401  
Applied Multivariate Analysis  
Core, Optional, Minor; Year  
4th year  
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.  
This course deals with major multivariate statistical techniques in analysing natural and behavioral science data. Topics include multiple and partial correlations. \( T^2 \)-statistics, discriminant analysis, cluster analysis, canonical correlations, principal components, factor analysis and structural equation models. Strong emphasis will be placed on use of existing computer programmes.

STA 411  
Time Series and Forecasting  
Core, Optional, Minor; Year  
4th year  
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.  
This is a course in stationary time series with applications in economics, marketing and physical sciences, with emphasis on autoregressive and moving average models. Autocovariance, autocorrelation, cross-covariance, filtering, seasonal analysis and spectral analysis. Exponential smoothing, Box-Jenkins forecasting procedure and prediction theory. Bayesian and multivariate forecasting. Use of computer programmes for covariance and spectral estimation.

*STA 421  
Computational Statistics  
Core, Optional, Minor; 1st term  
4th year  
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.  
This course emphasizes the computational aspects of various statistical techniques. Topics include: Gauss-Jordan pivoting, matrix inversion, nonlinear regression and basic methods of nonlinear programming applied to generalized least squares and maximum likelihood estimation.

*STA 422  
Path Analysis  
Core, Optional, Minor; 2nd term  
4th year  
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.  
This is an introductory course with emphasis on the application of path

* Not offered in 1981-82
analysis to behavioral science and natural science. Topics include: path diagram, identification of models, estimation of parameters, significance of path coefficient and goodness-of-fit test on the causal system.

Examination Scheme

Minor Programme
Students minoring in Statistics are required to take one paper from Papers 1, 2 and 3 in their Part I Examination, and Papers 11, 12 and 13 in their Part II Examination.

Degree Papers

Paper 1 – Regression and Actuarial Science
- STA 302 Applied Regression
- STA 304 Actuarial Science

Paper 2 – Designs and Quality Control
- STA 301 Experimental Designs
- STA 303 Quality Control

Paper 3 – Sampling and Data Analysis
- STA 311 Survey Sampling
- STA 312 Data Analysis

Paper 11 – Multivariate Analysis
- STA 401 Applied Multivariate Analysis

Paper 12 – Time Series Analysis
- STA 411 Time Series and Forecasting

Paper 13 – Computational Statistics and Path Analysis

All students majoring in Anthropology must complete all core courses. Major students are required to take a minimum of 14 courses (42 units).

In addition, they will be advised by the Department to take up to 12 units of courses in other fields which are related to their special interest in Anthropology.

Minor students are required to take ANT 101, plus five other Anthropology courses, adding up to a minimum of 18 units.

Course Description

(Notes: Except specified otherwise, all are 3-unit term courses, each made up of two hours of lectures and one hour of tutorial per week)

*Not offered in 1981-82.
† Core courses.
ANT 101  
**Man and Culture: An Introduction to Anthropology**  
Core, Both; Elective, Others  
Both terms  
1st—2nd year  
A general course for freshman students dealing with the nature, the development, and the utilization of man’s capacity for culture. The aim is to enable the student to acquire an adequate understanding of man and his place in nature as a necessary part of general education.

ANT 211  
**Social Anthropology**  
Core, Major; Optional, Minor  
Elective, Others; 2nd term  
2nd—4th year  
An introduction to the basic principles and subject matter of social anthropology with emphasis on the development of concepts and their relation to human behaviour. The major subfields within the discipline are examined with a view to familiarizing the student with their conceptual and empirical contributions to the concepts of social anthropology.

ANT 231  
**Culture and Behaviour**  
Core, Optional, Both  
Elective, Others; 1st term  
2nd—4th year  
The course is intended to explore issues that stem from the concepts of behaviour in relation to concepts of culture. Problems concerning the effect of individual behaviour, in terms of biological and psychological conditions, on culture and vice versa will be discussed, as well as issues concerning basic definitions, pioneer works, biological basis of behaviour and personality, socialization, culture and cognition, “national character”, and methodology.

ANT 241  
**Chinese Culture and Society**  
Core, Optional, Both  
Elective, Others; 2nd term  
2nd—4th year  
This course provides an anthropological approach to China. Discussions concentrate on its major cultural and social institutions both traditional and contemporary, such as family, marriage, kinship, lineage and clan, economic system, religion, value orientation, etc.

ANT 251  
**Applied Anthropology**  
Core, Optional, Both  
Elective, Others;  
2nd term; 2nd—4th year  
2 hrs. Lect., 1 hr. Tut. + 2 hrs. Lab./wk.  
This course is designed to be an introduction to the basic concepts concerning application of anthropological knowledge in modern world. The emphasis will be placed on application of anthropology in the fields of education, public administration, business and personnel management, planned acculturation, economic and political development, and health and medical practices.
ANT 031
Guided Study in Anthropology

Core, Major, STOT\(^1\); 2nd term
3rd–4th year
3 hrs. STOT/wk.

This STOT course is related to the students' major field but not tied to any particular paper. Students will be guided to make a general exploration in anthropological literatures with special emphasis on related Chinese documents.

ANT 311
Human and Cultural Evolution

Core, Major; Optional, Minor
Elective, Others
1st term; 3rd-4th year
2 hrs. Lect., 1 hr. Tut. +
2 hrs. Lab./wk.

This course is a general discussion of the origin and development of human beings and their culture. It covers major topics, conventionally included in such basic anthropological courses as "physical anthropology" and "prehistory".

ANT 321
Anthropological Methods

Core, Major; Optional, Minor
Elective, Others
2nd term; 3rd–4th year
2 hrs. Lect., 1 hr. Tut. +
2 hrs. Lab./wk.

This course provides a comprehensive introduction to anthropological research techniques: the field work process, models of ethnographic analysis, comparative approaches, and cross-cultural surveys. Students will be taught to design and conduct research projects by themselves.

ANT 331
Religion and Culture

Core, Optional, Both
Elective, Others
2nd term
3rd–4th year

This course explores the complex interrelationship between religion and the other dimensions of cultural behaviour. Among topics considered are: the cross-cultural appropriateness of the term, "religion", the relationship between religious ideology and behaviour, and the process of secularization.

ANT 340
Topics in Ethnography

Core, Optional, Both
2nd term
3rd-4th year

This course examines selected topics, both area-related and problem-oriented, within the field of ethnography. Semester offerings will vary with the instructor and may include such topics as regional studies, classic and contemporary ethnographic writings, and the problem of the anthropologist and fieldwork.

\(^1\) Student-orientated Teaching.
*ANT 341
Cultures and Peoples of Asia
Core, Optional, Both
Elective, Others
1st term
3rd—4th year
A survey of both continuity and change in the social, economic, political and religious systems of representative cultures and peoples in East and Southeast Asia.

ANT 351
Culture and Management
Core, Optional, Both
Elective, Others
1st term; 3rd—4th year
2 hrs. Lect., 1 hr. Tut. +
2 hrs. Lab./wk.
This course deals with the cultural factors in various management problems of industrial society: e.g., organization principles, human relations, personnel development and decision making in the fields of marketing and business. Emphasis is placed on the application of current anthropological knowledge to these problems.

*ANT 041
Field Research in Anthropology
Core, Major, STOT\(^1\); 1st term
3rd—4th year
2 hrs. STOT + 2 hrs. Lab./wk.
In this STOT course, students will be guided to complete a research project by themselves. In the process, they will become familiar with basic procedures and techniques of anthropological research. Prerequisite: ANT 031.

*ANT 411
Language and Culture
Core, Major; Optional, Minor
Elective, Others; 1st term
3rd—4th year
An overview of the main directions of linguistic theory and its relationship to issues of linguistic anthropology. Discussion will include such topics as componential analysis, cognition, and ethnosience.

ANT 421
Anthropological Theory
Core, Major; Optional, Minor
Elective, Others; 1st term
3rd—4th year
The course provides an in-depth analysis of major schools in anthropology: cultural evolutionism, diffusionism, functionalism, historical particularism, structuralism, etc. All key figures in anthropology, both classic and contemporary such as Tylor, Morgan, Boas, Malinowski, Radcliffe Brown and Levi-Strauss will be discussed.

ANT 431
Topics in Anthropology
Core, Optional, Both
Elective, Others
2nd term; 3rd—4th year

* Not offered in 1981-82.
\(^1\) Student-orientated Teaching.
This course focuses on current methodological and theoretical problems in anthropology. A number of topical areas will be treated in order to demonstrate the importance of the selected concerns in the study of man and culture.

ANT 441 Folk Culture in Hong Kong Core, Optional, Both
Elective, Others
1st term; 3rd—4th year

This course is methodologically oriented. It guides the students to rediscover their native and traditional culture through first-hand investigation. In the process, it will familiarize students with the basic anthropological field methods and techniques including the use of audio-visual aids.

*ANT 451 Anthropology of Communication Core, Optional, Both
Elective, Others
2nd term; 3rd—4th year
2 hrs. Lect., 1 hr. Tut. +
2 hrs. Lab./wk.

This course will essentially be an introduction to ethnographic film. Each student will be required to make a short ethnographic film on a topic concerning Chinese culture in Hong Kong. The major emphasis of the course will be on the analysis and interpretation of film as a tool in understanding culture as a system of communication.

Examination Scheme

Major Programme
In addition to the completion of the Core Courses, all students majoring in Anthropology must:
1. Pass Paper 1 and Paper 2 in the Degree Examination; and
2. Fulfill one of the following two requirements:
   (a) Write a thesis and complete two more papers other than Paper 1 and Paper 2;
   (b) Complete three more papers other than Paper 1 and Paper 2.

Minor Programme
In addition to the completion of the course ANT 101, all students minoring in Anthropology are required to take:
1. Two papers which must include Paper 1; and
2. One additional Anthropology course of the student’s choice.

* Not offered in 1981-82

**Major Students**

1. Students majoring in Economics must take the core courses in the year specified.
2. Major students must take one year-course in Mathematics, preferably in the first year.
3. Third year Majors should choose one year-course each from Groups A and B of the Core Optional courses while Fourth year Majors should choose one year course each from Groups A and C.
4. Economics Majors must complete 51 units of core/core optional courses plus 12 units of Economics elective courses listed above. Together with a minimum of 12 units imposed by his Minor field, he should take a total of no less than 75 units.

**Minor Students**

1. A student minoring in Economics must pass Basic Economic Theory or its equivalent and
2. He must complete two other year courses for which degree papers are offered.

Course Description

ECO 101  
Introductory Economics  
Elective; Both terms  
1st year  
3 units; 3 hrs. Lect./wk.

This course is designed to be a basic economic course for those students who have never had previous training in economics. The emphasis of this course is placed on social framework and current economic problems. Major topics for discussion include: the role of economics in social science and its relations to other disciplines; the economic framework; types of economic system; current economic problems (including economic problems of Hong Kong).

ECO 201  
Basic Economic Theory  
Core, Both; Year  
2nd year  
6 units; 3 hrs. Lect./wk.

This course primarily concerns the central economic problems of a society. Major topics include the nature and significance of economics, the composition and determination of national income, economic fluctuations and the price level, the theory of price and distribution.

ECO 202  
Methods of Economic Statistics I  
Core, Major; Year  
2nd year  
6 units; 3 hrs. Lect./wk.

This is an introductory course of statistics. It covers frequency distribution, index numbers, correlation, time series, the theory of sampling and probability, and statistical tests of significance.

ECO 203 (ACG 101)  
Introductory Accounting  
Core, Major; Year; Col.  
2nd year  
6 units; 3 hrs. Lect. + 2 hrs. Lab./wk.

This course emphasizes accounting concepts and principles, and introduces the use of accounting data in controlling and planning business operations. Discussions include: basic structure of accounting; accounting for assets, liabilities, and ownership interest; the application of accounting principles to various forms of business organization; bank reconciliation, internal control, statement preparation and analysis.

ECO 204  
Introductory Quantitative Economics  
Elective; Year  
2nd year  
6 units; 3 hrs. Lect./wk.

This course is divided into two parts. Part one deals with the application of simple mathematical tools to economic analysis. Major topics for discussion include: static analysis, comparative-static analysis, static optimization analysis, continuous and discrete dynamic models, simple mathematical programming and game theory. The second part deals with applied econometrics. Topics covered include: linear regression model, uses of summary statistics, statistical inference, and applied econometric studies of the economy of Hong Kong.
ECO 206  
The Economy of Hong Kong  
Elective; Both terms  
2nd year  
3 units; 3 hrs. Lect./wk.

This course will cover all aspects of the Hong Kong economy. Students will have the opportunity to learn how to read economic news and columns in newspapers, how to collect materials, and how to analyze the economic problems of their community by simple theoretical tools.

ECO 207  
The Economy of Southeast Asia  
Elective; 2nd term  
2nd year  
3 units; 3 hrs. Lect./wk.

A general survey of the economic development of the Southeast Asian countries since 1945. Major topics for discussion include agricultural, industrial and commercial development of the region, population growth, social and institutional changes. It also includes the current economic problems and policy issues of the Southeast Asian countries.

ECO 301  
Money and Banking  
Core, Major; Year  
3rd year  
6 units; 3 hrs. Lect./wk.

Major topics in this course include the structure of the money and capital markets, the nature of credit and money, the functions of commercial banks, the role of the central bank, expansion and contraction of credit in relation to the determination of national income and employment, and the theory of money and the general price level.

ECO 302 (HIS 340)  
Chinese Social and Economic History  
Elective, Year  
3rd year  
6 units; 3 hrs. Lect./wk.

This course is a general introduction to the development of Chinese society and its economy since the most ancient times. It aims at giving the students a better understanding of the origin and evolution of the Chinese civilization.

ECO 303  
Intermediate Economic Theory  
Core, Major; Year  
3rd year  
6 units; 3 hrs. Lect./wk.

This course covers both micro- and macroeconomic theories. The theory of demand, the theory of the firm, competitive and monopolistic pricing are the basic theoretical sections of the microeconomics portion of the course. Mathematical concepts are used wherever possible. The macroeconomics portion serves as an introduction to the application of econometrics to the theory of the consumption function, the marginal efficiency of capital and the rate of interest, and the general theory of income and employment. Theories and methods of forecasting and controlling the business cycle are also presented.
ECO 304  
Public Finance  
Elective; Year  
3rd year  
6 units; 3 hrs. Lect./wk.

Major contents discussed in this course cover economic welfare and equity norm, public expenditure, public revenue, taxation — theory and practice, financing of quasi-public goods, budget systems and cost-benefit analysis, public debt, fiscal policy and development finance.

ECO 305  
Western Economic History  
Core, Major; Year  
3rd year  
6 units; 3 hrs. Lect./wk.

This course is aimed to survey and assess the economic development of the Western world from mid-18th century to the present. Development since industrial revolutions is particularly emphasized. The subject matter will be treated both historically and analytically based on approaches which combine disciplines of humanities and social sciences.

ECO 306  
The Chinese Economy since 1949  
Elective; Year  
3rd year  
6 units; 3 hrs. Lect./wk.

A general survey of Chinese economic development since 1949. Topics include: initial conditions for modern economic growth, rates of growth and structural changes, agricultural policy and performance, collectivization, capital formation and financing investment, central planning and industrial management, foreign trade, welfare and social consequences of growth.

ECO 307  
Methods of Economic Statistics II  
Elective; Year  
3rd year  
6 units; 3 hrs. Lect./wk.

This course consists of two parts, statistical theory and econometric modeling. Topics covered are: probability theories, probability distributions, random variables and their distribution functions, and moment generating functions, two-variable regression model, multiple regression model, use of dummy variables, serial correlation, heteroscedasticity, instrumental variables, and estimation of simultaneous equation models.

ECO 308 (HIS 443)  
Economic History of Modern China  
Elective; Year  
3rd year  
6 units; 2 hrs. Lect. + 1 hr. Tut./wk.

This course is designed to study the economic development of China from the Ming Dynasty to the early part of the Republic of China.

ECO 309  
Urban and Regional Economics  
Elective; Year  
3rd year  
6 units; 3 hrs. Lect./wk.
Urban Economics gives a brief survey of different urban problems and policies designed to correct them. Emphasis will be placed on urban land use, housing, transportation, pollution and urban environment, crime and urban planning. Regional Economics deals with the study of the spatial order of the economy. The analysis of the location patterns of people and industry in general rather than the location of individual industries will be stressed.

ECO 041
Guided Study in Current Economic Problems

Core, Major, STOT; Year
4th year
1st term: 2 units, 2nd term: 1 unit
2 hrs. STOT/wk.

The major concern is the application of student-orientated method of teaching to the analysis of current economic problems. Students are required to select a topic of research interest related theoretically or empirically to current economic problems and investigate it under the intensive guidance of a teacher. Small group discussions are mandatory. The requirements include one or more research reports, presentation of paper(s) and participation in small group discussion.

ECO 401
International Economics

Core, Major; Year
4th year
6 units; 3 hrs. Lect./wk.

A general survey of the theory of international trade and an examination of its relevance to both international and domestic policies. Special attention will be given to the current international economic problems and the related problems of underdeveloped countries in Asia.

ECO 402
Comparative Economic Systems

Core, Major; Year
4th year
6 units; 3 hrs. Lect./wk.

Contrasting economic organizations and performances of different economic systems. Emphasis will be laid on application of economic theory rather than factual description. Discussions include the theory and practice of the Soviet type economy and its Eastern European variants, the planning experiences in Western European countries, the Soviet model and underdeveloped countries, planning in India and mainland China, and development planning in other underdeveloped countries in Asia.

ECO 403
Basic Mathematical Economics

Elective; Year
4th year
6 units; 3 hrs. Lect./wk.

This course aims at furnishing students with mathematical tools for economic analysis as well as some common operations analysis current-

ly in practice. The first part of the course deals with selected topics in economic theory i.e. consumer behaviour, firm behaviour, theory of the market, general equilibrium, welfare economics, and economic dynamics. The second part introduces some basic concepts of operations research methods which include linear and non-linear programming, network analysis, inventory theory, game theory, and elementary queuing theory.

ECO 404 History of Economic Thought

Elective; Year
4th year
6 units; 3 hrs. Lect./wk.

A critical review of the development of economic thought from the eighteenth century to the present. The discussion concentrates on classical, Marxian, neo-classical and Keynesian thought. An examination of the applicability of western economic doctrines to the analysis of economic problems of the underdeveloped countries in Asia will also be included.

ECO 405 Economic Development

Elective; Year
4th year
6 units; 3 hrs. Lect./wk.

This course is basically concerned with the problem of poverty in the less developed countries of the world. The state of underdevelopment and its causes are studied as well as various theories of economic and social development. Much of the course is devoted to an examination of actual problems such as land reform, education, economic power and the relations between the rich countries and the poor countries with special attention being given to Asia.

ECO 406 Labour Economics

Elective; Year
4th year
6 units; 3 hrs. Lect./wk.

This course emphasizes both theoretical and empirical studies. Topics covered include: Static and dynamic models of the demand for labour. Allocation of time and effort, and the labour supply of men and women. Human capital theory, Economic behaviour of the household and life cycle theory. Theories of search, signalling and contracts. Theories of personal distribution of income. Economic demography. Discrimination in the labour market. Labour union. Unemployment and inflation.

*ECO 412 Economic Structure Analysis

Elective; 1st term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

This course consists of two major parts: national economic accounting

* Not offered in 1981-82
and interindustry analysis. The first part — national economic accounting — is intended to provide the students with a systematic understanding of the concepts and methods of measurement of national income and its components and related aggregates. The national accounting system is developed in three steps, starting from a simplest system of national income accounts and ending up with a comprehensive system encompassing the more detailed national income accounts, the input-output matrix, and the financial accounts. Emphasis is placed on the anatomical structure of the economy and the interrelationships between its constituent parts. The second part — interindustry analysis — shows how interindustry models can be consistently constructed on the basis of the input-output matrix with particular emphasis on applications. The discussion of the choice of alternative models leads to the use of linear programming in resource allocation.

Examination Scheme

Major Programme

All students majoring in Economics are required to take:

(a) Part I: Paper 1 and any one or two papers from Papers 2 to 14 plus one paper in an approved minor subject.

(b) Part II: Any three or two papers from Papers 2 to 14 (not taken in the Part I Examination), plus one paper in an approved minor subject.

Minor Programme

All students minoring in Economics are required to take:

(a) Part I: One paper from Papers 1, 3, 4, 7, 8 and 10.

(b) Part II: One paper from Papers 1 to 14 not taken in the Part I Examination.

Student-orientated Teaching are introduced to First, Second and Third year students.

Students majoring in Geography are required to take a total of 30 term-units of core courses and to fulfil the Degree Examination requirements. Students minoring in Geography are required to take a minimum total of 18 term-units.

Course Description

GEO 101 Frontiers in Geography

Core, Both; Both terms 1st year
3 units; 3 hrs. Lect./wk.

The course introduces first year students to the basic concepts of Geography, in particular the development of the contemporary New Geography. Brief introduction to the major subjects will be given to familiarize students with the courses they intend to take in later years. Modern geographic techniques, in particular quantification, will be introduced in the course of integrating the various subjects in common research. The role of New Geography in the convergence of other social sciences in interdisciplinary research will be emphasized. The course will be of value to other social science students who wish to broaden their view (spatial perspective) on real world problems.

GEO 021 Data Collection and Field Techniques

Core, Major; STOT ¹; 2nd term 2nd year
3 units; 2 hrs. STOT + Field Work/wk.

The course aims at developing students’ ability in independent library

research, field data collection techniques and analysis on various aspects of Hong Kong geography as well as critical thinking and analysis of current issues related to geography.

GEO 211  
Quantitative Cartography  
Core, Major; 1st term; 2nd year  
3 units; 2 hrs. Lect. + 3 hrs. Lab./wk.  
This course is to acquaint students with theories and methods of construction of diagrams and maps from statistical data. It also covers the principles and problems of map designing.

GEO 212  
Map and Aerial Photography  
Elective, Both; 2nd term  
Interpretation  
2nd year  
3 units; 2 hrs. Lect. + 3 hrs. Lab./wk.  
An introduction to the use of maps and aerial photographs and their interpretation in geography. Students will be introduced to various techniques of taking measurement from maps and aerial photographs and their implication in research.

GEO 213  
Surveying  
Elective, Both; 1st term  
2nd year  
3 units; 3 hrs. Lect./wk.  

GEO 221  
Statistical Analysis in Geography I  
Core, Major; 1st term  
2nd year  
3 units; 3 hrs. Lect./wk.  
This course deals mainly with the appropriate applications of statistical techniques in geographical research. In the first term, the contents are designed to be a general introductory survey of the application of certain statistical models in geography. In the second term, emphasis is placed upon multivariate analysis and complex organizations.

GEO 222  
Statistical Analysis in Geography II  
Elective, Both; 2nd term  
2nd year  
3 units; 3 hrs. Lect./wk.  
Course outline please see GEO 221 Statistical Analysis in Geography I.

GEO 232  
Conservation of Natural Resources  
Elective, Both; 2nd term  
2nd year  
3 units; 3 hrs. Lect./wk.  
This course aims at providing an understanding of the relations between population and resources and will cover the following topics: (1) definition, classification and evaluation of resources; (2) aims and philosophy of conservation; (3) the major resources including soil and agriculture, water, air, forests, minerals and energy; (4) recycling and residuals management.
GEO 241  
General Geology  
Core, Major; 1st term  
2nd year  
3 units; 3 hrs. Lect./wk.

This course provides a basic knowledge of the geology of the earth.  
Topics include: (1) Minerals and rocks; (2) Plate tectonics; (3)  
weathering, erosion and land forms.

GEO 242  
Physical Geology  
Elective, Both; 2nd term  
2nd year  
3 units; 3 hrs. Lect./wk.

This course provides an in-depth study of the nature of earth materials,  
their mode of emplacement and structural relations.

GEO 251  
Population Geography  
Core, Major; 2nd term  
2nd year  
3 units; 3 hrs. Lect./wk.

Course outline: (1) Population Geography: an introduction. (2) World  
Distribution of Population. (3) Patterns of Population Composition. (4)  
Population Dynamics. (5) Population Migration. (6) Changing Patterns  
in Population Growth. (7) Population Problems and control.

GEO 252  
Cultural Geography  
Elective, Both; 1st term  
2nd year  
3 units; 3 hrs. Lect./wk.

Cultural geography compares the changing distribution of “cultural  
areas” with the distribution of other features of the earth’s surface, in  
order to identify environmental features characteristic of a given  
culture and if possible to discover what role human action plays or has  
played in creating and maintaining given geographic features.

GEO 261  
Theories in Urban and  
Economic Geography  
Core, Major; 1st term  
2nd year  
3 units; 3 hrs. Lect./wk.

This course provides students with a basic understanding of location  
thories in both urban and economic geography, including the classical  
von Thünen agricultural location theory, Weber’s industrial location  
thory, Christaller’s central place theory, the gravity models and con-  
temporary location theories and models.

GEO 262  
Economic Geography  
Elective, Both; 2nd term  
2nd year  
3 units; 3 hrs. Lect./wk.

The course is to analyse the spatial relations among the primary,  
secondary and tertiary activities. The emphasis is on the structure of,  
and the interrelations among systems of international trade, transport,  
agriculture, industries, wholesaling, retailing and tourism.
GEO 273
Geography of East and Southeast Asia

This course aims to provide an insight into the resource base, the process of modernization and the development potentials of the region.

GEO 031
Geography Projects of Hong Kong

Students will be required to undertake individual or group projects in any field of geography with reference to Hong Kong under the guidance of their instructors. The topics of the project will be decided by the individual student/group and instructors concerned.

GEO 323
Models in Geography

This course emphasizes on the general principles of model building in geographical research. Basic geographical models and various modelling methods will be introduced.

GEO 331
Man and Environment

A general introduction to the nature of the physical environment, and its relationship with man in pre-industrial and modern times. The current major environmental problems will be dealt with, and possible solutions to these problems will be discussed. The course will also cover the principles and methods of environmental impact assessment.

GEO 333
Urban Environmental Problems

GEO 343
Physical Geomorphology

This course focuses on the analysis of geomorphic processes operating on the earth surface.

1 Student-orientated Teaching.
GEO 353
Behavioural Geography
Elective, Both; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

The subject matter of this course is an area lying at the interface of geography and psychology that has been neglected by both disciplines in the past and is now receiving their close attention: the response of human beings to their existing physical surroundings, whether these be natural or man-made.

This course will cover two distinct but related topics: (1) the movement of persons and households in space, and (2) the nature of the "mental maps" that these individuals and households carry around in their heads, and which they consult in the process of making movement decisions.

GEO 363
Urban Geography
Elective, Both; 1st term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

This course discusses the internal structure of the cities including the Central Business District, the zone of transition, the residential zones, and the area for intra-urban manufacturing activities; social area analysis, ethnic segregation, and inequalities; and the system of movement in the city and its possible function in breaking down the physical and social barriers.

GEO 381
Principles of Climatology
Core, Major; 1st term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

The course will aim at providing the student of geography with the "energy-balance" approach to the understanding of the climate environment. The nature and significance of the essential weather parameters, the thermodynamics of the basic meteorological processes and the rectification of the heat imbalance by circulation systems will be the main focus. Familiarity with the handling and use of meteorological instruments, the maintenance of a standard observation weather station and the presentation of weather "reports" will also be integrated into the course.

GEO 382
Climates of the World
Elective, Both; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

The course aims at providing an understanding of "regional climatology" as a process in synthesis. The significant "indices" in the identification of "climates" from differing standpoints will be attempted. The man-climate environments in the context of man's response as portrayed in his economic activities will be studied. The significance and the causation of climatic "variation" in its manifold forms will also be attempted.
GEO 391
Planning Theory and Method
Core, Major; 1st term
3rd & 4th year
3 units; 3 hrs. Lect./wk.
This course introduces the history, theories, methods, and techniques of planning, as well as the organizational aspects of a planning institution.

GEO 471
General Geography of China
Core, Major; 1st term
3rd & 4th year
3 units; 3 hrs. Lect./wk.
This course deals with the following topics: (1) Location and relief. (2) Climate. (3) Hydrogeography. (4) Soils. (5) Biogeography. (6) Natural regions. (7) Resources. (8) Population of settlement. (9) Irrigation and agriculture. (10) Industry, trade and communication.

GEO 472
Regional Geography of China
Elective, Both; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.
This course studies the regional geography of China and includes the following regions. (1) South China. (2) Central China. (3) North China. (4) North-East China. (5) West China. (6) Inner Mongolia. (7) Tibet. (8) Sinkiang. (9) North-West China. (10) South-West China.

GEO 483
Micro-climatology
Elective, Both; 2nd term
3rd - Grad.
3 units; 3 hrs. Lect./wk.
The course is designed to focus attention upon the generally unfamiliar "micro-climates" as opposed to the meso-climates and macro-climates. Micro-climatology will be concerned here both with the naturally-induced and man-induced features. The emphasis will be upon the geographical significance of "micro-climates" as related to the surface-level climates and the highly localised climates as affecting plant and man.

GEO 492
Urban Planning
Elective, Both; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.
This course emphasizes on the history, theories, methods, and models of urban planning. Examples of planning in Hong Kong will be employed to substantiate the theoretical parts.

GEO 493
Regional Planning
Elective, Both; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.
This course emphasizes on the history, theories, methods and models of regional planning. Examples of planning in Western and Asian countries are employed to substantiate the theoretical parts.
GEO 400 Directed Research
Elective, Major; Year 3rd/4th year
6 units

Research methods in geography are introduced to students and a research thesis has to be written under the supervision of faculty.

Examination Scheme

Major Programme
All students majoring in Geography are required to take any five papers from Papers 1 to 10 in their Parts I and II Degree Examinations.

Minor Programme
All students minoring in Geography are required to take any two papers from Papers 1 to 9 in their Parts I and II Degree Examinations.

Major students are required to take a minimum of 18 courses (60 units). Minor students are required to take a minimum of 5 courses (15 units). Certain courses may be offered once every two years at the discretion of the Board of Studies.

Course Description

(Note: All are 3-unit term courses, each made up of two hours of lectures and one hour of tutorial per week except where otherwise indicated.)

GPA 101  Law and Society                      Elective; Term
          Analysis of the concepts of law, its roles in society, especially in state-building. Survey of major legal systems in the world. Principles of civil and criminal laws, of constitutional and administrative laws. Courts and trial process; lawyers and the legal profession.

GPA 102  Fundamentals of Government          Core, Major; Elective, Others
          Introduction to the nature of political inquiry, the basic concepts in political science and the main features of the major types of political systems. Some emphasis on the institutional aspects of government and administration, with concrete examples.

GPA 203  Fundamentals of Public Administration  Core, Major; Elective, Others
          2nd term; 2nd year
          Introduction to contemporary study and practice of public administration. Characteristics and roles of public bureaucracy in various types of administrative systems. Analysis of some issues such as codes of conduct for civil servants, budgetary politics, redress of administrative grievances.
GPA 204
Political Analysis
Core, Major; Elective, Others
1st term; 2nd year
Conceptual introduction to political science methodology. Survey of major approaches such as systems analysis, structural-functional analysis, decision-making analysis, and communication analysis. Discussion of humanism versus scientism and foundations of empirical political inquiry.

GPA 205
Government of Hong Kong
Core, Major; Elective, Others
1st term; 2nd year
An analytical approach to the nature, structure, and process of the Hong Kong government. Evaluation of its possibilities and limitations, taking into consideration the international environment and Hong Kong's relations with United Kingdom and China.

GPA 206
Government and Politics of China
Core, Major; Elective, Others
1st term; 2nd year
Analytical study of the respective roles of the state; the Party, the military, and the bureaucracy under the Communist regime. Includes discussion of the background and salient characteristics of the evolving political system and an evaluation of its capabilities.

GPA 307
Political Theory: Classical
Core, Major; Elective, Others
1st term; 3rd year
Study of western political thought from ancient Greece through the medieval period and the Reformation to the end of the sixteenth century. Emphasis on outstanding thinkers.

GPA 308
Political Theory: Modern
Core, Major; Elective, Others
2nd term; 3rd year
Exploration of the political thought of major thinkers from Hobbes and Locke to contemporary theorists, including an examination of their contribution to the philosophical foundations of modern political ideologies, such as liberalism, democracy, utilitarianism and socialism.

GPA 309
Western Democracy
Core, Optional, Both; Elective, Others
1st term; 3rd & 4th years
Comparative study of the structures and functions of political institutions in democratic systems of Western Europe and North America. Topics include the historical, cultural, and socioeconomic conditions of viable political institutions, contemporary challenges to democratic governments in the Western world.

GPA 310
Socialist Political Systems
Core, Optional, Both; Elective, Others
1st term; 3rd & 4th years
Comparative study of the structures and functions of political institu-
tions in selected socialist countries. Covers such topics as political culture, patterns of revolutions, characteristics of political economy, the role of dominant party, leadership and political recruitment, and problems of development and change.

GPA 311
International Politics
Core, Optional, Both;
Elective, Others
1st term, 3rd & 4th years
Examination of actors, dynamics, strategies, and rules of the changing international political system, and patterns of interaction among the powers.

GPA 312
International Law and Organization
Core, Optional, Both;
Elective, Others
2nd term, 3rd & 4th years
Analysis of the various aspects of law and organization at the international level, with emphasis on the postwar period. Some attention to proposals for reforms, e.g., the Law of the Sea, the new international economic order, from the socialist and the developing countries. Study of different approaches to world government.

GPA 315
Constitutional Law
Core, Optional, Both;
Elective, Others
1st term, 3rd & 4th years
A cross-cultural comparative survey, with specific examples, of various types of constitutions and their contents. Investigation of constitutional history in some modern states. Appreciation of the spirit of constitutionalism.

GPA 316
Administrative Law
Core, Optional, Both;
Elective, Others
2nd term, 3rd & 4th years
Study of the nature, scope, and main themes of administrative law and its modern development. Investigation of the legal basis for determining the relationships among the state, bureaucracy, and the citizen in administrative process, including such issues as delegated legislation, administrative accountability, judicial review.

GPA 317
Public Organization and Management
Core, Optional, Both;
Elective, Others
1st term, 3rd & 4th years
Critical examination of theories in public organization and management and their practical significance. Types of public organizations. Organizing as a tool in management. Techniques in public service management.
GPA 318  Personnel and Financial Administration
Core, Optional, Both;  Elective, Others
2nd term, 3rd & 4th years
Analysis of human and financial resources of public administration. Discussion of basic concepts such as career, merit, motivation, and collective bargaining. Study of the budget cycle from formulation through authorization, execution, accounting to auditing. Discussion also of budgetary techniques, policy content of government expenditure and politics of budgetary process.

GPA 323  Governments of Southeast Asia

Course Description

SWK 111/112  
Social Welfare as a Social Institution  
Core, Major; Elective, Others;  
Both terms  
1st year  
3 units; 2 hrs. Lect./wk.

This is an introductory course on the concept and meaning of social welfare and its role in society. The relationship between social welfare and other social institutions will be examined. The purpose, functions and scope of social welfare will also be discussed.

SWK 020  
Student Orientated Teaching  
Core, Major, STOT¹; Year  
2nd year  
4 units; 2 hrs. STOT/wk.

This is small-group, less structured teaching related to the student's major field but not formally tied to any particular course. Its aim is to build in the student habits and attitudes of mind characteristic of the expert in his or her chosen field and relevant to the solution of the kind of problems the student is likely to encounter in life. For this year of studies, the primary focus is on introduction of the student to the philosophy, value systems and the generic process of the social work method.

SWK 212  
Philosophy of Social Work  
Core, Major; 2nd term  
2nd year  
2 units; 2 hrs. Lect./wk.

This course will look into both the philosophic base and values systems of the social work profession. Discussion will focus on the application of these social work values in the context of Hong Kong among the Chinese today.

¹ Core courses
Student-orientated Teaching
SWK 214  
Social Welfare Services in Hong Kong  
Core, Optional, Major; 1st term  
2nd year  
2 units; 2 hrs. Lect./wk.
This course will cover both the public and private sectors in the provision of social welfare services in Hong Kong. Examination will be made not only of the delivery of services but also of the financial provisions particularly with an analysis of means of financing. The issue of coordination of services will also be examined in the light of effectiveness and adequacy of service delivery.

SWK 221  
Social Implications of Illnesses  
Core, Optional, Major; 1st term  
2nd & 3rd year  
2 units; 2 hrs. Lect./wk.
This course aims to provide students with some basic knowledge and diagnostic understanding of the major illnesses in Hong Kong. Emphasis will be placed on the impact of illness and disability upon the social functioning of people as individuals and family members. The concept of stress and the worker's use of self in the helping process will be discussed.

SWK 222  
Mental Illness and Retardation  
Core, Optional, Major; 2nd term  
2nd & 3rd year  
2 units; 2 hrs. Lect./wk.
The course will explore the nature of mental illness and retardation, their social implications and the community resources for the prevention and amelioration of social dysfunction.

SWK 223  
Human Growth and Development I  
Core, Major; 1st term  
2nd year  
2 units; 2 hrs. Lect./wk.
This course will study the basic concepts, theories and problems in human growth and behaviour as related to social work practice. Emphasis is given to the developmental study of human growth and behaviour as a continuous process throughout the stages from childhood to adolescence. Attention will be paid to physical, psychological and cultural aspects of growth.

SWK 224  
Human Growth and Development II  
Core, Major; 2nd term  
2nd year  
2 units; 2 hrs. Lect./wk.
This course will give emphasis to the relevant concepts of the stages of development from adulthood to old age. Prerequisite: SWK 223.

SWK 231  
Social Work Processes  
Core, Major; 1st term  
2nd year  
2 units; 2 hrs. Lect./wk.
This course includes the examination of the purpose and goals of social work practice, the study of the generic principles, and the basic
methods in social work. Attention is directed to the inter-relationship of various methods in the process of planned intervention at multiple levels.

SWK 252
Field Laboratory
Core, Major; 2nd term
2nd year
2 units; 4 hrs. Lab./wk.

This course aims at preparing students to undertake Field Instruction I. It teaches students, through a series of laboratory sessions, basic practice knowledge and skills necessary for rendering professional services as a student worker in a welfare or health organization. It is a prerequisite of Field Instruction I.

SWK 030
Student Orientated Teaching
Core, Major, STOT\(^1\); Year
3rd year
4 units; 2 hrs. STOT/wk.

This is small-group, less structured teaching related to the student’s major field but not formally tied to any particular course. Its aim is to build in the student habits and attitudes of mind characteristic of the expert in his or her chosen field and relevant to the solution of the kind of problems the student is likely to encounter in life. For this year of studies, the primary focus is on the training of skills, practice concepts and practitioner’s roles in the problem-solving process of social work.

SWK 331
Social Casework I
Core, Optional, Major; 1st term
3rd & 4th year
2 units; 2 hrs. Lect./wk.

This course is designed to deepen the students’ basic understanding and knowledge of working with individuals and their families. The dynamics involved in a problematic situation, the worker-client’s one-to-one as well as one-to-the family group relationship, and treatment in the casework processes will be analyzed with emphasis on diagnostic skill. Records will be used for illustration and discussion.

SWK 332
Social Casework II
Core, Optional, Major; 2nd term
3rd & 4th year
2 units; 2 hrs. Lect./wk.

A sequel to SWK 331.

SWK 333
Social Groupwork I
Core, Optional, Major; 1st term
3rd & 4th year
2 units; 2 hrs. Lect./wk.

The development of knowledge of groups and individual behaviour in groups will be related to the professional utilization of that knowledge. Techniques of intervention and the group worker’s purposeful use of programme and process will be discussed. Attention will be given to the roles of the group worker as enabler, facilitator, leader, etc.

---

\(^1\) Student-orientated Teaching.
SWK 334  Social Groupwork II  
Core, Optional, Major; 2nd term  
3rd & 4th year  
2 units; 2 hrs. Lect./wk.

A sequel to SWK 333.

SWK 335  Community Work I  
Core, Optional, Major; 1st term  
3rd & 4th year  
2 units; 2 hrs. Lect./wk.

The purpose and methods of community planning of social services will be discussed. The role of the professional worker in various organizational settings will be examined. Attention is directed to the discussion of community planning promoted by Hong Kong social welfare agencies, both governmental and voluntary.

SWK 336  Community Work II  
Core, Optional, Major; 2nd term  
3rd & 4th year  
2 units; 2 hrs. Lect./wk.

A sequel to SWK 335.

SWK 350  Field Instruction I  
Core, Major; Year  
3rd year  
8 units; 14 hrs. Exer./wk.

The course aims to provide opportunities for students to put into practice in an agency setting under supervision, theories learned in class: (a) Methods of direct service to clients — casework, group work and community organization; (b) Knowledge and differential use of community resources; (c) Jobs akin to agency administration — planning, budgetting, staffing, etc., and (d) Tools of administration — writing of reports, letters, accounting, use of research findings, conducting meeting, etc.

SWK 040  Student Orientated Teaching  
Core, Major; STOT; Year  
4th year  
4 units; 2 hrs. STOT/wk.

This is small-group, less structured teaching related to the student’s major field but not formally tied to any particular course. Its aim is to build in the student habits and attitudes of mind characteristic of the expert in his or her chosen field and relevant to the solution of the kind of problems the student is likely to encounter in life. For this year of studies, the primary focus is on training the student to present a report in a proper manner based on a logical examination of a given problem.

SWK 441  Social Welfare Administration  
Core, Optional, Major; 1st term  
4th year  
2 units; 2 hrs. Lect./wk.

This course aims to provide some basic understanding of welfare agency administration. Basic principles and methods in administration, issues in

1 Student-orientated Teaching
policy making, personnel management and administrative structure of social welfare agencies will be discussed.

SWK 442  
Social Policy and Planning  
Core, Optional, Major; 2nd term  
4th year  
2 units; 2 hrs. Lect./wk.

This course aims to achieve an appreciation of the contribution of social planning and policy-formulation to the solution, control and amelioration of social problems on the macro-level; a knowledge of the key elements involved in the process of decision-making; an ability and some skill in designing programmes of social service consistent with the economic capacity, cultural values and standards in the Hong Kong setting.

SWK 443  
Social Work Research  
Core, Optional, Major; 1st term  
3rd & 4th year  
2 units; 2 hrs. Lect./wk.

This course is designed to provide students with an understanding of research as an essential component of professional practice. The relationship between research principles and methodology and practice principles and techniques will be emphasized. Problem formulation, research design, data collection, analysis and reporting research findings will be discussed.

SWK 450  
Field Instruction II  
Core, Major; Year  
4th year  
8 units; 14 hrs. Exer./wk.

See SWK 350 Field Instruction I. Prerequisite: Field Instruction I.

SWK 461  
Seminar I (Social Security)  
Core, Optional, Major; 1st term  
3rd & 4th year  
3 units; 2 hrs. Lect./wk.

This course studies the concepts of social security, its historical development and societal functions. Social security programmes in other countries are compared. Special reference is made to local programmes. The planning, financing and administrative aspects of the social security system are also studied.

SWK 462  
Seminar II (School Social Services)  
Core, Optional, Major; 2nd term  
3rd & 4th year  
3 units; 2 hrs. Lect./wk.

This course includes the examination of the existing educational system and its impact on the developmental process of school children in Hong Kong. Various kinds of social services in school will be discussed. Relevant local materials on school social work are used for illustration.
SWK 463  
Seminar III (Social Aspects of Housing)  
3rd & 4th year  
3 units; 2 hrs. Lect./wk.

This course discusses housing in Hong Kong, the development of its character, the physical layout of multi-storey buildings and housing estates and neighbourhoods. It also explores the social, educational and recreational opportunities and facilities in the housing estates for tenants of various age groups. The social and psychological impacts associated with living in high flats are studied, with policy implications for future housing planning.

SWK 464  
Seminar IV (Family Planning)  
3rd & 4th year  
3 units; 2 hrs. Lect./wk.

Family planning will be viewed within the context of social work practice. The values and resources for the planning of family size and the role of the social workers as an educational and therapeutic agent in family planning will be examined.

**Requirements for Major Students**

(a) The 10 core courses will be required of all Sociology Majors, and will be offered in multiple sections, depending on the number of students enrolled.

(b) Five of the core courses are, in effect, fundamental courses in the Paper Areas. They are Complex Organization, Social Development, Social Problems, Collective Behaviour, and Chinese Society.

(c) The minimum number of units for Majors is therefore 51.

**Requirements for Minor Students**

(a) All minors are required to take Introduction to Sociology.

(b) Minor students are required to take a minimum number of 21 units.

**Course Description**

**SOC 101/102**
Introduction to Sociology  
Core, Both; Both terms  
1st year  
3 units; 2 hrs. Lect.+1 hr. Tut./wk.

An overview of basic concepts and principles in the field of sociology. Elements of social organization, functional relationships of social institutions, and processes of social change are examined.

\(^1\) Core course.
SOC 201  
Classical Theory  
Core, Major; 1st term  
2nd year  
3 units; 2 hrs. Lect.+1 hr. Tut./wk.  
The foundations of sociological theory as laid by the classic writers of the turn of the century are examined in the light of current sociological perspectives. Special emphasis is given to the works of Marx, Durkheim, Weber, and Simmel. Fundamental developments of method and theory are examined.

SOC 202  
Contemporary Theory  
Core, Major; 2nd term  
2nd year  
3 units; 2 hrs. Lect.+1 hr. Tut./wk.  
This course reviews some of the outstanding contemporary propositions in sociological theories: Symbolic Interactionism, Structural Functionalism, Conflict Theory, Exchange Theory, Social Phenomenology, Action Theory and Ethology. It begins by analyzing the nature of scientific theorizing, its logical and epistemological bases, and its problematic status in Sociology.

SOC 203  
Research Methods  
Core, Major; 1st term  
2nd year  
3 units; 2 hrs. Lect.+1 hr. Tut./wk.  
This course is an introduction to the fundamental principles and procedures of scientific research in sociology. It includes studies of problem formulation, research designs, data collection methods, data analysis and interpretation, and report presentation. Materials from local research projects are used for illustration. Home-work assignments are given for the design of a research project.

SOC 204  
Social Statistics  
Core, Major; 2nd term  
2nd year  
3 units; 2 hrs. Lect.+1 hr. Tut./wk.  
This course is to develop an understanding of the basic assumptions, methods and interpretation of statistical analysis in social research. It includes sets and relations, the structure of social science data, measurement and scaling, probability, sampling procedures and distributions, the logic of statistical tests and estimation procedures, various parametric and non-parametric tests, and analysis of correlations among social variables.

SOC 251/252  
Chinese Society  
Core, Major; Optional, Minor  
Both terms; 2nd year  
3 units; 2 hrs. Lect.+1 hr. Tut./wk.  
The main purpose of this course is to present to students the essential sociological concepts and tools and the major sociological literature on Chinese society necessary for a basic understanding of the Chinese social system. An overview of sociological analyses of Chinese traditional and transitional society is offered.
SOC 030  
Guided Study in Sociology
Core, Major; STOT\(^1\); Year  
3rd year  
4 units; 1 hr. STOT/wk.

Students are required to elect three courses, but shall not take more
than two courses from any section. It is strongly recommended that at
least two courses are to be taken in the second year, while the
remaining course may be taken in the third year. Students may take a
course such as philosophy, psychology and anthropology from the
General Education programmes offered by other Colleges; the units
thus gained with count towards the credit requirements.

Physical Education Programme

Physical Education is part of the General Education Programme. It aims to develop in students the skills in physical activities that will enable them to promote their personal physical fitness, maintain health, build morale and establish an interest in future recreational activities.

The entire programme is based on the needs and interests of the student body as a whole. It includes: (1) Basic Instructional Physical Education Programme, (2) Intramural Sports Programme, and (3) Inter-collegiate Sports Programme.

Basic Instructional Physical Education Programme
Physical Education is required of all first-year students and is open to other students on a credit-earning basis.

A course may be taken only once for credit. The number of units earned shall normally not exceed 10.

I. Required Programme
Two 1-unit term course are required of all first-year students.

Courses in 1st term are largely designed to improve students’ physical condition in general. Courses in the 2nd term aim to acquaint students with the fundamental knowledge and skills of team sports. The entire programme also emphasizes the development of personality through team work and fair play.

The basis of assessment for each course will be students’ achievement in basic skills and class attendance.
1st Term

2nd Term
Basketball
Soccer (for men only)
Volleyball
Softball
German Handball

Code Numbers
PHE 101/102 – Chung Chi students
PHE 103/104 – New Asia students
PHE 105/106 – United students

Students with health problems may take a special programme designed to meet their needs, and are admitted to either Alternative I or II according to the recommendations of the Director of Physical Education and a physician of the University Health Service.

(Alternative I)
(a) Reading and written assignments on one of the following topics:
   - Foundation of Physical Education
   - History of Physical Education
   - Principle of Physical Education
   - Sociology of Sport
   - Psychology of Sports
   - Comparative Physical Education
   - Man and Exercise
   - Physical Conditioning
(b) Written test at the end of each term.

(Alternative II)
(a) and (b) in Alternative I; plus
(c) Light exercises under close supervision of an Instructor, such as physical conditioning, table-tennis, archery swimming, jogging etc., depending on the physical capabilities of the student.

II. Elective Programme
The elective programme is open to students of all years, who are interested in physical education and keen to acquire more skills.

The programme is composed of the following 1-unit term courses for both terms:
PHE 171 Track and Field
PHE 172 Gymnastics
PHE 173 Swimming
PHE 174  Physical Conditioning  
PHE 175  Basketball  
PHE 176  Soccer (for men only)

PHE 185  Social Dance  
PHE 186  Folk Dance

_Intramural Sports Programme_

The Physical Education Unit, in cooperation with the University and College Student Unions, provides a wide variety of team and individual competitions.

Each year, University-wide activities include an Aquatic Meet and a Track and Field Meet. In addition, there are formal team competitions in basketball, volleyball and other sports between College teams.

_Intercollegiate Sports_

This competitive programme is for students who are interested in scheduled athletic competition with teams of other post-secondary colleges in Hong Kong. Men's teams include volleyball, basketball, badminton, track and field, tennis, soccer, swimming, German handball, and table-tennis. Women's teams include volleyball, basketball, badminton, track and field, tennis, swimming and table-tennis.

The coaching staff consist of qualified personnel within the Unit. Special skill instructors are also sometimes invited from outside to give instruction in an honorary capacity.
FIRST YEAR CHINESE AND FIRST YEAR ENGLISH

Both the Department of Chinese Language and Literature and the Department of English offer language courses, viz. First Year Chinese and First Year English, for all first year students unless the student has been granted exemption.

First Year Chinese

Course Codes
CHI 171/173/175/177

Aim and Scope
This course aims to help the student to acquire the ability to use the Chinese language effectively for communication and study. The course consists of: (1) teaching of texts, (2) language exercise, (3) outside reading, and (4) composition.

Teaching and Tutorial
The three periods assigned to this course in every teaching week are apportioned as follows:

(1) One period for teaching, the emphasis being on analysis of texts and usage of language.
(2) One period for language exercise which is composed of: (a) A short composition in about 500 characters on a subject of practical writing every fortnight. Mutual assessment should be done among students before the composition is submitted to the teacher. (b) Exercise in grammar and rhetoric. (c) Practice of listening and reading skills.
(3) One period for tutorial during which students will discuss language problems under the guidance of a teacher.

Assignments
(1) Composition: Each student must submit at least three essays per term.
(2) Outside reading: Each student must read one to two books selected from a list of works by more than ten modern writers. The teacher will assess each student’s progress at fixed intervals.

The subject matter of the reading passage is used to generate speaking, listening and writing exercises which have been developed on the basis of a needs assessment.
POSTGRADUATE STUDIES

The University first introduced programmes at the postgraduate level with the establishment of the School of Education in 1965. In the following year, the Graduate School was formally founded to undertake research training of graduate students leading to the award of Master's degrees. In 1980, the University advanced into the realm of doctoral education.

The Graduate School at present offers instructions through its 22 graduate boards and divisions.

In the current academic year, postgraduate studies programmes leading to the degree of Doctor of Philosophy (PhD) are conducted in the field of Chinese Studies and in Biochemistry, Biology, Electronics and Physics. For a PhD degree, a candidate shall normally spend a minimum of three years (or two years for one holding a Master's degree) and a maximum of seven years. General Rules for Postgraduate Studies Leading to the Degree of Doctor of Philosophy are printed on pp. 528-534 of this Calendar.

Three types of programmes leading to the award of Master's degrees are offered: (1) two-year programme including course-work and research thesis leading to the award of the degrees of Master of Philosophy (MPhil), Master of Business Administration (MBA), Master of Divinity (MDiv) or Master of Social Work (MSW); (2) one-calendar-year programme by course-work and examination or submission of a satisfactory dissertation leading to the award of the degrees of Master of Arts (MA), (3) a three-year part-time programme leading to the award of Master of Business Administration (MBA) or Master of Social Work (MSW).

Courses on education are conducted by the School of Education established in 1965 to provide professional training for graduates of approved universities to serve in local secondary schools. The School offers (1) a one-year full-time course and a two-year part-time course leading to the Diploma in Education (DipEd), and (2) a one- to three-year programme leading to the degree of Master of Arts in Education (MA (Ed)).

Persons who have graduated with good honours degrees from recognized universities and who have the capacity for research may apply for admission to the above postgraduate programmes. General Regulations Governing Postgraduate Studies are printed on pp. 516-527 of this Calendar.
Programmes Leading to Doctoral Degrees

CHINESE STUDIES

The PhD Programme in Chinese Studies involving the disciplines of Chinese Language and Literature, History and Philosophy is administered by a graduate board consisting of representatives from the graduate divisions concerned.

In addition to the general qualifications required for admission to a PhD Programme, candidates should have majored in Chinese Language, Literature, History, Philosophy, Arts or other related fields. A student is expected to select his area of concentration from the field of Chinese Language, Literature, History, Philosophy, Arts etc.

On the Programme, a student is expected to take a maximum number of 18 units, i.e. three year-courses in a year and a language other than Chinese and English may be required. Upon successful completion of the language and course requirements the student will write his thesis under the direction of his Supervisor.

BIOCHEMISTRY

In addition to the general qualifications required for admission to a PhD Programme, a candidate would be required to demonstrate that he has a clear understanding of the basic principles of Biochemistry by passing a comprehensive examination administered by the Division.

The Programme is research-oriented. A candidate may be asked to take courses, tutorials etc., and will be required to present a seminar on a topic to be approved by his Supervisor. In the final year of study, a candidate must submit a thesis to his thesis committee which will make assessment together with the candidate’s annual oral or written progress reports.

BIOLOGY

In addition to the general qualifications required for admission to a PhD Programme, candidates should normally have a Master’s degree in the life sciences, or in another acceptable discipline.

The Programme is research-oriented. A candidate may be required to take courses, tutorials etc., and will be required to present seminars on topics to be approved by his supervisor. For the first two years of study, a candidate will provide a brief written progress report at intervals of six months.

Fields of Specialization

1. Applied and Environmental Biology
2. Cytology, Genetics, Microbiology and Molecular Biology
3. Physiology and Developmental Biology

ELECTRONICS

In addition to the general qualifications required for admission to a PhD Programme, the candidate should normally have majored in Electronics, Electrical Engineering, or Physics with Electronics, or in related fields.

The Programme is research-oriented. A Master degree holder is not required to take any course work although he may register for courses related to his research or upon the Supervisor’s advice. An applicant with a BSc degree will have to satisfy the following course requirements:

(a) Each student must take at least six courses, four of which must be at the graduate level. One of the courses may be German, French, or Japanese. At least four of these courses must be taken and passed in the first two terms that he registers on the Master’s programme.

(b) The Grade Point Average of the required courses taken must be at least 2.6 for each term, with each course grade at C or above.

Fields of Specialization

1. Signal Processing
2. Computer Architecture and Applications
3. Semiconductor, Superconductor, and Liquid Crystal Technology
4. Microwave Theory and Techniques
5. Control and System Theory
6. Biomedical Engineering
7. Plasmas and Electromagnetic Theory
8. Solid State Circuits — Fabrication and Technology
9. Solar Energy Devices

PHYSICS

In addition to the general qualifications required for admission to a PhD Programme, candidates may be required to sit for the Graduate Record Examination in Physics.

The Programme is research-oriented. A candidate must satisfy course requirements as for MPhil Programme, and in addition, such other courses as may be prescribed.

The minimum length of study shall normally be four years for a student without a Master’s degree.
Programmes Leading to Master’s Degrees

DIVISION OF BIOCHEMISTRY

Fields of Specialization
1. Actions of Animal Hormones/Reproductive Physiology
2. Molecular Biology/Virus
3. Intermediary Metabolism/Actions of Plant Hormones
4. Bioactive Natural Products
5. Reproductive Biochemistry/Structure-Activity Relationships of Hormones
6. Immunochemistry
7. Biochemical Aspect of Drug Addiction
8. Structure and Function of Serum Lipoproteins
9. Behavioural Biochemistry/Sensory Biochemistry
10. Neurobiochemistry
11. Biochemistry of Motility
12. Detection of Carcinogenic Compounds

MPhil Degree Programme
The minimum requirements are:
First Year: 
Course in Biochemistry or in other disciplines as approved by the Division .......... 8
Research/Special Study/Literature Review .......... 4
Seminar .......... 2
Second Year:
Graduate Course/Seminar .......... 2
Research towards a Master’s thesis .......... 8

Total .......... 24 units

DIVISION OF BIOLOGY

Fields of Specialization
1. Animal Physiology/Comparative Endocrinology (especially fish and reptiles)
2. Cytogenetics
3. Developmental Zoology/Embryology
4. Fungal Genetics
5. Microbiology/Phycology
6. Molecular Biology/Cancer
7. Plant Pathology/Mycology
8. Plant Hormone/Intermediary Metabolism
9. Virology/Bacteriophage
10. Ecology/Environmental Studies
11. Marine Biology/Mariculture
12. Culture of Edible Fungi
13. Entomology
MPhil Degree Programme

The minimum requirements are:

First Year: (Units)
1. Course work ........................................ 6
2. Seminar .............................................. 2
3. Research for thesis ................................. 4

Second Year:
1. Special Topic with Supervisor or Panel .......... 2
2. Seminar .............................................. 2
3. Research for thesis ................................. 8

Total ..................................................... 24 units

(Students may proceed to work on the Special Topic in their first year and defer the course work to their second year under special circumstances.)

DIVISION OF BUSINESS ADMINISTRATION

The University offers two types of postgraduate programmes leading to the degree of Master of Business Administration (MBA): (1) a two-year programme, and (2) a three-year programme (evening).

The two-year Programme has until recently been operated by the Lingnan Institute of Business Administration established with substantial initial financial support from the Lingnan University Board of Trustees in New York in 1966. The three-year Programme was launched in 1977 with generous financial support from the local business community. In February 1981, the name “Lingnan Institute of Business Administration” was replaced by that of “the Division of Business Administration of the Graduate School” which is responsible for both the two-year and the three-year Programmes.

The major objective of the MBA Programme is to prepare men and women for responsible administrative and executive positions in business, Government and other organizations. The three-year Programme, which is conducted in the evening in town, is designed to provide practising managers with the opportunity to learn new concepts of business management without interruption of their careers.

Admission to the MBA Programmes is open to graduates of recognized colleges and universities, both in Hong Kong and abroad, who hold a Bachelor’s degree in any field of study; or to those who have professional or similar qualifications equivalent to a degree. Applicants who meet these qualifications or undergraduates who expect to receive their Bachelor’s degrees in the current academic year, may apply for admission to the two-year MBA Programme. For the three-year MBA Programme, applicants are expected to have had at least three years of full-time working experience.
Two-year MBA Degree Programme
Completion of the two-year curriculum usually takes four semesters in full-time residence. The student who does not obtain any waiver of required courses must have 60 credits in order to graduate; the student who is allowed to waive one or more courses must complete at least 54 credits in order to graduate.

Second year courses include Operations Research, Managerial Economics, Managerial Control Systems, Organizational Behaviour, Business Policy, and three elective courses. Students are also required to complete either a Master's Thesis or a Business Research Report.

Three-year MBA Degree (Evening) Programme
Completion of the three-year curriculum normally takes nine trimesters of study. Students are expected to take two courses each trimester. A minimum of 54 credits are required in order to graduate.

First year courses include Accounting, Principles of Organization and Management, Economics, Quantitative Methods in Business, Business Research Methods, and Legal Environment of Business.

Third year courses include Managerial Economics (or Operations Research), Organizational Behaviour, Research in Business Problems (or Master's Thesis II), Business Policy, and two electives.

DIVISION OF CHEMISTRY

Fields of Specialization
1. Inorganic Chemistry
2. Analytical Chemistry
3. Organic Chemistry
4. Physical Chemistry
5. Theoretical Chemistry
6. Applied Chemistry

MPhil Degree Programme
The courses offered to students are varied according to their interest and their research project. The study plan for each student will be arranged by his research supervisor, following the guideline set up by the Chemistry Board.

First Year:
1. Selected topic courses in Chemistry offered both to 4th-year undergraduates and graduate students
2. Tutorial course in an advanced special field to strengthen his background in research, as arranged by the supervisor
3. Survey of current literature in the chosen field arranged with the supervisor
4. Courses offered by other departments but specially useful to the graduate students
5. Seminar
6. Research

Second Year:
1. Tutorial course and literature survey arranged with the supervisor
2. Seminar
3. Research towards a Master’s thesis

DIVISION OF CHINESE LANGUAGE AND LITERATURE

MPhil Degree Programme
Students in the first year are required to complete course work and take part in the seminar, totalling 10 units. While in their second year, they are required to take part in the seminar and prepare a Master’s thesis.

Courses are to be offered in the following fields:
1. For Chinese Linguistics Section:
   (a) Selected Works on Chinese Language
   (b) Ancient Chinese Etymology
   (c) Chinese Dialects
2. For Chinese Literature Section:
   (a) Selected topics on Chinese Verse
   (b) Selected topics on Chinese Prose
   (c) Selected topics on Modern Chinese Literature

3. Common Course Seminar:

   Students of both Sections must learn a third modern language other than Chinese and English for a period of two years.

DIVISION OF COMMUNICATION

MPhil Degree Programme

The principal objective of this two-year curriculum leading to the MPhil degree in Communication is to contribute to understanding the processes and effects of communication in the context of a changing society, particularly the Chinese.

The programme aims at performing three major functions: (1) to equip the students with the basic and latest knowledge and professional skills in communication; (2) to acquaint them with key concepts in the fields of specialization in communication and/or related fields; and (3) to prepare them for the creation of and contribution to new knowledge in communication.

Each student is required to complete a total of 60 units in two years of which two-fifths will be on communication courses, and the rest will include elective courses in communication-related areas, summer in-study professional experience and a master thesis.

The programme of study for each student is to be arranged by his academic advisor. Major courses to be offered include the following:

1. Multi-disciplinary Approach to Mass Media
2. Process of Human Communication
3. Human Communication Technology
4. Design and Analysis for Communication Research
5. Strategy for Integrated Communication Campaigns
6. Communication in Cultural and National Context
7. Seminar on Communication Patterns in Chinese Culture
8. Topical Studies in Communication

Course work must be completed within four semesters unless approved otherwise by the Division head. A student may be required to take extra courses or exempted from special courses upon approval of the Division head.
DIVISION OF ECONOMICS

Fields of Specialization

1. Quantitative Economics
2. International Economics
3. Economic Development
4. Asian Economic Studies

MPhil Degree Programme

Each MPhil candidate must meet a minimum requirement of 24 credits for course work (an equivalent of 8 term courses) and a substantial thesis, which normally take two years for completion.

First Year:

1. Compulsory courses:
   (a) Economic Theory
   (b) Econometrics

2. Elective courses:
   (a) Mathematical Economics
   (b) Monetary Theory
   (c) International Trade
   (d) International Finance
   (e) Economic Development
   (f) Development Planning
   (g) Socialist Economics
   (h) Seminars in Area Studies

Second Year:

1. Seminars
2. Research towards a Master’s thesis

DIVISION OF EDUCATION

In addition to the general qualifications required for admission to the Graduate School, applicants for the MA(Ed) programme must have obtained the Diploma in Education or a qualification or relevant experience acceptable to the School of Education in lieu thereof. For the Diploma in Education Programme, see pp. 437-438 of this Calendar.

Fields of Specialization for Programme I by Thesis and Course Work

1. Educational Administration
2. Educational Communications and Technology
3. Guidance and Counselling
4. Educational Psychology
5. Educational Measurement
6. Curriculum Planning and Development
7. Comparative Education
8. Chinese Language Education
Fields of Specialization for Programme II by Course Work

1. Chinese Language Education
2. Guidance and Counselling

MA (Ed) Degree Programme

Students in Programme I (degree by thesis and course work) must complete the required courses and a thesis to the satisfaction of the School of Education within three years; and students in Programme II (degree by course work) must complete the required courses and/or practicum to the satisfaction of the School within three years.

DIVISION OF ELECTRONICS

Fields of Specialization

1. Signal Processing
2. Computer Architecture and Applications
3. Semiconductor, Superconductor, and Liquid Crystal Technology
4. Microwave Theory and Techniques
5. Control and System Theory
6. Biomedical Engineering
7. Plasmas and Electromagnetic Theory
8. Solid State Circuits — Fabrication and Technology
9. Solar Energy Devices

MPhil Degree Programme

A student pursuing the MPhil degree is required to complete four courses satisfactorily, each course consisting of not less than 20 hours of lectures. In addition, the student is required to carry out a research project of about one year in duration for which a satisfactory thesis is required.

DIVISION OF ENGLISH

MA Degree Programme in English Language

Students are required to take three courses in each of two terms, and to spend five months on a research project, so that the course will last one full calendar year. The prescribed and elective courses will be arranged by the supervisor and Graduate Panel.

Fields of Specialization

1. Linguistics
2. Applied Linguistics
3. Sociolinguistics
4. Psycholinguistics
**MPhil Degree Programme in Teaching of English as a Second Language**

The course of study requires two years to complete. In each of the first three terms, students will be required to take three courses. In the fourth term (and part of the third term if necessary) students will devote themselves primarily to the preparation of a research thesis. Students will be required to attend additional seminars in all four terms. The prescribed and elective courses will be arranged by the supervisor and Graduate Panel.

**Fields of Specialization**

1. Linguistics
2. Applied Linguistics
3. Sociolinguistics
4. Psycholinguistics
5. Instructional Methodology
6. Materials Development
7. Evaluation
8. Curriculum Design and Planning

**MPhil Degree Programme in Comparative Literature**

The course of study requires a minimum of two years to complete; the first three terms concentrating on seminar work, and the fourth term, on the writing of a thesis. Students are required to complete a total of nine seminars and to submit a thesis.

**First Year:**

(First Term)
1. Bibliography and Research Method
2. Comparative Literature – Recent Trend and Perspective
3. Comparative Study of Fiction

(Second Term)
4. Comparative Study of Poetry
5. Comparative Study of Drama
6. Comparative Study of Literary Criticism

**Second Year:**

(First Term)
7. Problems of East-West Comparative Literature
8. Folklore and Literature
9. Linguistic Stylistics
10. Translation
11. Recent Critical Methodologies and Comparative Literature

(Second Term)
Thesis
DIVISION OF FINE ARTS

Fields of Specialization
Fields of specialization include the histories and theories of painting and calligraphy, ceramics, bronzes, jades and other decorative arts.

MPhil Degree Programme
The total requirement of the programme normally takes two years for completion.

First Year: (Units)
- Bibliography and Research Methods ................. 4
- Seminar: Topics in Chinese Art .................... 4
- Electives ........................................... 4 – 8

Second Year:
- Elective ........................................... 4 – 6
- Thesis ............................................... 8

Total ........................................... 24-30 units

Students are also required to learn a third modern language other than Chinese or English.

DIVISION OF GEOGRAPHY

MPhil Degree Programme
1. China Studies
2. Urban-economic Studies
3. Environmental Studies

In addition to course work, each student will be required to write and submit a research thesis.

DIVISION OF HISTORY

Fields of Specialization
1. History of Chinese Political Institutions
2. Chinese Historical Geography
3. Chinese Economic History
4. Ancient Chinese History
5. History of the Ch' in and Han Dynasties
6. History of the Wei, Chin and Southern and Northern Dynasties
7. History of the Sui and T'ang Dynasties
8. History of the Sung, Liao, Chin and Yuan Dynasties
9. History of Ming and Ch' ing Dynasties
10. Modern Chinese History
11. History of Contemporary China
12. Historical Relations between China and the Western World
13. World History — national history, modern and contemporary Western history

MA Degree Programme
Students are required to take at least four full courses or their equivalents in one calendar year, and should get a satisfactory grade approved by the Division.

MPhil Degree Programme
Students are required to take at least four full courses or their equivalents in second years of study, and to prepare a Master's thesis in the second year. They are also required to learn a third modern language other than Chinese and English for a period of two years.

DIVISION OF MATHEMATICS

Fields of Specialization
1. Functional Analysis
2. Algebra
3. Differential Geometry
4. Applicable Mathematics

MPhil Degree Programme
Each candidate should normally complete a total of 26 units. These may be distributed as follows:

First Year: (Units)
1. Courses ............................................... 8
2. Seminar ............................................... 2
3. Thesis ............................................... 2

Total ............................................... 12 units

Second Year: (Units)
1. Courses ............................................... 2
2. Seminar ............................................... 2
3. Thesis ............................................... 10

Total ............................................... 14 units

Each course arranged by the Graduate Panel will be for one term and will be equivalent to two units. The Graduate Panel offers five basic graduate courses. The candidates should pass at least three of them before their graduation. The three basic graduate courses selected by the candidate should not be directly within their own field of specialization. Other courses will be arranged under the guidance of the supervisors and the Graduate Panel. If the Panel agrees, students may take
some undergraduate courses which are related to their research, but in no case shall a student be credited with more than the equivalent of four postgraduate units in undergraduate courses.

DIVISION OF PHILOSOPHY

Fields of Specialization
1. Problems of Chinese Philosophy
2. Problems of Epistemology
3. Metaphysics
4. Studies of Chinese or Western Philosophers
5. Other fields of Philosophy including Comparative Studies in Philosophy

MPhil Degree Programme
Students are required to take at least four full courses and to prepare a Master’s thesis in the second year of study.

DIVISION OF PHYSICS

MPhil Degree Programme
(A) Courses: A Student is required to take at least four of the courses listed below, of which at least three should be taken in the first year.
1. Quantum Mechanics (required)
2. Advanced Mathematical Methods (elective)
3. Electrodynamics (elective)
4. Solid State Theory (elective)
5. Selected Topics (elective)

(B) Research: Each student is required to undertake a research project and to write a thesis. Faculties are available for work on the following:
1. Electrical and mechanical properties of solid state polymers
2. Thermal properties of solid state polymers
3. Optical properties of solids
4. Electrical and optical properties of amorphous semi-conducting films
5. Ultrasonics in polymers and condensed state
6. Biophysics
7. Neutron activation analysis
8. Multi-valued logic circuits
9. Theoretical study of disordered systems
10. Interaction of laser with matter
11. Holography
DIVISION OF SOCIAL WORK

MSW Degree Programme (Full-time)

The programme aims to prepare students for policy, administrative and teaching roles in social welfare. The focus is on the provision of courses that allow flexibility to students in relation to career goals. The course consists of four semesters of graduate work, including a field practicum. Students may complete the programme in two academic years of study beginning in September.

The minimum requirements are:

First Year: (Units)
1. Course work ........................................ 8
2. Seminar ........................................ 4
3. Research ........................................ 4

Second Year:
1. Seminar ........................................ 4
2. Research for thesis .............................. 6
3. Field Practicum ................................ 4

Total ........................................ 30 units

MSW Degree Programme (Part-time):

This as a part-time day-release programme with a curriculum identical to the full-time programme, but the time required is three years. Students must be practising social workers who have gained approval from their employers for taking the course.

First Year: Social Welfare in Transition
Social Work Processes
Independent Study
Seminar on Social Policy and Planning

Second Year: Research Methodology I
Interdisciplinary Studies
Seminar on Social Work
Research Methodology II

Third Year: Independent Research I
Seminar on Social Development
Independent Research II
Seminar on Comparative Social Welfare
Field Practicum

The minimum required units are:

Course work ........................................ 8
Seminar ........................................ 8
Research (course work) .......................... 4
Research (empirical) .............................. 6
Field Practicum ................................ 4

Total ........................................ 30 units
DIVISION OF SOCIOLOGY

Fields of Study
The Division offers supervised research and reading courses in the following areas: Advanced Theory, Advanced Methodology, Comparative Social Systems, Aspects of Sociology, Chinese Society, Hong Kong Society and Graduate Seminar.

MPhil Degree Programme
The Sociology Division offers a two-year programme leading to a MPhil degree. The programme is organized to enable the students to devote the first year to course work and to spend the major part of the second year writing a Master's thesis. Each student and his supervisor will plan a programme of studies at the beginning of the first year. This programme will consist of required graduate courses and elected reading courses chosen in the light of the student's needs and interests. In some cases, students may be required to take advanced courses in the undergraduate curriculum which are relevant to the students' thesis topic or which will strengthen the students' general sociological background. In addition, each student will be required to attend Graduate Seminar which meets every week. The purpose of this Seminar is to provide a forum for the exchange of views among graduate students, faculty and visiting specialists in relation to a number of selected topics in current sociology and anthropology. Students are required to choose their thesis topic in the second term of the first year and, if possible, to initiate at least exploratory research during the summer months.

DIVISION OF STATISTICS

Fields of Specialization
Bayesian Inference, Canonical Correlation Analysis, Computational Statistics, Covariance Structure Models, Discriminant Analysis, Distribution Theory, Estimation Theory, Factor Analysis, Functional Relationships and Statistical Methodology

MPhil Degree Programme
Each student should complete a minimum of 24 units which may be distributed as follows:

First Year:
1. Course Work ........................................... 6
2. Seminar ........................................... 4
3. Research for Thesis ................................. 2

Second Year:
1. Seminar ........................................... 4
2. Research for Thesis ................................. 8

Total ........................................... 24 units
Five basic graduate courses will be offered. If the Graduate Panel agrees, students may obtain two post-graduate course units by taking undergraduate courses which are related to their research. The thesis should either contain original results in Statistics or make a substantial contribution to some particular area through the use and interpretation of sound statistical methods. Normally, students' research projects should be related to the above fields of specialization.

DIVISION OF THEOLOGY

MDiv Degree Programme

First Year: The regular programme for MDiv degree will consist of advanced studies designed to bring the students to a high level of competence in the basic skills and knowledge required for various forms of ministry.

Second Year: Students will concentrate on the area of their own special interest and write a Master's thesis incorporating the results of their study in their area of special interest.

Those who hold a Bachelor's degree in subjects other than Theology will have to study more than two years to fulfil the requirements.

Programme Leading to Diploma in Education

The School of Education offers a one-year full-time course and a two-year part-time course leading to the Diploma in Education. For the convenience of serving teachers, two types of two-year part-time course are provided: (1) part-time evening course, and (2) part-time day course (classes mainly given on weekends during the year in addition to the summer school holidays). There is also a postgraduate programme leading to the degree of Master of Arts in Education (MA (Ed)) (See pp. 429-430 of this Calendar).

Applicants for the Diploma in Education courses should be graduates of recognized universities and those who wish to apply for the two-year part-time courses must be serving secondary school teachers or educational workers in related fields.

The programme includes the following courses:
- Subject Curriculum and Teaching: First Teaching Subject
- Educational Thought and Issues I & II
- Psycho-social Development of the Adolescent
- School Guidance
- Psychology of Learning and Teaching
- Evaluation and Test Construction
Micro-teaching  
Educational Communications and Technology (Elective)  
Subject Curriculum and Teaching; Second Teaching Subject (Elective)  
School Administration (Elective)  
Education Research and Statistics (Elective)  
Extra-curricular Activities (Elective)  
Education in China (Elective)  
Individual Project (Elective)  

In addition to course work, full-time students are required to spend a substantial part of the academic year in practice teaching which includes a series of micro-teaching practice-sessions and two blocks of observation and teaching in secondary schools.
INTERNATIONAL ASIAN STUDIES PROGRAMME

In keeping with the University’s distinctive educational mission of promoting cultural exchange between East and West, an International Asian Studies Programme was launched at the University in 1977 with the support of the Yale-China Association. This Programme is open to a selected number of students, research scholars and academic staff from overseas who wish to take advantage of the University’s academic resources and research facilities in the broad area of Chinese and Asian studies, including the Chinese language training programme offered by the New Asia — Yale-in-China Chinese Language Centre.

The International Asian Studies Programme is fully integrated into the regular academic, administrative and social structure of the University. Programme participants from overseas and local students live in the same hostels. Some courses in Asian and Chinese studies are taught in English for the benefit of both programme participants and local students. Courses given in Chinese at the University are open to those programme participants who have the language competence to benefit from them.

There are three categories of participants: (1) associate students: undergraduates and graduate students taking a full load (12-18 units per term) of language and area studies; (2) research students: graduate students primarily undertaking research or writing their masters’ theses or doctoral dissertations; and (3) special scholars: academic staff members or other learned scholars, normally of post-doctoral status, pursuing research, refresher or advanced courses.

Programme fees and financial aid for participants are respectively printed on p. 446 and p. 460 of this Calendar.

Candidates may apply for just a single term (first term: September to December; second term: January to April; summer term: 9 weeks from June to August) or for any combination of two or more consecutive terms. Previous course-work on Chinese language or Asian studies is not required for admission, but undergraduate applicants must have normally completed at least two terms of university study and graduate applicants must hold a BA degree. Research students and special scholars must show genuine research or scholarly interest.

All inquiries and applications should be addressed to the Office of the International Asian Studies Programme at The Chinese University of Hong Kong except those from America and Canada which should be addressed to the Programme’s North American representative: The Yale-China Association, 950A, Yale Station, New Haven, Connecticut 06520, U.S.A.

Course Description

IAS 120
Beginning Mandarin

Core, Elective; Both terms
2nd - Grad.
10 units; 10 hrs. Lect./wk.

The sounds and tones of Mandarin; basic sentence patterns; 347 characters.

IAS 140
Beginning Cantonese

Core, Elective; Both terms
2nd - Grad.
10 units; 10 hrs. Lect./wk.

Sounds and tones, basic grammatical structures, and introduction to radicals of Chinese characters.

IAS 220
Intermediate Mandarin I

Core, Elective; Both terms
2nd - Grad.
10 units; 10 hrs. Lect./wk.

Training daily conversation through additional patterns and vocabulary; 300 new characters.
IAS 240
Intermediate Cantonese I
Core, Elective; Both terms
2nd — Grad.
10 units; 10 hrs. Lect./wk.
Completion of introduction to basic structures; daily use vocabulary;
200 characters.

IAS 320
Intermediate Mandarin II
Core, Elective; Both terms
2nd — Grad.
10 units; 10 hrs. Lect./wk.
Emphasis on understanding and expression of ideas; direct reading
of simple "non-textbook" written Chinese.

IAS 340
Intermediate Cantonese II
Core, Elective; Both terms
2nd — Grad.
10 units; 10 hrs. Lect./wk.
Practical with colloquial conversational patterns; reading of simple
stories using an additional 200 characters.

IAS 401
Introduction to Chinese Literature
Elective; both terms; 3rd & 4th year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.
A survey of Chinese literature introducing prose, poetry, novels
and drama in both the traditional and modern periods. The evolution
of these various genres, the historical background of specific works,
and the place of literature in the culture and society of China will
be treated.

IAS 402
Chinese History and Culture
Elective; Term
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.
Salient aspects of Chinese history and civilization (language and
writing, agriculture, science and technology, social organization,
government and politics, philosophy and art) and forces working for
their integration into a cultural whole.

IAS 403
Modern China
Elective; 1st term
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.
An introduction to the political, economic, and intellectual
history of China from 1800 to 1949.

IAS 404
Cultural History of Southeast Asia
Elective; Term
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.
A historical survey of major cultural changes in S.E. Asian coun-
tries and their inter-relations with India as well as China from the pre-
historic period to the present. The impacts of Hinduism, Buddhism,
Islam, Catholicism and Confucianism on the native cultures and socie-
ties will be traced. Special attention will be given to the development
of national cultures.
IAS 405

An Introduction to Chinese Culture

Elective; Both terms
2nd-4th year
1 unit; 1 hr. Lect./wk.

The course is designed to give a general introduction to IASP and exchange students to the tradition of Chinese culture. Scholars of Chinese history, arts, society and philosophy will be invited to give talks on various topics of their expertise. The teacher of the course shall coordinate the topics to present a comprehensive and balanced picture.

IAS 406

Methodology of Teaching English (to Asian Speakers)

Core, Elective; 2nd term

Cost of University Education

In addition to the prescribed fees listed above, all full-time students are advised to set aside funds for other items including meals, books, transport, personal and other expenses.

The cost of meals on campus is about HK$2.50 for breakfast and $4.00 each for lunch and dinner. According to the estimation of the University and Polytechnic Committee on Student Finance, books and stationery and other incidental expenses would be in the region of $1,120 a year. In addition, a commuting student may have to spend between $600 to $1,000 a year on transport. Personal and other extra expenses are entirely at the discretion of the individual student concerned.

In all, taking into consideration all fees and expenditure set out above, a student will probably need between $9,000 to $11,000 a year to support his education at the University.
SCHOLARSHIPS AND FINANCIAL AID TO STUDENTS

To help needy students meet part of the cost of their university education, the Government has made provisions for grants and interest-free loans through the University and Polytechnic Committee on Student Finance. In academic year 1980/81, a total of $20,060,000 ($5,465,000 in grants and $14,595,000 in loans) were allocated to Chinese University students and more funds will be available in the current academic year. The maximum amount of support a student can expect under this scheme is a grant of $3,230 and a loan of $6,250. Most university entrants depend on this scheme for financial support.

In addition, the University and its three constituent Colleges also administer their own scholarships and bursaries. In academic year 1980/81, the value of these awards totalled $1,323,183 and 672 students were able to benefit. A summary of these awards is given below. Further details are available at the Office of Student Affairs of the University.

For Overseas Studies

Shell Scholarship for Postgraduate Studies in the United Kingdom
A sum of HK$200,000 was donated by the Shell Company of Hong Kong Ltd. to establish a Shell Scholarship Endowment Fund in 1965. In 1980, an additional donation of HK$200,000 has brought the value of the fund up to HK$400,000. The fund is administered by the University, and the interest accruing annually therefrom is used exclusively to finance a scholarship for an outstanding graduate of this University to pursue postgraduate studies leading to a degree in the United Kingdom. The value of the scholarship awarded in any year is related to the cost of the course undertaken, and includes passage and living expenses. The scholarship is not awarded every year, but only once every two or three years depending on the duration of
studies of the preceding scholarship holder. Selection is based on the candidate's personality, variety of interest, academic standing, and potential contribution to the development of Hong Kong. Particular attention is paid to his qualities of leadership. A Shell scholar must be Chinese and is expected to take up a career in Hong Kong.

For the International Asian Studies Programme

Soka University Scholarships
A total of ten scholarships are available for participants from Japan and other Asian countries. The value of these scholarships will not exceed US$1,800 for one academic year.

PART V

RESEARCH INSTITUTES
AND UNIVERSITY
EXTENSIONS
INSTITUTES AND RESEARCH CENTRES

The University is directly responsible for providing faculty members with research facilities so as to enable them to keep up with the latest developments in their own fields and to contribute to them. For this purpose three Institutes namely, the Institute of Chinese Studies, the Institute of Science and Technology, and the Institute of Social Studies and the Humanities, have been established.

Generally, the development of the Institutes is as follows: individual faculty research may develop into a group or inter-disciplinary effort; when substantial outside financial support permits, a research unit, a centre or an independent institute would be established. Various research centres and units have been set up within these three Institutes to concentrate on specific fields of studies.

Institute of Chinese Studies

The Institute of Chinese Studies was established in 1967 on the basis of a broad but unified concept of Chinese studies. It includes what is traditionally identified as Sinology, but emphasizes the application of social science discipline, characterized by its quantitative and comparative approaches.

The objectives of the Institute are: to promote scholarship in Chinese studies in Hong Kong and overseas by serving as an international centre for Chinese studies capable of effectively assisting other academic and research institutions and scholars in this field and maintaining close and continuing communication and co-operation with them; to develop a well-integrated programme of teaching and research in Chinese studies within the context of Asian and world developments; to provide interested local and visiting academic members of the University with the necessary facilities for training in order to help them strengthen their teaching and research abilities; and to encourage the exchange of knowledge and experience in Chinese studies through an effective programme of publications, academic conferences and research seminars.

Under the Institute of Chinese Studies are the Art Gallery, the Comparative Literature and Translation Centre, the Ng Tor-tai Chinese Language Research Centre, and the Centre for Chinese Archaeology and Art.

The Institute publishes The Journal of the Institute of Chinese Studies of The Chinese University of Hong Kong, a scholarly annual
with one volume in two numbers a year. More recently, the various units under the Institute have been issuing their own series of publications.

Art Gallery
The Art Gallery, established in 1971, serves both as a teaching museum for the Fine Arts Department and as a centre of research on Chinese art and archaeology. As an active gallery which mounts special exhibitions of Chinese art at regular intervals, it also provides a valuable service to the art loving community of Hong Kong.

Apart from the general collection for teaching purposes, the Art Gallery houses a photographic archive and several important research collections of Chinese art and antiquities. Notable amongst the latter are a collection of over 1,300 paintings and calligraphy by Kwangtung artists and scholars dating from the Ming to recent periods, over 250 bronze seals of the Warring States to Han periods, a collection of more than 400 pieces of Chinese jade flower carvings, over 300 rubbings of ancient inscriptions and a comprehensive collection of Chinese ceramics.

The Art Gallery has a Conservation Annex which provides technical support for the Gallery. This includes the restoration and conservation of works of art; the mounting and restoration of Chinese paintings; woodwork and photographic services.

Centre for Chinese Archaeology and Art
This Centre was established in 1978 to undertake research projects in Chinese Archaeology and Art. The purpose is to pull the resources in the Art Gallery and the Departments of History and Fine Arts together, setting a solid foundation for research in this field, and to promote cooperation with similar research programmes abroad. An index to the publications and a data archive on the subject have been compiled and are ready for service. Results of various research will continue to be published in The Journal of the Institute of Chinese Studies and more recently a number of independent publications have been inaugurated.

The Ng Tor-tai Chinese Language Research Centre
The Centre has its origin in the Chinese Linguistics Research Centre, first established in 1966. It was enlarged in early 1979 under the name of Chinese Language Research Centre, and in 1980 it was renamed The Ng Tor-tai Chinese Language Research Centre.

The main objective of the Centre is to engage in comprehensive research on the Chinese Language, including such fields as the Chinese script, pronunciation, grammar and vocabulary, and to make available to the public in general and teachers of Chinese in particular the results of its research in the hope that this will contribute towards the raising of the standard of Chinese Language teaching in Hong Kong.
In addition to the above, the Centre has started, in collaboration with the Department of Extramural Studies, a diploma course in Chinese language and plans to carry out a study of teaching material and teaching methods of Chinese in secondary schools, and to conduct research on Chinese grammar. The first issue of *Chinese Language Studies* came out in April 1980. Preparations for the publication of a dictionary of Chinese characters in common usage suitable for Hong Kong readers are also under way.

**Comparative Literature and Translation Centre**

In 1971, a Centre for Translation Projects was established with a grant from The Asia Foundation. It has concerned itself with research and publication involving English-Chinese and Chinese-English translation. The Centre was re-organized and renamed the Comparative Literature and Translation Centre and divided into two Divisions in 1978.

The Translation Division continues the work of the Centre for Translation projects. In translating from Chinese into English, it concentrates mainly in the areas of literature, history and philosophy. A continuing vehicle for this is the English-language journal, *Renditions*, published semiannually since 1973. Included in the Division's Projects are "Renditions Books" and "Renditions References". Five titles of "Renditions Books" have been published since 1976. Two more titles are now under preparation: *The Five Seasons of A Golden Year* and *Selected Chinese Lyrics*. The "Renditions References" series will include two titles: *Index of Twenty-Five T'ang Poets* and *A Dictionary of Chinese Idioms and Clichés*. The English-Chinese portion of translation work concentrates on standard works related to the social sciences and the humanities; several titles have been published. A new title, *A Critical Study of the Chinese Translations of Hamlet*, will come out in 1981.

The Comparative Literature Division works from a "Chinese perspective" in order to complement the work of Western comparatists. Chinese literature is its focus and several research projects are now underway. Books already published include *China and the West: Comparative Literature Studies* (1980) and *Chinese-Western Comparative Literature: Theory and Strategy* (1981). A third volume, *The Chinese Text*, is scheduled to come out shortly. The Division also co-sponsors conferences e.g. conferences on Phenomenology and the Nature of Art and on Bertolt Brecht and East Asia were held during the 1980-81 academic year.
Institute of Science and Technology

The Institute of Science and Technology is established for the purpose of promoting interdisciplinary research in the Science Faculty with particular emphasis on projects with long-term regional significance or applied value. It is also an important vehicle of the University for cooperation in scientific research and consultation with industries, government departments and other universities. At present, there are three major research centres under the Institute which will in addition promote other interdisciplinary projects before developing them into newer research units when justified.

Chinese Medicinal Material Research Centre

The Research Centre has its origin in the Research Unit on Chinese Medicinal Material which was established in 1975. It was enlarged in 1979. Research personnel come from Biochemistry, Biology, Chemistry and other departments. The basic objective is to undertake laboratory investigation of certain rationally selected Chinese medicinal herbs in order to establish their true therapeutic value on a scientific basis. The Research Centre has received local support for the establishment of a Chinese Medicine Research Fund and a Research Laboratory.

In 1980, a partnership agreement was made with the IBM to computerize a huge amount of information on Chinese medicines. This will facilitate cross reference, retrieval and link-up with Western computerized medical and scientific data base.

Research Centre for Food Protein Production

This Research Centre was formerly known as the Research Unit on Food Protein Production from Wastes. The Centre aims at the production of high quality food protein from wastes and achieving pollution control simultaneously through interdisciplinary research co-operation. Research staff of the Centre come from the Departments of Biology and Chemistry as well as other departments in the University. There are two main streams of research: (1) the production of food proteins from sewage wastes by intensive aquaculture through successive steps in the food chain of algae, shrimp, fish, etc. and through vegetable crop production from sewage sludge; (2) the production of straw mushroom and other edible mushrooms from cotton wastes and used tea leaves.

Hung On-To Research Centre for Machine Translation

This Research Centre for machine translation (named after the donor, the late Mr. Hung On-To) was established in 1978 to study the translation of natural languages by computational techniques. An on-line computer system PDP 11/34 has since been installed.
Institute of Social Studies and the Humanities

The function of the Institute of Social Studies and the Humanities is to promote and encourage faculty research in various fields, with particular emphasis on an interdisciplinary approach and with full support to postgraduate training in relevant subjects. Through the Institute, the University hopes to come to close cooperation with universities abroad in related fields. The Institute has the following research centres: Centre for Communication Studies, Centre for East Asian Studies, Economic Research Centre, Geographical Research Centre, Public Affairs Research Centre, and Social Research Centre. The Institute also supports research projects in the field of social studies and the humanities not directly related to these Centres.

Centre for Communication Studies
The Centre for Communication Studies is an interdisciplinary research unit carrying out investigations of its own or those originated externally.

The Centre's long-range goal is to maintain, develop, and improve the communication of human society in general and of the mass media in particular, at both local and regional levels. The Centre's current activities include: an exploration of the concepts, principles and patterns of communication in the Chinese culture, both traditional and contemporary; and the collection and dissemination of information on communication in the Asian region through (1) The Asian Messenger, a quarterly report on communication and research, (2) occasional research monographs, and (3) its documentation unit. In addition, the Centre seeks to promote regional cooperation among communication educators and educational organizations through seminars, workshops and joint research projects with universities and communication research institutes. It offers valuable professional training programmes for persons in the media industry in Asia and supports the MPhil programme in Communication for those who have received their BA in communication/journalism or related fields.

Centre for East Asian Studies
The Centre for East Asian Studies was established in 1971 with the object of (1) promoting Japanese, Korean, Hong Kong, Macau and Southeast Asian studies, and also studies of China's relations with these regions, (2) promoting collaboration with overseas universities, research institutes and other academic institutions, and (3) training experts in these fields, locally as well as internationally.

Research personnel include research fellows who are specialists on Asian studies from among the teaching staff of the University, and visiting research fellows invited from other institutions to carry on their own research in a specific field.
Economic Research Centre

The Economic Research Centre was established in 1964 and has actively stepped up its activities in recent years. Participants of the Centre's research projects are primarily members of the Department of Economics, with graduate and undergraduate students taking part as part-time research assistants. Current projects include topics dealing with the various aspects of the economy of Hong Kong, as well as the recent experiences in the development and growth of countries in Southeast Asia and the Far East including Mainland China. Theoretical and related empirical studies have also received due consideration. Inter-disciplinary cooperation is emphasized in research.

Geographical Research Centre

The Geographical Research Centre was established in 1966 with the primary function of promoting faculty research on the geographical studies of China and Hong Kong. Individual and group research projects are being undertaken by members of the Department of Geography. Inter-disciplinary research is also encouraged. Current research programmes are mainly concerned with environmental and urban studies. The development of geographical theory and methodology has also been given due consideration.

Public Affairs Research Centre

The Public Affairs Research Centre was established in 1977 to promote research activities among members of the academic staff directly or indirectly interested in the field of political science. Research efforts, which are related to teaching whenever possible, concentrate on development studies with special reference to Hong Kong, China and Southeast Asia. Apart from supporting some individual projects, the Centre is at present developing two main lines of long-term group research, one concerned with the relationship between law and state-building in China and the other with the relationship between development and administration in Hong Kong.

Social Research Centre

The Social Research Centre, established in 1969, has both research and educational commitments.

In its research programme, the Centre undertakes studies on various aspects of social change in Hong Kong and China. The Centre has a particular interest in research which permits not only an assessment of a given situation, but also an analysis of alternative future developments coupled with a capability to observe actual developments as they occur. The Centre occasionally undertakes to help other interested organizations in the formulation of their research programmes, in research design, field work, analysis of data and thereby act as a consultant on relevant aspects of research studies which, in themselves, may be carried out by other private or government organizations.
In its educational commitment, the Centre seeks to contribute to
the development of a cadre of expert researchers whose abilities and
skills will contribute to this community. The Centre’s educational
functions both at the post-baccalaureate and the pre-baccalaureate
levels are, in turn, coordinated with teaching departments of the
relevant fields. Undergraduate students also participate in the research
efforts and receive training in field work, interviewing and other aspects
of social research.
UNIVERSITY EXTENSIONS

Department of Extramural Studies

The Department of Extramural Studies serves the community by offering opportunities for continuing education, utilising the teaching and research resources of the University as well as the community as a whole. The Department offers evening and day-time courses in a wide range of studies including Chinese, Social Sciences, Philosophy, Psychology, Social Work, Economics, Commerce, Law, Education, History, Geography, Science, Mathematics, Computer Science, English and Art, Audio-visual Language, Home Care and Craft, Performing Art, and Mass Communication.

The following certificate courses are currently offered: Kindergarten Teaching (IV), Commercial Practice, Chinese Language, Basic Japanese, Management for Executive Development, Teaching of Buddhism in Secondary Schools, Computer Studies for Secondary School Teachers, Accounting and Finance, and Philosophy and Advanced Translation - A Diploma Course.

The Department also offers correspondence courses in English and Chinese Writing, English and Chinese Language and Literature, Business Administration, Principles of Economics, Child Development and Care, Two Dimensional Design, Chinese Painting, Modern Mathematics, etc. and Self-learning courses in Interpersonal Relationships, Mandarin, Japanese, English Conversation, General English and Appreciation of Chinese Instrumental Music.
The Department has been cooperating with Commercial Radio, Radio Television Hong Kong (RTHK) and the former Commercial Television in educational broadcasting since 1970. A wide variety of courses were offered including Languages, Business Studies, Arts and Culture. The Department now regularly conducts radio courses with both the Chinese and English channels of RTHK.

Since 1978, at the request of different organizations in Hong Kong, the Department has offered various training programmes for their staff. These organizations include: The Home Affairs Department of the Hong Kong Government, Sun Hung Kai Securities Ltd., Sun Hung Kai Properties Ltd., the Amoy Canning Corporation, Korea Exchange Bank and Pioneer Concrete (HK) Ltd.

In February 1979, the Department launched its first course by Newspaper – “Oceans”. Since then, five more courses by Newspaper have been offered – “Morals and Society”, “Connections: Technology and Change”, “General Psychology”, “Death and Dying” and “Families and Society”. In each of the courses, special weekly articles in English or Chinese were carried up to a period of six months in six leading local newspapers. Many of these special articles were prepared by local scholars and some were obtained from the University of California in San Diego. Apart from newspaper articles, all the courses featured contact sessions which, conducted in Cantonese, Mandarin and English, aimed to expand on the major topics covered in the newspaper articles and study guides.

Enrolment in 1980/81 for all courses (including general courses, certificate, correspondence and radio courses) amounted to 31,852.

The Department of Extramural Studies runs a Town Centre at Oriental Centre, 13th, 14th and 17th Floors, 67 Chatham Road, Kowloon. In order to facilitate greater learning opportunities in the more distant districts, some of the courses are being held in Quarry Bay, Tsuen Wan, Shatin, Kwun Tong and North Kowloon at rented school premises. Information brochures and leaflets are issued regularly and are obtainable free on request. Further information may be obtained from the Department of Extramural Studies, The Chinese University of Hong Kong at telephone No. 3-669361.

New Asia -- Yale-in-China
Chinese Language Centre

The New Asia -- Yale-in-China Chinese Language Centre offers courses designed primarily for non-native speakers of Chinese. Founded in 1963 under the joint auspices of New Asia College and the Yale-China Association, the Centre became a part of the University in 1974.

Every year over two hundred students from different parts of the world are admitted to the Language Centre. These students range from
absolute beginners to trained sinologists who wish to polish their spoken Chinese or learn a Chinese dialect. Courses are offered at all levels so that any student can find training suitable to his needs and ability. The Language Center also regularly teaches Mandarin to hundreds of local Cantonese speaking residents, including the students of The Chinese University. The faculty of the Language Center prepares a significant portion of their own teaching materials and audio-visual aids for the students, Chinese and foreigners alike.

Courses offered by the Language Centre follow a two-term and a Summer session system, each term lasting fifteen weeks and the Summer session lasting ten weeks. Students may register for admission beginning in any term. There are beginners courses at the beginning of each term. The intensive programme of twenty hours of classroom instruction per week constitutes the maximum course load. Students may also register for ten or less than ten hours, depending on the courses being offered in any one term. The maximum class size is 8 students, while most classes average between 4 and 5. In exceptional cases, private tutorials are available. Tuition fees for Language Centre courses are printed on p. 446 of this Calendar.

The Language Centre has a full complement of tapes for teaching purposes. Language laboratory facilities are available.

The Language Centre gives credits according to the American pattern and issues grades and transcripts. Study at the Centre has been recognized by major universities for degree credit. For students from institutions that do not use the credit system, transcripts are prepared in sufficient detail to present a clear picture of the work accomplished by each student.

Copies of an information brochure are available free on request. All correspondence should be addressed to the Director, New Asia -- Yale-in-China Chinese Language Centre, The Chinese University of Hong Kong, Shatin, New Territories.

SUPPORT FACILITIES
AND SERVICES
SUPPORT FACILITIES AND SERVICES

The Library System

The University Library System was established in 1963 with the founding of the University. It consists of the University Library, founded in 1965, and the libraries of the three constituent Colleges: Chung Chi, founded in 1951; New Asia, founded in 1949; and United, founded in 1956.

The University Library opened in small quarters in Kowloon, moving to temporary space in the Benjamin Franklin Centre in 1969. In 1972, the University Library moved into its spacious new building in the centre of the Shatin campus. This five-storey building has a floor space of 7,993 square metres. It can house over 400,000 volumes and accommodate 500 readers. Aside from the usual study rooms and carrels for readers, the Library has its own conference and seminar rooms, an audio-visual room, a photographic laboratory, microfilm facilities, a rare book room, and a book bindery. All this goes to make the Library one of the modern academic libraries in the Far East.

The University Library is primarily a reference and research library for the use of the faculty, staff, visiting research scholars, and students of the University. The branch libraries at each of the three Colleges provide generous collections of books and journals for general education and for the support of undergraduate study and student-orientated teaching. A Medical Library is under preparation to meet the needs of the Medical Faculty when it admits its first students in 1981. Pre-clinical materials will be incorporated into the University Library. Clinical materials will be housed in a new branch library, the Li Ping Medical Library, which will be a part of the teaching hospital complex in the Shatin New Town. The Medical Library will also offer audio-visual services to the Faculty of Medicine. The administration of the University Library System is centralized under the University Librarian. All acquisitions and cataloguing activities are carried out in the University Library which maintains a union catalogue of the holdings of the entire system. Borrowing privileges in the libraries are extended to all members of the University.

The Library of Congress system has been used since 1969 for Western language materials and since 1971 for Oriental materials. Medical books are classified in the National Library of Medicine scheme.
In 1977, the University Library System published, as its Bibliographical Series, No. 1, *The Union Catalogue of Serials*, listing over four thousand titles of scholarly journals, general periodicals, newspapers, and government documents. This Catalogue also contains a subject index, an index to Oriental titles by stroke count, and the complete holdings of the Library System through 1975. In conjunction with the opening of the new Audio-Visual Department in the University Library, the University Library System published the *Union Catalogue of Audio-Visual Materials* as Bibliographical Series No. 2 in September 1979. An *Annotated Guide to Serial Publications of the Hong Kong Government* was published as Bibliographical Series No. 3 in 1979.

Large sets of Chinese classical books in the traditional format of silk-stitched fascicles, as well as many important journals in both Oriental and Western languages, have been acquired for the faculty and graduate students in Chinese studies for research purposes. The Western language collection is also growing steadily stronger, particularly in bibliographic and reference materials.

The holdings of the University Library System as of June 30, 1981 are:

<table>

<tr>

<td>345,243</td>

An on-line circulation system was first introduced at the University Library in December, 1980. The new system provides interactive management of the library circulation functions, such as keeping borrowing records and printing overdue notices, etc. It is hoped that this system could be extended to the Branch Libraries in the next triennium.

By using modern telecommunication and computer technology, the University Library is now able to search electronically through files of databases and locate within seconds or minutes precisely the periodical or book citations and abstracts needed. The University Library’s Information Retrieval Service is being connected by terminals through a telecommunications satellite to two database vendors in the United States—BRS in New York and DIALOG in California.

**The Chinese University Press**

After a decade of publishing activities, chiefly under the Publications Office, the University established the Chinese University Press in 1977. Reflecting the distinctive characteristics of The Chinese University of Hong Kong, the Press publishes books in Chinese and in English and, frequently, in both languages. And, although it publishes books in almost all disciplines, more than half of its publications are in Chinese studies.
Work in the Press proceeded more or less as scheduled last year. 38 titles including books in special series organized by various units of the University and in the English-Chinese glossary series, and one issue of the Journal of the Institute of Chinese Studies were published. Efforts were made to involve the Press more in the academic activities of Hong Kong's secondary schools by producing textbooks which will better meet local requirements. It is expected that a small number of such textbooks will begin to be published in the next few years.

During last year, nine titles published by the Press went back to the press for the second or third time; and, for the first time, the right to the Chinese market of one of the Press's books, i.e., Dr. C.M. Li's Li's Chinese Dictionary, was sold to a publisher there. This followed similar success obtained in other overseas markets and it is hoped that other titles will be made available to readers in China through the same arrangements.

The Press continued to cultivate and maintain connections with university presses and learned societies, both locally and overseas. It has been, for some years, a member of the Association for Asian Studies (AAS) and the International Association of Scholarly Publishers (IASP). And, last year, became an international member of the Association of American University Presses (AAUP) and the Society for Scholarly Publishing (SSP).

Computer Services Centre

The Chinese University Computer Services Centre is in operation on the ground floor of the Pi-Ch’iu Building. The Centre, provides service to students, faculty, research and administrative computer users of the University.

The Chinese University Computer Services Centre is an integral component of the Universities and Polytechnic Computer Centres (UPCC) System. This System comprises an advanced data communications network linking the computer facilities of The Chinese University, Hong Kong University, and Hong Kong Polytechnic. The facilities of this entire system are available to members of the University community.

At the Chinese University Computer Services Centre, a PDP 11/70 computer system with a large number of terminals attached provides access to the UPCC System Network. Besides the processing capacity of this PDP 11/70, the UPCC System Network provides the Chinese University computer user community with shared access to an IBM 3031 computer system and an ICL 1904S computer system.

The Computer Services Centre provides the following services to the students, faculty, researchers, and administrators of the University:
(a) Basic computer time for job processing on the UPCC IBM and ICL computer systems as well as the PDP 11/70 system
(b) Computer program consultation services and technical advice for users with program difficulties
(c) Application packages program services and consultation on appropriate packages and software systems to meet particular application requirements
(d) Programming services in support of specially approved applications
(e) Video learning services for various computer topics
(f) Data preparation services for large projects
(g) Reference manual and other documentation services
(h) A variety of other miscellaneous services.

Information Management Unit

The Information Management Unit was established in October 1980 within the administration. It has taken over the programme and systems development services for University administration applications previously provided by the Computer Services Centre. The aim of this Unit is to serve as management information centre for all the departments within the administration and to provide them with systematic and organised information to aid planning and decision-making. Efforts will be made to further computerize administrative procedures and develop an effective management information system. In centralising and co-ordinating the University’s data, the Unit will pay particular attention to systematizing information-gathering and eliminating duplication of efforts.

Health Service

The University Health Service is charged with the responsibility of meeting the health needs of students, staff and their dependents. Special emphasis is being placed on developing a comprehensive primary care service to handle the many medical, dental, psychological and social needs and problems of students.

The University Health Centre, serving as the physical basis for the operation of the health programme, is a gift of the Yale-China Association. Officially opened in September 1971, it has been specially designed and built as a student health centre with space provisions for the practice of preventive care, health education and personal medical services.

The Health Centre is open from 9:00 a.m. to 5:00 p.m. Mondays through Fridays and from 9:00 a.m. to 1:00 p.m. on Saturdays. Services include:
(a) Health consultations for diagnosis, counselling, preventive, curative and rehabilitative treatment
(b) Health maintenance, promotion and other out-reach activities
(c) 24-hour service with nurse on duty and doctor "on call" Monday through Saturday morning; daytime nursing service during weekends and holidays
(d) Infirmary care for students in need of observation, isolation, diagnosis and treatment of minor to intermediate illness of short duration
(e) Dental consultation, restorative, preventive and emergency treatment
(f) Periodic physical examination for certification purposes
(g) Co-ordination of access to diagnostic laboratory and X-ray services, referrals to appropriate specialists, treatment centres or hospitals when necessary.

No charges are made for any of the clinical services provided directly by the University Health Service with the exception of house visit and dental service.

It is hoped that through the unique educational opportunities generally available in the University and its constituent Colleges, and the numerous contacts students may have with the Health Service, they will have ample chance to replenish themselves with adequate knowledge of good health attitudes and habits and will be well oriented to accept appropriate responsibilities to look after their most valuable personal asset in life — HEALTH.

Instructional Development Services

Instructional services are supervised by the Senate Committee on Instructional Development established in 1978. The Committee co-ordinates the work of two servicing units both located in the Pi-Ch’iu Building.

The Instructional Development Office
The Office aims to support good teaching and learning throughout the University. It has three areas of activities: (1) Communication and Information: the Office produces bibliographies, news-sheets and occasional papers on instructional matters for teaching staff. It also operates an informal referral service, and maintains communication and exchange with others concerned with university teaching in Hong Kong and throughout the world. (2) Consultation and Support: the Office provides information on curriculum design and evaluation, university teaching methods, learning and study skills and the development of teaching resources. Help can be provided with the development of an individual’s teaching skills. Seminars, workshops and short courses
are organized from time to time for staff. The Office administers a programme of mini-grants for projects concerned with the development and improvement of teaching. (3) Research: on its own initiative and by request the Office conducts developmental research on issues that lead to the improvement of teaching and learning.

The University Instructional Media Services
The Unit provides services for teaching, research and special functions to members of the University. It has four audio-visual teaching rooms, a sound studio, a preview room and dark rooms and runs language laboratories in each of the three constituent Colleges. The Unit has its own photographer and graphics artist who are available to assist staff in the production of teaching materials. There are also facilities to enable staff to prepare their own materials. The following services are provided for teaching, research and administration at the University:

(a) Provision of audio-visual aids, including projectors, sound reproduction equipment and television play-back
(b) Single camera closed circuit television facilities
(c) Basic photographic, graphic and some reprographic services, including audio and video-tape copying
(d) Consultation services on lay-out and equipment for teaching areas
(e) Maintenance and repair of audio-visual equipment
(f) Administration of audio-visual rooms and language laboratories
(g) Training in the operation of audio-visual machines.

In conjunction with the Instructional Development Office, the University Instructional Media Services also provides: (1) information and consultation services on the development and use of audio-visual equipment in teaching; and (2) a small collection of reference books and journals on university teaching methods and instructional materials.

Student Service and Student Activities
The Office of Student Affairs attends to student welfare and helps students take full advantage of their university education. The activities of the Office are administered through its two sections. (1) The Student Activities Section co-ordinates university-wide student activities; liaises with the Student Unions, their affiliated societies and alumni associations; administers scholarships and financial aids; manages student amenity facilities and the Temporary Student Hostels; and co-ordinates policies on undergraduate hostels. (2) The Appointments Service is responsible for initiating and developing employment opportunities for graduating students and, by organizing pre-employment training and
orientation programmes, help them to plan their careers intelligently. The Service also maintains close liaison with employers and renders advice and assistance to them during recruitment exercises.

Counselling on social, psychological, financial as well as academic problems is mainly provided by the Dean of Students’ Offices at each of the three Colleges. These Offices administer College scholarship and bursary awards and also play a vital role in the enrichment of college life. In close co-operation and collaboration with the College Student Unions and their affiliated societies, the Dean of Students’ Offices also oversee the execution of college-wide student activities.

At present, there are four Student Unions in the University, one each for the three constituent Colleges and one for the University as a whole. The latter maintains close links with the College Unions and coordinates university-wide activities. All year round, a wide range of activities, including academic, athletic, cultural as well as social functions are organized by the Student Unions. These include the Freshmen Orientation Camp, the Swimming Gala, and the University Athletic Meet.

Information about the University

An information service, freely available to members of the University and the general public, is provided by the University Public Relations and Information Office under the direction of the University Secretary. The activities of the Office include production of most of the main publications on the University, arrangements for visitors and public functions, and media relations.

Publications on the University

The Chinese University Calendar, published in English and Chinese in August every year, is intended as a general introduction to the history, organization and academic programme of the University. Copies may be obtained from the Public Relations and Information Office as well as the University Bookstore.

In addition, the University has published three reports by the Vice-Chancellor respectively entitled (1) The First Six Years 1963-1969, (2) The Emerging University 1970-1974, and (3) A New Era Begins 1975-1978. These contain comprehensive information about the University and trace every step of its development from inception through the first fifteen years to 1978. The Vice-Chancellor’s Report for 1978–1981 is expected to be published in 1982.

Information about University facilities, activities and recent developments are given in the University Bulletin published quarterly in English and Chinese. These are available free to members of the
University and fraternal organizations. A Newsletter containing information about staff appointments, leave, awards and other staff matters is circulated internally once every two weeks.

Arrangements for Visitors
The University is situated in a beautiful part of the New Territories and is something of a tourist attraction because of its spectacular view and architectural beauty. The grounds of the University are open to visitors by arrangement with the Office of Public Relations and Information.

The Art Gallery, the University Library, and the Science Centre may be of special interest to visitors. The Art Gallery is open to the public from 10 a.m. to 4:30 p.m. on weekdays and from 12:30 p.m. to 5:30 p.m. on Sundays.

Media Relations
To encourage and maintain public awareness of the University and its activities, the Office of Public Relations and Information provides ready access for the media to members of the University. The Office answers inquiries from the media and prepares news statements on policy matters, new developments and senior staff appointments.
PART VII

REGULATIONS
REGULATIONS GOVERNING ADMISSION TO UNDERGRADUATE STUDIES

I. General

A. An applicant before being admitted as an undergraduate to a course of study leading to a Bachelor's degree of the University shall either:
   (1) have satisfied the University Entrance Requirements as stipulated in Section II; or
   (2) have been exempted from the University Entrance Requirements as stipulated in Section IV.

B. In addition to satisfying the University Entrance Requirements or being exempted therefrom, an applicant shall satisfy any additional requirement for admission to the Faculty he intends to enter.

C. In the selection exercise, apart from his results at the Higher Level Examination or its equivalent, an applicant's performance in the Certificate of Education Examination or its equivalent and his secondary school records will also be considered.

D. Normally, an applicant is required to attend an interview.

E. A successful candidate will be admitted to the University on a Faculty basis. At the time of application, he will be required by all Faculties other than the Faculty of Medicine to state his preferences for subjects to be studied. He need not select his Major and Minor subjects until his second year.

II. University Entrance Requirements

Except where otherwise stipulated, to satisfy minimum requirements, an applicant shall either:

A. have gained at one and the same Hong Kong Higher Level Examination in 1979 or thereafter Grade E or above in Chinese Language and Literature, English Language and three other subjects*; or

B. possess a Matriculation Certificate of The Chinese University of Hong Kong (CUHK) issued in 1978 or before.

*If Grade E or above is obtained in both Higher Mathematics and General Mathematics, they can only count as one subject.
III. Faculty Admission Requirements

In addition to satisfying the University Entrance Requirements in accordance with Section II, an applicant for admission to a Faculty shall satisfy the following requirements:

A. Faculty of Arts
(1) Good grades in Chinese, English and other Arts subjects;
(2) Good secondary school records.

B. Faculty of Business Administration
(1) Good grades in Chinese and English;
(2) Grade E or above in General Mathematics or in Higher Mathematics;
(3) Performance at interview will be considered.

C. Faculty of Medicine
(1) Grade E or above in Use of English (or equivalent), Physics, Chemistry and one other subject, (preferably Biology, with Pure Mathematics, Applied Mathematics or Higher Mathematics being acceptable) at one and the same Hong Kong Advanced Level Examination or equivalent examination approved by the Admissions Committee, plus Grade E or above in Chinese in the Hong Kong Higher or Advanced Level Examination or Grade C or above in Chinese Language or Chinese Literature in the Hong Kong Certificate of Education Examination (HKCEE) or its equivalent (for an applicant with only a Grade C, the University reserves the right to require him to sit an internal test in Chinese Language); or
(2) Successful completion of the University's first-year Science course in the appropriate subjects.

D. Faculty of Science
(1) Biological Science
For entry to the Biological Science stream (Biology and Biochemistry) applicants should have good grades in Biology and Chemistry plus a good grade in either Physics or Mathematics (General or Higher). Applicants' standard in both Chinese and English will also be taken into consideration.

(2) Physical Science
For entry to the Physical Science stream (Chemistry, Physics, Electronics and Computer Science) applicants should have good grades in Mathematics and Physics, or Mathematics and Chemistry, plus
preferably a good grade in another Science subject. Mathematics means General Mathematics or Higher Mathematics, but in selection for admission preference will be given to applicants who have achieved a good grade in Higher Mathematics. Applicants’ standard in both Chinese and English will also be taken into consideration.

(3) Mathematical Science
For entry to the Mathematics Department, applicants should have good grades in Higher Mathematics, plus preferably good grades in one or two other science subjects. Applicants’ standard in both Chinese and English will also be taken into consideration.

E. Faculty of Social Science
(1) Good grades in Chinese and English; and
(2) Grade E or above in one of the following subjects preferred:
   Economics
   Economics and Public Affairs
   General Mathematics
   Geography
   History

IV. Exemption from University Entrance Requirements

A. The following persons may apply for exemption from the University Entrance Requirements stipulated in Section II above:

(1) Applicants who have fulfilled the entrance requirements of the University of Hong Kong with Grade E or above in three Advanced Level subjects including Chinese Language and Literature at one and the same examination;

(2) Applicants who have fulfilled the entrance requirements of the University of Hong Kong with Grade E or above in three Advanced Level subjects not including Chinese Language and Literature at one and the same examination and have gained Grade E or above in Chinese Language and Literature in the Hong Kong Higher Level Examination or the CUHK Matriculation Examination;

(3) Applicants who have acquired an International Baccalaureate Diploma (but they may be required to gain Grade E or above in Chinese Language and Literature and/or English Language in the Hong Kong Higher Level Examination);

(4) Applicants who have received their secondary education outside Hong Kong and have completed at least
one year of study at a recognized university (but they may be required to gain Grade E or above in Chinese Language and Literature and/or English Language in the Hong Kong Higher Level Examination);

(5) Mature persons who are aged 29 or over on 1st September in the year when admission is sought, provided:

(a) i) they are able to show either by publication or by other acceptable evidence that they have achieved sufficient competence in their chosen field of study to justify admission, OR

ii) they have shown exceptional ability in appropriate academic or professional fields; AND

(b) they can produce evidence of at least three years' continuous residence in Hong Kong.

However, they may be granted exemption only if and when their application for admission is accepted by the Faculty concerned.

B. With the exception of mature persons who must apply for exemption and admission simultaneously in March of the year in which admission is sought, all other categories of applicants must apply for exemption to the University Registrar from 1st October to 20th October preceding the year in which admission is sought.

C. A fee of HK$100 is payable on application and is not refundable whether exemption is granted or not.

D. Except as stipulated in Section IV. B. above, students who have been granted exemption may apply to the University Registrar for admission in June each year.
GENERAL REGULATIONS
GOVERNING UNDERGRADUATE STUDIES

1.0 Rules and Regulations

1.1 Students shall observe all rules and regulations stipulated by the University and College authorities.

2.0 Admission to Undergraduate Courses

2.1 Entrance Requirements
An applicant seeking admission to an approved course of study leading to a Bachelor's degree shall have —
(a) fulfilled the University Entrance Requirements or been exempted therefrom under the provisions of the Regulations Governing Admission to Undergraduate Studies, and
(b) satisfied the admission requirements of the Faculty concerned.

2.2 Application for Exemption from University Entrance Requirements and Application for Admission
(a) Normally applications for exemption from University Entrance Requirements shall be made to the Registrar of the University between 1st October and 20th October preceding the year in which admission is sought.
(b) Applicants who have satisfied entrance requirements may apply for admission by completing a prescribed application form which should reach the Registrar in June of the year in which admission is sought.

2.3 Mature Students
(a) Mature persons who are aged 29 or over on 1st September in the year in which admission is sought and who cannot meet the normal University Entrance Requirements may apply for exemption and for university admission provided they have satisfied the special conditions stipulated in Section IV, A(5) of the Regulations Governing Admission to Undergraduate Studies. Such applications shall be made to the Registrar in January of the year in which admission is sought.
(b) Applicants who are mature persons may be requested to sit for tests or attend interviews by the Faculty Admission Committees or the Departments concerned.
(c) No mature person shall be exempted from University Entrance Requirements and offered admission without the approval of the Senate.

2.4 Transfer Students
(a) A student who has completed at least one year of study at a university recognized by the Senate of this University may apply as a transfer student for exemption from University Entrance Requirements. He may, however, be required to gain Grade E or above in Chinese Language and Literature and/or English Language in the Hong Kong Higher Level Examination. Such an application shall be accompanied by a certified true copy of the applicant's academic record.
(b) Application for exemption from University Entrance Requirements shall be made to the Registrar between 1st October and 20th October preceding the year in which admission is sought.
(c) Applicants who have been granted exemption from University Entrance Requirements shall appy for admission by completing a prescribed application form which should reach the Registrar in March of the year in which admission is sought.
(d) No transfer student shall be admitted without the approval of the Senate.

2.5 Associate Students
(a) An applicant whose educational standard is considered adequate by the Department and the Board of the Faculty concerned may be admitted as an associate student to pursue an approved course of study not leading to a degree of the University.
(b) Application for admission as an associate student shall be supported by a certified true copy of academic record and made to the Registrar before 1st July or 1st November preceding the teaching term for which admission is sought. (This does not apply to the International Asian Studies Programme.)
(c) In order to change his status from an associate student to a candidate for a Bachelor's degree a student shall have fulfilled University Entrance Requirements or have been exempted therefrom and his application must be specially recommended by the Department and the Board of the Faculty concerned and approved by the Senate.
2.6 Auditing Students
(a) An applicant whose educational standard is considered adequate by the Department concerned may be admitted as an auditing student.
(b) Application for admission as an auditing student shall normally be made to the Registrar before 1st July or 1st November preceding the teaching term for which admission is sought.
(c) An auditing student shall not receive any grade or other academic recognition for the course/s taken.

3.0 Fees
3.1 The fees payable by students shall be prescribed by the University Council and may be varied from time to time at the University Council’s absolute discretion.
3.2 All fees shall be payable on dates specified by the University unless prior permission for deferment is obtained from the University Bursar.
3.3 A student who has not paid his fees on the specified date/s shall pay a fine of five dollars a day until the fees are paid and shall have his name removed from the register if he fails to pay up after a lapse of two weeks.
3.4 Caution money shall be payable on first registration as a deposit to make good any outstanding debts to the University incurred in, for example, damages to University and/or College property. This sum less any deductions made for outstanding debts shall be refunded on discontinuation of studies at the University. For graduating students, subject to no claim being outstanding, caution money shall be converted into graduation fee.
3.5 Apart from caution money, fees once paid shall not be refunded.

4.0 Registration
4.1 Applicants (including associate and auditing students) who have been offered admission to an approved course of study shall register in person with the Registry on the specified date/s and shall be deemed to have been admitted to the approved course of study on the date of their first registration, and thereafter, students shall present themselves for registration on the specified date/s before the beginning of each teaching term.
4.2 An applicant who for special reasons seeks permission for deferment of registration may apply in writing to the Registrar before the specified date/s for registration.
4.3 An applicant who has been offered admission but is prevented by illness or other sufficient cause from attending a given academic year or teaching term shall apply in writing to the Registrar for postponement of studies for a period not exceeding one year. Such an application shall be made before the specified date/s for registration. In the case of an applicant desiring postponement of studies on medical grounds, his application shall be accompanied by a certificate signed by an authorized medical practitioner.

4.4 Registration shall include the selection of courses and the payment of fees due. An applicant or a student who after a lapse of two weeks from the relevant specified dates fails to select courses and pay the fees shall be considered as having withdrawn from studies at the University.

4.5 A student registered for a full-time course of study may not be registered simultaneously with another institution as a full-time student except with the permission of the Senate.

4.6 A student registered for a full-time course of study shall not take up any full-time employment, paid or unpaid, during term time.

4.7 A student shall normally retain the name under which he was first registered. Under special circumstances, however, a student may submit to the Registrar an application for a change of his name (including alteration of, addition to or deletion from the name under which he was first registered) together with the following documents:

(a) applicant’s written application;
(b) written consent from the applicant’s parent or guardian, if the applicant is under the age of 21;
(c) copy of applicant’s identity card or passport, carrying the new name intended to be registered with the University;
(d) copy of applicant’s statutory declaration and/or birth certificate.

4.8 A student shall inform the Registrar immediately of any change of address or other particulars entered in the student’s registration form.

5.0 Course Load

5.1 A student shall normally take no less than 12 units and no more than 21 units of courses in any teaching term depending on the requirements of the Faculty concerned.

5.2 Unless exempted, a student shall be required to take six units of General Chinese and six units of General English in the First year.
5.3 Physical Education and General Education courses in the First Year of study shall not exceed a maximum of eight units.

5.4 A student shall complete at least 120 units of courses in order to graduate.

6.0 Selection of Courses

6.1 Unless otherwise stipulated, a student shall, after consulting the teacher designated by the Department concerned, and after examining the Programme of Studies and the University teaching timetable, fill in and submit to the Registrar on the specified date/s, the prescribed form for course selection which shall have the necessary signatures.

6.2 In selecting courses a student in pursuit of a Bachelor's degree shall take into consideration the timely completion of the following requirements:

(a) General
   (i) General Education
   (ii) General Chinese, unless exempted therefrom
   (iii) General English, unless exempted therefrom
   (iv) Physical Education

(b) Faculty
   The Faculty's required courses, if any, for First and Second Year students,

(c) Major subject
   The specified prerequisite course/s, if any, core courses and courses for degree papers required of Major students, student-orientated teaching programme,

(d) Minor subject
   The specified prerequisite course/s, if any, core courses and courses for degree papers required of Minor students.

6.3 A student shall decide on his Minor subject prior to the selection of courses for his Second Year of study. He shall consult the teacher designated by the Department concerned before selecting his Minor subject.

6.4 A student shall take the required courses during the year specified in the Programme of Studies unless written application to do otherwise is approved by the Department concerned and a record of such approval submitted to the Registrar.

6.5 In selecting an elective/optional course, a student shall make sure that there will be no time-table clash with another course taken by him.
7.0 Course Withdrawals and Additional Course Selections

7.1 Application for course withdrawals and additional course selections after the specified date/s shall be made on a prescribed form which shall have the signature of approval from the teacher designated by the Department concerned and shall be submitted to the Registrar. Such an application shall be made within two weeks after the beginning of the teaching term.

7.2 Under special circumstances, the Chairman of the Department concerned may, at his discretion after examining the student's written application, grant him permission to withdraw from a course or enrol in a new course after the second week of the teaching term.

7.3 A student who withdraws from a course without going through the prescribed procedure shall be given an 'F' grade for the course.

7.4 As a rule the units of a year course are applicable only as a whole to the minimum graduation requirement of 120 units when both terms are completed. If withdrawal from the second term of the course is approved in accordance with Faculty regulations, the grade received in the first term shall remain in the student's record, but the units received for the first term shall not count toward graduation unless (1) under special circumstances the second term is completed at a later date or (2) specific authorization by the Chairman of the Department is obtained by the student.

8.0 Potential Major

8.1 First Year students shall be admitted to a Faculty instead of to a Major department.

8.2 First Year students shall, according to their preference and aptitude, be registered as Potential Majors in one of the subjects offered in the Faculty, on the advice of the teacher designated by the Department concerned.

8.3 In addition to General Chinese, General English, General Education and Physical Education courses, a First Year student shall take at least three units but not more than twelve units of courses in his Potential Major subject or in a subject recognized as equivalent to it, plus at least one term course each in two other subjects. In consideration of their special needs, the Fine Arts and Music Departments may require their Potential Major students to take up to two additional units.
9.0 Admission to Major Department in Second Year

9.1 For promotion to the Second Year, a student must at the end of his First Year:
(a) have obtained an overall grade point average of not less than 1.5;
(b) have failed not more than nine units; and
(c) have met the requirements, if any, of the Faculty concerned.

9.2 A student who, at the end of his First Year, satisfies the conditions for promotion to Second Year as stipulated in 9.1 above and obtains grade C— (1.7) or above in each of his Potential Major courses and grade D (1.0) or above in such other courses as may be required, shall be admitted to the Second Year of the subject selected as his Potential Major in his First Year, unless he has applied for and has gained permission to pursue another Major subject.

9.3 A student who, at the end of his First Year, satisfies the conditions for promotion to Second Year may apply for permission to pursue a Major subject other than his Potential Major on a competitive basis and subject to the availability of vacancies in the Department concerned.

9.4 A Department may require a Major student to make up prerequisite courses, if any.

10.0 Promotion to Third Year

10.1 For promotion to the Third Year, a student shall at the end of his Second Year:
(a) have met the requirements, if any, of both the Major and Minor Departments concerned;
(b) have met the requirements, if any, of the Faculty concerned;
(c) have obtained an overall grade point average of not less than 1.5; and
(d) have failed not more than nine units in the Second Year.

10.2 A student who has obtained a grade point average of below 1.5 but not less than 1.2 may normally be considered for "recommended promotion" to the Third Year in which case he shall be put on probation, subject to his satisfying all the other requirements specified in 10.1.

10.3 A student who has completed his Second Year of university studies abroad on an approved exchange programme may be considered for promotion to the Third Year by the Board of his Faculty after consultation with the student's Major Department.
11.0 Promotion to Fourth Year

11.1 For promotion to the Fourth Year, a student shall at the end of his Third Year, have done satisfactory work in his studies, met all the stipulated requirements of the Faculty and Major and Minor Departments concerned and have obtained a pass or a recommended pass in Part I of his Degree Examination.

12.0 Change of Major or Minor Subject

12.1 A student who wishes to transfer from one Major or Minor subject to another shall apply on prescribed forms to both the original Department and the Department he intends to join. If his application is approved by the Chairmen of the Departments concerned, the student shall submit the forms with the signatures of approval to the Registrar before a specified date.

12.2 If in considering a student's aptitude, the Chairman of the Department finds that the student should best be transferred to another Department and the other Department agrees to take the student, the Office of the Faculty shall advise the student to transfer accordingly.

13.0 Class Attendance and Leave of Absence

13.1 A student shall attend classes, tests and examinations and complete the work assigned by the teachers of the courses in which he has enrolled.

13.2 A student who cannot attend classes because of illness or other reasons shall report to the Registrar the exact date/s of his absence at the earliest opportunity.

13.3 In case of illness necessitating absence exceeding a week, a student shall inform the Registrar at the earliest opportunity and upon his recovery, submit a certificate signed by the Director of the University Health Service.

13.4 A student who wishes to obtain a leave of absence for more than a week for non-medical reasons shall apply in writing to the Registrar beforehand, stating the reasons for which leave of absence is sought. Such applications shall be subject to the approval of the Dean of the Faculty concerned.

13.5 Under no circumstances shall a student be granted leave of absence for more than one year in the first instance. In case he still finds himself unable to attend after one year's leave, he may apply for the extension of his leave for another year, beyond which no further extension shall be granted.
13.6 A student who has been absent without leave for a period exceeding one month shall be considered as having withdrawn from studies at the University.

13.7 A student who is absent without leave from a course for more than one-third of its scheduled teaching periods shall receive an 'F' grade for the course.

13.8 A student whose accumulated leave of absence exceeds one-third of the teaching term shall repeat the term. Under unusual circumstances, however, a special case may be considered on individual merit.

13.9 A student shall be required to take a certain leave of absence if he suffers from a contagious disease which is considered by the Director of the University Health Service as harmful to the University community. At the end of the prescribed period of absence, the student shall apply for a certificate of good health signed by the Director of the University Health Service before he can apply for resuming classes.

13.10 In case of classes or tests missed or assignments delayed because of illness or other serious emergencies, application for make-up work shall be subject to the approval of the teacher concerned.

14.0 Extension of Period of Study for Student Union Presidents

14.1 A student after election to the Presidency of the Student Union of the University or a College may, if he feels that his academic work will suffer through the pressure of his Union duties, apply in writing to the Registrar for permission to take not more than one extra year to complete his undergraduate studies and examinations. The Board of the Faculty concerned after considering each application may make a recommendation to the Senate thereon. No student shall be granted this privilege more than once.

14.2 Such an application shall be made within the first month after the beginning of the teaching term.

14.3 The grant of such permission shall not prejudice the student's eligibility for any academic awards or financial assistance in the student's academic career.

14.4 The said student shall take a minimum of six units of courses in each teaching term during his term of office as Student Union President. Should the student repeat a course in which he has gained a pass grade, the units of that course shall not count towards the six unit requirement. But he shall not be considered for promotion. Furthermore he shall not take any Degree
Examination which immediately follows the teaching term during which he has taken a reduced study load.

14.5 The said student shall be required to pay all prescribed fees.

15.0 Examinations

15.1 There shall be prescribed examinations for each degree of the University which shall be held at times to be determined by the University.

15.2 Examinations may be in the form of written, practical or oral tests, or continuous assessment, or any combination thereof.

15.3 A student who has done satisfactory work in his studies at the University and has met all the stipulated requirements may sit for the Part I and Part II of the Degree Examination held at the end of his Third and Fourth Year respectively in accordance with the Regulations for Degree Examination.

15.4 A student who for medical or other compelling reasons is unable to sit for any examination or any part thereof shall apply in writing to the Registrar for withdrawal from the examination or any part thereof. Application for such withdrawal for medical reasons shall be accompanied by a medical certificate signed by the Director of the University Health Service, and application for withdrawal for other compelling reasons, by a written request from the student's parent or guardian if the student is under the age of 21. A student who is absent from an examination without prior approval for withdrawal shall be considered as failing in that examination.

16.0 Grades

16.1 A student's performance in his studies shall be assessed on the basis of his performance in any or all of the following: class work, written work, laboratory performance, field work, research papers, tests and examinations and any other method of academic assessment.

16.2 Degree and course grades, converted points and standards used in reporting shall be as follows:

<table>
<thead>
<tr>
<th>Grade and Standard</th>

F                   | F                         | 0.0              |

16.3 The grade point average of a student’s course work for a teaching term shall be on a 4-point system in which A=4.0, B=3.0, C=2.0, D=1.0 and E/F=0. To compute the grade point average, one shall divide the total weighted converted points for all courses taken by the total number of units attempted, where: (a) the weighted converted points are converted points multiplied by the number of units of the course concerned; and (b) converted points are points converted from the letter grades as indicated in Regulation 16.2 above.

16.4 An Incomplete Grade (I) shall signify that a course has not been completed in the prescribed period. A grade shall be assigned upon the completion of the course work.

16.5 Incomplete course work must be made up within three weeks immediately following the last teaching day of the term in which it was assigned. Failure to complete the assigned work within the allowed time shall result in an ‘F’ grade.

17.0 Unsatisfactory Performance

17.1 Progress toward the Bachelor’s degree shall be monitored in terms of grade point averages.

17.2 A student may be placed on academic probation if in any academic year his cumulative grade point average for all courses attempted at the University falls below 1.5.

17.3 A student who is put on probation may be required to take a reduced study load.

17.4 The performance of a student who is put on probation shall be reviewed at the end of the first teaching term.

17.5 Probation shall be lifted when a student has attained a grade point average of 1.5 or above on all course work attempted in the first teaching term.

17.6 A student may be required to discontinue his studies at the University, subject to the decision of the Board of the Faculty concerned and the Senate:
(a) If his grade point average is 1.0 or below; or
(b) if his grade point average is still below 1.5 after he has been put on probation for two successive teaching terms; or
(c) if the units of the courses which he fails amount to more than half of the total units taken in any year of study.

17.7 A student shall normally be required to repeat a year of study if he cannot meet the necessary requirements for promotion but no student shall repeat the same year of study twice.

17.8 A student required to repeat a year of study shall retake all the courses for that year except those expressly exempted from.

17.9 A student shall be required to discontinue his studies at the University from the eighth anniversary of the date of his first registration.

18.0 Transcripts

18.1 An official transcript giving details of all courses taken and examination results of a student shall not be issued to a student or any private individual.

18.2 A student who wishes to apply for transfer or admission to another educational institution or for employment may apply for an official transcript of his academic record to be sent directly to the said institution or prospective employer upon payment of the prescribed fees and postage.

19.0 Disciplinary Action

19.1 The University Senate, Boards of Faculties and College Assemblies of Fellows may take disciplinary action against a student who violates any rule or regulation and/or commits any misconduct such as:
(a) defamation of or assault on or battery against the person of any member of the University;
(b) wilful damage to or defacement of any property of the University;
(c) theft, fraud, misapplication of University funds or property of any kind;
(d) plagiarism in written assignments or cheating in tests or examinations;
(e) an offence in connection with degree examinations or violation of any of the regulations of the Senate governing conduct at examinations;
(f) falsification or serious misuse of University documents or records;
(g) refusal to comply with any regulations or orders by authorized persons and bodies prohibiting any conduct which disrupts teaching, study, research or administration of the University;

(h) any conduct which is detrimental to the reputation and well-being of the University;

(i) an offence of an immoral, scandalous or disgraceful nature of which the student has been convicted in any court of law.

19.2 Disciplinary action referred to in Regulation 19.1 may take the form of any of the following penalties in accordance with the nature and gravity of the offence:

(a) reprimand;

(b) suspension from part or all of the rights, privileges and/or the use of part or all of the facilities of the University for a specified period of time;

(c) demerit — a total of three demerits may result in termination of studies at the University;

(d) repetition of a year of study;

(e) suspension from the University for a specified period of time;

(f) termination of studies at the University.

Penalties (d), (e) and (f) may be imposed only with the approval of the Senate.

19.3 A student, on being informed of a decision to take disciplinary action against him, may within seven days write to request the Senate to review the decision.

19.4 Penalties imposed on a student may be entered into the transcript of his academic record.
REGULATIONS FOR THE DEGREE EXAMINATION 1982

Section I — General

1. The Degree Examination of The Chinese University of Hong Kong, hereinafter referred to as the Examination, shall be conducted in accordance with these Regulations by the Undergraduate Examinations Board, hereinafter referred to as the Board, constituted under the Senate of the University.

2. Success in the Examination, in accordance with the requirements laid down by the Board, shall be a prerequisite for admission to the bachelor's degree of The Chinese University of Hong Kong.

3. The Examination shall be conducted in two parts: Part I and Part II. The Part I Examination is intended for students who have satisfied the requirements stipulated in Section II (1), and the Part II Examination for students who have satisfied the requirements stipulated in Section II (2).

4. The Examination will start in about the first week in the month of May each year.

5. Candidates shall be notified through notices displayed on the notice board of the Faculty concerned, of the timetable for the Examination and the centres at which the Examination will be held.

6. The principal language used in setting the examination papers shall be Chinese.

7. Candidates who have passed both Part I and Part II of the Examination and who have met all the stipulated requirements shall be recommended by the Board to the Senate for the award of a Degree in Arts, Science, Business Administration or Social Science, in accordance with their major subjects.

8. A list of successful candidates recommended for the award of a degree will be announced by the Board at about the end of July each year.

Section II — Entry Requirements

1. To be a candidate for Part I of the Examination, a student shall have
(a) been a third year student of the University,
(b) pursued an approved course of study extending over at least three years as a full-time matriculated student at the University, except as provided for in Statute 26(4), and
(c) satisfied the course requirements for all the degree papers he has applied to sit for in the Examination.

2. To be a candidate for Part II of the Examination, a student shall have
   (a) previously obtained a Pass or Recommended Pass in Part I of the Examination,
   (b) pursued an approved course of study extending over at least four years as a full-time student at the University, except as provided for in Statute 26(4), and
   (c) satisfied the course requirements for all the degree papers he has applied to sit for in the Examination.

3. Any candidate not covered by the above Regulations shall be eligible for admission to the Examination only if the sanction of the Board has been obtained.

4. Candidates for this Examination must apply to the Registry for admission to the Examination on the prescribed forms. All applications shall be forwarded to the Secretary of the Board not later than 15th February in the year of examination. No application shall be accepted after this date.

Section III — Number of Papers

1. The total number of papers for both Part I and Part II of the Degree Examination shall not be less than seven and shall not exceed nine.

2. In Part I of the Examination, a candidate shall enter for
   (a) one to three papers in the major subject and one to two papers in one minor subject, or
   (b) one to two papers in the major subject and two to three papers in two approved minor subjects,
   as specified for each individual subject, subject to the condition that the total number of papers entered for in Part I of the Examination does not exceed four and shall not be less than three.

3. In Part II of the Examination, a candidate shall enter for the necessary number of papers to satisfy the requirement that the total number of papers which he enters for in both Part I and Part II of the Examination shall be
   (a) five or six in the major subject and two or three in one minor subject, or
   (b) four in the major subject, two or three in the first minor subject and two in the second minor subject,
   as specified for each individual subject.
4. Any candidate who intends to submit a thesis, research paper or project in lieu of a degree paper must specify such intention in the application form mentioned in Section II, Paragraph 4. Such thesis, research paper or project should be submitted to the supervisor on a date specified by the Board of Studies concerned.

Section IV – Part I Examination

1. A candidate who passes all the papers he enters for in the Part I Examination will be awarded a Pass in the Part I Examination.

2. A candidate who fails in one or two papers and yet reaches for all the papers he enters for in the Part I Examination an average mark not lower than the pass mark as decided upon by the Board may be awarded a Recommended Pass in the Part I Examination provided that the result of any paper does not fall below a minimum mark determined by the Board.

3. A candidate who fails to obtain a Pass or a Recommended Pass may be permitted to repeat a year and enter for the Part I Examination of the following year, in which case he shall be required to sit for all the appropriate papers set for the candidates of that year.

4. A candidate who passes the Part I Examination but wishes to repeat his third year owing to change of major/minor subject may be allowed to do so provided that he enters for the Part I Examination of the following year which will be counted as second attempt and that he shall be required to sit for all the appropriate papers set for the candidates of that year unless exemption from taking certain papers has been obtained from the Board on the recommendation of the Boards of Studies or Committees of the candidate's major/minor subject concerned.

5. No candidate shall be allowed to sit for the Part I Examination more than twice save under circumstances specified in Regulation 2 of Section VI. Any second attempt should be made in the year immediately following his failure, unless permission of the Board for postponement is obtained.

Section V – Part II Examination

1. A candidate who passes all the papers he enters for in the Part II Examination will be awarded a Pass in the Part II Examination.

2. A candidate who fails in one or two papers and yet reaches for all the papers he enters for in the Part II Examination an average mark not lower than the pass mark as decided upon by the Board may be awarded a Recommended Pass in the Part II Examination, subject to the conditions that the total number of failed papers in the Part I and Part II Examination together does not exceed two and that the
result of any one paper does not fall below a minimum mark determined by the Board.

3. A candidate who fails to qualify for a degree shall be permitted to enter the Part II Examination of the following year, in which case he shall be required to sit for all the appropriate papers set for the candidates of that year.

4. No candidate shall be allowed to sit for the Part II Examination more than twice save under circumstances specified in Regulation 2 of Section VI. Any second attempt should be made in the year immediately following his failure, unless permission of the Board for postponement is obtained.

Section VI — Absence from the Examination

1. A candidate who is prevented by serious illness/injury or the death of a parent from presenting himself at the Part I or Part II Degree Examination shall apply at the earliest possible moment to the Board for permission for absence from the particular paper(s) missed. Other than exceptional cases, application shall not be accepted later than ten days after the last day of the Examination. In the case of serious illness/injury the application shall be accompanied by a certificate signed by the Director of the University Health Service.

2. Such a candidate whose application for absence is successful may be granted permission to make up in the Examination of the following year the paper(s) which he has missed, if the Board considers his academic performance satisfactory.

3. Under special circumstances a candidate in (1) above, whose application for absence from the Part II Examination is successful may be recommended for the award of a Bachelor’s Degree (Agrostat), if the Board is satisfied with his academic standard. Acceptance of such a degree by the candidate shall render him ineligible to present himself for any subsequent Examination for the same degree.

4. An applicant who fails to obtain permission for his absence shall fail the Examination. Regulation 3 of Section IV or Section V shall be applicable to such a candidate.

Section VII — Award of Degrees

Degrees awarded to successful candidates shall be classified as follows:
(a) Bachelor’s Degree with Honours, 1st Class
(b) Bachelor’s Degree with Honours, 2nd Class Upper Division
(c) Bachelor’s Degree with Honours, 2nd Class Lower Division
(d) Bachelor’s Degree with Honours, 3rd Class
(e) Bachelor’s Degree
However, a Bachelor’s Degree (Aegrotat) shall not be classified.

**Section VIII — Subjects of the Examination**

1. The subjects of the Examination shall be as follows:

**Section IX — Disqualification**

The Board may at its discretion disqualify a candidate who breaks any of the Regulations or Instructions made for the conduct of this Examination.
GENERAL REGULATIONS
GOVERNING POSTGRADUATE STUDIES

1.0 Rules and Regulations

1.1 All postgraduate students have an obligation to be conversant with and to observe all rules and regulations of the University.

2.0 Admission to Postgraduate Courses

2.1 Requirements for Admission

(a) An applicant before being admitted to a PhD programme shall have in principle
   (i) obtained a degree of Master from a recognized university and the consent of two qualified scholars in the proposed field of study from recognized universities to be named as referees; or
   (ii) obtained a degree of Bachelor with Second Class Honours in the upper division or above and have been registered in a course of study for the degree of Master at this University for at least one year and have demonstrated his/her research ability in the opinion of the Graduate Division/Board concerned; and
   (iii) passed the Chinese Language Admission Test conducted by the Graduate School; and
   (iv) obtained satisfactory results in the Test of English as a Foreign Language (TOEFL) or in the test of any other language that has direct relevance to his/her proposed research area; and
   (v) possessed additional or special qualifications required by the Graduate Division/Board concerned; and
   (vi) submitted a study plan to the Graduate Division/Board concerned at the time of application for admission.

(b) An applicant before being admitted to a master’s programme shall have:
   (i) graduated from this University or other recognized universities possessing a Bachelor’s degree normally with honours not lower than Second Class, or
(ii) graduated from other recognized universities possessing a Bachelor's degree and achieving an average grade of not lower than "B" in his/her undergraduate courses, or

(iii) completed a course of study in a tertiary educational institution and obtained professional or similar qualifications equivalent to an honours degree; and

(iv) passed the Graduate School Entrance Examination; and

(v) obtained satisfactory results at the Test of English as a Foreign Language.

(c) An applicant before being admitted to the one-year full-time Diploma-in-Education course shall have:

(i) graduated from this University or other recognized universities possessing a Bachelor's degree with a major/minor subject in an area of study within the secondary school curriculum; and

(ii) satisfied other entrance requirements laid down by the School of Education.

(d) An applicant before being admitted to the two-year part-time Diploma-in-Education course shall

(i) have graduated from this University or other recognized universities possessing a Bachelor's degree with a major/minor subject in an area of study within the secondary school curriculum; and

(ii) be an in-service secondary school teacher; and

(iii) have satisfied other entrance requirements laid down by the School of Education.

2.2 Application for Admission

2.3 Applicants for admission to an approved course of advanced study or research leading to a certificate, diploma or higher degree of the University shall apply by completing a prescribed application form which shall reach the Office of the School concerned on the specified dates. Supporting documents shall be submitted as specified in the application form.

2.4 Entrance Examination and Interview

(a) Unless otherwise stipulated, applicants for admission to an approved course of advanced study or research leading to a certificate, diploma or higher degree of the University shall take the TOEFL, sit for an entrance examination which includes the Chinese Language Admission Test and any other subject tests as required by the Graduate Division/Board or School concerned, and/or attend an interview.
(b) Exemption from taking the Chinese Language Admis-
sion Test may be granted to those candidates:
(i) who have obtained a pass grade in Chinese
Language and Literature in the Higher Level
Examination or Advanced Level Examination;
or
(ii) who hold a Bachelor’s degree in a branch of
Chinese Studies from a recognized university;
or
(iii) who have obtained a pass in or been exempted
from the First-Year General Chinese of this
University.

(2) Exemption from taking the Test of English as a
Foreign Language may be granted to those candida-
tes:
(i) who have obtained a pass grade in English
Language in the Higher Level Examination or
the Use of English in the Advanced Level
Examination; or
(ii) who hold a Bachelor’s degree in English from a
recognised university; or
(iii) who have obtained a pass in or been exempted
from the First-Year General English of this
University.

(c) An overseas applicant applying for exemption from the
entrance examination and interview shall submit the follow-
ing credentials to the Office of the School concerned not
later than 15th April of the year in which admission is
sought:
(i) acceptable credentials testifying to the applicant’s
proficiency in Chinese and English;
(ii) a letter of recommendation signed by a scholar of
international standing testifying to the applicant’s
research ability.

(d) Graduates with a degree of Bachelor with First Class
Honours from this University may be exempted from the
major subject test of the entrance examination if they
continue their study in the same field as their undergra-
duate Major.

(e) Applicants for admission to the PhD degree who can
produce acceptable credentials testifying to their profi-
ciency in the respective language may be granted exemp-
tion from the requirements of the language tests as speci-
fied in Regulation 2.1 (a) (iii) and (iv). Other exceptional
cases may be considered on an ad hoc basis.
2.5 Associate Students

(a) An applicant whose educational standard is considered adequate by the Graduate Division/Board or School concerned may be admitted upon the approval of the Council of the Graduate School as an associate student to pursue an approved course of advanced study or research not leading to a certificate, diploma or higher degree of the University.

(b) Unless otherwise stipulated, application for admission as an associate student shall be supported by a certified true copy of academic record and made to the Office of the School concerned before 1st July or 1st November preceding the academic term for which admission is sought.

(c) No associate student shall be allowed to change his status to that of a candidate for a certificate, diploma or higher degree of the University unless he has already satisfied the University's requirements for admission to an approved course of advanced study or research leading to a certificate, diploma or higher degree of the University and unless the change of status is specially recommended by the Graduate Division/Board or School concerned and the Council of the Graduate School and approved by the Senate.

2.6 Auditing Students

(a) An applicant whose educational standard is considered adequate by the Graduate Division/Board or School concerned may be admitted as an auditing student.

(b) Unless otherwise stipulated, application for admission as an auditing student shall be made to the Office of the School concerned before 1st August or 1st December preceding the teaching term for which admission is sought.

(c) An auditing student will not receive any grade or other academic recognition for the course(s) taken.

3.0 Fees

3.1 The fees payable by students shall be prescribed by the University Council and may be varied from time to time at the University Council's absolute discretion.

3.2 All fees shall be payable on dates specified by the University unless prior permission for deferment is obtained.

3.3 A student who has not paid his fees on the specified date(s) shall pay a fine of five dollars a day until the fees are paid and shall have his name removed from the register if he fails to pay up after a lapse of three weeks.
3.4 Caution money shall be payable on first registration as a deposit to make good outstanding debts to the University incurred in, for example, damages to University and/or College property. This sum less any deductions made for outstanding debts shall be refunded on discontinuation of studies. For graduating students, subject to no claim being outstanding, caution money shall be converted into graduation fee.

3.5 Apart from caution money, fees once paid shall not be refunded.

4.0 Registration

4.1 Unless otherwise stipulated, an applicant who has been offered admission to an approved course of study or research shall register in person with the Office of the School concerned on the specified date(s) and shall be deemed to have been admitted to the approved course of study or research on the date of his/her first registration, and therefore, a student shall present himself/herself for registration on the specified date(s) before the beginning of each teaching term.

4.2 Permission for deferment of registration for a period not exceeding two weeks from the specified date(s) may, in special cases, be granted on prior application in writing to the Office of the School concerned.

4.3 An applicant who has been offered admission but is prevented by illness or other unavoidable cause from registering for an academic year or a teaching term shall apply in writing to the Office of the School concerned for postponement of studies for a period not exceeding one year. Such an application shall be made before the specified date(s) for registration. In the case of an applicant desiring postponement of studies on medical grounds, his/her application shall be accompanied by a certificate signed by the Director of the University Health Service or a registered physician.

4.4 Registration shall include the selection of courses and the payment of fees due. An applicant or a postgraduate student who fails to register on time or who fails to complete registration shall be considered as having withdrawn from studies at the University after a lapse of two weeks from the specific dates.

4.5 A postgraduate student may not be registered simultaneously with another institution as a full-time student except by the permission of the Senate.
4.6 A postgraduate student registered for a full-time course of study or research shall not take up any full-time employment, paid or unpaid, during term time except by the permission of the Senate.

4.7 A postgraduate student shall normally retain the name under which he/she was first registered. Under special circumstances, however, a student may submit to the Office of the School concerned an application for a change of his/her name (including alteration of, addition to or deletion from the name under which he/she was first registered) together with the following documents:

(a) applicant’s written application;
(b) written consent from the applicant’s parent or guardian, if the applicant is under the age of 21;
(c) copy of applicant’s identity card or passport, carrying the new name intended to be registered with the University;
(d) copy of applicant’s statutory declaration and/or birth certificate.

4.8 A postgraduate student shall inform the Office of the School concerned immediately of any change of address or other particulars entered in the student’s registration form.

5.0 Course Load

5.1 A student pursuing a postgraduate programme leading to a certificate, diploma or higher degree shall take the required number of units in any academic year as specified in the individual programmes of studies.

6.0 Selection of Courses

6.1 A student reading for a higher degree shall, after consulting his/her academic adviser and after examining the programme of studies and the time-table of the Division/Board concerned, fill and submit to the Office of the Graduate School, on the specified date(s), the prescribed form for course selection which shall have the signature of the Head of the Division/Board concerned.

6.2 A postgraduate student shall take the required courses during the year as specified in the programme of studies unless written permission to do otherwise is obtained from the Head of the Division/Board concerned/Director of School of Education.
7.0 Course Withdrawals and Additional Course Selections

7.1 Application for course withdrawals and for additional course selections after the specified date/s shall be made on a prescribed form which shall have the signature of approval from the Head of the Division/Board concerned and submitted to the Office of the Graduate School. Such applications shall be made within two weeks after the beginning of the teaching term.

7.2 Only in special cases, the Head of the Division/Board concerned may, at his discretion after examining the student's written excuse, grant a student permission to withdraw from a course or enroll in a new course after the second week of the teaching term.

7.3 A postgraduate student who withdraws from a course without going through the prescribed procedure shall be given a failure grade for that course.

7.4 Normally no postgraduate student shall withdraw from a year course in the second teaching term. But, in case a postgraduate student has obtained a failure grade for a non-required year course in the first term and does not wish to take it in the second term, he/she may seek approval from the Head of the Division/Board concerned to withdraw from the course. The failure grade received in the first term shall, however, remain in the student's records.

8.0 Class Attendance and Leave of Absence

8.1 A postgraduate student shall follow all the courses in which he/she has enrolled and shall attend all their tests and examinations.

8.2 Unless otherwise stipulated, a postgraduate student who cannot attend classes because of illness or other reasons shall inform the Office of the School concerned of the exact day(s) of his/her absence at the earliest opportunity.

8.3 In case of illness necessitating absence exceeding a week, a postgraduate student shall submit an application for sick leave to the Office of the School together with a certificate signed by the Director of the University Health Service.

8.4 A postgraduate student who wishes to obtain a leave of absence for more than a week for non-medical reasons shall apply in writing to the Office of the School concerned beforehand stating the reasons for which leave of absence is sought. Such applications shall be subject to the approval of the Dean/Director of the School concerned.
8.5 Under no circumstances shall a postgraduate student be granted leave of absence for more than one year in the first instance. In case after a year's leave, he/she still finds himself/herself unable to attend, he/she may apply for extension, of his/her leave for another year beyond which no further extension will be granted.

8.6 A postgraduate student who has been absent without leave for a period exceeding one month shall be considered as having withdrawn from studies at the University.

8.7 A postgraduate student who is absent from a course for more than one-third of its scheduled teaching periods shall receive an "F" grade for the course.

8.8 A postgraduate student shall be required to take a certain leave of absence if he/she suffers from a contagious disease which is considered by the Director of the University Health Service as harmful to the University community. At the end of the prescribed period of absence, the said student shall apply for a certificate of good health signed by the Director of the University Health Service before he/she can resume classes.

8.9 In the case of tests missed or assignments delayed because of illness or other serious emergencies, application for make-up work shall be subject to the approval of the teacher concerned.

8.10 Unless otherwise stipulated by the School of Education, the above rules shall normally apply.

9.0 Examinations

9.1 There shall be prescribed examinations for each certificate, diploma or degree of the University held at times to be determined by the School or Division/Board concerned.

9.2 Examinations may be in the form of written, practical or oral tests, or continuous assessment, or any combination thereof.

9.3 No postgraduate student shall be admitted to any examination unless he/she shall have satisfied such attendance requirements as may be laid down for his/her course of study.

9.4 A postgraduate student who for medical or other compelling reasons is unable to sit for any examination or any part thereof shall apply in writing to the Office of the School concerned for withdrawal from the examination or any part thereof and the School concerned will determine what follow-up action is required. Application for such withdrawal for medical reasons
shall be accompanied by a medical certificate signed by the
Director of the University Health Service. A postgraduate student
who is absent from an examination without prior application
for withdrawal shall be considered as failing in that examination.

10.0 Grades

10.1 A postgraduate student’s performance in his/her studies shall be
assessed on the basis of his/her performance in any or all of the
following: class work, written work, laboratory performance,
field work, research papers, tests and examinations and any other
method of academic assessment.

10.2 For postgraduate courses other than those offered by the School
of Education, the course grades, converted points and standards
used in reporting shall be as follows:

<table>
<thead>
<tr>
<th>Grade and Standard</th>
<th>Sub-divisions (if needed)</th>

</tr>
</tbody>
</table>

10.3 An Incomplete Grade (I) shall signify that a course has not
been completed in the prescribed time period. A grade shall
be assigned upon the completion of the course work.

10.4 An incomplete work must be made up within three weeks
immediately following the end of the teaching term in which it
was assigned. Failure to complete the assigned work within the
allowed time shall result in an ‘F’ grade.

11.0 Unsatisfactory Performance

11.1 A postgraduate student registered for a higher degree, diploma or
certificate programme shall be required to withdraw from the
programme:
(a) if he/she receives a failure grade in the cumulative average
    of the courses taken, or
(b) if he/she receives failure grades in two courses, or
(c) if he/she fails to satisfy additional requirements which are
    laid down specially for the programme by the Division/
    Board/School concerned.
11.2 A postgraduate student required to withdraw from a programme of studies may repeat the whole programme in special circumstances if permission is granted by the Council of the Graduate School on the recommendation of the Division/Board/School concerned.

11.3 A postgraduate student receiving a failure grade in a course must repeat the course or take an approved substitute course.

11.4 A postgraduate student whose thesis is found not up to the required standard shall be required to re-write it and re-submit the thesis to the satisfaction of the Thesis Committee before he can be recommended for the award of a degree.

12.0 Period of Study

12.1 A student registered for a PhD programme shall follow a course of advanced study and research on an approved topic for a minimum period of three years and a maximum of seven years from the date of registration. However, the minimum period for a student holding a Master's degree in the same field of studies as that for the PhD programme may be reduced to two years. The minimum residence requirement will normally be two years for a student without a Master's degree and one year for a student with a Master's degree. Any recommendation by a Graduate Division/Board in regard to shortening the minimum length of study at the request of an exceptionally outstanding student must be endorsed by the Graduate Council for Senate approval.

12.2 A student registered for the degree of Master of Philosophy, Master of Divinity or Master of Social Work shall follow an approved course of study and research under one or more supervisors for a period extending over not less than two academic years. A thesis or dissertation for the said degree shall not be accepted later than four academic years after the date of first registration. In special circumstance, a thesis for the degree of Master of Divinity may be accepted in the fifth academic year if so recommended by the Head of the Division concerned.

12.3 A student registered for the degree of Master of Arts or Master of Science shall follow an approved course of study and research under one supervisor for a period extending over not less than one calendar year. A thesis or dissertation for the said degree, if stipulated in the programme of study, shall not be accepted later than three calendar years after the date of first registration.
12.4 For the MA (Education) programme, a postgraduate student shall follow an approved course of study and research for a period extending for not less than one calendar year. A thesis for the said degree shall not be accepted later than three calendar years after the date of first registration.

12.5 For the two-year full-time MBA programme, a postgraduate student shall follow an approved course of study and research for a period extending for not less than two academic years. A thesis or research paper for the said degree shall not be accepted later than four academic years after the date of first registration.

12.6 For the three-year part-time MBA programme, a postgraduate student shall follow an approved course of study and research for a period extending for at least nine trimesters. With special permission of the Head of the Division concerned, the student will be allowed to proceed at a slower pace but each student will be required to complete the eighteen courses within five consecutive years in order to qualify for the MBA degree.

12.7 For the three-year part-time day-release MSW programme, a postgraduate student shall follow an approved course of study and research extending for at least three academic years. A thesis or dissertation for the said degree shall not be accepted later than five academic years after the date of first registration.

13.0 Transcripts

13.1 An official transcript giving details of all courses taken and examination results of a student shall not be issued to a student or any private individual.

13.2 A postgraduate student who wishes to apply for transfer or admission to another educational institution or for employment may apply for an official transcript of his academic record to be sent directly to the said institution or prospective employer upon payment of the prescribed fees and postage.

14.0 Disciplinary Action

14.1 The University may take disciplinary action against a postgraduate student who violates any rule or regulation and/or commits any misconduct such as:
(a) defamation of or assault or battery against the person of any member of the University;
(b) wilful damage to or defacement of any property of the University;
(c) theft, fraud, misapplication of University funds or property of any kind;
(d) plagiarism in written assignments or cheating in tests or examinations;
(e) an offence in connection with degree, diploma, or certificate examinations, including violation of any of the regulations of the Senate governing conduct at examinations;
(f) falsification or serious misuse of University documents or records;
(g) refusal to comply with any order prohibiting any conduct which disrupts teaching, study, research or administration of the University;
(h) any conduct which is detrimental to the reputation and well-being of the University;
(i) an offence of immoral, scandalous or disgraceful nature for which the student has been convicted in any court of law.

14.2 Disciplinary action referred to in Regulation 14.1 may take the form of any of the following penalties in accordance with the nature and gravity of the offence;
(a) reprimand;
(b) suspension from part or all of the rights, privileges or the use of part or all of the facilities of the University for a specified period of time;
(c) demerit which would be recorded in his/her transcript (a total of 3 demerits would result in expulsion from the University);
(d) repetition of a year of study;
(e) suspension from the University for a specified period of time;
(f) expulsion from the University.
Penalties (d), (e) and (f) may be inflicted only with the approval of the Senate.

14.3 A postgraduate student, on being informed of a decision to take disciplinary action against him/her, may within seven days write to request the Senate to review the decision.

14.4 Penalties on a postgraduate student may be entered into the transcript of his/her academic record.
GENERAL RULES FOR
POSTGRADUATE STUDIES
LEADING TO THE DEGREE OF
DOCTOR OF PHILOSOPHY

PhD 1 General

1.1 The University shall introduce a postgraduate studies programme leading to the degree of Doctor of Philosophy (PhD) in any discipline on the recommendation of the Graduate Council and with the approval of the Senate.

1.2 In principle, a PhD programme in a discipline shall be administered by the appropriate Graduate Division which also administers master programme(s) in the same discipline.

1.3 Where a PhD programme in a major area involves more than one discipline, it shall be administered by a Graduate Board consisting of representatives from the Graduate Divisions concerned which may independently run their own master programmes in the respective disciplines.

1.4 A Graduate Board set up in accordance with Rule 1.3 above shall have a Graduate Panel similar to that of a Graduate Division, and the functions of a Graduate Board and its Graduate Panel shall in principle be exactly the same as those of a Graduate Division and its Panel in regard to the operation of the appropriate postgraduate programmes.

PhD 2 Conditions of Admission

2.1 An applicant seeking admission to a PhD programme must in principle

(i) have obtained a degree of Master from a recognized University and the consent of two qualified scholars in the proposed field of study from recognized universities to be named as referees; or

(ii) have obtained a degree of Bachelor with Second Class Honours in the upper division or above and have been registered in a course of study for the degree of Master at this University for at least one year and have demonstrated his/her research ability in the opinion of the Graduate Division/Board concerned.
2.2 Unless otherwise stipulated, the applicant must have passed the Chinese Language Admission Test (CLAT) conducted by the Graduate School of the University and obtained satisfactory results in the Test of English as a Foreign Language (TOEFL) or in the test of any other language that has direct relevance to his/her proposed research area.

2.3 (i) Exemption from taking Chinese Language Admission Test may be granted to those candidates:—

(a) who have obtained a pass grade in Chinese Language and Literature in the Higher Level Examination or Advanced Level Examination; or

(b) who hold a Bachelor's degree in a branch of Chinese Studies from a recognized university; or

(c) who have obtained a pass in or been exempted from the First Year General Chinese of this University.

(ii) Exemption from taking the TOEFL may be granted to those candidates:—

(a) who have obtained a pass grade in English Language in the Higher Level Examination or the Use of English in the Advanced Level Examination; or

(b) who hold a Bachelor's degree in English from a recognized university; or

(c) who have obtained a pass in or been exempted from the First-Year General English of this University.

2.4 Exemption from the requirements of the CLAT and the TOEFL may also be granted to applicants who can produce acceptable credentials testifying to their proficiency in the respective languages. Other exceptional cases may be considered on an ad hoc basis.

2.5 The applicant must also possess additional or special qualifications required by the Graduate Division/Board concerned.

2.6 Only in very special circumstances and with the approval of the Senate on the strength of the evidence of acceptable research experience shall admission be granted to an applicant who does not satisfy the requirements of Rule 2.1 above.

2.7 The applicant must submit a study plan to the Graduate Division/Board concerned at the time of application for admission.
PhD 3  Length of Study

3.1 Normally, a student admitted to a PhD programme shall pursue a course of advanced study and research on an approved topic for a minimum period of three years and a maximum of seven years from the date of registration. However, the minimum period for a student holding a Master’s degree in the same field of studies as that for the PhD programme may be reduced to two years. The minimum residence requirement will normally be two years for a student without a Master’s degree and one year for a student with a Master’s degree.

3.2 Any recommendation by a Graduate Division/Board in regard to shortening the minimum length of study at the request of an exceptionally outstanding student must be endorsed by the Graduate Council for Senate approval.

3.3 In special cases, the Graduate Council may grant a student leave of absence from his/her course of study and research. The period of such leave, not exceeding 12 months, shall not be counted as part of the prescribed length of study.

3.4 Any extra period approved for revision or re-submission of thesis or re-examination under Rule 9 shall not count towards the maximum period of study.

PhD 4  Supervision

4.1 A student shall be assigned a Supervisor to be appointed by the Graduate Council on the recommendation of the appropriate Graduate Division/Board.

4.2 The student shall meet his/her Supervisor at regular intervals. A report on the progress of the student’s work shall be submitted annually by the Supervisor through the Graduate Division/Board concerned to the Graduate Council.

4.3 The Supervisor shall (i) advise the student on the fulfilment of his/her course work requirements; (ii) ensure that an appropriate research topic is chosen by the student; and (iii) advise the student on the preliminary drafts of his/her thesis.

4.4 If at any time, the Supervisor should be firmly of the opinion that a student is not making satisfactory progress or unlikely to attain the standard required for the degree, he/she may advise the student to transfer to a course of study for a Master’s degree as provided in Rule 6.1 or make recommendation that he/she be required to discontinue his/her studies in the Graduate School.
PhD 5  Candidature for PhD Degree

5.1  Advancement to PhD candidature is conditional upon the successful completion of the following:
(i)  Study of a language other than Chinese and English where deemed necessary by the Graduate Division/Board concerned.
(ii) Course work of varying scope deemed necessary for the partial fulfilment of degree requirements.

These requirements must be satisfied within two to three years after the initial date of registration, depending on the length of postgraduate training previously received by the student and the nature of his/her discipline.

5.2  A special examination may have to be taken and passed by students for advancement to PhD candidature.

PhD 6  Transfer of Candidature

6.1  A student who has been registered in a course of study for the PhD degree may be permitted, on the recommendation of the Graduate Division/Board concerned, and with the approval of the Graduate Council, to transfer to a course of study for a Master's degree provided that such a transfer takes place before the thesis is submitted.

6.2  A student who has been registered in a course of study for a Master's degree and has completed the first year of his/her studies may be permitted, on the recommendation of the Graduate Division/Board concerned and with the approval of the Graduate Council, to transfer to a course for the PhD degree provided that the student meets the entry requirements as specified under Rule 2.

6.3  A student who has been registered for the Master's degree and who subsequently becomes a student for the PhD degree in the same field of study shall be permitted to date his/her period of study from his/her initial date of registration for the Master's degree.

PhD 7  Thesis

7.1  On successful completion of the requirements under Rule 5, and having been admitted to PhD candidature, the candidate shall submit for examination a thesis embodying the results of his/her research which shall substantially be an original contribution to the knowledge of the subject concerned.

7.2  Before the submission of the thesis for examination, the candidate must submit the exact title of his/her thesis for
approval by the Graduate Council on or before a date prescribed in the Graduate School Calendar. After the title of the thesis has been approved, it may not be changed except with the approval of the Graduate Council.

7.3 In non-science subjects, the length of the thesis shall normally not exceed 150,000 characters in Chinese or 100,000 words in English, while in science subjects, it shall normally not exceed 75,000 characters in Chinese or 50,000 words in English.

7.4 Each candidate must submit four copies of a thesis, including the original, all properly type-written or printed or copied and bound in a form approved by the Graduate Council. He/She must also submit five copies of abstract of the thesis of not exceeding 800 characters in Chinese or 500 words in English.

7.5 The candidate shall not be permitted to submit a thesis which has been previously submitted to this or any other University for a degree conferred on him/her; but he/she shall not be precluded from incorporating part of a previous study for a thesis covering a wider field.

7.6 The candidate must indicate in a written declaration how far the thesis embodies the result of his/her own research and to what extent he/she has availed himself/herself of the work of others.

7.7 A thesis may be submitted at any time after admission to candidature. Notice of intention to submit a thesis, embodying the title, shall be given to the Dean of the Graduate School on or before a date prescribed in the Graduate School Calendar.

7.8 If, on the recommendation of the Thesis Committee provided in Rule 8.1, a candidate is required to re-submit a revised thesis, such re-submission must be made within one year from the date of the notice by which he/she is informed officially of the result of the first examination.

PhD 8 Thesis Committee

8.1 For the assessment of a candidate’s thesis there shall be a Thesis Committee composed of at least two Internal Examiners including the Supervisor and one External Examiner to be nominated by the Graduate Division/Board concerned for the approval of the Graduate Council. Where it is impracticable for the External Examiner to be present at the oral examination, an additional External Examiner who can attend shall be appointed.
8.2 Members of the Thesis Committee shall read the thesis and conduct the thesis examination, and shall each make a separate written report on the merits of the thesis and the grounds upon which the candidate is or is not recommended for the degree.

PhD 9 Conduct of Thesis Examination

9.1 The eligibility of a candidate for the conferment of the PhD degree shall be assessed by the Thesis Committee on the basis of:
(i) a thesis, and
(ii) an oral and/or written examination.

9.2 For the purpose of the oral or written examination held in connection with his/her thesis, the candidate shall be required to present himself/herself at such place and time as the Graduate Council may direct. Normally, such an examination shall be held within four months after the submission of the thesis.

9.3 The oral or written examination shall cover not only the subject matter of the candidate's thesis but also the knowledge in related fields deemed essential to his/her field of specialization.

9.4 If the thesis is considered adequate and of an acceptable standard but the candidate fails in the oral or written examination held in connection therewith, the Thesis Committee may recommend another oral or written examination within a period not exceeding 12 months. A candidate who fails a re-examination shall not be eligible for any further examination.

9.5 If the thesis is found of sufficient standard, yet needing minor revisions, the Thesis Committee, if satisfied with the results of the oral/written examinations taken by the candidate, may require that such revisions be satisfactorily carried out by the candidate within 12 months without requiring re-examinations.

9.6 If the Thesis Committee finds a candidate's thesis to be poor in quality or his/her examination results totally unsatisfactory, it may recommend that the candidature be discontinued.

PhD 10 Results of Examination

10.1 On the recommendations of the Thesis Committee and of the Graduate Division/Board concerned, the Graduate Council may
(i) recommend that the PhD degree be conferred on a candidate;
(ii) request the Thesis Committee to further advise the Graduate Council;
(iii) appoint additional Examiners to settle cases in dispute;
(iv) require a candidate to revise his/her thesis for re-examination; or
(v) recommend that the PhD degree be not awarded.

10.2 Each candidate shall be notified of the results of the examination after the approval of the Senate.
REGULATIONS OF THE UNIVERSITY LIBRARY SYSTEM

The University Library System consists of the University Library and the three College Libraries of Chung Chi College, New Asia College and United College. The University Library is primarily for the research and advanced studies of the faculty, staff and graduate students of the University, although undergraduates may also use it. The College Libraries stock the reference books, the basic textbooks and supplementary materials for undergraduate courses in the curricula of the Colleges. The following Regulations apply in all four Libraries, and all members of staff of the University Library System are expected to enforce them. The Senate Library Committee reserves the right to revise these regulations at any time.

The hours of opening are posted at the entrance of each Library and are adapted to the semester schedules. The Libraries are closed on public holidays.

Library Privileges

Library privileges are personal and individual. They may not be transferred to, or used on behalf of, other persons.

Privileges of the Library fall into three categories:

1. **Borrowing**

   Borrowing privileges are extended to all registered students and academic/administrative staff of The Chinese University of Hong Kong.

   Others may apply to the University Librarian for special Borrowers’ Cards. Clerical staff, technicians and spouses of the faculty and administrative staff of the University may also apply to the University Librarian for borrowing privileges.

2. **Reading**

   The privileges of reading is extended to visiting scholars, to researchers and to graduates of this University upon application to the University Librarian. Reserve books, however, are for the exclusive use of students and faculty of the University.

3. **Privileges of special facilities**

   Carrels: Not reserved for any category of Library user, carrels are available for the convenience of all.
Faculty Studies in the University Library: On application to the University Librarian, Assistant Lecturers (and above) may reserve a Study for three months, renewable if its use justifies it. Others who are engaged in research may also apply.

Seminar Rooms in the University Library: Upon application to the University Librarian, a Seminar Room may be reserved for a lecture or for a series of lectures or meetings which would benefit from the use of library materials and resources.

Photocopying: Upon request at any of the Libraries, a reader may obtain at cost photocopies of materials, provided there is no infringement of copyright.

Interlibrary Loans: The reference librarians will attempt to obtain from other libraries books which are not owned by the University Library System and which cannot be readily purchased.

Admission to the Libraries

Every user of the Libraries must show a University Identification Card, a Borrower’s Card or a Reader’s Card at the Control Counter. Applications for Borrowers’ Cards and Readers’ Cards are made at the Circulation Desk.

Borrowers’ Cards and Readers’ Cards are not transferable and must be produced upon request. Loss of a Borrower’s Card must be reported to the Library immediately; a duplicate card may be issued two weeks after the loss is reported. Only one duplicate will be granted within a semester. Change of address should also be reported to the Library as soon as possible.

Visitors, accompanied by a person entitled to use the Libraries, may be admitted with the permission of the Librarian or a deputy.

All Library users must enter and leave through the entrances and exits designated for these purposes.

Borrowing Regulations

Borrower Categories

Users of the University Library System to whom the borrowing privilege is accorded are grouped into the following categories:

1. Registered students of The Chinese University of Hong Kong.
   (a) Undergraduate students.
   (b) Graduate students; tutors/demonstrators who are registered students working part-time.

2. Faculty members: all teaching staff, including full-time tutors/demonstrators.

3. Administrative staff: administrative assistants and above.
4. CUHK graduates: Upon payment of a fee of $50 per annum.

5. Special categories:
   (a) Clerical staff and technicians, with the recommendation of their division heads.
   (b) Spouses of the faculty and administrative staff.
   (c) Others, upon special application.

Categories 1, 2 and 3 who identify themselves at the Circulation Desk may obtain an Intercollegiate Borrowing Card.

Borrowing Limits

Individuals may borrow within the limits of the following schedule:

Category 1(a). Undergraduate students: 10 volumes (books) for two weeks.

Category 1(b). Graduate students, part-time tutors/demonstrators: 15 volumes (books) for one month.

Categories 2-3. Faculty members and administrative staff 30 volumes may be borrowed for one semester, although they should be returned as soon as they are no longer required. Bound periodicals and non-current single issues may be borrowed for periods of three days. Current periodicals may be borrowed for overnight use only.

Category 4. CUHK graduates: 3 volumes (books) for two weeks.

Category 5(a). Clerical staff and technicians: 5 volumes (books) for two weeks.

Category 5(b). Spouses of the faculty and administrative staff: 1 volume (book) for two weeks.

Category 5(c). Others, according to special arrangement.

All books taken from the bookstacks must be charged at the Circulation Desk. Reserve Books must be charged at the Reserve Book Counter; there are varying borrowing limits on these books.

Books obtained on interlibrary loan are borrowed through the courtesy of other libraries and their restrictions as to loan period and renewal are therefore observed. Usually the loan period is two weeks and the books may have to be used only in the Library. Photocopies of periodical articles may be obtained at cost in lieu of the whole volume or issue.

Reference books, rare books, microforms and other audiovisual materials do not circulate.

Renewals

Borrowers may renew loans for two additional periods. To avoid fines renewals must be made on or before the last date of the initial loan period. Borrowers, with the exception of Categories 2–3, must renew their loans at the Circulation Desk of the issuing Library.
Faculty members and administrative staff who require a book for more than one semester may renew it in writing. After two renewals, however, the book must be returned to the library shelves for at least one month so that it may be available to others; it may not be borrowed by the same individual within that period.

No book may be renewed if it is required by another person.

Reca l l

Circulating books and journals to be put on reserve for courses are subject to recall at any time. All other loans are subject to recall after two weeks (the initial loan period). Borrowers should respond to a recall promptly.

Books which are urgently required for brief consultation and which have been on loan for less than two weeks may be recalled for a period of one day.

O verdue

The last date of the loan period is stamped on the date due slip at the back of each book loaned. When the loan period expires, an overdue notice is sent to all categories of borrowers. However, the responsibility of returning books on time lies with the borrower.

Fi nes

All categories of borrowers except 2 and 3 who keep books beyond the loan period are subject to a fine of HK$0.50 per book per day. A fine of HK$0.50 per hour will be charged for each reserve book overdue.

L osses

Borrowers who fail to return books or who return books damaged beyond repair will be charged the cost of replacement (including binding) in addition to the processing cost of HK$10.00 and any accumulated fine. Damaged books and marked pages should be reported to the Librarian as soon as noticed.

C ontrol Counter

Under normal circumstances, all parcels, brief cases, bags, umbrellas, cameras etc., should be deposited on entering the Library. No food or beverages may be taken into the Library. On leaving the Library, all books etc., must be inspected.

L oss of Privileges

People who are engaged in noisy activities outside a Library building will be refused admission to the Library.
Minor infractions, such as smoking, shouting and other disturbances, are forbidden in all parts of the Libraries. The Librarian or an appointed deputy may expel from the building for the remainder of the day any person who is acting to annoy others or who is damaging books or other property in the Library. Payment must be made to cover all damages.

A gross breach of the Regulations may subject the borrower to a loss of library privileges.

(a) Overdue books — After normal recall procedures, a written warning will be sent. If this is ignored, borrowing privileges will be withheld in all the Libraries until the return of the book(s) and the payment of accrued fines.

(b) Payment of charges — If a person refuses to pay any outstanding charges (fines, replacement costs of damaged book or repair of damaged property), all the Libraries will withhold his borrowing privileges until the account is cleared.

Repeated offenses may lead to a total loss of the privilege of using the Libraries' facilities.
