A SOLID FOUNDATION

(The following are excerpts from the Vice-Chancellor's Statement on the Supplementary Budget of 1964/65 and the Annual Budget of 1965/66 presented to the University Council on November 24, 1964)

On University Development

"University teaching for the first two years of the 4-year curriculum is handled by each of the Colleges with more or less common syllabuses; inter-collegiate teaching either at a college or at a central location will be given as far as possible for the last two years. In addition, there will be university-wide facilities for faculty research and postgraduate training, and such other university-wide activities as extra-mural programmes.

"The development during the University's first year has been gratifying. The three Foundation Colleges have been operating more and more as integral parts of the University, and the three College Presidents have developed into a smooth working team with the Vice-Chancellor in dealing with all policy issues of the University.

"Eleven professors have been appointed. The academic and administrative staff of the Colleges have been converted from the college salary scale to the University scale in accordance with the results of assessment by experts in the United Kingdom. The University Senate has been formed. Thirteen Directors of University Studies have been appointed and as many Boards of Studies have also been set up and are already in operation.

"The principle of inter-collegiate teaching has been extended to all Third and Fourth Year courses offered in the three Colleges, although distances and other physical difficulties have confined its application to only a small number of courses at the present.

"A solid foundation has been laid for building up the University into an institution of higher learning."

On Institutes and Research

"The University-wide establishments constitute the core of the central administration in University development. A university cannot be brought into existence if its attention is focussed on only undergraduate teaching.

"As a university, it must provide facilities for its faculty members to do research and to give training to postgraduates. To the university, research is indispensable because it serves directly the needs of the community, enables the faculty members to keep up with the newest developments in human knowledge and to make contributions to it, and enriches undergraduate teaching and postgraduate training.

"Moreover, research will enable the university to attract and keep able staff; a good salary without the provision of research facilities is not enough to compete with other institutions for the best staff."

A SOLID FOUNDATION

[Text continues as in the original document]
With respect to Chinese History, Literature and Philosophy, there is already the Institute of Advanced Studies, which will take up the directorship of the Institute of Social Studies and Dr. C.T. Yung, President of Chung Chi College, will take up the directorship of the Institute of Science and Technology.

It is proposed that at least for the immediate period, the Vice-Chancellor will take up the directorship of the Institute of Social Studies and Dr. C.T. Yung, President of Chung Chi College, will take up the directorship of the Institute of Science and Technology.

On Library

"A good up-to-date working library is vital to any institution of higher learning. In March the affiliation of the Library at the new site is set up on the setting up of a University Library. They have come up with very sensible and practical suggestions both for the immediate school which envisages that the three existing college libraries will continue to be maintained as teaching libraries for the undergraduates whereas the University Library will develop into one for research on the part of advanced students and faculty members."

On Undergraduate Teaching

"To raise the academic standard of the University, emphasis will have to be placed on the effective operation of the Boards of Studies, on the provision of research facilities in the Institute for the teaching staff and advanced students, on the program of visiting professors from other universities."

The actual growth of student enrolment has been quite different than the calculations in the Fulton Report. In the first place, the drop-out rate (or "wastage") has been considerably less than that assumed by the Commission, which envisages that the one half of these 40 students will be lost. The report of the two British visitors (Professor George Lehmann and Dr. John Vaughan Loach) on University teaching methods will soon be forthcoming.

As far as the Colleges are concerned, their development will be focussed on the strengthening of the teaching departments at the undergraduate level both in personnel and in material.

On Undergraduate Enrolment

"But much more important than that is the rapid but proper expansion, with Government approval, of United under T. C. Cheng's administration — from a total of 1,062 in October 1962 to 452 in October 1964. During this period, the College had New Asia College. The instructions from the local community, the interest of which has been aroused to an extraordinary degree by the foundation of this University. Consequently the Administration has decided to start an Extra-Mural Studies Department in early 1965.

The programme is expected to pay for itself except for the initial establishment costs in the budget. It is proposed that the directorship of the Extra-Mural Studies Department will be taken up concomitantly by Mr. T. C. Cheng, President of the United College."

On Extra-Mural Studies

"One of the urgent considerations at this stage of development of the University is a suitable way of establishing a closer relationship with the local community, the interest of which has been aroused to an extraordinary degree by the foundation of this University. Consequently the Administration has decided to start an Extra-Mural Studies Department in early 1965.

The programme is expected to pay for itself except for the initial establishment costs in the budget. It is proposed that the directorship of the Extra-Mural Studies Department will be taken up concomitantly by Mr. T. C. Cheng, President of the United College."

On Graduate Training

"To implement their recommendations, the first Extra-Mural Studies Department w ill be taken up concomitantly by Mr. T. C. Cheng, President of the United College."

CONVERSION

The Council has approved the conversion of the salary scale from Post-Secondary Grant College to University for the Administration at its meeting on the 29th of September. The conversion has also received Government's approval.

Since the inauguration of the University on 17th October 1963, nearly 1,000 University-appointed staff positions have been filled according to the University scale of salary under the Terms of Service (A) and (B). It was understood that the College-appointed staff positions would also be paid according to University scales as from October 17, 1963 providing their qualifications and experience are up to the standards of a university of good standing in the Commonwealth.

Accordingly, the qualifications and experience of the College-appointed teaching staff were forwarded to the Inter-University Council for Higher Education in Overseas (IUC) in January of this year for assessment. The results reached Hong Kong in September.

Administrative staff salaries were also converted at the recommendation of the Committee.

According to University Ordinance, Senior Lecturers coming under the new salary scale are no longer appointed by the Colleges, but by the University. Boards of Advisors, therefore, had been insitituted to consider these appointments. The following have been approved as University-appointed Senior Lecturers:

"Elmer J. Brody, BS Cal. Tech., PhD Prin (Mathematics)

INAUGURAL ADDRESSES

Falling a traditional practice in universities all over the world, the University will hold a series of Inaugural Addresses to be given by the newly appointed Professors.

Among the eleven appointees, eight Professors have already assumed their duties in September of this year. One University appointee, Mr. Paul Young, has also reached Hong Kong from America.

The Addresses will be held in the City Hall Theatre at 3:30 p.m. on the following subjects and dates:

A.C.U. MEMBERSHIP

The Chinese University was formally admitted into the Association of Commonwealth Universities, it was announced in a A.C.U. report recently. The Vice-Chancellor, Dr. Choh-Ming Li, is elected to be one of the four representatives for member Universities and University Colleges in other parts of the Commonwealth. Prof. C.H. Phillips of University of London will sit in future A.C.U. meetings as representative of the Vice-Chancellor.

There were at the middle of this year a total of 139 member institutions comprising 126 Members (Universities), nine Associate Members (University Colleges) and four Additional Members (other approved institutes of higher education) in the Association.

ADDITIONAL SENATE MEMBERS

In accordance with Section 16(1)(f) of the Chinese University Ordinance where six members of the Senate shall be Readers, Senior Lecturers or Recognized Lecturers but not Directors of University Studies and who shall be elected two from each College by the Readers, Senior Lecturers and Lecturers within such College, the following persons have been elected:

Dr. Chang Hson Mou — Chung Chi College
Dr. Mark Kent Chun — Chung Chi College
Mr. Hsieh Tso-yu — New Asia College
Mr. Wu Chen-hsiung — New Asia College
Mr. Hu Chia-chien — United College
Dr. Yang Shu-chia — United College

ACTING VICE-PRESIDENT, NEW ASIA

Mr. B. P. Schoyer, Acting Vice-President, New Asia College.

Born in Pittsburgh, 1911, Mr. Schoyer graduated from Yale University in 1933 with a B.A. degree in English. From 1933 to 1935 he taught English in schools in Changsha, China. He returned to the Yale Graduate School in 1937 to study Oriental History and Chinese Language. From 1941 to 1942, he was the Director of "Spotlight on Asia", an educational programme of information on Far Eastern developments presented weekly by the C.B.S. in New York.

He then joined the U.S. Army in 1942 and later completed his service as a major of the Air Force. He initiated and participated in the Air Ground Aid Section, attached to Theater Headquarters, China. At the end of the war, Mr. Schoyer was on a mission to Shanghai to rescue and give aid to Allied prisoners and internees held in Japanese prison camps. He also functioned temporarily as Theater Headquarters representative in public relations with that city from August to December, 1945 and was awarded many decorations for his services.

From 1952 to 1954, Mr. Schoyer was the representative of Yale-in-China in Hong Kong. He supervised a relief programme for Yale-in-China graduates and conducted negotiations with New Asia College and British Government authorities in setting up co-operative programmes between New Asia and Yale-in-China. From 1950 to July this year, he was the Comptroller and Yale-in-China representative for New Asia.

Mr. Schoyer is also the President of the Universities Service Centre in Hong Kong and Special Assistant to the Vice-Chancellor of the University.

He has written a number of novels, mostly dealing with China and the Chinese: The Foreigners (1942); The Indefinite River (1947); The Ringing of the Glass (1950); and The Typhoon's Eye (1959).

Mr. Schoyer is married and has two daughters. He is now the Acting President of New Asia in the absence of Dr. Ou Tsin-chien.

COLLEGE DEANS OF FACULTIES

Dr. Daniel Y. Chang, New Asia College.

Dr. Chang, born in Kiangtu, Kiangsu, graduated from National Southeastern University in 1927 with a B.Sc. degree and taught in National Central University. He left China to study in the Institute de Chemie Universite Lyon, France, and got his D.Sc. degree in 1935. On his return, he taught in various Chinese universities and institutes, including the National Szechuan University, the National Central Polytechnic College, the Ordnance Engineering College, and the National Taiwan University.

Dr. Chang was awarded a scholarship in Natural Science by the ministry of Education of China in 1956, and elected a member of the American Association of Science Teachers in 1961. His publications are:

在任何高等教育研究机构中，良好的现代化图书馆是不可缺少的。一九六四年三月，本校邀请得加州大学图书馆学研究所所长史旺克教授和史丹佛大学博物馆馆长吴文津博士，来港协商建立大学图书馆的计划。他们建议先成立临时图书记馆。在他们主持下，拟议中的图书馆于一九六五年初开始实行。大学校务委员会已接纳了他们的报告。三学院依旧维持现有图书馆为各该学院学生之用，而大学图书馆则将发展为供教职员和研究生之用。为了实施两位图书馆学专家的建议，大学于一九六五年初着手替上述两所研究院和教育学院购置书籍，暂由学院图书馆保管。大学当局正急切物色一位经验丰富的图书馆馆长。在物色人选中，计划先成立图书馆人员骨幹，先设置编目员主持，主持定购及收发书籍的工作。不論图书馆馆长能否如期聘任，一九六五年七月前，必须聘用一位副图书馆长以策进行。在新地未完成前，图书馆将暂设于新租用的办公室内。
A SOLID FOUNDATION

(The following are excerpts from the Vice-Chancellor's Statement on the Supplementary Budget of 1964/65 and the Annual Budget of 1965/66 presented to the University Council on November 24, 1964.)

On University Development “University teaching for the first two years of the 4-year curriculum is handled by each of the Colleges with more or less common syllabuses; inter-collegiate teaching either at a college or at a central location will be given as far as possible for the last two years. In addition, there will be university-wide facilities for faculty research and postgraduate training, and such other university-wide activities as extra-mural programmes.

“The development during the University’s first year has been gratifying. The three Foundation Colleges have been operating more and more as integral parts of the University, and the three College Presidents have developed into a smooth working team with the Vice-Chancellor in dealing with all policy issues of the University.

“Eleven professors have been appointed. The academic and administrative staff of the Colleges have been converted from the college salary scale to the University scale in accordance with the results of assessment by experts in the United Kingdom. Following the conversion, all the Senior Lecturers in the Colleges have received University appointments. The University Senate has been formed. Thirteen Directors of University Studies have been appointed and as many Boards of Studies have also been set up and are already in operation.

“The principle of inter-collegiate teaching has been extended to all Third and Fourth Year courses offered in the three Colleges, although distances and other physical difficulties have confined its application to only a small number of courses at the present.

“Thus a solid foundation has been laid for building up the University into an institution of higher learning.”

On Institutes and Research “The University-wide administration in University development. A university cannot be brought into existence if its attention is focussed on only undergraduate teaching.

“As a university, it must provide facilities for its faculty members to do research and to give training to postgraduates. To the university, research is indispensable because it serves directly the needs of the community, enables the faculty members to keep up with the newest developments in human knowledge and to make contributions to it, and enriches undergraduate teaching and postgraduate training.

“Moreover, research will enable the university to attract and keep able staff; a good salary without the provision of research facilities for self-improve-
