The Chinese University of Hong Kong Calendar 1980-81 contains information known as of June 30, 1980.
The emblem of the University is the mythical Chinese bird feng (鳳), which is chosen because of its symbolism as Bird of the South since the Han Dynasty. It is also a symbol of nobility, beauty, loyalty and majesty.

The University colours are purple and gold, representing devotion and loyalty (purple), perseverance and resolution (gold).

The motto of the University is ‘博文約禮’ (po-wen yueh-li): ‘博文’ is to broaden one’s intellectual horizon; ‘約禮’ is to keep within the bounds of propriety.

These words of Confucius have long been considered a principal precept of his teaching. It is recorded in the Analects of Confucius that the Master says, ‘By extensively studying all learning, and keeping himself under the restraint of the rules of propriety, one may thus likewise not err from what is right.’ (Legge’s version of the Four Books)

In choosing ‘博文約禮’ as its motto, the University is laying equal emphasis on the intellectual and moral aspects of education.

PART I

ESTABLISHMENT
THE CHINESE UNIVERSITY OF HONG KONG ORDINANCE 1976

An Ordinance to repeal and replace The Chinese University of Hong Kong Ordinance, to repeal the Chung Chi College Incorporation Ordinance, the Board of Trustees of The United College of Hong Kong Incorporation Ordinance and the New Asia College Incorporation Ordinance and to make new provision concerning the Chung Chi College, The United College of Hong Kong and the New Asia College, and for purposes connected therewith.

WHEREAS —

(a) The Chinese University of Hong Kong was established and incorporated in 1963 by The Chinese University of Hong Kong Ordinance as a University with a federal constitution;

(b) The constituent Colleges of the University are Chung Chi College, New Asia College and The United College of Hong Kong;

(c) it is considered desirable that some of the powers and functions conferred on the said Colleges under their respective constitutions and Ordinances should be vested in The Chinese University of Hong Kong and that the principal role of the said Colleges be the provision of student-orientated teaching under the direction of The Chinese University of Hong Kong;

(d) it is also considered desirable to make certain alterations in the constitution of The Chinese University of Hong Kong;

(e) it is declared that The Chinese University of Hong Kong, in which the principal language of instruction shall be Chinese, shall continue to —

(i) assist in the preservation, dissemination, communication and increase in knowledge;

(ii) provide regular courses of instruction in the humanities, the sciences and other branches of learning of a standard required and expected of a University of the highest standing;

(iii) stimulate the intellectual and cultural development of Hong Kong and thereby to assist in promoting its economic and social welfare;

[24th December, 1976]

Now, THEREFORE, BE IT ENACTED by the Governor of
Hong Kong, with the advice and consent of the Legislative Council thereof, as follows —

Short title.

1. This Ordinance may be cited as The Chinese University of Hong Kong Ordinance 1976.

Definitions.

2. (1) In this Ordinance, unless the context otherwise requires —

“repealed Ordinance” means The Chinese University of Hong Kong Ordinance repealed by section 21;

(Cap. 1109.)

First Schedule. “Statutes” means the Statutes of the University contained in the First Schedule as the same may from time to time be amended or replaced under section 13(1);
“teacher” means a member of the full-time teaching staff of the University of the rank of Assistant Lecturer and above;
“University” means The Chinese University of Hong Kong (中文大學) continued under section 4.

(2) A special resolution is a resolution passed at one meeting of the Council and confirmed at a subsequent meeting held not less than one month nor more than 6 months thereafter and which is approved at each such meeting by —
(a) not less than three-fourths of those present and voting; and
(b) not less than half the whole membership of the Council.
3. (1) The constituent Colleges of the University are Chung Chi College, New Asia College and The United College of Hong Kong and such other institutions as may from time to time by Ordinance, in accordance with a special resolution of the Council, be declared to be Colleges of the University.

(2) No provision in the constitution of any College shall be of effect if it is in conflict with or inconsistent with this Ordinance.

(3) No person shall be excluded from being a member of the University by reason of sex, race or religion.

4. (1) The Colleges and members of the University shall continue to be a body corporate called The Chinese University of Hong Kong (香港中文大學) which shall be the same University as that established by The Chinese University of Hong Kong Ordinance 1963.

(2) The University shall have perpetual succession and may sue and be sued in that name and shall have and may use a common seal and may take by gift or otherwise purchase and hold, grant, demise or otherwise dispose of real or personal estate.

(3) No dividend or bonus shall be paid and no gift or division of money shall be made by or on behalf of the University to any of its members except by way of prize, reward or special grant.

5. (1) The officers of the University shall be the Chancellor, the Pro-Chancellor, the Vice-Chancellor, the Pro-Vice-Chancellors, the Treasurer, the Head of each College, the Dean of each Faculty and of the Graduate School, the Secretary, the Registrar, the Librarian, the Bursar and such other persons as may by special resolution be designated as officers.

(2) The Chancellor shall be the head of the University and may confer degrees in the name of the University.

(3) The Governor shall be the Chancellor.

(4) The Chancellor may appoint a person to be the Pro-Chancellor of the University; and the Pro-Chancellor shall exercise such powers and perform such duties as may be prescribed in the Statutes.

(5) The Vice-Chancellor shall be the chief academic and administrative officer of the University and shall be a member of the Council and the Chairman of the Senate, and may confer degrees in the name of the University.

(6) The Council shall appoint, after consultation with the Vice-Chancellor, one or more Pro-Vice-Chancellors from among the regular staff of the University to exercise such powers and perform such duties as the Council may direct.

(7) A Pro-Vice-Chancellor shall carry out all the functions and duties of the Vice-Chancellor in the absence of the Vice-
Chancellor, except that he may not confer degrees.

(8) The manner and period of appointment of the Treasurer shall be prescribed by the Statutes, and his duties shall be such as the Council may determine.

6. There shall be a Council, a Senate and a Convocation whose respective constitutions, powers and duties shall be as prescribed by this Ordinance and the Statutes.

7. Subject to this Ordinance and the Statutes, the Council shall —

(a) be the governing and executive body of the University;
(b) have the management and control of the affairs, purposes and functions of the University;
(c) have the control and management of the property and financial affairs of the University including the property of the Colleges, but in the exercise of such power of control and management in respect of any immovable property of any College the Council shall not alter the use of any such property without the prior consent of the Board of Trustees of the College concerned;
(d) make such University appointments as it thinks proper;
(e) have power to approve the fees charged by the University in respect of approved courses of study;
(f) provide for the custody and use of the University’s seal.

8. Subject to this Ordinance and the Statutes and subject also to review by the Council, the Senate shall have the control and regulation of —

(a) instruction, education and research;
(b) the conducting of examinations for students;
(c) the award of degrees other than degrees honoris causa;
(d) the award of diplomas, certificates and other academic distinctions of the University.

9. Subject to this Ordinance and the Statutes, the Convocation shall consist of the graduates and such other persons as may be prescribed by the Statutes and may make representations to the Council and the Senate upon any matters affecting or concerning the interests of the University.

10. (1) The Council and the Senate may establish such committees as they think fit.

(2) Unless otherwise provided, any committee may consist partly of persons who are not members of the Council or the Senate, as the case may be.

(3) Subject to this Ordinance and the Statutes, the Council
and the Senate may, subject to such conditions as they may impose, delegate any of their powers and duties to any Board or committee or to any officer.

(4) Any committee established under this section may make such Standing Orders, including provision allowing a casting vote to the chairman thereof, for the conduct of meetings as it thinks fit.

11. Subject to this Ordinance and the Statutes, the Council shall appoint, on such terms and conditions as it thinks fit, the staff of the University.

12. (1) The Council may establish such Faculties, Schools of Studies and other institutions as it thinks fit.

(2) The Council, on the recommendation of the Senate, may form such institutions for the promotion of study and learning as the Council may from time to time determine.

(3) The Senate may establish such Boards of Studies as it may from time to time determine.

13. (1) The Council may by special resolution make Statutes, subject to the approval thereof by the Chancellor, prescribing or providing for —

(a) the administration of the University;
(b) the membership of the University;
(c) appointments, elections, resignation and retirement and removal of officers and teachers of the University;
(d) examinations;
(e) the conferring of degrees and the award of other academic distinctions;
(f) the composition, powers and duties of the Council and the Senate;
(g) the Faculties and Schools of Studies, their membership and functions;
(h) the Boards of Studies, their membership and functions;
(i) the Convocation;
(j) the exercise of any function by the University, the Council, the Senate, the Chancellor, the Pro-Chancellor, the Vice-Chancellor, the Pro-Vice-Chancellors, other officers, teachers and other members;
(k) financial procedure;
(l) fees payable to the University as a condition of admission to any examinations held by the University or for the conferring of any of the degrees of the University or for the award of any diploma or certificate or other academic distinction or for attendance at a University Extension Course or any similar purpose;
(m) the admission, welfare and discipline of students; and
(n) generally, the carrying into effect of this Ordinance.

First Schedule.

(2) The Statutes contained in the First Schedule shall have effect as if made and approved under subsection (1).

Decrees and regulations.

14. Subject to this Ordinance and the Statutes, the Council and the Senate may from time to time make decrees and regulations respectively to direct and regulate the affairs of the University.

Degrees and other awards.

15. The University may—
(a) confer such degrees as may be specified in the Statutes;
(b) award diplomas and certificates and such other academic distinctions as may be specified in the Statutes;
(c) provide such lectures and instruction for persons not being members of the University as the University may determine;
(d) confer degrees honoris causa of Master or Doctor in accordance with the Statutes; and
(e) subject to the Statutes, deprive any person of any degree conferred or diploma, certificate or other academic distinction awarded by the University.

Honorary Degrees Committee.

16. There shall be an Honorary Degrees Committee which shall be constituted as provided by the Statutes for the purpose of advising the Council with regard to the award of degrees honoris causa.

Execution and authentication of documents.

17. Any instrument purporting to be executed under the seal of the University and signed by the Chancellor, Pro-Chancellor, Vice-Chancellor, a Pro-Vice-Chancellor or Treasurer and counter-signed by the Secretary shall be received in evidence upon its production without further proof and shall, unless the contrary is proved, be deemed to be an instrument so executed.

Crown rent.

18. Rent payable to the Crown in respect of all land granted to the University by the Crown shall be limited in total to $10 a year.

Transfer of property etc. from Colleges to University.

19. (1) The Second Schedule shall apply to the transfer of property and staff of the Colleges to the University.
(2) No stamp duty shall be payable in respect of any transfer or vesting of property, whether movable or immovable, or any surrender of an agreement or any assignment of rights affected by the Second or Third Schedule; and no stamp duty shall be payable on any agreement executed in accordance with paragraph 2 of Part I of the Second Schedule.
20. (1) The Chung Chi College Incorporation Ordinance, the Board of Trustees of The United College of Hong Kong Incorporation Ordinance and the New Asia College Incorporation Ordinance are repealed.

(2) The Third Schedule shall have effect with respect to the constitution and powers of the Boards of Trustees of Chung Chi College, The United College of Hong Kong and the New Asia College.

21. The Chinese University of Hong Kong Ordinance and the Statutes of The Chinese University of Hong Kong are repealed.

22. (1) The Council and Senate appointed under the repealed Ordinance shall continue to be the Council and the Senate of the University until a new Council and Senate are constituted under the Statutes.

(2) No other appointment made under the repealed Ordinance shall be affected by the repeal but shall, unless otherwise varied, continue on the same terms and conditions as if this Ordinance had not been enacted.

(3) All property, whether movable or immovable, rights and privileges vested in the University immediately prior to the commencement of this Ordinance shall continue to be vested in the University on the terms and conditions, if any, on which the same were then vested at that date, and the University shall continue to be subject to the obligations and liabilities to which it was subject immediately prior to the commencement of this Ordinance.

FIRST SCHEDULE [ss. 2 & 13(2).]

of the Council, as the Council shall appoint.
There shall be referred to the Finance Committee all matters
within the jurisdiction of the Council which have important
financial implications.
3. The Finance Committee shall submit to the Council, before
the beginning of the financial year, draft estimates of income
and expenditure of the University and such estimates,
amended as the Council may think fit, shall be approved by
the Council before the beginning of the financial year.
4. The estimates shall show the income and expenditure of the
University and the estimated surplus or deficit for the year.
The estimated expenditure shall be shown under votes, heads
and (where applicable) sub-heads. Any transfer between
votes or heads shall require the sanction of the Finance
Committee. Any transfer between sub-heads shall require the
sanction of the Vice-Chancellor and the Treasurer, with the
exception of transfers between sub-heads solely concerning
a College, which shall require the sanction of the Head of
that College, subject to any rules and directions that the
Finance Committee may issue.
5. The Finance Committee shall report to the Council, at such
times as the Council may determine, any transfer between
votes or heads. The Council may revise the estimates during
the course of the financial year.
6. As soon as practicable after the end of the financial year, a
balance sheet and income and expenditure account with
supporting schedules shall be submitted to the auditors.
7. The audited accounts, with any comments thereon made by
the auditors, shall be submitted to the Council.
8. Nothing in this Statute shall deprive the Council of power to
invest surpluses or prospective surpluses at any time.

2. “Good cause” in paragraph 1 means –

(a) conviction of any crime which shall be judged by the Council to be of an immoral, scandalous or disgraceful nature;

(b) actual physical or mental incapacity which shall be
judged by the Council to prevent the proper execution of the duties of the officer or membership; or
(c) any conduct which shall be judged by the Council to be of an immoral, scandalous or disgraceful nature.

3. The Council may for good cause as defined in paragraph 5 remove from their appointments the Vice-Chancellor, the Pro-Vice-Chancellors, the Head of each of the Colleges, any of the Professors or Readers or Senior Lecturers, the Secretary, the Registrar, the Librarian, the Bursar and any other person holding an academic or administrative appointment made by the Council.

4. The Council may and shall if requested by the person concerned or by any 3 members of the Council before such removal appoint a committee consisting of the Chairman of the Council, 2 other members of the Council and 3 members of the Senate to examine the complaint and to report to the Council thereof.

5. "Good cause" in paragraph 3 means —
(a) conviction of any crime which the Council after consideration if necessary of a report of the committee referred to in paragraph 4 shall consider to be of an immoral, scandalous or disgraceful nature;
(b) actual physical or mental incapacity which the Council after consideration if necessary of a report of the committee referred to in paragraph 4 shall consider to be such as to render the person concerned unfit for the execution of the duties of his office or appointment;
(c) conduct of an immoral, scandalous or disgraceful nature which the Council after consideration if necessary of a report of the committee referred to in paragraph 4 shall consider to be such as to render the person concerned unfit to continue to hold his office or appointment;
(d) conduct which the Council after consideration if necessary of a report of the committee referred to in paragraph 4 shall consider to be such as to constitute failure or inability to perform the duties of his office or appointment or to comply with the conditions of the tenure of his office or appointment.

6. Subject to the terms of his appointment no person referred to in paragraph 3 shall be removed from his appointment save for good cause as defined in paragraph 5 and in pursuance of the procedure specified in paragraph 4.

THIRD SCHEDULE  [ss. 19(2) & 20(2).]

CONSTITUTION OF THE COLLEGES

Interpretation
1. In this Schedule, unless the context otherwise requires —
   "Boards of Trustees" means the Boards of Trustees of the
   Colleges incorporated under paragraph 2;
   "Chairman" means the Chairman of each Board of Trustees;
   "Council" means the Council of The Chinese University of Hong
   Kong.

Incorporation of Board of Trustees.
2. (1) There shall be a Board of Trustees of Chung Chi
   College which shall be a body corporate and shall have the name
   of "The Trustees of Chung Chi College" and in that name shall
   have perpetual succession, and may sue and be sued, and shall
   have and use a common seal.

   (2) There shall be a Board of Trustees of The United College
   of Hong Kong which shall be a body corporate and shall have the
   name of "The Trustees of The United College of Hong Kong" and
   in that name shall have perpetual succession, and may sue and be
   sued, and shall have and use a common seal.

   (3) There shall be a Board of Trustees of New Asia College
   which shall be a body corporate and shall have the name of "The
   Trustees of New Asia College" and in that name shall have
   perpetual succession, and may sue and be sued, and shall have
   and use a common seal.

Powers and duties of Boards of Trustees.
3. (1) Each Board of Trustees shall hold in trust, and ad-
   minister for the benefit of its College the movable property which
   is vested in the Board under paragraph 7; and shall hold in trust
   for the benefit of the University the buildings the subject of the
   agreements to be made under paragraph 2 of the Second
   Schedule.
(2) Subject to sub-paragraph (3), each Board of Trustees may, for the purpose of the trusts under sub-paragraph (1), exercise the powers conferred on trustees by the Trustee Ordinance.

(3) A Board of Trustees shall not, without the prior approval of the Council, which may be subject to such conditions as the Council thinks fit, accept any gift for the benefit of the College.

(4) Each Board shall make written provision for its procedure in the transaction of business, the discharge of its aims and duties and the maintenance of good order at its meetings.

(5) The Board of Trustees of Chung Chi College shall —

(a) recommend to the Council, through the Administrative and Planning Committee, all appointments to the Theology Division, or whatever part of the University shall succeed the Division as being responsible for theological education, including the appointment of the Head of the Theology Division (or equivalent post) and of the warden of the Theology Hostel;

(b) allocate for the promotion of theological education, including the upkeep of the Theology Building, the resources made available from private funds;

(c) provide for and appoint the Chaplain of the Chapel; and

(d) advise the Senate on all major policy matters relating to theological education,

and the Board of Trustees may delegate to a Theological Council appointed by it the power to discharge the functions and duties imposed on the Board by this sub-paragraph.

4. (1) The persons who, immediately before the commencement of this Ordinance, were members of the Board of Governors of Chung Chi College shall, on the commencement of this Ordinance, become the members of the Board of Trustees of that College incorporated under paragraph 2(1).

(2) The persons who, immediately before the commencement of this Ordinance, were members of the Board of Trustees of The United College of Hong Kong shall, on the commencement of this Ordinance, become members of the Board of Trustees of that College incorporated under paragraph 2(2).

(3) The persons who, immediately before the commencement of this Ordinance, were members of the Board of Governors of New Asia College shall, on the commencement of this Ordinance, become members of the Board of Trustees of that College incorporated under paragraph 2(3).

(4) Any person who is at the commencement of this Ordinance, or who becomes, a member of a Board of Trustees may retire as a member of that Board of Trustees, but no person shall
retire so as to reduce the number of members of the Board of Trustees below 4.

(5) Vacancies in the number of members of a Board of Trustees shall from time to time be filled by such legal means as would have been available for the appointment of new trustees if the Board of Trustees had not been incorporated, and, without prejudice to the generality to the foregoing, section 42 of the Trustee Ordinance shall apply in relation to the appointment of new Trustees.

5. (1) Each Board of Trustees shall forward to the Registrar of Companies —
   (a) notice of the address of the principal office of the Board of Trustees and any change thereof;
   (b) a list of the names and addresses of the members of the Board of Trustees, and any change therein, certified as correct by the Chairman; and
   (c) a copy of the written provision made under paragraph 3(4), and any change therein, certified as correct by the Chairman.

   (2) Notification in accordance with sub-paragraph (1)(a) and (b) shall be made —
      (a) within 3 months of the commencement of this Ordinance; and
      (b) thereafter within 28 days of any change.

   (3) Notification under sub-paragraph (1)(c) shall be made within 28 days after the making of any written provision under paragraph 3(4) or the making of any change therein.

   (4) Any person may inspect at the office of the Registrar of Companies any of the documents registered under this paragraph.

   (5) A fee of $5 shall be payable for registering or inspecting any document referred to in this paragraph.

Accounts.

6. Each Board of Trustees shall in each year, prepare and produce to the Council its audited accounts in such form and at such times as the Council may determine.

Transitional provisions.

7. On the commencement of this Ordinance —
   (a) all movable property held on trust by or for each College and all immovable property held by or on behalf of the Colleges outside the precincts of the University shall vest in the Board of Trustees of the College concerned without further assurance and on the same trusts and subject to the same terms and conditions, if any, on which the same was then held;
   (b) the Board of Trustees of each College shall succeed to all rights, privileges, obligations and liabilities of the
Colleges relating to the property vested in the Boards of Trustees under sub-paragraph (a).

8. Nothing in this Schedule shall affect or be deemed to Saving, affect the rights of Her Majesty the Queen, Her Heirs or Successors or the rights of any body politic or corporate or of any other persons except such as are mentioned in this Schedule and those claiming by, from or under them.

GENERAL INFORMATION
THE UNIVERSITY

The Chinese University of Hong Kong was incorporated in October 1963 under a Hong Kong Ordinance 'to establish a university with a federal constitution in which the principal language of instruction shall be Chinese'. It is a self-governing corporation drawing its income mainly from grants made by the Hong Kong Government, supplemented by fees and donations from private sources. Although the principal language of instruction is Chinese, the University is international in outlook and enjoys close association with many universities, foundations and organizations abroad.

Origin

The University has its origin in three Post-Secondary Colleges: New Asia College (founded 1949), Chung Chi College (founded 1951), and United College (founded 1956), which drew, in their early days, a sizeable proportion of their teachers and some of their students from the mainland of China.

In 1957, these three Colleges came together to form the Chinese Colleges Joint Council with the object of securing Government recognition for their efforts in providing higher education for the students of Hong Kong. In 1959, Mr. John S. Fulton (now Lord Fulton of Falmer) was invited to advise on general lines of development for the three Colleges as a whole. In 1960, the Government introduced the Post-Secondary Colleges Ordinance and Regulations which approved financial support to the three Colleges with a view to raising their standards to a higher level.

In 1961, a University Preparatory Committee, chaired by the late Dr. the Hon. Sir Cho-Yiu Kwan, was appointed to advise on sites and buildings and matters relating to the establishment of the University. A group of advisers from Britain and the United States visited Hong Kong in the same year to advise the Colleges on development to university level of courses in arts, science, commerce and social science. The report of these advisers was encouraging, and so in 1962, the Government appointed a commission under the chairmanship of Mr. John S. Fulton to consider and determine whether and how a Chinese University should be created.

The Report of the Fulton Commission, known as the Fulton Report and published in April 1963, recommended the establishment of the new University. This Report was approved in principle by the Government shortly after its publication. A Provisional Council was set up in June 1963, and The Chinese University Ordinance and Statutes were enacted in September 1963. On October 17, 1963 the University was formally inaugurated.
The New Ordinance

In November 1975, the Governor, in his capacity as Chancellor of the University, appointed an external commission to review the constitutional arrangements governing the University and its constituent Colleges. Lord Fulton of Falmer was again invited to serve as Chairman of the Commission.

The second Fulton Report was submitted to the Chancellor in March 1976 and published in May. The Report recommended important changes to the constitutional arrangements governing the University and the Colleges. Under the new arrangements proposed by the Commission, the University would be responsible for academic and development policy, financial management, the matriculation of students, the appointment of staff, the determination of curriculum, the conduct of examinations and the award of degrees. The participation of senior academics in the governing bodies of the University would be strengthened. In addition, the Report also recommended that the teaching work of the University should reflect a balance between “subject-orientated” teaching and small group “student-orientated” teaching, and that the latter should be implanted in the Colleges. This “student-orientated” teaching would be designed to build in the students habits and aptitudes of mind characteristic of the expert in their chosen fields and relevant to the solution of the kind of problems they are likely to encounter later in life; it would also be designed to equip students for meeting change in a rapidly changing world.

A new Ordinance to give effect to the recommendations in the Fulton Report was enacted in December 1976. The Ordinance (No. 86 of the Laws of Hong Kong 1976) and the Statutes of the University are printed on pp. 5-43 of this Calendar.

Finance

Apart from fees which are comparatively low, the main source of income for recurrent expenses and capital equipment is the Hong Kong Government. In addition, the University and its constituent Colleges have small endowment funds at their disposal and also receive contributions from private donors and interested associations for scholarships, research and other designated purposes.

Negotiations between the University and the Government are conducted by the University and Polytechnic Grants Committee, established in 1965. This Committee advises the Government on the financial requirements of the University.

The capital cost of buildings in the new campus will amount to some HK$200 million by 1980 and the cost of the site formation and external works has been about HK$42 million. The Hong Kong Government has assumed responsibility for several basic buildings in addition to site formation and external works.
Lands and Buildings

The University has under lease from the Hong Kong Government a tract of land measuring some 113.8 hectares located north of the Shatin New Town in the New Territories. The site overlooks the beautiful Tolo Harbour to the north and Tide Cove to the east. Majestic mountains rising to 900 metres and above are in view from any direction.

The campus itself varies in elevation from 4.4 to 140 metres above sea level and has been shaped into plateaus to provide the necessary building sites. The central campus of the University is located on the mid-level plateau near the centre of the campus around which the three constituent Colleges have been placed. Chung Chi College occupies a 23-hectare tract on the lower plateau in the southern sector of the campus. New Asia and United Colleges share the 15-hectare upper plateau in the northern sector. Chung Chi College has since 1956 operated on its present site. Site formation of the new University campus started in November 1967 and was completed in January 1970. The first building erected on the new site was the Benjamin Franklin Centre. This was a gift from the people of America and was completed in December 1968.

During the past decade, over 50 new buildings have been erected on the University site. United College and New Asia College moved out from their old premises in town to their new buildings on the Shatin campus in 1972 and 1973 respectively. Each of the two Colleges has, as an initial complement of the basic facilities, two teaching blocks, a library, a staff/student amenities building and a coalescing hostel building for male and female students. By 1971, Chung Chi College already had 26 blocks of buildings. A library and a student amenities building were added in the following year. A student hostel for each of the three Colleges was completed in 1978, another completed in 1979 at Chung Chi, and two are being planned for the other Colleges.

The central campus has easy access from Tai Po Road. The Central Library Building and the Administration Building are sited at the western and southern edges of the University Square. A long Mall, measuring 80 metres long and 35 metres wide, links the Square with the Science Centre to form the dominating feature of the University complex. The Pi-Ch’iu Building and the Sui-Loong Pao Building line the northern side of the Mall and are counterpoised at the southern side by the Institute of Chinese Studies Building which has an attractively landscaped court-yard with a reflecting pool. Inside the Building is a two-storey Art Gallery with an exhibition area of 500 square metres. Behind the Institute of Chinese Studies Building is an Art Gallery Conservatory Annex housing the works section of the Gallery. Beyond the Pi-Ch’iu and Sui-Loong Pao Buildings to the north are the Y.C. Liang Hall completed in 1979 and the Sir Run Run Shaw Hall — a multi-purpose auditorium with a seating capacity of 1,500 to be completed in 1981.
The establishment of the Faculty of Medicine in the University has been approved by the Hong Kong Government. The Choh-Ming Li Building for Basic Medical Sciences constructed to the east of the Science Centre is due to be completed towards the end of 1980 whereas the Shatin Hospital Complex for clinical teaching will be built in the Shatin New Town by the Government and put into operation in 1983.

To the east of the central activities area is the Postgraduate Hall Complex completed in 1975 and consisting of Sir Cho-Yiu Hall, Lady Ho Tung Hall and Postgraduate Hall. Close to the Postgraduate Hall Complex are the University Health Centre, the Yali Guest House, and an Estates and Maintenance Building recently added to the area. Further to the south are the newly completed Fong Shu Chuen Building and an additional block of minor staff quarters.

Fringing Tide Cove at the reclamation area are a Marine Science Laboratory and a sewage treatment plant. The former building has been extended recently to provide for additional stocking tanks and a new hatchery laboratory whereas the latter plant, the first of its kind in Hong Kong and constructed in 1970, takes care of and disposes the sewage of the University Guest Houses I and II and campus. Behind the upper plateau on the reverse slope to the north are blocks of staff quarters with new additions being made in the year.

Sports facilities on campus include two sports fields both built on the lower plateau along the railroad. Each of these provides a 400-metre circular track, a soccer pitch, tennis courts, basketball courts, volleyball courts and other competitive sports facilities. New Asia College and United College each has a sizable indoor gymnasium which houses a basketball pitch with tiered spectator seating. The Benjamin Franklin Centre has an outdoor Olympic-size swimming pool. Eight tennis courts have been constructed and put to use in 1978. Another indoor sports hall is being designed on central campus to the west of the Sports Stadium and adjacent to the existing 2,800-seat, partly covered spectator stand.

Some land and facilities of the University are likely to be affected by the imminent Government New Territories Trunk Road System which would infringe onto the University reclamation area. By a proposed borrow-fill scheme associated with the Trunk Road project, the University will have new building sites and campus roads formed by the Government.

Residential Accommodation

The University provides a variety of accommodation for staff members, academic visitors and students.

Staff Housing

Staff quarters are allocated by the University to appointees who are eligible for staff housing. There are 194 senior staff flats on campus in
multi-storey apartment buildings. Two further blocks that provide 38 flats will be added in about a year's time. In addition, there are a large number of quarters for single teachers and junior staff.

The Inter-University Hall provides fully-furnished and self-contained accommodation for academic visitors coming to The Chinese University for a period of one to two years.

*Guest Houses*

The Yali Guest House completed in 1974 provides room and board facilities for guests on short stay in the University. It has a relaxing congenial atmosphere and is a gift from the Yale-China Association. The new University Guest Houses I and II also began operation in June 1980.

*Student Hostels*

The University and its constituent Colleges operate a number of hostels for students who wish to live on campus.

The Postgraduate Hall Complex consisting of Sir Cho-Yiu Hall, Lady Ho Tung Hall, and the Postgraduate Hall provides 250 places for graduate students as well as 3rd and 4th year undergraduates. Chung Chi College has seven hostels: Ming Hua Tang, Wen Lin Tang, Ying Ling Tang, Hua Lien Tang, Theology Hostel, Madam S. H. Ho Hall and Wen Chih Tang. Together they accommodate over 800 students. At New Asia College, the Chih Hsing Hall and Xueyi Hall accommodate 470 students. At United College, the Adam Schall Residence and Bethlehem Hall house another 478 students. In the meantime, two hostels each capable of housing 300 student places are being designed on the New Asia and United College campuses.

With the exception of the Postgraduate Hall Complex which contains 120 single rooms, most student hostels only provide shared accommodation in the form of twin, three-, or four-bedded rooms. They are available to all undergraduates except where specified. Because competition for residential places is very keen, intending students are advised to apply early to their respective College authorities.

In addition to the above student residences, there are five temporary hostels which could house over 400 students in dormitory-styled rooms, but these are only temporary structures and are not intended to remain permanently.

Hostel fees range from HK$350 to $700 a term, depending on the type of accommodation. Special rooms for married students without children are available at HK$340 to $450 per month. Detailed information on hostel fees is printed on pp. 430-431 of this Calendar.

Liaison with the World of Learning
The University has since its inception in 1963 strived to become a Chinese institution of international character. It sees as its main mission the cross fertilization of Chinese and Western cultural traditions. To this end, the University has through the years cultivated and maintained world-wide connections with other universities, institutes and centres of learning, with governmental commissions and agencies, with individual scholars and specialists, and in particular, with regional and international associations of universities.

From its earliest years the University has enjoyed a particularly close relationship with certain universities. Under an exchange programme started in 1965, the University of California each year sends to the University a number of undergraduate and graduate students and two visiting professors. The University in turn sends to California both students and academic staff. At the College level, New Asia has close relations with the Yale-China Association, Chung Chi with the Wellesley-Yenching Committee and the Princeton-in-Asia Committee, and United with Williams College and Indiana University. For the exchange of undergraduates, Chung Chi has special arrangements with Redlands University and Washington and Lee University, and New Asia with Asia University (Tokyo) and Connecticut College.

Following the pilot experience of the University of California Exchange Programme, the University has hosted several Asian studies programmes in cooperation with the College Centre for Education Abroad. A constant stream of American students and college academics have made their way to the University to do work in Chinese and Asian studies. In view of the ever-increasing demand in this area, the University launched the International Asian Studies Programme in 1977 with the cooperation of the Yale-China Association. This programme is open to overseas students and research scholars with a special interest in
Chinese and Asian studies. Details of this Programme are printed on pp. 408-411 of this Calendar.

The facilities at the University for international conferences and seminars have continued to attract scholars from far and wide. The Luce Scholars Programme administered by The Asia Foundation, for example, has been conducted in the University for successive years. The University also co-hosted one of the Asian-United States Educators Conferences in 1974. Amongst the many regional conferences or gatherings of international stature held in the University in the past years were the ASAIHL Seminar on Post-graduate Education in South-East Asia (1978), and the Seminar on Recent Developments in Medical Education (1979). During the year 1979/80, the University also hosted the following international conferences: (1) Hong Kong Conference on East-West Comparative Literature; (2) International Symposium on Sino-Japanese Cultural Interchange; and (3) Seminar on China: Modernization and Diplomacy.

The international character of the University has been significantly enhanced by foreign government contributions to the language and literature instruction programme. Visiting lectureships have been provided by the governments of France, West Germany, Italy and Japan for instruction in their respective languages, and many graduates of the University have obtained fellowships for advanced studies in those countries. In addition, grants from various international foundations have helped foster important programme innovations and promote the professional development of academic and administrative staff.

Cooperation with other universities has always been encouraged and maintained through various associations of universities. Today, the University is a member of the Association of Commonwealth Universities (ACU), the Association of Southeast Asian Institutions of Higher Learning (ASAIHL), and the International Association of Universities (IAU). It is also closely associated with the Inter-University Council for Higher Education Overseas (IUC) in the United Kingdom.
THE CONSTITUENT COLLEGES

Chung Chi College

Chung Chi College was founded in October 1951 by representatives of Protestant churches in Hong Kong to fill the need for a local institution of higher learning that would be both Chinese and Christian. In 1955 it was formally incorporated under an Ordinance of the Hong Kong Government.

The College had a very modest beginning with only 63 students in the first year. It used borrowed and rented premises, first in the Cathedral Hall and St. Paul's Co-educational College, then in Caine Road and Lower Albert Road. Expansion was made possible by financial help from North America through the United Board for Christian Higher Education in Asia and the Trustees of Lingnan University and from Britain through the Asia Christian College Association. Local churches, firms and private individuals also gave considerable support. In 1956 the College was able to move to its permanent site in the New Territories, in the beautiful Ma Liu Shui Valley. Between 1959 and 1963 the College received the bulk of its funds from the Hong Kong Government. In 1963 the College was incorporated as one of the three Colleges of The Chinese University of Hong Kong.

Board of Trustees

With the reorganization of the University following the enactment of The Chinese University of Hong Kong Ordinance 1976, the Board of Trustees of Chung Chi College was reconstituted. Its duties are mainly concerned with the management of the movable property vested in the Board and of certain College buildings and, through fund-raising campaigns, the promotion of scholastic and cultural activities of the College. The membership of the Board is as follows:

Theological Training

From 1957 religious education and theological training have been part of the academic programme of Chung Chi College. Since the establishment of The Chinese University of Hong Kong in 1963, training in religious studies has received government funds for teachers’ salaries, while training of Christian ministers was, from 1963 to 1968, on an affiliated basis through the Chung Chi Theological Seminary. In 1968, the Seminary as such ceased to exist and its function was transferred to a new Division of Theology in the Department of Philosophy and Religion. The new Division, under a Theological Council, is financed independently by church gifts, but academically is a recognized part of the College and the University. Students enter by fulfilling the University’s entrance requirements, and University degrees are awarded to those who qualify. A small number of selected non-degree students are also trained, but with a separate curriculum.

Students and Extra-Curricular Activities

In academic year 1979-80 Chung Chi College had a student enrolment of 1,452, of whom 852 were men and 600 were women. Most of the students were born in Hong Kong, but a few of them are overseas Chinese from Macau, Indonesia and Taiwan. About one third of the students are Christians.

Student activities of all sorts are organized by the Chung Chi College Student Union and a host of student societies. Together they
are responsible for the many cultural, athletic and extra-curricular activities that serve to provide a social meeting ground for students from different hostels and different faculties.

New Asia College

New Asia College was founded in 1949 by its former President, Dr. Ch'ien Mu, and a small group of scholars from China. Their purpose was to preserve traditional Chinese culture and to balance it with Western learning so that students might at once have a thorough knowledge of their cultural heritage and be prepared to cope with the modern world.

The College began humbly in impoverished circumstances, but soon attracted support both locally and from overseas. Since 1954, it has had the cooperation and support of the Yale-China Association which had been active in educational development in China for many years. It has also received support from other educational institutions and foundations, notably the Harvard-Yenching Institute, The Asia Foundation, the Rockefeller Foundation, the British Council, the Mencius Foundation, and the Ford Foundation. As a grant College from 1959 to 1963, and now as a constituent College of the University, it has received generous financial support from the Hong Kong Government.

Board of Trustees

With the reorganization of the University following the enactment of The Chinese University of Hong Kong Ordinance 1976, the Board of Trustees of New Asia College was reconstituted. Its duties are mainly concerned with the management of the movable property vested in the Board and of certain College buildings and, through fund-raising campaigns, the promotion of scholastic and cultural activities of the College. The membership of the Board is as follows:

Students and Extra-Curricular Activities

In academic year 1979-80 New Asia College had a student enrolment of 1,406 of whom 901 were men and 505 were women. Over 79% of the student population received scholarships, bursaries or other forms of financial assistance.

Extra-curricular activities form an important part of student life in the College and are freely organized by the New Asia College Student Union and a host of student clubs and societies.

United College

The United College was founded in 1956 by the amalgamation of five Post-Secondary Colleges (namely, Canton Overseas College, Kwang Hua College, Wah Kiu College, Wen Hua College, and Ping Jing College of Accountancy) which decided to pool their resources so as to better provide higher education for local students. It was incorporated under an Ordinance of the Hong Kong Government in 1957 with a Board of Trustees as its governing body.

In 1962, the College Board of Trustees was broadened to include representation from the local community, and Dr. the Hon. Kenneth Ping-fan Fung was elected Chairman. In July 1962, Mr. T. C. Cheng, then Chief Assistant Secretary for Chinese Affairs, accepted the Board of Trustees' offer of appointment as President, and assumed office in January 1963. The United College became a constituent College of The Chinese University of Hong Kong in October 1963. Since then, the College has made rapid progress which is reflected by the rapid increase in enrolment, the improved quality of staff and students, as well as by a general enlivening in all aspects of college life.

In March 1971, foundation stones were laid for the five new buildings for the College in Shatin. Late in December in that same year, the College moved from the premises in Bonham Road to the new campus.
Dr. the Hon. Sir Kenneth Ping-fan Fung resigned from the Chairmanship of the College Board of Trustees in May 1972 in order to take up his appointment as a member of the University and Polytechnic Grants Committee. He was succeeded by Dr. the Hon. P. C. Woo.

Students and Extra-Curricular Activities  
In the academic year 1979/80, a total of 1,582 students were assigned to United College, of whom 1,060 were men and 522 were women. 1,189 students received interest-free loans and grants from the Government. Students received a total of 215 awards in the form of prizes, scholarships, fellowships and bursaries administered by the College and the University.  

Inaugurated in 1963, the United College Student Union is a statutory body representing all the students of the College. Various student organizations are registered under the Student Union. They include department, faculty and class societies, and various interest clubs. Each year, the Student Union organizes a wide range of activities, including academic, athletic and other social functions.
PART III

ADMISSION AND
PROGRAMMES
OF STUDIES
UNDERGRADUATE ADMISSION AND DEGREES

Eligibility for admission is conditional upon fulfilling the entrance requirements of the University or obtaining exemption therefrom under the provisions in Section IV of the Regulations Governing Admission to Undergraduate Studies. In addition to satisfying the entrance/exemption requirements mentioned above, applicants for admission to the first-year courses leading to a Bachelor's degree of the University shall be required to satisfy the relevant Faculty Admission Requirements (Section III of the Regulations Governing Admission to Undergraduate Studies). The Regulations Governing Admission to Undergraduate Studies are printed on pp. 475-478 of this Calendar.

The University's four Faculties of Arts, Business Administration, Science, and Social Science offer a wide range of courses leading to the BA, BBA, BSc, and BSSc Degrees. Programmes of Studies and General Regulations Governing Undergraduate Studies are respectively printed on pp. 121-407 and pp. 479-491 of this Calendar. Subjects offered by each Faculty in which major or minor degree programmes may be taken are as follows:

Faculty of Arts
Chinese Language and Literature (including Translation), English, Fine Arts, French, German, History, Italian, Japanese, Music, Philosophy, Religion and Theology.

Faculty of Business Administration

Faculty of Science
Biochemistry, Biology, Chemistry, Computer Science, Electronics, Mathematics, Physics, and Statistics.

Faculty of Social Science

Planning for the new Faculty of Medicine is now under way. The University will admit its first batch of medical students in 1981.

Students of the University follow a four-year programme. First-year students are admitted on a Faculty basis. They do not have to
make a firm choice of Major subject until they have completed their first year of study. Students must pass the Degree Examination in partial fulfilment of the requirements for admission to a Bachelor’s degree. The Examination consists of Parts I and II, to be taken at the end of the third and fourth years of study respectively. Graduates are eligible for honours degrees awarded on the basis of their Degree Examination results. Regulations for Degree Examination are printed on pp. 492-499 of this Calendar.

Medical students, when they are admitted in 1981, will follow a different curriculum from that outlined above.

CHI 322
Chinese Literary Criticism: II.
History
3rd & 4th year; 3 units
2 hrs. Lect. + 1 hr. Tut./wk.

This course traces chronologically the origin and development of the theories of Chinese literary criticism, giving attention both to schools of criticism and to individual critics.

CHI 331
Meng-tzu
3rd & 4th year; 3 units
2 hrs. Lect. + 1 hr. Tut./wk.

This course aims at helping the student gain an understanding of the thought and literary merits of Mencius and also the similarity and dissimilarity between Confucius and Mencius. The text for study is Mencius, which, comprising the sayings of Mencius, contributed greatly to the development of Confucian thought and is also an outstanding work in the genre of discursive writing in Chinese literature.

CHI 332
Hsiün-tzu
3rd & 4th year; 3 units
2 hrs. Lect. + 1 hr. Tut./wk.

This course aims at helping the student gain an understanding of Hsun-tzu’s thought and his literary style. The text for study, Hsiün-tzu, is noted for its powerful reasoning and practical wisdom, and also for its unique place in the development of Confucianism.

CHI 333
Han-fêi-tzu
3rd & 4th year; 3 units
2 hrs. Lect. + 1 hr. Tut./wk.
This course aims at helping the student to gain an understanding of Han-fei-tzu's philosophical thought, by investigating the meaning and structure of his writings. It also attempts to estimate his impact on thought and literature in subsequent ages. The text, *Han-fei-tzu*, is a grand compendium of Chinese legalist writings.

**CHI 334**
Lü-shih-ch'ung-Ch’iu

Elective, Both; Term
3rd & 4th year; 3 units
2 hrs. Lect. + 1 hr. Tut./wk.

*Lü-shih-ch’ung-ch’iu*, a compendium prepared in pre-Ch’iin times, is chosen for the course because through it we can gain an understanding of the various schools of thought which exerted an influence on the development of thought and literature in later ages.

*CHI 335*
Tso-chuan

Elective, Both; Term
3rd & 4th year; 3 units
2 hrs. Lect. + 1 hr. Tut./wk.

*The Tso Commentary*, a commentary on the *Spring and Autumn Annals* and a classic whose literary style and narration is a model for such writing, is studied in this course both in relation to other Chinese classics and for its intrinsic literary beauty.

**CHI 336**
Shih-chi

Elective, Both; Term
3rd & 4th year; 3 units
2 hrs. Lect. + 1 hr. Tut./wk.

*The Historical Records*, the first great historical work in the Chinese tradition, is also a great work of literature. This course aims at helping the student, through a survey of the history covered in the work, to gain an insight into the author’s technique as well as his influence on subsequent ages.

**CHI 337**
Han-shu

Elective, Both; Term
3rd & 4th year; 3 units
2 hrs. Lect. + 1 hr. Tut./wk.

*The History of the Han* initiated a new school with a more restrained and elegant style of writing. It is also more rigorous in its method than the *Historical Records*. This great work is studied in this course for its literary merit and its attitude to historical writing. A study of the various sections will make clear to the student the author’s judgment on history and the reasons for the uniqueness of its style.

**CHI 341**

Course Description

ENG 121  
First Year English  
(Majors and Minors)  
Core, Majors & Minors, 1st Term  
1st year  
3 units; 3 hrs. class work per week  
A course designed to improve the English communication skills of Major and Minor students in the English Department. Specially prepared materials based on the needs of such students are used to develop

*Not offered in 1980-81.
listening, speaking, reading and writing skills to an advanced level of proficiency.

ENG 122
First Year English
(Majors and Minors)
Elective, Majors & Minors, 2nd Term
(Selected students may be required to take this course)
1st year
3 units; 3 hrs. class work per week

As for ENG 121, 1st Term.

ENG 124
Topics in the Study of Language
Core, Majors & Minors; 2nd Term
1st year
3 units; 1 hr. Lect. + 1 hr. Group Discussion + 1 hr. Tut./wk.

This course falls broadly into two parts. In the first part, the beginning student in language studies is given an opportunity to consult, air and reshape his own beliefs about what human language is and how it works. He is encouraged through discussion and observation to stand back from language and think and talk about it clearly and imaginatively. In particular, he will be invited to consider the ways in which human language relates to other forms of communication, the utility of language for the individual and his society, and the context of language and communication problems in Hong Kong. In the second part he will look at short texts and verbal exchanges to see they can be described systematically; here the focus of attention will progressively narrow down from the broad organising principles of text structure to the smaller building blocks of language, such as words and sounds.

Through the course, the presentation and discussions will be conducted with as little recourse to specialist terminology as possible.

The student who may be intending to do further work in linguistics will be able to draw from the course a summary picture of the kinds of things linguists and communication specialists are interested in, and why; the course is thus also a guidepost for deciding how to choose later, more specialized courses.

ENG 125
Introduction to English Literature
(Methodology)
Core, Majors; Elective, Minors;
1st Term; 1st year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.

This course is designed to give the students a general understanding of the nature and variety of literature. It will try to provide the students with the critical terms and basic tools to analyze and evaluate literature. Readings will include poetry, fiction, and drama.

ENG 128
Historical Survey of English Literature I
Core, Majors; 2nd Term
1st year
4 units; 3 hrs. Lect. + 1 hr. Tut./wk.

This course attempts to give an overall view of the chronological development of English Literature up to the end of the 17th century. It will
introduce a sampling of representative literary works which help to
form the tradition and are, in turn, informed by it. Individual works of
different genres will be integrated with their respective historical back-
grounds as well as related to antecedent works to show the continuity
of the tradition. Lectures will concentrate on cultural background and
illustrations of it through particular works. Audio-visual aids (e.g.
movies, film-strips, slides, overhead transparencies, tapes, etc.) will be
used extensively to help bridge the culture gap. Seminars will concen-
trate on examining major works and the students’ responses to them.

ENG 021/022
Opinions and their Expression
Core, Majors, STOT\textsuperscript{1}; 2-Term
2nd year
2 units; 2 hrs. STOT/wk.

A course designed to give students practice in analysing and discussing
controversial issues in order to increase their confidence in expressing
their opinions in both spoken and written English.

ENG 211/212
Second Year English (Majors)
Core, Majors; 2-Term
2nd year
4 units; 2 hrs. class work per week

An integrated course designed to develop English communication skills
in preparation for meeting the requirements of Language and Literature
courses in Third and Fourth years. The course will emphasize the
techniques of effective writing. The development of argument, logical
organisation, and stylistic questions will be considered in relation to
various types of writing, including written responses to literary texts
and questions concerning language.

ENG 213/214
Second Year English (Minors)
Core, Minors; 2-Term
2nd year
6 units; 3 hrs. class work per week

An integrated course designed to develop English communication skills
in preparation for meeting the requirements of Language and Literature
courses in Third and Fourth years. The course will emphasize the tech-
niques of effective writing and group discussion. The development of
argument, logical organisation, and stylistic questions will be considered
in relation to various types of writing, including written responses to
literary texts and questions concerning language, and both formal
and informal speaking will be encouraged.

ENG 215/216
The Structure of English
Core, Majors; Elective, Minors; 2-Term
2nd year
6 units; 2 hrs. Lect. + 1 hr. Tut./wk.

A survey course, designed to impart basic information about the nature
and structure of language and the main areas and concepts of linguistics;
also to help students make informed choices among 3rd and 4th
year Language Studies options.

\textsuperscript{1} Student-orientated Teaching
ENG 219  
Historical Survey of English  
   Literature II  
Core, Majors; 1st Term  
2nd year  
4 units; 3 hrs. Lect. + 1 hr. Tut./wk.  
A course to complement ENG 127 or ENG 128. The second section of the Historical Survey Course brings the students from the end of the 17th century to the end of the 19th century.

ENG 220  
Historical Survey of English  
   Literature III  
Core, Majors; 2nd Term  
2nd year  
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.  
This course is a continuation of Survey I and II, with an emphasis on the critical and analytical study of selected twentieth-century English literary works in poetry, fiction and drama.

ENG 222  
Backgrounds to English Literature  
Elective; 2nd Term  
2nd year  
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.  
This course offers general background knowledge of Hebrew, Greek and Roman literature, thought and civilization, without which students will find it difficult to achieve a thorough understanding of English literature. English translations of some representative works will be studied.

ENG 223  
Introduction to Comparative Literature (Methodology)  
Elective; 1st Term  
2nd year  
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.  
A preliminary survey of the methodology in use in Comparative Literature, designed to familiarize students with the scope, concepts and techniques of this field of study. Syntax A and B  
 Core, Optional, Both; 2-Term  
 3rd and 4th year  
 6 units; 2 hrs. Lect. + 1 hr. Tut./wk.

This course is designed to introduce the student to the modern studies of English syntax, to familiarize him with the focal problems in the subject and to help him develop some sensitivity to the English language. This course will enable the student to deal with the language aspect of literature better, and his up-to-date information in the subject will be useful in his study of other language courses in this University or abroad and in the contrastive study of syntax.

ENG 345/346  
Pedagogical Grammar  
 Core, Optional, Both; 2-Term  
 3rd and 4th year  
 6 units; 2 hrs. Lect. + 1 hr. Tut./wk.

This is a course in which students who intend to become teachers of English in Hong Kong will study the linguistic component of instructional programs for teaching English as a Second or Foreign language. The course begins with students learning to identify the major positions within which syntactic constructions can occur, and the range of types of constructions which occupy these positions. Through systematic analysis students learn to manipulate syntactic constructions and practice substitution and transformation techniques with sentence structures and sentence patterns. The course uses these analytic techniques to study discourse units, selection gradation and arrangement of syllabus and lesson content, and the differences between structural and communicative syllabuses.

ENG 349/350 Sociolinguistics  
Core, Optional, Both; 2-Term  
3rd and 4th year  
6 units; 2 hrs. Lect. + 1 hr. Tut./wk.

The course is intended to introduce students to the idea of systematic study of language as a social phenomenon and to sensitize their awareness of the social functions of language in the hope of equipping them with a deep perspective so that they would be able to discuss individual and societal language problems in an intelligent way, particularly with reference to the local situation.

ENG 351/352 History of the English Language  
Core, Optional, Both; 2-Term  
3rd and 4th year  
6 units; 2 hrs. Lect. + 1 hr. Tut./wk.

This course is designed for students who will become teachers of English or who may later wish to undertake higher studies in the field of English Language or for those who wish to have some understanding of the origins and development of the English language. Students will be able to acquire a reading knowledge of Latin and Old English, and to see how Latin, French, Old English (and other languages to a lesser extent) have contributed towards the making of English. They will trace the evolution and development of the language from its Indo-European origin, then consider its development within England up to modern times, and become aware of contemporary varieties of English outside England.

ENG 401/402 Applied Linguistics  
Core, Optional, Both; 2-Term  
4th year  
6 units; 2 hrs. Lect. + 1 hr. Tut./wk.

This course is designed mainly for students who intend to become teachers of English in Hong Kong. It deals with the application of modern linguistic studies to the learning of a second language and with the improvement of the English of potential teachers. (At least one Language Studies course in the 3rd year is a pre-requisite for taking this course.)

*ENG 403/404 Research Seminar  
Core, Optional, Both; 2-Term

## Course Descriptions

**GER 101 German I**

Core, Minor; Elective, Others; Year 1st—4th year

This course aims at a basic knowledge of the written and spoken language. Emphasis will be placed on integrated grammar explanation and application. The course will include oral drills in the language laboratory, written assignments and dictation.

**GER 102 Introduction to Contemporary Germany**

Elective; Year 1st—4th year

This course will provide the student with a background knowledge of German history in the 20th century. It will touch on the political structure, social life and cultural trends of Germany in modern times. The medium language is English.

†Core courses

*Not offered in 1980-81.
GER 103  Science German I  Elective; Science Students; Year 1st—4th year 4 units; 2 hrs. Lect./wk.
This course is designed to give a basic knowledge of the written language, emphasizing elementary grammar. The course aims at preparing students to be able to read scientific texts and to translate them into English or Chinese.

GER 104  Business German I  Elective; Year 1st—4th year 4 units; 2 hrs. Lect./wk.
This course is designed to give a basic reading and translating knowledge of German with growing emphasis on business texts. It provides an elementary knowledge of grammar and of typical patterns of business letters. The course requires no prior knowledge of German. It leads up to Business German II, where the writing of business letters will be practised.

GER 201  German II  Core, Minor; Elective, Others; Year 2nd—4th year; 6 units; 4 hrs. Lect./wk.
This course is a continuation of GER 101, and introduces some fundamental concepts of syntax. Emphasis will be put on a systematic extension of vocabulary and drills in the language laboratory. Together with German I, the course will provide a serviceable knowledge of German for those students who wish to use German as a tool language. GER 201 leads up to GER 301.

GER 202  German Conversation  Elective; Year 2nd—4th year 4 units; 2 hrs. Lect./wk.
This course is designed for students who have already taken one year of German. The course practises spoken German and includes audio-visual aids and oral drills in the language laboratory.

GER 203  Science German II  Elective; Science Students; Year 2nd—4th year 4 units; 2 hrs. Lect./wk.
This course is a direct continuation of Science German I. After basic grammar has been introduced, more emphasis is laid on grammatical and syntactical practice on a linguistically more advanced level and with special regard to the structural framework. Texts will include originals from German scientific reviews. The course aims to provide students with the ability to independently translate German scientific texts.
GER 204  
Business German II  
Elective; Year  
2nd–4th year  
4 units; 2 hrs. Lect./wk.

This course is a continuation of Business German I. More emphasis is laid on syntactical problems and on practising the reading and composition of everyday business letters. In the second term, the students may choose from a number of fields and topics relating to the business world.

GER 205  
Intensive German  
Core, Opt., Minor; Elective, Others: Year; 2nd–4th year  
10 units; 6 hrs. Lect./wk.

This course is an intensive language course. It covers the same ground as German I and German II. It will provide a serviceable knowledge of German for those students who wish to use German as a tool language. The course is not open to freshmen. GER 205 leads up to GER 301.

GER 301  
German III, Language  
Core, Minor; Elective, Others; Year  
3rd & 4th year  
5 units; 2 hrs. Lect.+1 hr. Sem./wk.

This course offers training for students to further improve their knowledge of the German language. It includes composition writing and a systematic repetition of essential problems of grammar, and drills in spoken German.

GER 302  
Introduction to the History of Modern German Literature and to Cultural History  
Core, Minor; Year  
3rd & 4th year  
4 units; 2 hrs. Lect.+1 hr. Sem./wk.

This course will give an outline knowledge of the history of German literature with emphasis laid on modern developments. The lectures will be supplemented by an introduction to the cultural and social background of the respective periods.

GER 401  
German IV, Language  
Core, Minor; Elective, Others; Year  
4th year  
5 units; 2 hrs. Lect.+1 hr. Sem./wk.

This course provides special training in composition, comprehension, precis writing, and spoken language for students already proficient in German. It includes a thorough practice of advanced grammatical and stylistic phenomena. This course is a continuation of GER 301.

GER 402  
Special Topic in German Literature or Culture  
Core, Minor; Year  
4th year  
4 units; 2 hrs. Lect.+1 hr. Sem./wk.

This course will deal with an important epoch, the work of a dominant figure, or the development of a particular genre in German literature or culture.
*GER 403  
German Philosophy, Political Science or Social Science  
Core, Minor; Year 4th year  
4 units, 2 hrs. Lect.+1 hr. Sem./wk.  
This course, which can be taken instead of GER 402, offers a choice of topics in 18th-20th century German philosophy, political currents in Germany and sociological theories in Germany.

Students’ arrangements are played through during orchestral rehearsals when possible.

MUS 315, 415
Composition I, II

Core, Optional, Major; Elective, Others, Year; 3rd & 4th year
6 units; 1 hr. Lect./wk.

The student practises writing in forms, styles, and techniques from as many countries and historical periods preceding the 20th Century as time permits. His own ingenuity will be exercised within the limits of the language of various historical periods. The motet, sonata, and rondo are among the many models studied.

The student first explores some of the many 20th Century musical idioms, writing short compositions in polytonality, atonality, seriality, and so on. After these procedures have been thoroughly absorbed, the student will be encouraged to write original pieces. The strength of his original work will come not from adherence to any one system but from his imagination, and a discipline enabling him to organise a set of consistent ideas into a coherent individual language.

*Not offered in 1980-81.
MUS 316
Form and Analysis

An opportunity for guided research and study of selected topics, such as: methodological approaches to the study of religion, theories of religion, folk religion, festivals, religion in transition in contemporary society, the Mother goddess, religion as salvation, ritual and sacrifice.

THE 101
Introduction to the Old Testament
Elective; 2nd term
1st & 2nd year
3 units; 3 hrs. Lect./wk.
This course is a survey of the history of the Hebrew people from the times of the Patriarchs to the beginning of the Christian era within the context of the ancient Near Eastern world. This historical survey will also introduce students to the life and faith and literature of the Hebrew people. Throughout the course students will be expected to be familiar with the contents of the Chinese or English Bible.

THE 111
Introduction to the New Testament
Elective; 1st term
1st & 2nd year
3 units; 3 hrs. Lect./wk.
This course is a survey of the New Testament Church, its life, faith and literature within the context of the Mediterranean world. Throughout the course the student will be expected to be familiar with the contents of the Chinese or English Bible.
THE 212
Ancient Near Eastern History and Archaeology
Core, Opt., Major; 2nd term
2nd–4th year
3 units; 3 hrs. Lect./wk.
THE 101 or 501 (M.Div.) is a prerequisite for this course. This course attempts to introduce the history of Israel/Judah on the broad background of ANE history. Selected documents from the Bible and ANE empires, and outstanding archaeological materials will be studied. The main focus will be on an understanding of the early history of Israel and the developments leading to the downfall of both states.

THE 213
History of Religions in the Ancient Near East and Ancient China
Core, Opt., Major; 1st term
2nd–4th year
3 units; 3 hrs. Lect./wk.
The 101/501 is a prerequisite for this course. The religions of Mesopotamia, Egypt, Canaan and China have many points of similarities due to the common human heritage of primeval, or early historical experiences, resulting myths and traditions and also comparable religious ideas. In order to appreciate better the traditions and ideas preserved in the Bible and in one's own culture this course attempts to study relevant documents from the ANE, the Bible and China.

THE 214
Religious and Moral Concepts in the Ancient Near East, Ancient China and the Bible
Core, Opt., Major; 2nd term
2nd–4th year
3 units; 3 hrs. Lect./wk.
THE 101/501 is a prerequisite for this course. For similar reasons as described in THE 213 the preceding course, moral concepts are worth comparing as they result from early communal and social experience, and are unvaryingly linked to, or based on, respectively explained by religious ideas and concepts. Hence this course intends to look at concepts as preserved in relevant documents from the various regions and study their origins and implications.

THE 231
Man and Salvation
Core, Major; Optional, Minor
1st term;
2nd & 3rd year
3 units; 3 hrs. Lect./wk.
The Christian doctrine of man; the doctrine of sin and its consequences; various concepts of salvation; the doctrines of reconciliation, justification, sanctification, etc.; Christ and salvation. (No prerequisite; open to minor and elective students.)

4th units; 2 hrs. STOT/wk.

Case analysis has become a standard tool of management education. Students are required not only to analyze the selected local cases orally and in writing, but also to develop business cases as part of their course work.

MKT 301
Marketing Research
Elective; 1st term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

The basic concepts of marketing research and its contribution to effective marketing management. Research procedures, performance analysis, motivation research, product research and advertising. Prerequisites: MKT 201, GBM 201/202.

MKT 302
Consumer Behaviour
Elective; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

Application of principles and techniques of behavioural science to marketing problems. Topics include sociological and psychological

---

aspects of consumer behaviour, product adoption and diffusion; fashion theory, household decision-making, individual consumer decision-making; shopping behaviour, brand loyalty; advertising effect; and macroeconomic aspects of consumer behaviour. Prerequisites: MKT 201, GBM 201/202.

MKT 303  
International Market Analysis  
Core, Optional; 1st term  
3rd year  
3 units, 3 hrs. Lect./wk.

Environmental factors impinging on international marketing, such as cultural and business customs, economic development, political factors, and multinational market groups; international marketing research including methods for estimating market potentials and market survey. Prerequisites: MKT 201, ITB 201.

MKT 304  
International Marketing Management  
Elective; 2nd term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

The use of the managerial approach as the basis for decision-making in international marketing management. Topics covered include: planning and organizing for international marketing, decisions on product, pricing, channel and promotion, and coordinating and controlling world marketing operations. Prerequisite: MKT 303.

MKT 305  
Advertising  
Elective; 1st term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

An analysis of advertising problems from the management point of view in such major areas as the determining of advertising objectives, the developing of appropriate copy, choice of advertising message, media selection, evaluation of advertising effectiveness, coordination of advertising with other aspects of sales promotion, and agency-client relationship. Prerequisite: MKT 201.

MKT 306  
Sales Management  
Elective; Both terms  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

The nature of personal selling, determination of the amount and allocation of personal sales effort to be applied to the market and methods of organizing, evaluating and controlling this effort. A critical evaluation of current practice in selecting, training, compensating, supervising salesmen. Prerequisite: MKT 201.

MIB 041  
Senior Project  
Core, Major, STOT¹; Year  
4th year  
4 units; 2 hrs. STOT/wk.

¹ Student-orientated Teaching.
The primary objective of Senior Project is to strengthen fourth year students' research abilities and analytical skills in dealing with the current problems in the areas of Marketing and International Business Management.

Senior students will be assigned to a number of small groups under the direct supervision of faculty members, depending on their research interest and the faculty members' specialized field.

MKT 401
Marketing Policy
Core, Optional; 2nd term
4th year
3 units; 3 hrs. Lect./wk.

The objective of this course is to acquaint students with the concepts and tools in developing and evaluating marketing policy in business firms. The topics covered include: product policy, channel policy, pricing policy, and promotional policy. Prerequisite: MKT 201.

MKT 402
Industrial Marketing
Core, Optional; 1st term
4th year
3 units; 3 hrs. Lect./wk.

The course is concerned with both the national and international aspects of the marketing of industrial products. Topics include industrial market research, industrial sales forecasting, industrial buyer behaviour, industrial buying process, industrial product distribution, product decisions, pricing decisions, product promotion and advertising, salesforce decisions, and new product decisions. Cases will be used in all topics. Prerequisite: MKT 201.

MKT 403
Marketing Theory
Elective; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

Application of theories of marketing, economics and other behavioural sciences to the decision-making process in marketing. Prerequisite: MKT 201.

MKT 404
Quantitative Marketing Decisions
Elective; 1st term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

Application of quantitative methods to decision-making in marketing management. Topics include both macro- and micro-marketing decision models. Prerequisites: MKT 201, GBM 301/302.

MKT 405
Retailing
Core, Optional; 1st term
4th year
3 units; 3 hrs. Lect./wk.

The course covers six main sections: (1) Trading areas, and selection of store location and store site. (2) Retail productivity and scale economies. (3) Horizontal and vertical channel conflicts in retailing. (4) Retailer-customer relations. (5) Retailing management. (6) Retail evolution trend. Prerequisite: MKT 201.
MKT 406  Service Marketing  
Core, Optional; 2nd term  
4th year  
3 units; 3 hrs. Lect./wk.  
The course is divided into 3 parts. Part one includes discussions on the economic and sociological aspects of services. Part two is a review of the concepts in service marketing. It consists of the operating system, level, distribution, pricing and promotion of services. Part three is a speculation on the international opportunities for service operations. Special emphasis will be laid on the Hong Kong economy. Prerequisite: MKT 201.

ITB 201  Introduction to International Business  
Core, Both; Both terms  
2nd year  
3 units; 3 hrs. Lect./wk.  
This course studies the nature, form, and scope of international business, with focus on the multinational corporation. Detailed analysis of foreign environments and major types of international business activities, including exporting, direct investment, technical licensing, and other contractual arrangements. Management strategies for such key areas as organization, control, ownership, and marketing, will also be discussed. Prerequisite: GBM 103/104.

* ITB 301  Economics of International Business  
Core, Optional; 1st term  
3rd year  
3 units; 3 hrs. Lect./wk.  
Basic economic theories relating to international trade and investment and the application of these theories as they relate to businessmen operating in the international economy. Major topics include balance-of-payments, foreign exchange market and exchange controls, international currency problems, trade policies and restrictions, and foreign direct investment. Prerequisite: ITB 201.

* ITB 302  International Business and Economic Development  
Elective; 2nd term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.  
A preliminary survey of concepts, theories, and strategies of economic development; the economic, social and political factors that affect international business operations in countries at different stages of development; and the analysis of the merits and demerits of multinational enterprises for national economic development and international economic integration. Prerequisite: ITB 201.

ITB 303  Import-Export Business  
Core, Optional, Both; Elective  
1st term; 3rd - Grad.  
3 units; 3 hrs. Lect./wk.  

*Not offered in 1980-81
Motivations for importation and exportation: sales factors, cost factors and risk factors. Activities handled by own staff or through contracts with other firms: market research, sales promotion, credit investigations, payment methods, collection functions, foreign traffic and shipping functions, and support to sales, distribution and advertising staff of the firm. The environment of Hong Kong's import-export business. Prerequisite: ITB 201.

**ITB 304**  
**International Financial Management**  
Elective; 2nd term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

Various aspects of financial planning and management for enterprises with overseas operations. Major topics include: international financial environment, analysis of sources and commitment of long-term corporate funds to international ventures, financial management of multinational firms in protection of earnings and assets, and taxation, transfer-pricing and control problems in operations abroad. Prerequisite: ITB 201.

**ITB 401**  
**Managing the Multinational Corporation**  
Elective: 1st term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

Management philosophies, strategies and practices in various functional areas as experienced by the multinational corporation are given detailed analysis in the light of the environmental conditions it faces. Prerequisite: ITB 201.

**ITB 402**  
**International Business Policy**  
Elective; 2nd term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

Historical, economic, cultural and political foundations that affect the various policy decisions in international business operations. Prerequisite: ITB 201.

**ITB 403**  
**Legal Aspects of International Business**  
Elective; 1st term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

Important legal concepts underlying the conduct of business across national boundaries. Legal problems relating to both trade and investment are considered. The relationships between a business organization and its suppliers, customers, employees and the home and host governments. Prerequisite: ITB 201.

**ITB 404**  
**Comparative Management Systems**  
Elective; 2nd term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

Study of the effects of environmental and cultural factors on the management of business enterprises in many different areas of the
world. Several different concepts of the manager's role in society are considered, with examples from countries at different stages of economic and social development. Prerequisite: ITB 201.

**ITB 405**  
China's Foreign Business Operations  
Core, Optional, Both; Elective  
1st term; 3rd - Grad.  
3 units; 3 hrs. Lect./wk.  

**ITB 406**  
Asian Business  
Core, Optional, Both; Elective  
2nd term; 3rd - Grad.  
3 units; 3 hrs. Lect./wk.  
The technical, economic, political and social environments of Asian countries, specially those with heavy direct foreign investments. The cultural and historical factors leading to these conditions. Their government-business tie-up and management systems. Prerequisite: ITB 201.

**Examination Scheme**

(A) **Marketing**

*Major Programme*

All students majoring in Marketing are required to take Paper GP-1 and four papers from M-1, M-2, M-3, M-4, M-5 and M-6 in their Parts I and II Degree Examination.

*Minor Programme*

All students minoring in Marketing are required to take any two papers from Papers M-1, M-2, M-3, M-4, M-5 and M-6.  
Minor students must have passed Introduction to Business, Principles of Management and Marketing Management before attempting Degree Papers required of a Marketing Minor. However, Major students of the Faculty of Business Administration are exempted from taking Introduction to Business.

Study Scheme

First year potential majors are required to elect BIO 103 and 193 and CHM 101 and 181 during the 1st year; and PHY 103, 108 and/or PMA III during the first or second year. Second year majors are required to elect BCH 210 and 290.

*Not offered in 1980-81
Course Description

BCH 210
Introduction to Biomolecules
Core, Major; Year
2nd year
4 units; 2 hrs. Lect./wk.

This course attempts to acquaint the beginning students with basic chemical knowledge relevant to the understanding of biological systems. Constituent molecules of living systems will be described with emphasis on structures and properties. Certain biological functions will be discussed in relation to their structures.

BIO 290
Introduction to Biomolecules Laboratory
Core, Major; 1st term
2nd year
3 units; 1 hr. Lect. + 4 hrs. Lab./wk.

This laboratory course is designed for beginning majors to acquaint with basic biochemical techniques and methods. Their application in the study of the structures and properties of carbohydrates, lipids, proteins and nucleic acids are illustrated in the experiments. Quantitative aspects are emphasized whenever applicable.

BCH 221
Introductory Biochemistry
Core, Minor; Year
2nd year
4 units; 2 hrs. Lect./wk.

This course attempts to acquaint the beginning students with the basic concepts in Biochemistry such as cellular organization and function and to promulgate the impact of biochemistry on man and his future. Topics discussed in the first term will include such subjects as pH, water, aspects of energy flow, man's adaptation to nature and the effect of environmental factors on man's biological and behavioural responses. The second term will be devoted to considering the chemical and structural aspects of biological molecules such as carbohydrates, lipids, amino acids, proteins, purines and pyrimidines, nucleic acids and vitamins.

BCH 281
Introductory Biochemistry Laboratory
Core, Minor; 2nd term
2nd year
2 units; 4 hrs. Lab./wk.

This laboratory course is designed for minor and elective students in their first year of studies in biochemistry. Basic techniques are introduced.

BCH 311
Principles of Biochemistry
(for Majors only)
Core, Major; 1st term
3rd year
4 units; 4 hrs. Lect./wk.

This course presents a general study of the phenomenon of life by chemical approach with special emphasis on metabolism and control of metabolism. The topics cover the metabolism of carbohydrates, lipids,
amino acids, purines and pyrimidines, nucleosides and nucleotides. The kinetics and catalytic properties of enzymes, bioenergetics, biosynthesis of macromolecules and biochemical genetics will also be discussed. The practical work is given in BCH 312 & 392.

BCH 321  
Principles of Biochemistry  
(for Minors only)  
Core, Minor; Year  
3rd year  
4 units; 2 hrs. Lect./wk.

This course presents similar material as given in BCH 311 but is designed for minor and elective students.

BCH 381  
Principles of Biochemistry Laboratory  
(Minor)  
Core, Minor; Year  
3rd year  
5 units; 1 hr. Lect. + 3 hrs. Lab./wk.

This course will attempt to acquaint the students with the principles and practice of basic biochemical techniques such as the purification and characterization of proteins and enzymes, nucleic acids, lipids and carbohydrates; electrophoresis; column, paper, thin-layer and gas chromatography. (see BCH 321)

BCH 312  
Analytical Biochemistry  
Core, Major; 1st term  
3rd year  
2 units; 2 hrs. Lect./wk.

This course, aiming at experimental competence with biological systems and their components at a quantitative level, covers the following: Chromatographic and electrophoretic methods, differential centrifugation, liquid scintillation counting, Warburg Manometry, UV and fluorescence spectrophotometry, purification and characterization of lipids, hormones and enzymes, DNA and RNA; and a small project of research interest.

BCH 392  
Analytical Biochemistry Laboratory  
Core, Major; 1st term  
3rd year  
4 units; 8 hrs. Lab./wk.

The laboratory course serves to provide basic training in biochemical techniques. Students will learn the application of different biochemical methods in the qualitative and quantitative estimation of biologically active molecules.

BCH 041  
Guided Studies in Biochemistry  
Core, Major, STOT\(^1\); Year  
4th year  
4 units; 2 hrs. STOT/wk.

Students participating in this course are required to submit oral and written reports on current topics in biochemical literature or where

\(^1\) Student-orientated Teaching.
applicable, on research work carried out under the supervision of a faculty adviser.

BCH 411
Proteins and Enzymes
Core, Both; 1st term
4th year
3 units; 3 hrs. Lect./wk.
This course discusses topics such as the physical properties of proteins, their structural determination and chemical synthesis. The study of enzymes, particularly with respect to the probing of active sites, mechanisms of catalysis and regulation of enzyme activities will be emphasized. The chemical and functional aspects of proteins such as the tropic hormones and antibodies will also be considered in detail. (see BCH 491)

BCH 491
Proteins and Enzymes Laboratory
Core, Both; 1st term
4th year
3 units; 1 hr. Lect. + 4 hrs. Lab./wk.
This course emphasizes instrumental analysis such as pH-stat, spectrophotometric titrations employed in protein chemistry, molecular weight determinations of macromolecules. (see BCH 411)

BCH 412
Clinical Biochemistry
Core, Optional, Major; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.
This course presents the basic principles in clinical biochemistry and its methodology. Tests of functions will be described.

BCH 492
Clinical Biochemistry Laboratory
Core, Optional, Major; 2nd term
3rd & 4th year
2 units; 4 hrs. Lab./wk.
Relevant assays of biochemical constituents in body fluids will be performed.

* BCH 413
Endocrinology
Core, Optional, Major; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.
This course emphasizes the structure-function relation of catecholamines, steroid, peptide and hypothalamic hormones. The regulatory role of hormones in physiological and biochemical processes will be discussed in detail.

* BCH 493
Endocrinology Laboratory
Core, Optional, Major; 2nd term
3rd & 4th year
2 units; 4 hrs. Lab./wk.

* Not offered in 1980-81.
This laboratory course serves to demonstrate the biological effects of hormones. Students will also learn to quantitate hormones from live animals by biological and chemical methods.

**BCH 415**  
Radioisotope Application in Biological Science  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.
This course is designed to acquaint students with the principles and applications of radioisotopes in the biological sciences. Topics to be covered will include safety precautions, nature of radioactive decay, counting equipments, counting techniques, tracer applications and kinetics in addition to specific examples of applications.

**BCH 495**  
Radioisotope Application in Biological Science Laboratory  
2 units; 4 hrs. Lab./wk.
This is the laboratory course of BCH 415. Experiments designed to demonstrate the safe handling of radioactive materials, the counting of radioactivity and the use of radioisotopes in biological studies will be performed.

* **BCH 416**  
Carbohydrates and Lipids  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.
This course presents a survey of recent advances in chemistry and biochemistry of carbohydrates and lipids. Relevant emphasis will be placed on the relationship of structure and biological functions. Research techniques concerned will also be discussed.

* **BCH 496**  
Carbohydrates and Lipids Laboratory  
2 units; 4 hrs. Lab./wk.
This is the laboratory course of BCH 416, the content of which will emphasize experimental techniques specifically related to carbohydrates and lipid biochemistry.

**BCH 417**  
Neurochemistry  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.
This course will discuss the structure and composition of nervous tissue in relation to its functions. Aspects of metabolism special to the nerve and brain will be examined. These include energy metabolism, water and electrolyte balance, exchanges between blood and brain, and between brain and cerebrospinal fluid, neurotransmitters and modulators.

*Not offered in 1980-81.*
nutrition and development of the nervous system, neuroendocrinology and the biochemistry of mental diseases.

BCH 497  
Neurochemistry Laboratory  
Core, Optional, Both; 2nd term  
3rd & 4th year  
3 units; 1 hr. Lect. + 4 hrs. Lab./wk.

A companion course to the lectures in Neurochemistry, this course will consist of a set of experiments to illustrate various biochemical techniques for the study of neurochemistry.

BCH 418  
Physical Biochemistry  
Core, Major; 2nd term  
4th year  
3 units; 3 hrs. Lect./wk.

This course deals with the application of physical principles in biochemistry and discusses topics such as the energetic basis of life process, water and electrolytes, diffusion and transport processes and physical methods such as ultracentrifugation, viscosimetry, light scattering, circular dichroism, optical rotatory dispersion and X-ray diffraction.

BCH 498  
Physical Biochemistry Laboratory  
Core, Major; 2nd term  
4th year  
2 units; 4 hrs. Lab./wk.

This course consists of the experimental application of the physical principles enunciated in BCH 418 to the determination of the shape and size of macromolecules. The use of viscosimetry, fluorometry, optical rotatory dispersion and light-scattering will be emphasized.

BIO 410  
Molecular Biology  
Core, Optional, Both; 2nd term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

This course considers the nature of gene at the molecular level. The structure, organization, synthesis and biological activities of DNA, RNA with special reference to regulation of RNA and protein biosynthesis will be discussed. Attention will be directed particularly to current concepts and methods of reasoning where applicable.

BIO 490  
Molecular Biology Laboratory  
Core, Optional, Both; 2nd term  
3rd & 4th year  
2 units; 4 hrs. Lab./wk.

In the laboratory practicals, the techniques in handling bacterial virus, DNA and RNA preparation, and DNA-RNA hybridization method will be introduced.

BIO 428  
Plant Biochemistry  
Core, Optional, Both; 2nd term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.
Emphasis of this course will be placed on the biochemical processes which are unique to plants such as the fixation, reduction and assimilation of carbon dioxide and inorganic nitrogenous compounds. Other topics will be the effect of light on plant metabolism other than photosynthesis, and the biochemistry of cell wall substances with special reference to controlling mechanisms in the synthesis of these substances in relation to plant differentiation. Prerequisite: at least one term of Principles of Biochemistry or its equivalent.

BIO 488 Plant Biochemistry Laboratory
Core, Optional, Both; 2nd term
3rd & 4th year
2 units; 4 hrs. Lab./wk.

This laboratory course accompanies course BIO 428.

**Examination Scheme**

**Major Programme**

All 6-2 Majors are required to take: (a) Papers 1A and 2, and one paper from Papers 5, 6, 7, 8, 9, 10 and 11 in their Part I Examination, and (b) Papers 3 and 4, and one paper from Papers 5, 6, 7, 8, 9, 10 and 11 in their Part II Examination. All 4-2-2 Majors are required to take Papers 1A and 2 in their Part I Examination and Papers 3 and 4 in their Part II Examination.

**Minor Programme**

All students minoring in Biochemistry are required to take Paper 1B in their Part I Examination and Paper 3 in their Part II Examination.

Study Scheme

*Major Programme*

All students majoring in Biology are required to take (1) all core courses, (2) four core optional courses, (3) either BIO 041 or 042, and (4) two elective courses. Selection of core optional courses in category (2) should be confined to one of the five streams of courses. Details of lists of courses for various streams are available in the Department of Biology.

*Minor Programme*

All students who take Biology as a minor subject shall (subject to the specific requirements of their major Board), in their first or second years take Principles of Biology and a minimum of nine additional units (lectures — 6 units, practical — 3 units) including two courses from Diversity of Life I, II and III. During their third and fourth years, they are required to take two core/core optional courses, and one elective course.

Students who begin to take Biology as a minor subject in their second year are required to take Principles of Biology and Diversity of Life I and II or III plus one elective course in their second or third year and one core/core optional course plus one elective course in the fourth year.

Course Description

NSC 101/102 Perspectives in Life Sciences  
Elective, Gen. Ed.; Both terms  
1st – 4th year  
3 units; 3 hrs. Lect./wk.

This course is offered jointly by the Departments of Biochemistry, Chemistry and Biology. It is intended to provide a treatment, in breadth rather than in depth, which covers the environment for life, the nature, origin and continuity of life, the fundamental chemical structure of materials, the diversity of and interactions among organisms, together with some implications of the products of chemical technology for life. Demonstrations and field work may replace or supplement some lectures.

A knowledge of science (e.g. up to the level of Certificate of Education) will not be assumed.

BIO 103 Principles of Biology  
Core, Both; 1st term  
1st year  
3 units; 3 hrs. Lect./wk.

This course is intended to integrate the student’s knowledge of biology, and apply it to some aspects of the subject which are of universal importance. Some of the topics to be treated in lectures are: the origin of life, evolution, the problem of classification, interrelationships of various organisms at all levels, and imminent problems in biology.

BIO 193 Principles of Biology Laboratory  
Core, Both; 1st term  
1st year  
1 unit; 3 hrs. Lab./wk.

To accompany BIO 103. Stress is laid upon the development of scientific method.

BIO 104 Diversity of Life I: Protista  
Core, Major; Core, Opt., Minor; 2nd term  
1st year  
2 units; 2 hrs. Lect./wk.

This course is the first of three courses with the general title of Diversity of Life. It is designed to give a sound general knowledge of the viruses, bacteria, blue-green algae and protozoa in preparation for advanced courses.

BIO 194 Diversity of Life I: Protista Laboratory  
Core, Major; Core, Opt., Minor; 2nd term  
1st year  
1 unit; 3 hrs. Lab./wk.

To accompany BIO 104.
BIO 201
Entomology
Elective; 2nd term
2nd year
2 units; 2 hrs. Lect./wk.
This course mainly deals with insect physiology and applied entomology.

BIO 291
Entomology Laboratory
Elective; 2nd term
2nd year
1 unit; 3 hrs. Lab./wk.
Laboratory periods include the study of classification, morphology, anatomy and life history of insects, and field trips.

* BIO 202
Phycology
Elective; 2nd term
2nd year
2 units; 2 hrs. Lect./wk.
An introduction to both fresh-water and marine algae, which includes the classification, morphology, structure, physiology, phylogeny and interrelationships between different groups of algae. Their ecological role and economic importance are discussed.

* BIO 292
Phycology Laboratory
Elective; 2nd term
2nd year
1 unit; 3 hrs. Lab./wk.
The laboratory includes the identification and morphological survey of different groups of algae. Field trips are required for ecological observations and identification of local species.

BIO 203
Mycology
Elective; 2nd term
2nd year
2 units; 2 hrs. Lect./wk.
Mycology is the branch of science for fungi. The systematic study of fungi is less than two hundred years old, but the manifestations of this group of organisms have been known to man for thousands of years, ever since the first toast was proposed over a shell full of wine, and the first loaf of leavened bread was baked. This course provides the discussion not only on descriptions of various types of fungi and their growth patterns but also to realize how intimately our lives are linked with those of the fungi.

BIO 293
Mycology Laboratory
Elective; 2nd term
2nd year
1 unit; 3 hrs. Lab./wk.
To accompany BIO 203.

*Not offered in 1980-81
BIO 204  
Biotechnique  
Elective; 1st term  
2nd year  
2 units; 2 hrs. Lect./wk.

This course will attempt to acquaint the students with the basic principles and practice of biological techniques such as culture methods, demonstration methods, preserving animal and plant specimens, and microtechniques. The course is primarily designed for students whose future career will be teaching Biology in secondary schools.

BIO 294  
Biotechnique Laboratory  
Elective; 1st term  
2nd year  
1 unit; 3 hrs. Lab./wk.

To accompany BIO 204.

BIO 207  
Diversity of Life II: Non-vascular and Vascular Plants  
Core, Major; Core, Opt., Minor; Year  
2nd year  
4 units; 2 hrs. Lect./wk.

This course presents a comparative study of the form, ecology and phylogenetic relationships of different groups of plants, from algae to angiosperms. Prerequisites: Principles of Biology.

BIO 297  
Diversity of Life II: Non-vascular and Vascular Plants Laboratory  
Core, Major; Core, Opt., Minor; Year  
2nd year  
2 units; 3 hrs. Lab./wk.

Laboratory sessions will include observation, collection and identification of representative plants of different groups.

BIO 208  
Diversity of Life III: Invertebrate and Vertebrate Zoology  
Core, Major; Core, Opt., Minor; Year  
2nd year  
6 units; 3 hrs. Lect./wk.

A comprehensive treatment of the multicellular animals with/without backbone. The course considers the morphology, anatomy, ecology, development and life history and phylogenetic relationships of various groups of animals. The function of organ systems will be discussed with reference to the adaptation of the mode of life of the animal.

BIO 298  
Diversity of Life III: Invertebrate and Vertebrate Zoology Laboratory  
Core, Major; Core, Opt., Minor; Year  
2nd year  
2 units; 3 hrs. Lab./wk.

To accompany BIO 208.

BIO 301  
Principles of Ecology  
Core, Major; Core, Opt., Minor;  
1st term; 3rd & 4th year  
3 units; 3 hrs. Lect./wk.;  
fortnightly tutorials.

This course deals with the general principles of ecology which apply to both plants and animals. It includes a general analysis of the physical,
chemical, and biological environmental factors and their relation to organisms; population development; intraspecific and interspecific relations; communities and community types, with an introduction to bio-geography. The significance of ecology is stressed in its application to modern environmental problems.

BIO 391  
Principles of Ecology Laboratory  
Core, Major; Core, Opt., Minor;  
1st term  
3rd & 4th year  
2 units; 4 hrs. Lab./wk.

To accompany BIO 301.

BIO 302  
Plant Anatomy  
Core, Opt., Both; 1st term  
3rd year  
3 units; 3 hrs. Lect./wk.

The course offers comparative studies of the structure of seed plants with emphasis on the angiosperms, origin and differentiation of different tissues and organs and relation of structure to function.

BIO 392  
Plant Anatomy Laboratory  
Core, Opt., Both; 1st term  
3rd & 4th year  
2 units; 4 hrs. Lab./wk.

Laboratory studies include prepared slides and fresh plant materials from which students are required to make temporary preparations.

BIO 303  
Principles of Embryology  
Core, Opt., Both; 1st term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

This course deals with the general principles and patterns of animal development with emphasis on mechanisms and experimental analyses. Topics will include: gametogenesis, fertilization, cleavage, gastrulation, early mammalian development, organogenesis, postembryonic development, metamorphosis, and regeneration. Selected current topics in developmental biology will also be discussed.

BIO 393  
Principles of Embryology Laboratory  
Core, Opt., Both; 1st term  
3rd & 4th year  
2 units; 4 hrs. Lab./wk.

To accompany BIO 303.

BIO 304  
Environmental Biology  
Core, Opt., Both; 2nd term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

This course deals with the relations between population, resources, and environment, stressing particularly the ecological viewpoint on such resources process as agriculture, nature conservation, and energy supply and use, together with their waste products.
BIO 394  
Environmental Biology Laboratory  
Core, Opt., Both; 2nd term  
3rd & 4th year  
2 units; 4 hrs. Lab./wk.

To accompany BIO 304.

BIO 305  
Animal Histology  
Core, Opt., Both; 2nd term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.;  
fortnightly tutorials

This course is microscopic study of the animal body. A brief introduction will be given on the structure of the cell. The structure and physiological function of different tissues, namely, epithelial tissues, blood and lymph, connective tissues, muscular tissues and nervous tissues are discussed. This is followed by the presentation of the various tissues that are closely associated with the structure of organ systems namely, circulatory system, lymphatic system, endocrine system, skin, respiratory system, digestive system, urinary system, male and female reproductive systems, organ of special senses and central nervous system.

BIO 395  
Animal Histology Laboratory  
Core, Opt., Both; 2nd term  
3rd & 4th year  
2 units; 4 hrs. Lab./wk.

To accompany BIO 305.

BIO 307  
Microbiology  
Core, Opt., Both; 1st term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

This course is designed to introduce the students to the biology of microorganisms, with emphasis on bacteria. The lectures cover the survey of microbial morphology, structures, classification, growth and physiology, and the reactions of microorganisms to their physical, chemical and biological environments.

BIO 397  
Microbiology Laboratory  
Core, Opt., Both; 1st term  
3rd & 4th year  
2 units; 4 hrs. Lab./wk.

The laboratory exercises cover the taxonomic and physiological survey of the microbial world, as well as the general principles and techniques of bacteriology.

BIO 308  
Marine Biology  
Core, Opt., Both; 2nd term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

This course gives an introduction to the physical and chemical aspects of the marine environment, and to life in the oceans and coastal waters. The major groups of marine organisms will be treated, with a consideration of the factors influencing their distribution and abundance. Productivity of the marine environment, and its present and future utilization by man.
BIO 398
Marine Biology Laboratory
Core, Opt., Both; 2nd term
3rd & 4th year
2 units; 4 hrs. Lab./wk.

To accompany BIO 308. Laboratory and field work (including work on boats) designed to give practical experience in the use of sampling and measuring equipment, fishing methods, and diving (optional). Field and laboratory studies of the main habitats.

BIO 041
Experimental Senior Seminar
Core, Major; STOT 1; Year
4th year
4 units; 2 hrs. STOT/wk.

A supervised laboratory or field investigation, together with a survey of the relevant literature. The results will be presented as a seminar in early January of the fourth year, and a written report handed in for assessment during second semester.

BIO 042
Literature Senior Seminar
Core, Major; STOT 1; Year
4th year
2 units; 1 hr. STOT/wk.

A supervised review of the literature on a selected topic. The results will be presented as a seminar in early January of the fourth year, and a written review handed in during second semester.

(NB — All major students are required to take BIO 041 or BIO 042 during their fourth year, and will work in close association with a faculty adviser. Either Experimental or Literature Seminar may be chosen, and research should be started during the summer vacation preceding the fourth year.)

BIO 403
Principles of Physiology
Core, Opt., Both; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

This course considers the physiochemical basis of cellular processes such as regulation, coordination and correlation between structural and functional changes of the cell.

BIO 493
Principles of Physiology Laboratory
Core, Opt., Both; 2nd term
3rd & 4th year
2 units; 4 hrs. Lab./wk.

To accompany BIO 403.

BIO 404
Plant Physiology
Core, Opt., Both; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.; fortnightly tutorials

1 Student-orientated Teaching.
This course considers the functional activity of plants, i.e. the study of the processes involved in plant growth and plant behaviour. It includes an examination of the internal mechanisms by which the plant carries on its many complex synthetic chemical processes and the ways in which these processes are integrated. Physiological processes are also considered in relation to the plants in their natural environment competing with other organisms.

BIO 494
Plant Physiology Laboratory
Core, Opt., Both; 2nd term
3rd & 4th year
2 units; 4 hrs. Lab./wk.
To accompany BIO 404.

BIO 405
Genetics
Core, Major; Core, Opt., Minor;
1st term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

This course offers to study variations and their origin and methods of inheritance as known in the plant and animal kingdoms. Genetic material, its nature, its potentialities, and manner of transmission are emphasized. Mutation, selection, evolution, and the interaction of heredity with environment are included.

BIO 495
Genetics Laboratory
Core, Major; Core, Opt., Minor;
1st term
3rd & 4th year
2 units; 4 hrs. Lab./wk.

Laboratory work is devoted to the breeding of Drosophila and the study of the mutations induced by ultraviolet light in microorganisms. Corn and tobacco are also used in the laboratory for demonstrating the fundamental principles of genetics.

BIO 406
Cytology
Core, Opt., Both; 1st term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

A study of the cell and its components at all levels. Topics considered will include cytological techniques and instruments, multiplication and growth, ultrastructure, and chromosome behaviour.

BIO 496
Cytology Laboratory
Core, Opt., Both; 1st term
3rd & 4th year
2 units; 4 hrs. Lab./wk.

Laboratory sessions will emphasize the histochemistry, autoradiography and chromosome technique.

BIO 408
Mariculture
Elective, 2nd term
3rd & 4th year
2 units; 2 hrs. Lect./wk.
This course deals with the theoretical aspects of culturing marine organisms, and with the condition of mariculture in Hong Kong. BIO 308 is a prerequisite.

**BIO 498**  
Mariculture Laboratory  
Elective; 2nd term  
3rd & 4th year  
1 unit; 3 hrs. Lab./wk.

To accompany BIO 408. Practical exercises on the use of maricultural equipment, and the culture of fish, invertebrates, plankton and algae. An introduction to practices used to induce spawning. Visits to maricultural installations, including travelling by boat.

**BIO 409**  
Animal Physiology  
Core, Opt., Both; 1st term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

This course considers both generally and with a comparative approach, the different functions of animals such as muscle contraction, nervous conduction, irritability, integration, reproduction, circulation, respiration, excretion, etc., and the maintenance of a stable internal environment. The adaptive and evolutionary changes in the different classes of animals are discussed and compared.

**BIO 499**  
Animal Physiology Laboratory  
Core, Opt., Both; 1st term  
3rd & 4th year  
2 units; 4 hrs. Lab./wk.

The laboratory work includes experiments illustrating the above phenomena.

**BIO 410**  
Molecular Biology  
Core, Opt., Both; 2nd term  
3rd & 4th year  
3 units; 3 hrs. Lect./wk.

This course considers the nature of gene at the molecular level. The structure, organization, synthesis and biological activities of DNA, RNA with special reference to regulation of RNA and protein biosynthesis will be discussed. Attention will be directed particularly to current concepts and methods of reasoning where applicable.

**BIO 490**  
Molecular Biology Laboratory  
Core, Opt., Both; 2nd term  
3rd & 4th year  
2 units; 4 hrs. Lab./wk.

In the laboratory practicals, the techniques in handling bacterial virus, DNA and RNA preparation, and DNA-RNA hybridization method will be introduced.

**BIO 428**  
Plant Biochemistry  
Core, Opt., Both; 2nd term  
3rd - Grad.  
3 units; 3 hrs. Lect./wk.; fortnightly tutorials
Emphasis of this course will be placed on the biochemical processes which are unique to plants such as the fixation, reduction and assimilation of carbon dioxide and inorganic nitrogenous compounds. Other topics will be the effect of light on plant metabolism other than photosynthesis, and the biochemistry of cell wall substances with special reference to controlling mechanisms in the synthesis of these substances in relation to plant differentiation. Prerequisite: at least one term of Principles of Biochemistry or its equivalent.

BIO 488
Plant Biochemistry Laboratory
Core, Opt., Both; 2nd term
3rd — Grad.
2 units; 4 hrs. Lab./wk.

This laboratory course accompanies course BIO 428.

* BIO 501
Fish Physiology
Elective; 2nd term
4th & Grad.
2 units; 2 hrs. Lect./wk.

This course is designed to extend the basic physiological principles covered in the physiology core courses to fishes. Instead of covering every aspect of fish physiology, this course only attempts to indicate some unique physiological processes in fish and delineate lines of active research. This will include a detailed coverage of piscine cardiovascular, respiratory, osmoregulatory and endocrine physiology. Emphasis will also be laid on the physiological adaptations to changes in the aquatic environment. Prerequisite: Principles of Physiology and Animal Physiology.

* BIO 591
Fish Physiology Laboratory
Elective; 2nd term
4th & Grad.
1 unit; 3 hrs. Lab./wk.

This laboratory course accompanies course BIO 501.

BIO 507
Advanced Genetics
Elective; 2nd term
4th & Grad.
2 units; 2 hrs. Lect./wk.

This course deals with recent advances in genetics. Topics to be discussed will vary from year to year. However, the course will emphasize three aspects, e.g. gene concepts, the role of genes in development and behaviour genetics. Open to students who have had general genetics or its equivalent.

BIO 597
Advanced Genetics Laboratory
Elective; 2nd term
4th & Grad.
1 unit; 3 hrs. Lab./wk.

This laboratory course accompanies course BIO 507.

*Not offered in 1980-81
BIO 526
Comparative Endocrinology
Elective; 2nd term
4th & Grad.
2 units; 2 hrs. Lect./wk.

This course presents a survey of the structure and function of various endocrine tissues/glands in the vertebrates (without special emphasis on mammals) and invertebrates (mainly insects and crustaceans).

BIO 596
Comparative Endocrinology Laboratory
Elective; 2nd term
4th & Grad.
1 unit; 3 hrs. Lab./wk.
The laboratory course accompanies course BIO 526.

Examination Scheme

Major Programme
The six Degree Papers for Biology major students are as follows:

a) Papers 7 and 8;
b) One paper from 2, 6 or 9;
c) One paper appropriate to the respective streams, viz
   Stream A: one paper from 9, 6 or 2
   Stream B: one paper from 12 and 14
   Stream C: 11
   Stream D: 5
   Stream E: 1
d) Plus two more Papers from the selected stream.

Minor Programme
Biochemistry/Chemistry students minoring in Biology are required to take two papers from Papers 2, 3, 5, 6, 7, 9, 10, 11, 13 or 14 in their Parts I and II Examinations or other papers approved by the Board concerned.

Geography students minoring in Biology are required to take two papers from Papers 1, 2, 6, 8, 12 and 14 in their Parts I and II Examinations or other papers approved by the Board concerned.

Those beginning Biology in their second year can take Papers 15 or 16 in their Part I Examination and one paper from Papers listed above depending on their Major subject.

Course Description

CHM 101/102
General Chemistry
Core, Both; Year
1st year
6 units; 3 hrs. Lect./wk. +
1 hr. tutorial/fortnight

CHM 181/182
General Chemistry Laboratory
Core, Both; Year
1st year
1 unit;
one 3 hrs. Lab./fortnight

To be taken in conjunction with General Chemistry. Laboratory work consists of elementary inorganic preparations, volumetric analysis and some physical chemistry experiments.

*Not offered in 1980-81
CHM 027/028
Guided Studies in Chemistry

Core, Major; STOT\(^1\); Year
2nd year
2 units; 1 hr. STOT/wk.

This course is conducted in small groups under the supervision of the lecturing staff. Its contents are closely related to those of CHM 230, 240, 231 and 220.

CHM 220
Organic Chemistry I

Core, Major; 2nd term
2nd year
3 units; 3 hrs. Lect./wk.

Fundamental concepts in structure, chemical bonding, stereochemistry, and physical properties of carbon compounds. Preparations, physical properties, and chemical reactions of aliphatic and aromatic hydrocarbons.

Stereochemistry, types of reagents and reaction mechanisms, spectroscopy, and modern theories in the interpretation of structures.

Prerequisite: General Chemistry.

CHM 230
Physical Chemistry I

Core, Major; 1st term
2nd year
3 units; 3 hrs. Lect./wk.

Thermodynamics. Applications to phase equilibria, solutions, chemical equilibria, electrochemistry and living systems.

Prerequisites: General Chemistry, General Physics, and Calculus.

CHM 283
Physical Chemistry Laboratory I

Core, Major; 2nd term
2nd year
2 units; one 4 hrs. Lab./wk.

To be taken in conjunction with CHM 230. This course attempts to acquaint the students with the basic principles of thermodynamics and the applications to chemical and phase equilibria.

CHM 240
Analytical Chemistry

Core, Major; 1st term
2nd year
3 units; 3 hrs. Lect./wk.

\(^1\)Student-orientated Teaching
Prerequisite: General Chemistry.

CHM 284
Analytical Chemistry Laboratory
Core, Major; 1st term
2nd year
4 units; two 4 hrs. Lab./wk.
To be taken in conjunction with CHM 240. The laboratory work covers quantitative determinations by volumetric gravimetric and elementary instrumental methods of analysis.

CHM 280
Integrated Laboratory I
Core, Major; 2nd term
2nd year
2 units; one 4 hrs. Lab./wk.
To be taken after or in conjunction with CHM 220 and CHM 240. The laboratory work covers instrumental analysis and basic operations in organic chemistry.

CHM 231
Chemical Bonding
Core, Major; 2nd term
2nd year
3 units; 3 hrs. Lect./wk.
Prerequisites: General Chemistry, Calculus, and General Physics.

CHM 225/226
Organic Chemistry (Minor)
Core, Minor; 2nd year
1st term: 3 units; 3 hrs. Lect./wk.
2nd term: 2 units; 2 hrs. Lect./wk.
Prerequisite: General Chemistry.

CHM 287
Organic Chemistry (Minor) Laboratory
Core, Minor; 2nd term
2nd year
2 units; one 4 hrs. Lab./wk.
To be taken in conjunction with CHM 226. Experiments are designed to illustrate the principles of reactions covered in the lectures.

CHM 245
Analytical Chemistry (Minor)
Core, Minor; 2nd term
2nd year
3 units; 3 hrs. Lect./wk.
Special course designed for biochemistry and biology majors covering the basic aspects of analytical chemistry.

CHM 289 Analytical Chemistry (Minor) Laboratory
Core, Minor; 2nd term
2nd year
2 units; one 4-hrs. Lab./wk.
To be taken in conjunction with CHM 245. The laboratory work covers quantitative determinations by volumetric, gravimetric and elementary instrumental methods of analysis.

CHM 312/313 Inorganic Chemistry I/II
Core, Major; Year
3rd or 4th year
4 units; 2 hrs. Lect. + 1 hr. Tut./wk.
Prerequisite: CHM 231.

CHM 322/323 Organic Chemistry II/III
Core, Major; Year
3rd year
4 units; 2 hrs. Lect./wk.
Continuation of CHM 220. Systematic studies of the preparations, physical properties and chemical reactions of mono- and bi-functional groups: halides, alcohols, phenols, ethers, epoxides, glycols and glycerols, aldehydes and ketones, carboxylic acids and derivatives, amines and ketoacids.
Prerequisite: CHM 220.

CHM 381/382 Organic Chemistry Laboratory II/III
Core, Major; Year
3rd year
4 units; one 4-hrs. Lab./wk.
To be taken in conjunction with CHM 322/323 Laboratory work consists of experiments designed to illustrate the more important procedures and manipulation encountered in organic chemistry.

CHM 332/333 Physical Chemistry II/III
Core, Major; Year
3rd year
4 units; 2 hrs. Lect./wk.
Chi, Physical Chemistry, Chinese ed.
Prerequisite: CHM 230.

CHM 383/384
Physical Chemistry Laboratory II/III
Core, Major; Year
3rd year
2 units; one 4-hrs. Lab./fortnight
To be taken in conjunction with CHM 332/333. The practical work deals with the application of principles related to the lectures.

CHM 335
Physical Chemistry (Minor)
Core, Minor; 1st term (offered in alternate year)
3rd or 4th year
3 units; 3 hrs. Lect./wk.
Thermodynamics, electrochemistry, chemical kinetics, macromolecules, radiochemistry, with emphasis on biochemical relevance.
Prerequisite: General Chemistry.

CHM 420
Organic Chemistry IV
Core, Major; Either term
4th year
2 units; 2 hrs. Lect./wk.

CHM 430
Physical Chemistry IV
Core, Major; Either term
4th year
2 units; 2 hrs. Lect./wk.

CHM 480
Integrated Laboratory II
Core, Major; 1st term
4th year
1 unit; one 4-hrs. Lab./fortnight
Laboratory work involves more advanced experiments in physical chemistry.

CHM 041
Seminar
Core, Major; STOT; Year
4th year
2 units; 1 hr. wk.
Oral and written reports on important topics from the current chemical literature.
CHM 481
Inorganic Chemistry Laboratory
Core, Major; 2nd term
4th year
2 units; one 4-hrs. Lab./wk.
To be taken after or in conjunction with CHM 312/313.
Laboratory work covers inorganic syntheses, modern techniques of
analysis, and experiments designed to illustrate the theoretical
principles.

CHM 410
Inorganic Chemistry III
Core, Major; Either term
4th year
2 units; 2 hrs. Lect./wk.
Continuation of Inorganic Chemistry 1 and II; may be taken con-
currently with the latter. Discussion of two or more of the following
topics: Symmetry in inorganic chemistry. Organometallic chemistry.
Inorganic chains, rings, and cages. Inorganic reaction mechanisms.

* CHM 415/416
Inorganic Chemistry (Minor)
Core, Minor; Year
(offered in alternate years)
3rd or 4th year
4 units; 2 hrs. Lect./wk.
Bonding and stereochemistry. Types of ligands and their complexes.
Stability and reactions of coordination compounds. Structural formulas
and isomerism. Inorganic chemistry in biological systems.
Prerequisite: General Chemistry.

**Elective Courses**
The following courses are for 4th year and graduate students. The
topics offered usually change from year to year and not all of them
will be offered every year. Each course is weighted as a half-paper in the
Part II Degree Examination.

(a) **Selected Topics in Analytical Chemistry**
CHM 441 Instrumental Analysis
Year: 2 or 3 units

(b) **Selected Topics in Applied Chemistry**
*CHM 401/402 Fundamentals of Chemical
   Engineering I/II
Year: 4 units

*CHM 403 Medicinal Chemistry of
   Chinese Herbs
Term: 2 units

*CHM 404 Polymer Chemistry
Term: 2 units

*CHM 405 Textile Chemistry
Term: 3 units

CHM 406 Environmental Chemistry
Term: 2 units

*Not offered in 1980-81
(c)  *Selected Topics in Inorganic Chemistry*

*CHM 451  Inorganic Reaction Mechanisms  Term: 2 units
*CHM 452  Physical Methods in Inorganic Chemistry  Term: 2 units
CHM 453  Organometallic Chemistry  Term: 2 units

(d)  *Selected Topics in Organic Chemistry*

*CHM 461  Organic Photochemistry  Term: 2 units
CHM 462  Synthetic Methods in Organic Chemistry  Term: 2 units
*CHM 463  Stereochemistry  Term: 2 units
CHM 464  Instrumental Methods in Organic Chemistry  Term: 2 units
*CHM 465  Pericyclic Reactions  Term: 2 units
*CHM 466  Organic Reaction Mechanisms  Term: 2 units
*CHM 467  Organic Mass Spectrometry  Term: 2 units

(e)  *Selected Topics in Physical Chemistry*

*CHM 471  Quantum Chemistry  Term: 2 units
*CHM 472  Molecular Spectroscopy  Term: 2 units
*CHM 473  Radiochemistry  Term: 2 units
CHM 474  Chemical Kinetics  Term: 2 units
*CHM 475  Applied Physical Chemistry  Term: 2 units
CHM 476  X-ray Crystallography  Term: 2 units

*Research Project*

*CHM 499  Research Project  Year: 4 units

Examination Scheme

**Major Programme**

All 6-2 Chemistry Majors are required to take:

(a)  three full papers in their Part I Examination: Papers 1, 2 and 3
(b)  Equivalent to three full papers in their Part II Examination taking at least two from Papers 11, 12 and 13 (weight half-paper each) and choose from selected topics Papers 4, 5, 6, 7 and 8 (weight half-paper each), Paper 10 and Biochemistry Paper 1C (weight one Paper each).

All 4-2-2 Chemistry Majors are required to take:

(a)  two full papers in their Part I Examination: Papers 2 and 3
(b)  Equivalent to two full papers in their Part II Examination: Paper 1 and two half-papers selected from Papers 4, 5, 6, 7, 8, 11, 12 and 13.

*Not offered in 1980-81*
The Degree classification for Chemistry majors will be based on both the Degree Paper results and the Grade Point Average of all Chemistry courses except General Chemistry.

**Minor Programme**

All students minoring in Chemistry are required to take Paper 14 and Paper 15 in their Part I/II Examinations. These two papers may be offered in alternate years.

## Course Description

**CSC 111 Computer Principles and Programming Fundamentals**
Core, Both; 1st term; 1st year
Elective, others; Both terms
1st-Grad.
3 units; 2 hrs. Lect.+1 hr. Tut./wk.

Introduction to programming in high-level language. Algorithms, computer organization and solution of simple problems. Intended for students who want a general knowledge of computers. Prerequisite: None.

**CSC 112 Introduction to Computer Science (Major)**
Core, Major; 2nd term
1st year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.

CSC 201 Logic Design and Switching Theory
Core, Major; 1st term
2nd year
3 units; 2 hrs. Lect. + 1 hr. Lab./wk.

Number systems, codes, and switching algebra; design of time-independent and time-dependent logic circuits; their organization into data processing and computing systems. Prerequisite: CSC 112

CSC 202 Machine Structure and Assembly Language Programming
Core, Major; 2nd term
2nd year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.

Binary and hexadecimal number systems. Description of machine organization, including memory, addressing schemes, registers, and data channels. Internal representation of data and instructions. Assembly language programming. Program segmentation and subroutine linking. Macro definition and use. Applications. Prerequisites: CSC 112, CSC 201.

CSC 211 Introduction to Computer Science
Core, Minor; year
2nd year
6 units; 2 hrs. Lect. + 1 hr. Tut./wk.

This course is designed to provide the basic knowledge and use necessary to use computers effectively in the solution of problems. It is an introductory course for prospective minors in Computer Science. Algorithms, programmes and computers. Basic programming and programme structure. Programming and computing systems. Debugging and verification of programmes. Data representation. Organization and characteristics of computers. Survey of computers, languages, systems and applications. Computer solution of several numerical and non-numerical problems using one or more programming languages. Algorithmic languages. Prerequisite: CSC 111.

CSC 221 Data Processing and COBOL Programming
Core, Major; Opt., Minor; 1st term
2nd year; Elective, others
Both terms; 2nd — Grad.
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.

Information structure in COBOL: files, records and fields. Structure of a COBOL Programme. Concepts of Structured Programming. Details of the four COBOL divisions. Data processing cycle and file processing on tapes and discs. System flowcharts. Several exercises and programming problems will be presented for solution. Prerequisite: CSC 111.
CSC 222
Introduction to Information Systems (Major)
Core, Opt., Major
2nd term, 2nd year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
Study of information systems in relation to both operational and decision-making activities in an organization. The role of the information analyst and systems designer. The development cycle of information processing systems; project control, and tools and techniques used in information systems analysis and design. Prerequisites: CSC 112, CSC 221.

CSC 231
Introduction to Numerical Methods
Core, Major; Opt., Minor,
Both terms,
2nd year; Elective, others
Both terms; 2nd — Grad.
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
An introduction to the numerical algorithms fundamental to scientific computing work. Includes elementary discussion of error, polynomial interpolation, quadrature, linear systems of equations, solution of non-linear equations and numerical solution of ordinary differential equations. The algorithmic approach and the efficient use of the computer are emphasized. Prerequisites: CSC 111, PMA 101.

CSC 301
Data Structures I
Core, Major; 1st term; 3rd year
Core, Minor; 1st term; 4th year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
This course introduces the student to the relations which hold among the elements of data involved in problems, the structures of storage media and machines, the methods which are useful in representing structured data in storage and the techniques for operating upon data structures.

External and internal representation of information. Representation of arrays, linear lists (stacks, queues and deques) and trees. Multilinked structures. Symbol tables and searching techniques. Sorting (ordering) techniques.

CSC 302
Data Structures II
Core, Major; 2nd term
3rd year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
A rigorous course in the theory and applications of Data Structures. Continuation of CSC 301.

CSC 303/304
Computer Systems (Hardware and Software) I/II
Core, Major; year
3rd year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
CSC 305
Introduction to System Programming
Core, Both; Both terms
3rd year
3 units; 2 hrs Lect.+1 hr. Tut./wk.
System programming is presented in such a way as to emphasize how hardware and software complement each other.

Hardware and software control of input/output devices. Control structure, logic and microprogramming. Multiprogramming, multiprocessing and time-sharing, the assembler. Introduction to compiling techniques.

CSC 306
Real-Time Computer System
Core, Major; 2nd term
3rd year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
This course aims to equip the student with basic ideas of real time computer systems. The design, analysis and management of real time data processing systems will be studied. Although the concept of operating system support will be introduced, the main emphasis of this course is on commercial real-time application systems. Examples from existing real time data processing systems, such as banking and airline reservation system will be studied.

CSC 311
Elementary Computer Organization
Core, Minor; Both terms
3rd year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
This course is designed to familiarize the student with the basic structure and language of machines and so give him a better understanding of the internal behaviour of computers.

CSC 321
Information Systems Analysis
Core, Both; 1st term
3rd year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
This course lays the groundwork for CSC 421, and bridges the gap between the tools and techniques, and the management practitioner, providing an understanding of how they should be used to create viable management information systems. Industrial engineering tools. Computer-oriented techniques. Operations Research techniques.

CSC 331
Numerical Methods I
Core, Both; 1st term
3rd year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
A thorough treatment of solutions of equations, interpolation and approximations, numerical differentiation and integration and the numerical solution of initial value problems in ordinary differential equations. Selected algorithms will be programmed for solution on computers.
CSC 412
Programming Languages
Core, Minor; 2nd term
4th year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
This course is designed to present a systematic approach to the study of programming languages and thus provide the student with the knowledge necessary to learn and evaluate such languages.

Formal definition of programming languages including specification of syntax and semantics. Simple statements including precedence, infix, prefix and postfix notation. Global properties of algorithmic languages including scope of declarations, storage allocation, grouping of statements, binding time of constituents, subroutines, coroutines and tasks. List processing, string manipulation, data description and simulation languages. Run-time representation of programme and data structures.

CSC 421
System Design and Implementation
Core, Major; 2nd term; 3rd year
Core, Minor; 2nd term; 4th year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
This course is the second covering the system life cycle. The lectures focus on underlying principles of design and implementation as well as on techniques. The techniques are utilized in the project. Selected topics on Information Systems administration, Information Systems for Operating, Management Control, Planning and Organization are discussed.

CSC 431
Numerical Methods II
Core, Major; 2nd term; 3rd year
Core, Minor; 2nd term; 4th year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.
This course is designed as an introduction to numerical linear algebra and its application.

The solution of linear systems by direct and iterative methods, matrix inversion, the evaluation of determinants and the calculation of eigenvalues and eigenvectors of matrices. Application to boundary value problems in ordinary differential equations. Introduction to the numerical solution of partial differential equations. Selected algorithms will be programmed for solution on computers.

Examination Scheme

Major Programme
6-2 majors are required to take:
(a) Papers 11, 12 and one from Papers 13, 14, 15 in their Part I Examination.
(b) Papers for Part II Examination to be announced.
Minor Programme

All students minoring in Computer Science are required to take:
(a) Paper 1 in their Part I Examination and Paper 4 in their Part II Examination, OR
(b) Paper 2 in their Part I Examination and Paper 5 in their Part II Examination, OR
(c) Paper 3 in their Part I Examination and Paper 6 in their Part II Examination.

Degree Papers

Paper 1 — Computer Science I (Minor)
   CSC 311   Elementary Computer Organization
   CSC 305   Introduction to System Programming

Paper 2 — Information Systems I (Minor)
   CSC 311   Elementary Computer Organization
   CSC 321   Information Systems Analysis

Paper 3 — Numerical Methods I (Minor)
   CSC 311   Elementary Computer Organization
   CSC 331   Numerical Methods I

Paper 4 — Computer Science II (Minor)
   CSC 301   Data Structures I
   CSC 412   Programming Languages

Paper 5 — Information Systems II (Minor)
   CSC 301   Data Structures I
   CSC 421   System Design and Implementation

Paper 6 — Numerical Methods II (Minor)
   CSC 301   Data Structures I
   CSC 431   Numerical Methods II

Paper 11 — Data Structures
   CSC 301   Data Structures I
   CSC 302   Data Structures II

Paper 12 — Computer Systems
   CSC 303   Computer Systems I (Hardware and Software)
   CSC 304   Computer Systems II (Hardware and Software)

Paper 13 — System Programming and Real-time Applications
   CSC 305   Introduction to System Programming
   CSC 306   Real-time Computer System

Paper 14 — Systems Analysis and Design
   CSC 321   Information Systems Analysis

ELE 205  Applied Physics and Thermodynamics  Core, Major; 1st term  2nd year  2 units; 2 hrs. Lect.+ 1 hr. Tut./wk.

ELE 206  Electrical Machines  Core, Major; 2nd term; 2nd year  Core, Minor; 2nd term; 3rd year  2 units; 2 hrs. Lect.+ 1 hr. Tut./wk.

ELE 231  Instrumentation  Elective, Major; 2nd term  2nd year  1 unit; 1 hr. Lect.+ ½ hr. Tut./wk.

ELE 232  Instrumentation and Measurement  Elective, Non-major; 1st term  1st - 3rd year  2 units; 2 hrs. Lect.+ 1 hr. Tut./wk.

ELE 281/ELE 282
Second Year Experiments
Core, Major; 2 terms
2nd year
4 units; 4 hrs. Lab./wk.

ELE 283
Engineering Drawings
Core, Major; 2nd term
2nd year
2 units; 4 hrs. Lab./wk.

ELE 291/ELE 292
Second Year Experiments
Core, Minor; 2 terms
3rd year
2 units; 2 hrs. Lab./wk.

ELE 301
Electronic Circuits I
Core, Major; 2nd term
3rd year
2 units; 2 hrs. Lect. + 1 hr. Tut./wk.
Switching characteristics of transistors in pulse circuits: steady state and transient. Linear and diode wave-shapings. Multivibrators: analysis and applications. Principle and applications of negative-resistance devices: as multivibrators. Time-base generators. General topics: e.g. blocking oscillators, pulse transformer, phase sensitive detector, PLL etc.

ELE 302
Digital Techniques
Core, Major; 1st term; 3rd year
Core, Minor; 1st term; 3rd year
2 units; 2 hrs. Lect. + 1 hr. Tut./wk.

ELE 303
Communications
Core, Major; 1st term
3rd year
2 units; 2 hrs. Lect. + 1 hr. Tut./wk.
Introduction to concepts of information and information capacity. Limits of information transfer. Time and frequency relationship. C.W. modulation and demodulation: amplitude, phase and frequency modulations. Pulse modulation and demodulation: PAM, PDM and PPM. Link between CW and pulse modulation. Information band-width and sampling theorem. Digital modulation and demodulation: PCM, quantisation noise and intersymbol interference. Transmission of PCM pulses, OOK FSK PSK. Modulators and demodulators; circuits for AM, FM and PM.
ELE 304
Semiconductors and Devices
Core, Major; 1st term; 3rd year
Core, Minor; 1st term; 3rd year
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

ELE 305
Basic Probability and Quantum Theory
Core, Major; 2nd term
3rd year
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

Random variables: discrete and continuous probability; distribution functions; mean and standard deviation; conditional probability, independence and conditional independence; Bayes’ theorem; law of large numbers. Stochastic processes; stationarity, ergodicity, correlation, power density spectrum. Introduction to quantum physics. Operator formalism. Postulates and Schrödinger equation. Simple cases; potential well and barrier, simple harmonic oscillator. Tunneling and thermionic electronic emission.

ELE 306
Control
Core, Major; 2nd term
3rd year
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

ELE 307
High Frequency Techniques
Core, Major; 1st term
3rd year
2 units; 2 hrs. Lect.+1 Tut./wk.

Principles and characteristics of transmission lines. Impedance concepts, matching, etc. Smith charts and their uses. Maxwell’s Equation. Rectangular and circular waveguides. Antennas and radiation. High frequency measurement techniques.

ELE 381/ELE 382
Third Year Experiments
Core, Major; 2 terms; 3rd year
(Scheme C, 3rd & 4th year)
4 units; 4 hrs. Lab./wk.
ELE 391/ELE 392
Third Year Experiments
Core, Minor; 2 terms
4th year
2 units; 2 hrs. Lab./wk.

ELE 041/042
Fourth Year Project
Core, Major, STOT\(^1\); Year
4th year
1st term: 4 units
2nd term: 6 units
4 afternoons/wk.

The student independently proposes and performs active experimental or theoretical research on a current topic of electronics under the supervision of a staff member.

ELE 401
Microprocessors and Mini-computer Techniques
Comparisons on microprocessors to minicomputers and other LSI devices, Microprocessor architecture, Assembly language instruction set, Assemblers and assembly language programming, Software design and development, Timing and control, Memory system, Input/Output and interrupts.

Core, Opt., Major; 1st term
4th year
2 units; 2 hrs. Lect.+ 1 hr. Tut./wk.

ELE 402
Sampled Data Control System

Core, Opt., Major; 2nd term
4th year
2 units; 2 hrs. Lect.+ 1 hr. Tut./wk.

ELE 403
Communication Systems

\(^{1}\)Not offered in 1980-81.

\(^{2}\)Student-orientated Teaching.
ELE 404  
Microwave Engineering  
Core, Opt., Major; 2nd term  
4th year  
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

ELE 405  
Analog and Hybrid Techniques  
Core, Opt., Major; 1st term  
4th year  
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

ELE 406  
Theory and Technology of Semiconductor Devices  
Core, Opt., Major; 2nd term  
4th year  
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

ELE 407  
Network Theory  
Core, Opt., Major; 1st term  
4th year  
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

ELE 408  
Antenna Theory  
Core, Opt., Major; 2nd term  
4th year  
2 units; 2 hrs. Lect.+1 hr. Tut./wk.
Green’s function for the wave equation. Radiation patterns of linear antennas, the loop antenna, and the cross dipole. The receiving antenna. Self and mutual impedances of antennas. Linear array theory. Reflector and aperture antennas.
ELE 409  
Quantum Electronics  
Core, Opt., Major; 2nd term  
4th year  
2 units; 2 hrs. Lect.+1 hr. Tut./wk.

ELE 410  
Digital Signal Processing  
Core, Opt., Major; 1st term  
4th year

ELE 491/ELE 492  
Design Exercise  
Core, Major, STOT; 2-Term  
4th year  
4 units; 4 hrs. Lab./wk.
The student independently proposes and performs active experimental or theoretical research on a current topic of electronics under the supervision of a staff member.

Examination Scheme

Major Programme

Third Year Majors — The students, in consultation with the Department, may choose to follow one of the following schemes:

Scheme A: I-1  
Advanced Electronics 1 (4 units):  
courses ELE 303, ELE 307

I-2  
Advanced Electronics 2 (4 units):  
courses ELE 302, ELE 304
I-3 Advanced Electronics 3 (4 units):
courses ELE 301, ELE 306
Experiments: ELE 381/ELE 382 (4 units)

Scheme B: Any two papers from I-1, I-2 and I-3
Experiments: ELE 381/ELE 382 (4 units)

Scheme C: (Work-Study Programme)
I-1 Advanced Electronics 1 (4 units):
courses ELE 303, ELE 307
I-2 Advanced Electronics 2 (4 units):
courses ELE 302, ELE 304
Experiments: ELE 381 (2 units)

Fourth Year Majors
Scheme A: II-1 Microprocessors, Digital Signal Processing
courses ELE 401, ELE 410
II-2 Advanced Digital Systems, Communications
courses ELE 403, ELE 411
II-3 Microwave Engineering, Antennas
courses ELE 404, ELE 408
II-4 Semiconductor Devices, Quantum
courses ELE 406, ELE 409
II-5 Analog Techniques, Network Theory
courses ELE 405, ELE 407
(Any three papers; Total: 12 units)
Project: ELE 041/ELE 042 (10 units)

Scheme B: (Any two papers; Total: 8 units)
Design exercise: ELE 491/ELE 492 (4 units)

Scheme C: (Work-Study Programme)
I-3 Advanced Electronics 3 (6 units):
courses ELE 301, ELE 306
Any one paper in fourth year (4 units)
Experiments: ELE 382 (2 units)
Project: ELE 041/ELE 042 (10 units)

Fifth Year Majors – Work-Study Programme only: any two other
papers (8 units)

Minor Programme

Third Year Minors
(Prerequisites: ELE 101 and ELE 102)
I-4 Fundamental Electronics (6 units):
courses ELE 201, ELE 203, ELE 206
Experiments: ELE 291/ELE 292 (2 units)

Fourth Year Minors
II-6 Advanced Electronics 1 (4 units):
Any one paper in third year
Experiments: ELE 391/ELE 392 (2 units)

- PMA 121 Mathematics for Business Administration (6 units; 3 hrs. Lect. + 1 hr. Tut./wk.)
- PMA 123 Mathematics for Social Science (6 units; 3 hrs. Lect. + 1 hr. Tut./wk.)
- PMA 131/132 Perspectives in Mathematics (3 units; 3 hrs. Lect. + 1 hr. Tut./wk.)
- AMA 123 Mathematics for Application (6 units; 3 hrs. Lect. + 1 hr. Tut./wk.)

Second
- AMA 221 Advanced Mathematics for Business Administration (6 units; 3 hrs. Lect. + 1 hr. Tut./wk.)

Course Description

AMA 123 Mathematics for Application (Elective; Year; 1st year)

This course gives a systematic introduction to the mathematics needed for the study and application of statistical and analytic methods in the Social, Economics, and other Sciences.

AMA 201 Statistical Methods (Core, Major; 1st term)

2nd year
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.

The fundamental principles of the following topics will be discussed: Probability theory, statistical estimation, tests of statistical hypothesis and analysis of variance.

AMA 202 Methods of Differential Equations (Elective, Major; 1st term)

2nd year
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.
This course introduces the student to the elementary methods of solving ordinary differential equations. Some partial differential equations are also considered.

AMA 221  
Advanced Mathematics for Business Administration  
Elective; 2nd term  
2nd year  
3 units; 3 hrs. Lect.+1 hr. Tut./wk.
A one-term continuation of the first year course giving further mathematical concepts and methods for application in the Social Science, including some probability and statistics.

AMA 301  
Operations Research  
Core, Optional, Both; Year  
3rd year  
6 units; 3 hrs. Lect.+1 hr. Tut./wk.
The basic methods of operations research will be explained. Topics treated include: the theory of games, linear programming and its applications, introduction to dynamic programming, nonlinear programming, and the theory of queues.

AMA 311  
Methods of Statistics  
Core, Optional, Minor; Year  
3rd/4th year  
6 units; 3 hrs. Lect.+1 hr. Tut./wk.
This course is an expansion of AMA 201, preparing students for a minor degree paper in the subject.

AMA 401  
Mathematical Statistics  
Core, Optional, Major; Year  
4th—Grad.  
6 units; 3 hrs. Lect.+1 hr. Tut./wk.
This course is intended as an introduction to the mathematical theory of statistics for students of mathematics. The emphasis is on basic concepts and the theory underlying statistical methods.

*AMA 402  
Differential Equations  
Core, Optional; Major; Year  
4th—Grad.  
6 units; 3 hrs. Lect.+1 hr. Tut./wk.
This course provides a mathematical study of the theory and application of differential equations.

*AMA 403  
Optimization Theory  
Core, Optional, Both; Year  
4th—Grad.  
6 units; 3 hrs. Lect.+1 hr. Tut./wk.
The purpose of this course is to present the theory of optimization in the finite dimensional case. Topics include: unconstrained and linear constrained extrema; applications to matrices and quadratic forms; the

*Not offered in 1980-81
Lagrange multiplier rule; general constrained minimization problems, augmentability and range and Lagrange multipliers; the calculus of variation.

AMA 404  
Control Theory  
Core, Optional, Both; Year  
4th--Grad.  
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.  
This course covers the fundamentals of control theory with emphasis on state-space structures; controllability and observability; aspects of the theory of optimal control and differential games. Numerical methods will also be included.

PMA 021  
Topics in Modern Mathematics  
Core, Major, STOT; Year  
2nd Year  
4 units; 2 hrs./wk.  
This is a course conducted with student-orientated teaching. Topics for small-group discussion may be chosen from but not confined to metric spaces and applications, basic principles and computational technique in elementary complex analysis, projective geometry.

PMA 031  
Pro-Seminar  
Core, Optional Major, STOT; Year  
3rd year  
4 units; 2 hrs. STOT/wk.  

PMS 032  
Pro-Seminar  
Core, Optional Major, STOT; Year  
3rd year  
4 units; 2 hrs. STOT/wk.  

PMA 041  
Seminar  
Core, Optional Major, STOT; Year  
4th year  
4 units; 2 hrs. STOT/wk.  
PMA 042
Seminar
Core, Optional Major, STOT; Year 4th year
4 units; 2 hrs. STOT/wk.

PMA 101
Calculus and Linear Algebra
Core, Major; Year 1st year
6 units; 3 hrs. Lect. + 2 hrs. Tut./wk.
Functions of one variable, limits of sequences and functions, the differential and integral calculus with applications. The fundamental theory of matrices and determinants.

PMA 111
Mathematical Methods I
Core, Minor; Year 1st year
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.
This course is split into subgroups with slightly different syllabus. The content is a selection of basic principles and techniques from differential and integral calculus, linear algebra and statistics.

PMA 121
Mathematics for Business Administration
Elective; Year 1st year
6 units; 3 hrs. Lect. + 2 hrs. Tut./wk.
An introduction to the Calculus and Matrix Algebra with applications, necessary for the study of Business Administration.

PMA 123
Mathematics for Social Science
Elective; Year; 1st year
6 units; 3 hrs. Lect. + 1 hr. Exer./wk.
This course gives a systematic introduction to the mathematics needed for the study and application of statistical and analytic methods in the Social, Economics, and other Sciences. This course is designed for the student with a stronger mathematical background.

PMA 131/132
Perspectives in Mathematics
Elective; Both term; Extra-field 1st year; 3 units each term
3 hrs. Lect. + 1 hr. Exer./wk.
This course is designed for interested students with a minimum of mathematical experience. Particular emphasis will be laid on the nature of mathematical reasoning, related to the number system, aspects of algebra, functions, probability and statistics.

PMA 151
Pro-Seminar
Elective, Both; Year 1st year
6 units; 3 hrs./wk.
Topics covered in this course include: Operations of sets, relations and mappings, product set and quotient set, the Peano axioms, ordered sets, the axiom of choice and Zorn's lemma, well-ordered sets, the Bernstein theorem, denumerability and non-denumerability, ordinal numbers and cardinal numbers.
PMA 201
Advanced Calculus
Core, Major; Year
2nd year
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.

Vectors in 3-dimensional Euclidean space, functions of several variables, differential and integral calculus, line and surface integrals, series of functions, improper integrals.

PMA 202
Advanced Linear Algebra
Core, Major; Year
2nd year
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.
Topics covered include: abstract vector spaces, linear maps, matrix, Jordan canonical form, bilinear form and duality.

*PMA 203
Elementary Complex Analysis
Elective, Major; 2nd term
2nd year
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.

This is a first course on the subject with emphasis on basic principles and computational techniques.

PMA 204
Algebraic Structures
Core, Major; 2nd term
2nd year
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.

The course includes an introductory survey of the basic algebraic structures with internal laws of operations: semigroups, groups, rings and fields. Particular attention is directed to quotient structures and the theory of factorisation in a Euclidean Domain.

*PMA 205
Elementary General Topology
Elective, Major; 2nd term
2nd year
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.

This is a first course on general topology with emphasis on metric spaces and applications.

PMA 211
Advanced Mathematical Methods II
Core, Minor; Year
2nd year
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.

The course includes the differential and integral calculus of several variables and applications, infinite series including Fourier series and elementary ordinary differential equations.

PMA 301
Real Analysis
Core, Major; Year
3rd year
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.

*Not offered in 1980-81
Topics covered in this course include: properties of measurable sets, measurable functions, the Lebesgue integral, absolute continuity and the Radon-Nikodym theorem, \( L_p \)-spaces, product measure and iterated integrals, the Daniel integral and Stone's theorem, introduction to Fourier transforms.

PMA 302  
General Topology  
Core, Optional, Major; Year  
3rd year  
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.

Topics covered include Hausdorff spaces, Regular and normal space, Tietz's extension theorem, compact and locally compact spaces, compactification, metrization theorems, uniformity, function spaces.

PMA 303  
Algebra  
Core, Optional, Major; Year  
3rd year  
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.

Topics covered in this course include: groups, abelian groups, categories and functors, modules, integral domains, semi-simple rings, Ext and Tor, field theory.

*PMA 304  
Probability Theory  
Elective, Major; 2nd term,  
3rd year  
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.

This is a first course on the mathematical theory of probability.

PMA 305  
Complex Analysis  
Core, Optional, Major; Year  
3rd/4th year  
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.

A basic course in complex analysis. Topics covered included: Complex numbers and complex functions, Cauchy's theorem and applications, series expansions, residues, harmonic functions, conformal mappings, Riemann surfaces.

PMA 312  
Complex Variable Theory  
Core, Optional, Minor; Year  
3rd/4th year  
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.

The course covers the basic theorems and techniques of analytic functions, to prepare students for a minor paper in the subject.

PMA 402  
Functional Analysis  
Elective, Major; Year  
4th—Grad.  
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.

Topics covered in this course include: the algebras of bounded continuous functions, Stone Weierstrass theorems, normed linear space and Banach spaces, Hilbert space and Banach algebras.

*Not offered in 1980-81.
PMA 403
Differential Geometry
Elective, Major; Year
4th year
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.

PMA 404
Topics in Algebra
Elective, Major; Year
4th—Grad.
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.
Topics will be selected from: Linear algebra and representations, commutative algebras, homological algebras.

*PMA 405
Algebraic Topology
Elective, Major; Year
4th year—Grad.
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.
The course will cover: homotopy and the fundamental group; covering spaces and fibrations, polyhedra, homology, products and general cohomology theory and duality.

Examination Scheme

Major Programme
6-2 Majors are required to take:
(a) Three papers from Papers 1, 2, 3, 4, 5 in their Part I Examination.
(b) Three papers from Papers 5, 12, 13, 14, 15, 21, 22, 23, 24 in their Part II Examination.

4-2 Majors are required to take:
(a) Two papers from Papers 1, 2, 3, 4, 5 in their Part I Examination.
(b) Two papers from Papers 5, 12, 13, 14, 15, or one paper from Papers 1, 2, 3, 5, 12, 13, 14, 15 and one from Papers 4, 21, 22, 23, 24 in their Part II Examination.

No duplication with either Part I or Minor subject degree paper is allowed.

Minor Programme
All students minoring in Mathematics are required to take Paper 31 or Paper 32 in their Part I Examination and one paper from Papers 4, 24, 31, 32 (excluding that passed in Part I) in their Part II Examination.

*Not offered in 1980-81.

First Year Potential Majors are required to take PHY 101/102, 181/182 and PMA 111. First Year Minors shall take PHY 103/104 or PHY 105/106 or PHY 107/108 and PHY 181/182.

Second Year Majors are required to take PHY 021/022, 201/202, 203, 204, 281, 283, 284 and PMA 211. Second Year Minors shall take PHY 201/202 and PHY 281.

Third Year and Fourth Year Majors and Minors shall take such courses as laid down in the Degree Examination Scheme.

*Not offered in 1980-81.
Course Description

NSC 111/112 Perspectives in Physical Science
Elective; Gen. Ed.; both terms
1st–4th year
3/3 units; 3 hrs. Lect./wk.

A qualitative survey of elementary physical sciences, organized around
the historical development and philosophical foundation of the main
concepts in physical sciences. The course is designed for interested
students with a minimum of scientific training.

PHY 101/102 General Physics
Core, Major; two terms
1st year
3/3 units; 3 hrs. Lect. + 1 hr. Tut./wk.

An introductory course covering the principles and applications of
mechanics, heat, light, sound, electricity and magnetism, and modern
physics; suitable for potential majors in Physics. Co-requisite: PHY
181/182.

PHY 103/104 General Physics
Core, Minor; two terms
1st year
3/3 units; 3 hrs. Lect. + 1 hr. Tut./wk.

Same as PHY 101/102; suitable for potential majors in Electronics,

PHY 105/106 General Physics
Core, Minor; two terms
1st year
3/3 units; 3 hrs. Lect. + 1 hr. Tut./wk.

Same as PHY 101/102; suitable for potential majors in Chemistry. Co-
requisite: PHY 181/182.

PHY 107/108 General Physics
Core, Minor; Elective, Others;
two terms
1st year
3/3 units; 3 hrs. Lect. + 1 hr. Tut./wk.

Similar to PHY 101/102; suitable for potential majors in Biochemistry
or Biology. Co-requisite: PHY 181/182.

PHY 181/182 Practical Physics 1
Core, Both; Elective, Others;
two terms
1st year
1/1 units; 4 hrs. Lab./wk.

Laboratory experiments illustrating the principles in PHY 101-108,
required for those who take PHY 101/102, 103/104, 105/106 or
107/108.

This course is offered in 4 sections: Section A for potential major
in Physics; Section B for potential major in Electronics; Section C for
potential major in Chemistry; Section D for potential major in Bio-
chemistry, Biology, Mathematics, Physics, or Computer Science.
PHY 021/022 Mechanics and Electricity (Problems)  
Core, Major; STOT\(^1\); two terms  
2nd year  
1/1 units; 1 hr./wk.  
Small-group discussion on topics/problems in Classical Mechanics and Electricity and Magnetism.

PHY 201/202 Classical Mechanics  
Core, Both; two terms  
2nd year  
1st term 3 units;  
3 hrs, Lect. + 1 hr. Tut./wk.;  
2nd term 2 units;  
2 hrs, Lect. + 1 hr. Tut./wk.  

PHY 203 Electromagnetism  
Core, 2nd year Major; Optional,  
3rd year Minor\(^2\),  
1st term  
3 units; 3 hrs Lect.+1 hr. Tut./wk.  

PHY 204 Basic Electronics  
Core, Major; 2nd term  
2nd year  
3 units; 3 hrs. Lect.+1 hr. Tut./wk.  

PHY 281 Practical Physics II (A)  
Core, Both; 1st term  
2nd year  
1 unit; 4 hrs. Lab./fortnight  
Laboratory experiments illustrating the principles in PHY 201/202.

PHY 283 Practical Physics II (B)  
Core, 2nd year Major; Optional,  
3rd year Minor\(^2\);  
1st term  
2 units; 4 hrs. Lab./wk.  
Laboratory experiments illustrating the principles in PHY 203/204.

---

\(^1\) Student-orientated Teaching.  
\(^2\) For majors other than Electronics.
PHY 284
Practical Physics II (C)
Laboratory experiments illustrating the principles in PHY 204.

PHY 301
Special Relativity
Galilean transformation, principle of relativity, Lorentz transformation. Relativistic mechanics; space-time and energy-momentum four vectors. Aberration and Doppler effect.

PHY 302
Atomic Physics
Scattering cross-section. Discrete energy levels in atoms; the Bohr atom. Schrodinger equation; quantum numbers and quantization of energy and angular momentum. Atoms spectra: spectroscopic term classification; fine structure; L-S and j-j coupling. Zeeman effect. X-rays: absorption and diffraction.

PHY 303
Electromagnetic Theory
Maxwell’s equation. Electrostatics in empty and dielectric media; electro-magnet induction. Electromagnetic waves; field energy and momentum; boundary conditions of different media; production and propagation of electromagnetic waves.

PHY 304
Optics
Superposition of waves; coherence and wave packets. Two-beam and multiple-beam interference; Fraunhofer and Fresnel diffractions. Polarization; Optical activity. Light interaction with matter: dispersion, scattering.

PHY 305
Thermal Physics
Thermodynamics: concept and measurement of temperature. First and second laws of thermodynamics; thermodynamic relations. Change of phase in the first and second orders. Low temperatures; third law of thermodynamics.

Kinetic Theory: Maxwell velocity distribution; free path distribution; effusion. Transport coefficients.
PHY 307
Electronic Circuits
Elective, Major; 1st term
3rd & 4th year
4 units; 2 hrs. Lect.,
1 hr. Tut. + 4 hrs. Lab./wk.
Feedback amplifiers and stability criterion. Transistor oscillators.
Principles and applications of operational amplifier. Stabilized power
supplies. Digital logic elements and circuits.

PHY 381/382
Practical Physics III
Core, 3rd year Major; Optional,
3rd & 4th year Minor; two terms
2/2 units; 6 hrs. Lab./wk.
Laboratory experiments illustrating the principles in PHY 301-305.

PHY 041/042
Seminar
Core, Major, STOT; two terms
4th year
1/1 units; 1 hr. STOT/wk.
Small-group discussion on topics in Quantum Mechanics, Statistical
Mechanics, Nuclear Physics, and Solid State Physics.

PHY 401/402
Quantum Mechanics
Core, Major; Optional,
Minor; two terms
4th year
2/2 units; 2 hrs. Lect.+1 hr. Tut./wk.
Experimental basis of quantum mechanics. Schrodinger equation; one
dimensional quantized systems; harmonic oscillators. Hydrogen atom;
perturbation; spin of the electron. Angular momentum; transition
probability and selection rules. Two-electron problem.

PHY 403
Statistical Mechanics
Core, Major; Optional,
Minor, 1st term
4th year
2 units; 2 hrs. Lect.+1 hr. Tut./wk.
Maxwell-Boltzmann distribution; equipartition of energy. Diatomic
gases: partition function and heat capacity. Bose-Einstein and Fermi-
Dirac statistics; properties of Bose, Fermi and Boltzmann gases; black-
body radiation.

PHY 404
Solid State Physics
Core, Major; Optional,
Minor; 2nd term
4th year
3 units; 3 hrs. Lect.+1 hr. Tut./wk.
Thermal properties of solids. Free electron model of metals; band
theory of solids; band theory of semi-conductors. Dia-, para, and ferro-
magnetism.

*Not offered in 1980-81.
PHY 405
Nuclear Physics
Core, Major; Optional, Minor; 1st term
4th year
2 units; 2 hrs. Lect. + 1 hr. Tut./wk.
General properties of nuclei. Radioactivity. Nuclear reaction; neutron and position; artificial radioactivity. Neutrino, fission and chain reactions.

PHY 408
Biophysics
Core, Optional, Major; 2nd term
4th year
2 units; 2 hrs. Lect./wk.

PHY 409
Digital Instrumentation
Core, Optional, Major; 1st term
4th year
3 units; 2 hrs. Lect. + 4 hrs. Lab./fortnight
This course gives a general concept of digital measurement in frequency, events, voltage, and pulse duration. It includes the analysis and synthesis of counters and some experiments.

PHY 410
Gemmology
Core, Optional, Major; 2nd term
4th year
3 units; 2 hrs. Lect. + 2 hrs. Lab./wk.
Elementary crystallography; crystal form and habit. Physical and optical properties of gem materials: refractive index and birefringence, absorption spectra, luminescence. Gem identification by various means. Description of gem materials. Synthetic gemstones.

PHY 481/482
Practical Physics IV
Core, Optional, Both; two terms
4th year
2/2 units; 6 hrs. Lab./wk.
Laboratory experiments illustrating the principles in PHY 401—405.

PHY 483
Physics Project
Core, Optional, Major; Year
4th year
4 units; 6 hrs. Lab. &/or 2 hrs. Tut./wk.
Projects on topics in theoretical or experimental physics, on which a student shall write a report and give a seminar.

PHY 485
Project with Thesis
Core, Optional, Major; Year
4th year
6 units; 9 hrs. Lab. &/or 3 hrs. Tut./wk.
Projects on topics in theoretical or experimental physics, on which a student shall write a thesis and defend the thesis orally after systematic investigation.

**PHY 502**  
Advanced Mathematical Methods in Physics  
Core, Optional, Major, 2nd term  
3rd—Grad.  
3 units; 3 hrs. Lect./wk.  
Techniques in contour integration, methods of steepest descent and stationary phase; special functions; integral transforms; boundary value problems; approximation methods and numerical techniques. Stress will be given to the mathematical formulation of physical problems and the choice of appropriate methods for solution.

*PHY 503*  
Polymer Physics  
Core, Optional, Major, 1st term  
4th—Grad.  
3 units; 3 hrs. Lect./wk.  
Physical states of amorphous polymers; crystallinity; orientation. Linear viscoelasticity, mechanical models; time-temperature equivalence; mechanical anisotropy. Heat capacity, thermal conductivity. Electrical conduction; dielectric constant and loss. Optical properties, nuclear magnetic resonance.

*PHY 505*  
Optical-electronics  
Core, Optional, Major; 1st term  
4th—Grad.  
3 units; 3 hrs. Lect./wk.  
Optical resonator; laser oscillation; mode selection and control of laser radiation; detection and measurement; Fourier optics, holography and laser communication systems: non-linear optics.

**Examination Scheme**

*Majors Programme*

All Majors are required to take: (a) Papers 1, 2, 3A and 3B in their Part I Examination, and (b) Papers 4, 5 and one paper from Papers 6A+6B and 7 in their Part II Examination.

*Minor Programme*

All Electronics majors minoring in Physics are required to take Paper 1 in their Part I Examination and Paper 4 or 5 in their Part II Examination.

All non-Electronics majors minoring in Physics are required to take Paper 1 or Paper 8A and 1B in their Part I Examination and one paper from Papers 1, 4 and 5 in their Part II Examination.

*Not offered in 1980-81.*

Course Description

STA 201  
Fundamentals of Statistics  
Core, Optional, Minor; year  
2nd year  
6 units; 3 hrs. Lect. + 2 hrs. Tut./wk.

This course offers background knowledge of statistics through discussions of fundamental logical principles. Materials considered will be probability theory, sampling distribution, estimation, testing of hypotheses, elementary analysis of variances, data analysis, nonparametric inference and statistical decision theory.

STA 231  
Introductory Statistics  
Elective; year  
2nd year  
6 units; 3 hrs. Lect. + 2 hrs. Tut./wk.

This is an introductory course with emphasis on the application of basic statistical techniques to behavioral and natural science. It covers elementary probability, statistical description of data, sampling distributions, testing hypotheses, regression, correlation, contingency tables, tests of goodness-of-fit, nonparametric statistics, Bayesian decision theory, index numbers and sample design.

STA 301  
Experimental Designs  
Core, Optional, Minor; 1st term  
3rd year  
3 units; 3 hrs. Lect. + 1 hr. Tut./wk.

This course is designed to study various statistical aspects of models in experimental design. Models covered include: one-way, two-way and

1 Core, core optional courses
higher-way analysis of variance, randomized blocks design, nested and partially nested design. Latin square, incomplete block design and random-effects models. Emphasis will be placed on the use of these models in analysing real data. Prerequisite: STA 201 or equivalent.

This course deals with major multivariate statistical techniques in analysing natural and behavioral science data. Topics include multiple and partial correlations, $T^2$-statistics, discriminant analysis, cluster analysis, canonical correlations, principal components, factor analysis and structural equation models. Strong emphasis will be placed on use of existing computer programmes.

**STA 411**  
**Time Series and Forecasting**  
Core, Optional, Minor; year  
4th year  
6 units; 3 hrs. Lect. + 1 hr. Tut./wk.

A course in stationary time series with applications in economics, marketing and physical sciences, with emphasis on autoregressive and moving average models. Autocovariance, autocorrelation, cross-covariance, filtering, seasonal analysis and spectral analysis. Exponential smoothing, Box-Jenkins forecasting procedure and prediction theory. Bayesian and multivariate forecasting. Use of computer programmes for covariance and spectral estimation.

**Examination Scheme**

**Minor Programme**

Students minoring in Statistics are required to take one paper from Paper 1, Paper 2 and Paper 3 in their Part I Examination, and Paper 11 or Paper 12 in their Part II Examination.

All students majoring in Anthropology must complete all core courses.

Major students are required to take a minimum of 14 courses (42 units).

In addition, they will be advised by the Department to take up to 12 units of courses in other fields which are related to their special interest in Anthropology.

Minor students are required to take ANT 101, plus five other Anthropology courses, adding up to a minimum of 18 units.

Course Description

(*Notes: Except specified otherwise, all are 3-unit term courses, each made up of two hours of lectures and one hour of tutorial per week*)

† Core course
* Not offered in 1980-81.
ANT 101
Man and Culture: An Introduction to Anthropology
Core, Both; Elective, Others
Both terms
1st—2nd year
A general course for freshman students dealing with the nature, the development, and the utilization of man's capacity for culture. The aim is to enable the student to acquire an adequate understanding of man and his place in nature as a necessary part of general education.

ANT 211
Social Anthropology
Core, Major; Optional, Minor
Elective, Others; 1st term
2nd—4th year
An introduction to the basic principles and subject matter of social anthropology with emphasis on the development of concepts and their relation to human behaviour. The major subfields within the discipline are examined with a view to familiarizing the student with their conceptual and empirical contributions to the concepts of social anthropology.

ANT 221
Anthropological Theory
Core, Major; Optional, Minor
Elective, Others; 2nd term
2nd—4th year
The course provides an in-depth analysis of major schools in anthropology: cultural evolutionism, diffusionism, functionalism, historical particularism, structuralism, etc. All key figures in anthropology, both classic and contemporary such as Tylor, Morgan, Boas, Malinowski, Radcliffe Brown and Levi-Strauss will be discussed.

ANT 231
Culture and Behaviour
Core, Optional, Both
Elective, Others; 2nd term
2nd—4th year
The course is intended to explore issues that stem from the concepts of behaviour in relation to concepts of culture. Problems concerning the effect of individual behaviour, in terms of biological and psychological conditions, on culture and vice versa will be discussed, as well as issues concerning basic definitions, pioneer works, biological basis of behaviour and personality, socialization, culture and cognition, “national character”, and methodology.

ANT 241
Chinese Culture and Society
Core, Optional, Both
Elective, Others; Both terms
2nd—4th years
This course provides an anthropological approach to China. Discussions concentrate on its major cultural and social institutions both traditional and contemporary, such as family, marriage, kinship, lineage and clan, economic system, religion, value orientation, etc.
ANT 251  Applied Anthropology
Core, Optional, Both
Elective, Others;
1st term; 2nd—4th year
2 hrs. Lect., 1 hr. Tut. + 2 hrs.
Lab./wk.

This course is designed to be an introduction to the basic concepts concerning application of anthropological knowledge in modern world. The emphasis will be placed on application of anthropology in the fields of education, public administration, business and personnel management, planned acculturation, economic and political development, and health and medical practices.

*ANT 031  Guided Study in Anthropology
Core, Major, STOT; 2nd term
3rd—4th year
3 hrs. STOT \(^1\)/wk.

This STOT course is related to the students' major field but not tied to any particular paper. Students will be guided to make a general exploration in anthropological literatures with special emphasis on related Chinese documents.

ANT 311  Human and Cultural Evolution
Core, Major; Optional, Minor
Elective, Others
2nd term; 3rd-4th year
2 hrs. Lect., 1 hr. Tut. +
2 hrs. Lab./wk.

This course is a general discussion of the origin and development of human beings and their culture. It covers major topics, conventionally included in such basic anthropological courses as "physical anthropology" and "prehistory".

ANT 321  Anthropological Methods
Core, Major; Optional, Minor
Elective, Others
2nd term; 3rd—4th year
2 hrs. Lect., 1 hr. Tut. +
2 hrs. Lab./wk.

This course provides a comprehensive introduction to anthropological research techniques: the field work process, models of ethnographic analysis, comparative approaches, and cross-cultural surveys. Students will be taught to design and conduct research projects by themselves.

ANT 331  Religion and Culture
Core, Optional, Both
Elective, Others
1st term
3rd—4th year

\(^*\) Not offered in 1980-81.
\(^1\) Student-orientated Teaching.
This course explores the complex interrelationship between religion and the other dimensions of cultural behaviour. Among topics considered are: the cross-cultural appropriateness of the term, "religion", the relationship between religious ideology and behaviour, and the process of secularization.

**ANT 341**
*Cultures and Peoples of Asia*
Core, Optional, Both
Elective, Others
1st term
3rd—4th year

A survey of both continuity and change in the social, economic, political and religious systems of representative cultures and peoples in East and Southeast Asia.

**ANT 351**
*Culture and Management*
Core, Optional, Both
Elective, Others
2nd term; 3rd—4th year
2 hrs. Lect., 1 hr. Tut. + 2 hrs. Lab./wk.

This course deals with the cultural factors in various management problems of industrial society: e.g., organization principles, human relations, personnel development and decision making in the fields of marketing and business. Emphasis is placed on the application of current anthropological knowledge to these problems.

**ANT 041**
*Field Research in Anthropology*
Core, Major, STOT¹; 1st term
3rd—4th year
2 hrs. STOT + 2 hrs. Lab./wk.

In this STOT course, students will be guided to complete a research project by themselves. In the process, they will become familiar with basic procedures and techniques of anthropological research. Prerequisite: ANT 031.

**ANT 411**
*Language and Culture*
Core, Major; Optional, Minor
Elective, Others; 1st term
3rd—4th year

An overview of the main directions of linguistic theory and its relationship to issues of linguistic anthropology. Discussion will include such topics as componential analysis, cognition, and ethnoscientific.

**ANT 431**
*Topics in Anthropology*
Core, Optional, Both
Elective, Others
2nd term; 3rd—4th year

¹Not offered in 1980-81.
²Student-orientated Teaching.
This course focuses on current methodological and theoretical problems in anthropology. A number of topical areas will be treated in order to demonstrate the importance of the selected concerns in the study of man and culture.

ANT 441
Folk Culture in Hong Kong
Core, Optional, Both
Elective, Others
2nd term; 3rd–4th year

This course is methodologically oriented. It guides the students to rediscover their native and traditional culture through first-hand investigation. In the process, it will familiarize students with the basic anthropological field methods and techniques including the use of audio-visual aids.

ANT 451
Anthropology of Communication
Core, Optional, Both
Elective, Others
2nd term; 3rd–4th year
2 hrs. Lect., 1 hr. Tut. +
2 hrs. Lab./wk.

This course will essentially be an introduction to ethnographic film. Each student will be required to make a short ethnographic film on a topic concerning Chinese culture in Hong Kong. The major emphasis of the course will be on the analysis and interpretation of film as a tool in understanding culture as a system of communication.

Examination Scheme

Major Programme
In addition to the completion of the Core Courses, all students majoring in Anthropology must:
1. Pass Paper 1 and Paper 2 in the Degree Examination; and
2. Fulfill one of the following two requirements:
   (a) Write a thesis and complete two more papers other than Paper 1 and Paper 2;
   (b) Complete three more papers other than Paper 1 and Paper 2.

Minor Programme
In addition to the completion of the course ANT 101, all students minoring in Anthropology are required to take:
1. Two papers which must include Paper 1; and
2. One additional Anthropology course of the student’s choice.
**Degree Papers**

Paper 1 — Principles of Anthropology (at least 2 courses from)
- ANT 211 Social Anthropology
- ANT 311 Human and Cultural Evolution
- ANT 411 Language and Culture

Paper 2 — Theory and Methodology (at least 2 courses from)

A student majoring in Economics must take a year course in Mathematics preferably in the first year, and complete 51 units of core courses, plus a minimum of 12 units among the Economics electives. These add up to a minimum of 63 units. For his minor subject, a minimum of 12 units are required subject to additional requirements imposed by his minor field.

A student minoring in Economics must pass Basic Economic Theory or its equivalent and complete two other year courses for which degree papers are offered. One of these must be either Intermediate Economic Theory, Economic Development or Comparative Economic Systems.

* Not offered in 1980-81.
2 Offered by the Board of Studies in History
Course Description

ECO 101  Introductory Economics  Elective; Both terms
1st year
3 units; 3 hrs. Lect./wk.

This course is designed to be a basic economic course for those students who have never had previous training in economics. The emphasis of this course is placed on social framework and current economic problems. Major topics for discussion include: the role of economics in social science and its relations to other disciplines; the economic framework; types of economic system; current economic problems (including economic problems of Hong Kong).

ECO 201  Basic Economic Theory  Core, Both; Year
2nd year
6 units; 3 hrs. Lect./wk.

This course primarily concerns the central economic problems of a society. Major topics include the nature and significance of economics, the composition and determination of national income, economic fluctuations and the price level, the theory of price and distribution.

ECO 202  Methods of Economic Statistics I  Core, Major; Year
2nd year
6 units; 3 hrs. Lect./wk.

This is an introductory course of statistics. It covers frequency distribution, index numbers, correlation, time series, the theory of sampling and probability, and statistical tests of significance.

ECO 203 (ACG 101)  Introductory Accounting  Core, Major; Year; Col.
2nd year
6 units; 3 hrs. Lect. + 2 hrs. Lab./wk.

This course emphasizes accounting concepts and principles, and introduces the use of accounting data in controlling and planning business operations. Discussions include: basic structure of accounting; accounting for assets, liabilities, and ownership interest; the application of accounting principles to various forms of business organization; bank reconciliation, internal control, statement preparation and analysis.

ECO 204  Introductory Quantitative Economics  Elective; Year
2nd year
6 units; 3 hrs. Lect./wk.

This course is divided into two parts. Part one deals with the application of simple mathematical tools to economic analysis. Major topics for discussion include: static analysis, comparative-static analysis, static optimization analysis, continuous and discrete dynamic models, simple mathematical programming and game theory. The second part deals with applied econometrics. Topics covered include: linear regression model, uses of summary statistics, statistical inference, and applied econometric studies of the economy of Hong Kong.

Urban Economics gives a brief survey of different urban problems and policies designed to correct them. Emphasis will be placed on urban land use, housing, transportation, pollution and urban environment, crime and urban planning. Regional Economics deals with the study of the spatial order of the economy. The analysis of the location patterns of people and industry in general rather than the location of individual industries will be stressed.

**ECO 041**  
Guided Study in Current Economic Problems  
Core, Major, STOT\(^1\); Year  
4th year  
1st term: 2 units, 2nd term: 1 unit  
2 hrs. STOT/wk.

The major concern is the application of student-orientated method of teaching to the analysis of current economic problems. Students are required to select a topic of research interest related theoretically or empirically to current economic problems and investigate it under the intensive guidance of a teacher. Small group discussions are mandatory. The requirements include one or more research reports, presentation of paper(s) and participation in small group discussion.

**ECO 401**  
International Economics  
Core, Major; Year  
4th year  
6 units; 3 hrs. Lect./wk.

A general survey of the theory of international trade and an examination of its relevance to both international and domestic policies. Special attention will be given to the current international economic problems and the related problems of underdeveloped countries in Asia.

**ECO 402**  
Comparative Economic Systems  
Core, Major; Year  
4th year  
6 units; 3 hrs. Lect./wk.

Contrasting economic organizations and performances of different economic systems. Emphasis will be laid on application of economic theory rather than factual description. Discussions include the theory and practice of the Soviet type economy and its Eastern European variants, the planning experiences in Western European countries, the Soviet model and underdeveloped countries, planning in India and mainland China, and development planning in other underdeveloped countries in Asia.

**ECO 403**  
Basic Mathematical Economics  
Elective; Year  
4th year  
6 units; 3 hrs. Lect./wk.

---

\(^1\) Student-orientated Teaching.
This course aims at furnishing students with mathematical tools for economic analysis as well as some common operations analysis currently in practice. The first part of the course deals with selected topics in economic theory i.e. consumer behaviour, firm behaviour, theory of the market, general equilibrium, welfare economics, and economic dynamics. The second part introduces some basic concepts of operations research methods which include linear and non-linear programming, network analysis, inventory theory, game theory, and elementary queuing theory.

ECO 404
History of Economic Thought
Elective; Year
4th year
6 units; 3 hrs. Lect./wk.

A critical review of the development of economic thought from the eighteenth century to the present. The discussion concentrates on classical, Marxist, neo-classical and Keynesian thought. An examination of the applicability of western economic doctrines to the analysis of economic problems of the underdeveloped countries in Asia will also be included.

ECO 405
Economic Development
Elective; Year
4th year
6 units; 3 hrs. Lect./wk.

This course is basically concerned with the problem of poverty in the less developed countries of the world. The state of underdevelopment and its causes are studied as well as various theories of economic and social development. Much of the course is devoted to an examination of actual problems such as land reform, education, economic power and the relations between the rich countries and the poor countries with special attention being given to Asia.

*ECO 412
Economic Structure Analysis
Elective; 1st term
3rd & 4th year
3 units; 3 hrs. Lect./wk.

This course consists of two major parts: national economic accounting and interindustry analysis. The first part - national economic accounting - is intended to provide the students with a systematic understanding of the concepts and methods of measurement of national income and its components and related aggregates. The national accounting system is developed in three steps, starting from a simplest system of national income accounts and ending up with a comprehensive system encompassing the more detailed national income accounts, the input-output matrix, and the financial accounts. Emphasis is placed on the anatomical structure of the economy and the interrelationships

*Not offered in 1980-81.
between its constituent parts. The second part — interindustry analysis — shows how interindustry models can be consistently constructed on the basis of the input-output matrix with particular emphasis on applications. The discussion of the choice of alternative models leads to the use of linear programming in resource allocation.

Examination Scheme

Major Programme
All students majoring in Economics are required to take:

(a) Part I: Paper 1 and any one or two papers from Papers 2 to 13 plus one paper in an approved minor subject.
(b) Part II: Paper 8 and any two or one papers from Papers 2, 3, 4, 5, 6, 7, 9, 10, 11, 12 and 13 plus one paper in an approved minor subject.

Minor Programme
All students majoring in Economics are required to take:

(a) Part I: One paper from Papers 1 to 13.
(b) Part II: One paper from Papers 1 to 13 not taken in the Part I Examination.

Of the two papers taken by minor students, one of them must be chosen from Papers 1, 3, 7.

Student-orientated Teaching are introduced to First, Second and Third year students.

Students majoring in Geography are required to take a total of 39 term-units of core courses and to fulfil the Degree Examination requirements. Students minoring in Geography are required to take a minimum total of 18 term-units.

Course Description

GEO 101  Frontiers in Geography

Core, Both; Both terms
1st year
3 units; 3 hrs. Lect./wk.

The course introduces first year students to the basic concepts of Geography, in particular the development of the contemporary New Geography. Brief introduction to the major subjects will be given to familiarize students with the courses they intend to take in later years. Modern geographic techniques, in particular quantification, will be introduced in the course of integrating the various subjects in common research. The role of New Geography in the convergence of other social sciences in interdisciplinary research will be emphasized. The course will be of value to other social science students who wish to broaden their view (spatial perspective) on real world problems.

GEO 021  Data Collection and Field Techniques

Major; STOT²; 2nd term
2nd year
3 units; 2 hrs. STOT +
Field Work/wk.

The course aims at developing students' ability in independent library research, field data collection techniques and analysis on various aspects of Hong Kong geography as well as critical thinking and analysis of current issues related to geography.

¹ Core course.
² Student-orientated Teaching.
GEO 201
Conservation of Natural Resources
Elective, Both; 2nd term
2nd year
3 units; 3 hrs. Lect./wk.

This course aims at providing an understanding of the relations between population and resources and will cover the following topics: (1) definition, classification and evaluation of resources; (2) aims and philosophy of conservation; (3) the major resources including soil and agriculture, water, air, forests, minerals and energy; (4) recycling and residuals management.

GEO 202
Geology
Core, Major; 2nd term
2nd year
3 units; 3 hrs. Lect./wk.

This course gives students a basic knowledge of geology and consists of studies in the composition, structure and history of the earth.

GEO 203
Behavioural Geography
Core, Major; 1st term
2nd year
3 units; 3 hrs. Lect./wk.

The subject matter of this course is an area lying at the interface of geography and psychology that has been neglected by both disciplines in the past and is now receiving their close attention: the response of human beings to their existing physical surroundings, whether these be natural or man-made.

This course will cover two distinct but related topics: (1) the movement of persons and households in space, and (2) the nature of the “mental maps” that these individuals and households carry around in their heads, and which they consult in the process of making movement decisions.

GEO 205
Cultural Geography
Elective, Both; 2nd term
2nd year
3 units; 3 hrs. Lect./wk.

Cultural geography compares the changing distribution of “cultural areas” with the distribution of other features of the earth’s surface, in order to identify environmental features characteristic of a given culture and if possible to discover what role human action plays or has played in creating and maintaining given geographic features.

GEO 207
Map and Aerial Photography Interpretation
Core, Major; 2nd term; 2nd year
3 units; 2 hrs. Lect. + 3 hrs. Lab./wk.

An introduction to the use of maps and aerial photographs and their interpretation in geography. Students will be introduced to various techniques of taking measurement from maps and aerial photographs and their implication in research.
GEO 208  
Quantitative Cartography  
Core, Major; 1st term; 2nd year  
3 units; 2 hrs. Lect. + 3 hrs. Lab./wk.  
This course is to acquaint students with theories and methods of construction of diagrams and maps from statistical data. It also covers the principles and problems of map designing.

GEO 209  
Urban Geography  
Core, Major; 2nd term  
2nd year  
3 units; 3 hrs. Lect./wk.  
This course gives students a basic knowledge of current advances in Urban Geography; emphasis is placed upon the theories of urban structure and urban systems, and methods of urban analysis.

GEO 210  
Population Geography  
Core, Major; 1st term  
2nd year  
3 units; 3 hrs. Lect./wk.  

GEO 211  
Geography of East and Southeast Asia  
Elective, Both; 2nd term  
2nd year  
3 units; 3 hrs. Lect./wk.  
This course aims to provide an insight into the resource base, the process of modernization and the development potentials of the region.

GEO 212  
Surveying  
Elective, Both; 1st term  
2nd year  
3 units; 3 hrs. Lect./wk.  

GEO 213  
Statistical Analysis in Geography I  
Core, Major; 1st term  
2nd year  
3 units; 3 hrs. Lect./wk.  
This course deals mainly with the appropriate applications of statistical techniques in geographical research. In the first term, the contents are designed to be a general introductory survey of the application of certain statistical models in geography. In the second term, emphasis is placed upon multivariate analysis and complex organizations.
GEO 214
Statistical Analysis in Geography II
Elective, Both; 2nd term
2nd year
3 units; 3 hrs. Lect./wk.

Course outline please see GEO 213 Statistical Analysis in Geography I.

GEO 031
Geography Projects of Hong Kong
Major, STOT\(^1\); 1st term
3rd year
3 units; 2 hrs. STOT +
Field Work/wk.

Students will be required to undertake individual or group projects in
any field of geography with reference to Hong Kong under the guidance
of their instructors. The topics of the project will be decided by the
individual student/group and instructors concerned.

GEO 301
Economic Geography:
Theory and Method I
Core, Major; 1st term
4th year
3 units; 3 hrs. Lect./wk.

Conceptual and mathematical analyses of the classical and contem-
porary location theories, supplemented by empirical applications.

GEO 302
Economic Geography:
Theory and Method II
Elective, Both; 2nd term
3rd year
3 units; 3 hrs. Lect./wk.

Conceptual and mathematical analyses of the theories of regional
economics, and the formulations of regional economic policies.

GEO 303
Principles of Climatology
Core, Major; 1st term
3rd year
3 units; 3 hrs. Lect./wk.

The course will aim at providing the student of geography with the
“energy-balance” approach to the understanding of the climatic envi-
ronment. The nature and significance of the essential weather par-
ameters, the thermodynamics of the basic meteorological processes and
the rectification of the heat imbalance by circulation systems will be
the main focus. Familiarity with the handling and use of meteorological
instruments, the maintenance of a standard observation weather station
and the presentation of weather “reports” will also be integrated into
the course.

GEO 304
Climates of the World
Elective, Both; 2nd term
3rd year
3 units; 3 hrs. Lect./wk.

The course aims at providing an understanding of “regional climato-
logy” as a process in synthesis. The significant “indices” in the identi-
fication of “climates” from differing standpoints will be attempted.

\(^1\) Student-orientated Teaching.
The man-climate environments in the context of man's response as portrayed in his economic activities will be studied. The significance and the causation of climatic "variation" in its manifold forms will also be attempted.

GEO 306
Urban Environmental Problems
Elective, Both; 2nd term
3rd year
3 units; 3 hrs. Lect./wk.

GEO 309
Man and Environment
Core, Major; 1st term
3rd year
3 units; 3 hrs. Lect./wk.
A general introduction to the nature of the physical environment, and its relationship with man in pre-industrial and modern times. The current major environmental problems will be dealt with, and possible solutions to these problems will be discussed. The course will also cover the principles and methods of environmental impact assessment.

GEO 312
Geomorphology I
Core, Major; 1st term
3rd year
3 units; 3 hrs. Lect./wk.
This course aims to provide students with basic concepts and methods in Geomorphology. Field work is an essential part of the course.

GEO 313
Geomorphology II
Elective, Both; 2nd term
3rd year
3 units; 3 hrs. Lect./wk.
This course aims at more advanced and case studies of geomorphological features. Field work is essential.

GEO 401
Micro-climatology
Elective, Both; 2nd term
3rd-Grad.
3 units; 3 hrs. Lect./wk.
The course is designed to focus attention upon the generally unfamiliar "micro-climates" as opposed to the meso-climates and macro-climates. Micro-climatology will be concerned here both with the naturally-induced and man-induced features. The emphasis will be upon the geographical significance of "micro-climates" as related to the surface-level climates and the highly localised climates as affecting plant and man.

GEO 402
General Geography of China
Core, Major; 1st term
3rd & 4th year
3 units; 3 hrs. Lect./wk.
This course deals with the following topics: (1) Location and relief. (2) Climate. (3) Hydrogeography. (4) Soils. (5) Biogeography. (6) Natural regions. (7) Resources. (8) Population of settlement. (9) Irrigation and agriculture. (10) Industry, trade and communication.

GEO 403
Regional Geography of China
Elective, Both; 2nd term
3rd & 4th year
3 units; 3 hrs. Lect./wk.
This course studies the regional geography of China and includes the following regions. (1) South China. (2) Central China. (3) North China. (4) North-East China. (5) West China. (6) Inner Mongolia. (7) Tibet. (8) Sinkiang. (9) North-West China. (10) South-West China.

GEO 407
City and Regional Planning
Elective, Both; 2nd term
4th—Grad.
3 units; 3 hrs. Lect./wk.
An examination of the basic theories of urban and regional planning, and the mathematical formulations and applications of essential planning models.

GEO 410
Directed Research
Elective, Major; Year
3rd/4th year
6 units
Research methods in geography are introduced to students and a research thesis has to be written under the supervision of faculty.

Examination Scheme

Major Programme
All students majoring in Geography are required to take any two papers from Papers 1 to 8 in their Parts I and II Degree Examinations.

Minor Programme
All students majoring in Geography are required to take any two papers from Papers 1 to 8 in their Parts I and II Degree Examinations.

Major students are required to take a minimum of 16 courses (48 units). Minor students are required to take a minimum of five courses (15 units).

Core courses are required of all Major students and offered to all other students on an elective basis. Minor students are required to take either GPA 101/102 or GPA 103/104 before taking any other courses.

Both third and fourth year Major students are required to take Major-field related student-orientated teaching i.e. GPA 031 and GPA 041 each carrying three units per term.

\textsuperscript{1} Core course.
\textsuperscript{*} Not offered in 1980-81.
For the purpose of the Degree Examination, second year courses must be taken before third and fourth year courses.

Major students may apply to the Board of Studies for permission to write a thesis in lieu of one Degree Paper under the supervision of an instructor prior to the beginning of their fourth year.

Specific courses may be offered once every two years at the discretion of the Board of Studies.

Course Description

(Note: Except specified otherwise, all are 3-unit term courses, each made up of two hours of lectures and one hour of tutorial per week).

GPA 101/102 Fundamentals of Government
Core, Major; Elective, Other
Both terms
1st & 2nd year
Introduction to politics and government. Relevant conceptual scheme and study methods. Discussion of problematic topics such as power, law and order, revolution, modernization, democracy, communism as well as conceptual terms such as political behaviour, political socialization, political culture, political system, etc.

GPA 103/104 Fundamentals of Public Administration
Core, Major; Elective, Others
Both terms
1st & 2nd year

*GPA 201 Law and Society
Elective; Term
2nd, 3rd & 4th year
Concepts of Law, its relationship with government and society. Nature and function of judicial process. Emphasis on various legal systems practised in Hong Kong and selected Asian countries.

Introduction to the study of behaviour — the senses, perception, learning, memory, thinking, motivation, emotion, and other selected topics.

PSY 211 Statistical Analysis and Research Design
Core, Optional, Minor; 1st term
2nd year
3 units; 2 hrs. Lect. + 2 hrs. Lab./wk.
Introduction to the way in which psychologists design research to yield statistically meaningful results. Correlational and inferential techniques with emphasis on how to utilize appropriate statistical tests. Analysis and interpretation of data from contemporary psychological research. Prerequisite: PSY 100, or permission of the instructor.

PSY 212 Experimental Methods
Elective; 2nd term
2nd year
3 units; 2 hrs. Lect. + 2 hrs. Lab./wk.
Introduction to the various research strategies and techniques employed in psychology. Different approaches to research presented by different members of the psychology staff. Participation in laboratories or independent research required. Prerequisite: PSY 211.

PSY 221 Learning
Elective; 2nd term
2nd year
3 units; 2 hrs. Lect. + 2 hrs. Lab./wk.
Methods and findings in the study of learning with emphasis on their relation to theories of learning. Special consideration given to the way in which learning theory may be applied to human behaviour. Some laboratory participation required. Prerequisite: PSY 100.

PSY 222 Memory and Thinking
Elective; 1st term
2nd year
3 units; 2 hrs. Lect. + 2 hrs. Lab./wk.
Investigation of the cognitive processes — attaining, retaining and transforming information. Emphasis on experimental studies of human concept formation, memory, thinking, and creativity. Prerequisite: PSY 100.

*PSY 225 Motivation and Emotion
Elective; 1st term
2nd year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.

* Not offered in 1980-81.

Course Description

SWK 111/112
Social Welfare as a Social Institution Core, Optional, Major; Both terms
1st year
3 units; 2 hrs. Lect./wk.

This is an introductory course on the concept and meaning of social welfare and its role in society. The relationship between social welfare and other social institutions will be examined. The purpose, functions and scope of social welfare will also be discussed.

SWK 020
Student Orientated Teaching Core, Major, STOT\(^1\); Year
2nd year
4 units; 2 hrs. STOT/wk.

\(^1\) Student-orientated Teaching.
This is small-group, less structured teaching related to the student’s major field but not formally tied to any particular course. Its aim is to build in the student habits and attitudes of mind characteristic of the expert in his or her chosen field and relevant to the solution of the kind of problems the student is likely to encounter in life. For this year of studies, the primary focus is on introduction of the student to the philosophy, value systems and the generic process of the social work method.

SWK 211  
Social Welfare Services in Hong Kong  
Core, Optional, Major; 1st term  
2nd year  
2 units; 2 hrs. Lect./wk.

This course will cover both the public and private sectors in the provision of social welfare services in Hong Kong. Examination will be made not only of the delivery of services but also of the financial provisions particularly with an analysis of means of financing. The issue of coordination of services will also be examined in the light of effectiveness and adequacy of service delivery.

SWK 212  
Philosophy of Social Work  
Core, Major; 2nd term  
2nd year  
2 units; 2 hrs. Lect./wk.

This course will look into both the philosophic base and values systems of the social work profession. Discussion will focus on the application of these social work values in the context of Hong Kong among the Chinese today.

SWK 223  
Human Growth and Development I  
Core, Major; 1st term  
2nd year  
2 units; 2 hrs. Lect./wk.

This course will study the basic concepts, theories and problems in human growth and behaviour as related to social work practice. Emphasis is given to the developmental study of human growth and behaviour as a continuous process throughout the stages from childhood to adolescence. Attention will be paid to physical, psychological and cultural aspects of growth.

SWK 224  
Human Growth and Development II  
Core, Major; 2nd term  
2nd year  
2 units; 2 hrs. Lect./wk.

This course will give emphasis to the relevant concepts of the stages of development from adulthood to old age. Prerequisite: SWK 223.

SWK 231  
Social Work Processes I  
Core, Major; 1st term  
2nd year  
2 units; 2 hrs. Lect./wk.
This course includes the examination of the purpose and goals of social work practice, the study of the generic principles, and the basic methods in social work. Attention is directed to the inter-relationship of various methods in the enabling process.

SWK 232  
Social Work Processes II  
Core, Major; 2nd term  
2nd year  
2 units; 2 hrs. Lect./wk.

A generic approach to social work practice from the problem solving perspective. A practice model will emphasize the concepts of social functioning, client-worker partnership, service contracts, explicit goal setting, case management, planned intervention at multiple levels, and continuous evaluation. Prerequisite: SWK 231.

SWK 252  
Field Laboratory  
Core, Major; 2nd term  
2nd year  
2 units; 4 hrs. Lab./wk.

This course aims at preparing students to undertake Field Instruction I. It teaches students, through a series of laboratory sessions, basic practice knowledge and skills necessary for rendering professional services as a student worker in a welfare or health organization. It is a prerequisite of Field Instruction I.

SWK 030  
Student Orientated Teaching  
Core, Major, STOT; Year  
3rd year  
4 units; 2 hrs. STOT/wk.

This is small-group, less structured teaching related to the student’s major field but not formally tied to any particular course. Its aim is to build in the student habits and attitudes of mind characteristic of the expert in his or her chosen field and relevant to the solution of the kind of problems the student is likely to encounter in life. For this year of studies, the primary focus is on the training of skills, practice concepts and practitioner’s roles in the problem-solving process of social work.

SWK 321  
Social Implications of Illnesses  
Core, Optional, Major; 1st term  
3rd year  
2 units; 2 hrs. Lect./wk.

This course aims to provide students with some basic knowledge and diagnostic understanding of the major illnesses in Hong Kong. Emphasis will be placed on the impact of illness and disability upon the social functioning of people as individuals and family members. The concept of stress and the worker’s use of self in the helping process will be discussed.

SWK 322  
Mental Illness and Retardation  
Core, Optional, Major; 2nd term  
3rd year  
2 units; 2 hrs. Lect./wk.
The course will explore the nature of mental illness and retardation, their social implications and the community resources for the prevention and amelioration of social dysfunction.

SWK 331  
Social Casework I  
Core, Major, 1st term  
3rd & 4th year  
2 units; 2 hrs. Lect./wk.

This course is designed to deepen the students' basic understanding and knowledge of working with individuals and their families. The dynamics involved in a problematic situation, the worker-client's one-to-one as well as one-to-the family group relationship, and treatment in the casework processes will be analyzed with emphasis on diagnostic skill. Records will be used for illustration and discussion.

SWK 332  
Social Casework II  
Core, Major; 2nd term  
3rd & 4th year  
2 units; 2 hrs. Lect./wk.

A sequel to SWK 331.

SWK 333  
Social Groupwork I  
Core, Major; 1st term  
3rd & 4th year  
2 units; 2 hrs. Lect./wk.

The development of knowledge of groups and individual behaviour in groups will be related to the professional utilization of that knowledge. Techniques of intervention and the group worker's purposeful use of programme and process will be discussed. Attention will be given to the roles of the group worker as enabler, facilitator, leader, etc.

SWK 334  
Social Groupwork II  
Core, Major; 2nd term  
3rd & 4th year  
2 units; 2 hrs. Lect./wk.

A sequel to SWK 333.

SWK 335  
Community Work I  
Core, Optional, Major; 1st term  
3rd & 4th year  
2 units; 2 hrs. Lect./wk.

The purpose and methods of community planning of social services will be discussed. The role of the professional worker in various organizational settings will be examined. Attention is directed to the discussion of community planning promoted by Hong Kong social welfare agencies, both governmental and voluntary.

SWK 336  
Community Work II  
Core, Optional, Major; 2nd term  
3rd & 4th year  
2 units; 2 hrs. Lect./wk.

A sequel to SWK 335.
SWK 350  
Field Instruction I  
Core, Major; Year  
3rd year  
8 units; 14 hrs. Exer./wk.

The course aims to provide opportunities for students to put into practice in an agency setting under supervision, theories learned in class: (a) Methods of direct service to clients — casework, group work and community organization; (b) Knowledge and differential use of community resources; (c) Jobs akin to agency administration — planning, budgetting, staffing, etc., and (d) Tools of administration — writing of reports, letters, accounting, use of research findings, conducting meeting, etc.

SWK 040  
Student Orientated Teaching  
Core, Major; STOT; Year  
4th year  
4 units; 2 hrs. STOT/wk.

This is small-group, less structured teaching related to the student’s major field but not formally tied to any particular course. Its aim is to build in the student habits and attitudes of mind characteristic of the expert in his or her chosen field and relevant to the solution of the kind of problems the student is likely to encounter in life. For this year of studies, the primary focus is on training the student to present a report in a proper manner based on a logical examination of a given problem.

SWK 441  
Social Welfare Administration  
Core, Optional, Major; 1st term  
4th year  
2 units; 2 hrs. Lect./wk.

This course aims to provide some basic understanding of welfare agency administration. Basic principles and methods in administration, issues in policy making, personnel management and administrative structure of social welfare agencies will be discussed.

SWK 442  
Social Policy and Planning  
Core, Optional, Major; 2nd term  
4th year  
2 units; 2 hrs. Lect./wk.

This course aims to achieve an appreciation of the contribution of social planning and policy-formulation to the solution, control and amelioration of social problems on the macro-level; a knowledge of the key elements involved in the process of decision-making; an ability and some skill in designing programmes of social service consistent with the economic capacity, cultural values and standards in the Hong Kong setting.

SWK 443  
Social Work Research  
Core, Optional, Major; 1st term  
3rd & 4th year  
2 units; 2 hrs. Lect./wk.

This course is designed to provide students with an understanding of research as an essential component of professional practice. The
relationship between research principles and methodology and practice principles and techniques will be emphasized. Problem formulation, research design, data collection, analysis and reporting research findings will be discussed.

SWK 450  
Field Instruction II  
Core, Major; Year  
4th year  
8 units; 14 hrs. Exer./wk.  
See SWK 350 Field Instruction I. Prerequisite: Field Instruction I.

SWK 461  
Seminar I (Social Security)  
Core, Optional, Major; 1st term  
3rd & 4th year  
3 units; 2 hrs. Lect./wk.  
This course studies the concepts of social security, its historical development and societal functions. Social security programmes in other countries are compared. Special reference is made to local programmes. The planning, financing and administrative aspects of the social security system are also studied.

SWK 462  
Seminar II (School Social Services)  
Core, Major; 2nd term  
3rd & 4th year  
3 units; 2 hrs. Lect./wk.  
This course includes the examination of the existing educational system and its impact on the developmental process of school children in Hong Kong. Various kinds of social services in school will be discussed. Relevant local materials on school social work are used for illustration.

SWK 463  
Seminar III (Social Aspects of Housing)  
Core, Optional, Major; 1st term  
3rd & 4th year  
3 units; 2 hrs. Lect./wk.  
This course discusses housing in Hong Kong, the development of its character, the physical layout of multi-storey buildings and housing estates and neighbourhoods. It also explores the social, educational and recreational opportunities and facilities in the housing estates for tenants of various age groups. The social and psychological impacts associated with living in high flats are studied, with policy implications for future housing planning.

SWK 464  
Seminar IV (Family Planning)  
Core, Optional, Major; 2nd term  
3rd & 4th year  
3 units; 2 hrs. Lect./wk.  
Family planning will be viewed within the context of social work practice. The values and resources for the planning of family size and the role of the social workers as an educational and therapeutic agent in family planning will be examined.
SWK 465 
Seminar V (Correctional Services) 
Core, Optional, Major; 1st term 
3rd & 4th year 
3 units; 2 hrs. Lect./wk.

This course includes: review of some basic concepts of social deviance 
in sociological and legal aspects, discussion of the existing rehabilitation 
systems of law offenders, and the role of a social worker in these 
systems.

<sup>1</sup> Core course.
Requirements for Major Students

(a) The 10 core courses will be required of all Sociology Majors, and will be offered in multiple sections, depending on the number of students enrolled.

(b) Five of the core courses are, in effect, fundamental courses in the Paper Areas. They are Complex Organization, Social Development, Social Problems, Collective Behaviour, and Chinese Society.

(c) The minimum number of units for Majors is therefore 51.

Requirements for Minor Students

(a) All minors are required to take Introduction to Sociology.

(b) Minor students are required to take a minimum number of 21 units.

Course Description

SOC 101/102  Introduction to Sociology  Core, Both; Both terms  1st year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.

An overview of basic concepts and principles in the field of sociology. Elements of social organization, functional relationships of social institutions, and processes of social change are examined.

SOC 201  Classical Theory  Core, Major; 1st term  2nd year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.

The foundations of sociological theory as laid by the classic writers of the turn of the century are examined in the light of current sociological perspectives. Special emphasis is given to the works of Marx, Durkheim, Weber, and Simmel. Fundamental developments of method and theory are examined.

SOC 202  Contemporary Theory  Core, Major; 2nd term  2nd year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.

This course reviews some of the outstanding contemporary propositions in sociological theories: Symbolic Interactionism, Structural Functionalism, Conflict Theory, Exchange Theory, Social Phenomenology, Action Theory and Ethology. It begins by analyzing the nature of scientific theorizing, its logical and epistemological bases, and its problematic status in Sociology.

SOC 203  Research Methods  Core, Major; 1st term  2nd year
3 units; 2 hrs. Lect. + 1 hr. Tut./wk.
This course is an introduction to the fundamental principles and procedures of scientific research in sociology. It includes studies of problem formulation, research designs, data collection methods, data analysis and interpretation, and report presentation. Materials from local research projects are used for illustration. Home-work assignments are given for the design of a research project.

SOC 204
Social Statistics
Core, Major; 2nd term
2nd year
3 units; 2 hrs. Lect.+1 hr. Tut./wk.

This course is to develop an understanding of the basic assumptions, methods and interpretation of statistical analysis in social research. Intramural Sports Programme
The Physical Education Unit, in cooperation with the University and College Student Unions, provides a wide variety of team and individual competitions.

Each year, University-wide activities include an Aquatic Meet and a Track and Field Meet. In addition, there are formal team competitions in basketball, volleyball and other sports between College teams.

Intercollegiate Sports
This competitive programme is for students who are interested in scheduled athletic competition with teams of other post-secondary colleges in Hong Kong. Men’s teams include volleyball, basketball, badminton, track and field, tennis, soccer, swimming, German handball, and table tennis. Women’s teams include volleyball, basketball, badminton, track and field, tennis, swimming and table tennis.

The coaching staff consists of qualified personnel within the Unit. Special skill instructors are also sometimes invited from outside to give instruction in an honorary capacity.
FIRST YEAR CHINESE AND
FIRST YEAR ENGLISH

Both the Department of Chinese Language and Literature and the
Department of English offer language courses, viz. First Year Chinese
and First Year English, for all first year students unless the student has
been granted exemption.

First Year Chinese

Course Codes
CHI 171/173/175/177

Aim and Scope
This course aims to help the student to acquire the ability to use the
Chinese language effectively for communication and study. The course
consists of: (1) teaching of texts, (2) language exercise, (3) outside
reading, and (4) composition.

Teaching and Tutorial
The three periods assigned to this course in every teaching week are
apportioned as follows:

1. One period for teaching, the emphasis being on analysis of
texts and usage of language.

2. One period for language exercise which is composed of: (a)
A short composition in about 500 characters on a subject of
practical writing every fortnight. Mutual assessment should be
done among students before the composition is submitted to
the teacher. (b) Exercise in grammar and rhetoric. (c) Practice
of listening and reading skills.

3. One period for tutorial during which students will discuss
language problems under the guidance of a teacher.

Assignments

1. Composition: Each student must submit at least three essays
per term.

2. Outside reading: Each student must read one to two books
selected from a list of works by more than ten modern writers.
The teacher will assess each student’s progress at fixed intervals.

First Year English 1st year
(Science) 6 units; 3 hrs. class work per week
A course aimed at improving the English proficiency of first year students enrolled in the Faculty of Science. The course will feature the study of focal reading passages chosen to reflect the range of subject matter and levels of difficulty which students are likely to meet in their undergraduate studies. The subject matter of the reading passage is used to generate speaking, listening and writing exercises which have been developed on the basis of a needs assessment.
INTERNATIONAL ASIAN STUDIES PROGRAMME

In keeping with the University's distinctive educational mission of promoting cultural exchange between East and West, an International Asian Studies Programme was launched at the University in 1977 with the support of the Yale-China Association. This Programme is open to a selected number of students, research scholars and academic staff from overseas who wish to take advantage of the University's academic resources and research facilities in the broad area of Chinese and Asian studies, including the Chinese language training programme offered by the New Asia — Yale-in-China Chinese Language Centre.

The International Asian Studies Programme is fully integrated into the regular academic, administrative and social structure of the University. Programme participants from overseas and local students live in the same hostels. Some courses in Asian and Chinese studies are taught in English for the benefit of both programme participants and local students. Courses given in Chinese at the University are open to those programme participants who have the language competence to benefit from them.

There are three categories of participants: (1) associate students: undergraduates and graduate students taking a full load (12-18 units per term) of language and area studies; (2) research students: graduate students primarily undertaking research or writing their masters' theses or doctoral dissertations; and (3) special scholars: academic staff members or other learned scholars, normally of post-doctoral status, pursuing research, refresher or advanced courses.

Programme fees and financial aid for participants are respectively printed on p.430 and p.443 of this Calendar.

Candidates may apply for just a single term (first term: September to December; second term: January to April; summer term: 9 weeks from June to August) or for any combination of two or more consecutive terms. Previous course-work on Chinese language or Asian studies is not required for admission, but undergraduate applicants must have successfully completed at least two terms of university study and graduate applicants must hold a BA degree. Research students and special scholars must show genuine research or scholarly interest.

All inquiries and applications should be addressed to the Office of the International Asian Studies Programme at The Chinese University of Hong Kong except those from America and Canada which should be addressed to the Programme's North American representative: The Yale-China Association, 950A, Yale Station, New Haven, Connecticut 06520, U.S.A.

Either term; 3rd – Grad.
3 units; 3 hrs. Lect./wk.

Social, cultural, economic and political changes brought about by the Chinese Communist Revolution with special reference to the impact of Maoist ideology and strategy.

IAS 409 Independent Research on Asian Studies
Core, Elective; 2nd term
3rd – Grad.
3 units; 3 hrs. Lect./wk.
Independent research on selected areas in Asian studies under the supervision of appropriate academic staff.

IAS 420, 520, 620
Advanced Mandarin
Core, Elective; Both terms
2nd — Grad.
10 units; 10 hrs. Lect./wk.
Widens the student’s skills to read newspapers and simple literature and to use the dictionary.

IAS 440, 540, 640
Advanced Cantonese
Core, Elective; Both terms
2nd — Grad.
10 units; 10 hrs. Lect./wk.
More sophisticated speech patterns; translation exercises; 200 additional characters.
POSTGRADUATE STUDIES

The University first introduced programmes at the postgraduate level with the establishment of the School of Education in 1965. In the following year, the Graduate School was formally founded to undertake research training of graduate students leading to the award of Master's degrees. The Lingnan Institute of Business Administration which is substantially supported by the Trustees of Lingnan University in New York was opened in 1966 as one of the divisions of the Graduate School. In 1980, the University advanced into the realm of doctoral education.

The Graduate School at present offers instructions through its 20 graduate boards and divisions.

In the current academic year, postgraduate studies programmes leading to the degree of Doctor of Philosophy (PhD) are conducted in the field of Chinese Studies and in Electronics. For a PhD degree, a candidate shall normally spend a minimum of three years (or two years for one holding a Master's degree) and a maximum of seven years. General Rules for Postgraduate Studies Leading to the Degree of Doctor of Philosophy are printed on pp.512-517 of this Calendar.

Three types of programmes leading to the award of Master's degrees are offered: (1) two-year programme including course-work and research thesis leading to the award of the degrees of Master of Philosophy (MPhil), Master of Business Administration (MBA), Master of Divinity (MDiv) or Master of Social Work (MSW); (2) one-calendar-year programme by course-work and examination or submission of a satisfactory dissertation leading to the award of the degrees of Master of Arts (MA) or Master of Arts in Education; (3) a three-year part-time MBA course.

Persons who have graduated with good honours degrees from recognized universities and who have the capacity for research may apply for admission to the above postgraduate programmes. General Regulations Governing Postgraduate Studies are printed on pp.500-511 of this Calendar.

Programmes Leading to Doctoral Degrees

CHINESE STUDIES

The PhD Programme in Chinese Studies involving the disciplines of Chinese Language and Literature, History and Philosophy is administer-
ed by a graduate board consisting of representatives from the graduate divisions concerned.

In addition to the general qualifications required for admission to a PhD Programme, candidates should have majored in Chinese Language, Literature, History, Philosophy, Arts or other related fields. A student is expected to select his area of concentration from the field of Chinese Language, Literature, History, Philosophy, the Arts etc.

On the programme, a student is expected to take a maximum number of 18 units, i.e. three year-courses in a year and a language other than Chinese and English may be required. Upon successful completion of the language and course requirements the student will write his thesis under the direction of his Supervisor.

ELECTRONICS

In addition to the general qualifications required for admission to a PhD Programme, the candidate should normally have majored in Electronics, Electrical Engineering, or Physics with Electronics, or in related fields.

The Programme is research-oriented. A Master degree holder is not required to take any course work although he may register for courses related to his research or upon the Supervisor’s advice. An applicant with a BSc degree will have to satisfy the following course requirements:

(a) Each student must take at least six courses, four of which must be at the graduate level. One of the courses may be German, French, or Japanese. At least four of these courses must be taken and passed in the first two terms that he registers on the Master’s programme.

(b) The Grade Point Average of the required courses taken must be at least 2.6 for each term, with each course grade at C or above.

Fields of Specialization

1. Signal Processing
2. Computer Architecture and Applications
3. Semiconductor, Superconductor, and Liquid Crystal Technology
4. Microwave Theory and Techniques
5. Control and System Theory
6. Biomedical Engineering
7. Plasmas and Electromagnetic Theory
8. Solid State Circuits – Fabrication and Technology
9. Solar Energy Devices
Programmes Leading to Master’s Degrees and Diploma

STUDIES IN BUSINESS ADMINISTRATION

The University offers two types of postgraduate programmes leading to the degree of Master of Business Administration (MBA): (1) a two-year programme, and (2) a three-year programme (evening).

The major objective of the MBA programmes is to prepare men and women for responsible administrative and executive positions in business, government and other organizations.

The two-year programme is operated under the Lingnan Institute of Business Administration established with substantial initial financial support from the Lingnan University Board of Trustees in New York in 1966. The three-year programme was launched in 1977 with generous financial support from the local business community. The latter is conducted in the evening in the Central District of Hong Kong and is designed to provide practising managers with an opportunity to learn new concepts of business management without interruption of their careers.

Admission to the MBA programmes is open to graduates of recognized colleges and universities, both in Hong Kong and abroad, who holds a Bachelor’s degree in any field of study; or to those who have professional or similar qualifications equivalent to a degree. Applicants who meet these qualifications or undergraduates who expect to receive their Bachelor’s degrees in the current academic year, may apply for admission to the two-year MBA programme. For the three-year MBA programme, applicants are expected to have had at least several years of full-time working experience.

Two-year MBA Degree Programme

Completion of the two-year curriculum usually takes four semesters in full-time residence. The student who does not obtain any waiver of required courses must have 60 credits in order to graduate; the student who is allowed to waive one or more courses must complete at least 54 credits in order to graduate.

Second year courses include Operations Research, Managerial Economics, Managerial Control Systems, Organizational Behaviour, Business Policy, and three elective courses. Students are also required to complete either a Master's Thesis or a Business Research Report.

Three-year MBA Degree (Evening) Programme
Completion of the three-year curriculum normally takes nine trimesters of study. Students are expected to take two courses each trimester. A minimum of 54 credits are required in order to graduate.

First year courses include Accounting, Principles of Organization and Management, Economics, Quantitative Methods in Business, Business Research Methods, and Legal Environment of Business.

Third year courses include Managerial Economics (or Operations Research), Organizational Behaviour, Research in Business Problems (or Master's Thesis II), Business Policy, and two electives.

STUDIES IN EDUCATION
Courses on education are conducted by the School of Education established in 1965 to provide professional training for graduates of approved universities to serve in local secondary schools. The School of Education possesses up-to-date teaching facilities including a language laboratory, an instructional material unit, an audio visual workshop and an educational technology unit equipped with a close-circuit system.

The School offers a one-year full-time course and a two-year part-time course leading to the Diploma in Education. For the convenience of serving teachers, two types of two-year part-time course are provided: (1) part-time evening course, and (2) part-time day course (classes mainly given on weekends during the year in addition to the summer
school holidays). There is also a postgraduate programme leading to the degree of Master of Arts in Education (MA (Ed)).

Applicants for the Diploma in Education courses should be graduates of recognized universities and those who wish to apply for the two-year part-time courses must be serving secondary school teachers or educational workers in related fields. Applicants for the MA(Ed) programme must have obtained the Diploma in Education or a qualification or relevant experience acceptable to the School in lieu thereof.

**Diploma in Education Programme**
The programme includes the following courses:
- Subject Curriculum and Teaching: First Teaching Subject
- Educational Thought and Issues
- Psycho-social Development of the Adolescent
- School Guidance
- Psychology of Learning and Teaching
- Evaluation and Test Construction
- Educational Communications and Technology
- Micro-teaching
- Subject Curriculum and Teaching: Second Teaching Subject (Elective)
- School Administration (Elective)
- Education Research and Statistics (Elective)
- Extra Curricular Activities (Elective)
- Educational Simulations and Games (Elective)
- Classroom Management (Elective)
- Education in China (Elective)
- Individual Project (Elective)

In addition to course work, full-time students are required to spend a substantial part of the academic year in practice teaching which includes a series of Micro-teaching practice-sessions and two blocks of observation and teaching in secondary schools.

**MA Degree Programme in Education**
For the award of the MA(Ed) degree, candidates must complete the required courses and a thesis to the satisfaction of the School within a minimum of one calendar year or a maximum of three calendar years.

Each candidate is expected to specialize in one or two of the following areas:
- Educational Administration
- Educational Communications and Technology
- Guidance and Counselling
- Educational Psychology
- Educational Measurement and Evaluation
Curriculum Planning and Development  
Social Foundations of Education and Comparative Education  
Chinese Language Education

DIVISION OF BIOCHEMISTRY

Fields of Specialization
1. Actions of Animal Hormones/Reproductive Physiology  
2. Molecular Biology/Virus  
3. Intermediary Metabolism/Actions of Plant Hormones  
4. Bioactive Natural Products  
5. Reproductive Biochemistry/Structure-Activity Relationships of Hormones  
6. Immunochemistry  
7. Biochemical Aspect of Drug Addiction  
8. Structure and Function of Serum Lipoproteins  
9. Behavioural Biochemistry/Sensory Biochemistry  
10. Neurobiochemistry  
11. Biochemistry of Motility  
12. Detection of Carcinogenic Compounds

MPhil Degree Programme  
The minimum requirements are:

First Year:
   Course in Biochemistry or in other disciplines as approved by the Division .................. 8 units  
   Research/Special Study/Literature Review .............................. 4 units  
   Seminar ...................................................... 2 units

Second Year:
   Graduate Course/Seminar ..................................... 2 units  
   Research towards a Master's thesis ....................... 8 units

Total ......................................................... 24 units

DIVISION OF BIOLOGY

Fields of Specialization
1. Animal Physiology/Comparative Endocrinology (especially fish and reptiles)  
2. Cytogenetics  
3. Developmental Zoology/Embryology  
4. Fungal Genetics  
5. Microbiology/Phycology  
6. Molecular Biology/Cancer  
7. Plant Pathology/Mycology
8. Plant Hormone/Intermediary Metabolism
9. Virology/Bacteriophage
10. Ecology/Environmental Studies
11. Marine Biology/Mariculture
12. Culture of Edible Fungi
13. Entomology

MPhil Degree Programme
The minimum requirements are:
First Year:
1. Course work................................................. 6 units
2. Seminar..................................................... 2 units
3. Research for thesis................................. 4 units
Second Year:
1. Special Topic with Supervisor or Panel ........ 2 units
2. Seminar..................................................... 2 units
3. Research for thesis................................. 8 units

Total............................................................. 24 units

(Students may proceed to work on the Special Topic in their first year and defer the course work to their second year under special circumstances.)

DIVISION OF CHEMISTRY

Fields of Specialization
1. Inorganic Chemistry
2. Analytical Chemistry
3. Organic Chemistry
4. Physical Chemistry
5. Theoretical Chemistry
6. Applied Chemistry

MPhil Degree Programme
The courses offered to students are varied according to their interest and their research project. The study plan for each student will be arranged by his research supervisor, following the guideline set up by the Chemistry Board.
First Year:
1. Selected topic courses in Chemistry offered both to 4th-year undergraduates and graduate students
2. Tutorial course in an advanced special field to strengthen his background in research, as arranged by the supervisor
3. Survey of current literature in the chosen field arranged with the supervisor
4. Courses offered by other departments but specially useful to the graduate students
5. Seminar
6. Research

Second Year:
1. Tutorial course and literature survey arranged with the supervisor
2. Seminar
3. Research towards a Master's thesis

DIVISION OF CHINESE LANGUAGE AND LITERATURE

MPhil Degree Programme
Students in the first year are required to complete course work and take part in the seminar, totalling 10 units. In the second year of study, they are required to take part in the seminar and prepare a Master's thesis.

Courses are offered in the following fields:
1. For Chinese Linguistics Section:
   (a) Chinese Linguistics
   (b) Chinese Paleography
   (c) Chinese Grammar
2. For Chinese Literature Section:
   (a) Lectures on Special Subjects
      (i) Studies in Classical Chinese Poetry
      (ii) Studies in Classical Chinese Prose
   (b) Studies in Modern Literature

Students of both Sections must learn a third modern language other than Chinese and English for a period of two years.

DIVISION OF COMMUNICATION

MPhil Degree Programme
The principal objective of this two-year curriculum leading to the MPhil degree in Communication is to contribute to understanding the processes and effects of communication in the context of a changing society, particularly the Chinese.

The programme aims at performing three major functions: (1) to equip the students with the basic and latest knowledge and professional skills in communication; (2) to acquaint them with key concepts in the fields of specialization in communication and/or related fields; and (3) to prepare them for the creation of and contribution to new knowledge in communication.
Each student is required to complete a total of 60 units in two years of which two-fifths will be on communication courses, and the rest will include elective courses in communication-related areas, summer in-study professional experience and a master thesis.

The programme of study for each student is to be arranged by his academic advisor. Major courses to be offered include the following:

1. Multi-disciplinary Approach to Mass Media
2. Process of Human Communication
3. Human Communication Technology
4. Design and Analysis for Communication Research
5. Strategy for Integrated Communication Campaigns
6. Communication in Cultural and National Context
7. Seminar on Communication Patterns in Chinese Culture
8. Topical Studies in Communication

Course work must be completed within four semesters unless approved otherwise by the Division head. A student may be required to take extra courses or exempted from special courses upon approval of the Division head.

DIVISION OF ECONOMICS

Fields of Specialization

1. Quantitative Economics
2. International Economics
3. Economic Development
4. Asian Economic Studies

MPhil Degree Programme

Each MPhil candidate must meet a minimum requirement of 24 credits for course work (an equivalent of 8 term courses) and a substantial thesis, which normally take two years for completion.

First Year:

1. Compulsory courses:
   (a) Economic Theory
   (b) Econometrics

2. Elective courses:
   (a) Mathematical Economics
   (b) Monetary Theory
   (c) International Trade
   (d) International Finance
   (e) Economic Development
   (f) Development Planning
   (g) Socialist Economics
   (h) Seminars in Area Studies
Second Year:
1. Seminars
2. Research towards a Master’s thesis

DIVISION OF ELECTRONICS

Fields of Specialization
1. Signal Processing
2. Computer Architecture and Applications
3. Semiconductor, Superconductor, and Liquid Crystal Technology
4. Microwave Theory and Techniques
5. Control and System Theory
6. Biomedical Engineering
7. Plasmas and Electromagnetic Theory

MPhil Degree Programme
A student pursuing the MPhil degree is required to complete four courses satisfactorily, each course consisting of not less than 20 hours of lectures. In addition, the student is required to carry out a research project of about one year in duration for which a satisfactory thesis is required. This programme usually takes two years to complete.

DIVISION OF ENGLISH

MA Degree Programme in English Language
Students are required to take three courses in each of two terms, and to spend five months on a research project, so that the course will last one full calendar year. The prescribed and elective courses will be arranged by the supervisor and Graduate Panel.

Fields of Specialization
1. Linguistics
2. Applied Linguistics
3. Sociolinguistics
4. Psycholinguistics

MPhil Degree Programme in Teaching of English as a Second Language
The course of study requires two years to complete. In each of the first three terms, students will be required to take three courses. In the fourth term (and part of the third term if necessary) students will devote themselves primarily to the preparation of a research thesis. Students will be required to attend additional seminars in all four terms. The prescribed and elective courses will be arranged by the supervisor and Graduate Panel.
Fields of Specialization

1. Linguistics
2. Applied Linguistics
3. Sociolinguistics
4. Psycholinguistics
5. Instructional Methodology
6. Materials Development
7. Evaluation
8. Curriculum Design and Planning

MPhil Degree Programme in Comparative Literature

The course of study requires a minimum of two years to complete; the first three terms concentrating on seminar work, and the fourth term, on the writing of a thesis. Student are required to complete a total of nine seminars and to submit a thesis.

First Year:

(First Term)
1. Bibliography and Research Method
2. Comparative Literature — Recent Trend and Perspective
3. Comparative Study of Fiction

(Second Term)
4. Comparative Study of Poetry
5. Comparative Study of Drama
6. Comparative Study of Literary Criticism

Second Year:

(First Term)
7. Problems of East-West Comparative Literature
8. Folklore and Literature
9. Linguistic Stylistics
10. Translation
11. Recent Critical Methodologies and Comparative Literature

(Second Term)
Thesis

DIVISION OF GEOGRAPHY

MPhil Degree Programme

1. Chinese Studies
2. Urban-economic Studies
3. Environmental Studies

In addition to course work, each student will be required to write and submit a research thesis.
DIVISION OF HISTORY

Fields of Specialization

1. History of Chinese Political Institutions
2. Chinese Historical Geography
3. Chinese Economic History
4. Ancient Chinese History
5. History of the Ch'in and Han Dynasties
6. History of the Wei, Chin and Southern and Northern Dynasties
7. History of the Sui and T'ang Dynasties
8. History of the Sung, Liao, Chin and Yuan Dynasties
9. History of Ming and Ch'ing Dynasties
10. Modern Chinese History
11. History of Contemporary China
12. Historical Relations between China and the Western World
13. Historical Relations between China and Asian Areas
14. World History — national history, modern and contemporary Western history

MA Degree Programme

Students are required to take at least four full courses or their equivalents in one calendar year. On the advice of their assigned supervisors, they should take relevant graduate courses and/or courses offered for junior or senior undergraduates as listed below, and they should get a satisfactory grade approved by the Division.

The Division offers the following courses in the academic year 1980/81 to be chosen by the students according to their specialization:

1. Historical Relations of China and the Western World
2. Topic Studies in China's Relations with other Asian States
3. Topic Studies in European History
5. Topic Studies in European Social and Economic History
6. Topic Studies in 19th Century Britain and British Commonwealth
7. Topic Studies in Contemporary World

MPhil Degree Programme

Students are required to take at least three full courses in the first and second years of study, and to prepare a Master's thesis in the second year. They are also required to learn a third modern language other than Chinese and English for a period of two years. Courses, in the form of either lectures or seminars, are to be offered in the fourteen fields mentioned above.
DIVISION OF MATHEMATICS

Fields of Specialization
1. Functional Analysis
2. Algebra
3. Differential Geometry
4. Applicable Mathematics

MPhil Degree Programme
Each candidate should normally complete a total of 26 units. These may be distributed as follows:

First Year:
1. Courses ........................................ 8 units
2. Seminar ........................................ 2 units
3. Thesis .......................................... 2 units

Total ............................................. 12 units

Second Year:
1. Courses ........................................ 2 units
2. Seminar ........................................ 2 units
3. Thesis .......................................... 10 units

Total ............................................. 14 units

Each course arranged by the Graduate Panel will be for one term and will be equivalent to two units. The Graduate Panel offers five basic graduate courses. The candidates should pass at least three of them before their graduation. The three basic graduate courses selected by the candidate should not be directly within their own field of specialization. Other courses will be arranged under the guidance of the supervisors and the Graduate Panel. If the Panel agrees, students may take some undergraduate courses which are related to their research, but in no case shall a student be credited with more than the equivalent of four postgraduate units in undergraduate courses.

DIVISION OF PHILOSOPHY

Fields of Specialization
1. Problems of Chinese Philosophy
2. Problems of Epistemology
3. Metaphysics
4. Studies of Chinese or Western Philosophers
5. Other fields of Philosophy including Comparative Studies in Philosophy

MPhil Degree Programme
Students are required to take at least four full courses and to prepare a Master's thesis in the second year of study.
DIVISION OF PHYSICS

MPhil Degree Programme

(A) Courses: A Student is required to take at least four of the courses listed below, of which at least three should be taken in the first year.
1. Quantum Mechanics (required)
2. Advanced Mathematical Methods (elective)
3. Electrodynamics (elective)
4. Solid State Theory (elective)
5. Selected Topics (elective)

(B) Research: Each student is required to undertake a research project and to write a thesis. Faculties are available for work on the following:
1. Electrical and mechanical properties of solid state polymers
2. Thermal properties of solid state polymers
3. Optical properties of solids
4. Electrical and optical properties of amorphous semi-conducting films
5. Ultrasonics in polymers and condensed state
6. Biophysics
7. Neutron activation analysis
8. Multi-valued logic circuits
9. Theoretical study of disordered systems
10. Theoretical study on collisions of electrons with atoms and molecules
11. Interaction of laser with matter
12. Holography

DIVISION OF SOCIAL WORK

MSW Degree Programme

The programme aims to prepare students for policy, administrative and teaching roles in social welfare. The focus is on the provision of courses that allow flexibility to students in relation to career goals. The course consists of four semesters of graduate work, including a field practicum. Students may complete the programme in two academic years of study beginning in September.

The minimum requirements are:

First Year:
1. Course work ............................................. 8 units
2. Seminar ...................................................... 4 units
3. Research ...................................................... 4 units
Second Year:
1. Seminar .............................................. 4 units
2. Research for thesis ................................. 6 units
3. Field .................................................... 4 units

Total .................................................... 30 units

DIVISION OF SOCIOLOGY

Fields of Study
The Division offers supervised research and reading courses in the following areas: Advanced Theory, Advanced Methodology, Comparative Social Systems, Aspects of Sociology, Chinese Society, Hong Kong Society and Graduate Seminar.

MPhil Degree Programme
The Sociology Division offers a two-year programme leading to a MPhil degree. The programme is organized to enable the students to devote the first year to course work and to spend the major part of the second year writing a Master's thesis. Each student and his supervisor will plan a programme of studies at the beginning of the first year. This programme will consist of required graduate courses and elected reading courses chosen in the light of the student's needs and interests. In some cases, students may be required to take advanced courses in the undergraduate curriculum which are relevant to the students' thesis topic or which will strengthen the students' general sociological background. In addition, each student will be required to attend Graduate Seminar which meets every week. The purpose of this Seminar is to provide a forum for the exchange of views among graduate students, faculty and visiting specialists in relation to a number of selected topics in current sociology and anthropology. Students are required to choose their thesis topic in the second term of the first year and, if possible, to initiate at least exploratory research during the summer months.

DIVISION OF THEOLOGY

MDiv Degree Programme
First Year: The regular programme for MDiv degree will consist of advanced studies designed to bring the students to a high level of competence in the basic skills and knowledge required for various forms of ministry.

Second Year: Students will concentrate on the area of their own special interest and write a Master's thesis incorporating the results of their study in their area of special interest.
Those who hold a Bachelor's degree in subjects other than Theology will have to study more than two years to fulfil the requirements.

Cost of University Education

In addition to the prescribed fees listed above, all full-time students are advised to set aside funds for other items including meals, books, transport, personal and other expenses.

The cost of meals on campus is about HK$2.50 for breakfast and $4.00 each for lunch and dinner. According to the estimation of the Joint Universities' Committee on Student Finance, books and stationery and other incidental expenses would be in the region of $1,120 a year. In addition, a commuting student may have to spend between $500 to $900 a year on transport. Personal and other extra expenses are entirely at the discretion of the individual student concerned.

In all, taking into consideration all fees and expenditure set out above, a student will probably need between $8,500 to $10,000 a year to support his education at the University.
SCHOLARSHIPS AND FINANCIAL AID TO STUDENTS

To help needy students meet part of the cost of their university education, the Government has made provisions for grants and interest-free loans through the Joint Universities' Committee on Student Finance. In academic year 1979/80, a total of HK$19,275,000 ($5,000,000 in grants and $14,275,000 in loans) were allocated to Chinese University students and more funds will be available in the current academic year. The maximum amount of support a student can expect under this scheme is a grant of $2,980 and a loan of $5,400. Most university entrants depend on this scheme for financial support.

In addition, the University and its three constituent Colleges also administer their own scholarships and bursaries. In academic year 1979/80, the value of these awards totalled $1,202,210 and 623 students were able to benefit. A summary of these awards is given below. Further details are available at the Office of Student Affairs of the University.

PART V

RESEARCH INSTITUTES
AND UNIVERSITY
EXTENSIONS
INSTITUTES AND RESEARCH CENTRES

The University is directly responsible for providing faculty members with research facilities so as to enable them to keep up with the latest developments in their own fields and to contribute to them. For this purpose four Institutes, namely, the Institute of Business Management Studies, the Institute of Chinese Studies, the Institute of Science and Technology, and the Institute of Social Studies and the Humanities, have been established.

Generally, the development of the Institutes is as follows: individual faculty research may develop into a group or inter-disciplinary effort; when substantial outside financial support permits, a research unit, a centre or an independent institute would be established. Various research centres and units have been set up within these four Institutes to concentrate on specific fields of studies.

Institute of Business Management Studies

The Institute of Business Management Studies was established in 1978 to promote inter-disciplinary research among members of the Faculty of Business Administration. It supports both academic and practical research, but with particular emphasis on projects with a local significance.

At present, services provided by the Institute include: (1) research assistance in the collection and compilation of research data as requested by Faculty members, (2) typing of research reports, and (3) publication of research reports.

Institute of Chinese Studies

The Institute of Chinese Studies was established in 1967 on the basis of a broad but unified concept of Chinese studies. It includes what is traditionally identified as Sinology, but emphasizes the application of social science discipline, characterized by its quantitative and comparative approaches.

The objectives of the Institute are: to promote scholarship in Chinese studies in Hong Kong and overseas by serving as an international centre for Chinese studies capable of effectively assisting other academic and research institutions and scholars in this field and maintaining close and continuing communication and co-operation with them; to develop a well-integrated programme of teaching and research in Chinese studies within the context of Asian and world developments;
to provide interested local and visiting academic members of the University with the necessary facilities for training in order to help them strengthen their teaching and research abilities; and to encourage the exchange of knowledge and experience in Chinese studies through an effective programme of publications, academic conferences and research seminars.

Since 1968, the Institute has published *The Journal of the Institute of Chinese Studies of The Chinese University of Hong Kong*, a scholarly annual with one volume in two numbers a year.

**Art Gallery**

The Art Gallery, established in 1971, serves both as a teaching museum for the Fine Arts Department and as a centre of research on Chinese art and archaeology. As an active gallery which mounts special exhibitions of Chinese art at regular intervals, it also provides a valuable service to the art loving community of Hong Kong.

Apart from the general collection for teaching purposes, the Art Gallery houses several important research collections of Chinese art and antiquities. Notable amongst the latter are a collection of over 1,300 paintings and calligraphy by Kwangtung artists and scholars dating from the Ming to recent periods, over 250 bronze seals of the Warring States to Han periods and a collection of more than 400 pieces of Chinese jade flower carvings.

The Art Gallery has a Conservation Annex which provides technical support for the Gallery. This includes the restoration and conservation of works of art; the mounting and restoration of Chinese paintings; woodwork and photographic services.

**Centre for Chinese Archaeology and Art**

This Centre was established in 1978 to undertake research projects in Chinese Archaeology and Art. The purpose is to pull the resources in the Art Gallery and the Departments of History and Fine Arts together, setting a solid foundation for research in this field, and to promote cooperation with similar research programmes abroad. An index to the publications and a data archive of the subject have been compiled and are ready for service. Results of various research will continue to be published in *The Journal of the Institute of Chinese Studies* and a monograph series has been inaugurated.

**Chinese Language Research Centre**

The Chinese Language Research Centre has its origin in the Chinese Linguistics Research Centre first established in 1966 and was enlarged in early 1979 under its present name.

The main objective of the Centre is to engage in comprehensive research on the Chinese Language, including such fields as the Chinese
script, pronunciation, grammar and vocabulary, and to make available to the public in general and teachers of Chinese in particular the results of its research in the hope that this will contribute towards the raising of the standard of Chinese Language teaching in Hong Kong.

In addition to the above, the Centre also plans to run a Diploma Course in Chinese Language in collaboration with the Department of Extramural Studies, to carry out a study of teaching material and teaching methods of Chinese in secondary schools, and to conduct research on Chinese grammar. Preparation for the publication of a quarterly on the Chinese Language and a dictionary of Chinese characters in common usage suitable for Hong Kong readers is also under way.

**Comparative Literature and Translation Centre**

In 1971, a Centre for Translation Projects was established with a grant from The Asia Foundation. It has concerned itself with research and publication involving English-Chinese and Chinese-English translation. The Centre was re-organized and renamed the Comparative Literature and Translation Centre and divided into two Divisions in 1978.

The Translation Division continues the work of the Centre for Translation Projects. In translating from Chinese into English, it concentrates mainly in the areas of literature, history and philosophy. A continuing vehicle for this is the English-language journal, *Renditions*, published semiannually since 1973. Included in the Division's Projects are "Renditions Books" and "Renditions References". Four titles of "Renditions Books" have been published since 1976. The Division will bring forth another book in 1980: *Song without Music: Chinese T'zu Poetry*. *A Dictionary of Chinese Idioms and Clichés* is now under preparation as the first volume of the "Renditions References" series. The English-Chinese portion of translation work concentrates on standard works related to the social sciences and the humanities. Several titles have been published, including Bernard Gallin's *Hsin Hsing, Taiwan: A Chinese Village in Change*. Another title, *A Critical Study of the Chinese Translations of Hamlet*, will come out in 1980.

The Comparative Literature Division works from a "Chinese perspective" in order to complement the work of Western comparatists. Chinese literature is its focus and research projects now underway include: a reference work of translated critical terms from Chinese literature; a *Comparatist's Handbook* which will include glossaries, bibliographies, and quotations to stimulate the study of Chinese literature from a comparative point of view; translations into Chinese of works on literary theory with a view to suggesting a variety of methodologies for the study of literature.

The two Divisions of the Centre work together in coordinating the disparate efforts of individuals on collective research projects of high priority.
Institute of Science and Technology

The Institute of Science and Technology is established for the purpose of promoting interdisciplinary research in the Science Faculty with particular emphasis on projects with long-term regional significance or applied value. It is also an important vehicle of the University for cooperation in scientific research and consultation with industries, government departments and other universities. At present, there are three major research centres under the Institute which will in addition promote other interdisciplinary projects before developing them into newer research units when justified.

Chinese Medicinal Material Research Centre

The Research Centre has its origin in the Research Unit on Chinese Medicinal Material which was established in 1975. It was enlarged in 1979. Research personnel come from Biochemistry, Biology, Chemistry and other departments. The basic objective is to undertake laboratory investigation of certain rationally selected Chinese medicinal herbs in order to establish their true therapeutic value on a scientific basis. The Research Centre has received local support for the establishment of a Chinese Medicine Research Fund and a Research Laboratory.

In 1980, a partnership agreement was made with the IBM to computerize a huge amount of information on Chinese medicines. This will facilitate cross reference, retrieval and link-up with Western computerized medical and scientific data base.

Research Centre for Food Protein Production

This Research Centre was formerly known as the Research Unit on Food Protein Production from Wastes. The Centre aims at the production of high quality food protein from wastes and achieving pollution control simultaneously through interdisciplinary research co-operation. Research staff of the Centre come from the Departments of Biology and Chemistry as well as other departments in the University. There are two main streams of research: (1) the production of food proteins from sewage wastes by intensive aquaculture through successive steps in the food chain of algae, shrimp, fish, etc. and through vegetable crop production from sewage sludge; (2) the production of straw mushroom and other edible mushrooms from cotton wastes and used tea leaves.

Hung On-To Research Centre for Machine Translation

This Research Centre for machine translation (named after the donor, the late Mr. Hung On-To) was established in 1978 to study the translation of natural languages by computational techniques. An on-line computer system PDP 11/34 has since been installed.
Institute of Social Studies and the Humanities

The function of the Institute of Social Studies and the Humanities is to promote and encourage faculty research in various fields and to conduct postgraduate training on different subjects. The faculty research mentioned above is distinct from the kind of research supported by other organizations in the University for teaching purposes. Through the Institute, the University hopes to come to close cooperation with universities abroad.

The Institute now embodies the following subjects: Sociology, Social Work, Economics, Public Administration, Mass Communication, Geography, Education, East Asian Studies, and other related topics in social studies and humanities.

Centre for Communication Studies

The Centre for Communication Studies is an interdisciplinary research unit carrying out investigations of its own or those originated externally.

The Centre's long-range goal is to maintain, develop, and improve the communication of human society in general and of the mass media in particular, at both local and regional levels. The Centre's current activities include: an exploration of the concepts, principles and patterns of communication in the Chinese culture, both traditional and contemporary; and the collection and dissemination of information on communication in the Asian region through (1) The Asian Messenger, a quarterly report on communication and research, (2) occasional research monographs, and (3) its documentation unit. In addition, the Centre seeks to promote regional cooperation among communication educators and educational organizations through seminars, workshops and joint research projects with universities and communication research institutes. It offers valuable professional training programmes for persons in the media industry in Asia and supports the MPhil programme in Communication for those who have received their BA in communication/journalism or related fields.

Centre for East Asian Studies

The Centre for East Asian Studies was established in 1971 with the object of (1) promoting Japanese, Korean and Southeast Asian studies, (2) promoting international collaboration with overseas universities, research institutes and other academic institutions, and (3) training experts in this field, locally as well as internationally.

Research personnel include research fellows who are specialists on Asian studies from among the teaching staff of the University, and visiting research fellows invited from other institutions to carry on their own research in a specific field.
Economic Research Centre

The Economic Research Centre was established in 1974 with a view to applying modern research methodology to the study of economic problems in the region. Participants of the Centre's research projects are primarily members of the Department of Economics, with graduate and undergraduate students taking part as part-time research assistants. Current projects include topics dealing with various aspects of the economy of Hong Kong, as well as the recent experience in the development and growth of countries in Southeast Asia and the Far East including Mainland China. Theoretical and related empirical studies have also received due consideration. Inter-disciplinary cooperation is emphasized in research.

Public Affairs Research Centre

The Public Affairs Research Centre was established in 1977 to strengthen research activities among academic members in the field of government and public administration and to promote interdisciplinary research in co-operation with colleagues in related fields.

Research efforts, which are primarily related to teaching, concentrate on significant studies with special reference to Hong Kong, China and Southeast Asia. Although emphasis is placed on government and public administration, inter-disciplinary research is promoted whenever possible.

The research programmes of the Centre consist of a series of inter-related projects in the following areas: (1) Hong Kong: i. public policy making in Hong Kong, ii. strengthening relations between the government and the community, iii. changing patterns of local administration, iv. political economy of Hong Kong, and v. selected issues in government and administration. (2) China: i. government and administration: the China model, ii. China's foreign policies: goals and strategies, iii. modernization and political-economic development, iv. Taiwan: internal development and external relations. (3) Southeast Asia: i. the role of the Association of Southeast Asian Nations in regional socio-political development, ii. administrative reforms in Southeast Asia, iii. China-Hong Kong and Southeast Asia, iv. problems of overseas Chinese.

Social Research Centre

The Social Research Centre, established in 1969, has both research and educational commitments.

In its research programme, the Centre undertakes studies on various aspects of social change in Hong Kong and China. The Centre has a particular interest in research which permits not only an assessment of a given situation, but also an analysis of alternative future developments coupled with a capability to observe actual developments
as they occur. The Centre occasionally undertakes to help other interested organizations in the formulation of their research programmes, in research design, field work, analysis of data and thereby act as a consultant on relevant aspects of research studies which, in themselves, may be carried out by other private or government organizations.

In its educational commitment, the Centre seeks to contribute to the development of a cadre of expert researchers whose abilities and skills will contribute to this community. The Centre’s educational functions both at the post-baccalaureate and the pre-baccalaureate levels are, in turn, coordinated with teaching departments of the relevant fields. Undergraduate students also participate in the research efforts and receive training in field work, interviewing and other aspects of social research.

Other Research Units

Geographical Research Centre
The Geographical Research Centre was established in 1966 with the primary function of promoting faculty research on the geographical studies of China and Hong Kong. Individual and group research projects are being undertaken by members of the Department of Geography. Current research programmes are mainly concerned with environmental and urban studies.

Marine Science Laboratory
The Marine Science Laboratory, established in 1970 as a research centre for advanced studies in marine science, is under the supervision of the Department of Biology. This research centre is essentially interdisciplinary, and offers facilities for research in Biology, Chemistry, Physics and Geography. The present emphasis is on Marine Biology and Mariculture.

The Laboratory is equipped with an airconditioned aquarium and a hatchery house with enclosed tanks (two mother-fish holding tanks, two operation tanks, two nursery tanks), food preparation room and microscope room. Outside there are 12 young-fish holding tanks and four 6-metre diameter tanks.
UNIVERSITY EXTENSIONS

Department of Extramural Studies

The Department of Extramural Studies serves the community by offering opportunities for continuing education, utilising the teaching and research resources of the University as well as the community as a whole. The Department offers evening and day-time courses in a wide range of studies including Chinese, Social Sciences, Philosophy, Psychology, Social Work, Economics, Commerce, Law, Education, History, Geography, Science, Mathematics, Computer Science, English and Art, Audio-visual Language, Home Care and Craft, Performing Art, and Mass Communication.

The following certificate courses are currently offered. Kindergarten Teaching (IV), Modern Chinese Ink Painting (III), Basic Japanese, General Business Management, Graphic Design Techniques, Dramatic Art, Chinese Folk Dance, Drawing and Painting, Commercial Photography, Commercial Practice, Chinese Language, and Management for Executive Development.

The Department also offers correspondence courses in English and Chinese Writing, English and Chinese Language and Literature, Business Administration, Principles of Economics, Child Development and Care, Two Dimensional Design, Chinese Painting, Modern Mathematics, etc. and Self-learning courses in Interpersonal Relationships, Mandarin, Japanese, English Conversation, General English and Appreciation of Chinese Instrumental Music.
The Department has been cooperating with Commercial Radio, Radio Television Hong Kong (RTHK) and the former Commercial Television in educational broadcasting since 1970. A wide variety of courses were offered including Languages, Business Studies, Arts and Culture. This year will also see the Department's first radio course on the English Channel of RTHK.

Since 1978, at the request of different organizations in Hong Kong, the Department has offered various training programmes for their staff. These organizations include: The Home Affairs Department of the Hong Kong Government, Sun Hung Kai Securities Ltd., Sun Hung Kai Properties Ltd., and the Amoy Canning Corporation.

In February 1979, the Department launched its first course by Newspaper — "Oceans". Since then, two more courses by Newspaper have been offered — "Morals and Society" and "Connections: Technology and Change". In each of the courses, special weekly articles in English or Chinese were carried up to a period of six months in several leading local newspapers. Many of these special articles were prepared by local scholars and some were obtained from the University of California in San Diego. Apart from newspaper articles, all the courses featured contact sessions which, conducted in Cantonese, Mandarin and English, aimed to expand on the major topics covered in the newspaper articles and study guides.

Enrolment in 1979/80 for all courses (including general courses, certificate and correspondence courses) amounted to 31,112.

The Department of Extramural Studies runs a Town Centre at Oriental Centre, 13th, 14th and 17th Floors, 67 Chatham Road, Kowloon. In order to facilitate greater learning opportunities in the more distant districts, some of the courses are being held in Quarry Bay, Tsuen Wan, Shatin, Kwun Tong and North Kowloon at rented school premises. Information brochures and leaflets are issued regularly and are obtainable free on request. Further information may be obtained from the Department of Extramural Studies, The Chinese University of Hong Kong at telephone No. 3-669361.

**New Asia — Yale-in-China**
**Chinese Language Centre**

The New Asia — Yale-in-China Chinese Language Centre offers courses designed primarily for non-native speakers of Chinese. Founded in 1963 under the joint auspices of New Asia College and the Yale-China Association, the Centre became a part of the University in 1974.

Every year over two hundred students from different parts of the world are admitted to the Language Centre. These students range from
absolute beginners to trained sinologists who wish to polish their spoken Chinese or learn a Chinese dialect. Courses are offered at all levels so that any student can find training suitable to his needs and ability. The Language Centre also offers Mandarin courses for local Cantonese-speaking residents.

Courses offered by the Language Centre follow a quarter system, each quarter lasting eleven weeks. Students may register for admission beginning in any quarter. There are beginners courses at the beginning of each quarter. The intensive programme of fifteen hours of classroom instruction per week constitutes the maximum course load. Students may also register for six or nine hours, depending on the courses being offered in any one quarter. The maximum class size is 7 students, while most classes average between 4 and 5. In exceptional cases, private tutorials are available. Tuition fees for Language Centre courses are printed on p.430 of this Calendar.

The Language Centre has a full complement of tapes, both reel to reel and cassette, for teaching purposes. Language laboratory facilities are available and students may also borrow cassette tape recorders for short periods.

The Language Centre gives credits according to the American pattern and issues grades and transcripts. Study at the Centre has been recognized by major universities for degree credit. For students from institutions that do not use the credit system, transcripts are prepared in sufficient detail to present a clear picture of the work accomplished by each student.

Copies of an information brochure are available free on request. All correspondence should be addressed to the Director, New Asia — Yale-in-China Chinese Language Centre, The Chinese University of Hong Kong, Shatin, New Territories.

The Library System

The University Library System was established in 1963 with the founding of the University. It consists of the University Library, founded in 1965, and the libraries of the three constituent Colleges: Chung Chi, founded in 1951; New Asia, founded in 1949; and United, founded in 1956.

The University Library opened in small quarters in Kowloon, moving to temporary space in the Benjamin Franklin Centre in 1969. In 1972, the University Library moved into its spacious new building in the centre of the Shatin campus. This five-storey building has a floor space of 7,993 square metres. It can house over 400,000 volumes and accommodate 500 readers. Aside from the usual study rooms and carrels for readers, the Library has its own conference and seminar rooms, an audio-visual room, a photographic laboratory, microfilm facilities, a rare book room, and a book bindery. All this goes to make the Library one of the modern academic libraries in the Far East.

The University Library is primarily a reference and research library for the use of the faculty, staff, visiting research scholars, and students of the University. The branch libraries at each of the three Colleges provide generous collections of books and journals for general education and for the support of undergraduate study and student-orientated teaching. The administration of the University Library System is centralized under the University Librarian. All acquisitions and cataloguing activities are done in the University Library which maintains a union catalogue of the holdings of the entire system. Borrowing privileges in all four libraries are extended to all members of the University.

The Library of Congress system has been used since 1969 for Western language materials and since 1971 for Oriental materials. By now the Western language collections have been completely reclassified in this system, and most of the Oriental collections have also been reclassified.

In February 1977, the University Library System published, as its Bibliographical Series, No. 1, The Union Catalogue of Serials, listing over four thousand titles of scholarly journals, general periodicals, newspapers, and government documents. This Catalogue also contains a subject index, an index to Oriental titles by stroke count, and the
complete holdings of the Library System through 1975. In conjunction
with the opening of the new Audio-Visual Department in the University
Library, the University Library System published the Union Catalogue
of Audio-Visual Materials as Bibliographical Series No. 2 in September
Government was published as Bibliographical Series No. 3 in 1979.

Large sets of Chinese classical books in the traditional format of
silk-stitched fascicles have been acquired for the research of the faculty
and graduate students in Chinese studies. Many important journals in
the field of Chinese studies, in both Oriental and Western languages,
have been obtained. The Western language collection is also growing
steadily stronger, particularly in bibliographic and reference materials.

The holdings of the University Library System as of June 30,
1980 are:

<table>

<tr>
<th></th>
<th>Oriental</th>
<th>Western</th>

<td>352,412</td>
<td>322,618</td>

In the future, the University Library System expects to begin
developing some computer applications to its library processes. It will
also expand its audio-visual services considerably.

The Chinese University Press

After a decade of publishing activities, chiefly under the Publications
Office, the University established the Chinese University Press in 1977.
Reflecting the distinctive characteristics of The Chinese University
of Hong Kong, the Press publishes books in Chinese and in English and,
frequently, in both languages. And, although it publishes books in
almost all disciplines, more than half of its publications are in Chinese
studies.

The Press has been publishing a greater number of books in special
series. Two books in the "Renditions Books" series, and the first book in
the "Ch‘ien Mu Lectures in History and Culture: Chinese National
Character and Culture in Historical Perspective" were published before
April 1980. Books scheduled for publication in the coming months
include those in the following new Series: Institute of Chinese Studies' Monograph Series, Historical Material Series and Bibliography and
Index Series; and the Monograph Series of the Centre for Chinese Archaeology and Art.

In February 1980, the project of publishing Works by Kwangtung Authors as the first of the Chinese University Library Books was
brought to completion through the cooperation of the Press. The book,
in six volumes, is a collection of selected writings of more than 700
authors of Kwangtung province from Han Dynasty (206 B.C.—220 A.D.) to Ch’ing Dynasty (1644 A.D.—1912 A.D.). Much of the materials collected in the book are not obtainable from other sources.

In order to help facilitate the use of English and Chinese as the media of instruction and general communication in the University, the Press has been gradually implementing its plan to publish a series of English-Chinese glossaries. In addition to those in Biology, Computer Science and Law, which had already been published, two more such glossaries, one in Accounting and Finance and the other in Sociology, were published in the winter of 1979. Four others are in various stages of preparation.

36 books and 2 issues each of the Journal of The Chinese University of Hong Kong and the Journal of the Institute of Chinese Studies were published in the winter of 1979. About 40 titles are scheduled for publication in the coming year.

Computer Services Centre

The Chinese University Computer Services Centre is in operation on the ground floor of the Pi-Ch’iu Building. The Centre, through its Computer Processing Unit, provides service to students, faculty, and research computer users of the University. Through its Information Systems Unit, the Centre serves the data processing needs of the University administration.

The Chinese University Computer Services Centre is an integral component of the Universities and Polytechnic Computer Centres (UPCC) System. This System comprises an advanced data communications network linking the computer facilities of The Chinese University, Hong Kong University, and Hong Kong Polytechnic. The facilities of this entire system are available to members of the University community.

At the Chinese University Computer Services Centre, a PDP 11/70 computer system with a large number of terminals attached provides access to the UPCC System Network. Besides the processing capacity of this PDP 11/70, the UPCC System Network provides the Chinese University computer user community with shared access to an IBM 3031 computer system and an ICL 1904S computer system.

The Computer Services Centre provides the following services to the students, faculty, researchers, and administrators of the University:

(a) Basic computer time for job processing on the UPCC IBM and ICL computer systems as well as the PDP 11/70 system
(b) Computer program consultation services and technical advice for users with program difficulties
(c) Application of packages program services and consultation on appropriate packages and software systems to meet particular application requirements
(d) Program and systems development services for special applications, particularly University administration applications
(e) Video learning services for various computer topics
(f) Data preparation services for large projects
(g) Reference manual and other documentation services
(h) A variety of other miscellaneous services.

Health Service

The University Health Service is charged with the responsibility of meeting the health needs of students, staff and their dependents. Special emphasis is being placed on developing a comprehensive primary care service to handle the many medical, dental, psychological and social needs and problems of students.

The University Health Centre, serving as the physical basis for the operation of the health programme, is a gift of the Yale-China Association. Officially opened in September 1971, it has been specially designed and built as a student health centre with space provisions for the practice of preventive care, health education and personal medical services.

The Health Centre is open from 9:00 a.m. to 5:00 p.m. Mondays through Fridays and from 9:00 a.m. to 1:00 p.m. on Saturdays. Services include:

(a) Health consultations for diagnosis, counselling, preventive, curative and rehabilitative treatment
(b) 24-hour service with nurse on duty and doctor "on call" Monday through Saturday morning; daytime nursing service during weekends and holidays
(c) Infirmary care for students in need of observation, isolation, diagnosis and treatment of minor to intermediate illness of short duration
(d) Dental consultation, restorative, preventive and emergency treatment
(e) Periodic physical examination for certification purposes
(f) Co-ordination of access to diagnostic laboratory and x-ray services, referrals to appropriate specialists, treatment centres or hospitals when necessary.

No charges are made for any of the clinical services provided directly by the University Health Service with the exception of house visit and dental service.

It is hoped that through the unique educational opportunities generally available in the University and its constituent Colleges, and
the numerous contacts students may have with the Health Service, they will have ample chance to replenish themselves with adequate knowledge of good health attitudes and habits and will be well oriented to accept appropriate responsibilities to look after their most valuable personal asset in life — HEALTH.

Instructional Development Services

Instructional services are supervised by the Senate Committee on Instructional Development established in 1978. The Committee coordinates the work of two servicing units both located in the Pi-Ch’iu Building.

The Instructional Development Office

The Office aims to support good teaching and learning throughout the University. It has three areas of activities: (1) Communication and Information: the Office produces bibliographies, news-sheets and occasional papers on instructional matters for teaching staff. It also operates an informal referral service, and maintains communication and exchange with others concerned with university teaching in Hong Kong and throughout the world. (2) Consultation and Support: the Office provides information on curriculum design and evaluation, university teaching methods, learning and study skills and the development of teaching resources. Help can be provided with the development of an individual’s teaching skills. Seminars, workshops and short courses are organized from time to time for staff. The Office administers a programme of mini-grants for projects concerned with the development and improvement of teaching. (3) Research: on its own initiative and by request the Office conducts developmental research on issues that lead to the improvement of teaching and learning.

The University Instructional Media Services

The Unit provides services for teaching, research and special functions to members of the University. It has four audio-visual teaching rooms, a sound studio, a preview room and dark rooms and runs language laboratories in each of the three constituent Colleges. The Unit has its own photographer and graphics artist who are available to assist staff in the production of teaching materials. There are also facilities to enable staff to prepare their own materials. The following services are provided for teaching, research and administration at the University:

(a) Provision of audio-visual aids, including projectors, sound reproduction equipment and television play-back
(b) Single camera black and white closed circuit television facilities
(c) Basic photographic, graphic and some reprographic services, including audio and video-tape copying
(d) Consultation services on lay-out and equipment for teaching areas
(e) Maintenance and repair of audio-visual equipment
(f) Administration of audio-visual rooms and language laboratories
(g) Training in the operation of audio-visual machines.

In conjunction with the Instructional Development Office, the University Instructional Media Services also provides: (1) information and consultation services on the development and use of audio-visual equipment in teaching; and (2) a small collection of reference books and journals on university teaching methods and instructional materials.

Student Service and Student Activities

The Office of Student Affairs attends to student welfare and helps students take full advantage of their university education. The activities of the Office are administered through its two sections. (1) The Student Activities Section co-ordinates university-wide student activities; liaises with the Student Unions, their affiliated societies and alumni associations; administers scholarships and financial aids; manages student amenity facilities and the Temporary Student Hostels; and co-ordinates policies on undergraduate hostels. (2) The Appointments Service is responsible for initiating and developing employment opportunities for graduating students and, by organizing pre-employment training and orientation programmes, help them to plan their careers intelligently. The Service also maintains close liaison with employers and renders advice and assistance to them during recruitment exercises.

Counselling on social, psychological, financial as well as academic problems is mainly provided by the Dean of Students' Offices at each of the three Colleges. These Offices administer College scholarship and bursary awards and also play a vital role in the enrichment of campus life. In close co-operation and collaboration with the College Student Unions and their affiliated societies, the Dean of Students' Offices also oversee the execution of college-wide student activities.

At present, there are four Student Unions in the University, one each for the three constituent Colleges and one for the University as a whole. The latter maintains close links with the College Unions and coordinates university-wide activities. All year round, a wide range of activities, including academic, athletic, cultural as well as social functions are organized by the Student Unions. These include the Freshmen Orientation Camp in August, the Swimming Gala in October, and the University Athletic Meet in March.
Information about the University

An information service, freely available to members of the University and the general public, is provided by the University Public Relations and Information Office under the direction of the University Secretary. The activities of the Office include production of most of the main publications on the University, arrangements for visitors and public functions, and media relations.

Publications on the University

The Chinese University Calendar, published in English and Chinese in August every year, is intended as a general introduction to the history, organization and academic programme of the University. Copies may be obtained from the Public Relations and Information Office as well as the University Bookstore.

In addition, the University has published three reports by the Vice-Chancellor respectively entitled (1) The First Six Years 1963-1969, (2) The Emerging University 1970-1974, and (3) A New Era Begins 1975-1978. These contain comprehensive information about the University and trace every step of its development from inception through the first fifteen years to 1978. The Vice-Chancellor’s Report for 1978–1980 is expected to be published in 1981.

Information about University facilities, activities and recent developments are given in the University Bulletin published quarterly in English and Chinese. These are available free to members of the University and fraternal organizations. A Newsletter containing information about staff appointments, leave, awards and other staff matters is circulated internally once every two weeks.

Arrangements for Visitors

The University is situated in a beautiful part of the New Territories and is something of a tourist attraction because of its spectacular view and architectural beauty. The grounds of the University are open to visitors by arrangement with the Office of Public Relations and Information.

The Art Gallery, the University Library, and the Science Centre may be of special interest to visitors. The Art Gallery is open to the public from 10 a.m. to 4:30 p.m. on weekdays and from 12:30 p.m. to 5:30 p.m. on Sundays.

Media Relations

To encourage and maintain public awareness of the University and its activities, the Office of Public Relations and Information provides ready access for the media to members of the University. The Office answers inquiries from the media and prepares news statements on policy matters, new developments and senior staff appointments.
PART VII
REGULATIONS
REGULATIONS GOVERNING ADMISSION TO UNDERGRADUATE STUDIES

I. General

A. An applicant before being admitted as an undergraduate to a course of study leading to a Bachelor's degree of the University shall either:

(1) have satisfied the University Entrance Requirements as stipulated in Section II; or

(2) have been exempted from the University Entrance Requirements as stipulated in Section IV.

B. In addition to satisfying the University Entrance Requirements or being exempted therefrom, an applicant shall satisfy any additional requirement for admission to the Faculty he intends to enter.

C. In the selection exercise, apart from his results at the Higher Level Examination or its equivalent, an applicant's performance in the Certificate of Education Examination or its equivalent and his secondary school records will also be considered.

D. Normally, an applicant is required to attend an interview.

E. A successful candidate will be admitted to the University on a Faculty basis. At the time of application, he will be required by all Faculties other than the Faculty of Medicine to state his preferences for subjects to be studied. He need not select his Major and Minor subjects until his second year.

II. University Entrance Requirements

Except where otherwise stipulated, to satisfy minimum requirements, an applicant shall either:

A. have gained at one and the same Hong Kong Higher Level Examination in 1979 or thereafter Grade E or above in Chinese Language and Literature, English Language and three other subjects*; or

B. possess a Matriculation Certificate of The Chinese University of Hong Kong (CUHK) issued in 1978 or before.

*If Grade E or above is obtained in both Higher Mathematics and General Mathematics, they can only count as one subject.
III. Faculty Admission Requirements

In addition to satisfying the University Entrance Requirements in accordance with Section II, an applicant for admission to a Faculty shall satisfy the following requirements:

A. Faculty of Arts
   (1) Good grades in Chinese, English and other Arts subjects;
   (2) Good secondary school records.

B. Faculty of Business Administration
   (1) Good grades in Chinese and English;
   (2) Grade E or above in General Mathematics or in Higher Mathematics;
   (3) Performance at interview will be considered.

C. Faculty of Medicine (effective 1981)
   (1) Grade E or above in Use of English (or equivalent), Physics, Chemistry and one other subject, (preferably Biology, with Pure Mathematics, Applied Mathematics or Higher Mathematics being acceptable) at one and the same Hong Kong Advanced Level Examination or equivalent examination approved by the Admissions Committee, plus Grade E or above in Chinese in the Hong Kong Higher or Advanced Level Examination or Grade C or above in Chinese Language or Chinese Literature in the Hong Kong Certificate of Education Examination (HKCEE) or its equivalent (for an applicant with only a Grade C, the University reserves the right to require him to sit an internal test in Chinese Language); or
   (2) Successful completion of the University's first-year Science course in the appropriate subjects.

D. Faculty of Science
   (1) Biological Science
       For entry to the Biological Science stream (Biology and Biochemistry) applicants should have good grades in Biology and Chemistry plus a good grade in either Physics or Mathematics (General or Higher). Applicants' standard in both Chinese and English will also be taken into consideration.
   (2) Physical Science
       For entry to the Physical Science stream (Chemistry, Physics, Electronics and Computer Science) applicants should have good grades in Mathematics and Physics, or Mathematics and Chemistry, plus
preferably a good grade in another Science subject. Mathematics means General Mathematics or Higher Mathematics, but in selection for admission preference will be given to applicants who have achieved a good grade in Higher Mathematics. Applicants' standard in both Chinese and English will also be taken into consideration.

(3) Mathematical Science
For entry to the Mathematics Department, applicants should have good grades in Higher Mathematics, plus preferably good grades in one or two other science subjects. Applicants' standard in both Chinese and English will also be taken into consideration.

E. Faculty of Social Science
(1) Good grades in Chinese and English; and
(2) Grade E or above in one of the following subjects preferred:
   Economics
   Economics and Public Affairs
   General Mathematics
   Geography
   History

IV. Exemption from University Entrance Requirements
A. The following persons may apply for exemption from the University Entrance Requirements stipulated in Section II above:

(1) Applicants who have fulfilled the entrance requirements of the University of Hong Kong with Grade E or above in three Advanced Level subjects including Chinese Language and Literature at one and the same examination;

(2) Applicants who have fulfilled the entrance requirements of the University of Hong Kong with Grade E or above in three Advanced Level subjects not including Chinese Language and Literature at one and the same examination and have gained Grade E or above in Chinese Language and Literature in the Hong Kong Higher Level Examination or the CUHK Matriculation Examination;

(3) Applicants who have acquired an International Baccalaureate Diploma (but they may be required to gain Grade E or above in Chinese Language and Literature and/or English Language in the Hong Kong Higher Level Examination);

(4) Applicants who have received their secondary education outside Hong Kong and have completed at least
one year of study at a recognized university (but they may be required to gain Grade E or above in Chinese Language and Literature and/or English Language in the Hong Kong Higher Level Examination);

(5) Mature persons who are aged 29 or over on 1st September in the year when admission is sought, provided:

(a) i) they are able to show either by publication or by other acceptable evidence that they have achieved sufficient competence in their chosen field of study to justify admission, OR

ii) they have shown exceptional ability in appropriate academic or professional fields;

AND

(b) they can produce evidence of at least three years' continuous residence in Hong Kong.

However, they may be granted exemption only if and when their application for admission is accepted by the Faculty concerned.

B. With the exception of mature persons who must apply for exemption and admission simultaneously in March of the year in which admission is sought, all other categories of applicants must apply for exemption to the University Registrar from 1st October to 20th October preceding the year in which admission is sought.

C. A fee of HK$100 is payable on application and is not refundable whether exemption is granted or not.

D. Except as stipulated in Section IV. B. above, students who have been granted exemption may apply to the University Registrar for admission in June each year.
GENERAL REGULATIONS
GOVERNING UNDERGRADUATE STUDIES

1.0 Rules and Regulations
1.1 Students shall observe all rules and regulations stipulated by the University and College authorities.

2.0 Admission to Undergraduate Courses
2.1 Entrance Requirements
   An applicant seeking admission to an approved course of study leading to a Bachelor's degree shall have —
   (a) fulfilled the University Entrance Requirements or been exempted therefrom under the provisions of the Regulations Governing Admission to Undergraduate Studies, and
   (b) satisfied the admission requirements of the Faculty concerned.

2.2 Application for Exemption from University Entrance Requirements and Application for Admission
   (a) Normally applications for exemption from University Entrance Requirements shall be made to the Registrar of the University between 1st October and 20th October preceding the year in which admission is sought.
   (b) Applicants who have satisfied entrance requirements may apply for admission by completing a prescribed application form which should reach the Registrar in June of the year in which admission is sought.

2.3 Mature Students
   (a) Mature persons who are aged 29 or over on 1st September in the year in which admission is sought and who cannot meet the normal University Entrance Requirements may apply for exemption and for university admission provided they have satisfied the special conditions stipulated in Section IV, A(5) of the Regulations Governing Admission to Undergraduate Studies. Such applications shall be made to the Registrar in March of the year in which admission is sought.
(b) Applicants who are mature persons may be requested to sit for tests or attend interviews by the Faculty Admission Committees or the Departments concerned.

(c) No mature person shall be exempted from University Entrance Requirements and offered admission without the approval of the Senate.

2.4 Transfer Students

(a) A student who has completed at least one year of study at a university recognized by the Senate of this University may apply as a transfer student for exemption from University Entrance Requirements. He may, however, be required to gain Grade E or above in Chinese Language and Literature and/or English Language in the Hong Kong Higher Level Examination. Such an application shall be accompanied by a certified true copy of the applicant's academic record.

(b) Application for exemption from University Entrance Requirements shall be made to the Registrar between 1st October and 20th October preceding the year in which admission is sought.

(c) Applicants who have been granted exemption from University Entrance Requirements shall apply for admission by completing a prescribed application form which should reach the Registrar in March of the year in which admission is sought.

(d) No transfer student shall be admitted without the approval of the Senate.

2.5 Associate Students

(a) An applicant whose educational standard is considered adequate by the Department and the Board of the Faculty concerned may be admitted as an associate student to pursue an approved course of study not leading to a degree of the University.

(b) Application for admission as an associate student shall be supported by a certified true copy of academic record and made to the Registrar before 1st July or 1st November preceding the teaching term for which admission is sought. (This does not apply to the International Asian Studies Programme.)

(c) In order to change his status from an associate student to a candidate for a Bachelor's degree a student shall have fulfilled University Entrance Requirements or have been exempted therefrom and his application must be specially recommended by the Department and the Board of the Faculty concerned and approved by the Senate.
2.6 Auditing Students

(a) An applicant whose educational standard is considered adequate by the Department concerned may be admitted as an auditing student.

(b) Application for admission as an auditing student shall normally be made to the Registrar before 1st July or 1st November preceding the teaching term for which admission is sought.

(c) An auditing student shall not receive any grade or other academic recognition for the course/s taken.

3.0 Fees

3.1 The fees payable by students shall be prescribed by the University Council and may be varied from time to time at the University Council’s absolute discretion.

3.2 All fees shall be payable on dates specified by the University unless prior permission for deferment is obtained from the University Bursar.

3.3 A student who has not paid his fees on the specified date/s shall pay a fine of five dollars a day until the fees are paid and shall have his name removed from the register if he fails to pay up after a lapse of two weeks.

3.4 Caution money shall be payable on first registration as a deposit to make good any outstanding debts to the University incurred in, for example, damages to University and/or College property. This sum less any deductions made for outstanding debts shall be refunded on discontinuation of studies at the University. For graduating students, subject to no claim being outstanding, caution money shall be converted into graduation fee.

3.5 Apart from caution money, fees once paid shall not be refunded.

4.0 Registration

4.1 Applicants (including associate and auditing students) who have been offered admission to an approved course of study shall register in person with the Registry on the specified date/s and shall be deemed to have been admitted to the approved course of study on the date of their first registration, and thereafter, students shall present themselves for registration on the specified date/s before the beginning of each teaching term.

4.2 An applicant who for special reasons seeks permission for deferment of registration may apply in writing to the Registrar before the specified date/s for registration.
4.3 An applicant who has been offered admission but is prevented by illness or other sufficient cause from attending a given academic year or teaching term shall apply in writing to the Registrar for postponement of studies for a period not exceeding one year. Such an application shall be made before the specified date/s for registration. In the case of an applicant desiring postponement of studies on medical grounds, his application shall be accompanied by a certificate signed by an authorized medical practitioner.

4.4 Registration shall include the selection of courses and the payment of fees due. An applicant or a student who after a lapse of two weeks from the relevant specified dates fails to select courses and pay the fees shall be considered as having withdrawn from studies at the University.

4.5 A student registered for a full-time course of study may not be registered simultaneously with another institution as a full-time student except with the permission of the Senate.

4.6 A student registered for a full-time course of study shall not take up any full-time employment, paid or unpaid, during term time.

4.7 A student shall normally retain the name under which he was first registered. Under special circumstances, however, a student may submit to the Registrar an application for a change of his name (including alteration of, addition to or deletion from the name under which he was first registered) together with the following documents:

(a) applicant's written application;
(b) written consent from the applicant's parent or guardian, if the applicant is under the age of 21;
(c) copy of applicant's identity card or passport, carrying the new name intended to be registered with the University;
(d) copy of applicant's statutory declaration and/or birth certificate.

4.8 A student shall inform the Registrar immediately of any change of address or other particulars entered in the student's registration form.

5.0 Course Load

5.1 A student shall normally take no less than 12 units and no more than 21 units of courses in any teaching term depending on the requirements of the Faculty concerned.

5.2 Unless exempted, a student shall be required to take six units of General Chinese and six units of General English in the First year.
5.3 Physical Education and General Education courses in the First Year of study shall not exceed a maximum of eight units.

5.4 A student shall complete at least 120 units of courses in order to graduate.

6.0 Selection of Courses

6.1 Unless otherwise stipulated, a student shall, after consulting the teacher designated by the Department concerned, and after examining the Programme of Studies and the University teaching timetable, fill in and submit to the Registrar on the specified date/s, the prescribed form for course selection which shall have the necessary signatures.

6.2 In selecting courses a student in pursuit of a Bachelor's degree shall take into consideration the timely completion of the following requirements:

(a) General
   (i) General Education
   (ii) General Chinese, unless exempted therefrom
   (iii) General English, unless exempted therefrom
   (iv) Physical Education

(b) Faculty
   The Faculty's required courses, if any, for First and Second Year students,

(c) Major subject
   The specified prerequisite course/s, if any, core courses and courses for degree papers required of Major students, student-orientated teaching programme,

(d) Minor subject
   The specified prerequisite course/s, if any, core courses and courses for degree papers required of Minor students.

6.3 A student shall decide on his Minor subject prior to the selection of courses for his Second Year of study. He shall consult the teacher designated by the Department concerned before selecting his Minor subject.

6.4 A student shall take the required courses during the year specified in the Programme of Studies unless written application to do otherwise is approved by the Department concerned and a record of such approval submitted to the Registrar.

6.5 In selecting an elective/optional course, a student shall make sure that there will be no time-table clash with another course taken by him.
7.0 Course Withdrawals and Additional Course Selections

7.1 Application for course withdrawals and additional course selections after the specified date(s) shall be made on a prescribed form which shall have the signature of approval from the teacher designated by the Department concerned and shall be submitted to the Registrar. Such an application shall be made within two weeks after the beginning of the teaching term.

7.2 Under special circumstances, the Chairman of the Department concerned may, at his discretion after examining the student's written application, grant him permission to withdraw from a course or enrol in a new course after the second week of the teaching term.

7.3 A student who withdraws from a course without going through the prescribed procedure shall be given an 'F' grade for the course.

7.4 As a rule the units of a year course are applicable only as a whole to the minimum graduation requirement of 120 units when both terms are completed. If withdrawal from the second term of the course is approved in accordance with Faculty regulations, the grade received in the first term shall remain in the student's record, but the units received for the first term shall not count toward graduation unless (1) under special circumstances the second term is completed at a later date or (2) specific authorization by the Chairman of the Department is obtained by the student.

8.0 Potential Major

8.1 First Year students shall be admitted to a Faculty instead of to a Major department.

8.2 First Year students shall, according to their preference and aptitude, be registered as Potential Majors in one of the subjects offered in the Faculty, on the advice of the teacher designated by the Department concerned.

8.3 In addition to General Chinese, General English, General Education and Physical Education courses, a First Year student shall take at least three units but not more than twelve units of courses in his Potential Major subject or in a subject recognized as equivalent to it, plus at least one term course each in two other subjects. In consideration of their special needs, the Fine Arts and Music Departments may require their Potential Major students to take up to two additional units.
9.0 Admission to Major Department in Second Year

9.1 For promotion to the Second Year, a student must at the end of his First Year:
(a) have obtained an overall grade point average of not less than 1.5;
(b) have failed not more than nine units; and
(c) have met the requirements, if any, of the Faculty concerned.

9.2 A student who, at the end of his First Year, satisfies the conditions for promotion to Second Year as stipulated in 9.1 above and obtains grade C— (1.7) or above in each of his Potential Major courses and grade D (1) or above in such other courses as may be required, shall be admitted to the Second Year of the subject selected as his Potential Major in his First Year, unless he has applied for and has gained permission to pursue another Major subject.

9.3 A student who, at the end of his First Year, satisfies the conditions for promotion to Second Year may apply for permission to pursue a Major subject other than his Potential Major on a competitive basis and subject to the availability of vacancies in the Department concerned.

9.4 A Department may require a Major student to make up prerequisite courses, if any.

10.0 Promotion to Third Year

10.1 For promotion to the Third Year, a student shall at the end of his Second Year:
(a) have met the requirements, if any, of both the Major and Minor Departments concerned;
(b) have met the requirements, if any, of the Faculty concerned;
(c) have obtained an overall grade point average of not less than 1.5; and
(d) have failed not more than nine units in the Second Year.

10.2 A student who has obtained a grade point average of below 1.5 but not less than 1.2 may normally be considered for “recommended promotion” to the Third Year in which case he shall be put on probation, subject to his satisfying all the other requirements specified in 10.1.

10.3 A student who has completed his Second Year of university studies abroad on an approved exchange programme may be considered for promotion to the Third Year by the Board of his Faculty after consultation with the student’s Major Department.
11.0 Promotion to Fourth Year

11.1 For promotion to the Fourth Year, a student shall at the end of his Third Year, have done satisfactory work in his studies, met all the stipulated requirements of the Faculty and Major and Minor Departments concerned and have obtained a pass or a recommended pass in Part I of his Degree Examination.

12.0 Change of Major or Minor Subject

12.1 A student who wishes to transfer from one Major or Minor subject to another shall apply on prescribed forms to both the original Department and the Department he intends to join. If his application is approved by the Chairmen of the Departments concerned, the student shall submit the forms with the signatures of approval to the Registrar before a specified date.

12.2 If in considering a student's aptitude, the Chairman of the Department finds that the student should best be transferred to another Department and the other Department agrees to take the student, the Office of the Faculty shall advise the student to transfer accordingly.

13.0 Class Attendance and Leave of Absence

13.1 A student shall attend classes, tests and examinations and complete the work assigned by the teachers of the courses in which he has enrolled.

13.2 A student who cannot attend classes because of illness or other reasons shall report to the Registrar the exact date/s of his absence at the earliest opportunity.

13.3 In case of illness necessitating absence exceeding a week, a student shall inform the Registrar at the earliest opportunity and upon his recovery, submit a certificate signed by the Director of the University Health Service.

13.4 A student who wishes to obtain a leave of absence for more than a week for non-medical reasons shall apply in writing to the Registrar beforehand, stating the reasons for which leave of absence is sought. Such applications shall be subject to the approval of the Dean of the Faculty concerned.

13.5 Under no circumstances shall a student be granted leave of absence for more than one year in the first instance. In case he still finds himself unable to attend after one year's leave, he may apply for the extension of his leave for another year, beyond which no further extension shall be granted.
13.6 A student who has been absent without leave for a period exceeding one month shall be considered as having withdrawn from studies at the University.

13.7 A student who is absent without leave from a course for more than one-third of its scheduled teaching periods shall receive an ‘F’ grade for the course.

13.8 A student whose accumulated leave of absence exceeds one-third of the teaching term shall repeat the term. Under unusual circumstances, however, a special case may be considered on individual merit.

13.9 A student shall be required to take a certain leave of absence if he suffers from a contagious disease which is considered by the Director of the University Health Service as harmful to the University community. At the end of the prescribed period of absence, the student shall apply for a certificate of good health signed by the Director of the University Health Service before he can apply for resuming classes.

13.10 In case of classes or tests missed or assignments delayed because of illness or other serious emergencies, application for make-up work shall be subject to the approval of the teacher concerned.

14.0 Extension of Period of Study for Student Union Presidents

14.1 A student after election to the Presidency of the Student Union of the University or a College may, if he feels that his academic work will suffer through the pressure of his Union duties, apply in writing to the Registrar for permission to take not more than one extra year to complete his undergraduate studies and examinations. The Board of the Faculty concerned after considering each application may make a recommendation to the Senate thereon. No student shall be granted this privilege more than once.

14.2 Such an application shall be made within the first month after the beginning of the teaching term.

14.3 The grant of such permission shall not prejudice the student’s eligibility for any academic awards or financial assistance in the student’s academic career.

14.4 The said student shall take a minimum of six units of courses in each teaching term during his term of office as Student Union President. Should the student repeat a course in which he has gained a pass grade, the units of that course shall not count towards the six unit requirement. But he shall not be considered for promotion. Furthermore he shall not take any Degree
Examination which immediately follows the teaching term during which he has taken a reduced study load.

14.5 The said student shall be required to pay all prescribed fees.

15.0 Examinations

15.1 There shall be prescribed examinations for each degree of the University which shall be held at times to be determined by the University.

15.2 Examinations may be in the form of written, practical or oral tests, or continuous assessment, or any combination thereof.

15.3 A student who has done satisfactory work in his studies at the University and has met all the stipulated requirements may sit for the Part I and Part II of the Degree Examination held at the end of his Third and Fourth Year respectively in accordance with the Regulations for Degree Examination.

15.4 A student who for medical or other compelling reasons is unable to sit for any examination or any part thereof shall apply in writing to the Registrar for withdrawal from the examination or any part thereof. Application for such withdrawal for medical reasons shall be accompanied by a medical certificate signed by the Director of the University Health Service, and application for withdrawal for other compelling reasons, by a written request from the student’s parent or guardian if the student is under the age of 21. A student who is absent from an examination without prior approval for withdrawal shall be considered as failing in that examination.

16.0 Grades

16.1 A student’s performance in his studies shall be assessed on the basis of his performance in any or all of the following: class work, written work, laboratory performance, field work, research papers, tests and examinations and any other method of academic assessment.

16.2 Degree and course grades, converted points and standards used in reporting shall be as follows:

<table>
<thead>
<tr>
<th>Grade and Standard</th>
<th>Sub-divisions (if needed)</th>
<th>Converted Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent ..............</td>
<td>A</td>

<td>B+</td>
</tr>
<tr>
<td>B</td>
<td>Good .................</td>
<td>B</td>
</tr>
<tr>
<td></td>
<td></td>
<td>B–</td>
</tr>
</tbody>
</table>
16.3 The grade point average of a student’s course work for a teaching term shall be on a 4-point system in which A=4.0, B=3.0, C=2.0, D=1.0 and E/F=0. To compute the grade point average, one shall divide the total weighted converted points for all courses taken by the total number of units attempted, where:

(a) the weighted converted points are converted points multiplied by the number of units of the course concerned; and

(b) converted points are points converted from the letter grades as indicated in Regulation 16.2 above.

16.4 An Incomplete Grade (I) shall signify that a course has not been completed in the prescribed period. A grade shall be assigned upon the completion of the course work.

16.5 Incomplete course work must be made up within three weeks immediately following the last teaching day of the term in which it was assigned. Failure to complete the assigned work within the allowed time shall result in an ‘F’ grade.

17.0 Unsatisfactory Performance

17.1 Progress toward the Bachelor’s degree shall be monitored in terms of grade point averages.

17.2 A student may be placed on academic probation if in any academic year his cumulative grade point average for all courses attempted at the University falls below 1.5.

17.3 A student who is put on probation may be required to take a reduced study load.

17.4 The performance of a student who is put on probation shall be reviewed at the end of the first teaching term.

17.5 Probation shall be lifted when a student has attained a grade point average of 1.5 or above on all course work attempted in the first teaching term.

17.6 A student may be required to discontinue his studies at the University, subject to the decisions of the Board of the Faculty concerned and the Senate:
(a) If his grade point average is 1.0 or below; or
(b) If his grade point average is still below 1.5 after he has been put on probation for two successive teaching terms; or
(c) if the units of the courses which he fails amount to more than half of the total units taken in any year of study.

17.7 A student shall normally be required to repeat a year of study if he cannot meet the necessary requirements for promotion but no student shall repeat the same year of study twice.

17.8 A student required to repeat a year of study shall retake all the courses for that year except those expressly exempted from.

17.9 A student shall be required to discontinue his studies at the University from the eighth anniversary of the date of his first registration.

18.0 Transcripts

18.1 An official transcript giving details of all courses taken and examination results of a student shall not be issued to a student or any private individual.

18.2 A student who wishes to apply for transfer or admission to another educational institution or for employment may apply for an official transcript of his academic record to be sent directly to the said institution or prospective employer upon payment of the prescribed fees and postage.

19.0 Disciplinary Action

19.1 The University Senate, Boards of Faculties and College Assemblies of Fellows may take disciplinary action against a student who violates any rule or regulation and/or commits any misconduct such as:
(a) defamation of or assault on or battery against the person of any member of the University;
(b) wilful damage to or defacement of any property of the University;
(c) theft, fraud, misapplication of University funds or property of any kind;
(d) plagiarism in written assignments or cheating in tests or examinations;
(e) an offence in connection with degree examinations or violation of any of the regulations of the Senate governing conduct at examinations;
(f) falsification or serious misuse of University documents or records;
(g) refusal to comply with any regulations or orders by authorized persons and bodies prohibiting any conduct which disrupts teaching, study, research or administration of the University;
(h) any conduct which is detrimental to the reputation and well-being of the University;
(i) an offence of an immoral, scandalous or disgraceful nature of which the student has been convicted in any court of law.

19.2 Disciplinary action referred to in Regulation 19.1 may take the form of any of the following penalties in accordance with the nature and gravity of the offence:
(a) reprimand;
(b) suspension from part or all of the rights, privileges and/or the use of part or all of the facilities of the University for a specified period of time;
(c) demerit — a total of three demerits may result in termination of studies at the University;
(d) repetition of a year of study;
(e) suspension from the University for a specified period of time;
(f) termination of studies at the University.
Penalties (d), (e) and (f) may be imposed only with the approval of the Senate.

19.3 A student, on being informed of a decision to take disciplinary action against him, may within seven days write to request the Senate to review the decision.

19.4 Penalties imposed on a student may be entered into the transcript of his academic record.
REGULATIONS FOR THE DEGREE EXAMINATION 1981

Section I — General

1. The Degree Examination of The Chinese University of Hong Kong, hereinafter referred to as the Examination, shall be conducted in accordance with these Regulations by the Undergraduate Examinations Board, hereinafter referred to as the Board, constituted under the Senate of the University.

2. Success in the Examination, in accordance with the requirements laid down by the Board, shall be a prerequisite for admission to the bachelor's degree of The Chinese University of Hong Kong.

3. The Examination shall be conducted in two parts: Part I and Part II. The Part I Examination is intended for students who have satisfied the requirements stipulated in Section II (1), and the Part II Examination for students who have satisfied the requirements stipulated in Section II (2).

4. The Examination will start in about the first week in the month of May each year.

5. Candidates shall be notified, through notices posted up, of the timetable for the Examination and the centres at which the Examination will be held.

6. The principal language used in setting the examination papers shall be Chinese.

7. Candidates who have passed both Part I and Part II of the Examination and who have met all the stipulated requirements shall be recommended by the Board to the Senate for the award of a Degree in Arts, Science, Business Administration or Social Science, in accordance with their major subjects.

8. A list of successful candidates recommended for the award of a degree will be announced by the Board at about the end of July each year.

Section II — Entry Requirements

1. To be a candidate for Part I of the Examination, a student shall have
(a) been a third year student of the University,
(b) pursued an approved course of study extending over at least three years as a full-time matriculated student at the University, except as provided for in Statute 26(4), and
(c) satisfied the course requirements for all the degree papers he has applied to sit for in the Examination.

2. To be a candidate for Part II of the Examination, a student shall have
   (a) previously obtained a Pass or Recommended Pass in Part I of the Examination,
   (b) pursued an approved course of study extending over at least four years as a full-time student at the University, except as provided for in Statute 26(4), and
   (c) satisfied the course requirements for all the degree papers he has applied to sit for in the Examination.

3. Any candidate not covered by the above Regulations shall be eligible for admission to the Examination only if the sanction of the Board has been obtained.

4. Candidates for this Examination must apply to the Registry for admission to the Examination on the prescribed forms. All applications shall be forwarded to the Secretary of the Board not later than 15th February in the year of examination. No application shall be accepted after this date.

Section III — Number of Papers

1. The total number of papers for both Part I and Part II of the Degree Examination shall not be less than seven and shall not exceed nine.

2. In Part I of the Examination, a candidate shall enter for
   (a) one to three papers in the major subject and one to two papers in one minor subject, or
   (b) one to two papers in the major subject and two to three papers in two approved minor subjects,
   as specified for each individual subject, subject to the condition that the total number of papers entered for in Part I of the Examination does not exceed four and shall not be less than three.

3. In Part II of the Examination, a candidate shall enter for the necessary number of papers to satisfy the requirement that the total number of papers which he enters for in both Part I and Part II of the Examination shall be
   (a) five or six in the major subject and two or three in one minor subject, or
   (b) four in the major subject, two or three in the first minor subject and two in the second minor subject,
   as specified for each individual subject.
4. Any candidate who intends to submit a thesis, research paper or project in lieu of a degree paper must specify such intention in the application form mentioned in Section II, Paragraph 4. Such thesis, research paper or project should be submitted to the supervisor on a date specified by the Board of Studies concerned.

Section IV – Part I Examination

1. A candidate who passes all the papers he enters for in the Part I Examination will be awarded a Pass in the Part I Examination.

2. A candidate who fails in one or two papers and yet reaches for all the papers he enters for in the Part I Examination an average mark not lower than the pass mark as decided upon by the Board may be awarded a Recommended Pass in the Part I Examination provided that the result of any paper does not fall below a minimum mark determined by the Board.

3. A candidate who fails to obtain a Pass or a Recommended Pass may be permitted to repeat a year and enter for the Part I Examination of the following year, in which case he shall be required to sit for all the appropriate papers set for the candidates of that year.

4. A candidate who passes the Part I Examination but wishes to repeat his third year owing to change of major/minor subject may be allowed to do so provided that he enters for the Part I Examination of the following year which will be counted as second attempt and that he shall be required to sit for all the appropriate papers set for the candidates of that year unless exemption from taking certain papers has been obtained from the Board on the recommendation of the Boards of Studies or Committees of the candidate’s major/minor subject concerned.

5. No candidate shall be allowed to sit for the Part I Examination more than twice save under circumstances specified in Regulation 2 of Section VI. Any second attempt should be made in the year immediately following his failure, unless permission of the Board for postpone ment is obtained.

Section V – Part II Examination

1. A candidate who passes all the papers he enters for in the Part II Examination will be awarded a Pass in the Part II Examination.

2. A candidate who fails in one or two papers and yet reaches for all the papers he enters for in the Part II Examination an average mark not lower than the pass mark as decided upon by the Board may be awarded a Recommended Pass in the Part II Examination, subject to the conditions that the total number of failed papers in the Part I and Part II Examination together does not exceed two and that the
result of any one paper does not fall below a minimum mark determined by the Board.

3. A candidate who fails to qualify for a degree shall be permitted to enter the Part II Examination of the following year, in which case he shall be required to sit for all the appropriate papers set for the candidates of that year.

4. No candidate shall be allowed to sit for the Part II Examination more than twice save under circumstances specified in Regulation 2 of Section VI. Any second attempt should be made in the year immediately following his failure, unless permission of the Board for postponement is obtained.

Section VI — Absence from the Examination

1. A candidate who is prevented by serious illness/injury or the death of a parent from presenting himself at the Part I or Part II Degree Examination shall apply at the earliest possible moment to the Board for permission for absence from the particular paper/s missed. Other than exceptional cases, application shall not be accepted later than ten days after the last day of the Examination. In the case of serious illness/injury the application shall be accompanied by a certificate signed by the Director of the University Health Service.

2. Such a candidate whose application for absence is successful may be granted permission to make up in the Examination of the following year the papers which he has missed, if the Board considers his academic performance satisfactory.

3. Under special circumstances a candidate in (1) above, whose application for absence from the Part II Examination is successful may be recommended for the award of a Bachelor's Degree (Aegrotat), if the Board is satisfied with his academic standard. Acceptance of such a degree by the candidate shall render him ineligible to present himself for any subsequent Examination for the same degree.

4. An applicant who fails to obtain permission for his absence shall fail the Examination. Regulation 3 of Section IV or Section V shall be applicable to such a candidate.

Section VII — Award of Degrees

Degrees awarded to successful candidates shall be classified as follows:

(a) Bachelor's Degree with Honours, 1st Class
(b) Bachelor's Degree with Honours, 2nd Class Upper Division
(c) Bachelor's Degree with Honours, 2nd Class Lower Division
(d) Bachelor's Degree with Honours, 3rd Class
(e) Bachelor's Degree
However, a Bachelor's Degree (Aegrotat) shall not be classified.

**Section IX – Disqualification**

The Board may at its discretion disqualify a candidate who breaks any of the Regulations or Instructions made for the conduct of this Examination.
GENERAL REGULATIONS
GOVERNING POSTGRADUATE STUDIES

1.0 Rules and Regulations

1.1 All postgraduate students have an obligation to be conversant with and to observe all rules and regulations of the University.

2.0 Admission to Postgraduate Courses

2.1 Requirements for Admission

(a) An applicant before being admitted to a Ph.D. programme shall have in principle
   (i) obtained a degree of Master from a recognized university and the consent of two qualified scholars in the proposed field of study from recognized universities to be named as referees; or
   (ii) obtained a degree of Bachelor with Second Class Honours in the upper division or above and have been registered in a course of study for the degree of Master at this University for at least one year and have demonstrated his/her research ability in the opinion of the Graduate Division/Board concerned; and
   (iii) passed the Chinese Language Admission Test conducted by the Graduate School; and
   (iv) obtained satisfactory results in the Test of English as a Foreign Language (TOEFL) or in the test of any other language that has direct relevance to his proposed research area; and
   (v) possessed additional or special qualifications required by the Graduate Division/Board concerned; and
   (vi) submitted a study plan to the Graduate Division/Board concerned at the time of application for admission.

(b) An applicant before being admitted to a master’s programme shall have:
   (i) graduated from this University or other recognized universities possessing a Bachelor’s degree normally with honours not lower than Second Class, or
(ii) graduated from other recognized universities possessing a Bachelor's degree and achieving an average grade of not lower than "B" in his undergraduate courses, or

(iii) completed a course of study in a tertiary educational institution and obtained professional or similar qualifications equivalent to an honours degree, or

(iv) passed the Graduate School Entrance Examination, and

(v) obtained satisfactory results at the Test of English as a Foreign Language (TOEFL)

(c) An applicant before being admitted to the one-year full-time Diploma-in-Education course shall have:
   (i) graduated from this University or other recognized universities possessing a Bachelor's degree with a major/minor subject in an area of study within the secondary school curriculum, and
   (ii) satisfied other entrance requirements laid down by the School of Education.

(d) An applicant before being admitted to the two-year part-time Diploma-in-Education course shall:
   (i) have graduated from this University or other recognized universities possessing a Bachelor's degree with a major/minor subject in an area of study within the secondary school curriculum,
   (ii) be an in-service secondary school teacher, and
   (iii) have satisfied other entrance requirements laid down by the School of Education.

2.2 Application for Admission

2.3 Applicants for admission to an approved course of advanced study or research leading to a certificate, diploma or higher degree of the University shall apply by completing a prescribed application form which shall reach the Office of the School concerned on the specified dates. Supporting documents shall be submitted as specified in the application form.

2.4 Entrance Examination and Interview

(a) Unless otherwise stipulated, applicants for admission to an approved course of advanced study or research leading to a certificate, diploma or higher degree of the University shall take the TOEFL, sit for an entrance examination which includes the Chinese Admission Test, and any other subject tests as required by the Graduate Division or School concerned and/or attend an interview.
(b) An overseas applicant applying for exemption from the entrance examination and interview shall submit the following credentials to the Office of the School concerned not later than 15th April of the year in which admission is sought:

(i) acceptable credentials testifying to the applicant’s proficiency in Chinese and English;
(ii) a letter of recommendation signed by a scholar of international standing testifying to the applicant’s research ability.

(c) Graduates with a First Class Honours degree from this University may be exempted from the test in Chinese and TOEFL and in the major subject of the entrance examination if they continue their study in the same field as their undergraduate Major.

(d) Applicants for admission to a Ph.D. programme who can produce acceptable credentials testifying to their proficiency in the respective languages may be granted exemption from the requirements of the language tests as specified in Regulation 2.1 (a) (iii) and (iv). Other exceptional cases may be considered on an ad hoc basis.

2.5 Associate Students

(a) An applicant whose educational standard is considered adequate by the Graduate Division/Board or School concerned may be admitted upon the approval of the Council of the Graduate School as an associate student to pursue an approved course of advanced study or research not leading to a certificate, diploma or higher degree of the University.

(b) Unless otherwise stipulated, application for admission as an associate student shall be supported by a certified true copy of academic record and made to the Office of the School concerned before 1st July or 1st November preceding the academic term for which admission is sought.

(c) No associate student shall be allowed to change his status to that of a candidate for a certificate, diploma or higher degree of the University unless he has already satisfied the University’s requirements for admission to an approved course of advanced study or research leading to a certificate, diploma or higher degree of the University and unless the change of status is specially recommended by the Graduate Division or School concerned and the Council of the Graduate School and approved by the Senate.

2.6 Auditing Students

(a) An applicant whose educational standard is considered
adequate by the Graduate Division/Board or School concerned may be admitted as an auditing student.

(b) Unless otherwise stipulated, application for admission as an auditing student shall be made to the Office of the School concerned before 1st August or 1st December preceding the teaching term for which admission is sought.

(c) An auditing student will not receive any grade or other academic recognition for the course/s taken.

3.0 Fees

3.1 The fees payable by students shall be prescribed by the University Council and may be varied from time to time at the University Council’s absolute discretion.

3.2 All fees shall be payable on dates specified by the University unless prior permission for deferment is obtained.

3.3 A student who has not paid his fees on the specified date/s shall pay a fine of five dollars a day until the fees are paid and shall have his name removed from the register if he fails to pay up after a lapse of three weeks.

3.4 Caution money shall be payable on first registration as a deposit to make good outstanding debts to the University incurred in, for example, damages to University and/or College property. This sum less any deductions made for outstanding debts shall be refunded on discontinuation of studies. For graduating students, subject to no claim being outstanding, caution money shall be converted into graduation fee.

3.5 Apart from caution money, fees once paid shall not be refunded.

4.0 Registration

4.1 Unless otherwise stipulated, an applicant who has been offered admission to an approved course of study or research shall register in person with the Office of the School concerned on the specified date/s and shall be deemed to have been admitted to the approved course of study or research on the date of his first registration, and thereafter, a student shall present himself for registration on the specified date/s before the beginning of each teaching term.

4.2 Permission for deferment of registration for a period not exceeding two weeks from the specified date/s may, in special cases, be granted on prior application in writing to the Office of the School concerned.
4.3 An applicant who has been offered admission but is prevented by illness or other unavoidable cause from registering for an academic year or a teaching term shall apply in writing to the Office of the School concerned for postponement of studies for a period not exceeding one year. Such an application shall be made before the specified date/s for registration. In the case of an applicant desiring postponement of studies on medical grounds, his application shall be accompanied by a certificate signed by the Director of the University Health Service or a registered physician.

4.4 Registration shall include the selection of courses and the payment of fees due. An applicant or a postgraduate student who fails to register on time or who fails to complete registration shall be considered as having withdrawn from studies at the University after a lapse of two weeks from the specific dates.

4.5 A postgraduate student may not be registered simultaneously with another institution as a full-time student except by the permission of the Senate.

4.6 A postgraduate student registered for a full-time course of study or research shall not take up any full-time employment, paid or unpaid, during term time except by the permission of the Senate.

4.7 A postgraduate student shall normally retain the name under which he was first registered. Under special circumstances, however, a student may submit to the Office of the School concerned an application for a change of his name (including alteration of, addition to or deletion from the name under which he was first registered) together with the following documents:

(a) applicant’s written application;
(b) written consent from the applicant’s parent or guardian, if the applicant is under the age of 21;
(c) copy of applicant’s identity card or passport, carrying the new name intended to be registered with the University;
(d) copy of applicant’s statutory declaration and/or birth certificate.

4.8 A postgraduate student shall inform the Office of the School concerned immediately of any change of address or other particulars entered in the student’s registration form.

5.0 Course Load

5.1 A student pursuing a postgraduate programme leading to a certificate, diploma or higher degree shall take the required
number of units in any academic year as specified in the individual programmes of studies.

6.0 Selection of Courses

6.1 A student reading for a higher degree shall, after consulting his academic adviser and after examining the programme of studies and the time-table of the Division/Board concerned, fill and submit to the Office of the Graduate School, on the specified date/s, the prescribed form for course selection which shall have the signature of the Head of the Division concerned.

6.2 A postgraduate student shall take the required courses during the year as specified in the programme of studies unless written permission to do otherwise is obtained from the Head of the Graduate Division/Board concerned or the Director of the School of Education.

7.0 Course Withdrawals and Additional Course Selections

7.1 Application for course withdrawals and for additional course selections after the specified date/s shall be made on a prescribed form which shall have the signature of approval from the Head of the Division/Board concerned and submitted to the Office of the Graduate School. Such applications shall be made within two weeks after the beginning of the teaching term.

7.2 Only in special cases, the Head of the Division/Board concerned may, at his discretion after examining the student's written excuse, grant a student permission to withdraw from a course or enroll in a new course after the second week of the teaching term.

7.3 A postgraduate student who withdraws from a course without going through the prescribed procedure shall be given a failure grade for that course.

7.4 Normally no postgraduate student shall withdraw from a year course in the second teaching term. But, in case a postgraduate student has obtained a failure grade for a non-required year course in the first term and does not wish to take it in the second term, he may seek approval from the Head of the Division/Board concerned to withdraw from the course. The failure grade received in the first term shall, however, remain in the student's records.
8.0 Class Attendance and Leave of Absence

8.1 A postgraduate student shall follow all the courses in which he has enrolled and shall attend all their tests and examinations.

8.2 Unless otherwise stipulated, a postgraduate student who cannot attend classes because of illness or other reasons shall inform the Office of the School concerned of the exact day/s of his absence at the earliest opportunity.

8.3 In case of illness necessitating absence exceeding a week, a postgraduate student shall submit an application for sick leave to the Office of the School together with a certificate signed by the Director of the University Health Service.

8.4 A postgraduate student who wishes to obtain a leave of absence for more than a week for non-medical reasons shall apply in writing to the Office of the School concerned beforehand stating the reasons for which leave of absence is sought. Such applications shall be subject to the approval of the Dean/Director of the School concerned.

8.5 Under no circumstances shall a postgraduate student be granted leave of absence for more than one year in the first instance. In case after a year's leave, he still finds himself unable to attend, he may apply for extension, of his leave for another year beyond which no further extension will be granted.

8.6 A postgraduate student who has been absent without leave for a period exceeding one month shall be considered as having withdrawn from studies at the University.

8.7 A postgraduate student who is absent from a course for more than one-third of its scheduled teaching periods shall receive an “F” grade for the course.

8.8 A postgraduate student shall be required to take a certain leave of absence if he suffers from a contagious disease which is considered by the Director of the University Health Service as harmful to the University community. At the end of the prescribed period of absence, the said student shall apply for a certificate of good health signed by the Director of the University Health Service before he can resume classes.

8.9 In the case of tests missed or assignments delayed because of illness or other serious emergencies, application for make-up work shall be subject to the approval of the teacher concerned.
8.10 Unless otherwise stipulated by the School of Education, the above rules shall normally apply.

9.0 Examinations

9.1 There shall be prescribed examinations for each certificate, diploma or degree of the University held at times to be determined by the Division/Board or School concerned.

9.2 Examinations may be in the form of written, practical or oral tests, or continuous assessment, or any combination thereof.

9.3 No postgraduate student shall be admitted to any examination unless he shall have satisfied such attendance requirements as may be laid down for his course of study.

9.4 A postgraduate student who for medical or other compelling reasons is unable to sit for any examination or any part thereof shall apply in writing to the office of the School concerned for withdrawal from the examination or any part thereof and the School concerned will determine what follow-up action is required. Application for such withdrawal for medical reasons shall be accompanied by a medical certificate signed by the Director of the University Health Service. A postgraduate student who is absent from an examination without prior application for withdrawal shall be considered as failing in that examination.

10.0 Grades

10.1 A postgraduate student’s performance in his studies shall be assessed on the basis of his performance in any or all of the following: class work, written work, laboratory performances, field work, research papers, tests and examinations and any other method of academic assessment.

10.2 For postgraduate courses other than those offered by the School of Education, the course grades, converted points and standards used in reporting shall be as follows:

<table>

10.3 An Incomplete Grade (I) shall signify that a course has not been completed in the prescribed time period. A grade shall be assigned upon the completion of the course work.

10.4 An incomplete work must be made up within three weeks immediately following the end of the teaching term in which it was assigned. Failure to complete the assigned work within the allowed time shall result in an 'F' grade.

### 11.0 Unsatisfactory Performance

11.1 A postgraduate student registered for a higher degree, diploma or certificate programme shall be required to withdraw from the programme:

(a) if he receives a failure grade in the cumulative average of the courses taken, or

(b) if he receives failure grades in two courses, or

(c) if he fails to satisfy additional requirements which are laid down specially for the programme by the Division/Board or School concerned.

11.2 A postgraduate student required to withdraw from a programme of studies may repeat the whole programme in special circumstances if permission is granted by the Council of the Graduate School on the recommendation of the Division/Board or School concerned.

11.3 A postgraduate student receiving a failure grade in a course must repeat the course or take an approved substitute course.

11.4 A postgraduate student whose thesis is found not up to the required standard shall be required to re-write it and re-submit the thesis to the satisfaction of the Thesis Committee before he can be recommended for the award of a degree.

### 12.0 Period of Study

12.1 A student registered for a Ph.D. programme shall follow a course of advanced study and research on an approved topic for a
minimum period of three years and a maximum of seven years from the date of registration. However, the minimum period for a student holding a Master's degree in the same field of studies as that for the Ph.D. programme may be reduced to two years. The minimum residence requirement will normally be two years for a student without a Master's degree and one year for a student with a Master's degree. Any recommendation by a Graduate Division/Board in regard to shortening the minimum length of study at the request of an exceptionally outstanding student must be endorsed by the Graduate Council for Senate approval.

12.2 A student registered for the degree of Master of Philosophy, Master of Divinity or Master of Social Work shall follow an approved course of study and research under one or more supervisors for a period extending over not less than two academic years. A thesis or dissertation for the said degree shall not be accepted later than four academic years after the date of first registration. In special circumstance, a thesis for the degree of Master of Divinity may be accepted in the fifth academic year if so recommended by the Head of the Division concerned.

12.3 A student registered for the degree of Master of Arts or Master of Science shall follow an approved course of study and research under one supervisor for a period extending over not less than one calendar year. A thesis or dissertation for the said degree, if stipulated in the programme of study, shall not be accepted later than three calendar years after the date of first registration.

12.4 For the M.A. (Education) programme, a postgraduate student shall follow an approved course of study and research for a period extending for not less than one calendar year. A thesis for the said degree shall not be accepted later than three calendar years after the date of first registration.

12.5 For the two-year full-time M.B.A. programme, a postgraduate student shall follow an approved course of study and research for a period extending for not less than two academic years. A thesis or research paper for the said degree shall not be accepted later than four academic years after the date of first registration.

12.6 For the three-year part-time M.B.A. programme, a postgraduate student shall follow an approved course of study and research for a period extending for at least nine trimesters. With special permission of the Head of the Division concerned, the student will be allowed to proceed at a slower pace but each student will be required to complete the eighteen courses within five consecutive years in order to qualify for the M.B.A. degree.
13.0 Transcript

13.1 An official transcript giving details of all courses taken and examination results of a student shall not be issued to a student or any private individual.

13.2 A postgraduate student who wishes to apply for transfer or admission to another educational institution or for employment may apply for an official transcript of his academic record to be sent directly to the said institution or prospective employer upon payment of the prescribed fees and postage.

14.0 Disciplinary Action

14.1 The University may take disciplinary action against a postgraduate student who violates any rule or regulation and/or commits any misconduct such as:
(a) defamation of or assault or battery against the person of any member of the University;
(b) wilful damage to or defacement of any property of the University;
(c) theft, fraud, misapplication of University funds or property of any kind;
(d) plagiarism in written assignments or cheating in tests or examinations;
(e) an offence in connection with degree, diploma, or certificate examinations, including violation of any of the regulations of the Senate governing conduct at examinations;
(f) falsification or serious misuse of University documents or records;
(g) refusal to comply with any order prohibiting any conduct which disrupts teaching, study, research or administration of the University;
(h) any conduct which is detrimental to the reputation and well-being of the University;
(i) an offence of immoral, scandalous or disgraceful nature for which the student has been convicted in any court of law.

14.2 Disciplinary action referred to in Regulation 14.1 may take the form of any of the following penalties in accordance with the nature and gravity of the offence:
(a) reprimand;
(b) suspension from part or all the rights, privileges or the use of part or all of the facilities of the University for a specified period of time;
(c) demerit which would be recorded in his transcript (a total of 3 demerits would result in expulsion from the University);
(d) repetition of a year of study;
(e) suspension from the University for a specified period of time;
(f) expulsion from the University.
Penalties (d), (e) and (f) may be inflicted only with the approval of the Senate.

14.3 A postgraduate student, on being informed of a decision to take disciplinary action against him, may within seven days write to request the Senate to review the decision.

14.4 Penalties imposed on a postgraduate student may be entered into the transcript of his academic record.
GENERAL RULES FOR
POSTGRADUATE STUDIES
LEADING TO THE DEGREE OF
DOCTOR OF PHILOSOPHY

PhD 1  General

1.1 The University shall introduce a postgraduate studies programme leading to the degree of Doctor of Philosophy (PhD) in any discipline on the recommendation of the Graduate Council and with the approval of the Senate.

1.2 In principle, a PhD programme in a discipline shall be administered by the appropriate Graduate Division which also administers master programme(s) in the same discipline.

1.3 Where a PhD programme in a major area involves more than one discipline, it shall be administered by a Graduate Board consisting of representatives from the Graduate Divisions concerned which may independently run their own master programmes in the respective disciplines.

1.4 A Graduate Board set up in accordance with Rule 1.3 above shall have a Graduate Panel similar to that of a Graduate Division, and the functions of a Graduate Board and its Graduate Panel shall in principle be exactly the same as those of a Graduate Division and its Panel in regard to the operation of the appropriate postgraduate programmes.

PhD 2  Conditions of Admission

2.1 An applicant seeking admission to a PhD programme must in principle

(i) have obtained a degree of Master from a recognized University and the consent of two qualified scholars in the proposed field of study from recognized universities to be named as referees; or

(ii) have obtained a degree of Bachelor with Second Class Honours in the upper division or above and have been registered in a course of study for the degree of Master at this University for at least one year and have demonstrated his/her research ability in the opinion of the Graduate Division/Board concerned.
2.2 The applicant must have passed the Chinese Language Admission Test conducted by the Graduate School of the University and obtained satisfactory results in the Test of English as a Foreign Language (TOEFL) or in the test of any other language that has direct relevance to his proposed research area. Exemption from the requirements of the above tests may be granted only to applicants holding a Bachelor’s degree with First Class Honours from this University and to applicants who can produce acceptable credentials testifying to their proficiency in the respective languages. Other exceptional cases may be considered on an ad hoc basis.

2.3 The applicant must also possess additional or special qualifications required by the Graduate Division/Board concerned.

2.4 Only in very special circumstances and with the approval of the Senate on the strength of the evidence of acceptable research experience shall admission be granted to an applicant who does not satisfy the requirements of Rule 2.1 above.

2.5 The applicant must submit a study plan to the Graduate Division/Board concerned at the time of application for admission.

PhD 3 Length of Study

3.1 Normally, a student admitted to a PhD programme shall pursue a course of advanced study and research on an approved topic for a minimum period of three years and a maximum of seven years from the date of registration. However, the minimum period for a student holding a Master’s degree in the same field of studies as that for the PhD programme may be reduced to two years. The minimum residence requirement will normally be two years for a student without a Master’s degree and one year for a student with a Master’s degree.

3.2 Any recommendation by a Graduate Division/Board in regard to shortening the minimum length of study at the request of an exceptionally outstanding student must be endorsed by the Graduate Council for Senate approval.

3.3 In special cases, the Graduate Council may grant a student leave of absence from his/her course of study and research. The period of such leave, not exceeding 12 months, shall not be counted as part of the prescribed length of candidature.

3.4 Any extra period approved for revision or re-submission of thesis or re-examination under Rule 9 shall not count towards the maximum period of study.
PhD 4 Supervision

4.1 A student shall be assigned a Supervisor to be appointed by the Graduate Council on the recommendation of the appropriate Graduate Division/Board.

4.2 The student shall meet his/her Supervisor at regular intervals. A report on the progress of the student's work shall be submitted annually by the Supervisor through the Graduate Division/Board concerned to the Graduate Council.

4.3 The Supervisor shall (i) advise the student on the fulfilment of his/her course work requirements; (ii) ensure that an appropriate research topic is chosen by the student; and (iii) advise the student on the preliminary drafts of his/her thesis.

4.4 If at any time, the Supervisor should be firmly of the opinion that a student is not making satisfactory progress or unlikely to attain the standard required for the degree, he/she may advise the student to transfer to a course of study for a Master's degree as provided in Rule 6.1 or make recommendation that he/she may be required to discontinue his/her studies in the Graduate School.

PhD 5 Candidature for PhD Degree

5.1 Advancement to PhD candidature is conditional upon the successful completion of the following:

(i) Study of a language other than Chinese and English where deemed necessary by the Graduate Division/Board concerned.

(ii) Course work of varying scope deemed necessary for the partial fulfilment of degree requirements.

These requirements must be satisfied within two to three years after the initial date of registration, depending on the length of postgraduate training previously received by the student and the nature of his/her discipline.

5.2 A special examination may have to be taken and passed by students for advancement to PhD candidature.

PhD 6 Transfer of Candidature

6.1 A student who has been registered in a course of study for the PhD degree may be permitted, on the recommendation of the Graduate Division/Board concerned, and with the approval of the Graduate Council, to transfer a course of study for a Master's degree provided that such a transfer takes place before the thesis is submitted.

6.2 A student who has been registered in a course of study for a Master's degree and has completed the first year of his/her
studies may be permitted, on the recommendation of the Graduate Division/Board concerned and with the approval of the Graduate Council, to transfer to a course for the PhD degree provided that the student meets the entry requirements as specified under Rule 2.

6.3 A student who has been registered for the Master's degree and who subsequently becomes a student for the PhD degree in the same field of study shall be permitted to date his/her period of study from his/her initial date of registration for the Master's degree.

PhD 7 Thesis

7.1 On successful completion of the requirements under Rule 5, and having been admitted to PhD candidature, the candidate shall submit for examination a thesis embodying the results of his/her research which shall substantially be an original contribution to the knowledge of the subject concerned.

7.2 Before the submission of the thesis for examination, the candidate must submit the exact title of his/her thesis for approval by the Graduate Council on or before a date prescribed in the Graduate School Calendar. After the title of the thesis has been approved, it may not be changed except with the approval of the Graduate Council.

7.3 In non-science subjects, the length of the thesis shall normally not exceed 150,000 characters in Chinese or 100,000 words in English, while in science subjects, it shall normally not exceed 75,000 characters in Chinese or 50,000 words in English.

7.4 Each candidate must submit four copies of a thesis, including the original, all properly type-written or printed or copied and bound in a form approved by the Graduate Council. He/She must also submit five copies of abstract of the thesis of not exceeding 800 characters in Chinese or 500 words in English.

7.5 The candidate shall not be permitted to submit a thesis which has been previously submitted to this or any other University for a degree conferred on him/her; but he/she shall not be precluded from incorporating part of a previous study for a thesis covering a wider field.

7.6 The candidate must indicate in a written declaration how far the thesis embodies the result of his/her own research and to what extent he/she has availed himself/herself of the work of others.

7.7 A thesis may be submitted at any time after admission to candidature. Notice of intention to submit a thesis, embodying
the title, shall be given to the Dean of the Graduate School on
or before a date prescribed in the Graduate School Calendar.

7.8 If, on the recommendation of the Thesis Committee provided
in Rule 8.1, a candidate is required to re-submit a revised
thesis, such re-submission must be within one year from the
date of the notice by which he/she is informed officially of the
result of the first examination.

PhD 8 Thesis Committee

8.1 For the assessment of a candidate’s thesis there shall be a
Thesis Committee composed of at least two Internal
Examiners including the Supervisor and one External Exami-
ner to be nominated by the Graduate Division/Board concern-
ed for the approval of the Graduate Council. Where it is
impracticable for the External Examiner to be present at the
oral examination, an additional External Examiner who can
attend shall be appointed.

8.2 Members of the Thesis Committee shall read the thesis and
conduct the thesis examination, and shall each make a separate
written report on the merits of the thesis and the grounds
upon which the candidate is or is not recommended for the
degree.

PhD 9 Conduct of Thesis Examination

9.1 The eligibility of a candidate for the conferment of the PhD
degree shall be assessed by the Thesis Committee on the basis
of:
(i) a thesis, and
(ii) an oral and/or written examination.

9.2 For the purpose of the oral or written examination held in
connection with his/her thesis, the candidate shall be required
to present himself/herself at such place and time as the Gra-
duate Council may direct. Normally, such an examination shall
be held within four months after the submission of the thesis.

9.3 The oral or written examination shall cover not only the
subject matter of the candidate’s thesis but also the knowledge
in related fields deemed essential to his/her field of specializa-
tion.

9.4 If the thesis is considered adequate and of an acceptable
standard but the candidate fails in the oral or written examina-
tion held in connection therewith, the Thesis Committee may
recommend another oral or written examination within a
period not exceeding 12 months. A candidate who fails a
re-examination shall not be eligible for any further examina-
tion.
9.5 If the thesis is found of sufficient standard, yet needing minor revisions, the Thesis Committee, if satisfied with the results of the oral/written examinations taken by the candidate, may require that such revisions be satisfactorily carried out by the candidate within 12 months without requiring re-examinations.

9.6 If the Thesis Committee finds a candidate's thesis to be poor in quality or his/her examination results totally unsatisfactory, it may recommend that the candidature be discontinued.

PhD 10 Results of Examination

10.1 On the recommendations of the Thesis Committee and of the Graduate Division/Board concerned, the Graduate Council may
(i) recommend that the PhD degree be conferred on a candidate;
(ii) request the Thesis Committee to further advise the Graduate Council;
(iii) appoint additional Examiners to settle cases in dispute;
(iv) require a candidate to revise his/her thesis for re-examination; or
(v) recommend that the PhD degree be not awarded.

10.2 Each candidate shall be notified of the results of the examination after the approval of the Senate.
REGULATIONS OF THE UNIVERSITY LIBRARY SYSTEM

The University Library System consists of the University Library and the three College Libraries of Chung Chi College, New Asia College and United College. The University Library is primarily for the research and advanced studies of the faculty, staff and graduate students of the University, although undergraduates may also use it. The College Libraries stock the reference books, the basic textbooks and supplementary materials for undergraduate courses in the curricula of the Colleges. The following Regulations apply in all four Libraries, and all members of staff of the University Library System are expected to enforce them. The Senate Library Committee reserves the right to revise these regulations at any time.

The hours of opening are posted at the entrance of each Library and are adapted to the semester schedules. The Libraries are closed on public holidays.

Library Privileges

Library privileges are personal and individual. They may not be transferred to, or used on behalf of, other persons.

Privileges of the Library fall into three categories:

1. Borrowing
   Borrowing privileges are extended to all registered students and academic/administrative staff of The Chinese University of Hong Kong.
   Others may apply to the University Librarian for special Borrowers’ Cards. Clerical staff, technicians and spouses of the faculty and administrative staff of the University may also apply to the University Librarian for borrowing privileges.

2. Reading
   The privileges of reading is extended to visiting scholars, to researchers and to graduates of this University upon application to the University Librarian. Reserve books, however, are for the exclusive use of students and faculty of the University.

3. Privileges of special facilities
   Carrels: Not reserved for any category of Library user, carrels are available for the convenience of all.
Faculty Studies in the University Library: On application to the University Librarian, Assistant Lecturers (and above) may reserve a Study for three months, renewable if its use justifies it. Others who are engaged in research may also apply.

Seminar Rooms in the University Library: Upon application to the University Librarian, a Seminar Room may be reserved for a lecture or for a series of lectures or meetings which would benefit from the use of library materials and resources.

Photocopying: Upon request at any of the Libraries, a reader may obtain at cost photocopies of materials, provided there is no infringement of copyright.

Interlibrary loans: The reference librarians will attempt to obtain from other libraries books which are not owned by the University Library System and which cannot be readily purchased.

Admission to the Libraries

Every user of the Libraries must show a University Identification Card, a Borrower’s Card or a Reader’s Card at the Control Counter. Applications for Borrowers’ Cards and Readers’ Cards are made at the Circulation Desk.

Borrowers’ Cards and Readers’ Cards are not transferable and must be produced upon request. Loss of a Borrower’s Card must be reported to the Library immediately; a duplicate card may be issued two weeks after the loss is reported. Only one duplicate will be granted within a semester. Change of address should also be reported to the Library as soon as possible.

Visitors, accompanied by a person entitled to use the Libraries, may be admitted with the permission of the Librarian or a deputy.

All Library users must enter and leave through the entrances and exits designated for these purposes.

Borrowing Regulations

Borrower Categories

Users of the University Library System to whom the borrowing privilege is accorded are grouped into the following categories:

1. Registered students of The Chinese University of Hong Kong.
   (a) Undergraduate students.
   (b) Graduate students; tutors/demonstrators who are registered students working part-time.

2. Faculty members: all teaching staff, including full-time tutors/demonstrators.

3. Administrative staff: administrative assistants and above.
4. CUHK graduates: Upon payment of a fee of $50 per annum.

5. Special categories:
   (a) Clerical staff and technicians, with the recommendation of their division heads.
   (b) Spouses of the faculty and administrative staff.
   (c) Others, upon special application.

Categories 1, 2 and 3 who identify themselves at the Circulation Desk may obtain an Intercollegiate Borrowing Card.

Borrowing Limits

Individuals may borrow within the limits of the following schedule:

Category 1(a). Undergraduate students: 10 volumes (books) for two weeks.

Category 1(b). Graduate students, part-time tutors/demonstrators: 15 volumes (books) for one month.

Categories 2-3. Faculty members and administrative staff 30 volumes may be borrowed for one semester, although they should be returned as soon as they are no longer required. Bound periodicals and non-current single issues may be borrowed for periods of three days. Current periodicals may be borrowed for overnight use only.

Category 4. CUHK graduates: 3 volumes (books) for two weeks.

Category 5(a). Clerical staff and technicians: 5 volumes (books) for two weeks.

Category 5(b). Spouses of the faculty and administrative staff: 1 volume (book) for two weeks.

Category 5(c). Others, according to special arrangement.

All books taken from the bookstacks must be charged at the Circulation Desk. Reserve Books must be charged at the Reserve Book Counter; there are varying borrowing limits on these books.

Books obtained on interlibrary loan are borrowed through the courtesy of other libraries and their restrictions as to loan period and renewal are therefore observed. Usually the loan period is two weeks and the books may have to be used only in the Library. Photocopies of periodical articles may be obtained at cost in lieu of the whole volume or issue.

Reference books, rare books, microforms and other audio-visual materials do not circulate.

Renewals

Borrowers may renew loans for two additional periods. To avoid fines renewals must be made on or before the last date of the initial loan period. Borrowers, with the exception of Categories 2–3, must renew their loans at the Circulation Desk of the issuing Library.
Faculty members and administrative staff who require a book for more than one semester may renew it in writing. After two renewals, however, the book must be returned to the library shelves for at least one month so that it may be available to others; it may not be borrowed by the same individual within that period. No book may be renewed if it is required by another person.

Recall

Circulating books and journals to be put on reserve for courses are subject to recall at any time. All other loans are subject to recall after two weeks (the initial loan period). Borrowers should respond to a recall promptly.

Books which are urgently required for brief consultation and which have been on loan for less than two weeks may be recalled for a period of one day.

Overdue

The last date of the loan period is stamped on the date due slip at the back of each book loaned. When the loan period expires, an overdue notice is sent to all categories of borrowers. However, the responsibility of returning books on time lies with the borrower.

Fines

All categories of borrowers except 2 and 3 who keep books beyond the loan period are subject to a fine of HK$0.50 per book per day. A fine of HK$0.50 per hour will be charged for each reserve book overdue.

Losses

Borrowers who fail to return books or who return books damaged beyond repair will be charged the cost of replacement (including binding) in addition to the processing cost of HK$10.00 and any accumulated fine. Damaged books and marked pages should be reported to the Librarian as soon as noticed.

Control Counter

Under normal circumstances, all parcels, brief cases, bags, umbrellas, cameras etc., should be deposited on entering the Library. No food or beverages may be taken into the Library. On leaving the Library, all books etc., must be inspected.

Loss of Privileges

People who are engaged in noisy activities outside a Library building will be refused admission to the Library.
Minor infractions, such as smoking, shouting and other disturbances, are forbidden in all parts of the Libraries. The Librarian or an appointed deputy may expel from the building for the remainder of the day any person who is acting to annoy others or who is damaging books or other property in the Library. Payment must be made to cover all damages.

A gross breach of the Regulations may subject the borrower to a loss of library privileges.

(a) Overdue books — After normal recall procedures, a written warning will be sent. If this is ignored, borrowing privileges will be withheld in all the Libraries until the return of the book(s) and the payment of accrued fines.

(b) Payment of charges — If a person refuses to pay any outstanding charges (fines, replacement costs of damaged book or repair of damaged property), all the Libraries will withhold his borrowing privileges until the account is cleared.

Repeated offenses may lead to a total loss of the privilege of using the Libraries' facilities.
