NEW DEVELOPMENTS OF LIBA

Student Enrolment

Out of more than one hundred applicants for admission to the Lingnan Institute of Business Administration, twenty-four were enrolled as first-year students. Of these, twelve are graduates of this University, six from the Universities of Hong Kong and the others from universities in Taiwan, Singapore and the United States. About half of these new students have had at least one year of business or working experience. There are also seventeen second-year students, making a total of forty-one students in LIBA's two-year M.B.A. programme. This compares with a total enrolment of thirty-three in 1970-71 and only seventeen in 1969-70.

Of the total of forty-one students registered for the academic year 1971-72, 16 have their first degrees in business administration or economics, twenty-five in natural science, engineering, social science and arts. With students from various universities and from different backgrounds or disciplines, opportunity is presented for interchange of ideas.

New Appointments

Dr. Gano S. Evans, Associate Professor of Management Sciences at the University of Nevada, joined LIBA this fall as Visiting Associate Professor.

On 1st November Dr. Sutu Hsin was appointed by the Vice-Chancellor as Director of LIBA. Dr. Sutu had been Chairman of the Department of Business Administration and Dean of the Faculty of Commerce and Social Science at United College before he became Associate Director of LIBA in 1969. Dr. John L. Espy, who taught at Chung Chi College from 1963 to 1967 and joined LIBA's faculty in 1970, is now serving as the Institute's Associate Director.

New Scholarships

Three new scholarships were received this semester. One is a two-year scholarship of HK$5,000 per year given by Goodyear Investors, Ltd. Another is a HK$5,000 one-year scholarship given by the Overseas Trust Bank, Ltd. The third is a HK$5,000 per year two-year scholarship from an anonymous friend of the Institute.
Community Participation

LIBA’s students and faculty members were invited by the Hong Kong Management Association to participate in its conference on “Information Systems for Management” which was held at the City Hall on 14th and 15th September. The conference included presentations by eighteen overseas and local specialists on all aspects of applications of computers to business management and an exhibition of the latest equipment available from prominent manufacturers of data processing machines.

LIBA’s alumni and second-year students participated in “The Management Game” sponsored by the Hong Kong Management Association. This game, which required each team to make a series of typical business decisions, was based on a computer simulation model, and scoring was done on Asiadata, Ltd.’s ICL computer. Two LIBA alumni teams and four LIBA student teams were among the sixty teams playing the game. One alumni team and two of the student teams won during the first round and thus qualified for entry to the semifinals.

The Lingnan Institute is cooperating with the Hong Kong Management Association in conducting a programme for training case-writers. The twenty participants in this programme are from leading business and industrial firms, the Government Training Services, the Hong Kong Productivity Centre, the Hong Kong Management Association, the Hong Kong Technical College, the University of Hong Kong and this University. Each participant is conducting field research with a cooperating business firm; he will then use the results of his research as the basis for a case study. There is an urgent need for case studies based on Hong Kong firms for use in management education courses, and it is hoped that the studies resulting from this programme can be published in book form.

International Conferences

In November, Dr. Sutu was one of the Hong Kong delegates to the Fourth Conference of the Asian Association of Management Organization of the International Council of Scientific Management held in New Delhi, India. The theme of the Conference is “Tradition and Modernity”. Hong Kong presented two papers, one on “Industrial Management” by Mr. T.K. Ann, Chairman of the Federation of Hong Kong Industries, and another on “The Changing Scene in Hong Kong” by Dr. Sutu.

This fall Dr. Philip Fu and Dr. John Espy represented LIBA at the “1971 Meeting of Asian Business Schools” which was held at the University of Malaya in Kuala Lumpur. Dr. Fu presented a paper on the relationship between the undergraduate and graduate studies of business administration of this University. Dr. Espy’s paper discussed the policies and practices of the University in the area of consulting work by faculty members.

Visitng Professor

Prof. Gano S. Evans received his Bachelor of Arts degree from Colorado State College, a Master of Business Administration degree from the University of Denver, and his Doctor of Business Administration degree from the University of Washington.

Donation from Lee Foundation, Singapore

With the increase in student enrolment and LIBA’s participation in many new activities, heavier teaching loads and tutoring have been imposed upon the staff of LIBA, not to mention the supervision of seventeen master’s theses, dealing mainly with Hong Kong’s industrial and commercial problems, of the second-year students. The presence of Visiting Associate Professor Evans is of great help. Since many international corporations have moved their regional headquarters to Hong Kong, the demand for competent junior executives is becoming more pressing. In the nearest future, LIBA will pay special attention to the training of students in the field of international finance and trade as well as bilingual proficiency. In response to this demand, the Lee Foundation, Singapore, has kindly offered a sum of HK$200,000 to the University for a lectureship for a period of four years at LIBA. It is believed the donation will give an impetus and enhance the achievement of this goal.

Research Interest

Present research includes investigations on amphoteric fishes, pollution, quantitative benthic biology, commensal relationships, and systematics of selected fauna.

Prof. Malcolm S. Gordon

Prof. Malcolm S. Gordon graduated with a B.A. degree with High Honours in Zoology from Cornell University in 1954 and obtained his Ph.D. degree in Zoology in 1958 from Yale University. He joined the Department of Zoology of the University of California, Los Angeles in 1958 and assumed professorship in 1968. While on leave from the University in 1968-69, he worked as Assistant-Director-Research of National Fisheries Center and Aquarium, United States Department of the Interior, Washington, D.C. In 1970 he was appointed Director of the Institute of Evolutionary and Environmental Biology of the University. He assumed duties in September 1971 as Visiting Professor of Zoology at the Marine Science Laboratory and will be staying for one academic year.

Prof. Gordon has received the National Science Foundation Regular Predoctoral Fellowship, Fulbright Fellowship and Guggenheim Fellowship.

Prof. Gordon’s research interests are comparative physiology of fishes and amphipods and experimental
The Marine Science Laboratory of the University was completed in June 1971. It functions, together with the new University Science Centre, as one of the more advanced centres of higher learning in Asia. The Marine Science Laboratory seeks to encourage basic research in all facets of marine science. The Laboratory complex is primarily designed for research but some teaching is also included. Foreign and local research workers in the marine sciences are encouraged to utilize its facilities.

Location and Representative Biota

The Laboratory is located on the western shore of Tolo Harbour, on the campus of the University in Shatin. Owing to the seasonal variability of the sea surface temperature (12.5°C. to 31°C.), the biota varies significantly at different times of the year. Thus, Tolo Harbour and adjacent environs demonstrate some Indo-Pacific biota and some from the colder China Sea to the north. Salinity varies with the rainy season, but areas of less salinity change are found close to the Laboratory, thus facilitating studies on either euryhaline or stenohaline biota. Coral patches, and their associated biota occur close to the Laboratory. Level bottom communities, rocky shores, sandy beaches, and mangrove areas are all easily accessible for study.

Research Interest

Present research includes investigations on amphibious fishes, pollution, quantitative benthic biology, commensal relationships, and systematics of selected fauna.

Facilities

The Laboratory complex is divided into three buildings, one housing the research laboratories and watchman’s quarters, one 300-square foot sea water room, and one small ship’s storeroom. Two ten-foot diameter holding tanks are associated with the sea water room, and the entire complex is supplied with a running sea water system. A small pier provides docking. The Laboratory operates a 44-foot diesel research launch equipped with winch and sonar, and a seven-passenger Land Rover for shore investigations. A wide variety of oceanographic apparatus is available for use, and more sophisticated instrumentation is available at the University Science Centre, only a quarter of a mile away.

Staff

Prof. Malcolm S. Gordon from the University of California, Los Angeles, is Visiting Professor of Zoology at the Laboratory. Dr. L.B. Trott, Lecturer in Biology, Chung Chi College, has been appointed Director of the Laboratory concurrently.

PROSPECTS OF THE DEPARTMENT OF FINE ARTS

New Board of Studies

In order to strengthen the Fine Arts programme, starting this academic year, an independent Board of Studies in Fine Arts has been set up, separating it from the original Board of Studies in Philosophy and Fine Arts. The membership of the Board in Fine Arts comprises:

Administrative Chairman: Mr. Wang Chi
Members: Mr. Chen Shih-wen
Mr. Liu Kuo-sung
Mr. Tseng Yu
Mr. James C.Y. Watt

The Vice-Chancellor and the three College Presidents are ex-officio members of the Board.

New Staff

This year also witnessed the most important developments in the Department of Fine Arts in the area of staffing. Prof. Chiang Yee of Columbia University will serve as Visiting Professor during the second semester and will teach courses in theories and practices of Chinese art. Mr. Tseng Yu has been appointed Head of the Department and Mr. Liu Kuo-sung has arrived to assume duties as Visiting Lecturer. In addition to these appointments, Mr. James C.Y. Watt, Curator of the Art Gallery, also serves concurrently as Lecturer in the Department. For the next academic year, Prof. Chu-ting Li of the University of Kansas, who was Visiting Professor of Fine Arts at this University during the summer of 1971, will return to the University to integrate the courses and implement closer cooperation between the Department of Fine Arts and the Art Gallery.

Teaching Programme

With these new appointments, it is possible to modify the curriculum so that it has a greater emphasis on Chinese art history. It is hoped that with the development of the programme, students of Fine Arts will have an opportunity to choose areas of concentration, initially between art history and theory as one area and practice of art (drawing, painting, sculpture, design, etc.) as another. It is also hoped that eventually the following four areas of concentration can be developed: Chinese art history; Chinese painting, calligraphy and seal-carving; Western painting, sculpture and prints; and design and ceramics.

The much needed teaching space can now be provided by the Art Gallery, housed in the Institute of Chinese Studies and approximately 5,000 square feet in area. The Department of Fine Arts can fully make use of the facilities of the Art Gallery and make it a teaching gallery, when New Asia College moves to the campus at the end of 1972.

The Department of Fine Arts places special emphasis on extracurricular activities and has organized a number of functions, including drawing sketches from nature, visiting art exhibitions, exhibitions of students’ works, and film shows on Western art in collaboration with various cultural institutes and diplomatic missions. By means of all these activities, the Department is aiming at cultivating among the students a deep appreciation for art as well as enriching their knowledge in aesthetics.

New Department Head – Mr. Tseng Yu

Mr. Tseng Yu was born in Shanghai and studied Journalism and English in China and Hong Kong before going to the Slade School of Fine Arts, London University, to study painting and prints in 1952. He stayed in London until 1956 when he moved to Paris and was enlisted in L’Ecole des Beaux Arts.

Mr. Tseng has held two one-man exhibitions, one in 1955 in London’s Arthur Jeffress Gallery, one in 1959 in Paris’ Gallery Benezit. He also joined in a group exhibition in Rome in 1965.

After completing his studies at L’Ecole des Beaux Arts in 1960 he moved to Rome where he worked for a news agency as a correspondent for ten years. While staying in Italy, he frequently visited Florence, Venice and other cultural centres and drank deep at the fountains of Italian Renaissance and Baroque art.

Mr. Liu Kuo-sung

Mr. Liu Kuo-sung, born in Shantung, China, graduated with a B.A. degree in Fine Arts from National Taiwan Normal University in 1956. He spent four months at Iowa University in 1966, taking up advanced studies in the Department of Art. The same year he was awarded the John D. Rockefeller Third Fund to have a two-year world tour, visiting universities, art schools and museums, galleries and private collections.

A teacher of art since 1956, Mr. Liu has been Professor of Art in the Department of Architecture at the Chungyuan College, Taiwan, since 1970. He was Guest Artist at Stout State University, Wisconsin, in the spring semester of 1971.

Mr. Liu has held a number of group exhibitions and more than thirty one-man exhibitions in various cities, including Taipei, New York, Kansas, Dallas, Frankfurt and London. Many of his works have been collected by a number of major museums and art galleries in Taiwan, United States and Germany.

Honoured with many awards, Mr. Liu is also the recipient of the Jurosh’s Award of Distinction in Mainstreams 1968 and the Award for Painting in Mainstreams 1969 of the United States.

Future Prospects

With the scheduled removal of New Asia College to the new campus site where the students can make use of the Art Gallery and its archive and the strengthening of the teaching staff, the curriculum will have every reason to be restructured for all-round training and in-depth study of particular areas. The arrival of the two Visiting Professors will undoubtedly enhance the development of the Department of Fine Arts into one of the finest of its kind in this part of the world. 本校學生在星加坡參加辯論比賽

新加坡電視台及星洲日報於十月二十七日至三十日，聯合舉辦新加坡、馬來亞及香港三地區之大專學生國語辯論比賽。本校特選派下列學生組成中文大學隊前往參加：

張金娣（新亞書院） 張湧秀（崇基學院）
劉毓苓（崇基學院） 衛美玲（聯合書院） 賴潔冰（崇基學院）

本校之辯論隊由聯合書院教務長劉祖儒先生及其夫人率領，於十月二十三日離港前往新加坡。

首三塲為循環賽，論題如下：
一、人們還不懂得怎樣去運用自由，因此不應享有為所欲為的權利。
二、從婦女解放運動的成敗看來，不但不會鞏固社會組織，事實上還削弱了家庭結構。
三、在一個現代工業社會的發展過程中，傳統文化價值的逐漸消失是難免的。

循環賽之結果，星加坡大專聯隊及本校辯論隊獲決賽權。決賽之論題為：「小國家所應該追隨的確一實際的外交政策，就是不與大國結盟。」本校辯論隊為正方，引用實例及理論激烈應戰，結果獲得冠軍。

該四次辯論之實況，於十一月一日至四日在新加坡電視台及電視台廣播。

香港自一九五零年以來之變遷—研討會

藝術學系本學年特別注重學生之課外活動，先後組織學生郊外寫生，參觀畫展，學生作品展覽，及與各文化協會及領事館合作舉行藝術電影週，放映有關西洋藝術電影二十八部。舉辦上述課外活動之目的為培養學生對藝術之欣賞及美學之認識。

曾堉先生於一九五五年在倫敦之阿色•佳法雷斯畫廊舉行第一次個人畫展，一九五九年在巴黎培納雪畫廊再舉行個人畫展。又曾於一九六五年在羅馬參加聯合畫展。曾先生於一九六〇年在巴黎國立高等美術學院修業完畢後，隨即前往羅馬，任職於一通訊社。在羅馬時，曾遊遍佛羅倫斯、威尼斯及其他文化中心，飽覽意大利文藝復興及西洋古代藝術之眞蹟。
海洋科學研究中心

本校之海洋科學研究中心已於一九七一年六月落成。其作用與本校之大學科學館相同，為亞洲高等教育先進之研究中心之一，旨在推動海洋科學多方面之基本研究。該中心之全部建築設計，除教學外，主要為研究之用，本港及海外海洋研究人員均可利用該所之設施進行研究。

位置及代表性動植物
海洋科學研究中心位於吐露港之西岸，鄰近崇基學院。因海面溫度隨季節而改變（攝氏十二度半至攝氏三十一度），故動植物在每年不同時期內均有顯著之差異。吐露港及其鄰近海域有印度太平洋之動植物與北面較冷之中國海動植物生長，海水之鹽度亦隨雨季而變。除所附近之海域，鹽度變化不大，因此廣鹽性及狹鹽性之動植物易於生長，而對研究工作亦較方便。珊瑚堆及其有關動植物均在研究中心附近生長。平坦之海底群落、石質海岸、砂質海灘及紅樹地區與研究中心極為接近，因此從事海洋科學研究極為便利。

目前之研究範圍
海洋科學研究中心目前所進行之研究包括兩棲魚類、海洋染生物學、定量棲生物學、共生動物關係及其他數種動物之分類學研究等。

設備
海洋科學研究中心之全部建築包括：研究實驗室及看守人員宿舍、三百平方呎之活物海水室、小型船隻貯物室。此外尚有直徑十呎之室外養殖圓池兩個，與活物海水室相接連。整所研究中心設有流動海水供應系統。該中心並建有小型碼頭，以供船隻停泊，現已購有柴油研究船，長約四十四呎，設有起重機及測深機。該中心並購置可載七人之吉普車，以供海岸研究之用，其他之設備包括多種海洋科學儀器，至於較專門及複雜之儀器，可利用離開該研究中心僅四分一哩之大學科學館之設備。

職員
哥頓教授
哥頓教授，一九五四年畢業於康乃爾大學，動物學一科獲高級榮譽。一九五八年獲耶魯大學動物學哲學博士學位。同年，哥頓教授受聘於洛杉機加州大學動物學系，一九六八年獲委任為教授。一九六八至六九年在假期間，擔任華盛頓美國內政部國家漁業及水族中心助理研究主任。一九七〇年獲加州大學委任為進化及環境生物學研究所主任。一九七一年九月，哥頓教授到本校擔任動物學客座教授一職，為期一年。哥頓教授曾獲得下列之研究獎金：美國國家科學基金會研究獎金、傅伯萊研究獎金及顧正謙研究獎金。哥頓教授之主要研究工作為魚類及兩棲動物之生理比較及海洋生物之實驗工作，曾組織並參加研究組前往世界各大洲從事實地研究工作，並著有科學研究論文四十餘篇及大學敎科書一冊。
新設立獎學金

一九七一年秋季續獲本港工商業機構及熱心人士捐贈獎學金，計嘉年企業有限公司捐贈獎學金一名，為期兩年，港幣五千元；海外信託銀行捐贈獎學金一名，為期一年，港幣五千元；一位隱名人士捐贈獎學金一名，為期兩年，每年港幣五千元。

參加工商界之活動

嶺南商科研究所全體師生於一九七一年九月十五及十六兩日參加本港科學管理協會所主辦之「管理資訊系統」會議，該會議在大會堂舉行，由海外及本港之十八位專家分別就電子計算機在企業管理之應用發表專題演講及討論。會議期間，並舉辦世界各廠最新電子資料處理機器及設備展覽。

一九七一年十月，該所二年級學生參加香港科學管理協會所主辦之「企業管理決策仿眞競賽」，計共四隊，每隊四人。該所畢業校友亦組織兩隊參加。此項競賽系利用電子計算機根據仿眞模型進行，競賽紀錄由亞洲資料有限公司之ICL電子計算機擔任。

該所並與香港科學管理協會合作，訓練工商實例撰寫人員二十名，分別來自本港各大工商機構、政府訓練單位、香港生産力中心、香港科學管理協會、香港工業學院、香港大學及中文大學。參加者均須選取一家廠商進行實地研究，研究成果即為將來撰寫實例之根據。此項工作，對推行本港管理教育將有重大貢獻，實例研究成果將予以出版。

國際會議

一九七一年十月，司徒新博士赴印度新德里參加第四屆國際科學管理協會亞洲區會議。出席該會議之香港代表團計共十八人，由香港工業總會主席安子介議員及司徒新博士各提出論文一篇供大會討論。司徒新博士之論文題目為「變動中的香港」。

艾詩伯博士及崇基學院工商管理系主任何亦然博士則於十月赴吉隆坡，參加馬來亞大學主辦之亞洲地區工商管理學院及研究所第三屆年會。何博士曾就本校各學院工商管理及嶺南商科研究所間之課程及配合關係提出論文一篇。艾詩伯博士所提出之論文則為本校對於教師從事工商界諮詢工作所採取之政策及措施。

客座敎授

艾文思敎授受新加坡尤利卡大學邀請，擔任新加坡尤利卡大學企業管理學系教授，期滿後將出任該校企業管理學系主任之職。艾文思敎授受僱於新加坡尤利卡大學，有十餘年從事企業管理學系之經驗，對企業管理學有深入研究。新加坡尤利卡大學委任艾文思敎授為企業管理學系主任，以示對企業管理學之重視。

新加坡李氏基金捐款

嶺南商科研究所學生人數增加，參加工商界之活動日多，除此之外，教師在本學年並須指導十七位二年級學生寫作有關本港工商業問題之論文，因此教師之工作非常繁重。為解決此問題，該所並與香港科學管理協會合作，聘請艾文思敎授為客座敎授，期滿後將出任該校企業管理學系主任之職。新加坡李氏基金捐贈港幣二十萬元作爲該所今後四年聘請講師之費用。該項捐贈對於推行該所之計劃裨益甚大。
NEW DEVELOPMENTS OF LIBA

Student Enrolment

Out of more than one hundred applicants for admission to the Lingnan Institute of Business Administration, twenty-four were enrolled as first-year students. Of these, twelve are graduates of this University, six from the University of Hong Kong, and the others from universities in Taiwan, Singapore and the United States. About half of these new students have had at least one year of business or working experience. There are also seventeen second-year students, making a total of forty-one students in LIBA's two-year M.B.A. programme. This compares with a total enrolment of thirty-three in 1970-71 and only seventeen in 1969-70.

Of the total of forty-one students registered for the academic year 1971-72, 16 have their first degrees in business administration or economics, twenty-five in natural science, engineering, social science and arts. With students from various universities and from different backgrounds or disciplines, opportunity is presented for interchange of ideas.
