The Chinese University of Hong Kong Calendar 1983-84 contains information as at August 1983.
The emblem of the University is the mythical Chinese bird feng (凤), which is chosen because of its symbolism as Bird of the South since the Han Dynasty. It is also a symbol of nobility, beauty, loyalty and majesty.

The University colours are purple and gold, representing devotion and loyalty (purple), perseverance and resolution (gold).

The motto of the University is ‘博文約禮’ (po-wen yueh-li): ‘博文’ is to broaden one’s intellectual horizon; ‘約禮’ is to keep within the bounds of propriety.

These words of Confucius have long been considered a principal precept of his teaching. It is recorded in the Analects of Confucius that the Master says, ‘By extensively studying all learning, and keeping himself under the restraint of the rules of propriety, one may thus likewise not err from what is right.’ (Legge’s version of the Four Books)

In choosing ‘博文約禮’ as its motto, the University is laying equal emphasis on the intellectual and moral aspects of education.

INTRODUCTION

The Chinese University of Hong Kong was incorporated in October 1963 under a Hong Kong Ordinance 'to establish a university with a federal constitution in which the principal language of instruction shall be Chinese'.

The constituent colleges of the University are Chung Chi College (founded 1951), New Asia College (founded 1949), and The United College of Hong Kong (founded 1956). In December 1976 a new Ordinance was enacted, making important changes in the constitution governing the University and the Colleges.

The University is a self-governing corporation drawing its income mainly from grants made by the Hong Kong Government, supplemented by fees and donations from private sources.

The governing and executive body of the University is the Council, which has the management and control of the affairs, purposes and functions of the University. The Senate has the control and regulation of instruction, education and research.

A wide range of full-time programmes leading to the BA, BBA, MB ChB, BSc and BSSc degrees are offered by the various departments under the Faculties of Arts, Business Administration, Medicine, Science, and Social Science. There are four part-time degree programmes leading to the degrees of BA, BBA and BSSc. Postgraduate programmes leading to the PhD, MPhil, MA, MA(Ed), MBA, MDiv, MSW degrees are offered by the Graduate School through the twenty-five graduate divisions/board. The School of Education offers full-time and part-time programmes leading to the Diploma-in-Education.

The University has three research institutes, under which are a number of research centres. The Institutes are: the Institute of Chinese Studies, the Institute of Science and Technology, and the Institute of Social Studies.

Establishment
UNIVERSITY ORDINANCE AND STATUTES

The Chinese University of Hong Kong was incorporated in October 1963 under a Hong Kong Ordinance ‘to establish a university with a federal constitution in which the principal language of instruction shall be Chinese’. It is a self-governing corporation drawing its income mainly from grants made by the Hong Kong Government, supplemented by fees and donations from private sources. Although the principal language of instruction is Chinese, the University is international in outlook and enjoys a close association with many universities, foundations and organizations abroad.

In December 1976, a new Ordinance was enacted, repealing and replacing the previous Chinese University of Hong Kong Ordinance. The aims of the University, however, remain unchanged. The new Ordinance (No. 86 of the Laws of Hong Kong 1976) and the Statutes of the University are printed on the following pages.
THE CHINESE UNIVERSITY OF HONG KONG ORDINANCE 1976

An Ordinance to repeal and replace The Chinese University of Hong Kong Ordinance, to repeal the Chung Chi College Incorporation Ordinance, the Board of Trustees of The United College of Hong Kong Incorporation Ordinance and the New Asia College Incorporation Ordinance and to make new provision concerning the Chung Chi College, The United College of Hong Kong and the New Asia College, and for purposes connected therewith.

WHEREAS —
(a) The Chinese University of Hong Kong was established and incorporated in 1963 by The Chinese University of Hong Kong Ordinance as a University with a federal constitution;
(b) The constituent Colleges of the University are Chung Chi College, New Asia College and The United College of Hong Kong;
(c) it is considered desirable that some of the powers and functions conferred on the said Colleges under their respective constitutions and Ordinances should be vested in The Chinese University of Hong Kong and that the principal role of the said Colleges be the provision of student-orientated teaching under the direction of The Chinese University of Hong Kong.
(d) it is also considered desirable to make certain alterations in the constitution of The Chinese University of Hong Kong;
(e) it is declared that The Chinese University of Hong Kong, in which the principal language of instruction shall be Chinese, shall continue to —
(i) assist in the preservation, dissemination, communication and increase in knowledge;
(ii) provide regular courses of instruction in the humanities, the sciences and other branches of learning of a standard required and expected of a University of the highest standing;
(iii) stimulate the intellectual and cultural development of Hong Kong and thereby to assist in promoting its economic and social welfare:

[24th December, 1976]

Now, THEREFORE, BE IT ENACTED by the Governor of
Hong Kong, with the advice and consent of the Legislative Council thereof, as follows —

1. This Ordinance may be cited as The Chinese University of Hong Kong Ordinance 1976.

Definitions.

2. (1) In this Ordinance, unless the context otherwise requires —

"teacher" means a member of the full-time teaching staff of the University of the rank of Assistant Lecturer and above;

"University" means The Chinese University of Hong Kong (中文大學) continued under section 4.

(2) A special resolution is a resolution passed at one meeting of the Council and confirmed at a subsequent meeting held not less than one month nor more than 6 months thereafter and which is approved at each such meeting by —

(a) not less than three-fourths of those present and voting; and

(b) not less than half the whole membership of the Council.
3. (1) The constituent Colleges of the University are Chung Chi College, New Asia College and The United College of Hong Kong and such other institutions as may from time to time by Ordinance, in accordance with a special resolution of the Council, be declared to be Colleges of the University.

(2) No provision in the constitution of any College shall be of effect if it is in conflict with or inconsistent with this Ordinance.

(3) No person shall be excluded from being a member of the University by reason of sex, race or religion.

4. (1) The Colleges and members of the University shall continue to be a body corporate called The Chinese University of Hong Kong (香港中文大學) which shall be the same University as that established by The Chinese University of Hong Kong Ordinance 1963.

(2) The University shall have perpetual succession and may sue and be sued in that name and shall have and may use a common seal and may take by gift or otherwise purchase and hold, grant, demise or otherwise dispose of real or personal estate.

(3) No dividend or bonus shall be paid and no gift or division of money shall be made by or on behalf of the University to any of its members except by way of prize, reward or special grant.

5. (1) The officers of the University shall be the Chancellor, the Pro-Chancellor, the Vice-Chancellor, the Pro-Vice-Chancellors, the Treasurer, the Head of each College, the Dean of each Faculty and of the Graduate School, the Secretary, the Registrar, the Librarian, the Bursar and such other persons as may by special resolution be designated as officers.

(2) The Chancellor shall be the head of the University and may confer degrees in the name of the University.

(3) The Governor shall be the Chancellor.

(4) The Chancellor may appoint a person to be the Pro-Chancellor of the University; and the Pro-Chancellor shall exercise such powers and perform such duties as may be prescribed in the Statutes.

(5) The Vice-Chancellor shall be the chief academic and administrative officer of the University and shall be a member of the Council and the Chairman of the Senate, and may confer degrees in the name of the University.

(6) The Council shall appoint, after consultation with the Vice-Chancellor, one or more Pro-Vice-Chancellors from among the regular staff of the University to exercise such powers and perform such duties as the Council may direct.

(7) A Pro-Vice-Chancellor shall carry out all the functions and duties of the Vice-Chancellor in the absence of the Vice-
Chancellor, except that he may not confer degrees.

(8) The manner and period of appointment of the Treasurer shall be prescribed by the Statutes, and his duties shall be such as the Council may determine.

6. There shall be a Council, a Senate and a Convocation whose respective constitutions, powers and duties shall be as prescribed by this Ordinance and the Statutes.

7. Subject to this Ordinance and the Statutes, the Council shall —

(a) be the governing and executive body of the University;
(b) have the management and control of the affairs, purposes and functions of the University;
(c) have the control and management of the property and financial affairs of the University including the property of the Colleges, but in the exercise of such power of control and management in respect of any immovable property of any College the Council shall not alter the use of any such property without the prior consent of the Board of Trustees of the College concerned;
(d) make such University appointments as it thinks proper;
(e) have power to approve the fees charged by the University in respect of approved courses of study;
(f) provide for the custody and use of the University’s seal.

8. Subject to this Ordinance and the Statutes and subject also to review by the Council, the Senate shall have the control and regulation of —

(a) instruction, education and research;
(b) the conducting of examinations for students;
(c) the award of degrees other than degrees honoris causa;
(d) the award of diplomas, certificates and other academic distinctions of the University.

9. Subject to this Ordinance and the Statutes, the Convocation shall consist of the graduates and such other persons as may be prescribed by the Statutes and may make representations to the Council and the Senate upon any matters affecting or concerning the interests of the University.

10. (1) The Council and the Senate may establish such committees as they think fit.

(2) Unless otherwise provided, any committee may consist partly of persons who are not members of the Council or the Senate, as the case may be.

(3) Subject to this Ordinance and the Statutes, the Council
and the Senate may, subject to such conditions as they may impose, delegate any of their powers and duties to any Board or committee or to any officer.

(4) Any committee established under this section may make such Standing Orders, including provision allowing a casting vote to the chairman thereof, for the conduct of meetings as it thinks fit.

11. Subject to this Ordinance and the Statutes, the Council shall appoint, on such terms and conditions as it thinks fit, the staff of the University.

12. (1) The Council may establish such Faculties, Schools of Studies and other institutions as it thinks fit.

(2) The Council, on the recommendation of the Senate, may form such institutions for the promotion of study and learning as the Council may from time to time determine.

(3) The Senate may establish such Boards of Studies as it may from time to time determine.

13. (1) The Council may by special resolution make Statutes, subject to the approval thereof by the Chancellor, prescribing or providing for—

(a) the administration of the University;
(b) the membership of the University;
(c) appointments, elections, resignation and retirement and removal of officers and teachers of the University;
(d) examinations;
(e) the conferring of degrees and the award of other academic distinctions;
(f) the composition, powers and duties of the Council and the Senate;
(g) the Faculties and Schools of Studies, their membership and functions;
(h) the Boards of Studies, their membership and functions;
(i) the Convocation;
(j) the exercise of any function by the University, the Council, the Senate, the Chancellor, the Pro-Chancellor, the Vice-Chancellor, the Pro-Vice-Chancellors, other officers, teachers and other members;
(k) financial procedure;
(l) fees payable to the University as a condition of admission to any examinations held by the University or for the conferring of any of the degrees of the University or for the award of any diploma or certificate or other academic distinction or for attendance at a University Extension Course or any similar purpose;
(m) the admission, welfare and discipline of students; and
(n) generally, the carrying into effect of this Ordinance.

First Schedule.

(2) The Statutes contained in the First Schedule shall have effect as if made and approved under subsection (1).

Decrees and regulations.

14. Subject to this Ordinance and the Statutes, the Council and the Senate may from time to time make decrees and regulations respectively to direct and regulate the affairs of the University.

Degrees and other awards.

15. The University may —
(a) confer such degrees as may be specified in the Statutes;
(b) award diplomas and certificates and such other academic distinctions as may be specified in the Statutes;
(c) provide such lectures and instruction for persons not being members of the University as the University may determine;
(d) confer degrees *honoris causa* of Master or Doctor in accordance with the Statutes; and
(e) subject to the Statutes, deprive any person of any degree conferred or diploma, certificate or other academic distinction awarded by the University.

Honorary Degrees Committee.

16. There shall be an Honorary Degrees Committee which shall be constituted as provided by the Statutes for the purpose of advising the Council with regard to the award of degrees *honoris causa*.

Execution and authentication of documents.

17. Any instrument purporting to be executed under the seal of the University and signed by the Chancellor, Pro-Chancellor, Vice-Chancellor, a Pro-Vice-Chancellor or Treasurer and counter-signed by the Secretary shall be received in evidence upon its production without further proof and shall, unless the contrary is proved, be deemed to be an instrument so executed.

Crown rent.

18. Rent payable to the Crown in respect of all land granted to the University by the Crown shall be limited in total to $10 a year.

Transfer of property etc. from Colleges to University.

19. (1) The Second Schedule shall apply to the transfer of property and staff of the Colleges to the University.
(2) No stamp duty shall be payable in respect of any transfer or vesting of property, whether movable or immovable, or any surrender of an agreement or any assignment of rights affected by the Second or Third Schedule, and no stamp duty shall be payable on any agreement executed in accordance with paragraph 2 of Part I of the Second Schedule.

10. 7 days' notice in writing of any meeting of the Council shall be sent by the Secretary to each person entitled to receive notice of the meeting with the agenda thereof, and no business not included in the agenda shall be transacted if the Chairman or any two members present object.

11. The Council may make for the proper conduct of its business Standing Orders which it may amend or rescind by simple majority at any of its meetings provided that not less than 7 days' notice has been given in writing by the Secretary to members of the Council of the proposal so to amend or rescind.

12. The quorum at any meeting of the Council shall be 12.

STATUTE 12

FINANCIAL PROCEDURE

1. The Council shall fix the financial year.

2. There shall be a Committee of the Council known as the Finance Committee, which shall consist of —
   (a) the Treasurer, who shall be Chairman;
(b) the Vice-Chancellor or his representative;
(c) The Head of each College; and
(d) 3 other persons, including persons who are not members
of the Council, as the Council shall appoint.

There shall be referred to the Finance Committee all matters
within the jurisdiction of the Council which have important
financial implications.

3. The Finance Committee shall submit to the Council, before
the beginning of the financial year, draft estimates of income
and expenditure of the University and such estimates,
amended as the Council may think fit, shall be approved by
the Council before the beginning of the financial year.

4. The estimates shall show the income and expenditure of the
University and the estimated surplus or deficit for the year.
The estimated expenditure shall be shown under votes, heads
and (where applicable) sub-heads. Any transfer between
votes or heads shall require the sanction of the Finance
Committee. Any transfer between sub-heads shall require the
sanction of the Vice-Chancellor and the Treasurer, with the
exception of transfers between sub-heads solely concerning
a College, which shall require the sanction of the Head of
that College, subject to any rules and directions that the
Finance Committee may issue.

5. The Finance Committee shall report to the Council, at such
times as the Council may determine, any transfer between
votes or heads. The Council may revise the estimates during
the course of the financial year.

6. As soon as practicable after the end of the financial year, a
balance sheet and income and expenditure account with
supporting schedules shall be submitted to the auditors.

7. The audited accounts, with any comments thereon made by
the auditors, shall be submitted to the Council.

8. Nothing in this Statute shall deprive the Council of power to
invest surpluses or prospective surpluses at any time.

STATUTE 13

   Doctor of Literature honoris causa (D.Lit. honoris causa)
   Doctor of Science honoris causa (D.Sc. honoris causa)
   Doctor of Social Science honoris causa (D.S.Sc. honoris causa).

3. Save as provided by paragraph 4 the degree of Bachelor shall not be conferred upon a student unless he shall have attended approved courses of study as a matriculated student of the University for at least 4 academic years.

4. The Senate may, by way of special exception to the conditions prescribed in paragraph 3, accept as part of the attendance of a student qualifying him for the conferment of the degree of Bachelor periods of attendance as a matriculated student at another university recognized by the Senate for this purpose:
   Provided that the degree of Bachelor shall not be conferred upon such student unless —
   (a) he shall have attended an approved course of study as a matriculated student of the University for at least 2 academic years, one of which shall be the final year; and
   (b) his total period of attendance as a matriculated student of this and another university or universities shall have been not less than 3 academic years.

5. The Senate may accept a certificate of proficiency in any subject issued by another university recognized for this purpose by the Senate as exempting from any examination of the University in such subject for the degree of Bachelor other than an examination qualifying for that degree in the final year of an approved course of study therefor.

6. Save as provided in paragraphs 10 and 11, the degree of Master shall not be conferred upon any person in any Faculty unless he has pursued an approved course of study or research for a period of at least 12 months after satisfying the requirements for the conferment of the degree of Bachelor in the Faculty concerned or after admission as a postgraduate student in terms of paragraph 9.

7. Save as provided in paragraphs 10 and 11, the degree of Doctor of Philosophy in any Faculty shall not be conferred upon any person unless he has —
followed an approved course of research as a student of the University for a period of at least 24 months after satisfying the requirements for the conferment of the degree of Bachelor in the Faculty concerned or after admission as a postgraduate student in terms of paragraph 9; and

(b) submitted a thesis which is certified by examiners to make a distinct contribution to the knowledge or understanding of the subject and to afford evidence of originality shown either by the discovery of new facts or by the exercise of independent critical power.

8. Save as provided in paragraphs 10 and 11, the degree of Doctor of Literature, Doctor of Science, Doctor of Social Science, Doctor of Business Administration or Doctor of Medicine shall not be conferred upon any person unless —

(a) he shall be a graduate of the University of not less than 7 years standing; and

(b) he shall have made in the opinion of the examiners a sustained contribution of distinction to the advancement of his subject.

9. (1) A person who has graduated in another university or who as a registered student of Chung Chi College, The United College of Hong Kong or New Asia College has obtained before the date of establishment of the University a diploma or certificate issued by or on behalf of such Colleges may be exempted from the matriculation requirement of the University and may be admitted as a postgraduate student and may proceed to the degree of Master or Doctor under such conditions as may be prescribed by the Statutes and by decrees and regulations made thereunder.

(2) A person who —

(a) has completed a course of study in a tertiary educational institution and holds professional or similar qualifications equivalent to a degree; and

(b) has satisfied such other requirements as may be prescribed by the Statutes and by decrees and regulations made thereunder,

may be exempted from the matriculation requirements of the University and may be admitted to be a postgraduate student with the approval of the Senate.

10. The Senate may recommend the award of the degree of Master or Doctor in any Faculty to any member of the academic staff of the University and for this purpose may exempt any such person from any of the requirements pre-
scribed for the conferment of the degree other than the examination therefor.

11. The Council may recommend the award without requiring attendance or examination of a degree of Master or Doctor honoris causa:

Provided that the holder of a degree which has been conferred honoris causa shall not, by the fact that he has been admitted thereto, be entitled to practise any profession.

12. The Council shall not recommend the award of any degree of Master or Doctor honoris causa except after consideration of recommendations submitted by an Honorary Degrees Committee consisting of —

(a) the Chancellor;
(b) the Vice-Chancellor;
(c) the Heads of the Colleges;
(d) the Chairman of the Council;
(e) two members of the Council nominated by the Council; and
(f) members of the Senate, equal in number to the number of the Colleges, elected by the Senate.

13. The University may award diplomas and certificates —

(a) to students who —

(i) have attended an approved course of study;
(ii) have passed the appropriate examination or examinations; and
(iii) have complied in all other respects with the requirements prescribed therefor; and
(b) to persons other than those provided for in sub-paragraph (a) above who are deemed by the Senate to possess the qualification appropriate for the award of such diplomas and certificates provided that such persons —

(i) have pursued a course of study therefor at one or more educational institutions in Hong Kong recognized for this purpose by the Senate; and
(ii) have passed the appropriate examination or examinations of the University.

14. Subject to the right of appeal from the decision of the Senate to the Council and from the decision of the Council to the Chancellor, the Senate may deprive any person who has been convicted of an arrestable offence or who in their opinion has been guilty of dishonourable or scandalous conduct of any degree, diploma, certificate or other award of the University.
STATUTE 27

EXAMINATIONS

Every examination or other test of the University qualifying in any subject of study for a degree or diploma or qualifying for a higher degree of the University shall be conducted by a board of examiners which shall consist of—

(a) one or more internal examiners who shall be teachers in the subject of the examination; and

(b) one or more external examiners who shall not be members of the academic staff of the University and who shall not have taken part in the teaching of the candidates.

STATUTE 28

CITATION

The Statutes may be cited as the Statutes of The Chinese University of Hong Kong.

SECOND SCHEDULE [s. 19.]

PROVISIONS APPLICABLE TO TRANSFER OF PROPERTY AND STAFF OF COLLEGES TO UNIVERSITY

PART I

TRANSFER OF COLLEGE PROPERTY AND STAFF

All immovable property within the precincts of the University and vested in any of the Colleges or its Board of Governors or Board of Trustees as the case may be immediately before the commencement of this Ordinance, is hereby transferred to and without further assurance vested in the same interest in the University; and the agreements made between the University and Chung Chi College dated 3rd July 1970, the University and the Board of Governors of New Asia College dated 29th December 1970 and the University and the Board of Trustees of The United College of Hong Kong dated 21st January 1971 are hereby surrendered to the University.

2. The Registrar General shall prepare such agreements as he considers necessary to effect a sub-letting by the University to the respective Colleges of the buildings specified in Part
II of this Schedule and the land on which such buildings
stand, together with such adjoining land, if any, as the
Registrar General or a public officer appointed by him
considers essential to the use and enjoyment of the build-
ings, containing such terms as the Registrar General thinks
fit, which agreements shall be executed by the University as
landlord and the Boards of Trustees of each College as
tenants when so required by the Governor.

3. All movable property, assets and liabilities of the Colleges,
other than movable property held on trust by or for the
Colleges, are hereby transferred to and vested without
further assurance in the University, and the University shall
have all the powers necessary to take possession of, recover
and deal with such movable property and assets and dis-
charge such liabilities.

4. Every agreement, whether in writing or not, (other than the
agreements surrendered under paragraph 1) to which any
College, or any Board of Governors or Board of Trustees of
any College, was a party, and whether or not of such a
nature that the rights or liabilities thereunder could be
assigned shall have effect as if —
(a) the University had been a party to such agreement; and
(b) for any reference to the College, or to the Board of
Governors or Board of Trustees of any College however
worded and whether express or implied, there were
substituted in respect of anything to be done on or after
the commencement of this Ordinance a reference to the
University.

5. The appointment of any officer or servant of any College
subsisting immediately before the commencement of this
Ordinance shall be deemed to have been made by the Univer-
sity under this Ordinance, and for all purposes the service of
such officer or servant shall be regarded as continuous from
the time he was appointed by the College.

6. Where anything has been commenced by or under the
authority of any College prior to the commencement of this
Ordinance and such thing is within the power of the Univer-
sity or was done in relation to any of the property, agree-
ments, rights and liabilities transferred by this Schedule to
the University, such things may be carried on and completed
by, or under the authority of, the University.

7. The Governor may by order provide for any matters which
appear to him necessary or expedient for the better carrying
out of the provisions of this Schedule.

[ss. 19(2) & 20(2).]

**CONSTITUTION OF THE COLLEGES**

**Interpretation**

1. In this Schedule, unless the context otherwise requires — “Boards of Trustees” means the Boards of Trustees of the Colleges incorporated under paragraph 2; “Chairman” means the Chairman of each Board of Trustees; “Council” means the Council of The Chinese University of Hong Kong.

**Incorporation of Board of Trustees.**

2. (1) There shall be a Board of Trustees of Chung Chi College which shall be a body corporate and shall have the name of “The Trustees of Chung Chi College” and in that name shall have perpetual succession, and may sue and be sued, and shall have and use a common seal.

(2) There shall be a Board of Trustees of The United College of Hong Kong which shall be a body corporate and shall have the
name of "The Trustees of The United College of Hong Kong" and in that name shall have perpetual succession, and may sue and be sued, and shall have and use a common seal.

(3) There shall be a Board of Trustees of New Asia College which shall be a body corporate and shall have the name of "The Trustees of New Asia College" and in that name shall have perpetual succession, and may sue and be sued, and shall have and use a common seal.

3. (1) Each Board of Trustees shall hold in trust, and administer for the benefit of its College the movable property which is vested in the Board under paragraph 7; and shall hold in trust for the benefit of the University the buildings the subject of the agreements to be made under paragraph 2 of the Second Schedule.

(2) Subject to sub-paragraph (3), each Board of Trustees may, for the purpose of the trusts under sub-paragraph (1), exercise the powers conferred on trustees by the Trustee Ordinance.

(3) A Board of Trustees shall not, without the prior approval of the Council, which may be subject to such conditions as the Council thinks fit, accept any gift for the benefit of the College.

(4) Each Board shall make written provision for its procedure in the transaction of business, the discharge of its aims and duties and the maintenance of good order at its meetings.

(5) The Board of Trustees of Chung Chi College shall —

(a) recommend to the Council, through the Administrative and Planning Committee, all appointments to the Theology Division, or whatever part of the University shall succeed the Division as being responsible for theological education, including the appointment of the Head of the Theology Division (or equivalent post) and of the warden of the Theology Hostel;

(b) allocate for the promotion of theological education, including the upkeep of the Theology Building, the resources made available from private funds;

(c) provide for and appoint the Chaplain of the Chapel; and

(d) advise the Senate on all major policy matters relating to theological education,

and the Board of Trustees may delegate to a Theological Council appointed by it the power to discharge the functions and duties imposed on the Board by this sub-paragraph.

4. (1) The persons who, immediately before the commencement of this Ordinance, were members of the Board of Governors of Chung Chi College shall, on the commencement of Composition of Boards of Trustees.
this Ordinance, become the members of the Board of Trustees of that College incorporated under paragraph 2(1).

(2) The persons who, immediately before the commence-
ment of this Ordinance, were members of the Board of Trustees of The United College of Hong Kong shall, on the commence-
ment of this Ordinance, become members of the Board of Trustees of that College incorporated under paragraph 2(2).

(3) The persons who, immediately before the commence-
ment of this Ordinance, were members of the Board of Governors of New Asia College shall, on the commencement of this Ordinance, become members of the Board of Trustees of that College incorporated under paragraph 2(3).

(4) Any person who is at the commencement of this Ordinance, or who becomes, a member of a Board of Trustees may retire as a member of that Board of Trustees, but no person shall retire so as to reduce the number of members of the Board of Trustees below 4.

(5) Vacancies in the number of members of a Board of Trustees shall from time to time be filled by such legal means as would have been available for the appointment of new trustees if the Board of Trustees had not been incorporated, and, without prejudice to the generality to the foregoing, section 42 of the Trustee Ordinance shall apply in relation to the appointment of new Trustees.

5. (1) Each Board of Trustees shall forward to the Registrar of Companies—

(a) notice of the address of the principal office of the Board of Trustees and any change thereof;

(b) a list of the names and addresses of the members of the Board of Trustees, and any change therein, certified as correct by the Chairman; and

(c) a copy of the written provision made under paragraph 3(4), and any change therein, certified as correct by the Chairman.

(2) Notification in accordance with sub-paragraph (1)(a) and (b) shall be made—

(a) within 3 months of the commencement of this Ordinance; and

(b) thereafter within 28 days of any change.

(3) Notification under sub-paragraph (1)(c) shall be made within 28 days after the making of any written provision under paragraph 3(4) or the making of any change therein.

(4) Any person may inspect at the office of the Registrar of Companies any of the documents registered under this paragraph.

(5) A fee of $5 shall be payable for registering or inspecting any document referred to in this paragraph.
6. Each Board of Trustees shall in each year, prepare and produce to the Council its audited accounts in such form and at such times as the Council may determine.

7. On the commencement of this Ordinance —
   (a) all movable property held on trust by or for each College and all immovable property held by or on behalf of the Colleges outside the precincts of the University shall vest in the Board of Trustees of the College concerned without further assurance and on the same trusts and subject to the same terms and conditions, if any, on which the same was then held;
   (b) the Board of Trustees of each College shall succeed to all rights, privileges, obligations and liabilities of the Colleges relating to the property vested in the Boards of Trustees under sub-paragraph (a).

8. Nothing in this Schedule shall affect or be deemed to affect the rights of Her Majesty the Queen, Her Heirs or Successors or the rights of any body politic or corporate or of any other persons except such as are mentioned in this Schedule and those claiming by, from or under them.

General Information
THE UNIVERSITY

Origin

The University has its origin in three Post-Secondary Colleges: New Asia College (founded 1949), Chung Chi College (founded 1951), and The United College of Hong Kong (founded 1956), which drew, in their early days, a sizeable proportion of their teachers and some of their students from mainland China.

In 1957, these three Colleges came together to form the Chinese Colleges Joint Council with the object of securing Government recognition for their efforts in providing higher education for the students of Hong Kong. In 1959, Mr. John S. Fulton (now Lord Fulton of Falmer) was invited to advise on general lines of development for the three Colleges as a whole. In 1960, the Government introduced the Post-Secondary Colleges Ordinance and Regulations, which approved financial support to the three Colleges with a view to raising their standards to a higher level.

In 1961, a University Preparatory Committee, chaired by the late Dr. the Hon. Sir Cho-Yiu Kwan, was appointed to advise on sites and buildings and matters relating to the establishment of the University. A group of advisers from Britain and the United States visited Hong Kong in the same year to advise the Colleges on development to university level of courses in arts, science, commerce and social science. The report of these advisers was encouraging, and so in 1962, the Government appointed a commission under the chairmanship of Mr. John S. Fulton to consider and determine whether and how a Chinese university should be created.

The Report of the Fulton Commission, known as the Fulton Report and published in April 1963, recommended the establishment of the new University. This Report was approved in principle by the Government shortly after its publication. A Provisional Council was set up in June 1963, and The Chinese University of Hong Kong Ordinance and Statutes were enacted in September 1963. On 17th October, 1963 the University was formally inaugurated.

The New Ordinance

In November 1975, the Governor, in his capacity as Chancellor of the University, appointed an external commission to review the constitutional arrangements governing the University and its constituent Colleges. Lord Fulton of Falmer was again invited to serve as Chairman of the Commission.
The second \textit{Fulton Report} was submitted to the Chancellor in March 1976 and published in May. The \textit{Report} recommended important changes to the constitutional arrangements governing the University and the Colleges. Under the new arrangements proposed by the Commission, the University would be responsible for academic and development policy, financial management, the matriculation of students, the appointment of staff, the determination of curriculum, the conduct of examinations and the award of degrees. The participation of senior academics in the governing bodies of the University would be strengthened. In addition, the \textit{Report} also recommended that the teaching of the University should reflect a balance between “subject-orientated” teaching and small group “student-orientated” teaching, and that the latter should be implanted in the Colleges. This “student-orientated” teaching would be designed to build in the students habits and aptitudes of mind characteristic of the expert in their chosen fields and relevant to the solution of the kind of problems they are likely to encounter later in life; it would also be designed to equip students for meeting the challenges in a rapidly changing world.

A new Ordinance to give effect to the recommendations in the \textit{Fulton Report} was enacted in December 1976. The Ordinance (No. 86 of the \textit{Laws of Hong Kong 1976}) and the Statutes of the University are printed on pp. 8 - 47 of this \textit{Calendar}.

\section*{Finance}

Apart from fees which are comparatively low, the main source of income for recurrent expenses and capital equipment is the Hong Kong Government. In addition, the University and its constituent Colleges have small endowment funds at their disposal and also receive contributions from private donors and interested associations for scholarships, research and other designated purposes.

Negotiations between the University and the Government are conducted by the University and Polytechnic Grants Committee, established in 1965. This Committee advises the Government on the financial requirements of the University.

The capital cost of buildings in the Shatin campus will amount to some HK$290 million by 1983 and the cost of the site formation and external works has been about HK$45 million. The Hong Kong Government has assumed responsibility for several basic buildings in addition to site formation and external works.
Lands and Buildings

The University has under lease from the Hong Kong Government a tract of land measuring some 133.8 hectares located north of the Shatin New Town in the New Territories. The site overlooks the beautiful Tolo Harbour to the north and Tide Cove to the east.

The campus varies in elevation from 4.4 to 140 metres above sea level and was carved from a rocky promontory into four plateaux in the late sixties to provide the sites for buildings of the University and the three constituent Colleges. The central activities buildings are located mainly at the mid-level, with Chung Chi College at the lower level and New Asia College and United College at the highest level. The expanse of land in the valley next to the University Station of the Kowloon-Canton Railway has been the campus of Chung Chi College since 1956. United College and New Asia College moved from urban Hong Kong and Kowloon to their present sites in 1972 and 1973 respectively. Each of these Colleges has its own administration and teaching blocks, library, staff/student amenities building, and student hostels.

Around the impressive tree-lined University Mall and the University Square the following major central buildings cluster: the University Administration Building; the University Library; the Institute of Chinese Studies and the Art Gallery; the Sui-Loong Pao Building and the Pi-Ch’iu Building (two teaching blocks); the Y.C. Liang Hall (a lecture hall complex); the Sir Run Run Shaw Hall (a 1,500-seat multipurpose auditorium); the Science Centre Complex; and the Choh-Ming Li Building for Basic Medical Sciences.

Other central buildings, scattered all over the campus, include the Benjamin Franklin Centre (an amenities building for staff and students); the Health Centre; the Sports Centre; the Li Dak Sum Building (a teaching building); the Fong Shu Chuen Building (a Chinese language centre); the Marine Science Laboratory; the Estates and Maintenance Building; the Postgraduate Hall Complex (a dormitory mainly for postgraduates); the guest houses and staff quarters.

In the seventies, over sixty new buildings have been erected on this once barren hillside. Buildings completed more recently include a sizable student hostel and an annex to the Science Centre Complex. Building projects in advanced stage of design or under construction are an academic building, a Transport and Security Depot, an extension to the Administration Building, and five blocks of staff quarters. Further academic buildings and student hostels are being planned.

Construction work of the Government’s New Territories Truck Road System now under way at the reclamation area and along the eastern boundary of the campus will provide new building sites for the University and bring about the construction of new campus roads and many reprovisioned facilities.
Residential Accommodation

The University provides a variety of accommodation for staff members, academic visitors and students.

Staff Housing

Staff quarters are allocated by the University to appointees who are eligible for staff housing. There are over 190 senior staff flats on campus in multi-storey apartment buildings plus some 90 flats for single teachers and other staff, and several blocks of quarters for minor staff. Further blocks of senior staff quarters are being planned.

The Inter-University Hall provides fully-furnished and self-contained accommodation for academic visitors coming to The Chinese University for periods of one to two years.

Guest Houses

The University operates three guest houses which provide room and board facilities for guests on short periods of stay in the University. The Yali Guest House, completed in 1974, is a gift from the Yale-China Association. The University Guest Houses I and II began operation in 1980.

Student Hostels

The University and its constituent Colleges operate a number of hostels for students who wish to live on campus.

The Postgraduate Hall Complex, consisting of Sir Cho-Yiu Hall, Lady Ho Tung Hall, and the Postgraduate Hall, provides 250 places for graduate students as well as 3rd- and 4th-year undergraduates. Chung Chi College has seven hostels: Ming Hua Tang, Wen Lin Tang, Ying Lin Tang, Hua Lien Tang, Theology Building, Madam S. H. Ho Hall and Wen Chih Tang. Together they accommodate a total of 784 students. At New Asia College, the Chih Hsing Hall, Xuesi Hall and the recently completed Grace Tien Hall can accommodate another 770. At United College, the Adam Schall Residence and Bethlehem Hall have a combined capacity for 470, and a new hostel capable of housing 300 students is being planned.

With the exception of the Postgraduate Hall Complex which has 120 single rooms, most student hostels in general provide shared accommodation in the form of twin-bed rooms. They are available to all undergraduates except where specified. Because competition for residential places is very keen, interested students are advised to apply early to their respective College authorities.
In addition to the above student residences there are several temporary hostels, which used to house over 300 students in dormitory-style rooms, but the number of places has been reduced by about one-third as the temporary structures are being phased out gradually.

Hostel fees range from HK$325 to 1,200 a term, depending on the type of accommodation. Special rooms for married students without children are available at HK$540 to $900 per month. Detailed information on hostel fees is listed on pp. 474-475.

Liaison with the World of Learning

The University has since its inception in 1963 strived to become a Chinese institution of international character. It sees as its main mission the cross fertilization of Chinese and Western cultural traditions. To this end, the University has through the years cultivated and maintained connections with a large number of overseas bodies, including universities, institutes and centres of learning, governmental agencies, and in particular, with regional and international associations of universities.
The University enjoys a close relationship with numerous overseas universities. Under an agreement drawn up in 1965, it arranges annually for an exchange of students and staff with the University of California System. In recent years, the number of students in the two universities involved under this arrangement has hovered around 20 each year. There are also student exchange programmes with New York University and the University of Missouri in America. Staff exchanges are also maintained with a number of French universities through the efforts of the government of France, with the majority of the outgoing staff members from this University being China specialists. In Japan, a short-term staff visit programme with the Soka University and a student exchange programme with the Tsukuba University have been established. Beginning in 1982, further exchanges will be put into effect through the International Student Exchange Programme (Washington, D.C.) of which the University is now a member.

The University's constituent Colleges, too, have cultivated links with certain universities abroad. New Asia has close relations with the Yale-China Association, Chung Chi with the Wellesley-Yenching Committee and the Princeton-in-Asia Committee, and United with Williams College and Indiana University. For the exchange of undergraduates/graduates, Chung Chi has special arrangements with Redlands University and Washington and Lee University, New Asia with Asia University (Tokyo), and United with Williams College and Indiana University.

In response to the growing demand of overseas students and scholars for Chinese and Asian studies, the University launched the International Asian Studies Programme (IASP) in 1977 in cooperation with the Yale-China Association. The Programme makes it possible for participants to take credit-earning courses on China and Asia taught in English and Chinese, as well as a rich curriculum of Chinese language instruction. So far over 300 participants from twenty-two countries have joined the Programme. For details of admission to the Programme, see p. 467 of this Calendar.

The facilities at the University for international conferences and seminars have continued to attract scholars from far and wide. The Luce Scholars Programme administered by The Asia Foundation, for example, has been conducted in the University for several years. In recent years, the University has been the venue for many regional conferences or gatherings of international stature. Some of these were organized with various local organizations, others were co-sponsored with institutions abroad including the International Association of Schools of Social Work, the International Public Relations Association, the International Development Research Centre in Canada, the Josiah Macy Jr. Foundation in America, the Association of Commonwealth Universities, the Southeast Asian Mathematical Society, the Association
of Southeast Asian Institutions of Higher Learning, and the Inter-
University Consortium for International Social Development.

The international character of the University has been significantly
enhanced by foreign government contributions to the language and
literature instruction programme. Visiting lectureships have been
provided by the governments of France, West Germany, Italy and Japan
for instruction in their respective languages, and many graduates of the
University have obtained fellowships for advanced studies in these
countries. In addition, the University has since its very early days
benefited from grants from various foundations for such important uses
as staff development, research, scholarships and exchange programmes.
These foundations include the Lingnan University Board of Trustees in
New York, The Asia Foundation, the Yale-China Association, the
Harvard-Yenching Institute, the World Health Organization, the
Leverhulme Trust and the Japan Foundation.

Cooperation with other universities has always been encouraged
and maintained through various associations of universities. Today,
the University is a member of the Association of Commonwealth
Universities (ACU), the Association of Southeast Asian Institutions of
Higher Learning (ASAIHL), and the International Association of
Universities (IAU). It has also been closely associated with the former
Inter-University Council for Higher Education Overseas (IUC) in the
United Kingdom.
THE CONSTITUENT COLLEGES

Chung Chi College

Chung Chi College was founded in October 1951 by representatives of Protestant churches in Hong Kong to meet the need for a local institution of higher learning that would be both Chinese and Christian. In 1955 it was formally incorporated under an Ordinance of the Hong Kong Government.

The College had a very modest beginning with only 63 students in the first year. It used borrowed and rented premises, first in the Cathedral Hall and St. Paul’s Co-educational College, then in Caine Road and Lower Albert Road. Expansion was made possible by financial help from North America through the United Board for Christian Higher Education in Asia and the Trustees of Lingnan University and from Britain through the Asia Christian College Association. Local churches, firms and private individuals also gave considerable support. In 1956 the College moved to its permanent site in the New Territories, in the beautiful Ma Liu Shui Valley. Between 1959 and 1963 the College received the bulk of its funds from the Hong Kong Government. In 1963 the College was incorporated as one of the three Colleges of The Chinese University of Hong Kong.

Board of Trustees

With the reorganization of the University following the enactment of The Chinese University of Hong Kong Ordinance 1976, the Board of Trustees of Chung Chi College has been reconstituted. Its duties are mainly concerned with the management of the movable property vested in the Board and of certain College buildings and, through fund-raising campaigns, the promotion of scholastic and cultural activities of the College. The membership of the Board is as follows:

Theological Training

From 1957 religious education and theological training have been part of the academic programme of Chung Chi College. Since the establishment of The Chinese University of Hong Kong in 1963, training in religious studies has received government funds for teachers' salaries, while training of Christian ministers was, from 1963 to 1968, on an affiliated basis through the Chung Chi Theological Seminary. In 1968, the Seminary as such ceased to exist and its function was transferred to a new Division of Theology in the Department of Philosophy and Religion. The new Division, under a Theological Council, is financed independently by church gifts, but academically is a recognized part of the College and the University. Students enter by fulfilling the University's entrance requirements, and University degrees are awarded to those who qualify. A small number of selected non-degree students are also trained, but with a separate curriculum.

Students and Extra-Curricular Activities

In academic year 1982-83 Chung Chi College had a student enrolment of 1,492, of whom 899 were men and 593 were women. Most of the students were born in Hong Kong, but a few of them are overseas Chinese. About one third of the students are Christians.

Student activities of all sorts are organized by the Chung Chi College Student Union and a host of student societies. Together they are responsible for the many cultural, athletic and extracurricular activities that serve to provide a social meeting ground for students from different hostels and different faculties.
New Asia College

New Asia College was founded in 1949 by its former President, Dr. Ch'ien Mu, and a small group of scholars from China. Their purpose was to preserve traditional Chinese culture and to balance it with Western learning so that students might at once have a thorough knowledge of their cultural heritage and be prepared to cope with the modern world.

The College began humbly in impoverished circumstances, but soon attracted support both locally and from overseas. Since 1954, it has had the cooperation and support of the Yale-China Association which had been active in educational development in China for many years.* It has also received support from other educational institutions and foundations, notably the Harvard-Yenching Institute, The Asia Foundation, the Rockefeller Foundation, the British Council, the Mencius Foundation, and the Ford Foundation. As a grant College from 1959 to 1963, and now as a constituent College of the University, it has received generous financial support from the Hong Kong Government.

Board of Trustees

With the reorganization of the University following the enactment of The Chinese University of Hong Kong Ordinance 1976, the Board of Trustees of New Asia College was reconstituted. Its duties are mainly concerned with the management of the movable property vested in the Board and of certain College buildings and, through fund-raising campaigns, the promotion of scholastic and cultural activities of the College. The membership of the Board is as follows:

Chairman
Mr. Edwin Tao 陶學祁, BA, MS

Students and Extra-Curricular Activities

In academic year 1982-83 New Asia College had a student enrolment of 1,366, of whom 842 were men and 524 were women. Over 60% of the student population received scholarships, bursaries or other forms of financial assistance.

Extra-curricular activities form an important part of student life in the College and are freely organized by the New Asia College Student Union and a host of student clubs and societies.

United College

The United College was founded in 1956 by the amalgamation of five Post-Secondary Colleges (namely, Canton Overseas College, Kwang Hsia College, Wah Kiu College, Wen Hua College, and Ping Jing College of Accountancy) which decided to pool their resources so as to better provide higher education for local students. It was incorporated under an Ordinance of the Hong Kong Government in 1957 with a Board of Trustees as its governing body.

In 1962, the College Board of Trustees was broadened to include representation from the local community, and Dr. the Hon. Kenneth Ping-fan Fung was elected Chairman. In July 1962, Mr. T. C. Cheng, then Chief Assistant Secretary for Chinese Affairs, accepted the Board of Trustees' offer of appointment as President, and assumed office in January 1963. The United College became a constituent College of The Chinese University of Hong Kong in October 1963. Since then, the College has made rapid progress which is reflected by the rapid increase in enrolment, the improved quality of staff and students, as well as by a general enlivening in all aspects of college life.

In March 1971, foundation stones were laid for the five new buildings for the College in Shatin. Late in December in that same year, the College moved from the premises at Bonham Road to the new campus.
In May 1972, Sir Kenneth resigned from the Chairmanship of the College to take up his appointment as a member of the University and Polytechnic Grants Committee. He was succeeded by Dr. the Hon. P. C. Woo.

Board of Trustees

With the reorganization of the University following the enactment of The Chinese University of Hong Kong Ordinance 1976, the Board of Trustees of United College was reconstituted. Its duties are mainly concerned with the management of the movable property vested in the Board and of certain College buildings and, through fund-raising campaigns, the promotion of scholastic and cultural activities of the College. The membership of the Board is as follows:

Chairman
Dr. the Hon. P. C. Woo 胡百全, CBE, LLB, PhD, LLD, JP

Students and Extra-Curricular Activities

In the academic year 1982/83, a total of 1,662 students were assigned to United College, of whom 1,148 were men and 514 were women. 1,046 students received interest-free loans and grants from the Government. Students received a total of 274 awards in the form of prizes, scholarships, fellowships and bursaries administered by the College and the University.

Inaugurated in 1963, the United College Student Union is a statutory body representing all the students of the College. Various student organizations are registered under the Student Union. They include faculty and department societies, non-residential halls and various interest clubs. Every year, students organize a wide range of activities, including academic, athletic and other social functions.
Part III

Admission and Programmes of Studies
UNDERGRADUATE ADMISSION
AND DEGREES

Full-time Degree Programmes

Eligibility for admission is conditional upon fulfilling the entrance
requirements of the University or obtaining exemption therefrom under
the provisions in Section V of the Regulations Governing Admission
to Undergraduate Studies. In addition to satisfying the entrance/exemption requirements mentioned above, applicants for admission to
the first-year courses leading to a Bachelor's degree of the University
shall be required to satisfy the relevant Faculty Admission Require-
ments (Sections III and IV of the Regulations Governing Admission to
Undergraduate Studies). The Regulations Governing Admission to
Undergraduate Studies are printed on pp. 523-526 of this Calendar.

The University's five Faculties of Arts, Business Administration,
Medicine, Science, and Social Science offer a wide range of courses
leading to the BA, BBA, MB ChB, BSc, and BSSc Degrees. Programmes
of Studies, General Regulations Governing Undergraduate Studies, and
General Regulations Governing Undergraduate Medical Studies (Poten-
tial Medical Major and Pre-clinical Studies Section) are respectively
printed on pp. 144-408, pp. 527-539 and pp. 540-542 of this Calendar.
Major and Minor subjects offered by Faculties other than the Faculty
of Medicine are as follows:

Faculty of Arts
Chinese Language and Literature (including Translation), English, Fine
Arts, French, German, History, Italian, Japanese, Music, Philosophy,
Religion and Theology.

Faculty of Business Administration
Accounting, Finance, General Business Management, International
Business, Marketing, and Personnel Management.

Faculty of Science
Biochemistry, Biology, Chemistry, Computer Science, Electronics,
Mathematics, Physics, and Statistics.

Faculty of Social Science
Anthropology, Economics, Geography, Government and Public
Administration, Journalism and Communication, Psychology, Social
Work, and Sociology.

Students of the four Faculties listed above follow a four-year
programme. First-year students are admitted on a Faculty basis. They
do not have to make a firm choice of Major subject until they have
completed their first year of study. Students must pass the Degree Examination in partial fulfilment of the requirements for admission to a Bachelor's degree. The Examination consists of Parts I and II, to be taken at the end of the third and fourth years of study respectively. Graduates are eligible for honours degrees awarded on the basis of their Degree Examination results. Regulations for Degree Examination are printed on pp. 543-551 of this Calendar.

Faculty of Medicine

The Faculty of Medicine starts admitting students on a Faculty basis in 1981. The Faculty does not offer major/minor programmes but a single professional undergraduate course of Medicine instead. During the two preclinical years of the professional courses, an integrated curriculum will be adopted, with Anatomy, Physiology, Pharmacology and Biochemistry as the main subjects; and introductory courses in social and behavioural sciences will also be conducted. Professional examinations will be held towards the end of the second preclinical year. The three clinical years of study thereafter will have classes held at the teaching hospital in Shatin in the various clinical departments. Further professional examinations will be held during the clinical years. Students must pass both the professional examinations and periodic assessment of individual subjects for admission to a Bachelor's degree. Graduates in Medicine are also required to serve one year's internship at a recognised hospital.

Part-time Degree Programmes

Eligibility for admission is conditional upon fulfilling entrance requirements or obtaining exemption therefrom in accordance with 2 of the General Regulations Governing Undergraduate Part-time Degree Studies (see pp. 552-563 of this Calendar). An applicant seeking admission to the upper years of the part-time degree programme shall be required to satisfy the special entrance requirements.

The University offers four part-time degree programmes in 1983-84: Chinese and English, Music, Business Administration and Social Work. For 1983-84, the Social Work programme admits students directly into the third and fourth years as well as to the first year.

A programme consists of two parts, each extending over three years normally. Students will be awarded a Certificate upon completion of the required number of units of course work in the First Part of a programme and passing a Certificate Examination. The Degree Examination consists of three parts, to be taken at the end of the fourth, fifth and sixth years. Honours degrees are awarded on the basis of Degree Examination results. Details concerning the Certificate Examination and Degree Examination can be found in 13 and 14 of the General Regulations Governing Undergraduate Part-time Degree Studies.
UNDERGRADUATE (Full-time)
PROGRAMMES OF STUDIES

All undergraduates (other than Medical students*) are required to complete at least 120 units of courses, including (1) General Courses: General Education, General Chinese (unless exempted), General English (unless exempted), and Physical Education; (2) the Faculty's required courses in the first and second years; and (3) the specified prerequisite courses, core courses and courses for degree papers required for their Major and Minor subjects and STOT (Student-orientated Teaching) courses. Students shall normally take no less than 12 units and no more than 21 units of courses in any teaching term.

The study schemes and examination schemes of the various programmes are set out at the end of the course descriptions.

Course Codes

Letters of the alphabet stand for the subjects (e.g. CHI, ENG, BIO stands for Chinese, English and Biology respectively); the first Arabic numeral stands for the year in which the subject is to be taken (1=1st year, 2=2nd year, 3=3rd year, 4=4th year, 5=1st year, Graduate School, 6=2nd year, Graduate School); and 0 stands for Student-orientated Teaching.

Course Description

†ENG 121/122
Analytical Writing
1-yr. Mj. Req., 2-term; 4 U; 2 class work
A course designed to improve the English communication skills of
Major students in the English Department. Specially prepared materials
based on the needs of the students are used to develop listening,
speaking, reading and writing skills to an advanced level of proficiency.

†ENG 125
Introduction to Literature
1-yr. Mj. Req.; 1st term
(Methodology)
3 U; 2 Lect. 1 Tut.
This course is designed to give the students a general understanding of
the nature and variety of literature. It will try to provide the students
with the critical terms and basic tools to analyze and evaluate literature.
Readings will include poetry, fiction, and drama.

†ENG 128
Historical Survey of English
1-yr. Mj. Req.; 2nd term
Literature I
3 U; 2 Lect. 1 Tut.
This course attempts to give an overall view of the chronological deve-
lopment of English literature up to the end of the 17th century. It will
introduce a sampling of representative literary works which help to
form the tradition and are, in turn, informed by it. Individual works of
different genres will be integrated with their respective historical back-
grounds as well as related to antecedent works to show the continuity
of the tradition. Lectures will concentrate on cultural background and
illustrations of it through particular works. Audio-visual aids (e.g.
movies, film-strips, slides, overhead transparencies, tapes, etc.) will be
used extensively to help bridge the culture gap. Seminars will concen-
trate on examining major works and the students’ responses to them.

†ENG 130
Backgrounds to English Literature
1-yr. Mj. Req.; 2nd term
3 U; 2 Lect. 1 Tut.
This course offers general background knowledge of Hebrew, Greek and
Roman literature, thought and civilization, without which students will
find it difficult to achieve a thorough understanding of English litera-
ture. English translations of some representative works will be studied.

†ENG 021/022
Opinions and their Expression
2-yr. Mj. Req.; STOT
2-term; 2 U; 2 STOT
A course designed to give students practice in analysing and discussing
controversial issues in order to increase their confidence in expressing their opinions in both spoken and written English.

†ENG 211/212  2-yr. Mj. Req.; 2-term
Writing about Literature/  4 U; 2 class work
Language
An integrated course designed to develop English communication skills in preparation for meeting the requirements of Language and Literature courses in Third and Fourth years. The course will emphasize the techniques of effective writing. The development of argument, logical organisation, and stylistic questions will be considered in relation to various types of writing, including written responses to literary texts and to questions concerning language.

†ENG 213/214  2-yr. Mn. Req.; 2-term
Writing about Literature/  6 U; 3 class work
Language
An integrated course designed to develop English communication skills in preparation for meeting the requirements of Language and Literature courses in Third and Fourth years. The course will emphasize the techniques of effective writing and group discussion. The development of argument, logical organisation, and stylistic questions will be considered in relation to various types of writing, including written responses to literary texts and to questions concerning language, and both formal and informal speaking will be encouraged.

†ENG 215/216  2-yr. Mj. Mn. Req.; 2-term
Introduction to Linguistics  6 U; 2 Lect. 1 Tut.
A survey course, designed to impart basic information about the nature and structure of language and the main areas and concepts of linguistics; also to help students make informed choices among 3rd and 4th year Language Studies options.

*†ENG 217/218  2-yr. Mn. Req.; 2-term
Introduction to Literary Studies
This course will stress methodological considerations, drawing most of its examples from English literature. Some of the topics to be covered are: literary genre, literary devices, analytical approaches to literary works, relation of other disciplines to literature, and comparative perspectives.

†ENG 219  2-yr. Mj. Req.; 1st term
Historical Survey of English Literature II
A course to complement ENG 128. The second section of this course will focus on the development of English literature up to the 20th century.

* Not offered in 1983-84
Survey Course brings the students from the end of the 17th century to the end of the 19th century.

†ENG 222
Historical Survey of English
Literature III
This course is a continuation of Survey I and II, with an emphasis on the critical and analytical study of selected twentieth-century English literary works in poetry, fiction and drama.

ENG 224
Introduction to Comparative Literature (Methodology)
A preliminary survey of the methodology in use in Comparative Literature, designed to familiarize students with the scope, concepts and techniques of this field of study. After tracing its beginnings and development in the Western world, the focus will be shifted to Chinese-Western literary relations in order to explore a specifically Chinese approach.

ENG 301 and ENG 302
Business English Skills
Elect. Others. (2-4 yr; priority to 4-yr. students); Both terms
3 U; 3 class work
A course designed to give training and practice in English communication skills used in business and social contexts. Speaking, listening, reading and writing skills will be developed. Use will be made of audio and video materials and emphasis will be placed on oral activities such as role simulation.

ENG 303 and ENG 304
Listening Skills: Comprehension and Response
Elect. Others (2-4 yr not for Eng. Mj. & Mn.); Both terms
3 U; 3 class work
A course designed for students who have problems understanding the Spoken English of lectures and that used in the mass media (radio, television). The course focuses on listening to and understanding audio and video tapes of increasing length and levels of difficulty. The content of the video tape is used as a basis for small-group discussion.

ENG 305 and ENG 306
Reading Skills
Elect. Others. (Priority to 1-2 yr not for Eng. Mj. & Mn.);
Both terms; 3 U; 3 class work
A course designed to improve the reading proficiency of students who have difficulty with rapid reading and/or comprehension and retention of various forms of printed English. The course gives students an under-
standing of the skills and techniques of efficient reading and practice in using these with a variety of materials. Attention will be paid to vocabulary increase, sentence constructions, etc. Some materials will be used to generate speaking and writing exercises.

ENG 307 and ENG 308
Spoken English Skills
Elect. Others (priority to 3-4 yr. not for Eng. Mj. & Mn.)
Both terms, 3 U; 3 class work
A course which focuses on the development of techniques and skills to facilitate discussion and make it more productive. Through practice in structured and purposeful situations students increase awareness of their grammatical and pronunciation problems and are given guidance in overcoming these. Additionally, confidence and ease in the use of spoken English is developed in group work and discussion.

ENG 309 and ENG 310
Writing Skills
Elect. Others (not for Eng. Mj. & Mn.)
Both terms; 3 U; 3 class work
A course designed to provide practice in the use of the writing process in general. Instruction is given in techniques of inventing and arranging ideas, executing them in writing, and revising and editing them to produce finished pieces. A central emphasis is given to audiences for writing and writers’ intended effect. Methods of idea development such as the use of descriptive details and exemplification are covered, as well as idea arrangement and techniques of style. Students will write formal projects and also keep weekly writing journals.

ENG 311 and ENG 312
Business Communication Skills
Elect. Others (except Bus. Ad. Mj. and priority to 4-yr.)
Both terms; 3 U; 3 class work
A course of study and practice of the principles of business communication with special reference to the use of both spoken and written English in the Hong Kong business community. The first part of the course focuses on communication requirements associated with job application. The second part deals with office communications in a business context including report making, memo and letter writing.

ENG 313 and ENG 314
Advanced Pronunciation Skills
(priority to 2-yr.); Both terms
3 U; 3 class work
A course designed for students whose spoken English is already reasonably good but who expect to enter occupations where a relatively high standard of English pronunciation is important. Special attention will be paid to stress, intonation and other features of connected speech.
ENG 315 and ENG 316
Writing Laboratory
2-4 yr. Elect.; Both terms
3 U; 1 Lect. 2 Lab.
A lab-type course which focuses on specific writing concepts, especially various forms of writing, grammar and mechanics, vocabulary, style, and creative writing. Students can choose which concepts they would like to study from "mini-programs" in these areas. Most work will be done in small groups.

*†ENG 331*
1st Section — Elizabethan and Jacobean Tragedy
3 yr. Mj. Mn. Opt.; 1st term
3 U; 2 Lect. 1 Sem.

*†ENG 334*
2nd Section — Restoration Drama
3 yr. Mj. Mn. Opt.; 2nd term
3 U; 2 Lect. 1 Sem.
After surveying the origins of English drama (Morality and Mystery plays, Senecan tragedy, the development of playhouses, etc.), tragedy will be discussed with particular attention paid to the ways in which playwrights of the period treat the theme of revenge, their tragic conception of the universe, and the dramatic techniques they employ. The Restoration period will deal with the Heroic Tragedy and the Comedy of Manners. Representative works of the following authors will be covered: Kyd, Marlowe, Tourneur, Webster, Middleton, Ford, Dryden, Otway, Wycherley, Etherege, Congreve, etc.

against “Augustan” poetry and attempts to understand the “romantic” approach to the imagination and creativity. The “Moderns” will be studied as a continuation of the “Romantic Imagination” as well as experimenters in language. The poets covered, in the contexts of their respective backgrounds, are: Wordsworth, Coleridge, Shelly, Keats and Byron (Romantics); Tennyson, Browning, Arnold, Hopkins and Pre-Raphaelite poets (Victorians); and Yeats, Eliot and Pound (Moderns).

†ENG 355/356  3-yr. Mj. Req.; 2-term
Drama Workshop  6 U; 2 Lect. 1 Sem.
A course on the practical aspects of dramatic expression and interpretation, including speech and movement, lighting, production and writing for the stage, with special attention to the limitations encountered in amateur theatre.

†ENG 357/358  3-yr. Mj. Req.; 2-term
The History of Literary Criticism  6 U; 2 Lect. 1 Tut.
The course aims at clarifying the major shifts in critical sensibility and the morphology of critical models by reading seminal critical texts from classical antiquity to the present. Major texts will include Plato, Aristotle, Horace, Longinus, Descartes, Voltaire, Boileau, Dryden, Johnson, Lessing, Kant, Schiller, Goethe, Wordsworth, Coleridge, Hegel, Taine, Marx, Arnold, Eliot, Hulme, Richards, New Critics, selected samples from phenomenology, structuralism, Frankfurt School and Hermeneutics.

†ENG 371/372  3-yr. Mj. Mn. Opt.; 2-term
Phonetics and Phonology  6 U; 1 Lect. 1 Tut. 1 Prac.
The course is designed to provide basic training in general phonetics, phonological theory and analysis, and practical phonetic skills. Particular reference will be made to English, Mandarin and Cantonese throughout.

Syntax  6 U; 2 Lect. 1 Tut.
This course is designed to introduce the student to the modern studies of English syntax, to familiarize him with the focal problems in the subject and to help him develop some sensitivity to the English language. This course will enable the student to deal with the language aspect of literature better, and his up-to-date information in the subject will be useful in his study of other language courses in this University or abroad and in the contrastive study of syntax.

†ENG 375/376  3-yr. Mj. Mn. Opt.; 2-term
History of the English Language  6 U; 2 Lect. 1 Tut.
This course is designed for students who will become teachers of English or who may later wish to undertake higher studies in the field.

* Not offered in 1983-84.
of English Language or for those who wish to have some understanding of the origins and development of the English language. Students will be able to acquire a reading knowledge of Latin and Old English, and to see how Latin, French, Old English (and other languages to a lesser extent) have contributed towards the making of English. They will trace the evolution and development of the language from its Indo-European origin, then consider its development within England up to modern times, and become aware of contemporary varieties of English outside England.

Grammar of Contemporary English 6 U; 2 Lect. 1 Tut.
This course is designed for third year majors and minors, both for those whose main interest is literature and who need more detailed and comprehensive knowledge of the grammatical structure of Contemporary English, and for students who want to study fourth year linguistics and language teaching courses which require such background information.

†ENG 379/380 3-yr. Mj. Mn. Opt.; 2-term
Contemporary English Language 6 U; 2 Lect. 1 Tut.
(Degree Paper for Minor students only)
This course is designed to investigate various aspects and uses of contemporary English: the ways in which the language is changing (in terms of vocabulary, sentence structure, acceptability of usage, etc.); the use of satire in contemporary newspapers and magazines; the characteristics of the language used in particular registers. Emphasis will be placed on the importance of context in determining meaning.

ENG 381/382 3-4-yr. Mj. Mn. Elect.; 2-term
Creative Writing 4 U; 1 Lect. 1 Tut.
(Non-Degree course for 3rd-or 4th-year Majors and Minors)
This course aims at stimulating the students’ imagination while at the same time improving their writing skills. The short story, the novella and feature story writing will normally be the forms of creative writing handled in the course, but should the interests of students turn to other literary forms, these also will be included.

†ENG 411/412 4-yr. Mj. Mn. Opt.; 2-term
East-West Comparative Poetics: 6 U; 2 Lect. 1 Sem.
Theory and Practice
This course will investigate some critical concepts and literary theories within the context of East-West Comparative Literature. In this special context the advantages, problems, and validity of applying Western theoretical models to Chinese literature will be considered.
†ENG 413/414
European Literature in Translation
4-yr. Mj. Mn. Opt.; 2-term
6 U; 2 Lect. 1 Sem.
This course is designed to introduce students to the great masterpieces of continental Europe and their influence on English literature. The nineteenth century will be the dividing point which separates the works covered during each term.

†ENG 415/416
American Literature I
4-yr. Mj. Mn. Opt.; 2-term
6 U; 2 Lect. 1 Sem.
This is a two-term course which studies the development of American literature from the colonial through the modern period. In effect, however, the first term will focus on such major writers of the 19th century as Hawthorne, Poe, Thoreau, Whitman, Melville, Twain and James. The second term will deal with major aspects of twentieth-century American literature.

*†ENG 417/418
American Literature II
4-yr. Mj. Mn. Opt.; 2-term
6 U; 2 Lect. 1 Sem.
This course is designed both to extend the range of 20th-century authors and works covered in American Literature I as well as to probe more deeply into important themes of the modern and contemporary scene. Poetry, drama, and fiction will be treated, but special attention will be given to the latter as manifested in the American novel and short story.

†ENG 419/420
Shakespeare
4-yr. Mj. Mn. Opt.; 2-term
6 U; 2 Lect. 1 Sem.
A course of two terms covering (in the first term) selected plays from the Comedies, Romances and Problem Plays and (in the second term) selections from the Histories and Tragedies. Shakespeare’s world vision will be examined in the context of his times.

*†ENG 421/422
Anglo-American Modernism
4-yr. Mj. Mn. Opt.; 2-term
6 U; 2 Lect. 1 Sem.
The course will seek to chart the historical development of a new poetic in the works of Yeats, Pound, Eliot, Stevens, Williams and Stein as they emerge from the Romantic-Symbolist heritage and move towards Imagism, Vorticism and the aesthetics of the concrete. Critical pronouncements of the French Symbolists and of Pater and Hulme will be studied in relation to the authors mentioned above. Cultural convergences between Oriental and modern American poets will also be considered. There will be continuous cross-references throughout the course to fiction, art and film.

*†ENG 423/424

linguistic techniques (based on structural linguistics and generative-transformational theory), that can be of value in appreciating and assessing literature (e.g., foregrounding, collocation, structural and lexical ambiguity, prosodic tension, phonological structure, etc.). The course will be one of exploration and of discovery and will include detailed analysis of poetry and prose in English and, in the final weeks of the course, mainly in Chinese.

**†ENG 425/426**

4-yr. Mj. Mn. Opt.; 2-term
Practical Literary Criticism
6 U; 2 Lect. 1 Sem.
This course aims at sharpening students' sensitivity towards language in literature, and their ability of analysis, interpretation and judgment through constant practice of criticism. Emphasis will thus be placed on the application of various critical approaches to literature. Materials are to be taken from classics as well as from mass culture. Chinese materials may also be used occasionally for the sake of comparison. Aside from their individual projects, students will be asked to participate in the collective studies of texts which will be chosen jointly by the teacher and the students.

**†ENG 427/428**

4-yr. Mj. Mn. Opt.; 2-term
Romanticism
6 U; 2 Lect. 1 Sem.
By studying the poetry of Blake, Wordsworth, Coleridge, Shelley, Keats and Byron and the prose of Lamb, De Quincey and others, we will examine the development of English Romanticism. Theoretical examinations of topics like the Romantic imagination, inspiration, and creativity will accompany our close reading of the works.

**†ENG 451/452**

Contrastive Linguistics
6 U; 2 Lect. 1 Tut.
This course is intended to be both theoretical and practical. It is designed on the one hand to systematically demonstrate the organizational differences and similarities of languages from different families. The implications of Contrastive Linguistics in certain theoretical issues on general linguistic studies, language universals and typology will also be investigated. On the other hand, the course also aims at improving language skills and translation techniques by bringing to the attention of students the functional equivalents derived from contrastive analysis. The appreciation of English and Chinese literary works, particularly poetry, will be enhanced through an understanding of the formal contrasts and resemblances between the two languages.

**†ENG 453/454**

4-yr. Mj. Mn. Opt.; 2-term
Sociolinguistics
6 U; 2 Lect. 1 Tut.
The course is intended to introduce students to the idea of systematic

study of language as a social phenomenon and to sensitise their awareness of the social functions of language in the hope of equipping them with a deep perspective so that they will be able to discuss individual and societal language problems in an intelligent way, particularly with reference to the local situation.

†ENG 455/456
Psycholinguistics
6 U; 2 Lect. 1 Tut.
A course which studies the development and use of language in the individual from a psychological perspective. Emphasis will be on those processes of language acquisition which characterize the learning of both first and second languages with particular reference to formal learning systems.

†ENG 471/472
Applied Linguistics
6 U; 2 Lect. 1 Tut.
This course is designed mainly for students who intend to become teachers of English in Hong Kong. It deals with the application of modern linguistic studies to the learning of a second language and with the improvement of the English of potential teachers.

†ENG 473/474
Pedagogical Grammar
6 U; 2 Lect. 1 Tut.
This is a course in which students who intend to become teachers of English in Hong Kong will study the linguistic component of instructional programmes for teaching English as a Second or Foreign language. The course begins with students learning to identify the major positions within which syntactic constructions can occur, and the range of types of constructions which occupy these positions. Through systematic analysis students learn to manipulate syntactic constructions and practise substitution and transformation techniques with sentence structures and sentence patterns. The course uses these analytic techniques to study discourse units, selection gradation and arrangement of syllabus and lesson content, and the differences between structural and communicative syllabuses.

Study Scheme

(1) Major Programme
Major students are required to take a total of 67 units throughout the four years of study.
1st year: Students are required to take ENG 121/122, 125, 128 and 130, totalling 13 units.

German Studies

Course Descriptions

†GER 101
German I
1-yr. Mn. Req.; 2-4-yr. Others
Elect. Year; 6 U; 4 Lect.
This course aims at a basic knowledge of the written and spoken language. Emphasis will be placed on integrated grammar explanation and application. The course will include oral drills in the language laboratory, written assignments and dictation.

†GER 102
Introduction to Contemporary Germany
1-4-yr. Mn. Req.; Others, Elect.
Year; 2 U; 1 Lect.
This course will provide the students with some basic information on recent historical events, political structure, social life and cultural trends in Germany. Students who take German as their Minor subject have to attend this course, preferably at the beginning of their studies. The course will be mainly conducted in English.

GER 103
German I for Science Students
1-4-yr. Elect.
Year; 4 U; 2 Lect.
This course is designed to give a basic knowledge of the written language, emphasizing elementary grammar. The course wants to enable students to read scientific texts and to translate them into English. GER 103 leads up to GER 203.

GER 104
German I for Business Students
1-4-yr. Elect.; Year
4 U; 2 Lect.
This course is designed to give a basic reading and translating knowledge of German with growing emphasis on business texts. It provides an elementary knowledge of grammar and of typical patterns of business letters. The course requires no prior knowledge of German. It leads up to Business German II, where the writing of business letters will be practised.

†GER 201
German II
Year; 6 U; 4 Lect.
This course is a continuation of GER 101, and introduces some fundamental concepts of syntax. Emphasis will be put on a systematic extension of vocabulary and drills in the language laboratory. Together with German I, the course will provide a serviceable knowledge of German for those students who wish to use German as a tool language. GER 201 leads up to GER 301.

GER 202
German Conversation
2-4-yr., Elect.; Year
4 U; 2 Lect.
This course is designed for students who have already taken one year
of German. The course practises spoken German and includes audiovisual aids and oral drills in the language laboratory.

GER 203
German II for Science Students
2-4-yr., Elect.
Year; 4 U; 2 Lect.
This course is a direct continuation of Science German I. After basic grammar has been introduced, more emphasis is laid on grammatical and syntactical practice on a linguistically more advanced level and with special regard to the structural framework. Texts will include originals from German scientific reviews. The course aims to provide students with the ability to independently translate German scientific texts.

GER 204
German II for Business Students
2-4-yr. Elect.; Year
4 U; 2 Lect.
This course is a continuation of Business German I. More emphasis is laid on syntactical problems and on practising the reading and composition of everyday business letters. In the second term, the students may choose from a number of fields and topics relating to the business world.

†GER 205
Intensive German
1-4-yr. Mn. Opt.; Others, Elect.
Year; 8 U; 5 Lect. 1 Lab.
This intensive language course covers the same ground as German I and German II. It will provide a serviceable knowledge of German. The course is mainly designed for potential Minor students. But it is open to freshmen, too. In case of good and excellent results GER 205 leads up to GER 301.

†GER 301
German III, Language
3-4-yr. Mn. Req.; Others, Elect.
5 U; 2 Lect. 1 Sem.
This course offers training for students to further improve their knowledge of the German language. It includes composition writing and a systematic repetition of essential problems of grammar, and drills in spoken German. The Programme then concentrates on typical structures of German by comparing essential English and German patterns in order to reduce mistakes which frequently arise from translating English phrases too mechanically into German.

†GER 302
German Literature
3-4-yr. Mn. Req.; Year
4 U; 2 Lect. 1 Sem.
This course concentrates on an important trend, period or author in modern German literature. It will provide the necessary background information on the respective period(s). English is used as a tool language when necessary. The emphasis of the course is not exclusively on literature but also on widening the students' knowledge of German vocabulary and structure.
GER 401
German IV, Language
Year; 5 U; 2 Lect. 1 Sem.
This course provides training in composition, comprehension and spoken language for students already proficient in German. It includes a thorough practice of advanced grammatical and stylistic phenomena. This course is a continuation of GER 301.

GER 402
Special Topic in German Literature or Culture
4 U; 2 Lect. 1 Sem.
This course will deal with an important epoch, the work of a dominant figure, or the development of a particular genre in German literature or culture.

GER 403
German Philosophy, Political Science or Social Science
4 U; 2 Lect. 1 Sem.
This course, which can be taken instead of GER 402, offers a choice of topics in 18th-20th century German philosophy, political currents in Germany and sociological theories in Germany.

Study Scheme
Students minoring in German should take at least 30 units of German courses including the Core courses GER 101, 102, 201, 205, 301, 302, 401, 402.

Students' arrangements are played through during orchestral rehearsals when possible.

MUS 315, 415
3, 4-yr. Elect.
Composition I, II
6 U; 1 Lect.
The student practises writing in forms, styles, and techniques from as many countries and historical periods preceding the 20th Century as time permits. His own ingenuity will be exercised within the limits of the language of various historical periods. The motet, sonata, and rondo are among the many models studied.

The student first explores some of the many 20th Century musical idioms, writing short compositions in polytonality, atonality, seriality, and so on. After these procedures have been thoroughly absorbed, the student will be encouraged to write original pieces. The strength of his original work will come not from adherence to any one system but from his imagination, and a discipline enabling him to organise a set of consistent ideas into a coherent individual language.

General Business Management and Personnel Management

Course Description

(Notes: Unless otherwise specified, all are 3-unit term courses of three hours of lectures per week.)

†GBM 101/102 1-yr. Mn. Req.; Both terms
Introduction to Business
This course aims at providing an introduction to the general concepts of business. It describes the economic, political, social and cultural environment in which managers and organizations function. Major topics include: the framework of business, the basic business functions, managerial functions and other selected business considerations.

†GBM 103/104 1-yr. Mj., Mn. Req.; Both terms
Principles of Management
This course introduces the philosophy of business operations and the framework of decision-making process. The study in organization includes: structural design, mechanics and dynamics of organization and the use of informal organization. The study in management includes functions of management: planning, organizing, staffing, direction and control.

†GBM 105 1-yr. Mj. Req.; Mn., Opt.; Year
Economics for Business Studies 6 U; 3 Lect.
This course gives an elementary treatment of both microeconomics and macroeconomics. It is intended to provide a basic understanding of the structure and function of economic society. Emphasis is placed on the theoretical and empirical analysis of economic behaviour in relation to business decisions.

GBM 021 2-yr. Mj. Req. STOT; Year
Basic Techniques in Business Studies 4 U; 2 STOT/fortnight
This programme aims at equipping the students with conceptual skills in business studies. The environment and systems of business in Hong Kong as well as business ethics and social responsibilities of business organizations are studied. Emphasis is also placed on skills in business research. In addition to reading relevant materials and group discussion, the student learns fundamental research techniques through participating in a mini-scale project undertaken by a small group of students.
†GBM 201/202
Introductory Business Statistics
4 U; 4 Lect.
This course deals with the fundamentals of statistical methods including descriptive statistics, probability, statistical inference from both large and small samples and simple regression and correlation. Application of statistical methods to problems pertaining to business is emphasized throughout the course.

GBM 203/204
Business Communications
2-3-yr. Elect.; Both terms
The course in Business Communications aims to develop the communication skills needed for effective business management. Stress will be given to the practical application of speaking, writing, and listening to English in a business and social context. Students will be asked to take part in solving different kinds of communication problems in business.

*GBM 031
Practice of Human Relations Skills
3-yr. Mj. Req. STOT; Year
2 U; 2 STOT
The course will introduce to students the field of human relations and equip them with some basic skills to handle interpersonal relations problems. Emphasis will be placed on helping students to acquire these skills and to apply them in real-life situations. Through participation in this course, students are expected to be more competent in cooperating with others when they work in modern organizations after graduation.

†GBM 251/252
Production and Operations Management
2-3-yr. Mj. Mn. Req.; Both terms
This course primarily aims at providing the students with production and operations management skills and methods of policy formulation at the introductory level. Major topics include: product design and process selection; design of the forecasting system; capacity planning and facility location; layout of the physical system; quality control system and related problems, job design and work measurement; production planning and scheduling systems; inventory management etc.
Prerequisite: GBM 103/104.

†GBM 301/302
Statistical Analysis for Business Decisions
3-yr. Mj. Req.; Both terms
This course introduces to students selected topics in applied statistics which are useful to business decisions and research. Survey sampling techniques, analysis of variance and multiple regression and correlation are stressed. Prerequisite: GBM 201/202.

* Not offered in 1983-84.
†GBM 303/304  
3-yr. Mj. Req.; Both terms
Operations Research
This course deals with the study of basic quantitative decision making models. Major topics include: background materials in probability theory and mathematical techniques; models of network analysis, optimization, inventory control, linear programming, transportation, games and strategies, Markov analysis, queuing, and simulation. Prerequisites: GBM 103/104 and 201/202.

△GBM 401/402  
3-yr. Mj. Mn. Opt.; Both terms
Managerial Economics

(1) Major Programme

Major students are required to complete no less than 69 units of Major courses comprising 47 units in core courses and 18 units in concentration courses in four years. In addition, they have to complete the Programme of Major-Field-Related Student Orientated Teaching (STOT) as required by the Department.

1st year: Students normally take 3 core courses, GBM 103/104, 105 and ACG 101 for a total of 15 units.

2nd year: Students are usually advised to take the following core courses: GBM 201/202, PMI 221/222. However, GBM 251/252, ACG 305, plus two of the following four courses MKT 201, FIN 301/302, ACG 301 and ITB 201 (or FIN 201/202) may be taken in his/her third year. In addition, they are required to take GBM 021 of the STOT programme.

3rd & 4th year: Students normally take the following core courses: GBM 301/302, 303/304, 415/416, PMI 421/422 and elect a minimum of 6 concentration courses (18 units) in connection with 3 degree examination papers in their Major area. They may, however take 2 of these concentration courses in advance in their 3rd year.

(2) Minor Programme

Minor students are required to take a total of 21 units of courses. Students of the Faculty majoring in any other concentration in the Faculty are exempted from taking GBM 101/102.

1st & 2nd year: Students should take GBM 101/102, 103/104 and PMI 221/222 or GBM 251/252 totalling 9 units. Students minoring in Personnel Management must take PMI 221/222 while those minoring in General Business Management can take either PMI 221/222 or GBM 251/252.

3rd & 4th year: Students should take four concentration courses (3 units each) in their selected minor fields of studies. Students may take PMI 421/422 or GBM 415/416 in lieu of any two concentration courses.
Examination Scheme

(A) General Business Management (1982-83)

(1) Major Programme

All students majoring in General Business Management are required to take the following papers in their Parts I and II Degree Examination: (a) Papers GP1 and GP2, and (b) three papers from Papers G1, G2, G3, G4, G5 and G6.

(2) Minor Programme

Minor students in any areas of concentration other than Personnel Management are required to take two papers from GP2, G1, G2, G3, G4, G5 and G6 in their Parts I and II Degree Examination. Minor students with a major in Personnel Management are required to take two papers from G1, G2, G3, G4, G5 and G6 in their Parts I and II Degree Examination.

Degree Papers

Paper GP1 — Quantitative Analysis
GBM 301/302, 303/304

Paper GP2 — Organizational Behaviour and Business Policy
PMI 421/422, GBM 415/416

Paper G1 — Organization Theory and Management Control
GBM 411/412, 421/422

Paper G2 — Real Estate Management and Service Operations Management
*GBM 423/424, *425/426

Paper G3 — Work Study and Quality Control
GBM 441/442, 437/438

Paper G4 — Managerial Economics and Small Business Management
GBM 401/402, 417/418

Paper G5 — Selected Topics in Quantitative Analysis
GBM 451/452, 453/454

Paper G6 — R & D Management and Management Systems
GBM 403/404, 405/406

(B) Personnel Management

(1) Major Programme

All students majoring in Personnel Management are required to take the following papers in their Parts I and II Degree Examinations: (a) GP1 and GP2, and (b) three papers from P1, P2, P3, P4 and P5.

* Not offered in 1983-84.
(2) Minor Programme

Minor students majoring in any areas of concentration other than General Business Management are required to take two papers from GP2, P1, P2, P3, P4 and P5 in their Parts I and II Degree Examination. Minor students with a major in General Business Management are required to take two papers from P1, P2, P3, P4 and P5.

Degree Papers

Paper GP1 — Quantitative Analysis
GBM 301/302, 303/304

Paper GP2 — Organizational Behaviour and Business Policy
PMI 421/422, GBM 415/416

Paper P1 — Industrial Relations and Labour Law
PMI 431/432, 435/436

Paper P2 — Compensation Management and Supervisory Management
PMI 433/434, 437/438

Paper P3 — Personnel Psychology and Communication Theory
PMI 411/412, 441/442

Paper P4 — Industrial Safety and Personnel Training
PMI 413/414, 415/416

Paper P5 — Employment and Performance Appraisals
PMI 401/402, 403/404
Marketing and International Business

Course Description

(Notes: Unless otherwise specified, all are 3-unit term courses of three hours of lectures per week.)

†MIB 021 2-yr. Mj. Req.; STOT; 1st term
Written Case Analysis 2 U; 2 STOT
Case analysis has become a standard tool of management education. Students are required not only to analyze the selected local cases orally and in writing, but also to develop business cases as part of their course work.

†MIB 022 2-yr. Mj. Req.; STOT; 2nd term
Current Business Issues 2 U; 2 STOT
The course is designed to provide the students with a chance to pick up and study in depth some of the issues that have a profound effect on the business firms in Hong Kong. Through this course, students can integrate the knowledge acquired in books to solving the practical problems encountered in the real world. Students are required to select an issue and investigate it under the supervision of a teacher and present their reports.

†MIB 041 4-yr. Mj. Req.; STOT; Year
Senior Project 4 U; 2 STOT
The primary objective of Senior Project is to strengthen fourth year students' research abilities and analytical skills in dealing with the current problems in the areas of Marketing and International Business Management.

Senior students will be assigned to a number of small groups under the direct supervision of faculty members, depending on their research interest and the faculty members’ specialized field.

†MKT 201 2-yr. Mj. Mn. Req.; Both terms
Marketing Management
This course is a descriptive and analytical study of marketing institutions and functions. Subjects include: the nature and significance of marketing; basis of trade; the consumer in the market place; market information; retailing and wholesaling consumer’s goods; marketing industrial goods and raw materials; product, price and selling policies; marketing and economic development. Prerequisite: GBM 103/104.

†MKT 202 3-4-yr. Mj. Mn. Opt.; Both terms
Marketing Research
The basic concepts of marketing research and its contribution to effective marketing management. Research procedures, performance
analysis, motivation research, product research and advertising. Prerequisites: MKT 201, GBM 201/202.

△MKT 301
Selected Topics in Marketing Research
This course comprises discussions in depth of topics essential to doing good research and techniques extensively used in marketing research. The topics include: advanced experimental designs; attitude measurements; theory construction; advanced sampling designs; advanced data collection methods; multivariate statistical techniques; international marketing research techniques; and other topics that may be suggested by the individual instructor. Prerequisite: MKT 202.

△MKT 302
Consumer Behaviour
Application of principles and techniques of behavioural science to marketing problems. Topics include: sociological and psychological aspects of consumer behaviour, product adoption and diffusion; fashion theory, household decision-making, individual consumer decision-making; shopping behaviour, brand loyalty; advertising effect; and macroeconomic aspects of consumer behaviour. Prerequisites: MKT 201, GBM 201/202.

△MKT 303
International Market Analysis
Environmental factors impinging on international marketing, such as cultural and business customs, economic development, political factors, and multinational market groups; international marketing research including methods for estimating market potentials and market survey. Prerequisites: MKT 201, ITB 201.

△MKT 304
International Marketing Management
The use of the managerial approach as the basis for decision-making in international marketing management. Topics covered include: planning and organizing for international marketing, decisions on product, pricing, channel and promotion, and coordinating and controlling world marketing operations. Prerequisite: MKT 303.

△MKT 305
Advertising
An analysis of advertising problems from the management point of view in such major areas as the determining of advertising objectives, the developing of appropriate copy, choice of advertising message, media selection, evaluation of advertising effectiveness, coordination of advertising with other aspects of sales promotion, and agency-client relationship. Prerequisite: MKT 201.
\( \text{MKT 306} \)
Sales Management
The nature of personal selling, determination of the amount and allocation of personal sales effort to be applied to the market and methods of organizing, evaluating and controlling this effort. A critical evaluation of current practice in selecting, training, compensating, supervising salesmen. Prerequisite: MKT 201.

\( \text{MKT 307} \)
Salesmanship
The purpose of this course is to familiarise students with principles and practices of effective personal selling. Topics include: the functions of personal selling, communication with buyers, pre-sales preparation, approach of prospects, negotiation, ways to handle objections and complaints, closing sales, after-sales services, salesman ethics, etc. This course also emphasises role-playing, brain storming and case studies. Prerequisite: MKT 201

\( \text{MKT 308} \)
Market and Sales Forecasting
The course aims at introducing theories and applications of forecasting in marketing with emphasis in sales management. Topics include: the measurement of market and sales potential, regression analysis, time series analysis, judgement method, executive and expert opinion method, field sales composite method, buyer opinions survey, input and output analysis, etc. Emphasis is placed upon the forecasting of selected industrial and consumer products in Hong Kong and the use of canned computer programmes. Prerequisite: MKT 201, GBM 201/202.

\( \text{MKT 401} \)
Marketing Policy
The objective of this course is to acquaint students with the concepts and tools in developing and evaluating marketing policy in business firms. The topics covered include: product policy, channel policy, pricing policy, and promotional policy. Prerequisite: MKT 201.

\( \text{MKT 402} \)
Industrial Marketing
The course is concerned with both the national and international aspects of the marketing of industrial products. Topics include: industrial market research, industrial sales forecasting, industrial buyer behaviour, industrial buying process, industrial product distribution, product decisions, pricing decisions, product promotion and advertising, salesforce decisions, and new product decisions. Cases will be used in all topics. Prerequisite: MKT 201.
△MKT 403  
Marketing Theory  
Application of theories of marketing, economics and other behavioural sciences to the decision-making process in marketing. Prerequisite: MKT 201.

△MKT 404  
Quantitative Marketing Decisions  
Application of quantitative methods to decision-making in marketing management. Topics include both macro- and micro-marketing decision models. Prerequisites: MKT 201, GBM 301/302.

△MKT 405  
Retailing  
The course covers six main sections: (1) Trading areas and selection of store location and store site. (2) Retail productivity and scale economies. (3) Horizontal and vertical channel conflicts in retailing. (4) Retailer-customer relations. (5) Retailing management. (6) Retail evolution trend. Prerequisite: MKT 201.

△MKT 406  
Service Marketing  
The course is divided into 3 parts. Part one includes discussions on the economic and sociological aspects of services. Part two is a review of the concepts in service marketing. It consists of the operating system, level, distribution, pricing and promotion of services. Part three is a speculation on the international opportunities for service operations. Special emphasis will be laid on the Hong Kong economy. Prerequisite: MKT 201.

†ITB 201  
Introduction to International Business  
This course studies the nature, form, and scope of international business, with focus on the multinational corporation. Detailed analysis of foreign environments and major types of international business activities, including exporting, direct investment, technical licensing, and other contractual arrangements. Management strategies for such key areas as organization, control, ownership, and marketing will also be discussed. Prerequisite: GBM 103/104.

△ITB 301  
Economics of International Business  
Basic economic theories relating to international trade and investment
and the application of these theories as they relate to businessmen operating in the international economy. Major topics include: balance-of-payments, foreign exchange market and exchange controls, international currency problems, trade policies and restrictions, and foreign direct investment. Prerequisite: ITB 201.

△ITB 302 3-4-yr. Elect.; 2nd term
International Business and Economic Development
A preliminary survey of concepts, theories, and strategies of economic development; the economic, social and political factors that affect international business operations in countries at different stages of development; and the analysis of the merits and demerits of multinational enterprises for national economic development and international economic integration. Prerequisite: ITB 201.

△ITB 303 3-4-yr. Elect.; 1st term
Import-Export Business
Motivations for importation and exportation: sales factors, cost factors and risk factors. Activities handled by own staff or through contracts with other firms: market research, sales promotion, credit investigations, payment methods, collection functions, foreign traffic and shipping functions, and support to sales, distribution and advertising staff of the firm. The environment of Hong Kong's import-export business. Prerequisite: ITB 201.

△ITB 304 3-4-yr. Elect.; 2nd term
International Financial Management
Various aspects of financial planning and management for enterprises with overseas operations. Major topics include: international financial environment, analysis of sources and commitment of long-term corporate funds to international ventures, financial management of multinational firms in protection of earnings and assets, and taxation, transfer-pricing and control problems in operations abroad. Prerequisite: ITB 201.

△ITB 401 3-4-yr. Elect.; 1st term
Managing the Multinational Corporation
Management philosophies, strategies and practices in various functional areas as experienced by the multinational corporation are given detailed analysis in the light of the environmental conditions it faces. Prerequisite: ITB 201.

△ITB 402 3-4-yr. Elect.; 2nd term
International Business Policy
Historical, economic, cultural and political foundations that affect
the various policy decisions in international business operations. Prerequisite: ITB 201.

△ITB 403
3-4-yr. Elect.; 1st term
Legal Aspects of International Business
Important legal concepts underlying the conduct of business across national boundaries. Legal problems relating to both trade and investment are considered. The relationships between a business organization and its suppliers, customers, employees and the home and host governments. Prerequisite: ITB 201.

*△ITB 404
3-4-yr. Elect.; 2nd term
Comparative Management Systems
Study of the effects of environmental and cultural factors on the management of business enterprises in many different areas of the world. Several different concepts of the manager's role in society are considered, with examples from countries at different stages of economic and social development. Prerequisite: ITB 201.

3-4-yr. Elect.; 1st term
China's Foreign Business Operations

*△ITB 406
3-4-yr. Elect.; 2nd term
Asian Business
The technical, economic, political and social environments of Asian countries, specially those with heavy direct foreign investments. The cultural and historical factors leading to these conditions. Their government-business tie-up and management systems. Prerequisite: ITB 201.

*△ITB 407
3-4-yr. Elect.; 1st term
Seminar in Transnational Corporations
This course emphasizes the observation of how business concepts are applied in transnational corporations. A number of locally based transnational corporations will be selected for in depth analysis. The analysis will consist of gathering primary and secondary information culminating in a written case report and oral presentation.

△ITB 408
3-4-yr. Elect.; 2nd term
Seminar in China's Management Systems
This course aims to study the management systems of the Peoples' Republic of China and the problems related to planning, organization,

controlling, production, marketing, finance, personnel and international operations.

Study Scheme

(1) Major Programme
A Major student is required to obtain at least 69 units in four years:
1st year: The student is required to take the core courses, ACG 101, GBM 103/104, 105 (or its equivalent), for a total of 15 units.
2nd year: The student is required to take the core courses, MIB 021, 022, GBM 201/202, MKT 201, 202, ITB 201 for a total of 17 units.
3rd year: In addition to the core courses, FIN 301/302, GBM 301/302, 303/304 for 9 units, the student can select from the 3rd and 4th years' concentration courses for certain units. (Third year students are advised to take third year courses.)
4th year: In addition to the core course, MIB 041, for 4 units, the student can select from the 3rd and 4th years' concentration courses for certain units.

(2) Minor Programme
A Minor student is required to obtain at least 21 units. The student should take 9 units in the 1st and 2nd years including the core courses GBM 101/102, 103/104 plus either MKT 201 (Marketing Minor) or ITB 201 (International Business Minor) and in the 3rd and 4th years should select from concentration courses for the other 12 units.

Examination Scheme

(A) Marketing

(1) Major Programme
All students majoring in Marketing are required to take Paper GP-1 and four papers from M-2, M-4, M-5, M-6, M-7, M-8 and M-9 in their Parts I and II Degree Examination.

(2) Minor Programme
All students minoring in Marketing are required to take any two papers from Papers M-2, M-4, M-5, M-6, M-7, M-8 and M-9.

Minor students must have passed GBM 101/102, 103/104 and MKT 201 before attempting Degree Papers required of a Marketing Minor. However, Major students of the Faculty of Business Administration are exempted from taking GBM 101/102.
Degree Papers

Paper GP-1  Quantitative Analysis
        GBM 301/302, 303/304
Paper M-2  International Marketing
        MKT 303, 304
Paper M-4  Marketing Policy and Industrial Marketing
        MKT 401, 402
Paper M-5  Marketing Theory and Quantitative Marketing Decisions
        MKT 403, 404
Paper M-6  Retailing and Service Marketing
        MKT 405, 406
Paper M-7  Marketing Research and Forecasting
        MKT 301, 308
Paper M-8  Advertising and Consumer Behaviour
        MKT 305, 302
Paper M-9  Sales Management and Salesmanship
        MKT 306, 307

(B) International Business

(1) Major Programme
All students majoring in International Business are required to take in their Parts I and II Degree Examination Paper GP-1 and four papers from I-1, I-2, I-3, I-4, I-5, I-6 and M-2.

(2) Minor Programme
All students minoring in International Business are required to take any two papers from Papers I-1, I-2, I-3, I-4, I-5, I-6 and M-2.

Minor students must have passed GBM 101/102, 103/104 and ITB 201 before attempting Degree Papers required of an International Business Minor. However, major students of the Faculty of Business Administration are exempted from taking GBM 101/102.

Degree Papers

Paper GP-1  Quantitative Analysis
        GBM 301/302, 303/304

FACULTY OF MEDICINE

For the year 1983/84, the Faculty offers two years of Pre-clinical courses and Clinical Year 1 courses.

Course Description

Pre-clinical Courses
The Pre-clinical courses consist of four subjects: Anatomy, Physiology, Pharmacology, and Biochemistry, extending over two academic years. In addition, there are introductory courses consisting of three topics: ‘Mind, Body and Behaviour’, ‘Man, Medicine and Society’, and ‘Statistics in Medicine’, given only during the first pre-clinical year. Each academic year is of 33 weeks in duration and divided into two terms. The curriculum will be integrated as far as possible between subjects and the teaching will be by means of lectures, laboratory classes and tutorials. All students will be required to take courses in General Education, General Chinese, General English and Physical Education in compliance with University requirements. Assessment of individual subjects will be made periodically throughout the course. Towards the end of the first pre-clinical year, an examination will be held on all subjects and the introductory courses. The first part of the degree examination will be held at the end of the second pre-clinical year and will include the four main subjects.

PCL 101/201
Anatomy
During the first year, human gross anatomy will be studied mainly by dissection and this will be correlated with surface and radiological anatomy in tutorials. In addition, cell biology and microscopic anatomy of tissues and organ systems will be taught in the first part of the year, followed by a course in human developmental anatomy.

In the second year, the main subject studied will be neuroanatomy after which the course in developmental anatomy will be completed, including congenital abnormalities and genetics.

The teaching will be by means of lectures, demonstrations, tutorials and practical classes and an emphasis will be placed upon the functional and clinical relevance of anatomical knowledge.

PCL 111/211
Physiology
The topics taught during the first year include general physiology, nutrition, physiology of the gastro-intestinal tract, cardiovascular system, respiratory system and the kidneys. Teaching during the second
year covers endocrinology including reproduction, neurophysiology and integrated topics. It is an important teaching aim of the physiology course to lay the foundation for a good understanding of the pathophysiology of diseases. Physiology will be taught in lectures, practical classes and tutorials with a strong emphasis on small group teaching.

PCL 221
Pharmacology

The overall aims of the course are to provide the scientific basis for the use of drugs and to develop the appropriate attitudes to ensure rational drug therapy.

Pharmacology will be taught in the second pre-clinical year although elementary pharmacological ideas will be introduced, where relevant, during the first year courses of Behavioural and Social Sciences, Biochemistry and Physiology.

The pharmacology course will comprise of lectures, tutorials, practical classes, student presentations and class discussions. The course will give an elementary treatment of both pharmacokinetic and pharmacodynamic principles and it will include consideration of the pharmacokinetic factors which determine drug dosage and their modification by pathological and pharmacological events, the modes of action of drugs in common clinical use and elementary aspects of toxicology. In the latter part of the course there will be increasing participation in the inter-disciplinary clinical presentations as preparation for the course of Clinical Pharmacology which will follow.

PCL 131/231
Biochemistry

This course is designed to acquaint students with the biochemistry necessary for an understanding of the molecular basis of medicine. Fundamental biochemical concepts are introduced through a consideration of the chemical facets of tissue function. Subjects covered include the biochemistry of the vascular, alimentary, endocrine, musculoskeletal, immune and nervous systems. Topics in molecular biology relevant to medicine are also introduced. Lectures are supplemented by practical classes, tutorials and audio-visual material. The application of biochemistry to the analysis of health-related problems is emphasised.

PCL 141
Introductory Course in Behavioural and Social Sciences

(a) Mind, Body and Behaviour

This course aims at studying man as an individual adapting to his psychological, physical, and interpersonal environment. The emphasis will be on those aspects of human behaviour relevant to medical
practice. The topic areas will include normal and abnormal psychological functioning, stages of human development, biological rhythms, human sexuality, the meaning of behaviour, body-mind connections, stress and adaptation, concept of disease, sick role and illness behaviour, compliance and attribution, human communication and interviewing techniques, and interpersonal relationship and group processes.

It is to be introduced throughout the first year by means of lectures, small group tutorials and/or seminars. In appropriate circumstances, clinical demonstrations as well as laboratory and field work will be introduced.

(b) *Man, Medicine and Society*

This first year course considers people as members of communities and of society as a whole, drawing contrasts with individual people considered as biological organisms (anatomy, physiology, biochemistry etc.) and as personalities (Mind, body and behaviour).

The course points out that groups of people must be studied in order to decide which individuals are "healthy" or "normal", or the opposite.

The structures of society are discussed, with special attention to their influence on health and disease; aspects such as family, housing, work and personal habits are considered. The influence of doctors and other health workers, in the past and the present, on the health of individual people and population groups is also discussed.

Teaching will include small group seminars, lectures and clinical examples.

(c) *Statistics in Medicine*

This brief introductory course in the first year begins by discussing biological variability and variations within and between observers of biological phenomena. Methods of analysing biological data are described using students' experiments in physiology and pharmacology and also clinical examples.

Students will be shown how to assess and interpret published laboratory and clinical research as well as routine vital statistics. Basic concepts of sampling and epidemiological methods will be introduced.
Clinical Courses

The three Clinical years of study will have classes held at the teaching hospital in Shatin in the various clinical departments. Each academic year is of about twelve months duration from July to June. Further Professional Examinations will be held during Clinical years.

(Clinical Year 1)

CLN 301
Introduction to Clinical Problem Solving
This course will concentrate on introducing the students to clinical methods and acquiring the techniques of clinical examination. This period will also enable the students to grasp the approach to different clinical problems and to see how history taking and examinations can help evaluate and solve them.

CLN 311 and CLN 321
Junior Medical and Surgical Clerkship
During this time students will be allocated to medical and surgical wards and will be taught to take histories and examine patients on a daily basis and subsequently to present their findings to their colleagues and their clinical teachers.

CLN 331
Co-ordinated Clinical Lectures
These lectures will be given by members of all the Clinical Departments and will be carefully co-ordinated with the on-going Pathology course (Chemical Pathology, Microbiology, and Morbid Anatomy), lectures being held throughout the year.

CLN 341
General Pathology
This course introduces the pathological basis of disease in man, and is based upon pre-clinical studies in anatomy, biochemistry, pharmacology and physiology. It deals with the basic principles and mechanisms of tissue and bodily reactions to injury and the morphological, functional and chemical expression of these reactions. The course includes studies in morbid anatomy, histopathology, hematology, chemical pathology, microbiology, parasitology and immunology.

CLN 342
Systemic Pathology
This course is a continuation of the course in General Pathology. It is designed to provide a survey of diseases based upon the functional disorders of body systems. Selected topics in Chemical Pathology,
Microbiology and Morbid Anatomy will be presented in co-ordination with Course CLN 331 Co-ordinated Clinical Lectures. Emphasis will be given to correlation of pathological changes with clinical signs and symptoms. The principles of laboratory investigations will be covered. There will be lectures, laboratory sessions, post-mortem demonstrations, and clinico-pathological conferences.
FACULTY OF SCIENCE

Biochemistry

Course Description

†BCH 021
Frontiers in Biochemistry
STOT; 2nd term; 1 U; 1 STOT
This course attempts to introduce to the students, before they have had much formal training in Biochemistry, topics in the field which are of current scientific and medical significance. The aim is to stimulate and reinforce the student's interest in his chosen field of study as well as to alert them to recent developments in Biochemistry and their relevance. Contents will of necessity vary from year to year, coverage at an elementary level. All Departmental staff will take part.

†BCH 210
Introduction to Biomolecules
1st Term: 3 U; 3 Lect.
2nd Term: 1 U; 1 Lect.
2-yr. Mj. Req.; Year
This course attempts to acquaint the beginning students with basic chemical knowledge relevant to the understanding of biological systems. Constituent molecules of living systems will be described with emphasis on structures and properties. Certain biological functions will be discussed in relation to their structures.

†BCH 290
Introduction to Biomolecules (I)
Laboratory
3rd Term: 3 U; 1 Lect. 4 Lab.
2-yr. Mj. Req.; 1st term
This laboratory course is designed for beginning majors to acquaint with basic biochemical techniques and methods. Their application in the study of the structures and properties of carbohydrates, lipids, proteins and nucleic acids are illustrated in the experiments. Quantitative aspects are emphasized whenever applicable.

†BCH 211
Principles of Biochemistry (I)
(for Majors only)
2-yr. Mj. Req.; 2nd term
2 U; 2 Lect.
This course introduces the principles of bioenergetics, the properties of enzymes and the metabolism of carbohydrates and lipids with special emphasis on their control mechanisms. Other topics, such as oxidative phosphorylation and photosynthesis will also be discussed.

†BCH 221
Introductory Biochemistry
2-yr. Mn. Req.; Year
4 U; 2 Lect.
This course attempts to acquaint the beginning students with the basic concepts in Biochemistry such as cellular organization and function and to promulgate the impact of biochemistry on man and his future.
Topics discussed in the first term will include such subjects as pH, water, aspects of energy flow, man's adaptation to nature and the effect of environmental factors on man's biological and behavioural responses. The second term will be devoted to considering the chemical and structural aspects of biological molecules such as carbohydrates, lipids, amino acids, proteins, purines and pyrimidines, nucleic acids and vitamins.

†BCH 281 2-yr. Mn. Req.; 2nd term
Introductory Biochemistry Laboratory 2 U; 4 Lab.
This laboratory course is designed for minor and elective students in their first year of studies in biochemistry. Basic techniques are introduced.

†BCH 311 3-yr. Mj. Req.; 1st term
Principles of Biochemistry
(for Majors only)
This course presents a general study of the phenomenon of life by chemical approach with special emphasis on metabolism and control of metabolism. The topics cover the metabolism of carbohydrates, lipids, amino acids, purines and pyrimidines, nucleosides and nucleotides. The kinetics and catalytic properties of enzymes, bioenergetics, biosynthesis of macromolecules and biochemical genetics will also be discussed. The practical work is given in BCH 312 & 392.

†BCH 321 3-yr. Mn. Req.; Year
Principles of Biochemistry
(for Minors only)
This course presents similar material as given in BCH 311 but is designed for minor and elective students.

†BCH 381 3-yr. Mn. Req.; Year
Principles of Biochemistry Laboratory
(Minor)
This course will attempt to acquaint the students with the principles and practice of basic biochemical techniques such as the purification and characterization of proteins and enzymes, nucleic acids, lipids and carbohydrates; electrophoresis; column, paper, thin-layer and gas chromatography. (see BCH 321)

†BCH 312 3-yr. Mj. Req.; 1st term
Analytical Biochemistry
2 U; 2 Lect.
This course, aiming at experimental competence with biological systems and their components at a quantitative level, covers the following: Chromatographic and electrophoretic methods, differential centrifugation, liquid scintillation counting, Warburg Manometry, UV and fluorescence spectrophotometry, purification and characterization of lipids,
hormones and enzymes, DNA and RNA; and a small project of research interest.

†BCH 392
Analytical Biochemistry Laboratory
3-yr. Mj. Req.; 1st term
4 U; 8 Lab.
The laboratory course serves to provide basic training in biochemical techniques. Students will learn the application of different biochemical methods in the qualitative and quantitative estimation of biologically active molecules.

†BCH 041
Guided Studies in Biochemistry
4-yr. Mj. Req.; STOT
Year; 4 U; 2 STOT
Students participating in this course are required to submit oral and written reports on current topics in biochemical literature or where applicable, on research work carried out under the supervision of a faculty adviser.

†BCH 411
Proteins and Enzymes
4-yr. Mj. Mn. Req.
1st Term; 3 U; 3 Lect.
This course discusses topics such as the physical properties of proteins, their structural determination and chemical synthesis. The study of enzymes, particularly with respect to the probing of active sites, mechanisms of catalysis and regulation of enzyme activities will be emphasized. The chemical and functional aspects of proteins such as the tropic hormones and antibodies will also be considered in detail. (see BCH 491)

†BCH 491
Proteins and Enzymes Laboratory
4-yr. Mj. Mn. Req.; 1st term
3 U; 1 Lect. 4 Lab.
This course emphasizes instrumental analysis such as pH-stat, spectrophotometric titrations employed in protein chemistry, molecular weight determinations of macromolecules. (see BCH 411)

†BCH 412
Clinical Biochemistry
3-4 yr. Mj. Opt.; 2nd term
3 U; 3 Lect.
This course presents the basic principles in clinical biochemistry and its methodology. Tests of functions will be described.

†BCH 492
Clinical Biochemistry Laboratory
3-4 yr. Mj. Opt.; 2nd term
2 U; 4 Lab.
Relevant assays of biochemical constituents in body fluids will be performed.

†BCH 413
Endocrinology
3-4 yr. Mj. Opt.; 2nd term
3 U; 3 Lect.
This course emphasizes the structure-function relation of catechola-
mines, steroid, peptide and hypothalamic hormones. The regulatory role of hormones in physiological and biochemical processes will be discussed in detail.

†BCH 493  
Endocrinology Laboratory  
3-4 yr. Mj. Opt.; 2nd term  
2 U; 4 Lab.
This laboratory course serves to demonstrate the biological effects of hormones. Students will also learn to quantitate hormones from live animals by biological and chemical methods.

†BCH 415  
Radioisotope Application in Biological Science  
3-4 yr. Mj. Opt.; 2nd term  
3 U; 3 Lect.
This course is designed to acquaint students with the principles and applications of radioisotopes in the biological sciences. Topics to be covered will include safety precautions, nature of radioactive decay, counting equipments, counting techniques, tracer applications and kinetics in addition to specific examples of applications.

†BCH 495  
Radioisotope Application in Biological Science Laboratory  
2 U; 4 Lab.
Experiments designed to demonstrate the safe handling of radioactive materials, the counting of radioactivity and the use of radioisotopes in biological studies will be performed.

*†BCH 416  
Carbohydrates and Lipids  
3-4 yr. Mj. Opt.; 2nd term  
3 U; 3 Lect.
This course presents a survey of recent advances in chemistry and biochemistry of carbohydrates and lipids. Relevant emphasis will be placed on the relationship of structure and biological functions. Research techniques concerned will also be discussed.

*†BCH 496  
Carbohydrates and Lipids Laboratory  
2 U; 4 Lab.
The content of this course will emphasize experimental techniques specifically related to carbohydrates and lipid biochemistry.

†BCH 417  
Neurochemistry  
3-4 yr. Mj. Opt.; 2nd term  
3 U; 3 Lect.
This course will discuss the structure and composition of nervous tissue in relation to its functions. Aspects of metabolism special to the nerve and brain will be examined. These include energy metabolism, water

and electrolyte balance, exchanges between blood and brain, and between brain and cerebrospinal fluid, neurotransmitters and modulators, nutrition and development of the nervous system, neuroendocrinology and the biochemistry of mental diseases.

†BCH 497
Neurochemistry Laboratory
3 U; 1 Lect. 4 Lab.
This course will consist of a set of experiments to illustrate various biochemical techniques for the study of neurochemistry.

†BCH 418
Physical Biochemistry
4-yr. Mj. Req.; 1st term
3 U; 3 Lect.
This course deals with the application of physical principles in biochemistry and discusses topics such as the energetic basis of life process, water and electrolytes, diffusion and transport processes and physical methods such as ultracentrifugation, viscosimetry, light scattering, circular dichroism, optical rotatory dispersion and X-ray diffraction.

†BCH 498
Physical Biochemistry Laboratory
4-yr. Mj. Req.; 1st term
2 U; 4 Lab.
This course consists of the experimental application of the physical principles enunciated in BCH 418 to the determination of the shape and size of macromolecules. The use of viscosimetry, fluorometry, optical rotatory dispersion and light-scattering will be emphasized.

†BIO 410
Molecular Biology
2nd term; 3 U; 3 Lect.
This course considers the nature of gene at the molecular level. The structure, organization, synthesis and biological activities of DNA, RNA with special reference to regulation of RNA and protein biosynthesis will be discussed. Attention will be directed particularly to current concepts and methods of reasoning where applicable.

†BIO 490
Molecular Biology Laboratory
2nd term; 2 U; 4 Lab.
In the laboratory practicals, the techniques in handling bacterial virus, DNA and RNA preparation, and DNA-RNA hybridization method will be introduced.

†BIO 428
Plant Biochemistry
2nd term; 3 U; 3 Lect.
Emphasis of this course will be placed on the biochemical processes which are unique to plants such as the fixation, reduction and assimilation of carbon dioxide and inorganic nitrogenous compounds. Other topics will be the effect of light on plant metabolism other than photosynthesis, and the biochemistry of cell wall substances with special reference to controlling mechanisms in the synthesis of these substances in relation to plant differentiation.
†BIO 488

Plant Biochemistry Laboratory
2 U; 4 Lab.
This laboratory course accompanies course BIO 428.

Study Scheme

(1) Major Programme
First year potential majors are required to elect BIO 103/193, CHM 101 and CHM 181 during the first year; and one of the following during the first or second year: PHY 103/104 (plus PHY 181/182), PHY 121/122, PMA 111, and PMA 101.

Second year majors are required to elect BCH 021, BCH 210, BCH 211 and BCH 290, CHM 225/226 and CHM 287. Students who do not take Biology as a minor subject must also elect one course in Biology in his second year.

Third year students must take BCH 311, BCH 312, BCH 392 plus at least one of the core optional courses.

Fourth year students are required to take BCH 041, BCH 411, BCH 491, BCH 418, BCH 498 plus at least one of the core optional courses.

(2) Minor Programme
Students who take Biochemistry as a minor subject are required to elect the following courses: BCH 221 and BCH 281 in their second year, BCH 321 and BCH 381 in their third year and BCH 411 and BCH 491 in their final year.

Examination Scheme

(1) Major Programme
All 6-2 Majors are required to take: (a) Papers 1A and 2, and one paper from Papers 5, 6, 7, 8, 9, 10 and 11 in their Part I Examination, and (b) Papers 3 and 4, and one paper from Papers 5, 6, 7, 8, 9, 10 and 11 in their Part II Examination.

All 4-2-2 Major are required to take Papers 1A and 2 in their Part I Examination and Papers 3 and 4 in their Part II Examination.

(2) Minor Programme
All students minoring in Biochemistry are required to take Paper 1B in their Part I Examination and Paper 3 in their Part II Examination.

Biology

Course Description

3 U; 3 Lect.
This course is offered jointly by the Departments of Biochemistry, Chemistry and Biology. It is intended to provide a treatment, in breadth rather than in depth, which covers the environment for life, the nature, origin and continuity of life, the fundamental chemical structure of materials, the diversity of and interactions among organisms, together with some implications of the products of chemical technology for life. Demonstrations and field work may replace or supplement some lectures.

A knowledge of science (e.g. up to the level of Certificate of Education) will not be assumed.

BIO 101 Fundamentals of Life 1-yr. Mn.Opt.; 1st term
2 U; 2 Lect.
This course emphasizes the study of the four basic areas fundamental to biology, namely, the cell, the gene, evolution and theories on origin of life. Simple treatment of coordination at the organismic level by means of chemical and nervous control will also be included.

BIO 102 Human Biology 1-yr. Mn.Opt.; 1st term
2 U; 2 Lect.
This course introduces the study of man as a zoological species, through the examination of the extant primates and fossils, and biochemical evolution of mankind. The concept that humans, like all other biological species, exhibit variation will be dealt with. The importance of these variations in adapting to environmental stress will be discussed. Much of the course, therefore, will outline the wide range of adaptive power that humans possess with particular emphasis on the plasticity of human adaptability as a factor contributing to the success of mankind. The final part will treat man as a social animal and discuss the possible future of man in the light of his present activities.

BIO 191 Principles of Biology Laboratory 1-yr. Mn.Opt.; 1st term
1 U; 3 Lab.
To accompany BIO 101 and BIO 102. Stress is laid upon the development of scientific method.

BIO 103 Environment and Man 1-yr. Mn.Opt.; 2nd term
2 U; 2 Lect.
This course aims at studying the impacts of man's activities on his environment. The major environmental problems and their possible solution will be discussed.
BIO 193
Environment and Man Laboratory
1-yr. Mj,Mn.Opt.; 2nd term
To accompany BIO 103. Three or four class projects will be undertaken in laboratory and field sessions.

BIO 104
Microbes and Man
2 U; 2 Lect.
This course is intended to provide students with a basic knowledge of bacteria, virus and fungi. Injury to humans due to these micro-organisms, and the applications of these micro-organisms for human welfare will be discussed.

BIO 194
Microbes and Man Laboratory
1-yr. Mj,Mn.Opt.; 2nd term
1 U; 3 Lab.
To accompany BIO 104.

BIO 207
Plant Biology
2-yr. Mj,Req.,Mn.Opt.; Year
6 U; 3 Lect.
This course discusses the morphological, structural and physiological changes as well as the ecological adaptation which occur in the lower plants leading to the higher plants. The relationship of form and function is emphasized so that students can appreciate the various structural and functional changes which are of evolutionary significance. The economic and applied aspects of plants are also discussed.

BIO 297
Plant Biology Laboratory
2-yr. Mj,Req.,Mn.Opt.; Year
2 U; 3 Lab.
To accompany BIO 207.

BIO 208
Animal Biology
2-yr. Mj,Req.,Mn.Opt.; Year
6 U; 3 Lect.
A comprehensive treatment of the animal with "form and function" emphasis. Topics include the morphology, anatomy, ecology, development and life history and phylogenetic relationships of various groups of animals. The function of organ systems will be discussed with reference to the adaptations in relation to the mode of life of the animal.

BIO 298
Animal Biology Laboratory
2-yr. Mj,Req.,Mn.Opt.; Year
2 U; 3 Lab.
To accompany BIO 208.

†BIO 301
Principles of Ecology
3-4-yr. Mj. Req., Mn. Opt.; 1st term
3 U; 3 Lect.
This course deals with the general principles of ecology which apply to both plants and animals. It includes a general analysis of the physical, chemical, and biological environmental factors and their relation to
organisms; population development; intraspecific and interspecific relations; communities and community types, with an introduction to bio-geography. The significance of ecology is stressed in its application to modern environmental problems.

†BIO 391
To accompany BIO 301.
2 U; 4 Lab.

†BIO 302
Plant Anatomy 3-4-yr. Mj. Mn. Opt.; 1st term
3 U; 3 Lect.
The course offers comparative studies of the structure of seed plants with emphasis on the angiosperms, origin and differentiation of different tissues and organs and relation of structure to function.

†BIO 392
Plant Anatomy Laboratory 3-4-yr. Mj. Mn. Opt.; 1st term
2 U; 4 Lab.
Laboratory studies include prepared slides and fresh plant materials from which students are required to make temporary preparations.

†BIO 303
Principles of Embryology 3-4-yr. Mj. Mn. Opt.; 1st term
3 U; 3 Lect.
This course deals with the general principles and patterns of animal development with emphasis on mechanisms and experimental analyses. Topics will include: gametogenesis, fertilization, cleavage, gastrulation, early mammalian development, organogenesis, postembryonic development, metamorphosis, and regeneration. Selected current topics in developmental biology will also be discussed.

†BIO 393
Principles of Embryology Laboratory 3-4-yr. Mj. Mn. Opt.; 1st term
To accompany BIO 303.
2 U; 4 Lab.

‡BIO 304
Environmental Biology 3-4-yr. Mj. Mn. Opt.; 2nd term
3 U; 3 Lect.
This course deals with the relations between population, resources, and environment; stressing particularly the ecological viewpoint on such resources as agriculture, nature conservation, and energy supply and use, together with their waste products.

‡BIO 394
Environmental Biology Laboratory 3-4-yr. Mj. Mn. Opt.; 2nd term
To accompany BIO 304.
2 U; 4 Lab.

*‡BIO 305
Animal Histology 3-4-yr. Mj. Mn. Opt.; 2nd term
3 U; 3 Lect.
This course is microscopic study of the animal body. The structure and

* Not offered in 1983-84.
physiological function of different tissues, namely, epithelial tissue, connective tissue, muscular tissue and nervous tissue are discussed. This is followed by the presentation of the various tissues that are closely associated with the structure of organ systems namely, circulatory system, skin, respiratory system, digestive system, urinary system, male and female reproductive systems, organ of special senses and central nervous system.

*†BIO 395
Animal Histology Laboratory
To accompany BIO 305.

†BIO 306
Entomology
This course mainly deals with general entomology, insect physiology and applied entomology.

†BIO 396
Entomology Laboratory
Laboratory periods include the study of classification, morphology, anatomy, and physiology of insects, and field trips.

†BIO 307
Microbiology
This course is designed to introduce the students to the biology of microorganisms, with emphasis on bacteria. The lectures cover the survey of microbial morphology, structures, classification, growth and physiology, and the reactions of microorganisms to their physical, chemical and biological environments.

†BIO 397
Microbiology Laboratory
The laboratory exercises cover the taxonomic and physiological survey of the microbial world, as well as the general principles and techniques of bacteriology.

†BIO 308
Marine Biology
This course gives an introduction to the physical and chemical aspects of the marine environment, and to life in the oceans and coastal waters. The major groups of marine organisms will be treated, with a consideration of the factors influencing their distribution and abundance. Productivity of the marine environment, and its present and future utilization by man.

* Not offered in 1983-84.
†BIO 398  
3-yr. Mj. Mn. Opt.; 1st term  
Marine Biology Laboratory  
2 U; 4 Lab.  
To accompany BIO 308. Laboratory and field work (including work on boats) designed to give practical experience in the use of sampling and measuring equipment, fishing methods, and diving (optional). Field and laboratory studies of the main habitats.

†BIO 309  
3-yr. Mj.Mn.Opt.; 1st term  
Mycology  
3 U; 3 Lect.  
This course gives a general account of the fungi and their impact upon us. How they live, grow and reproduce, what they do and how they do it, and what their place is in the general scheme of nature. In the last few decades fungi have been found to be of basic and practical significance in various fields, from human medicine to grain storage, from agriculture to architecture, from fundamental studies on the nature of sex to biological warfare. The course prerequisite is Plant Biology. No textbook is required for this course but a number of references will be given at the end of each section.

†BIO 399  
3-yr. Mj.Mn.Opt.; 1st term  
Mycology Laboratory  
2 U; 4 Lab.  
To accompany BIO 309.

†BIO 041  
4-yr. Mj. Req.; STOT; Year  
Experimental Senior Seminar  
4 U; 2 STOT  
A supervised laboratory or field investigation, together with a survey of the relevant literature. The results will be presented as a seminar in early January of the fourth year, and a written report handed in for assessment during second semester.

†BIO 042  
4-yr. Mj. Req.; STOT; Year  
Literature Senior Seminar  
2 U; 1 STOT  
A supervised review of the literature on a selected topic. The results will be presented as a seminar in early January of the fourth year, and a written review handed in during second semester.

(NB — All major students are required to take BIO 041 or BIO 042 during their fourth year, and will work in close association with a faculty adviser. Either Experimental or Literature Seminar may be chosen, and research should be started during the summer vacation preceding the fourth year.)

†BIO 403  
3-yr. Mj. Mn. Opt.; 2nd term  
Principles of Physiology  
3 U; 3 Lect.  
This course considers the physiochemical basis of cellular processes such as regulation, coordination and correlation between structural and functional changes of the cell.
†BIO 493
Principles of Physiology Laboratory
To accompany BIO 403.
3-4-yr. Mj. Mn. Opt.; 2nd term
2 U; 4 Lab.

†BIO 404
Plant Physiology
This course considers the functional activity of plants, i.e. the study of the processes involved in plant growth and plant behaviour. It includes an examination of the internal mechanisms by which the plant carries on its many complex synthetic chemical processes and the ways in which these processes are integrated. Physiological processes are also considered in relation to the plants in their natural environment competing with other organisms.
3-4-yr. Mj. Mn. Opt.; 2nd term
3 U; 3 Lect.

†BIO 494
Plant Physiology Laboratory
To accompany BIO 404.
3-4-yr. Mj. Mn. Opt.; 2nd term
2 U; 4 Lab.

†BIO 405
Genetics
This course offers to study variations and their origin and methods of inheritance as known in the plant and animal kingdoms. Genetic material, its nature, its potentialities, and manner of transmission are emphasized. Mutation, selection, evolution, and the interaction of heredity with environment are included.
3-4-yr. Mj. Req., Mn. Opt.; 1st term
3 U; 3 Lect.

†BIO 495
Genetics Laboratory
Laboratory work is devoted to the breeding of Drosophila and the study of the mutations induced by ultraviolet light in microorganisms. Corn and tobacco are also used in the laboratory for demonstrating the fundamental principles of genetics.
3-4-yr. Mj. Req., Mn. Opt.; 1st term
2 U; 4 Lab.

†BIO 406
Cytology
This course introduces the students to the cell as the fundamental structural and functional unit of living organisms and to the main methods of cellular study. The structural and physiological characteristics of animal and plant cells, as well as their main organelles, are considered. The discussion is based on the studies of light and electron microscopy, cytochemistry and structural evolution of biological systems. The correlations of cell biology with genetics, cell physiology and molecular biology will also be mentioned.
3-4-yr. Mj. Mn. Opt.; 2nd term
3 U; 3 Lect.

†BIO 496
Cytology Laboratory
To accompany BIO 406. It includes experiments to illustrate the basic
principles of light and electron microscopy, cytochemistry and autoradiography in cytological studies.

*BIO 408  
Mariculture  
3-4-yr. Elect.; 2nd term  
2 U; 2 Lect.  
This course deals with the theoretical aspects of culturing marine organisms, and with the condition of mariculture in Hong Kong. BIO 308 is a prerequisite.

*BIO 498  
Mariculture Laboratory  
3-4-yr. Elect.; 2nd term  
1 U; 3 Lab.  
To accompany BIO 408. Practical exercises on the use of maricultural equipment, and the culture of fish, invertebrates, plankton and algae. An introduction to practices used to induce spawning. Visits to maricultural installations, including travelling by boat.

†BIO 409  
Animal Physiology  
3-4-yr. Mj. Mn. Opt.; 1st term  
3 U; 3 Lect.  
This course considers both generally and with a comparative approach, the different functions of animals such as muscle contraction, nervous conduction, irritability, integration, reproduction, circulation, respiration, excretion, etc., and the maintenance of a stable internal environment. The adaptive and evolutionary changes in the different classes of animals are discussed and compared.

†BIO 499  
Animal Physiology Laboratory  
3-4-yr. Mj. Mn. Opt.; 1st term  
2 U; 4 Lab.  
The laboratory work includes experiments illustrating the above phenomena.

†BIO 410  
Molecular Biology  
3-4-yr. Mj. Mn. Opt.; 2nd term  
3 U; 3 Lect.  
This course considers the nature of gene at the molecular level. The structure, organization, synthesis and biological activities of DNA, RNA with special reference to regulation of RNA, and genetic engineering protein biosynthesis will be discussed. Attention will be directed particularly to current concepts and methods of reasoning where applicable.

†BIO 490  
Molecular Biology Laboratory  
3-4-yr. Mj. Mn. Opt.; 2nd term  
2 U; 4 Lab.  
In the laboratory practicals, the techniques in handling bacterial virus, DNA and RNA preparation, DNA-RNA hybridization, and cloning methods will be introduced.

* Not offered in 1983-84.
†BIO 428  
Plant Biochemistry  
2nd term; 3 U; 3 Lect.  
Emphasis of this course will be placed on the biochemical processes which are unique to plants such as the fixation, reduction and assimilation of carbon dioxide and inorganic nitrogenous compounds. Other topics will be the effect of light on plant metabolism other than photosynthesis, and the biochemistry of cell wall substances with special reference to controlling mechanisms in the synthesis of these substances in relation to plant differentiation. Prerequisite: at least one term of Principles of Biochemistry or its equivalent.

2nd term; 2 U; 4 Lab.  
This laboratory course accompanies course BIO 428.

BIO 501  
Fish Physiology  
4-yr. & Grad. Elect.; 2nd term  
2 U; 2 Lect.  
This course is designed to extend the basic physiological principles covered in the physiology core courses to fishes. Instead of covering every aspect of fish physiology, this course only attempts to indicate some unique physiological processes in fish and delineate lines of active research. This will include a detailed coverage of piscine cardiovascular, respiratory, osmoregulatory and endocrine physiology. Emphasis will also be laid on the physiological adaptations to changes in the aquatic environment. Prerequisite: Principles of Physiology and Animal Physiology.

BIO 591  
Fish Physiology Laboratory  
4-yr. & Grad. Elect.; 2nd term  
1 U; 3 Lab.  
This laboratory course accompanies course BIO 501.

BIO 507  
Advanced Genetics  
4-yr. & Grad. Elect.; 2nd term  
2 U; 2 Lect.  
This course deals with recent advances in genetics. Topics to be discussed will vary from year to year. However, the course will emphasize three aspects, e.g. gene concepts, the role of genes in development and behaviour genetics. Open to students who have had general genetics or its equivalent.

BIO 597

Study Scheme

(1) Major Programme
All students majoring in Biology are required to take (1) two 1st-yr. Mj,Mn.Opt. courses (with Laboratories), (2) all 2nd-yr.Mj.Req. courses (3) Seven 3-4-yr. Mj.Req., Mj.Mn.Opt. courses OR six 3-4-yr. Mj.Req., Mj. Mn.Opt. courses plus BIO 408 & 498 or BIO 501 & 591 or BIO 507 & 597 and (4) either BIO 041 or 042. Selection of 3-4-yr. Mj.Mn.Opt. courses in category (3) should be confined to one of the five streams of courses. The breakdown in minimum number of units and courses respectively per year of study is as follows:

1st year, 20 & 7; 2nd year, 16 & 4; 3rd year, 18 & 8; 4th year, 17 & 7.

Details of lists of courses for various streams are available in the Department of Biology

(2) Minor Programme
All students who take Biology as a Minor subject shall (subject to the specific requirements of their Major Board), in their first year take either BIO 101 or 102 together with BIO 191, and BIO 103 & 193 OR BIO 104 & 194 and in the second year take BIO 207 & 297 OR BIO 208 & 298 OR two remaining 1st-year courses. During their third and fourth years, they are required to take two Mj.Mn.Opt. courses. The breakdown in minimum number of units and courses respectively per year of study are as follows:

1st year, 6 & 4; 2nd year, 5 & 3; 3rd year, 5 & 2; 4th year, 5 & 2.

Students who begin to take Biology as a Minor subject in their second year are required to take either BIO 101 or 102 together with BIO 191 and BIO 103 & 193 OR BIO 104 & 194 in their second year and in the third year BIO 207 & 297 OR BIO 208 & 298 AND one remaining 1st year courses OR two Mj.Mn.Opt. courses, and in the fourth year one Mj.Mn.Opt. courses. The breakdown in minimum number of units and courses respectively per year of study is as follows:

1st year, O & O; 2nd year, 6 & 4; 3rd year, 10 & 3; 4th year, 5 & 2.

* Not offered in 1983-84.
Examination Scheme

(1) Major Programme
The six Degree Papers for Biology Major students are as follows:
   a) Papers 7 and 8;
   b) One paper from 2, 6 or 9;
   c) One paper appropriate to the respective streams, viz.
      Stream A: one paper from 9, 6 or 2
      Stream B: one paper from 12 and 14
      Stream C: 11
      Stream D: 5
      Stream E: 1
   d) Plus two more Papers from the selected stream.

(2) Minor Programme
Biochemistry/Chemistry Majors minoring in Biology are required to take two papers from Papers 2, 3, 5, 6, 7, 9, 10, 11, 13 or 14 in their Parts I and II Degree Examinations.

Geography Majors minoring in Biology are required to take two papers from Papers 8, 12 and 14 in their Parts I and II Degree Examinations.

Psychology Majors minoring in Biology are required to take two papers from Papers 6, 8, 9, 12 or 16 in their Parts I and II Degree Examinations.

Those beginning Biology in their second year may instead take Papers 15 or 16 in their Part I Degree Examination and one paper from Papers listed above depending on their Major subjects.

Degree Papers

Paper 1 — Plant Anatomy
       BIO 302, 392
Paper 2 — Plant Physiology
       BIO 404, 494
Paper 3 — Plant Biochemistry
       BIO 428, 488
Paper 4 — Histology
       BIO *305, *395
Paper 5 — Principles of Embryology
       BIO 303, 393
Paper 6 — Animal Physiology
       BIO 409, 499

* Not offered in 1983-84.

Course Description

†CHM 101/102 1 yr. Mj. Mn. Req.; Year
General Chemistry 6 U; 3 Lect.

†CHM 181/182 1 yr. Mj. Mn. Req.; Year
General Chemistry Laboratory 2 U; 3 Lab. 1 Tut.
To be taken in conjunction with General Chemistry. Laboratory work consists of elementary inorganic preparations, volumetric analysis and some physical chemistry experiments.

†CHM 027/028 2 yr. Mj. Req.; STOT; Year
Guided Studies in Chemistry 2 U; 2 STOT
This course is conducted in small groups under the supervision of the lecturing staff. Its contents are closely related to those of CHM 230, 240, 231 and 220.

†CHM 220 2 yr. Mj. Req.; 2nd term
Organic Chemistry I 3 U; 3 Lect.
Fundamental concepts in structure, chemical bonding, stereochemistry, and physical properties of carbon compounds. Preparations, physical properties, and chemical reactions of aliphatic and aromatic hydrocarbons.

Stereochemistry, types of reagents and reaction mechanisms, spectroscopy, and modern theories in the interpretation of structures.

Prerequisite: CHM 101/102.

†CHM 230 2 yr. Mj. Req.; 1st term
Physical Chemistry I 3 U; 3 Lect.
Thermodynamics. Applications to phase equilibria, solutions, chemical equilibria, electrochemistry and living systems.

Textbook: Atkins, Physical Chemistry

Prerequisites: CHM 101/102, PHY 105/106 and PMA 101.

†CHM 283 2 yr. Mj. Req.; 2nd term
Physical Chemistry Laboratory I 2 U; 4 Lab.
To be taken in conjunction with CHM 230. This course attempts to acquaint the students with the basic principles of thermodynamics and the applications to chemical and phase equilibria.
†CHM 240  
Analytical Chemistry  
2-yr. Mj. Req.; 1st term  
3 U; 3 Lect.  
Prerequisite: CHM 101/102

†CHM 284  
Analytical Chemistry Laboratory  
2-yr. Mj. Req.; 1st term  
4 U; 8 Lab.  
To be taken in conjunction with CHM 240. The laboratory work covers quantitative determinations by volumetric gravimetric and elementary instrumental methods of analysis.

†CHM 280  
Integrated Laboratory I  
2-yr. Mj. Req.; 2nd term  
2 U; 4 Lab.  
To be taken after or in conjunction with CHM 220 and CHM 240. The laboratory work covers instrumental analysis and basic operations in organic chemistry.

†CHM 231  
Chemical Bonding  
2-yr. Mj. Req.; 2nd term  
3 U; 3 Lect.  
Prerequisites: CHM 101/102, PMA 101 and PHY 105/106.

†CHM 225/226  
Organic Chemistry (Minor)  
2-yr. Mn. Req.; Year  
1st term: 3 U; 3 Lect.  
2nd term: 2 U; 2 Lect.  
Prerequisite: CHM 101/102.

†CHM 287  
Organic Chemistry (Minor) Laboratory  
2-yr. Mn. Req.; 2nd term  
2 U; 4 Lab.  
To be taken in conjunction with CHM 226. Experiments are designed to illustrate the principles of reactions covered in the lectures.
†CHM 245
Analytical Chemistry (Minor)
2-yr. Mn. Req.; 1st term
Special course designed for biochemistry and biology majors covering
the basic aspects of analytical chemistry.
Textbook: Skoog & West, Fundamentals of Analytical Chemistry,

†CHM 289
Analytical Chemistry (Minor)
2-yr. Mn. Req.; 1st term
Laboratory
To be taken in conjunction with CHM 245. The laboratory work covers
quantitative determinations by volumetric, gravimetric and elementary
instrumental methods of analysis.

†CHM 312/313
Inorganic Chemistry I/II
3/4-yr. Mj. Req.; Year
Acid-base chemistry. Aqueous and nonaqueous solutions. Chemistry of
hydrogen, the elements of the first short period, halogens, and the
noble gases. Periodicity. Coordination chemistry: bonding, structure
and reactivity. Some descriptive chemistry of the transition metals.
Lanthanides, actinides and transactinides.
and Reactivity, 2nd ed.
Prerequisite: CHM 231.

†CHM 322/323
Organic Chemistry II/III
3-yr. Mj. Req.; Year
Continuation of CHM 220. Systematic studies of the preparations,
physical properties and chemical reactions of mono- and bi-functional
groups: halides, alcohols, phenols, ethers, epoxides, glycols and
glycerols, aldehydes and ketones, carboxylic acids and derivatives,
amines and ketoacids.
Prerequisite: CHM 220.

†CHM 381/382
Organic Chemistry Laboratory II/III
3-yr. Mj. Req.; Year
4 U; 4 Lab.
To be taken in conjunction with CHM 322/323 Laboratory work
consists of experiments designed to illustrate the more important
procedures and manipulation encountered in organic chemistry.

†CHM 332/333
Physical Chemistry II/III
3-yr. Mj. Req.; Year
4 U; 2 Lect. 1 Tut.
Continuation of CHM 230. Chemical kinetics. Photochemistry. Irreversible
processes in solution. Surface chemistry. Electric and magnetic
properties of molecules. Elements of spectroscopy (microwave, IR,
Raman, UV, NMR and ESR).

Prerequisite: CHM 230.

†CHM 383/384  
Physical Chemistry Laboratory II/III  
3-yr. Mj. Req.; Year  
2 U; 4 Lab./fortnight  
To be taken in conjunction with CHM 332/333. The practical work deals with the application of principles related to the lectures.

*†CHM 335  
Physical Chemistry (Minor)  
3/4-yr. Mn. Req.; 1st term  
(offered in alternate year)  
3 U; 3 Lect.

Thermodynamics, electrochemistry, chemical kinetics, macromolecules, with emphasis on biochemical relevance.

Prerequisite: CHM 101/102.

*CHM 385  
Physical Chemistry (Minor) Laboratory  
3/4-yr. Mn. Req.; 2nd term  
(offer in alternate year)  
2 U; 4 Lab.

To be taken in conjunction with CHM 335. Experiments on equilibria, chemical kinetics and electrochemistry designed for students minor in Chemistry.

†CHM 407  
Industrial Chemistry  
4-5-yr. Mj. Opt.; 2nd term  
2 U; 2 Lect.

Economic aspects of chemical industry. Energy and waste disposal. Selected examples on the manufacture and applications of heavy chemicals, petrochemicals, polymers, building materials, pharmaceuticals, food, textile chemicals, etc. in the light of chemical principles.

*†CHM 407  
Physical Chemistry of Polymers  
4-5-yr. Mj. Opt.; 2nd term  
2 U; 2 Lect.

The structure and properties relationship of polymer will be discussed in details. The course will be divided into four sections: 1) Polymer structural characterizations: molecular weight and distribution, physical methods for characterization, 2) Polymer solid: glassy state and glass transition, rubber elasticity, crystallinity, 3) Polymer melt: rheology and visco-elastic properties, 4) Polymer solution: thermodynamics and phase equilibria in Polymer solution, chain configuration and the associated properties of diluted polymer solutions.

* Not offered in 1983-84.
†CHM 420
Organic Chemistry IV
4-yr. Mj. Req.; 2nd term
2 U; 2 Lect.

†CHM 430
Physical Chemistry IV
4-yr. Mj. Req.; 1st term
2 U; 2 Lect.
Continuation of Physical Chemistry II and III. Quantum Chemistry and Statistical Thermodynamics.

†CHM 480
Physical Chem. Lab. IV
1 U; 4 Lab./fortnight
Laboratory work involves more advanced experiments in physical chemistry.

†CHM 041
Seminar
4-yr. Mj. Req.; STOT; Year
2 U; 1 STOT
Oral and written reports on important topics from the current chemical literature.

†CHM 481
Inorganic Chemistry Laboratory
4-yr. Mj. Req.; 2nd term
2 U; 4 Lab.
To be taken after or in conjunction with CHM 312/313.
Laboratory work covers inorganic syntheses, modern techniques of analysis, and experiments designed to illustrate the theoretical principles.

CHM 482
Inorganic Chemistry (Minor)
3/4-yr. Mn. Req.; 2nd term
(offered in alternate year)
Laboratory
2 U; 4 Lab.
To be taken in conjunction with CHM 417. Laboratory work covers inorganic syntheses, modern techniques of analysis, and experiments designed to illustrate the theoretical principles.

†CHM 410
Inorganic Chemistry III
4-yr. Mj. Req.; 1st term
2 U; 2 Lect.
Continuation of Inorganic Chemistry I and II; may be taken concurrently with the latter. Discussion of two or more of the following topics: Symmetry in inorganic chemistry. Organometallic chemistry. Inorganic chains, rings, and cages. Inorganic reaction mechanisms.
†CHM 417
Inorganic Chemistry (Minor)
Prerequisite: CHM 101/102.

**Elective Courses**
The following courses are for 4th year and graduate students. The topics offered usually change from year to year and not all of them will be offered every year. Each course is weighted as a half-paper in the Part II Degree Examination.

**Research Project**
CHM 499 Research Project Year: 4 U

**Study Scheme**

*(1) Major Programme*
1st year Potential Major students are required to take CHM 101/102, 181/182.
2nd year Majors are required to take CHM 027/028, 220, 230, 283, 240, 284, 280, 231.

3rd year Majors may choose between the 6-2 and the 4-2-2 programmes (see Examination Scheme for details). Both programmes require CHM 322/323, 381/382, 332/333, 383/384. Those under 6-2 programme must take CHM 312/313 in addition.

4th year Majors of 6-2 programme are required to take CHM 041, 480, 481 and to choose at least 2 courses from CHM 410, 420, 430. In addition, they should choose 3 to 4 "Elective Courses". A student may elect CHM 499 and submit an undergraduate thesis to substitute for two term courses in "Elective Courses" in Chemistry.

4th year Majors of 4-2-2 programme are required to take CHM 041, 480, 481, 312/313 and to choose 2 courses from CHM 410, 420, 430 and "Elective Courses".

(2) Minor Programme

1st year Minor students are required to take CHM 101/102, 181/182.

2nd year Minor students are required to take CHM 225/226, 287, 245, 289.

3rd & 4th year Minor students are required to take CHM 335, 385, 417, 482.

Examination Scheme

(1) Major Programme

All 6-2 Chemistry Majors are required to take:

(a) three full papers in their Part I Examination: Papers 1, 2 and 3
(b) Equivalent to three full papers in their Part II Degree Examination taking at least two from Papers 11, 12 and 13 (weight half-paper each) and choose from selected topics Papers 4, 5, 6, 7, and 8 (weight half-paper each), Paper 10 and Biochemistry Paper 1C (weight one Paper each).

All 4-2-2 Chemistry Majors are required to take:

(a) two full papers in their Part I Examination: Papers 2 and 3
(b) Equivalent to two full papers in their Part II Examination: Paper 1 and two half-papers selected from Papers 4, 5, 6, 7, 8, 11, 12 and 13.

The Degree classification for Chemistry majors will be based on both the Degree Paper results and the Grade Point Average of all Chemistry courses except General Chemistry.

(2) Minor Programme

All students minoring in Chemistry are required to take Paper 14 and Paper 15 in their Part I/II Examinations. These two papers may be offered in alternate years.
Degree Papers

Paper 1 — Inorganic Chemistry
    CHM 312/313
Paper 2 — Organic Chemistry
    CHM 322/323, 381/382
Paper 3 — Physical Chemistry
    CHM 332/333, 383/384
†Paper 4 — Selected Topics in Inorganic Chemistry
†Paper 5 — Selected Topics in Organic Chemistry
†Paper 6 — Selected Topics in Physical Chemistry
†Paper 7 — Selected Topics in Applied Chemistry
†Paper 8 — Selected Topics in Analytical Chemistry
Paper 10 — Undergraduate Thesis
    CHM 499
Paper 11 — Additional Inorganic Chemistry
    CHM 410
Paper 12 — Additional Organic Chemistry
    CHM 420
Paper 13 — Additional Physical Chemistry
    CHM 430
Paper 14 — Physical Chemistry (Minor)
    *CHM 335, 385
Paper 15 — Inorganic Chemistry (Minor)
    CHM 417, 482
Biochemistry Paper 1C — Principles of Biochemistry
    (for Chemistry Majors)
    BCH 321

* Not offered in 1983-84.
†Several different selected topics in the same branch of Chemistry may be taken as separate half papers 5A, 5B, 5C etc.
Computer Science

Course Description

(Notes: Unless otherwise specified, all are 3-unit term courses of two hours of lectures and one hour of tutorial per week)

†CSC 111 1-yr. Mjr. Mn. Req.; 1st term
Computer Principles and Programming 1-yr. Grad. Elect.; Both terms
Fundamentals
Introduction to programming in high-level language. Algorithms, computer organization and solution of simple problems. Intended for students who want a general knowledge of computers. Prerequisite: None.

†CSC 112 1-yr. Mjr. Req.; 2nd term
Introduction to Computer Science
(Major)

CSC 151 1-4-yr. Elect.; Gen.Ed.; 1st term
Perspectives in Computer Science
This course aims at providing understanding of the role computers play in modern society. Emphasis is on the wide spectrum of computer applications and their impacts on human life in the past, present and future. Computer working principles will also be explained.
No prior knowledge of computer science is required and students from all disciplines are welcome.

†CSC 201 2-yr. Mjr. Req.; 1st term
Logic Design and Computer Systems 2 Lect. 1 Lab. 1 Tut.
Basic logic design, coding, number representation and arithmetic. Computer architecture. Introduction to machine and assembly language programming. Prerequisite: CSC 112.

†CSC 202 2-yr. Mjr. Req.; 2nd term
Fundamental Structures of Computer Science
Fundamental structures of control: finite state models, flowcharts and programmes, additional control structures, the representation of control, formal specification and proof of programmes, determining
efficiency of computations. Fundamental structures of data: mathematical models of data, data in programming languages, nonelementary data structures, the representation of data, correctness of data representations, and space requirements. The interaction of control and data. Prerequisites: CSC 112, CSC 201.

†CSC 211/212  
Introduction to Computer Science I/II  
3/3 U; 2 Lect. 1 Tut.
This course is designed to provide the basic knowledge and experience necessary to use computers effectively in the solution of problems. It is an introductory course for prospective minors in Computer Science.

†CSC 221  
COBOL Programming  
2-yr. Mn. Opt.; 1st term
Information structure in COBOL: files, records and fields. Structure of a COBOL Programme. Data processing cycle and file processing on tapes and discs. System flowcharts. Several exercises and programming problems will be presented for solution. Prerequisite: CSC 111.

†CSC 222  
Data Processing  
2-yr. Mj. Req.; Mn. Opt.; 2nd term

†CSC 223  
File Processing with COBOL  
2-yr. Mj. Req.; 1st term
†CSC 231
Introduction to Numerical Methods
An introduction to the numerical algorithms fundamental to scientific computing work. Includes elementary discussion of error, polynomial interpolation, quadrature, linear systems of equations, solution of non-linear equations and numerical solution of ordinary differential equations. The algorithmic approach and the efficient use of the computer are emphasized. Prerequisites: CSC 111, PMA 101.

†CSC 301
Data Structures I
This course introduces the student to the relations which hold among the elements of data involved in problems, the structures of storage media and machines, the methods which are useful in representing structured data in storage and the techniques for operating upon data structures.

External and internal representation of information. Representation of arrays, linear lists (stacks, queues and deques) and trees. Multilinked structures. Symbol tables and searching techniques. Sorting (ordering) techniques.

†CSC 302
Data Structures II
A rigorous course in the theory and applications of Data Structures. Continuation of CSC 301.

†CSC 303/304
Computer Systems
(Hardware and Software) I/II

†CSC 305
Introduction to System Programming
System programming is presented in such a way as to emphasize how hardware and software complement each other.

Hardware and software control of input/output devices. Control structure, logic and microprogramming. Multiprogramming, multiprocessing and time-sharing, the assembler. Introduction to compiling techniques.

†CSC 306
Real-Time Computer System
This course aims to equip the student with basic ideas of real time
computer systems. The design, analysis and management of real time data processing systems will be studied. Although the concept of operating system support will be introduced, the main emphasis of this course is on commercial real-time application systems. Examples from existing real time data processing systems, such as banking and airline reservation system will be studied.

†CSC 311 3-yr. Mn. Req.; Both terms
Elementary Computer Organization
This course is designed to familiarize the student with the basic structure and language of machines and to give him a better understanding of the internal behaviour of computers.

†CSC 321 3-yr. Mj. Mn. Opt.; 1st term
Information Systems Analysis
This course lays the groundwork for CSC 322, and bridges the gap between the tools and techniques, and the management practitioner, providing an understanding of how they should be used to create viable management information systems. Industrial engineering tools. Computer-oriented techniques. Operations Research techniques.

System Design and Implementation 2nd term
This course is the second covering the system life cycle. The lectures focus on underlying principles of design and implementation as well as on techniques. The techniques are utilized in the project. Selected topics on Information Systems administration, Information Systems for Operating, Management Control, Planning and Organization are discussed.

†CSC 331 3-yr. Mj. Mn. Opt.; 1st term
Numerical Methods I
A thorough treatment of solutions of equations, interpolation and approximations, numerical differentiation and integration and the numerical solution of initial value problems in ordinary differential equations. Selected algorithms will be programmed for solution on computers.

†CSC 332 3-yr. Mj. 4-yr. Mn. Opt.
Numerical Methods II 2nd term
This course is designed as an introduction to numerical linear algebra and its application.

The solution of linear systems by direct and iterative methods, matrix inversion, the evaluation of determinants and the calculation of
eigenvalues and eigenvectors of matrices. Application to boundary value
problems in ordinary differential equations. Introduction to the
numerical solution of partial differential equations. Selected algorithms
will be programmed for solution on computers.

†CSC 401 4-yr. Mj. Req.; 1st term
Operating Systems
Principles of operating systems: process management, memory manage-
ment, file system, protection and security. Design and implementation
methodology, performance evaluation. Case studies.

†CSC 402 4-yr. Mj. Req., Mn. Opt.; 2nd term
Programming Languages and
Compiling Techniques
This course is designed to present a systematic approach to the study of
computer programming language design, the interplay between language
design and implementation, and an introduction to advanced material
in compilation.
Data types and structures; Control structures and data flow; Runtime
consideration. Scanners; Parsers; Syntax-directed translation.

†CSC 413 4-yr. Mj. Opt.; 1st term
Computer Graphics and C.A.D.
Graphical display of information and the processing of visual data by
computer. The topics covered in this course include C.A.D. of curves
and surfaces; interactive techniques in C.A.D.; raster scan display of
time-variant information and studies of currently available graphics
packages.

†CSC 414 4-yr. Mj. Opt.; 2nd term
Distributed Processing and Networks
Interconnected networks: input, output type connections and network
alignment characteristics; multiprocessing and parallel processing
systems; centralised and distributed networks; communication proto-
cols, languages; and system considerations.

†CSC 415 4-yr. Mj. Opt.; 1st term
Formal Languages and
Automata Theory
Formal grammars and automata. Regular, context-free, context
sensitive and recursive grammars. Deterministic and non-deterministic
finite automata. Context-free languages. LR(k), LL(k) grammars.
Complexity of recognition.

†CSC 416 4-yr. Mj. Opt.; 2nd term
Artificial Intelligence
This course introduces students to basic concepts and techniques of
artificial intelligence, and gives insights into active research areas and applications. Topics covered include representation of knowledge, natural languages, vision system, search strategies, control and applications.

*†CSC 041/042 4-yr. Mj. Opt.; STOT; 2-term
Seminar 1 U; 1 STOT

*†CSC 043/044 4-yr. Mj. Opt.; STOT; 2-term
Project 3 U; 3 STOT
This course involves a significant project in any area of Computer Science. The project may be undertaken individually or in small groups. The course is offered by arrangement with a Computer Science faculty member.

†CSC 421 4-yr. Mj. Opt.; 1st term
Systems Simulation and Applications
Introduction to the logical development of numerical and statistical models of systems; deterministic and probabilistic models, simulation methodology including random number generation, queuing service times, discrete random variables and description of experiment. Application of simulation techniques to the solution of various problems. The concepts and technical aspects of design, construction, operation and testing of simulation models. Simulation languages. Case studies.

†CSC 422 4-yr. Mj. Opt.; 2nd term
Computational Methods in Operations Research
The use of computer for the application of operations research techniques such as linear programming, inventory control, transportation problem, etc.

†CSC 423 4-yr. Mj. Opt.; 1st term
Database Management
Introduction to database concepts, including data independence, relationships, logical and physical organizations, schema and subschema. Hierarchical, network and relational data models with a description of the logical and data structure representation of the database system. Studies of some popular file and database systems. Data normalization, data description languages, query facilities, file security, data integrity and reliability. Prerequisites: CSC 301, CSC 302.

* Not offered in 1983-84.
†CSC 424 4-yr. Mj. Opt.; 2nd term
Business Information Systems
Discussion and analysis of current topics and developments in business information systems, e.g., software systems, data management, computer security and privacy issues, social implications of computer use, artificial intelligence and automated systems design. Sampling of current work in systems for administering justice, welfare and health care are discussed. Prerequisites: CSC 321, CSC 322.

†CSC 431 4-yr. Mj. Opt.; 1st term
Selected Topics in Numerical Analysis I
Topics must be pre-arranged with the individual instructor.

†CSC 432 4-yr. Mj. Opt.; 2nd term
Selected Topics in Numerical Analysis II
Topics must be pre-arranged with the individual instructor.

Study Scheme

(1) Major Programme
Students majoring in Computer Science must take at least 65 units as required by the chosen stream.*
First year potential Majors are required to take CSC 111, 112, ELE 101 and PMA 111.
Second year Majors are required to take CSC 201, 202, 222, 223 and CSC 231.
Fourth year Majors are required to take either CSC 041/042 or CSC 043/044.

(2) Minor Programme
Students minoring in Computer Science must take at least 21 units as required by the chosen stream.
(Note: additional units are required for some streams.)

* Details of lists of courses for various streams are available in the Department of Computer Science.

Examination Scheme

(1) Major Programme
6-2 majors are required to take:
(a) Papers 11, 12 and one from Papers 13, 14, 15 in their Part I Examination.
(b) Paper 21 and two from Papers 22, 23, 24, 25, 26, 27 in their Part II Examination.
(2) *Minor Programme*

All students minoring in Computer Science are required to take:

(a) Paper 1 in their Part I Examination and Paper 4 in their Part II Examination, OR

(b) Paper 2 in their Part I Examination and Paper 5 in their Part II Examination, OR

(c) Paper 3 in their Part I Examination and Paper 6 in their Part II Examination.

**Degree Papers**

Paper 1 — Computer Science I (Minor)
CSC 311, 305

Paper 2 — Information Systems I (Minor)
CSC 311, 321

Course Description

(Notes: Unless otherwise specified, all are 2-unit term courses of two hours of lectures and one hour of tutorial per week)

†ELE 101
Introductory Electronics I

†ELE 102
Introductory Electronics II

†ELE 103
Basic Engineering
Introduction to engineering and local electronics industry. Mechanical and environmental consideration for engineering systems. Engineering materials. Destructive and non-destructive testings. Tolerance, limits and confidence limits. Quality control and materials control. Engineering design of electronic equipment: aspects of structure, parts, standards, layouts, metals, assembly and wiring, printed wiring boards and the choice of electronic components. Professional ethics, the role of professional learned societies and regulatory bodies and the role of engineers in society. (Each year, speakers will be invited from the local engineering institutions to give seminars covering these specific topics.)

†ELE 182
First Year Experiments
1 yr. Mj. Req.; 2nd term
1 U; 4 Lab.

†ELE 201
Introductory Electronics III
†ELE 202  
Electrical Networks  

†ELE 203  
Switching and Logic System  

†ELE 204  
Electromagnetic Theory  

†ELE 205  
Physical Electronics  
Introduction to Quantum Mechanics: Postulates and Schrödinger equation; 1-D potential wells; Simple Harmonic Oscillator and one electron atom; Periodic table; Vacuum Devices: electron emission; Discharge phenomena and devices; Concepts of solids: bondings and classifications; Magnetic and dielectric materials; Introduction to metals and semiconductors.  

†ELE 206  
Electrical Machines  
ELE 231
Instrumentation
2-yr. Mj. Elect.; 2nd term
1 U; 1 Lect. ½ Tur.

*ELE 232
Instrumentation and Measurement
1-3-yr. Others Elect.; 1st term

ELE 233
Automation
2-yr. Others Elect.; 2nd term

†ELE 281/282
Second Year Experiments
2-yr. Mj. Req.; 2-term
4 U; 4 Lab.

†ELE 283
Engineering Drawings
2-yr. Mj. Req.; 2-term
2 U; 4 Lab.

†ELE 291/292
Second Year Experiments
3-yr. Mn. Req.; 2-term
2 U; 2 Lab.

†ELE 301
Electronic Circuits
3-yr. Mj. Req.; 2-term

* Not offered in 1983-84.
Switching characteristics of transistors in pulse circuits: steady state and transient. Linear and diode wave-shapings. Multivibrators: analysis and applications. Principle and applications of negative-resistance devices as multivibrators. Time-base generators. Selected topics: e.g. blocking oscillators, pulse transformer, phase sensitive detector, PLL etc.

†ELE 302
Digital Techniques
3-yr. Mj. 4-yr. Mn. Req.
1st term

†ELE 303
Communications
3-yr. Mj. Req.; 1st term
Introduction to concepts of information and information capacity. Limits of information transfer. Time and frequency relationship. C.W. modulation and demodulation: amplitude, phase and frequency modulations. Pulse modulation and demodulation: PAM, PDM and PPM. Link between C.W and pulse modulation. Information band-width and sampling theorem. Digital modulation and demodulation: PCM, quantisation noise and intersymbol interference. Transmission of PCM pulses, OOK FSK PSK. Modulators and demodulators; circuits for AM, FM and PM.

†ELE 304
Semiconductors and Devices
3-yr. Mj. 4-yr. Mn. Req.
1st term

†ELE 306
Control
3-yr. Mj. Req.; 2nd term

†ELE 307
High Frequency Techniques

ELE 331
Introduction to Biochemical Engineering

†ELE 381/ELE 382
Third Year Experiments
3-yr. Mj. Req.; 2-term
(Scheme C, 3 & 4 yr.)
4 U; 4 Lab.

†ELE 391/ELE 392
Third Year Experiments
4-yr. Mn. Req.; 2-term
2 U; 2 Lab.

†ELE 041/042
Fourth Year Project
4-yr. Mj. Req.; STOT; Year
1st term: 4 U, 2nd term: 6 U
4 afternoons

The student independently proposes and performs active experimental or theoretical research on a current topic of electronics under the supervision of a staff member.

†ELE 401
Microprocessors and Mini-computer Techniques
†ELE 402 4-yr. Mj. Opt.; 2nd term
Sampled Data Control System

†ELE 403 4-yr. Mj. Opt.; 2nd term
Communication Systems

†ELE 404 4-yr. Mj. Opt.; 2nd term
Microwave Engineering

†ELE 405 4-yr. Mj. Opt.; 1st term
Analog and Hybrid Techniques

†ELE 406 4-yr. Mj. Opt.; 2nd term
Theory and Technology of Semiconductor Devices

†ELE 407
Network Theory

†ELE 408
Antenna Theory
Green's function for the wave equation. Radiation patterns of linear antennas, the loop antenna, and the cross dipole. The receiving antenna. Self and mutual impedances of antennas. Linear array theory. Reflector and aperture antennas.

†ELE 409
Quantum Electronics

†ELE 410
Digital Signal Processing

†ELE 411
Advanced Digital Systems
ELE 412
Introduction to IC Fabrication Technology
Fundamental principles of silicon integrated circuits technology. Study of crystal growth, oxidation, diffusion, CVD, ion implantation, photolithography and simple geometric layout of devices and IC. Simple process characterization and modelling. Introduction to the design of integrated system. (Students are required to familiarize with the IC lab set-up and to participate in design projects.)
(Note: there will be an enrollment quota.)

†ELE 491/492
Design Exercise
4-yr. Scheme B Mj. Req. STOT; 2-term; 4 U; 4 Lab.
The student independently proposes and performs active experimental or theoretical research on a current topic of electronics under the supervision of a staff member.

Study Scheme

(1) Major Programme
First year Potential Majors are required to take ELE 101, 102, 103 and laboratory course ELE 182.
Second year Majors are required to take ELE 201, 202, 203, 204, 205, 206 and laboratory courses ELE 281/282 and ELE 283.
Third year and fourth year Majors are required to take all core Major courses and in addition, any core optional courses which are specified in the Examination Scheme.
The minimum number of units that Electronics Department offers to students when they graduate (4 years) is 65.

(2) Minor Programme
Students minor in Electronics are required to take those courses as specified in the Examination Scheme.

Examination Scheme

(1) Major Programme
Third Year Majors — The students, in consultation with the Department, may choose to follow one of the following schemes:

Scheme A: 11 Advanced Electronics 1 (4 units):
courses ELE 303, 307
12 Advanced Electronics 2 (4 units):
courses ELE 302, 304
13 Advanced Electronics 3 (4 units):
courses ELE 301, 306
Experiments: ELE 381/382 (4 units)
Scheme B: Any two papers from 11, 12, and 13
Experiments: ELE 381/382 (4 units)

Scheme C: (Work-Study Programme)
11 Advanced Electronics 1 (4 units):
courses ELE 303, 307
12 Advanced Electronics 2 (4 units):
courses ELE 302, 304
Experiments: ELE 381 (2 units)

Fourth Year Majors
Scheme A: 21 Microprocessors, Digital Signal Processing
courses ELE 401, 410
22 Advanced Digital Systems, Communications
courses ELE 403 and either 411 or 402
23 Microwave Engineering, Antennas
courses ELE 404, 408
24 Semiconductor Devices, Quantum, and IC
any two of courses ELE 406, 409, 412
25 Analog Techniques, Network Theory
courses ELE 405, 407
(Any three papers; Total: 12 units)
Project: ELE 041/042 (10 units)

Scheme B: (The Part I paper not taken in the third year and any
one of the Part II Papers; Total: 8 units)
Design exercise: ELE 491/492 (4 units)

Scheme C: (Work-Study Programme)
13 Advanced Electronics 3 (6 units):
courses ELE 301, 306
Any one paper in fourth year (4 units)
Experiments: ELE 382 (2 units)
Project: ELE 041/042 (10 units)

Fifth Year Majors — Work-Study Programme only: any two other
papers (8 units)

(2) Minor Programme

Third Year Minors
(Prerequisites: ELE 101 and 102)
14 Fundamental Electronics (6 units):
courses ELE 201, 203, 206
Experiments: ELE 291/292 (2 units)

Fourth Year Minors
26 Advanced Electronics (4 units):
(Any one paper in third year)
Experiments: ELE 391/392 (2 units)
Mathematics

Course Description

(Notes: Unless otherwise specified, all are 6-unit year courses of three hours of lectures and one hour of tutorial per week)

AMA 123
Mathematics for Application
1-yr. Elect.
This course gives a systematic introduction to the mathematics needed for the study and application of statistical and analytic methods in the Social, Economics, and other Sciences.

*AMA 202
Methods of Differential Equations
2-yr. Mj. Elect.; 1st term
3 U
This course introduces the student to the elementary methods of solving ordinary differential equations. Some partial differential equations are also considered.

*AMA 221
Advanced Mathematics for Business Administration
2-yr. Elect.; 2nd term
3 U
A one-term continuation of the first year course giving further mathematical concepts and methods for application in the Social Science, including some probability and statistics.

†AMA 301
Operations Research
The basic methods of operations research will be explained. Topics treated include: the theory of games, linear programming and its applications, introduction to dynamic programming, nonlinear programming, and the theory of queues.

†AMA 402
Differential Equations
This course is divided into two parts. The first part deals with the properties of ordinary differential equations and methods of solutions. The second part concerns partial differential equations and solutions of boundary value problems.

†AMA 403
Optimization Theory
The purpose of this course is to present the theory of optimization in the finite dimensional case. Topics include: unconstrained and linear

* Not offered in 1983-84.
constrained extrema; applications to matrices and quadratic forms; the Lagrange multiplier rule; general constrained minimization problems, augmentability and range and Lagrange multipliers; the calculus of variation.

*†AMA 404
Control Theory
This course covers the fundamentals of control theory with emphasis on state-space structures; controllability and observability; aspects of the theory of optimal control and differential games. Numerical methods will also be included.

†PMA 021
Topics in Modern Mathematics
2-yr. Mj. Req.; STOT
4 U; 2 STOT
This is a course conducted with student-orientated teaching. Topics for small-group discussion may be chosen from but not confined to metric spaces and applications, basic principles and computational technique in elementary complex analysis, projective geometry.

†PMA 031
Pro-Seminar
3-yr. Mj. Opt.; STOT
4 U; 2 STOT
Small-group discussion on topics in probability theory, number theory, theory of manifold, topology, theory of equation.

*†PMA 032
Pro-Seminar
3-yr. Mj. Opt.; STOT
4 U; 2 STOT
Small-group discussion on topics in probability theory, harmonic analysis, theory of manifold, numerical analysis with emphasis on application.

†PMA 101
Calculus and Linear Algebra
1-yr. Mj. Req.
Functions of one variable, limits of sequences and functions, the differential and integral calculus with applications. The fundamental theory of matrices and determinants.

†PMA 111
Mathematical Methods I
1-yr. Mn. Req.
This course is split into subgroups with slightly different syllabus. The content is a selection of basic principles and techniques from differential and integral calculus, linear algebra and statistics.

* Not offered in 1983-84.
PMA 121
Mathematics for Business Administration
An introduction to the Calculus and Matrix Algebra with applications, necessary for the study of Business Administration.

PMA 123
Mathematics for Social Science
This course gives a systematic introduction to the mathematics needed for the study and application of statistical and analytic methods in the Social, Economics, and other Sciences. This course is designed for the student with a stronger mathematical background.

PMA 131/132
Perspectives in Mathematics
Both terms; 3 U
This course is designed for interested students with a minimum of mathematical experience. Particular emphasis will be laid on the nature of mathematical reasoning, related to the number system, aspects of algebra, functions, probability and statistics.

†PMA 151
Pro-Seminar
Topics covered in this course include: Operations of sets, relations and mappings, product set and quotient set, the Peano axioms, ordered sets, the axiom of choice and Zorn's lemma, well-ordered sets, the Bernstein theorem, denumerability and non-denumerability, ordinal numbers and cardinal numbers.

†PMA 201
Advanced Calculus
Vectors in 3-dimensional Euclidean space, functions of several variables, differential and integral calculus, line and surface integrals, series of functions, improper integrals.

†PMA 202
Advanced Linear Algebra
Topics covered include: abstract vector spaces, linear maps, matrix, Jordan canonical form, bilinear form and duality.

*PMA 203
Elementary Complex Analysis
2nd term; 3 U
This is a first course on the subject with emphasis on basic principles and computational techniques.

*†PMA 204
Algebraic Structures
2-yr. Mj. Opt.; 1st term; 3 U

* Not offered in 1983-84.
The course includes an introductory survey of the basic algebraic structures with internal laws of operations: semigroups, groups, rings and fields. Particular attention is directed to quotient structures and the theory of factorisation in a Euclidean Domain.

†PMA 205
Elementary General Topology
This is a first course on general topology with emphasis on metric spaces and applications.

†PMA 211
Advanced Mathematical Methods II
2-yr. Mj. Opt.; 2nd term; 3 U

The course includes the differential and integral calculus of several variables and applications, infinite series including Fourier series and elementary ordinary differential equations.

†PMA 301
Real Analysis

Topics covered in this course include: properties of measurable sets, measurable functions, the Lebesgue integral, absolute continuity and the Radon-Nikodym theorem, $L_p$-spaces, product measure and iterated integrals, the Daniell integral and Stone’s theorem, introduction to Fourier transforms.

*†PMA 302
General Topology

Topics covered include Hausdorff spaces, Regular and normal space, Tietz’s extension theorem, compact and locally compact spaces, compactifications, metrization theorems, uniformity, function spaces.

†PMA 303
Algebra

Topics covered in this course include: groups, abelian groups, categories and functors, modules, integral domains, semi-simple rings, Ext and Tor, field theory.

*PMA 304
Probability Theory
3-yr. Mj. Elect.; 2nd term; 3 U

This is a first course on the mathematical theory of probability.

†PMA 305
Complex Analysis

A basic course in complex analysis. Topics covered included: Complex

* Not offered in 1983-84.
numbers and complex functions, Cauchy’s theorem and applications, series expansions, residues, harmonic functions, conformal mappings, Riemann surfaces.

†PMA 312
Complex Variable Theory
The course covers the basic theorems and techniques of analytic functions, to prepare students for a minor paper in the subject.

PMA 402
Functional Analysis
Topics covered in this course include: the algebras of bounded continuous functions, Stone Weierstrass theorems, normed linear space and Banach spaces, Hilbert space and Banach algebras.

PMA 403
Differential Geometry
Differential geometry of curves and surfaces in IR\(^3\). Frenet formulas. Fundamental forms, curvature, geodesics. Theorema Egregium, Gauss-Bonnet Theorem, Hopf-Rinow Theorem, Jacobi fields and conjugate points. Remarks on non-Euclidean geometry and introduction to Riemannian geometry.

PMA 404
Topics in Algebra
Topics will be selected from: Linear algebra and representations, commutative algebras, homological algebras.

PMA 405
Algebraic and Differential Topology
This is an introduction to differential and algebraic topology. The course covers topics on: Smooth manifolds and maps, theorem of Sard, vector field, Poincaré-Hopf theorem, germs and singularities. Homotopy, fundamental groups, covering space, Knots, Homology and cohomology.

Study Scheme

(1) Major Programme
First Year Potential Majors are required to take PMA 101.

Second Year Majors can choose to enter the 6-2 or 4-2-2 Programme. Those in the 6-2 Programme shall take one subject other than Mathematics as Minor subject whereas those in the 4-2-2 Programme shall take two different subjects other than Mathematics as Minor subjects. Majors in both Programmes are required to take PMA 201, PMA 202 and a statistics course for one semester.
6-2 Majors shall take six papers from Mathematics and two papers from the Minor subject in the Degree Examination. 4-2-2 Majors shall take four papers from Mathematics and two papers from each of the Minor subjects.

Third and Fourth Year Majors shall take such courses as laid down in the Degree Examination Scheme.

(2) Minor Programme
First Year Minors shall take PMA 111 or PMA 121 or PMA 123.
Second Year Minors shall take PMA 211.
Third and Fourth Year Minors shall take such courses as laid down in the Degree Examination Scheme.

Examination Scheme

(1) Major Programme
6-2 Majors are required to take:
(a) Three papers from Papers 1, 2, 3, 4, 5 in their Part I Examination.
(b) One from Papers 5, 12, 13, 14, 15 and two from Papers 5, 12, 13, 14, 15, 22, 23, 24 in their Part II Examination.
(No duplication is allowed)

4-2-2 Majors are required to take:
(a) Two papers from Papers 1, 2, 3, 4, 5 in their Part I Examination.
(b) Two papers from Papers 5, 12, 13, 14, 15, or one paper from Papers 1, 2, 3, 5, 12, 13, 14, 15 and one from Papers 4, 22, 23, 24 in their Part II Examination.

No duplication with either Part I or Minor subject degree paper is allowed.

(2) Minor Programme
All students minoring in Mathematics are required to take Papers 4, 22 or Paper 32 in their Part I Examination and one paper from Papers 4, 22, 23, 32 (excluding that passed in Part I) in their Part II Examination.

Physics

Course Description

NSC 111/112
Perspectives in Physical Science
1-yr. Elect.; Gen. Ed.
Both terms; 3/3 U; 3 Lect.
A qualitative survey of elementary physical sciences, organized around the historical development and philosophical foundation of the main concepts in physical sciences. The course is designed for interested students with a minimum of scientific training.

†PHY 101/102
General Physics
1-yr. Mj. Req.; 2-term
3/3 U; 3 Lect. 1 Tut.
An introductory course covering the principles and applications of mechanics, heat, light, sound, electricity and magnetism, and modern physics; suitable for potential majors in Physics. Co-requisite: PHY 181/182.

†PHY 103/104
General Physics
1-yr. Mn. Req.; 2-term
3/3 U; 3 Lect. 1 Tut.
Same as PHY 101/102; suitable for potential majors in Electronics, Computer Science, or Mathematics. Co-requisite: PHY 181/182.

†PHY 105/106
General Physics
1-yr. Mn. Req.; 2-term
3/3 U; 3 Lect. 1 Tut.
Same as PHY 101/102; suitable for potential majors in Chemistry, Biochemistry or Biology. Co-requisite: PHY 181/182.

†PHY 107/108
General Physics
1-yr. Mn. Req.; Others, Elect.
2-term; 3/3 U; 3 Lect. 1 Tut.
Same as PHY 101/102; suitable for potential majors in Medicine. Co-requisite: PHY 181/182.

PHY 121/122
Introductory Physics
1/2-yr. Elect.; 2-term
3/3 U; 3 Lect. 1 Tut.
Similar to PHY 101/102, but at a lower standard; suitable for potential majors in Chemistry, Biochemistry or Biology whose physics and mathematics foundations are relatively weak.

†PHY 181/182
Practical Physics 1
2-term; 1/1 U; 4 Lab.
Laboratory experiments illustrating the principles in PHY 101-108, required for those who take PHY 101/102, 103/104, 105/106 or 107/108.
This course is offered in 4 sections: Section A for potential major in Physics; Section B for potential major in Electronics, Computer
Science, Mathematics or Biology; Section C for potential major in Chemistry, Biochemistry or Biology; Section D for potential major in Medicine or Biochemistry.

PHY 021/022 2-yr. Mj. Req.; STOT; 2-term
Mechanics and Electricity (Problems) 1/1 U; 1 STOT
Small-group discussion on topics/problems in Classical Mechanics and Electricity and Magnetism.

PHY 201/202 2-yr. Mj. Mn. Req.; 2-term
Classical Mechanics 1st term: 2 U; 2 Lect. 1 Tut.
2nd term: 3 U; 3 Lect. 1 Tut.

Electromagnetism 1st term: 3 U; 3 Lect. 1 Tut.

PHY 204 2-yr. Mj. Req.; 2nd term
Basic Electronics 3 U; 3 Lect. 1 Tut.

PHY 281 2-yr. Mj. Mn. Req.; 2-term
Practical Physics II (A) ½½ U; 4 Lab./3 weeks
Laboratory experiments illustrating the principles in PHY 201/202.

Practical Physics II (B) 1st term: 1½ U; 4 Lab.
Laboratory experiments illustrating the principles in PHY 203.

PHY 284 2-yr. Mj. Req.; 2nd term
Practical Physics II (C) 1½ U; 4 Lab.
Laboratory experiments illustrating the principles in PHY 204.

\(^1\) For Majors other than Electronics.
Special Relativity  1st term; 1.5 U; 1 Lect. 2 Tut.
Galilean transformation, principle of relativity, Lorentz transformation. Relativistic mechanics; space-time and energy-momentum four vectors. Aberration and Doppler effect.

Atomic Physics  2nd term; 3.5 U; 3 Lect. 2 Tut.
Scattering cross-section. Discrete energy levels in atoms; the Bohr atom. Schrodinger equation; quantum numbers and quantization of energy and angular momentum. Atoms spectra: spectroscopic term classification; fine structure; L-S and j-j coupling. Zeeman effect. X-rays: absorption and diffraction.

†PHY 303  3-yr. Mj. Req., 1st term
Electromagnetic Theory  2.5 U; 2 Lect. 2 Tut.
Maxwell's equation. Electrostatics in empty and dielectric media; electro-magnet induction. Electromagnetic waves; field energy and momentum; boundary conditions of different media; production and propagation of electromagnetic waves.

†PHY 304  3-yr. Mj. Req., Mn. Opt.; 2nd term
Optics  2.5 U; 2 Lect. 2 Tut.
Superposition of waves; coherence and wave packets. Two-beam and multiple-beam interference; Fraunhofer and Fresnel diffractions. Polarization; Optical activity. Light interaction with matter: dispersion, scattering.

†PHY 305  3-yr. Mj. Req.; 1st term
Thermal Physics  2 U; 2 Lect. 1 Tut.
Thermodynamics: concept and measurement of temperature. First and second laws of thermodynamics; thermodynamic relations. Change of phase in the first and second orders. Low temperatures; third law of thermodynamics.

Kinetic Theory: Maxwell velocity distribution; free path distribution; effusion. Transport coefficients.

Practical Physics III  1st term; 2 U; 6 Lab.
Laboratory experiments illustrating the principles in PHY 301-303.

Practical Physics III  2nd term; 2 U; 6 Lab.
Laboratory experiments illustrating the principles in PHY 304.

†PHY 041/042  4-yr. Mj. Req.; STOT; 2-term
Seminar  1/1 U; 1 STOT
Small-group discussion on topics in Quantum Mechanics, Statistical Mechanics, Nuclear Physics, and Solid State Physics.
†PHY 401  
Quantum Mechanics  
4-yr. Mj. Req., Mn. Opt.; 1st term  
Experimental basis of quantum mechanics. Schrödinger equation; one dimensional quantized systems; harmonic oscillators. Hydrogen atom; perturbation; spin of the electron. Angular momentum; transition probability and selection rules. Two-electron problem.

†PHY 403  
Statistical Mechanics  
4-yr. Mj. Req., Mn. Opt.; 1st term  

†PHY 404  
Solid State Physics  
4-yr. Mj. Req., Mn. Opt.; 2nd term  

†PHY 406  
Nuclear Physics  
4-yr. Mj. Req., Mn. Opt.; 2nd term  
General properties of nuclei. Radioactivity. Nuclear reaction; neutron and position; artificial radioactivity. Neutrino, fission and chain reactions.

†PHY 407  
Physics and Computers  
3-5-yr. Mj. Opt.; 1st term  
Programming in BASIC, computer graphics, numerical integration, numerical solution of differential equations, Fourier analysis, the wave equation, random numbers, the Monte Carlo method and the statistical analysis of experimental data. This course is not open to students who minor in Computer Science.

*†PHY 408  
Biophysics  
3-4-yr. Mj. Opt.; 2nd term  

†PHY 410  
Gemmology  
3-4-yr. Mj. Opt.; 2nd term  
Elementary crystallography; crystal form and habit. Physical and optical properties of gem materials: refractive index and birefringence, absorption spectra, luminescence. Gem identification by various means. Description of gem materials. Synthetic gemstones.

* Not offered in 1983-84.
*†PHY 411 3-4 yr. Maj. Opt.; 1st term
Electronic Circuits 4 U; 2 Lect. 1 Tut. 4 Lab.

*†PHY 412 4-yr. Maj. Opt.; 2nd term
Digital Instrumentation 3 U; 2 Lect. 4 Lab./fortnight
This course gives a general concept of digital measurement in frequency, events, voltage, and pulse duration. It includes the analysis and synthesis of counters and some experiments.

†PHY 481/482 4-yr. Maj. Opt.; 2-term.
Practical Physics IV 2/2 U; 6 Lab.
Laboratory experiments illustrating the principles in PHY 401–406.

†PHY 483 4-yr. Maj. Opt.; Year
Physics Project 4 U; 6 Lab. &/or 2 Tut.
Projects on topics in theoretical or experimental physics, on which a student shall write a report and give a seminar.

†PHY 485 4-yr. Maj. Opt.; Year
Project with Thesis 6 U; 9 Lab. &/or 3 Tut.
Projects on topics in theoretical or experimental physics, on which a student shall write a thesis and defend the thesis orally after systematic investigation.

Advanced Mathematical Methods in Physics 2nd term; 3 U; 3 Lect.
Techniques in contour integration, methods of steepest descent and stationary phase; special functions; integral transforms; boundary value problems; approximation methods and numerical techniques. Stress will be given to the mathematical formulation of physical problems and the choice of appropriate methods for solution.

*†PHY 503 4-yr. Maj. & Grad. Opt.; 1st term
Polymer Physics 3 U; 3 Lect.
Physical states of amorphous polymers; crystallinity; orientation. Linear viscoelasticity, mechanical models; time-temperature equivalence; mechanical anisotropy. Heat capacity, thermal conductivity. Electrical conduction; dielectric constant and loss. Optical properties, nuclear magnetic resonance.

* Not offered in 1983-84.
*PHY 505  
Optical-electronics  
Optical resonator; laser oscillation; mode selection and control of laser radiation; detection and measurement; Fourier optics, holography and laser communication systems: non-linear optics.

Plasma Physics  

Study Scheme

(1) Major Programme  
First Year Potential Majors are required to take PHY 101/102, 181/182 and PMA 111. 
Second Year Majors are required to take PHY 021/022, 201/202, 203, 204, 281, 283, 284 and PMA 211. 
Third Year and Fourth Year Majors shall take such courses as laid down in the Degree Examination Scheme.

(2) Minor Programme  
First Year Minors shall take PHY 103/104 or 105/106 or 107/108 and 181/182. 
Second Year Minors shall take PHY 201/202 and 281. 
Third Year and Fourth Year Minors shall take such courses as laid down in the Degree Examination Scheme.

Examination Scheme

(1) Major Programme  
All Majors are required to take: (a) Papers 1, 2, 3A and 3B in their Part I Examination, and (b) Papers 4, 5 and one paper from Papers 6A+6B, 7 and 8 in their Part II Examination.

(2) Minor Programme  
All Electronics Majors minoring in Physics are required to take Paper 1 or 2 in their Part I Examination and one paper from Papers 1, 2, 4 and 5 in their Part II Examination. 
All non-Electronics Majors minoring in Physics are required to take Paper 1 or Paper 9 in their Part I Examination and one paper from Papers 1, 4 and 5 in their Part II Examination. 
A paper already taken in the Part I Examination cannot be taken again in the Part II Examination.

* Not offered in 1983-84.
Degree Papers

Paper 1 — Special Relativity and Atomic Physics
       PHY 301, 302
Paper 2 — Electromagnetic Theory and Optics
       PHY 303, 304
Paper 3A — Thermal Physics (half paper)
       PHY 305
Paper 3B — Practical Physics III (half paper)
       PHY 381/382
Paper 4 — Quantum Mechanics and Nuclear Physics
       PHY 401, 406
Paper 5 — Statistical Mechanics and Solid State Physics
       PHY 403, 404
Paper 6A — Special Topics in Physics (half paper)
       one from:
Paper 6B — Practical Physics IV/Project (half paper)
       either PHY 481/482 or 483
Paper 7 — Project with Thesis
       PHY 485
*Paper 8 — Electronic Instrumentation
       PHY 411, 412
Paper 9 — Electromagnetism and Optics
       PHY 203, 304 and either 283 or 382

* Not offered in 1983-84.
Statistics

Course Description

(Notes: Unless otherwise specified, all are 3-unit term courses of three hours of lectures and one hour of tutorial per week)

†STA 011 1-yr. Mj. Req.; STOT
Pro-Seminar 2nd term; 3 STOT
This is an elementary course introducing the basic concepts of statistics at a level which involves very little mathematics. Interesting examples from economics, education (I.Q. Test), genetics (Mendelian Theory), political science (Gallup poll) and other fields will be used to illustrate the underlying statistical concepts. This course also deals with basic descriptive statistical methods: collection methods, compilation, presentation and summarising of data, presentation of results in tabulated and graphical form, and interpretation of results.

†STA 021 2-yr. Mj. Req.; STOT
Pro-Seminar 2nd term; 3 STOT
This is a course conducted with student-orientated teaching. Topics for small-group discussion may be chosen from but not confined to probability theory, stochastic processes, and their applications.

Fundamentals of Statistics Year; 6 U
This course offers background knowledge of statistics through discussions of fundamental logical principles. Materials considered will be probability theory, sampling distribution, estimation, testing of hypotheses, elementary analysis of variances, data analysis, nonparametric inference and statistical decision theory.

†STA 221 2-yr. Mj. Req.; Year; 6 U
Statistical Programming
This is an introductory course in basic computer programming concepts in high level languages, and the application of computer technology to statistical problems in social sciences and data management. Topics include data filing, inventory, presentation of data in numerical form and graphical form, frequency distribution, construction of histograms and charts, and descriptive statistics.

STA 231 2-yr. Elect.; 1st term
Introductory Statistics I
This is a term course in elementary statistics with emphasis on the application of basic statistical techniques to behavioral, natural and social sciences. The contents cover statistical treatment and description of data, elementary probability theory with applications, sampling frequency distributions, simple methods of estimation, fundamental ideas of hypotheses testing and applications.
STA 232
Introductory Statistics II
This is a continuation term course of STA 231 with emphasis on the application of statistical techniques to behavioral, natural and social sciences. The contents cover simple regression, correlation analysis, goodness of fit tests, contingency tables, nonparametric statistical methods, index numbers, elementary decision theory with application, simple experimental design and analysis of variance. Prerequisite: STA 231.

†STA 301
Experimental Designs
This course is designed to study various statistical aspects of models in experimental design. It covers factorial, blocking, and nested designs, fixed, random, and mixed models. Emphasis will be placed on the use of these models in analysing real data. Introduction to the general concept of linear model and its applications to experimental design and regression analysis will be given. Prerequisite: STA 201 or equivalent.

†STA 302
Applied Regression
This course involves the general concepts of linear model and its applications to natural and behavioral science data. It covers the theory of least squares estimation, linear and multiple regression and correlation, stepwise regression, one way and two way analysis of variance, and analysis of covariance. The use of the related statistical package programs will be demonstrated.

†STA 303
Statistical Quality Control
This course deals with the application of statistical techniques to problems associated with the quality of a product which is produced in large numbers. It covers construction of control charts for variables, control charts for attributes, cumulative sum control charts. Design of acceptance sampling plan by attributes, acceptance sampling plan by variables, and rectifying inspection.

†STA 304
Actuarial Science
This is an introductory course in basic principles of actuarial science. It deals with actuarial aspects of life assurance, annuities, pension scheme and other social and private insurance. Topics include life contingencies, annuities, assurances, premium, measurement of mortality, pension fund and risk theory.
†STA 311
Survey Sampling
3-yr. Mn. Opt.; 1st term
This course is an introduction to the design, analysis and interpretation of sample surveys. Types of sampling covered include simple random sampling, stratified random sampling, systematic sampling, cluster sampling, and double sampling. Methods of estimation are described to estimate means, proportions, totals, ratios and regression coefficients. Detailed description of sample size determinations to achieve goals of desired precision at least cost. Also, techniques of questionnaire design, the problems of nonresponse, and sources of nonsampling error. Pre-requisite: STA 201 or equivalent.

†STA 312
Data Analysis
2 Lect. 2 Tut.
3-yr. Mn. Opt.; 2nd term
This course emphasizes the use of statistical package programs in assessing real data. Topics include data screening, detection of outliers and multivariate outliers, stratifying the data, summary statistics, statistical plots, correlations, cross tabulations, test for normality, transformations, regression and stepwise regression.

†STA 401
Applied Multivariate Analysis
6 U
4-yr. Mn. Opt.; Year
This course deals with major multivariate statistical techniques in analysing natural and behavioral science data. Topics include multiple and partial correlations. $T^2$-statistics, discriminant analysis, cluster analysis, canonical correlations, principal components, factor analysis and structural equation models. Strong emphasis will be placed on use of existing computer programmes.

†STA 411
Time Series and Forecasting
6 U
4-yr. Mn. Opt.; Year
This is a course in stationary time series with applications in economics, marketing and physical sciences, with emphasis on autoregressive and moving average models. Autocovariance, autocorrelation, cross-covariance, filtering, seasonal analysis and spectral analysis. Exponential smoothing, Box-Jenkins forecasting procedure and prediction theory. Baysian and multivariate forecasting. Use of computer programmes for covariance and spectral estimation.

*†STA 421
Computational Statistics
4-yr. Mn. Opt.; 1st term
This course emphasizes the computational aspects of various statistical techniques. Topics includes: Gauss-Jordan pivoting, matrix inversion, nonlinear regression and basic methods of nonlinear programming applied to generalized least squares and maximum likelihood estimation.

* Not offered in 1983-84.
*†STA 422
Path Analysis
This is an introductory course with emphasis on the application of path analysis to behavioral science and natural science. Topics include: path diagram, identification of models, estimation of parameters, significance of path coefficient and goodness-of-fit test on the causal system.

Study Scheme

(1) Major Programme
1st year: The student is required to take STA 011, PMA 111 or its equivalent, and 3 units in Computer Science.
2nd Year: The student is required to take STA 021, 201, 221 and PMA 211 or its equivalent.

(2) Minor Programme
2nd Year: The student is required to take STA 201 or its equivalent.
3rd year: The student is required to select (according to the examination scheme) from the 3rd year degree examination courses for a total of 6 units.
4th year: The student is required to select (according to the examination scheme) from the 4th year degree examination courses for a total of 6 units.

Examination Scheme

Minor Programme
Students minorin in Statistics are required to take one paper from Papers 1, 2 and 3 in their Part I Examination, and one paper from Papers 11, 12 and 13 in their Part II Examination.

FACULTY OF SOCIAL SCIENCE

Anthropology

Course Description

(Notes: Unless otherwise specified, all are 3-unit term courses of two hours of lectures and one hour of tutorial per week)

Man and Culture. Others, Elect.; Both terms
A general anthropological course for freshman students dealing with the nature, the development, and the utilization of man's capacity for culture. The aim is to enable the student to acquire an adequate understanding of man and his place in nature as a necessary part of general education.

Social Anthropology Others, Elect.; 2nd term
An introduction to the basic principles and subject matter of social anthropology with emphasis on the development of concepts and their relation to human behaviour. The major subfields within the discipline are examined with a view to familiarizing the student with their conceptual and empirical contributions to the concepts of social anthropology.

Culture and Behaviour Others, Elect.; 2nd term
The course is intended to explore issues that stem from the concepts of behaviour in relation to concepts of culture. Problems concerning the effect of individual behaviour, in terms of biological and psychological conditions, on culture and vice versa will be discussed, as well as issues concerning basic definitions, pioneer works, biological basis of behaviour and personality, socialization, culture and cognition, "national character", and methodology.

Chinese Culture and Society Others, Elect.; 1st term
This course provides an anthropological approach to China. Discussions concentrate on its major cultural and social institutions both traditional and contemporary, such as family, marriage, kinship, lineage and clan, economic system, religion, value orientation, etc.

Applied Anthropology Others, Elect.; 2nd term
2 Lect. 1 Tut. 2 Lab.
This course is designed to be an introduction to the basic concepts concerning application of anthropological knowledge in modern world.
* Not offered in 1983-84.
The emphasis will be placed on application of anthropology in the fields of education, public administration, business and personnel management, planned acculturation, economic and political development, and health and medical practices.

†ANT 031
Guided Study in Anthropology
3-4 yr. Mj. Req.; STOT
2nd term; 3 STOT
This STOT course is related to the students' major field but not tied to any particular paper. Students will be guided to make a general exploration in anthropological literatures with special emphasis on related Chinese documents.

†ANT 311
Human and Cultural Evolution
Others, Elect.; 1st term
2 Lect. 1 Tut. 2 Lab.
This course is a general discussion of the origin and development of human beings and their culture. It covers major topics, conventionally included in such basic anthropological courses as "physical anthropology" and "prehistory".

†ANT 321
Anthropological Methods
Others, Elect.; 1st term
2 Lect. 1 Tut. 2 Lab.
This course provides a comprehensive introduction to anthropological research techniques: the field work process, models of ethnographic analysis, comparative approaches, and cross-cultural surveys. Students will be taught to design and conduct research projects by themselves.

†ANT 331
Religion and Culture
Others, Elect.; 2nd term
This course explores the complex interrelationship between religion and the other dimensions of cultural behaviour. Among topics considered are: the cross-cultural appropriateness of the term, "religion", the relationship between religious ideology and behaviour, and the process of secularization.

†ANT 340
Topics in Ethnography
1st term
This course examines selected topics, both area-related and problem-oriented, within the field of ethnography. Semester offerings will vary with the instructor and may include such topics as regional studies, classic and contemporary ethnographic writings, and the problem of the anthropologist and fieldwork.
†ANT 341
Cultures and Peoples of Asia
A survey of both continuity and change in the social, economic, political and religious systems of representative cultures and peoples in East and Southeast Asia.

†ANT 351
Culture and Management
This course deals with the cultural factors in various management problems of industrial society: e.g., organization principles, human relations, personnel development and decision making in the fields of marketing and business. Emphasis is placed on the application of current anthropological knowledge to these problems.

†ANT 041
Field Research in Anthropology
In this STOT course, students will be guided to complete a research project by themselves. In the process, they will become familiar with basic procedures and techniques of anthropological research. Prerequisite: ANT 031.

†ANT 401
Thesis

†ANT 411
Language and Culture
An overview of the main directions of linguistic theory and its relationship to issues of linguistic anthropology. Discussion will include such topics as componental analysis, cognition, and ethnosciences.

†ANT 421
Anthropological Theory
The course provides an in-depth analysis of major schools in anthropology: cultural evolutionism, diffusionism, functionalism, historical particularism, structuralism, etc. All key figures in anthropology, both classic and contemporary such as Tylor, Morgan, Boas, Malinowski, Radcliffe Brown and Levi-Strauss will be discussed.

†ANT 431
Topics in Anthropology
This course focuses on current methodological and theoretical problems in anthropology. A number of topical areas will be treated in order to demonstrate the importance of the selected concerns in the study of man and culture.
†ANT 441  
Folk Culture in Hong Kong  
Others, Elect. 2nd term  
This course is methodologically oriented. It guides the students to rediscover their native and traditional culture through first-hand investigation. In the process, it will familiarize students with the basic anthropological field methods and techniques including the use of audio-visual aids.

†ANT 451  
Anthropology of Communication  
Others, Elect.; 2nd term  
2 Lect. 1 Tut. 2 Lab.  
This course will essentially be an introduction to ethnographic film. Each student will be required to make a short ethnographic film on a topic concerning Chinese culture in Hong Kong. The major emphasis of the course will be on the analysis and interpretation of film as a tool in understanding culture as a system of communication.

**Study Scheme**

(1) **Major Students**  
Major students are required to take a minimum of 14 courses (42 units) which must include all core courses.  
In addition, they are required to take up to 12 units of courses in other fields to be selected from the following groups: Group A — PSY 201, SOC 204, STA 231, STA 232; Group B — FAA 322, HIS 343; Group C — SOC 311, SOC 367, SOC 368; Group D — GEO 252, GEO 331, GEO 353; Group E — REL 341, HIS 367; Group F — PSY 341, PSY 342, PSY 351, PSY 352; Group G — ENG 215, ENG 216, ENG 454; Group H — CSC 111, CSC 211; Group I — HIS 330, GPA 205, GPA 422. Students may choose not more than six units from one group and the course they choose should not fall in the field of their minor subjects.

(2) **Minor Students**  
Minor students are required to take ANT 101, plus five other Anthropology courses, adding up to a minimum of 18 units.
Examination Scheme

(1) Major Programme
In addition to the completion of the Core Courses, all students majoring in Anthropology must:
1. Pass Paper 1 and Paper 2 in the Degree Examination; and
2. Fulfill one of the following two requirements:
   (a) Write a thesis and complete two more papers other than Paper 1 and Paper 2;
   (b) Complete three more papers other than Paper 1 and Paper 2.

(2) Minor Programme
In addition to the completion of the course ANT 101, all students minoring in Anthropology are required to take:
1. Two papers which must include Paper 1; and
2. One additional Anthropology course of the student's choice.

Degree Papers

Paper 1 — Principles of Anthropology (at least two courses from)
ANT 211, 311, 411

Paper 2 — Theory and Methodology (at least two courses from)
ANT 321, 421

Paper 3 — Cultural Anthropology (at least two courses from)
ANT 231, 331, 431

Paper 4 — Ethnography (at least two courses from)
ANT 241, 340, 341, 441

Paper 5 — Anthropology and the Modern World (at least two courses from)
ANT *251, 351, 451

* Not offered in 1983-84.
Economics

Course Description

(Notes: Unless otherwise specified, all are 6-unit year courses of three
hours of lectures per week.)

ECO 101  Introductory Economics  1-yr. Elect.; Both terms
   3 U; 3 Lect.
This course is designed to be a basic economic course for those students
who have never had previous training in economics. The emphasis of
this course is placed on social framework and current economic
problems. Major topics for discussion include: the role of economics in
social science and its relations to other disciplines; the economic
framework; types of economic system; current economic problems
(including economic problems of Hong Kong).

†ECO 201  Basic Microeconomic Theory  1-2-yr. Mj. Mn. Req., Both terms;
   3 U; 3 Lect.
This course covers microeconomic theory at the principles level. Major
topics include: consumer's and producer's behaviours, laws of demand
and supply, markets and pricing, and theory of distribution.

†ECO 211  Basic Macroeconomic Theory  1-2 yr. Mj. Mn. Req.
   Both terms; 3 U; 3 Lect.
This course covers macroeconomic theory at the principles level. Major
topics include: the composition and determination of national income,
consumption and investment theories, the banking system and the
supply of money, unemployment and inflation, fiscal and monetary
policies, balance of payments and the adjustment process under
different exchange rate systems.

This is an introductory course of statistics. It covers frequency distribu-
tion, index numbers, correlation, time series, the theory of sampling
and probability, and statistical tests of significance.

   The requirement to take this course can be waived for Economics
   Majors who minor in Statistics and take Fundamentals of Statistics
   (STA 201).

†ECO 203 (ACG 101)  Introductory Accounting  1-2-yr. Mj. Req.
   3 Lect. 2 Lab.
This course emphasizes accounting concepts and principles, and intro-
duces the use of accounting data in controlling and planning business
operations. Discussions include: basic structure of accounting;
accounting for assets, liabilities, and ownership interest; the application
of accounting principles to various forms of business organization; bank reconciliation, internal control, statement preparation and analysis.

ECO 204 2-yr. Elect.
Introductory Quantitative Economics
This course is divided into two parts. Part one deals with the application of simple mathematical tools to economic analysis. Major topics for discussion include: static analysis, comparative-static analysis, static optimization analysis, continuous and discrete dynamic models, simple mathematical programming and game theory. The second part deals with applied econometrics. Topics covered include: linear regression model, uses of summary statistics, statistical inference, and applied econometric studies of the economy of Hong Kong.

ECO 206 2-yr. Elect.; Both terms
The Economy of Hong Kong 3 U; 3 Lect.
This course covers all aspects of the Hong Kong economy. Students will have the opportunity to learn how to read economic news and columns in newspapers, how to collect materials, and how to analyze the economic problems of their community by simple theoretical tools.

*ECO 207 2-yr. Elect.; 2nd term
The Economy of Southeast Asia 3 U; 3 Lect.
A general survey of the economic development of the Southeast Asian countries since 1945. Major topics for discussion include agricultural, industrial and commercial development of the region, population growth, social and institutional changes. It also includes the current economic problems and policy issues of the Southeast Asian countries.

†ECO 301 3-4-yr. Mj. Opt.
Money and Banking
Major topics in this course include the structure of the money and capital markets, the nature of credit and money, the functions of commercial banks, the role of the central bank, expansion and contraction of credit in relation to the determination of national income and employment, and the theory of money and the general price level.

ECO 302 (HIS 340) 3-4-yr. Elect.
Chinese Social and Economic History
This course is a general introduction to the development of Chinese society and its economy since the most ancient times. It aims at giving the students a better understanding of the origin and evolution of the Chinese civilization.

* Not offered in 1983-84.
†ECO 303
Intermediate Microeconomic Theory
3-yr. Mj. Req.; 1st term
This course covers the allocation, production and distribution theories in microeconomics. Topics include utility and preference, consumer demand, production and cost, market structure, general equilibrium and welfare economics. Analytical aspects will be emphasized. Mathematical concepts and maximization techniques will be used.

†ECO 313
Intermediate Macroeconomic Theory
3-yr. Mj. Req.; 2nd term
This course covers income determination, stabilization and growth. Emphasis will be placed on economics modelling. Major topics include classical and Keynesian income determination models, neoclassical and Keynesian growth models, consumption and investment models, and stabilization policies.

†ECO 304
Public Finance
Major contents discussed in this course cover economic welfare and equity norm, public expenditure, public revenue, taxation – theory and practice, financing of quasi-public goods, budget systems and cost-benefit analysis, public debt, fiscal policy and development finance.

†ECO 305
Western Economic History
This course is aimed to survey and assess the economic development of the Western world from mid-18th century to the present. Development since industrial revolutions is particularly emphasized. The subject matter will be treated both historically and analytically based on approaches which combine disciplines of humanities and social sciences.

†ECO 306
The Chinese Economy since 1949
A general survey of Chinese economic development since 1949. Topics include: initial conditions for modern economic growth, rates of growth and structural changes, agricultural policy and performance, collectivization, capital formation and financing investment, central planning and industrial management, foreign trade, welfare and social consequences of growth.

ECO 307
Methods of Economic Statistics II
3-4-yr. Elect.
This course consists of two parts, statistical theory and econometric modeling. Topics covered are: probability theories, probability distributions, random variables and their distribution functions, and moment generating functions, two-variable regression model, multiple regression model, use of dummy variables, serial correlation, heteroscedasticity,
instrumental variables, and estimation of simultaneous equation models.

ECO 308 (HIS 443) 3-4-yr. Elect.
Economic History of Modern China 2 Lect. 1 Tut.
This course is designed to study the economic development of China from the Ming Dynasty to the early part of the Republic of China.

†ECO 309 3-4-yr. Mj. Opt.; 1st term
Urban Economics 3 U; 3 Lect.
This course gives a brief survey of different urban problems and policies designed to correct them. Emphasis will be placed on urban land use, housing, transportation, urban environment, and urban planning.

†ECO 310 3-4-yr. Mj. Opt.; 2nd term
Regional Economics 3 U; 3 Lect.
This course deals with the spatial order of the economy. Topics include: the nature of the regional problems, regional growth theories, urban-rural migration, industrial location patterns, and regional planning techniques.

†ECO 041 4-yr. Mj. Req.; STOT
Guided Study in Current Economic Problems
1st term: 2 U
2nd term: 1 U
2 STOT
The major concern is the application of student-orientated method of teaching to the analysis of current economic problems. Students are required to select a topic of research interest related theoretically or empirically to current economic problems and investigate it under the intensive guidance of a teacher. Small group discussions are mandatory. The requirements include one or more research reports, presentation of paper(s) and participation in small group discussion.

†ECO 401 3-4-yr. Mj. Opt.; 1st term
International Trade 3 U; 3 Lect.
A general survey of the pure theory of international trade and an examination of its relation to both international and domestic policies. Major topics include: the theory of comparative advantage, international trade and factor prices, income distribution, economic development, trade policy and economic welfare.

†ECO 411 3-4-yr. Mj. Opt.; 2nd term
International Finance 3 U; 3 Lect.
A general survey of the monetary theory of international monetary economics and an examination of its relation to both international and domestic policies. Major topics include: the balance of payments, the determination of exchange rates, international adjustment mechanism,
trade multipliers and national income, international capital movements, and developments in the international monetary system.

†ECO 402  3-4-yr. M.j. Opt.
Comparative Economic Systems
Contrasting economic organizations and performances of different economic systems. Emphasis will be laid on application of economic theory rather than factual description. Discussions include the theory and practice of the Soviet type economy and its Eastern European variants, the planning experiences in Western European countries, the Soviet model and underdeveloped countries, planning in India and mainland China, and development planning in other underdeveloped countries in Asia.

ECO 403  4-yr. Elect.
Basic Mathematical Economics
This course aims at furnishing students with mathematical tools for economic analysis as well as some common operations analysis currently in practice. The first part of the course deals with selected topics in economic theory i.e. consumer behaviour, firm behaviour, theory of the market, general equilibrium, welfare economics, and economic dynamics. The second part introduces some basic concepts of operations research methods which include linear and non-linear programming, network analysis, inventory theory, game theory, and elementary queuing theory.

ECO 404  3-4-yr. Elect.
History of Economic Thought
A critical review of the development of economic thought from the eighteenth century to the present. The discussion concentrates on classical, Marxian, neo-classical and Keynesian thought. An examination of the applicability of western economic doctrines to the analysis of economic problems of the underdeveloped countries in Asia will also be included.

†ECO 405  3-4-yr. M.j. Opt.
Economic Development
This course is basically concerned with the problem of poverty in the less developed countries of the world. The state of underdevelopment and its causes are studied as well as various theories of economic and social development. Much of the course is devoted to an examination of actual problems such as land reform, education, economic power and the relations between the rich countries and the poor countries with special attention being given to Asia.
ECO 406  3-4-yr. Elect.
Labour Economics
This course emphasizes both theoretical and empirical studies. Topics
covered include: Static and dynamic models of the demand for labour.
Allocation of time and effort, and the labour supply of men and
women. Human capital theory, Economic behaviour of the household
and life cycle theory. Theories of search, signalling and contracts.
Theories of personal distribution of income. Economic demography.
Discrimination in the labour market. Labour union. Unemployment
and inflation.

*ECO 412  3-4-yr. Elect.; 1st term
Economic Structure Analysis  3 U; 3 Lect.
This course consists of two major parts: national economic accounting
and interindustry analysis. The first part — national economic account-
ing — is intended to provide the students with a systematic under-
standing of the concepts and methods of measurement of national
income and its components and related aggregates. The national
accounting system is developed in three steps, starting from a simplest
system of national income accounts and ending up with a comprehen-
sive system encompassing the more detailed national income accounts,
the input-output matrix, and the financial accounts. Emphasis is placed
on the anatomical structure of the economy and the interrelationships
between its constituent parts. The second part — interindustry analysis
— shows how interindustry models can be consistently constructed on
the basis of the input-output matrix with particular emphasis on appli-
cations. The discussion of the choice of alternative models leads to the
use of linear programming in resource allocation.

Study Scheme

(1) Major Programme
Students majoring in Economics must take the core courses in the year
specified.

Major students must take one year-course in Mathematics, preferably
in the first year.

Major students must take 6 units each from Groups A and B of the
core optional courses (Group A: ECO 301, 304, 309, 310, 401, 411;
Group B: ECO 305, 306, 402, 405) in the third and fourth years,
taking 6 units every year.

Economic Majors must complete a minimum of 51 units of
Economics courses, including 39 units of core/core optional courses,
plus 12 units of Economics elective courses (ECO 101, 204, 206,
209, 302, 307, 308, 403, 404, 406, 412 and any course among the two

* Not offered in 1983-84.
groups of core optional courses not taken as a core optional course). Together with a minimum of 12 units imposed by his Minor field, he should take a total of no less than 63 units.

(2) **Minor Programme**

A student minoring in Economics must pass ECO 201 and 211. Business Majors can use GBM 105 (Economics for Business Studies) to substitute for the two courses of ECO 201 and 211.

He must complete 12 units for which degree papers are offered.

**Examination Scheme**

(1) **Major Programme**

All students majoring in Economics are required to take:

(a) Part I: Paper 1 and any one or two papers from Papers 2 to 14 plus one paper in an approved minor subject.

Geography

Course Description

(Notes: Unless otherwise specified, all are 3-unit term courses of three hours of lectures per week.)

†GEO 101  
Frontiers in Geography  
1-yr. Mj., Mn. Req.; Both terms
The course introduces first year students to the basic concepts of Geography, in particular the development of the contemporary New Geography. Brief introduction to the major subjects will be given to familiarize students with the courses they intend to take in later years. Modern geographic techniques, in particular quantification, will be introduced in the course of integrating the various subjects in common research. The role of New Geography in the convergence of other social sciences in interdisciplinary research will be emphasized. The course will be of value to other social science students who wish to broaden their view (spatial perspective) on real world problems.

GEO 102  
Perspectives in Environmental Studies  
Soc. Sci. 1-4-yr. Elect.  
Non Soc. Sci. 2-4-yr. Elect.  
1st term
This course brings together concepts and methods of the physical and social sciences to provide students with an intellectual basis for understanding the structure, operation and complexities of the social, physical and biological environments; and also to provide them with an ecological perspective to appraise contemporary environmental problems in the context of man’s perception of, and interactions with, the surrounding biophysical environment. There would be special emphasis on developing student’s ability to recognize and analyze current environmental issues and to evaluate the environmental implications of different economic systems and socio-political processes, including in particular, strategies for environmental management.

†GEO 021  
Data Collection and Field Techniques  
2-yr. Mj. Req.; STOT; 2nd term  
3 U; 2 STOT + Fieldwork
The course aims at developing students’ ability in independent library research, field data collection techniques and analysis on various aspects of Hong Kong geography as well as critical thinking and analysis of current issues related to geography.

†GEO 211  
Quantitative Cartography  
2-yr. Mj. Req.; 1st term  
3 U; 2 Lect. 3 Lab.
This course is to acquaint students with theories and methods of construction of diagrams and maps from statistical data. It also covers the principles and problems of map designing.
GEO 212
Map and Aerial Photograph Interpretation
An introduction to the use of maps and aerial photographs and their interpretation in geography. Students will be introduced to various techniques of taking measurement from maps and aerial photographs and their implication in research.

†GEO 221
Statistical Analysis in Geography I
This course deals mainly with the appropriate applications of statistical techniques in geographical research. In the first term, the contents are designed to be a general introductory survey of the application of certain statistical models in geography. In the second term, emphasis is placed upon multivariate analysis and complex organizations.

GEO 222
Statistical Analysis in Geography II
Course outline please see GEO 221 Statistical Analysis in Geography I.

*GEO 232
Conservation of Natural Resources
This course aims at providing an understanding of the relations between population and resources and will cover the following topics: (1) definition, classification and evaluation of resources; (2) aims and philosophy of conservation; (3) the major resources including soil and agriculture, water, air, forests, minerals and energy; (4) recycling and residuals management.

†GEO 241
General Geology
This course provides a basic knowledge of the geology of the earth. Topics include: (1) Minerals and rocks; (2) Plate tectonics; (3) weathering, erosion and land forms.

GEO 242
Physical Geology
This course provides an in-depth study of the nature of earth materials, their mode of emplacement and structural relations.

†GEO 251
Population Geography

* Not offered in 1983-84
GEO 252
Cultural Geography
Cultural geography compares the changing distribution of "cultural areas" with the distribution of other features of the earth’s surface, in order to identify environmental features characteristic of a given culture and if possible to discover what role human action plays or has played in creating and maintaining given geographic features.

†GEO 261
Theories in Urban and Economic Geography
This course provides students with a basic understanding of location theories in both urban and economic geography, including the classical von Thünen agricultural location theory, Weber’s industrial location theory, Christaller’s central place theory, the gravity models and contemporary location theories and models.

GEO 262
Economic Geography
The course is to analyse the spatial relations among the primary, secondary and tertiary activities. The emphasis is on the structure of, and the interrelations among systems of international trade, transport, agriculture, industries, wholesaling, retailing and tourism.

GEO 273
Geography of East and Southeast Asia
This course aims to provide an insight into the resource base, the process of modernization and the development potentials of the region.

†GEO 031
Geography Projects of Hong Kong
Students will be required to undertake individual or group projects in any field of geography with reference to Hong Kong under the guidance of their instructors. The topics of the project will be decided by the individual student/group and instructors concerned.

GEO313
Surveying
GEO 323 Models in Geography
3-4-yr. Mj. Mn. Elect.; 2nd term
This course emphasizes on the general principles of model building in geographical research. Basic geographical models and various modelling methods will be introduced.

†GEO 331 Man and Environment
3-4-yr. Mj. Req.; 1st term
A general introduction to the nature of the physical environment, and its relationship with man in pre-industrial and modern times. The current major environmental problems will be dealt with, and possible solutions to these problems will be discussed. The course will also cover the principles and methods of environmental impact assessment.

*GEO 333 Urban Environmental Problems
3-4-yr. Mj. Mn. Elect.

GEO 343 Physical Geomorphology
3-4-yr. Mj. Mn. Elect.; 2nd term
This course focuses on the analysis of geomorphic processes operating on the earth surface.

GEO 353 Behavioural Geography
3-4-yr. Mj. Mn. Elect.; 2nd term
The subject matter of this course is an area lying at the interface of geography and psychology that has been neglected by both disciplines in the past and is now receiving their close attention: the response of human beings to their existing physical surroundings, whether these be natural or man-made.

This course will cover two distinct but related topics: (1) the movement of persons and households in space, and (2) the nature of the "mental maps" that these individuals and households carry around in their heads, and which they consult in the process of making movement decisions.

GEO 363 Urban Geography
3-4-yr. Mj. Mn. Elect.; 2nd term
This course discusses the internal structure of the cities including the Central Business District, the zone of transition, the residential zones and the area for intra-urban manufacturing activities; social area analysis, ethnic segregation, and inequalities; and the system of movement in the city and its possible function in breaking down the physical and social barriers.

* Not offered in 1983-84.
†GEO 381  
Principles of Climatology  
The course will aim at providing the student of geography with the "energy-balance" approach to the understanding of the climate environment. The nature and significance of the essential weather parameters, the thermodynamics of the basic meteorological processes and the rectification of the heat imbalance by circulation systems will be the main focus. Familiarity with the handling and use of meteorological instruments, the maintenance of a standard observation weather station and the presentation of weather "reports" will also be integrated into the course.

GEO 382  
Climates of the World  
The course aims at providing an understanding of "regional climatology" as a process in synthesis. The significant "indices" in the identification of "climates" from differing standpoints will be attempted. The man-climate environments in the context of man's response as portrayed in his economic activities will be studied. The significance and the causation of climatic "variation" in its manifold forms will also be attempted.

†GEO 391  
Planning Theory and Method  
This course introduces the history, theories, methods, and techniques of planning, as well as the organizational aspects of a planning institution.

†GEO 471  
General Geography of China  
This course deals with the following topics: (1) Location and relief. (2) Climate. (3) Hydrogeography. (4) Soils. (5) Biogeography. (6) Natural regions. (7) Resources. (8) Population of settlement. (9) Irrigation and agriculture. (10) Industry, trade and communication.

GEO 472  
Regional Geography of China  
This course studies the regional geography of China and includes the following regions. (1) South China. (2) Central China. (3) North China. (4) North-East China. (5) West China. (6) Inner Mongolia. (7) Tibet. (8) Sinkiang. (9) North-West China. (10) South-West China.

GEO 483  
Micro-climatology  
The course is designed to focus attention upon the generally unfamiliar "micro-climates" as opposed to the meso-climates and macro-climates. Micro-climatology will be concerned here both with the naturally-induced and man-induced features. The emphasis will be upon the
geographical significance of "micro-climates" as related to the surface-level climates and the highly localised climates as affecting plant and man.

GEO 492
Urban Planning
3-4-yr. Mj. Mn. & Grad. Elect.
2nd term
This course emphasizes on the history, theories, methods, and models of urban planning. Examples of planning in Hong Kong will be employed to substantiate the theoretical parts.

GEO 493
Regional Planning
3-4-yr. Mj. Mn. & Grad. Elect.
2nd term
This course emphasizes on the history, theories, methods and models of regional planning. Examples of planning in Western and Asian countries are employed to substantiate the theoretical parts.

GEO 400
Directed Research
3-4-yr. Mj. Elect.; Year
6 U
Research methods in geography are introduced to students and a research thesis has to be written under the supervision of faculty.

Study Scheme

(1) Major Programme
Student-orientated Teaching are introduced to Second and Third year students.
Students majoring in Geography are required to take a total of 30 term-units of core courses and to fulfil the Degree Examination requirements.

(2) Minor Programme
Students minoring in Geography are required to take a minimum total of 18 term-units.

Examination Scheme

(1) Major Programme
All students majoring in Geography are required to take any five papers from Papers 1 to 10 in their Parts I and II Degree Examinations.

(2) Minor Programme
All students minoring in Geography are required to take any two papers from Papers 1 to 9 in their Parts I and II Degree Examinations.
Degree Papers

Paper 1  —  Cartographic Techniques *(at least two from*)
         GEO 211, 212, 313

Paper 2  —  Quantitative Techniques in Geography *(at least two from*)
         GEO 221, 222, 323

Paper 3  —  Environmental Geography *(at least two from*)
         *GEO 232, 331, *333

Paper 4  —  Physical Geography *(at least two from*)
         GEO 241, 242, 343

Paper 5  —  Human Geography *(at least two from*)
         GEO 251, 252, 353

Paper 6  —  Urban and Economic Geography *(at least two from*)
         GEO 261, 262, 363

Paper 7  —  Regional Geography *(at least two from*)
         GEO 273, 471, 472

Paper 8  —  Climatology *(at least two from*)
         GEO 381, 382, 483

Paper 9  —  Planning *(at least two from*)

A course designed to cultivate clear thinking and to develop habits of
application regarding the art and science of government and public
administration through close and frequent interactions between a
teacher and a small group of students. Contents and format may be
tailored to the needs of each group through teacher-student consulta-
tions.

Study Scheme

(1) Major Programme
Major students are required to take a minimum of 17 GPA courses
(57 units) and STA 231.
   1st year: a Major student should take GPA 102.
   2nd year: a Major student should take all the core courses offered
   at the second year level, i.e. GPA 203, 204, 205, 206 plus a STOT GPA
   021 and STA 231.
   3rd year: a Major student should normally take GPA 307, 308 and
   GPA 330.
   4th year: a Major student should take GPA 041.
   A transfer Major student should make up all the required core
   courses.
   A Major student should decide on how many papers to sit for at
   their Part I and Part II Degree Examinations. Normally a student will
   choose between a 2-3 or 3-2 combination.

(2) Minor Programme
Minor students are required to take a minimum of 5 GPA courses (15
units).
   There are no core programmes as such for Minor students. But they
   are required to take GPA 102 before they take other GPA courses.
   2nd year: a Minor student normally takes any one to two courses
   from GPA 203, 204, 205 or GPA 206.
   3rd and 4th year: a Minor student would normally take two or
more GPA courses each year according to his interests or choice of Degree Examination papers.

A Minor student should take one paper in his Part I Degree Examination and one paper in his Part II.

**Examination Scheme**

(1) *Major Programme*

All students majoring in Government and Public Administration are required to take five papers for the Degree Examination; at least one paper must be taken from each of Groups A, B and C.

Prior to the beginning of their fourth year, Major students may apply to the Board of Studies for permission to write a thesis under the supervision of an instructor in lieu of one degree paper.

(2) *Minor Programme*

All students minoring in Government and Public Administration are required to take two papers for the Degree Examination; one paper from either Group A or Group B, plus one paper from Group C.

**Degree Papers**

Courses are grouped below according to the Degree Papers to which they are related. These courses are offered to students taking the Papers concerned but can also be taken by other students on an elective basis.

Journalism and Communication

Course Description

†JLM 101/102
Mass Media, Society and Men
3 U; 3 Lect.; 1st/2nd Term
An introductory survey of the mass media, their development, structure, functions, philosophy, and process. The strengths and flaws of mass communication, what it can do for men, and can do to men. The controls and social responsibilities of the media. Effects of mass and interpersonal communication in modern society. Roles of the mass media, their message and coverage, in Hong Kong and other parts of Asia. Open to non-majors.

JLM 111
Photojournalism
2nd term; 2 U; 1 Lect. 2 Lab.
Fundamentals of news photography and photographic techniques including the skilful use of cameras, darkroom processes and picture editing. Basic principles and uses of news photography as creative communication.

*JLM 203
Fundamentals of Information Sciences
2-yr. Mj. Elect.; 1st term
2 U; 2 Lect. 2 Lab.
An introduction to information science; information centre activities; library information resources; the basics of information processing technology and computer applications.

JLM 204
Media Functions and Management
2-yr. Mj. Elect.
2nd term; 2 U; 2 Lect. 1 Lab.
This course provides in-depth case studies of the functions of different mass media, and conducts field observation and practice in their technical operations. In addition, this course will discuss and analyze media organization and management, process and characteristics of media decision making, personnel management and training, planning and production, and sales and distribution.

†JLM 211
Chinese Journalistic Writing
2-yr. Mj. Req.; 1st term
2 U; 2 Lect. 2 Lab.
A writing course for the students to practise in various forms of journalism: news, interpretation, feature, and opinion in contemporary Chinese. Emphasis is placed on basic structure and skills of journalistic writing.

* Not offered in 1983-84.
†JLM 221 English Journalistic Writing I 2-yr. Mj. Req.; 1st term 2 U; 1 Lect. 2 Lab.

†JLM 222 English Journalistic Writing II 2-yr. Mj. Req.; 2nd term 2 U; 1 Lect. 2 Lab.
Designed mainly for the students to write for the media through analysis of dominant techniques in contemporary English writing, and practice on various forms of journalism including opinion. Students do part of their practice through the journalism computer-assisted instructional programme (JCAI).

This course mainly studies the historical development of the important mass media in China and Hong Kong. It starts with the communication activities in ancient times down to the modern mass media in present days, with special attention to the roles, functions and impacts of mass media upon Chinese society. The purpose is to help the students gain a sense of social responsibility from the perspective of historical analysis.

†JLM 241 Seminar on Current Affairs 2-yr. Mj. Req.; 1st term 2 U; 2 Lect.
Examination through lectures, reading, research and discussion of major developments in current world affairs to introduce the students to the important issues of the day, their historical background and how they are being reported by the news media. A term paper or other visual presentation is required as an end product of the course.

†JLM 251 Professional Ethics and Media Criticism 2-yr. Mj. Req.; 1st term 1 U; 1 Lect.
This course will give the students an opportunity to meet with senior professionals and media leaders for discussions on problems of journalism ethics.

†JLM 252, 351, 352, 451 Press Practicum (The New Shatin) Mj. News/Ed. take 4 U; Mj. non-News/Ed. take 3 U; Mn. take 2 U, 1 U per term; 1 Lab.
The course aims at providing students with practical experiences of reporting, editing, and advertising works in a community newspaper. Under instructor’s guidance, emphasis is in students’ improvements in quality of professional works.

†JLM 262 Communication Theories 2-yr. Mj. Req.; 1st term 3 U; 3 Lect.
Study of modern communication principles and theories for the under-
standing of human communication as well as communication processes within and between social systems.

†JBC 231
Writing for Radio and Television
Basic training in researching and writing scripts for television and radio programmes. Emphasis is on news, features, documentaries, and dramas.

JLM 307
News Translation
Principles, techniques and problems of translating news stories from English to Chinese. Emphasis is on wire news translation and editing, aiming at fidelity, readability and speed.

†JLM 311
English News Writing and Reporting
Emphasis is on various forms of news reporting including interpretative and investigative. Prerequisite: JLM 211, 222.

(Notes: Unless otherwise specified, all are 3-unit term courses of two hours of lectures and one hour of tutorial per week.)

†PSY 100  General Psychology
Both terms
Introduction to the study of behaviour — the senses, perception, learning, memory, thinking, motivation, emotion, and other selected topics.

†PSY 201  Introduction to Statistics
2-yr. Mj. Mn. Req.; 1st term
2 Lect. 2 Lab.
Introduction to statistics as a method in describing and making inferences about numerical data. Emphasis on applications in daily life and psychological research. Prerequisite: PSY 100, or permission of instructor.

†PSY 022  Seminar
2-yr. Mj. Req., STOT; 2nd Term
2 U; 2 hrs.
This course is conducted in the form of small-group discussions on the following topics: A) How to analyse problems using psychological methods. B) Career and professional issues for psychology graduates.

†PSY 202  Experimental Methods and Design
2nd term; 2 Lect. 2 Lab.
Introduction to the various strategies and techniques of experimental research and data analysis employed in psychology. Participation in laboratories or independent research required. Prerequisite: PSY 201.

†PSY 203  Experimental Psychology I
1st term; 2 Lect. 2 Lab.
Provides students with basic practical training in psychological experimentation. Covers research methods, experimental design, psychological theories and methods, measurement of sensory attributes, perception of size, space, form and movement, reaction time and control of movement. Prerequisite: PSY 100.

†PSY 204  Experimental Psychology II
2nd term; 2 Lect. 2 Lab.
Classical conditioning, instrumental learning, discrimination and generalization, processing of sensory information, short term and long term memory, semantic memory, acquisition of meaning, problem solving, concept formation, transfer of training. Prerequisite: PSY 100.
Basic Learning Processes  1st term; 2 Lect. 2 Lab.
Methods and findings in the study of learning with emphasis on their relation to theories of learning. Special consideration given to the way in which learning theory may be applied to human behaviour. Some laboratory participation required. Prerequisite: PSY 100.

Memory and Cognition  2nd term; 2 Lect. 2 Lab.
This course provides a fairly broad view of the current state of memory research and theory. With special emphasis on the information-processing approach. Topics in perception, sensory memory, pattern recognition, short-term memory, long-term memory, practical aspects of memory, and memory deficits will be introduced. Prerequisite: PSY 100.

Sensation and Perception  1st term; 2 Lect. 2 Lab.
Sensory processes and underlying mechanisms: vision, audition, taste, smell, and the somesthetic senses. Various aspects of perception — constancy, organizational principles, illusion, depth, distance, motion, and time. Prerequisite: PSY 100.

PSY 231  2-yr. Elect.; 1st term
Developmental Psychology I
Physical, perceptual, intellectual, and social aspects of development. Emphasis on behavioural changes as a function of biological and environmental determinants from prenatal development through childhood. Cross-cultural studies in child development. Prerequisite: PSY 100.

PSY 232  2-yr. Elect.; 2nd term
Developmental Psychology II
Life span development with emphasis on issues in each stage of development: puberty, adolescence, midlife, menopause, aging and dying. Research in life span development and changes. Prerequisite: PSY 231.

*†PSY 032  3-yr. Mj. Req.; STOT; 2nd Term
STOT Project  2 U; 2 hrs.
After discussions and literature review, students individually or in small groups conceptualize a problem and design an experiment, including elaborating hypotheses, procedures, choosing operational measures and materials. After preliminary experiments, the design will be refined and written up as a research proposal report. The report can form the basis of an undergraduate thesis.

* Not offered in 1983-84.
PSY 301-306
Special Topics in Psychology
3-yr. Elect.; Both terms
1 Lect. 2 Lab. 1 Tut.
Individual or group study of particular aspects of a given area in
Psychology. Topic and format determined by student in consultation
with faculty member. May be repeated for a maximum of 6 units.
Prerequisite: one course in the area selected.

*PSY 309
Psychological Testing
3-yr. Elect.; 2nd term
2 Lect. 2 Lab.
Basic principles of psychological measurement. Scaling models based on
psychophysical and psychological methods, including constant
methods, pair-comparisons, rank order, interval and ratio judgments.
Issues in internal structure of measures such as variance and covariance,
measurement error, and validity and reliability. Prerequisite: PSY 201.

*PSY 313
Psychology of Language
3-yr. Elect.; 2nd term
This course brings together the theoretical and empirical tools of
psychology and linguistics to study the mental processes underlying the
acquisition and use of language, with special emphasis on the topics of
grammar and psychology, psycholinguistic investigations of grammar,
language development in the child, problems of meaning, and language
and cognition. Prerequisite: PSY 100.

PSY 314
Problem Solving
3-yr. Elect.; 1st term
2 Lect. 2 Tut.
Introduces stimulus-response, Gestalt, and cognitive approaches to
problem solving, characterization of problem space, conceptual
behaviour and reasoning. Problem solving techniques and applications.
Prerequisite: PSY 100.

*PSY 322
Motivation
3-yr. Elect.; 1st term
2 Lect. 2 Tut.
Arousal and directionality of behaviour. Studies from experimental
psychology, comparative ethology, and physiological psychology. The
varieties and significance of human motivation considered from the
biological, cultural, and cognitive points of view. Prerequisite: PSY 100.

†PSY 323
Physiological Psychology
3-yr. Elect.; 1st term
2 Lect. 2 Tut.
The biological bases of behaviour, including central nervous system,
peripheral nervous system, and the internal chemical environment. The
relationship between such psychological processes as motivation, states
of consciousness, memory, emotions, and learning and underlying
physiological and neurophysiological events. Prerequisite: PSY 100.

* Not offered in 1983-84.
PSY 341  
Social Psychology I  
3-yr. Elect.; 1st term  
Major concepts and methods used in studying the individual's behaviour in social settings. Interpersonal attraction, leadership, aggression, group processes, attitude change, and person perception. Prerequisite: PSY 100.

PSY 342

†SWK 020 2-yr. Mj. Req.; STOT; Year
Student Orientated Teaching 4 U; 2 STOT
This is small-group, less structured teaching related to the student's major field but not formally tied to any particular course. Its aim is to build in the student habits and attitudes of mind characteristic of the expert in his or her chosen field and relevant to the solution of the kind of problems the student is likely to encounter in life. For this year of studies, the primary focus is on introduction of the student to the philosophy, value systems and the generic process of the social work method.

†SWK 212 2-yr. Mj. Req.; 1st term
Philosophy of Social Work
This course will look into both the philosophic base and values systems of the social work profession. Discussion will focus on the application of these social work values in the context of Hong Kong among the Chinese today.

†SWK 214 2-yr. Mj. Opt.; 2nd term
Social Welfare Services in Hong Kong
This course will cover both the public and private sectors in the provision of social welfare services in Hong Kong. Examination will be made not only of the delivery of services but also of the financial provisions particularly with an analysis of means of financing. The issue of coordination of services will also be examined in the light of effectiveness and adequacy of service delivery.

†SWK 221 2-yr. Mj. Opt.; 1st term
Social Implications of Illness
This course aims to provide students with some basic knowledge and diagnostic understanding of the major illnesses in Hong Kong. Emphasis will be placed on the impact of illness and disability upon the social functioning of people as individuals and family members. The concept
of stress and the worker's use of self in the helping process will be discussed.

†SWK 222  2-yr. Mj. Opt.; 2nd term
Mental Illness and Retardation
The course will explore the nature of mental illness and retardation, their social implications and the community resources for the prevention and amelioration of social dysfunction.

†SWK 223  2-yr. Mj. Req.; 1st term
Human Growth and Development I
This course will study the basic concepts, theories and problems in human growth and behaviour as related to social work practice. Emphasis is given to the developmental study of human growth and behaviour as a continuous process throughout the stages from childhood to adolescence. Attention will be paid to physical, psychological and cultural aspects of growth.

†SWK 224  2-yr. Mj. Req.; 2nd term
Human Growth and Development II
This course will give emphasis to the relevant concepts of the stages of development from adulthood to old age. Prerequisite: SWK 223.

†SWK 231  2-yr. Mj. Req.; 2nd term
Social Work Processes
This course includes the examination of the purpose and goals of social work practice, the study of the generic principles, and the basic methods in social work. Attention is directed to the inter-relationship of various methods in the process of planned intervention at multiple levels.

†SWK 252  2-yr. Mj. Req.; 2nd term
Field Laboratory
4 Lab.
This course aims at preparing students to undertake Field Instruction I. It teaches students, through a series of laboratory sessions, basic practice knowledge and skills necessary for rendering professional services as a student worker in a welfare or health organization. It is a prerequisite of Field Instruction I.

†SWK 030  3-yr. Mj. Req.; STOT; Year
Student Orientated Teaching
4 U; 2 STOT
This is small-group, less structured teaching related to the student's major field but not formally tied to any particular course. Its aim is to build in the student habits and attitudes of mind characteristic of the expert in his or her chosen field and relevant to the solution of the kind of problems the student is likely to encounter in life. For this year of studies, the primary focus is on the training of skills, practice concepts and practitioner's roles in the problem-solving process of social work.
†SWK 331  
Social Casework I  
This course is designed to deepen the students' basic understanding and knowledge of working with individuals and their families. The dynamics involved in a problem-solving situation, the worker-client's one-to-one as well as one-to-the family group relationship, and treatment in the casework processes will be analyzed with emphasis on diagnostic skill. Records will be used for illustration and discussion.

†SWK 332  
Community Work I  
The purpose and methods of community planning of social services will be discussed. The role of the professional worker in various organizational settings will be examined. Attention is directed to the discussion of community planning promoted by Hong Kong social welfare agencies, both governmental and voluntary.

†SWK 333  
Social Groupwork I  
The development of knowledge of groups and individual behaviour in groups will be related to the professional utilization of that knowledge. Techniques of intervention and the group worker’s purposeful use of programme and process will be discussed. Attention will be given to the roles of the group worker as enabler, facilitator, leader, etc.

†SWK 341  
Social Welfare Administration  
This course aims to provide some basic understanding of welfare agency administration. Basic principles and methods in administration, issues in policy making, personnel management and administrative structure of social welfare agencies will be discussed.

†SWK 342  
Social Work Research  
This course is designed to provide students with an understanding of research as an essential component of professional practice. The relationship between research principles and methodology and practice principles and techniques will be emphasized. Problem formulation, research design, data collection, analysis and reporting research findings will be discussed.

†SWK 344  
Social Policy and Planning  
This course aims to achieve an appreciation of the contribution of social planning and policy-formulation to the solution, control and amelioration of social problems on the macro-level; a knowledge of the key elements involved in the process of decision-making; an ability and
some skill in designing programmes of social service consistent with the economic capacity, cultural values and standards in the Hong Kong setting.

3-yr. Mj. Req.; Year  
8 U; 14 Excr.  
The course aims to provide opportunities for students to put into practice in an agency setting under supervision, theories learned in class: (a) Methods of direct service to clients — casework, group work and community organization; (b) Knowledge and differential use of community resources; (c) Jobs akin to agency administration — planning, budgetting, staffing, etc., and (d) Tools of administration — writing of reports, letters, accounting, use of research findings, conducting meeting, etc.

†SWK 040  
Student Orientated Teaching  
4-yr. Mj. Req.; STOT; Year  
4 U; 2 STOT  
This is small-group, less structured teaching related to the student's major field but not formally tied to any particular course. Its aim is to build in the student habits and attitudes of mind characteristic of the expert in his or her chosen field and relevant to the solution of the kind of problems the student is likely to encounter in life. For this year of studies, the primary focus is on training the student to present a report in a proper manner based on a logical examination of a given problem.

†SWK 431  
Social Casework II  
4-yr. Mj. Opt.; 1st term  
A sequel to SWK 331.

†SWK 432  
Community Work II  
4-yr. Mj. Opt.; Both terms  
A sequel to SWK 335.

†SWK 433  
Social Groupwork II  
4-yr. Mj. Opt.; Both terms  
A sequel to SWK 333.

†SWK 450  
Field Instruction II  
4-yr. Mj. Req.; Year  
8 U; 14 Excr.  
See SWK 350 Field Instruction I. Prerequisite: Field Instruction I.

*†SWK 461  
Seminar I (Social Security)  
4-yr. Mj. Opt.; 1st term  
3 U; 2 Lect.  
This course studies the concepts of social security, its historical development and societal functions. Social security programmes in other countries are compared. Special reference is made to local programmes.

* Not offered in 1983-84.
The planning, financing and administrative aspects of the social security system are also studied.

†SWK 462
Seminar II (Selected Topics) 4-yr. Mj. Opt.; 2nd term
3 U; 2 Lect.
This course aims to provide a high degree of flexibility in the students learning. Each year the course will cover three to four most current social issues so that the students could enhance their practice skills and awareness of reality in the service provisions of Hong Kong. This year will cover topics like child abuse, manpower shortage, new vention system, and community mental health, etc.

†SWK 463
Seminar III (Rehabilitation) 4-yr. Mj. Opt.; 1st term
3 U; 2 Lect.
The physically disabled have been identified throughout history as a group to be set apart from the rest of the population. Rehabilitation services are provided in many facilities, including hospitals, rehabilitation institutions or centres, sheltered workshops, vocational training schools, and special institutions or schools for particular disabilities. Within this course, we will look at the different aspects of programming for the handicapped, the team-work approach, and the roles performed by the social worker in regards to the client's social functioning.

†SWK 464
Seminar IV (Elderly) 4-yr. Mj. Opt.; 2nd term
3 U; 2 Lect.
Many adults in our society can expect to live a long life this day. Because this is a relatively recent expectation, we are not well prepared as individuals or as a society to understand or cope with old age. Working with older people and the social deprivations which they often suffer can be an unhappy, depressing experience. This course will examine the many difficulties of bringing about change in the lives of the elderly through social work intervention; how to improve the elderly’s circumstances through an appropriate use of material resources and of social work skills; also will identify and describe the inter-dependent processes of physical, psychological, and social aging.

†SWK 466
Seminar V (Youth Services) 4-yr. Mj. Opt.; 2nd term
3 U; 2 Lect.
This course aims to provide students with basic knowledge in working with young people who are receiving services in family life education, school social work and outreaching social work. Special techniques of working with different client groups will be discussed.

*†SWK 468
Seminar VI (Law and Social Work) 4-yr. Mj. Opt.; 2nd term
3 U; 2 Lect.
The main purpose of offering this course is to provide students with basic understanding of the social implication of laws of Hong Kong,

* Not offered in 1983-84.
particularly laws relating to protection of women and children, rights of clients to welfare service. Legal rights and protection of social workers in the courses of duty will also be discussed.

Education

Course Description

EDU 201  
Introduction to Education  
2-yr. Elect.; 2nd term

GENERAL EDUCATION

The General Education programme is designed to broaden the interests of students, give them a wider perspective, and cultivate in them the ability to face the issues of contemporary life. The challenge of rational inquiry, discussion and personal commitment is also emphasized. Besides the required courses, students may, over their four years of study, elect from a wide range of courses as listed below. The General Education programme of each College normally totals 11-15 units, not including Physical Education. First year students should not take more than a total of five units.

Plato's Republic and Other Dialogues  2 Lect. 1 Tut.
This course is a critical study of Plato's Republic as a representative
text of the Greek classical world. It will discuss the central theme of
justice and some of the perennial problems such as: the place of the
individual in society, distribution of material and other resources,
education, government, elitism, sex and the family, etc. that the book
raises. The course will also draw from a few other dialogues of Plato's.
Lectures and weekly tutorials required.

GEC 303  2-4-yr. Elect.; Both terms
Western Literature
This course is a general introduction to literature in the West as repre-
sentative of the Western cultural spirit. It will attempt to see the
literature as a reflection of the changing and unchanging social, religious
and political values from the Greek tradition to the present. Discussions
and lectures will be based on the following texts: Sophocles' Oedipus
Rex, selections from Chaucer and Shakespeare, short stories of
Lawrence, Fitzgerald and Hemingway, selected writings of Solzhenitzyn,
poems of Robert Frost.

GEC 304  2-4-yr. Elect.; Both terms
Music in Western Civilization
The course is organized as a single-term introduction to Western music
and its cultural role. After a preliminary discussion of how to listen, a
historical survey presents music in its relation to religion, political and
social movements, and the other arts. Outside readings and listening
reports are assigned.

GEC 305  2-4-yr. Elect.; Both terms
The Modern West
This course aims at presenting a comprehensive view of the develop-
ment of the West, from the end of the Middle Ages to the nineteenth
century. Topics to be discussed will include the Renaissance, the Re-
formation, Age of the Deapots, the Enlightenment, and the Age of
Revolutions. While major aspects of each of the above periods will be
outlined, major emphasis will be given to discovering the internal rela-
tionship of these periods and to interpreting them in terms of their con-
tributions to the formation of our contemporary world.

GEC 307  2-4-yr. Elect.; Both terms

PHYSICAL EDUCATION PROGRAMME

Physical Education is part of general education. It aims to develop in students the skills in physical activities that will enable them to promote their personal physical fitness, maintain health, build morale and establish an interest in future recreational activities.

The entire programme is based on the needs and interests of the student body as a whole. It includes: (1) Basic Instructional Physical Education Programme, (2) Intramural Sports Programme, and (3) Inter-collegiate Sports Programme.

*Basic Instructional Physical Education Programme*

Physical Education is required of all first-year students and is open to other students on a credit-earning basis.

A course may be taken only once for credit. The number of units earned shall normally not exceed 10.

I. *Required Programme*

Two 1-unit term courses are required of all first-year students.

Courses in 1st term are largely designed to improve students' physical condition in general. Courses in the 2nd term aim to acquaint students with the fundamental knowledge and skills of team sports. The entire programme also emphasizes the development of personality through team work and fair play.

The basis of assessment for each course will be students' achievement in basic skills and class attendance.

†SWP 332  
Social Work Process  
3-yr. Mj. Req.  
2nd term; 2 U; 2 Lect.  
This course examines the purpose, goals and principles of social work practice. The concept of “process” in the helping relationship is emphasized, differentiating the skills required at various phases of the process of planned intervention.

*†SWP 350  
Field Visits  
3rd term; 4 U; 4 hrs.  
Arrangements will be made for students to visit, or to be placed in, various local welfare and related organizations in order to broaden their perspectives of the social and ecological situations of Hong Kong. Students who have been exposed to social work experience may be exempted.

†SWP 360  
Directed Studies III  
3rd term; 2 U; 2 Sem.  
With permission of the instructor, a student may pursue a special reading course in consultation with and under the supervision of the instructor. The topics and content of the course will be individually determined.

†SWP 411  
Social Casework I  
4-yr. Mj. Req.  
1st term; 2 U; 2 Lect.  
This course is designed to deepen the students’ basic understanding and knowledge of working with individuals and their families. The dynamics involved in a problematic situation, the worker-client’s one-to-one as well as one-to-the family group relationship, and treatment in the casework processes will be analyzed with emphasis on diagnostic skill. Records will be used for illustration and discussion.

* Not offered in 1983-84.
SWP 412
Social Casework II
(A sequel to SWP 411.)

SWP 420
Field Instruction I
4-yr. Mj. Req.
3rd term; 4 U; 14 Exer.
The course aims to provide opportunities for students to put into practice in an agency setting under supervision theories learned in class: (a) Methods of direct service to clients — casework, group work and community organization; (b) Knowledge and differential use of community resources; (c) Jobs akin to agency administration — planning, budgeting, staffing, etc., and (d) Tools of administration — writing of reports, letters, accounting, use of research findings, conducting meetings, etc.

SWP 422
Field Laboratory
4-yr. Mj. Req.
2nd term; 2 U; 4 Lab.
This course aims at preparing students to undertake Field Instruction I. It teaches students, through a series of laboratory sessions, basic practice knowledge and skills necessary for rendering professional services as a student-worker in a welfare or health organization. It is a prerequisite of Field Instruction I.

*†SWP 531
Social Groupwork I
5-yr. Mj. Req.
1st term; 2 U; 2 Lect.
The development of knowledge of groups and individual behaviour in groups will be related to the professional utilization of that knowledge. Techniques of intervention and the group worker's purposeful use of programme and process will be discussed. Attention will be given to the roles of the group worker as enabler, facilitator, leader, etc.

†SWP 532
Social Groupwork II
1st term; 2 U; 2 Lect.
(A sequel to SWP 531.)

*†SWP 533
Community Work I
5-yr. Mj. Req.
1st term; 2 U; 2 Lect.
The purpose and methods of community planning of social services will be discussed. The role of the professional worker in various organizational settings will be examined. Attention is directed to the discussion of community planning promoted by Hong Kong social welfare agencies, both governmental and voluntary.

* Not offered in 1983-84.
†SWP 534  
Community Work II  
(A sequel to SWP 533.)  
2nd term; 2 U; 2 Lect.

†SWP 540  
Field Instruction II  
(Prerequisite: Field Instruction I.)  
5-yr. Mj. Req.  
3rd term; 4 U; 14 Exer.

†SWP 651  
Social Policy and Planning  
4-6-yr. Mj. Opt.  
1st term; 2 U; 2 Lect.  
This course aims to achieve an appreciation of the contribution of social planning and policy-formulation to the solution, control and amelioration of social problems on the macro-level; a knowledge of the key elements involved in the process of decision-making; an ability and some skill in designing programmes of social service consistent with the economic capacity, cultural values and standards in the Hong Kong setting.

†SWP 652  
Social Welfare Administration  
4-6-yr. Mj. Opt.  
1st term; 2 U; 2 Lect.  
This course aims to provide some basic understanding of welfare agency administration. Basic principles and methods in administration, issues in policy making, personnel management and administrative structure of social welfare agencies will be discussed.

†SWP 654  
Social Work Research  
4-6-yr. Mj. Opt.  
2nd term; 2 U; 2 Lect.  
This course is designed to provide students with an understanding of research as an essential component of professional practice. The relationship between research principles and methodology and practice principles and techniques will be emphasized. Problem formulation, research design, data collection, analysis and reporting research findings will be discussed.

*†SWP 661  
Social Welfare Seminar I  
4-6-yr. Mj. Opt.  
1st term; 3 U; 2 Lect.  
This course aims to integrate the knowledge on community health and rehabilitation of both the physically and mentally handicapped.

*†SWP 662  
Social Welfare Seminar II  
4-6-yr. Mj. Opt.  
2nd term; 3 U; 2 Lect.

POSTGRADUATE PROGRAMMES OF STUDIES

The University first introduced programmes at the postgraduate level with the establishment of the School of Education in 1965. In the following year, the Graduate School was formally founded to undertake research training of graduate students leading to the award of Master's degrees. In 1980, the University advanced into the realm of doctoral education.

The Graduate School at present offers instructions through 1 graduate board and 24 divisions.

In the current academic year, postgraduate studies programmes leading to the degree of Doctor of Philosophy (PhD) are conducted in the field of Chinese Studies and in Basic Medical Sciences, Biochemistry, Biology, Electronics and Physics. For a PhD degree, a full-time student shall normally spend a minimum of three years (or two years for one holding a Master's degree in a closely related field) and a maximum of seven years. A part-time student shall normally spend a minimum of four and a maximum of eight years. General Rules for Postgraduate Studies Leading to the Degree of Doctor of Philosophy are printed on pp. 577-583 of this Calendar.

Four types of programmes leading to the award of Master's degrees are offered: (1) two-year programme including course-work and research thesis leading to the award of the degrees of Master of Philosophy (MPhil), Master of Business Administration (MBA), Master of Divinity (MDiv) or Master of Social Work (MSW); (2) one-calendar-year programme by course-work and examination or submission of a satisfactory dissertation leading to the award of the degrees of Master of Arts (MA); (3) a three-year part-time programme leading to the award of MPhil in Basic Medical Sciences or Master of Business Administration (MBA) or Master of Social Work (MSW) and (4) a two-year part-time programme leading to the award of Master of Arts in Education (MA (Ed)).

Courses on education are conducted by the School of Education established in 1965 to provide professional training for graduates of approved universities to serve in local secondary schools. The School offers (1) a one-year full-time course and a two-year part-time course leading to the Diploma in Education (DipEd), and (2) a one-year full time and a two-year part-time programme leading to the degree of Master of Arts in Education (MA (Ed)).

Persons who have graduated with good honours degrees from recognized universities and who have the capacity for research may apply for admission to the above postgraduate programmes. General Regulations Governing Postgraduate Studies are printed on pp. 564-576 of this Calendar.
GRADUATE SCHOOL
Programmes Leading to Doctoral Degrees

CHINESE STUDIES
The PhD Programme in Chinese Studies involving the disciplines of Chinese Language and Literature, History and Philosophy is administered by a graduate board consisting of representatives from the graduate divisions concerned.

In addition to the general qualifications required for admission to a PhD Programme, candidates should have majored in Chinese Language, Literature, History, Philosophy, Arts or other related fields. A student is expected to select his area of concentration from the field of Chinese Language, Literature, History, Philosophy, Arts etc.

In the Programme, a student is expected to take a maximum number of 18 units, i.e. three year-courses in a year and a language other than Chinese and English may be required. Upon successful completion of the language and course requirements the student will write his thesis under the direction of his Supervisor.

BASIC MEDICAL SCIENCES
In addition to the general qualifications required for admission to the Graduate School, candidates should normally have a Master's degree in a field related to life science. But under special circumstances, candidates holding the degree of Bachelor (e.g. with First Class Honours or excellent capability for research) or the degree of MB BS or equivalent may apply.

The Programme including the advanced studies in Anatomy, Pharmacology and Physiology but excluding Biochemistry is research-oriented. Students should show ability for independent work and inform themselves in depth about the fields of knowledge relevant to the topic of their project. The minimum requirements for students in the PhD Programme will be two seminars a year. In addition to satisfying the course requirements and such other requirements as prescribed by the Division, students will be required to submit a research thesis on graduation.

Fields of Specialization:
Anatomy
a) Normal and pathological skin structure and function
b) Culture and ultrastructure of tumour tissue
c) The visual system
d) Early mammalian development
e) Primate locomotion
Pharmacology
a) Topics in applied pharmacokinetics
b) Transmitter mechanisms in the nervous system

Physiology
a) Physiology and pathophysiology of the nervous system
b) Microcirculation
c) Renal physiology

However, topics outside the above fields would also be considered.

BIOCHEMISTRY

In addition to the general qualifications required for admission to a PhD Programme, a candidate would be required to demonstrate that he has a clear understanding of the basic principles of Biochemistry by passing a comprehensive examination administered by the Division.

The Programme is research-oriented. A candidate may be asked to take courses, tutorials etc., and will be required to present a seminar on a topic to be approved by his Supervisor. In the final year of study, a candidate must submit a thesis to his thesis committee which will make assessment together with the candidate's annual oral or written progress reports.

BIOLOGY

In addition to the general qualifications required for admission to a PhD Programme, candidates should normally have a Master's degree in the life sciences, or in another acceptable discipline.

The Programme is research-oriented. A candidate may be required to take courses, tutorials etc., and will be required to present seminars on topics to be approved by his supervisor. For the first two years of study, a candidate will provide a brief written progress report at intervals of six months.

Fields of Specialization
1. Applied and Environmental Biology
2. Cytology, Genetics, Microbiology and Molecular Biology
3. Physiology and Developmental Biology

ELECTRONICS

In addition to the general qualifications required for admission to a PhD Programme, the candidate should normally have majored in Electronics, Electrical Engineering, or Physics with Electronics, or in related fields.
The Programme is research-oriented. A Master degree holder is not required to take any course work although he may register for courses related to his research or upon the Supervisor's advice. An applicant with a BSc degree will have to satisfy the following course requirements:

(a) Each student must take at least six courses, four of which must be at the graduate level. One of the courses may be German, French, or Japanese. At least four of these courses must be taken and passed in the first two terms that he registers on the Master's programme.

(b) The Grade Point Average of the required courses taken must be at least 2.6 for each term, with each course grade at C or above.

Fields of Specialization
1. Signal Processing
2. Computer Architecture and Applications
3. Semiconductor, Superconductor, and Liquid Crystal Technology
4. Microwave Theory and Techniques
5. Control and System Theory
6. Biomedical Engineering
7. Plasmas and Electromagnetic Theory
8. Solid State Circuits — Fabrication and Technology
9. Solar Energy Devices

PHYSICS

In addition to the general qualifications required for admission to a PhD Programme, candidates may be required to sit for the Graduate Record Examination in Physics.

The Programme is research-oriented. A candidate must satisfy course requirements as for MPhil Programme, and in addition, such other courses as may be prescribed.

The minimum length of study shall normally be four years for a student without a Master's degree.
Programmes Leading to Master's Degrees

DIVISION OF BASIC MEDICAL SCIENCES

In addition to the general qualifications required for admission to the Graduate School, candidates should have a recognized Bachelor's degree normally in a field related to the life science or the degree of MB BS or equivalent.

Fields of Specialization:

Anatomy
- Normal and pathological skin structure and function
- Culture and ultrastructure of tumour tissue
- The visual system
- Early mammalian development
- Primate locomotion

Pharmacology
- Topics in applied pharmacokinetics
- Transmitter mechanisms in the nervous system

Physiology
- Physiology and pathophysiology of the nervous system
- Microcirculation
- Renal physiology

However, topics outside the above fields would also be considered.

MPhil Degree Programme:

The Programme including the advanced studies in Anatomy, Pharmacology and Physiology but excluding Biochemistry is research-oriented. The MPhil course will follow a prescribed series of investigation, and students should inform themselves in depth about the fields of knowledge relevant to the topic of their project.

The total requirement of the programme normally take two years (full-time) or three years (part-time) to complete:

In addition to satisfying the course requirements and such other requirements as prescribed by the Division, students will be required to submit a research thesis on graduation.
DIVISION OF BIOCHEMISTRY

Fields of Specialization
1. Actions of Pituitary and Other Animal Hormones
2. Exocrine and Endocrine Secretions — Physiological and Biochemical Aspects
3. Structure-Activity Relationships of Hormones
4. Reproductive Biochemistry and Physiology
5. Intermediary Metabolism/Actions of Plant Hormones
6. Bioactive Natural Products
7. Bioactive Proteins of Chinese Medicinal Material
8. Immunochemistry
10. Structure and Function of Serum Lipoproteins
11. Behavioural Biochemistry/Sensory Biochemistry
12. Neurobiochemistry
13. Biochemistry of Gossypol, a Male Contraceptive
14. Detection of Carcinogenic Compounds
15. Chemical Synthesis of Peptides
16. Red Blood Cell Metabolism and Membrane Transport
17. Molecular Biology/Virus
18. Microbial Biotechnology
20. Biochemistry of Interferon
21. Food, Drugs and Growth of Cancer
22. Enzyme Structure and Mechanism
23. Transferrin and Iron Transport

DIVISION OF BUSINESS ADMINISTRATION  
The University offers two types of postgraduate programmes leading to the degree of Master of Business Administration (MBA): (1) a two-year programme, and (2) a three-year programme (evening).

The two-year Programme had until recently been operated by the Lingnan Institute of Business Administration established with substantial initial financial support from the Lingnan University Board of Trustees in New York in 1966. The three-year Programme was launched in 1977 with generous financial support from the local business community. In February 1981, the name “Lingnan Institute of Business Administration” was replaced by that of “the Division of Business Administration of the Graduate School” which is responsible for both the two-year and the three-year Programmes.

The major objective of the MBA Programmes is to prepare men and women for responsible administrative and executive positions in
business, Government and other organizations. The three-year Programme, which is conducted in the evening in town, is designed to provide practising managers with the opportunity to learn new concepts of business management without interruption of their careers.

Admission to the MBA Programmes is open to graduates of recognized colleges and universities, both in Hong Kong and abroad, who hold a Bachelor's degree in any field of study; or to those who have professional or similar qualifications equivalent to a degree. Applicants who meet these qualifications or undergraduates who expect to receive their Bachelor's degrees in the current academic year, may apply for admission to the two-year Programme. For the three-year Programme, applicants are expected to have had, in addition to the above qualification, at least three years of full-time working experience.

Two-Year MBA Degree Programme
Completion of the two-year curriculum usually takes four semesters in full-time residence. The student who does not obtain any waiver of required courses must have 60 credits in order to graduate; the student who is allowed to waive one or more courses must complete at least 54 credits in order to graduate.

Second year courses include Operations Research, Managerial Economics, Managerial Control Systems, Organizational Behaviour, Business Policy, and three elective courses. Students are also required to complete either a Master's Thesis or a Business Research Report.

Three-Year MBA Degree (Evening) Programme
Completion of the three-year curriculum normally takes nine trimesters of study. Students are expected to take two courses each trimester. A minimum of 54 credits are required in order to graduate.

First year courses include Accounting, Principles of Organization and Management, Economics, Quantitative Methods in Business, Business Research Methods, and Legal Environment of Business.

Second year courses include Financial Management, Applications of Computers in Business Organizations, Business Information Systems,
Marketing Management, Managerial Control Systems, and an elective (or Master’s Thesis I).

Third year courses include Managerial Economics (or Operations Research), Organizational Behaviour, Research in Business Problems (or Master’s Thesis II), Business Policy, and two electives.

DIVISION OF CHEMISTRY

Fields of Specialization

1. Inorganic Chemistry
2. Analytical Chemistry
3. Organic Chemistry
4. Physical Chemistry
5. Theoretical Chemistry
6. Applied Chemistry

MPhil Degree Programme

The courses offered to students are varied according to their interest and their research project. The study plan for each student will be arranged by his research supervisor, following the guideline set up by the Chemistry Board.

First Year:

1. Selected topic courses in Chemistry offered both to 4th-year undergraduates and graduate students
2. Tutorial course in an advanced special field to strengthen his background in research, as arranged by the supervisor
3. Survey of current literature in the chosen field arranged with the supervisor
4. Courses offered by other departments but specially useful to the graduate students
5. Seminar
6. Research

Second Year:

1. Tutorial course and literature survey arranged with the supervisor
2. Seminar
3. Research towards a Master’s thesis
DIVISION OF CHINESE LANGUAGE AND LITERATURE

MPhil Degree Programme
Students in the first year are required to complete course work and take part in the seminar, totalling 10 units. While in their second year, they are required to take part in the seminar and prepare a Master's thesis.

Courses are to be offered in the following fields:
1. For Chinese Linguistics Section:
   (a) Selected Works on Chinese Language
   (b) Ancient Chinese Etymology
   (c) Chinese Dialects
2. For Chinese Literature Section:
   (a) Selected topics on Chinese Verse
   (b) Selected topics on Chinese Prose
   (c) Selected topics on Modern Chinese Literature
3. Common Course Seminar:
   Students of both Sections must learn a third modern language other than Chinese and English for a period of two years.

DIVISION OF COMMUNICATION

MPhil Degree Programme
The principal objective of this two-year curriculum leading to the MPhil degree in Communication is to study the processes and effects of communication in the context of a changing society, particularly the Chinese. It is aimed at acquainting the students with key communication theories and research methods and preparing them for the creation of knowledge in communication.

Each student is required to complete a total of 36 units in two years of which two-fifths will be in communication courses, and the rest will include elective courses in communication-related areas, summer in-study professional experience and a master thesis.

The programme of study for each student is to be arranged by his academic advisor. Major courses to be offered include the following:
1. Multi-disciplinary Approach to Mass Media
2. Process of Human Communication
3. Independent Research Project
4. Design and Analysis for Communication Research
5. Strategy for Integrated Communication Campaigns
6. Communication in Cultural and National Context  
7. Seminar on Communication Patterns in Chinese Culture  
8. Topical Studies in Communication  

Course work must be completed within four semesters unless approved otherwise by the Division head. A student may be required to take extra courses or exempted from special courses upon approval of the Division head.

DIVISION OF COMPUTER SCIENCE

Fields of Specialization:
1. Machine Translation  
2. Chinese Input/Output  
3. Data Base Theory and Design  
4. Analysis and Design of Algorithms  
5. Numerical Software  
6. Numerical Solution of Integral Equations  
7. Computer Simulation for Business Systems  
8. Real-World Systems Analysis and Design  
9. Computer Aided Design  
10. Design of Emulation Machines  
11. Hardware Description Languages and Simulation  
12. Programming Languages  
13. Computer System Management  

MPhil Programme:
The programme will be research-oriented. Each student will be required to attend during his first year of study seminars and courses involving around 6 hours of lectures per week depending on his academic background and/or research experience. In addition, he will be required to undertake a research project for which a thesis is to be submitted upon graduation.

First Year:  
Courses/Guided Studies ..................................... 4  
Research Project ............................................. 6  
Seminar ....................................................... 2

Second Year:  
Research Project ............................................. 10  
Seminar ....................................................... 2

Total .......................................................... 24 units
DIVISION OF ECONOMICS

Fields of Specialization
1. Quantitative Economics
2. International Economics
3. Economic Development
4. Asian Economic Studies

MPhil Degree Programme
Each MPhil candidate must meet a minimum requirement of 24 credits for course work (an equivalent of 8 term courses) and a substantial thesis, which normally take two years for completion.

First Year:
1. Compulsory courses:
   (a) Economic Theory
   (b) Econometrics
2. Elective courses:
   (a) Mathematical Economics
   (b) Monetary Theory
   (c) International Trade
   (d) International Finance
   (e) Economic Development
   (f) Development Planning
   (g) Socialist Economics
   (h) Seminars in Area Studies

Second Year:
1. Seminars
2. Research towards a Master's thesis

DIVISION OF EDUCATION

In addition to the general qualifications required for admission to the Graduate School, applicants for the MA(Ed) programme must have obtained the Diploma in Education or a qualification or relevant experience acceptable to the School of Education in lieu thereof. For the Diploma in Education Programme, see pp. 465-466 of this Calendar.

Fields of Specialization for Programme I by Thesis and Course Work
1. Educational Administration
2. Educational Communications and Technology
3. Guidance and Counselling
4. Educational Psychology
5. Educational Measurement
6. Curriculum Planning and Development
7. Comparative Education
8. Chinese Language Education
Fields of Specialization for Programme II by Course Work

1. Chinese Language Education
2. Guidance and Counselling

MA Degree Programme in Education:

1. Full-time Programme
   For the award of the degree, candidates in programme A (degree by thesis plus course work) must complete the required courses and a thesis to the satisfaction of the School within three years (minimum period of study: one year).

2. Part-time Programme
   For the award of the degree, candidates in programme A (degree by thesis plus course work) must complete the required courses and a thesis to the satisfaction of the School within four years (minimum period of study: two years); and candidates in programme B (degree by course work) must complete the required courses and/or practicum to the satisfaction of the School within four years (minimum period of study: two years).

DIVISION OF ELECTRONICS

Fields of Specialization

1. Signal Processing
2. Computer Architecture and Applications
3. Semiconductor, Superconductor, and Liquid Crystal Technology
4. Microwave Theory and Techniques
5. Control and System Theory
6. Biomedical Engineering
7. Plasmas and Electromagnetic Theory
8. Solid State Circuits – Fabrication and Technology
9. Solar Energy Devices

MPhil Degree Programme

A student pursuing the MPhil degree is required to complete four courses satisfactorily, each course consisting of not less than 20 hours of lectures. In addition, the student is required to carry out a research project of about one year in duration for which a satisfactory thesis is required.

DIVISION OF ENGLISH

MA Degree Programme in English Language

Students are required to take three courses in each of two terms, and to
spend five months on a research project, so that the course will last one full calendar year. The prescribed and elective courses will be arranged by the supervisor and Graduate Panel.

Fields of Specialization

1. Linguistics
2. Applied Linguistics
3. Sociolinguistics
4. Psycholinguistics

MPhil Degree Programme in Teaching of English as a Second Language

The course of study requires two years to complete. In each of the first three terms, students will be required to take three courses. In the fourth term (and part of the third term if necessary) students will devote themselves primarily to the preparation of a research thesis. Students will be required to attend additional seminars in all four terms. The prescribed and elective courses will be arranged by the supervisor and Graduate Panel.

Fields of Specialization

1. Linguistics
2. Applied Linguistics
3. Sociolinguistics
4. Psycholinguistics
5. Instructional Methodology
6. Materials Development
7. Evaluation
8. Curriculum Design and Planning

MPhil Degree Programme in Comparative Literature

The course of study requires a minimum of two years to complete; the first three terms concentrating on seminar work, and the fourth term, on the writing of a thesis. Student are required to complete a total of nine seminars and to submit a thesis.

First Year:

(First Term)
1. Bibliography and Research Method
2. Comparative Literature — Recent Trend and Perspective
3. Comparative Study of Fiction

(Second Term)
4. Comparative Study of Poetry
5. Comparative Study of Drama
6. Comparative Study of Literary Criticism
Second Year:
(First Term)
7. Problems of East-West Comparative Literature
8. Folklore and Literature
9. Linguistic Stylistics
10. Translation
11. Recent Critical Methodologies and Comparative Literature
(Second Term)
Thesis

DIVISION OF FINE ARTS

Fields of Specialization
Fields of specialization include the histories and theories of painting and calligraphy, ceramics, bronzes, jades and other decorative arts.

MPhil Degree Programme
The total requirement of the programme normally takes two years for completion.

First Year: (Units)
\[\text{Bibliography and Research Methods} \quad 4\]
\[\text{Seminar: Topics in Chinese Art} \quad 4\]
\[\text{Electives} \quad 4 - 8\]

Second Year:
\[\text{Elective} \quad 4 - 6\]
\[\text{Thesis} \quad 8\]

Total: \[\text{24-30 units}\]

Students are also required to learn a third modern language other than Chinese or English.

DIVISION OF GEOGRAPHY

MPhil Degree Programme
1. China Studies
2. Urban-economic Studies
3. Environmental Studies

In addition to course work, each student will be required to write and submit a research thesis.

DIVISION OF GOVERNMENT & PUBLIC ADMINISTRATION

MPhil Degree Programme:
Each MPhil candidate is required to successfully complete a minimum
of 21 units of course work in addition to a substantial thesis. These may be distributed as follows:

First Year: (Units)
Politics of Development ........................................... 3
Seminar in China Study ............................................ 3
or
Selected Issues in Hong Kong Studies
Seminar in Government ........................................... 3
or
Seminar in Public Administration
Independent Research .............................................. 3
Elective ................................................................. 6

Second Year:
Elective ................................................................. 3
Thesis ................................................................. 9

Total ................................................................. 30 units

Every candidate should take at least 18 units in the first year of study. Of the 21 units for course work, at least 12 should be taken from the courses offered by the Division including Politics of Development and two of the following seminars:
1. Seminar in Government
2. Seminar in Public Administration
3. Seminar in China Studies
4. Selected Issues in Hong Kong Studies
5. Seminar in Asian International Politics
6. Public Policy Analysis

DIVISION OF HISTORY

Fields of Specialization
1. History of Chinese Political Institutions
2. Chinese Economic History
3. Ancient Chinese History
4. History of the Ch’ in and Han Dynasties
5. History of the Wei, Chin and Southern and Northern Dynasties
6. History of the Sui and T’ang Dynasties
7. History of the Sung, Liao, Chin and Yuan Dynasties
8. History of Ming and Ch’ing Dynasties
9. Modern Chinese History
10. History of Contemporary China
11. Historical Relations between China and the Western World
12. World History — national history, modern and contemporary Western history
MA Degree Programme
Students are required to take at least four full courses or their equivalents in one calendar year, and should get a satisfactory grade approved by the Division.

MPhil Degree Programme
Students are required to take at least four full courses or their equivalents in the second year of study, and to prepare a Master’s thesis in the second year. They are also required to learn a third modern language other than Chinese and English for a period of two years.

DIVISION OF MATHEMATICS

Fields of Specialization
1. Functional Analysis
2. Algebra
3. Differential Geometry
4. Applicable Mathematics

MPhil Degree Programme
Each candidate should normally complete a total of 26 units. These may be distributed as follows:

<table>
<thead>
<tr>
<th></th>
<th>(Units)</th>

</tbody>
</table>

Each course arranged by the Graduate Panel will be for one term and will be equivalent to two units. The Graduate Panel offers five basic graduate courses. The candidates should pass at least three of them before their graduation. The three basic graduate courses selected by the candidate should not be directly within their own field of specialization. Other courses will be arranged under the guidance of the supervisors and the Graduate Panel. If the Panel agrees, students may take some undergraduate courses which are related to their research, but in no case shall a student be credited with more than the equivalent of four postgraduate units in undergraduate courses.
DIVISION OF MUSIC

Fields of Specialization:
Within the MPhil programme in Musicology, students may elect an historical/analytical approach (primarily applicable to Western music) or an ethnomusicological approach (stressing field research and transcription as well as specialized studies in Chinese music). These alternatives are reflected in course requirements for the first year, as shown below.

MPhil Degree Programme:
Completion of the entire programme normally takes two years.

First Year: (Units)
Research Methods and Bibliography ................. 3
Advanced Musical Analysis I ..................... 3
or
Research Methods in Ethnomusicology I ........... 4
Electives ........................................ 12 or 11

Second Year:
Electives ........................................ 4
Thesis Research .................................. 8

Total ............................................. 30 Units

Each student is required to submit a fairly extensive thesis.

Students are generally expected to have a reading knowledge of a third modern language, other than Chinese and English.

Elective Courses will be chosen by the individual student in consultation with his supervisor.

DIVISION OF PHILOSOPHY

Fields of Specialization
1. Problems of Chinese Philosophy
2. Problems of Epistemology
3. Metaphysics
4. Studies of Chinese or Western Philosophers
5. Other fields of Philosophy including Comparative Studies in Philosophy
MPhil Degree Programme
Students are required to take at least four full courses and to prepare a Master's thesis in the second year of study.

DIVISION OF PHYSICS

MPhil Degree Programme
(A) Courses: A Student is required to take at least four of the courses listed below, of which at least three should be taken in the first year.
1. Quantum Mechanics (required)
2. Advanced Mathematical Methods (elective)
3. Electrodynamics (elective)
4. Solid State Theory (elective)
5. Selected Topics (elective)

(B) Research: Each student is required to undertake a research project and to write a thesis. Faculties are available for work on the following:
1. Electrical and mechanical properties of solid state polymers
2. Thermal properties of solid state polymers
3. Optical properties of solids
4. Electrical and optical properties of amorphous semi-conducting films
5. Ultrasonics in polymers and condensed state
6. Biophysics
7. Neutron activation analysis
8. Multi-valued logic circuits
9. Theoretical study of disordered systems
10. Interaction of laser with matter
11. Holography

DIVISION OF SOCIAL WORK

MSW Degree Programme (Full-time)
The programme aims to prepare students for policy, administrative and teaching roles in social welfare. The focus is on the provision of courses that allow flexibility to students in relation to career goals. The course consists of four semesters of graduate work, including a field practicum. Students may complete the programme in two academic years of study beginning in September.
The minimum requirements are:

First Year:  (Units)
Course work .......................................... 12
Seminar .............................................. 1

Second Year:
Course Work .......................................... 2
Seminar .............................................. 4
Research for thesis .................................. 4
Field Practicum ..................................... 4

Total .................................................. 27 units

MSW Degree Programme (Part-time):
This is a part-time day-release programme with a curriculum identical to the full-time programme, but the time required is three years. Students must be practising social workers who have gained approval from their employers for taking the course.

First Year:  Social Welfare in Transition
Social Work Processes I
Social Work Processes II
Social Welfare Administration
Field Practicum (Term 3)*

Second Year:  Research Methodology**
Social Policy and Planning
Social Development
Workshop

Third Year:  Guided Study I
Guided Study II
Supervision Research and Thesis I
Supervision Research and Thesis II

The minimum required units are:

(Units)
Course work .......................................... 14
Seminar .............................................. 5
Research ............................................. 4
Field Practicum .................................... 4

Total .................................................. 27 units

* The Field Practicum can be taken in the 3rd term of either the 1st year or the 2nd year.
** Students not having previous coursework in research are advised to take an additional course in research in other Division.
DIVISION OF SOCIOLOGY

Fields of Study
The Division offers supervised research and reading courses in the following areas: Advanced Theory, Advanced Methodology, Comparative Social Systems, Aspects of Sociology, Chinese Society, Hong Kong Society and Graduate Seminar.

MPhil Degree Programme
The Sociology Division offers a two-year programme leading to a MPhil degree. The programme is organized to enable the students to devote the first year to course work and to spend the major part of the second year writing a Master's thesis. Each student and his supervisor will plan a programme of studies at the beginning of the first year. This programme will consist of required graduate courses and elected reading courses chosen in the light of the student’s needs and interests. In some cases, students may be required to take advanced courses in the undergraduate curriculum which are relevant to the students’ thesis topic or which will strengthen the students’ general sociological background. In addition, each student will be required to attend Graduate Seminar which meets every week. The purpose of this Seminar is to provide a forum for the exchange of views among graduate students, faculty and visiting specialists in relation to a number of selected topics in current sociology and anthropology. Students are required to choose their thesis topic in the second term of the first year and, if possible, to initiate at least exploratory research during the summer months.

DIVISION OF STATISTICS

Fields of Specialization
Bayesian Inference, Canonical Correlation Analysis, Computational Statistics, Covariance Structure Models, Discriminant Analysis, Distribution Theory, Estimation Theory, Factor Analysis, Functional Relationships and Statistical Methodology

MPhil Degree Programme
Each student should complete a minimum of 24 units which may be distributed as follows:

<table>
<thead>
<tr>
<th>First Year:</th>
<th>(Units)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course Work</td>
<td>6</td>
</tr>
<tr>
<td>Seminar</td>
<td>4</td>
</tr>
<tr>

<td>2</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Second Year:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Seminar</td>
</tr>
<tr>
<td>Research for Thesis</td>
</tr>
</tbody>
</table>

Total: ........................................... 24 units
Five basic graduate courses will be offered. If the Graduate Panel agrees, students may obtain two post-graduate course units by taking undergraduate courses which are related to their research. The thesis should either contain original results in Statistics or make a substantial contribution to some particular area through the use and interpretation of sound statistical methods. Normally, students' research projects should be related to the above fields of specialization.

DIVISION OF THEOLOGY

MDiv Degree Programme
First Year: The regular programme for MDiv degree will consist of advanced studies designed to bring the students to a high level of competence in the basic skills and knowledge required for various forms of ministry.

Second Year: Students will concentrate on the area of their own special interest and write a Master's thesis incorporating the results of their study in their area of special interest.

Those who hold a Bachelor's degree in subjects other than Theology will have to study more than two years to fulfil the requirements.

SCHOOL OF EDUCATION

Programme Leading to Diploma in Education

The School of Education was established in 1965 to provide professional training for graduates of recognized universities to serve in local secondary schools. Programmes offered by the School cover a broad spectrum of teacher education and aim at developing professional competence in teaching. The up-to-date teaching facilities of the School include a language laboratory, a science laboratory, a counselling laboratory, an instructional materials unit, an audio-visual workshop and an educational technology unit equipped with a close-circuit system.

The School offers the following programmes:
(1) Programmes leading to the Postgraduate Diploma in Education:
   One-year Full-time Programme — a pre-service secondary school teachers training programme.
Two-year Part-time Evening Programme — an in-service secondary school teachers training programme (classes take place at six o’clock three evenings a week).

Two-year Part-time Day Programme — an in-service secondary school teachers training programme (classes mainly take place on Saturdays during the year in addition to the summer school holidays).

(2) Programmes leading to the Degree of Master of Arts in Education (MA(Ed)). (See pp. 455-456 of this Calendar)

Applicants for the Diploma in Education programme should be graduates of recognized universities and those who wish to apply for the two-year part-time programme must be serving secondary school teachers. In very special cases, applications from educational workers in related fields with very strong and valid grounds may also be considered.

The programme includes the following courses:
- Subject Curriculum and Teaching: Major Teaching Subject
- Educational Thought and Issues I & II
- Psycho-social Development of the Adolescent
- School Guidance
- Psychology of Learning and Teaching
- Evaluation and Test Construction
- Micro-teaching
- Educational Communications and Technology (Elective)
- Subject Curriculum and Teaching: Minor Teaching Subject (Elective)
- School Administration (Elective)
- Educational Research and Statistics (Elective)
- Extracurricular Activities (Elective)
- Education in China (Elective)
- Health Education (Elective)
- Effective Teaching in the Medium of English (Elective)
- Individual Project (Elective)

In addition to course work, full-time students are required to spend a substantial part of the academic year in practice teaching which includes a series of micro-teaching practice-sessions and 8 weeks of observation and teaching in secondary schools.
INTERNATIONAL ASIAN STUDIES PROGRAMME

In keeping with the University's distinctive educational mission of promoting cultural exchange between East and West, an International Asian Studies Programme was launched at the University in 1977 with the support of the Yale-China Association. This Programme is open to a selected number of students, research scholars and academic staff from overseas who wish to take advantage of the University's academic resources and research facilities in the broad area of Chinese and Asian studies, including the Chinese language training programme offered by the New Asia – Yale-in-China Chinese Language Centre.

The International Asian Studies Programme is fully integrated into the regular academic, administrative and social structure of the University. Programme participants from overseas and local students live in the same hostels. Some courses in Asian and Chinese studies are taught in English for the benefit of both programme participants and local students. Courses given in Chinese at the University are open to those programme participants who have the language competence to benefit from them. All research facilities are available to participants.

There are three categories of participants: (1) associate students: undergraduates and graduate students taking a full load (12-18 units per term) of language and area studies; (2) research students: graduate students primarily undertaking research or writing their masters' theses or doctoral dissertations; and (3) special scholars: academic staff members or other learned scholars, normally of post-doctoral status, pursuing research, refresher or advanced courses.

Programme fees and financial aid for participants are respectively printed on p. 474 and p. 487 of this Calendar.

The Programme is a yearly programme. (September to April). Application for single term participation are subject to availability of places. Previous course-work on Chinese language or Asian studies is not required for admission, but undergraduate applicants must have normally completed at least two terms of university study and graduate applicants must hold a BA degree. Research students and special scholars with genuine research or scholarly interest are especially welcome.

All inquiries and applications should be addressed to the Office of the International Asian Studies Programme at The Chinese University of Hong Kong except those from America and Canada which should be addressed to the Programme's North American representative: The Yale-China Association, 950A, Yale Station, New Haven, Connecticut 06520, U.S.A.

**Cost of University Education**

In addition to the prescribed fees listed above, all full-time students are advised to set aside funds for other items including meals, books, transport, personal and other expenses.

The cost of meals on campus is about HK$4.00 for breakfast and $6.00 each for lunch and dinner. It is estimated that books and stationery and other incidental expenses would be in the region of $1,500 a year. In addition, a commuting student may have to spend between $1,000 to $2,000 a year on transport. Personal and other extra expenses are entirely at the discretion of the individual student concerned.

In all, taking into consideration all fees and expenditure set out above, a student will probably need between $12,000 to $15,000 a year to support his education at the University.
SCHOLARSHIPS AND FINANCIAL AID TO STUDENTS

To help needy students meet part of the cost of their university education, the Government has made provisions for grants and interest-free loans through the Joint Committee on Student Finance. In academic year 1982-83, a total of 23 million dollars were allocated to students of the University, and 53% of the student population depended on this scheme for financial support.

In addition, the University and its three constituent Colleges also administer their own scholarships, bursaries, loans and campus work schemes. A summary of these awards is given below. Further details are available at the Office of Student Affairs of the University.

Part V
Research Institutes and
University Extensions
INSTITUTES AND RESEARCH CENTRES

The University is directly responsible for providing faculty members with research facilities so as to enable them to keep up with the latest developments in their own fields and to contribute to them. For this purpose the University has established three Institutes, namely, the Institute of Chinese Studies, the Institute of Science and Technology, and the Institute of Social Studies.

Institute of Chinese Studies

The Institute of Chinese Studies was established in 1967 on the basis of a broad but unified concept of Chinese studies. It includes what is traditionally identified as Sinology, but emphasizes the application of the methodology of social sciences, characterized by its quantitative and comparative approaches.

The objectives of the Institute are: to promote Chinese studies in Hong Kong and overseas by serving as an international centre for Chinese studies capable of effectively assisting other academic and research institutions and scholars in this field and maintaining close and continuing communication and cooperation with them; to provide interested local and visiting academic members of the University with the necessary training facilities as an aid to teaching and research; and to encourage the exchange of knowledge and experience in Chinese studies through an effective programme of publications, academic conferences and research seminars.

Under the Institute of Chinese Studies are the Art Gallery, the Centre for Chinese Archaeology and Art, the Ng Tor-tai Chinese Language Research Centre and the Research Centre for Translation. Each of these units is responsible for the promotion of research in its own field. To encourage research in Chinese studies, the Institute also provides for grants to support research undertaken by members of the University. At the same time, seminars are sponsored periodically and research fellows and visiting scholars from abroad are invited to give lectures in their specialization. The Reference Library of the Institute, including the collection of the late Mr. Wong Pao-hsie, contains some 35,000 volumes of books and periodicals.

The Institute publishes annually a volume of The Journal of the Institute of Chinese Studies of The Chinese University of Hong Kong. More recently, the various units under the Institute have been issuing their own monograph series, studies series and other academic publications.
Art Gallery
The Art Gallery, established in 1971, serves both as a teaching museum for the Fine Arts Department and as a centre of research on Chinese art and archaeology. As an active gallery which mounts special exhibitions of Chinese art at regular intervals, it also provides a valuable service to the community of art enthusiasts in Hong Kong.

Apart from the general collection for teaching purposes, the Art Gallery houses a photographic archive and several important research collections of Chinese art and antiquities. Notable amongst the latter are a collection of over 1,300 paintings and calligraphy by Guangdong artists and scholars dating from the Ming to recent periods, over 250 bronze seals of the Warring States to Han periods, a collection of more than 400 pieces of Chinese jade flower carvings, over 300 rubbings of ancient inscriptions and a comprehensive collection of Chinese ceramics.

The Art Gallery has a Conservation Annex which provides technical support for the Gallery. This includes the restoration and conservation of works of art; the mounting and restoration of Chinese paintings; woodwork and photographic services.

Centre for Chinese Archaeology and Art
This Centre was established in 1978 to undertake research projects in Chinese Archaeology and Art. The purpose is to pool the resources of the Art Gallery and the Departments of History and Fine Arts together, setting a solid foundation for research in this field, and to promote cooperation with museums and universities abroad in research programmes. An updated Bibliographical Index to the publications and a Data Archive on the subject have been compiled and are ready for service. Results of various research will continue to be published in The Journal of Institute of Chinese Studies and other learned journals. The Centre has also been issuing (I) Publication Series, (II) Monograph Series, (III) Studies Series, and (IV) Bibliographical Series.

The Ng Tor-tai Chinese Language Research Centre
The Centre has its origin in the Chinese Linguistics Research Centre, first established in 1966. It was enlarged in early 1979 under the name of Chinese Language Research Centre, and in 1980 it was renamed The Ng Tor-tai Chinese Language Research Centre.

The main objective of the Centre is to engage in comprehensive research on the Chinese Language, including such fields as the Chinese script, pronunciation, grammar and vocabulary, and to make available to the public in general and teachers of Chinese in particular the results of its research in the hope that this will contribute towards the raising of the standard of Chinese Language teaching in Hong Kong.
Research Centre for Translation

In 1971, a Centre for Translation Projects was established with a grant from The Asia Foundation. It has concerned itself with research and publication involving English-Chinese and Chinese-English translation. The Centre was reorganized and renamed the Comparative Literature and Translation Centre and divided into two Divisions in 1978. In January 1983, the Comparative Literature Section was renamed Comparative Literature Research Unit to be affiliated to the English Department and the Translation Section was renamed Research Centre for Translation.

The Research Centre for Translation continues the work of the Translation Section. In translating from Chinese into English, it concentrates mainly in the areas of literature, history, and philosophy. A continuing vehicle for this is the English-language journal, Renditions, published semiannually since 1973. Included in the Centre’s Projects are “Renditions Books” and “Renditions References”. Nine titles of “Renditions Books” have been published since 1976. Two more titles are now under preparation: Selected Chinese Lyrics and An Anthology of Contemporary Chinese Literature. A new “Renditions References” series is being launched, beginning with Index of Twenty-Five T’ang Poets, now in the press. The English-Chinese portion of translation work concentrates on standard works related to the social sciences and the humanities; eight titles have been published, which include A New Approach to Translation and A Collection of Essays on Translation (1983).

Beginning with the academic year 1983, in conformity with the university policy, the Centre will work closely with the Translation Section of the Department of Chinese Language and Literature, helping in the preparation of teaching materials and generally offering its expertise in support of the teaching programme.

Institute of Science and Technology

The Institute of Science and Technology is established for the purpose of promoting interdisciplinary research in the Science Faculty with particular emphasis on projects with long-term regional significance or applied value. It is also an important vehicle of the University for cooperation in scientific research and consultation with industries, government departments and other universities.

Chinese Medicinal Material Research Centre

The Research Centre has its origin in the Research Unit on Chinese Medicinal Material which was established in 1975. It was enlarged in 1979. Research personnel come from Biochemistry, Biology, Chemistry,
Pharmacology, Physiology and other departments. The basic objective is to undertake laboratory investigation of certain rationally selected Chinese medicinal herbs in order to establish their true therapeutic value on a scientific basis. The Research Centre has received local support for the establishment of a Chinese Medicine Research Fund and an interdisciplinary Research Laboratory will be completed in 1983.

In 1980, a partnership agreement was made with the IBM to computerize a huge amount of information on Chinese medicines. This will facilitate cross reference, retrieval and link-up with Western computerized medical and scientific data base. The first stage of this project was completed by the end of 1982, establishing a unique computerized data base on Chinese medicines. Abstracting information from current Chinese scientific journals in this field is in progress.

Institute of Social Studies

The Institute was established in September 1982, as a result of the reorganization of the former Institute of Social Studies and the Humanities. There were six research centres under the former Institute, viz. the Centre for Communication Studies, the Centre for East Asian Studies, the Economic Research Centre, the Geographical Research Centre, the Public Affairs Research Centre and the Social Research Centre. These six centres have been grouped into two centres under the present Institute, viz. the Centre for Contemporary Asian Studies and the Centre for Hong Kong Studies.

The Institute's overall objective is to promote and coordinate interdisciplinary studies on social-political and economic development in Hong Kong and other Asian societies. Participating in the research activities of the Institute are mostly academics in the fields of social science, business administration and education. Besides organizing empirical research, the Institute and its two centres also sponsor monograph series, workshops and symposia.

Centre for Hong Kong Studies

Major activities include building a computerized system of social and economic indicators, developing interdisciplinary research programmes on major and urgent social problems, conducting selected investigations on factors that impinge upon Hong Kong's economic performance, evaluating existing public policies and devising alternative policy instruments. In all these activities, the application of social scientific knowledge to the solution of practical problems is underscored.
Centre for Contemporary Asian Studies

Emphasis is currently placed on promoting interdisciplinary studies on major developments in modern China, including the development of legal system, social life and organization in selected rural and urban areas, the demography of family life cycle and problems of fertility control, changes in the ideology and use of communications media, and the systems and practices of enterprise management. Effort is also made to build up overseas Chinese archives and to promote research activities on overseas Chinese affairs.
UNIVERSITY EXTENSIONS

Department of Extramural Studies

The Department of Extramural Studies serves the community by offering opportunities for continuing education, utilizing the teaching and research resources of the University as well as the community as a whole. The Department offers evening and day-time courses in a wide range of studies including Chinese, Social Sciences, Philosophy, Psychology, Social Work, Economics, Commerce, Accounting, Law, Education, History, Geography, Science, Mathematics, Computer Science, English and Art, Audio-visual Language, Home Care and Craft, Performing Art, and Mass Communication.

The following certificate courses are currently offered: Kindergarten Teaching, Basic Japanese, Management for Executive Development, Computer Studies for Secondary School Teachers, Chinese Ink Painting, Drawing and Painting, Commercial Photography, Printmaking, Graphic Design, Personnel Management, Advanced Illustration, Film-making, Recreation Management, and Training Management.

The Department also offers correspondence courses, self-learning courses, radio courses, training programmes, courses by newspaper, and television courses, etc. Correspondence courses include English and

The Department has been cooperating with Commercial Radio, Radio Television Hong Kong (RTHK) and the former Commercial Television in educational broadcasting since 1970. A wide variety of courses were offered, including Languages, Business Studies, Arts and Culture. The Department now regularly conducts radio courses with the Chinese channel of RTHK.

Since 1978, at the request of different organizations in Hong Kong, the Department has offered various training programmes for their staff. These organizations include: The Home Affairs Department of the Hong Kong Government, Sun Hung Kai Securities Ltd., Sun Hung Kai Properties Ltd., the Amoy Canning Corporation, Korea Exchange Bank, Pioneer Concrete (HK) Ltd., The Open College of University of East Asia, Macau, and Hong Kong Hotels Association.

Under the joint sponsorship of the Hong Kong Association for Continuing Education and financed by the Asian-South-Pacific Bureau of Adult Education, an Urban Training Course (first two weeks in Hong Kong and the other three weeks in Malaysia and Singapore) was held from 26th April to 8th May, 1982.

In February 1979, the Department launched its first Course by Newspaper — “Oceans”. Since then, nine more Courses by Newspaper have been offered — “Morals and Society”, “Connections: Technology and Change”, “General Psychology”, “Death and Dying”, “Families and Society”, “Working: Changes and Choices”, “Managing and Accountability”, “Leadership and Change” Parts I and II. In each of the courses, special weekly articles in English and Chinese were carried up to a period of six months in seven leading local newspapers. These special articles were prepared by scholars and experts. Apart from newspaper articles, all the courses featured contact sessions which, conducted in Cantonese, Mandarin and English, aimed to expand on the major topics covered in the newspaper articles and study guides.

In August 1980, the Department cooperated with Guangdong Television Station in offering “Beginners’ Japanese”, the first joint project ever undertaken by a Chinese radio station with an institution in Hong Kong. More than 20,000 sets of support materials were sold in this venture. In cooperation with Guangdong People’s Broadcasting Station, another course “Everyday English” was also launched in April 1981. About 15,000 sets of support materials were sold, when broadcast for the first time. By the end of 1982, more than 55,000 copies of textbooks were sold.
To promote interest in the more academic aspects of art and art appreciation in Hong Kong, the Department has, since March 1982, issued its first articles in art to be later collected and issued under the name *ARTRA*.

Enrolment in 1982-83 for all courses (including general courses, certificate, correspondence and radio courses) amounted to 34,379.

The Department of Extramural Studies runs a Town Centre at Oriental Centre, 13th, 14th and 17th Floors, 67 Chatham Road South, Kowloon. In order to facilitate greater learning opportunities in the more distant districts, some of the courses are being held in Quarry Bay, Tsuen Wan, Shatin, Kwun Tong and North Kowloon at rented school premises. Information brochures and leaflets are issued regularly and are obtainable free on request. Further information may be obtained from the Department of Extramural Studies, The Chinese University of Hong Kong, at telephone No. 3-669361.

**New Asia -- Yale-in-China**

**Chinese Language Centre**

The New Asia -- Yale-in-China Chinese Language Centre offers courses designed primarily for non-native speakers of Chinese. Founded in 1963 under the joint auspices of New Asia College and the Yale-China Association, the Centre became a part of the University in 1974.

Every year over two hundred students from different parts of the world are admitted to the Language Centre. These students range from absolute beginners to trained sinologists who wish to polish their spoken Chinese or learn a Chinese dialect. Courses are offered at all levels so that any student can find training suitable to his needs and ability. The Language Centre also regularly teaches Mandarin to hundreds of local Cantonese speaking residents, including the students of The Chinese University. The faculty of the Language Centre prepares a significant portion of their own teaching materials and audio-visual aids for the students, Chinese and foreigners alike.

Courses offered by the Language Centre follow a two-term and a Summer session system, each term lasting fifteen weeks and the Summer session lasting ten weeks. Students may register for admission beginning in any term. There are beginners courses at the beginning of each term. The intensive programme of twenty hours of classroom instruction per week constitutes the maximum course load. Students may also register for ten or less than ten hours, depending on the courses being offered in any one term. The maximum class size is 8 students, while most classes average between 4 and 5. In exceptional cases, private tutorials are available. Tuition fees for Language Centre courses are printed on p. 474 of this *Calendar*. 
The Language Centre has a full complement of tapes for teaching purposes. Language laboratory facilities are available.

The Language Centre gives credits according to the American pattern and issues grades and transcripts. Study at the Centre has been recognized by major universities for degree credit. For students from institutions that do not use the credit system, transcripts are prepared in sufficient detail to present a clear picture of the work accomplished by each student.

Copies of an information brochure are available free on request. All correspondence should be addressed to the Director, New Asia -- Yale-in-China Chinese Language Centre, The Chinese University of Hong Kong, Shatin, New Territories.

The Library System

The University Library System, introduced in 1963 with the establishment of the University, coordinates the collections and services of the University Library (founded 1965) and the branch libraries: the Chung Chi College library (founded 1951), the New Asia College library (founded 1949), the United College library (founded 1956), and the Medical library (founded 1981). The Administration of the University Library System is centralized under the University Librarian. Borrowing privileges are extended to all members of the University.

The University Library, which started operation in rented premises in Kowloon, was accommodated temporarily in the Benjamin Franklin Centre from 1969, and moved into the spacious new library building in 1972. This five-storey building, which has a floor space of 7,993 square metres, can house over 400,000 volumes of books and accommodate 500 readers. It is one of the most modern academic libraries in East Asia, fully equipped with the usual study rooms and carrels for readers, conference and seminar rooms, an audio-visual room, a photographic laboratory, microfilm facilities, a rare book room and a book bindery.

The University Library is primarily a reference and research library for the use of staff and students of the University and visiting scholars. The branch libraries at the three Colleges are basically undergraduate libraries but each has some unique features. Elisabeth Luce Moore Library of Chung Chi College holds strong collections in music and in religious studies. Ch’ien Mu Library of New Asia College houses good collections in Chinese literature, fine arts and philosophy. Wu Chung Library of United College has a Hong Kong Collection as well as a notable Modern Drama Collection. Medical collections will be housed in two different locations, with the pre-clinical materials in the University Library and the clinical materials in the Li Ping Medical Library, which will be a part of the teaching hospital complex in the Shatin New Town. The Medical Library also offers audio-visual services to the Faculty of Medicine.

All acquisitions and cataloguing activities are carried out in the University Library, which maintains a union catalogue of the holdings of the entire System. The holdings of the University Library System as of 30th June, 1983 are:
Books and bound volumes of periodicals: Oriental 405,148, Western 386,876
Current journal titles: 1,591, 4,570

Large sets of Chinese classical books in the traditional format of silk-stitched fascicles, as well as many important journals for Chinese studies in both Oriental and Western languages, have been acquired for research purposes. The Western language collection is also growing steadily stronger, particularly in bibliographic and reference materials.

In 1977, the University Library System began to publish its Bibliographical Series. The following five numbers have so far been published, covering aspects of both the collections of the System and Hong Kong publications: 
- Union Catalogue of Serials (1977);
- Union Catalogue of Audio-Visual Materials (1979);
- An Annotated Guide to Serial Publications of the Hong Kong Government (1979);
- Serials of Hong Kong, 1845-1979 (1981); and

For cataloguing purposes, the Library of Congress system has been used since 1969 for Western language materials and since 1971 for Oriental materials. Medical books are classified according to the National Library of Medicine scheme. An on-line circulation system was first introduced at the University Library in December 1980, and at the United Library in Summer, 1983, with the hope of extending it to the other two branch libraries at Chung Chi and New Asia in the next triennium.

By using modern telecommunication and computer technology, the University Library is now able to search electronically through files of databases and locate within seconds or minutes precisely the periodical or book citations and abstracts needed. The University Library's Information Retrieval Service is connected by terminals through a telecommunications satellite to a database vendor in the United States – DIALOG in California.

The Chinese University Press

After a decade of publishing activities, chiefly under the Publications Office, the University established The Chinese University Press in 1977. Reflecting the distinctive characteristics of The Chinese University of Hong Kong, the Press publishes books in Chinese and in English and, frequently, in both languages. And, although it publishes books in almost all disciplines, more than half of its publications are in Chinese studies.

Last year, the Press published 27 titles including books in special series of various units of the University such as the English-Chinese glossary series, and one issue of the Journal of the Institute of Chinese Studies.
The Press continued to cultivate and maintain connections with university presses and learned societies, both local and overseas. It is a member of the Association for Asian Studies (AAS), the International Association of Scholarly Publishers (IASP) and the Society for Scholarly Publishing (SSP). It is also an international member of the Association of American University Presses (AAUP). Locally, it joined The Anglo-Chinese Textbook Publishers' Organization Ltd. last year as a sponsoring member.

Computer Services Centre

The Chinese University Computer Services Centre provides service to students, faculty, research and administrative computer users of the University.

The Chinese University Computer Services Centre is an integral component of the Universities and Polytechnic Computer Centres (UPCC) System. This System comprises an advanced data communications network linking the computer facilities of The Chinese University, Hong Kong University, and Hong Kong Polytechnic. The facilities of this entire system are available to members of the University community.

At the Computer Services Centre, a PDP 11/70 computer system with a large number of terminals provides access to the UPCC System Network. Besides the processing capacity of this PDP 11/70, the UPCC System Network provides The Chinese University computer user community with shared access to an IBM 3031 computer system.

Services provided by the Centre include:
(a) Basic computer time for job processing on the UPCC IBM and PDP 11/70 system;
(b) Computer programme consultation services and technical advice for users with programming problems;
(c) Application packages programme services and consultation on appropriate packages and software systems to meet particular application requirements;
(d) Programming services in support of specially approved applications;
(e) Seminars on the use of different computer systems and packages; and
(f) Reference manual and other documentation services.

Health Service

The University Health Service is charged with the responsibility of meeting the health needs of students, staff and their dependents. Special emphasis is being placed on developing a comprehensive primary care service to handle the many medical, dental, psychological and social needs and problems of students.
The University Health Centre, serving as the physical basis for the operation of the health programme, is a gift of the Yale-China Association. Officially opened in September 1971, it has been specially designed and built as a student health centre with space provisions for the practice of preventive care, health education and personal medical services.

The Health Centre is open from 9:00 a.m. to 5:00 p.m. Mondays through Fridays and from 9:00 a.m. to 1:00 p.m. on Saturdays. Services include:

(a) Health consultations for diagnosis, counselling, preventive, curative and rehabilitative treatment;
(b) Health maintenance, promotion and other out-reach activities;
(c) 24-hour service with nurse on duty and doctor "on call" Monday through Saturday morning; daytime nursing service during weekends and holidays;
(d) Infirmary care for students in need of observation, isolation, diagnosis and treatment of minor to intermediate illness of short duration;
(e) Dental consultation, restorative, preventive and emergency treatment;
(f) Periodic physical examination for certification purposes; and
(g) Co-ordination of access to diagnostic laboratory and x-ray services, referrals to appropriate specialists, treatment centres or hospitals when necessary.

No charges are made for any of the clinical services provided directly by the University Health Service with the exception of house visit and dental service.

It is hoped that through the unique educational opportunities generally available in the University and its constituent Colleges, and the numerous contacts students may have with the Health Service, they will have ample chance to gain for themselves adequate knowledge of good health attitudes and habits and will be well oriented to accept appropriate responsibilities to look after their most valuable personal asset in life — HEALTH.

Information Management Unit

The Information Management Unit was established in October 1980 within the administration. It has taken over the programme and systems development services for University administration applications previously provided by the Computer Services Centre. The aim of this Unit is to serve as management information centre for all the departments within the administration and to provide them with systematic and organized information to aid planning and decision-making. Efforts
will be made to further computerize administrative procedures and develop an effective management information system. In centralizing and co-ordinating the University's data, the Unit will pay particular attention to systematizing information-gathering and eliminating duplication of efforts.

Instructional Development Services

Instructional services are supervised by the Senate Committee on Instructional Development established in 1978. The Committee coordinates the work of two servicing units both located in the Pi-Ch’iu Building.

The Instructional Development Office

The Office aims to support good teaching and learning throughout the University. It has three areas of activities: (1) Communication and Information: the Office produces bibliographies, news-sheets and occasional papers on instructional matters for teaching staff. It also operates an informal referral service, and maintains communication and exchange with others concerned with university teaching in Hong Kong and throughout the world. (2) Consultation and Support: the Office provides information on curriculum design and evaluation, university teaching methods, learning and study skills and the development of teaching resources. Help can be provided with the development of an individual's teaching skills. Seminars, workshops and short courses are organized from time to time for staff. The Office administers a programme of mini-grants for projects concerned with the development and improvement of teaching. (3) Research: on its own initiative and by request the Office conducts developmental research on issues that lead to the improvement of teaching and learning.

The University Instructional Media Services

The Unit provides services for teaching, research and special functions to members of the University. It has four audio-visual teaching rooms, a sound studio, a preview room and dark rooms and runs language laboratories in each of the three constituent Colleges. The Unit has its own photographer and graphics artist who are available to assist staff in the production of teaching materials. There are also facilities to enable staff to prepare their own materials. The following services are provided for teaching, research and administration at the University:

(a) Provision of audio-visual aids, including projectors, sound reproduction equipment and television play-back;
(b) Single camera closed circuit television facilities;
(c) Basic photographic, graphic and some reprographic services, including audio and video-tape copying;
(d) Consultation services on lay-out and equipment for teaching areas;
(c) Maintenance and repair of audio-visual equipment;
(f) Administration of audio-visual rooms and language laboratories; and
(g) Training in the operation of audio-visual machines.

In conjunction with the Instructional Development Office, the University Instructional Media Services also provides: (1) information and consultation services on the development and use of audio-visual equipment in teaching; and (2) a small collection of reference books and journals on university teaching methods and instructional materials.

Student Service and Student Activities

The Office of Student Affairs attends to student welfare and helps students take full advantage of their university education. The activities of the Office are administered through its three sections: the Student Activities Section, the Appointments Service and the Psychological Counselling Unit.

The Student Activities Section co-ordinates university-wide student activities; liaises with the Student Unions and their affiliated societies; administers scholarships and financial aids; manages student amenity facilities and co-ordinates policies on undergraduate hostels.

The Appointments Service is responsible for initiating and developing employment opportunities for graduating students. By organizing pre-employment training and orientation programmes, and providing group and individual counselling, it helps the students plan their careers intelligently. The Service also maintains close liaison with employers and renders advice and assistance to them during recruitment exercises.

The role of the newly established Psychological Counselling Unit is two-fold, namely, to attend to individual needs through individual counselling and group programmes and to promote better mental health across the student community.

Counselling on social, psychological, financial as well as academic problems is also provided by the Dean of Students' Offices at each of the three Colleges. These Offices administer College scholarship and bursary awards and also play a vital role in the enrichment of college life. In close co-operation and collaboration with the College Student Unions and their affiliated societies, the Dean of Students' Offices also oversee the execution of college-wide student activities.

At present, there are four Student Unions in the University, one each for the three constituent Colleges and one for the University as a whole. The latter maintains close links with the College Unions and coordinates university-wide activities. All year round, a wide range of activities, including academic, athletic, cultural as well as social functions are organized by the Student Unions. These include the Freshmen Orientation Camp, the Swimming Gala, and the University Athletic Meet.
Sports Facilities

To promote students' interest in physical education, the University provides a variety of sports facilities, including two sports fields, three gymnasiaums, a swimming pool and eight tennis courts.

The sports fields with covered spectator stands (with a seating capacity of 2,800 in the case of the University Sports Field) are built on the lowlands facing the shore to the east. The University Sports Field provides a 400-metre track, a soccer pitch and a handball court, while the Chung Chi Sports Field provides a 400-metre track, a soccer pitch, a basketball court and a volleyball court. Each of the three indoor gymnasiaums (New Asia, United and University) houses badminton courts, basketball/volleyball courts, dancing rooms and table-tennis tables. Adjacent to the Benjamin Franklin Centre, the staff-student amenities building, is an outdoor olympic-size swimming pool.

The Sir Run Run Shaw Hall

The Sir Run Run Shaw Hall, a well-equipped auditorium of modern professional standard, provides an ideal place for the University's cultural activities. It is designed for holding ceremonies, general meetings, lectures, exhibitions and possibly examinations, and for staging concerts, plays and cinema shows. A Management Committee representing the interests of both students and staff has been appointed to run the Auditorium. As the Hall's agreement with external artists and agents has provided for student involvement in house management or back-stage assistance in the performances, the Hall is not just a place for performance but also an educational workshop for students.

Information about the University

Public Relations and Information Service

An information service, available to members of the University and the general public, is provided by the Information and General Affairs Section of the University Secretariat. It also answers inquiries from the media and prepare news statements on policy matters, new developments and senior staff appointments.

Publications on the University

The Chinese University Calendar, published in Chinese and English in September every year by the Publications Section of the University Secretariat, is intended as a general introduction to the history, organization and academic programme of the University. Copies are on sale at the Chinese University Press and the University Bookstore.
The University has published three reports by the Vice-Chancellor, entitled (1) *The First Six Years 1963-69*, (2) *The Emerging University 1970-74*, and (3) *A New Era Begins 1975-1978*. These trace every step of the University's development from inception through the first fifteen years. The Vice-Chancellor's report for 1979-82 is expected to be published in 1983.

Information about University facilities, activities and recent developments is given in the *Chinese University Bulletin*, published five issues a year, in Chinese and English. These are distributed free to members and friends of the University. A *Newsletter*, which provides information on major events and staff movements, is circulated internally once every two weeks.

ii) they have shown exceptional ability in appropriate academic or professional fields; AND

(b) they can produce evidence of at least three years' continuous residence in Hong Kong.

However, they may be granted exemption only if and when their application for admission is accepted by the Faculty concerned.

B. With the exception of mature persons who must apply for exemption and admission simultaneously in January of the year in which admission is sought, all other categories of applicants must apply for exemption to the University Registrar from 1st October to 20th October preceding the year in which admission is sought.

C. A fee of HK$150 is payable on application and is not refundable whether exemption is granted or not.

D. Except as stipulated in Section V.B. above, students who have been granted exemption may apply to the University for admission in June each year.
GENERAL REGULATIONS
GOVERNING UNDERGRADUATE STUDIES

1.0 Rules and Regulations

1.1 Students* shall observe all rules and regulations stipulated by the University and College authorities.

2.0 Admission to Undergraduate Courses

2.1 Entrance Requirements
An applicant seeking admission to an approved course of study leading to a Bachelor's degree shall have —
(a) fulfilled the University Entrance Requirements or been exempted therefrom under the provisions of the Regulations Governing Admission to Undergraduate Studies, and
(b) satisfied the admission requirements of the Faculty concerned.

2.2 Application for Exemption from University Entrance Requirements and Application for Admission
(a) Normally applications for exemption from University Entrance Requirements shall be made to the Registrar of the University in October preceding the year in which admission is sought.

(b) Applicants who have satisfied entrance requirements may apply for admission by completing a prescribed application form which should reach the Registrar in June of the year in which admission is sought.

2.3 Mature Students
(a) Mature persons who are aged 29 or over on 1st September in the year in which admission is sought and who cannot meet the normal University Entrance Requirements may apply for exemption and for university admission provided they have satisfied the special conditions stipulated in Section IV, A(5) of the Regulations Governing Admission to Undergraduate Studies. Such applications shall be made to the Registrar in January of the year in which admission is sought.

*Undergraduate Medical Students should also refer to the "General Regulations Governing Undergraduate Medical Studies".
(b) Applicants who are mature persons may be requested to sit for tests or attend interviews by the Faculty Admission Committees or the Departments concerned.

(c) No mature person shall be exempted from University Entrance Requirements and offered admission without the approval of the Senate.

2.4 Transfer Students

(a) A student who has completed at least one year of study at a university recognized by the Senate of this University may apply as a transfer student for exemption from University Entrance Requirements. He may, however, be required to gain Grade E or above in Chinese Language and Literature and/or English Language in the Hong Kong Higher Level Examination. Such an application shall be accompanied by a certified true copy of the applicant's academic record.

(b) Application for exemption from University Entrance Requirements shall be made to the Registrar in October preceding the year in which admission is sought.

(c) Applicants who have been granted exemption from University Entrance Requirements shall apply for admission by completing a prescribed application form which should reach the Registrar in March of the year in which admission is sought.

(d) No transfer student shall be admitted without the approval of the Senate.

2.5 Associate Students

(a) An applicant whose educational standard is considered adequate by the Department and the Board of the Faculty concerned may be admitted as an associate student to pursue an approved course of study not leading to a degree of the University.

(b) Application for admission as an associate student shall be supported by a certified true copy of academic record and made to the Registrar before 1st July or 1st November preceding the teaching term for which admission is sought. (This does not apply to the International Asian Studies Programme.)

(c) In order to change his status from an associate student to a candidate for a Bachelor's degree a student shall have fulfilled University Entrance Requirements or have been exempted therefrom and his application must be specially recommended by the Department and the Board of the Faculty concerned and approved by the Senate.
2.6 Auditing Students

(a) An applicant whose educational standard is considered adequate by the Department concerned may be admitted as an auditing student.

(b) Application for admission as an auditing student shall normally be made to the Registrar before 1st July or 1st November preceding the teaching term for which admission is sought.

(c) An auditing student shall not receive any grade or other academic recognition for the course/s taken.

3.0 Fees

3.1 The fees payable by students shall be prescribed by the University Council and may be varied from time to time at the University Council's absolute discretion.

3.2 All fees shall be payable on dates specified by the University unless prior permission for deferment is obtained from the University Bursar.

3.3 A student who has not paid his fees on the specified date/s shall pay a fine until the fees are paid. He shall have his name removed from the register if he fails to pay up after a lapse of two weeks.

3.4 Caution money shall be payable on first registration as a deposit to make good any outstanding debts to the University incurred in, for example, damages to University and/or College property. This sum less any deductions made for outstanding debts shall be refunded on discontinuation of studies at the University. For graduating students, subject to no claim being outstanding, caution money shall be converted into graduation fee.

3.5 Apart from caution money, fees once paid shall not be refunded.

4.0 Registration

4.1 Applicants (including associate and auditing students) who have been offered admission to an approved course of study shall register in person with the Registry on the specified date/s and shall be deemed to have been admitted to the approved course of study on the date of their first registration, and thereafter, students shall present themselves for registration on the specified date/s before the beginning of each teaching term.

4.2 An applicant who for special reasons seeks permission for deferment of registration may apply in writing to the Registrar before the specified date/s for registration.
4.3 An applicant who has been offered admission but is prevented by illness or other sufficient cause from attending a given academic year or teaching term shall apply in writing to the Registrar for postponement of studies for a period not exceeding one year. Such an application shall be made before the specified date/s for registration. In the case of an applicant desiring postponement of studies on medical grounds, his application shall be accompanied by a certificate signed by a registered medical practitioner.

4.4 Registration shall include the payment of fees due and the selection of courses. An applicant or a student who after a lapse of two weeks from the relevant specified dates fails to pay the fees and select courses shall be considered as having withdrawn from studies at the University.

4.5 A student registered for a full-time course of study may not be registered simultaneously with another institution as a full-time student except with the permission of the Senate.

4.6 A student registered for a full-time course of study shall not take up any full-time employment, paid or unpaid, during term time.

4.7 A student shall normally retain the name under which he was first registered. Under special circumstances, however, a student may submit to the Registrar an application for a change of his name (including alteration of, addition to or deletion from the name under which he was first registered) together with the following documents:

(a) written consent from the applicant’s parent or guardian, if the applicant is under the age of 21;
(b) copy of applicant’s identity card or passport, carrying the new name intended to be registered with the University;
(c) copy of applicant’s statutory declaration and/or birth certificate.

4.8 A student shall inform the Registrar immediately of any change of address or other particulars entered in the student’s registration form.

5.0 Course Load

5.1 A student shall normally take no less than 12 units and no more than 21 units of courses in any teaching term depending on the requirements of the Faculty concerned.

5.2 Unless exempted, a student shall be required to take six units of General Chinese and six units of General English in the First year.
5.3 Physical Education and General Education courses in the First Year of study shall normally not exceed a maximum of eight units.

5.4 A student shall complete at least 120 units of courses in order to graduate.

6.0 Selection of Courses

6.1 Unless otherwise stipulated, a student shall, after consulting the teacher designated by the Department concerned, and after examining the Programme of Studies and the University teaching timetable, fill in and submit to the Registrar on the specified date/s, the prescribed form for course selection which shall have the necessary signatures.

6.2 In selecting courses a student in pursuit of a Bachelor’s degree shall take into consideration the timely completion of the following requirements:

(a) General
   (i) General Education
   (ii) General Chinese, unless exempted therefrom
   (iii) General English, unless exempted therefrom
   (iv) Physical Education

(b) Faculty
   The Faculty’s required courses, if any, for First and Second Year students,

(c) Major subject
   The specified prerequisite course/s, if any, core courses and courses for degree papers required of Major students, student-orientated teaching programme,

(d) Minor subject
   The specified prerequisite course/s, if any, core courses and courses for degree papers required of Minor students.

6.3 A student shall decide on his Minor subject prior to the selection of courses for his Second Year of study. He shall consult the teacher designated by the Department concerned before selecting his Minor subject.

6.4 A student shall take the required courses during the year specified in the Programme of Studies unless written application to do otherwise is approved by the Department concerned and a record of such approval submitted to the Registrar.

6.5 In selecting an elective/optional course, a student shall make sure that there will be no time-table clash with another course taken by him.
7.0 Course Withdrawals and Additional Course Selections

7.1 Application for course withdrawals and additional course selections shall be made on a prescribed form which shall have the signature of approval from the teacher designated by the Department concerned and shall be submitted to the Registrar. Such an application shall be made within two weeks after the beginning of the teaching term.

7.2 Under special circumstances, the Chairman of the Department concerned may, at his discretion after examining the student's written application, grant him permission to withdraw from a course or enrol in a new course after the second week of the teaching term.

7.3 A student who withdraws from a course without going through the prescribed procedure shall be given an 'F' grade for the course.

7.4 As a rule the units of a year course are applicable only as a whole to the minimum graduation requirement of 120 units when both terms are completed. If withdrawal from the second term of the course is approved in accordance with Faculty regulations, the grade received in the first term shall remain in the student's record, but the units received for the first term shall not count toward graduation unless (1) under special circumstances the second term is completed at a later date or (2) specific authorization by the Chairman of the Department is obtained by the student.

8.0 Potential Major

8.1 First Year students shall be admitted to a Faculty instead of to a Major department.

8.2 First Year students shall, according to their preference and aptitude, be registered as Potential Majors in one of the subjects offered in the Faculty, on the advice of the teacher designated by the Department concerned.

8.3 In addition to General Chinese, General English, General Education and Physical Education courses, a First Year student shall take at least three units but not more than twelve units of courses in his Potential Major subject or in a subject recognized as equivalent to it, plus at least one term course each in two other subjects. In consideration of their special needs, the Fine Arts and Music Departments may require their Potential Major students to take up to two additional units.
9.0 Admission to Major Department in Second Year

9.1 For promotion to the Second Year, a student must at the end of his First Year:
   (a) have obtained an overall grade point average of not less than 1.5;
   (b) have failed not more than nine units; and
   (c) have met the requirements, if any, of the Faculty concerned.

9.2 A student who, at the end of his First Year, satisfies the conditions for promotion to Second Year as stipulated in 9.1 above and obtains grade C– (1.7) or above in each of his Potential Major courses and grade D (1.0) or above in such other courses as may be required, shall be admitted to the Second Year of the subject selected as his Potential Major in his First Year, unless he has applied for and has gained permission to pursue another Major subject.

9.3 A student who, at the end of his First Year, satisfies the conditions for promotion to Second Year may apply for permission to pursue a Major subject other than his Potential Major on a competitive basis and subject to the availability of vacancies in the Department concerned.

9.4 A Department may require a Major student to make up prerequisite courses, if any.

10.0 Promotion to Third Year

10.1 For promotion to the Third Year, a student shall at the end of his Second Year:
   (a) have met the requirements, if any, of both the Major and Minor Departments concerned;
   (b) have met the requirements, if any, of the Faculty concerned;
   (c) have obtained an overall grade point average of not less than 1.5; and
   (d) have failed not more than nine units in the Second Year.

10.2 A student who has obtained a grade point average of below 1.5 but not less than 1.2 may normally be considered for "recommended promotion" to the Third Year in which case he shall be put on academic probation, subject to his satisfying all the other requirements specified in 10.1.

10.3 A student who has completed his Second Year of university studies abroad on an approved exchange programme may be considered for promotion to the Third Year by the Board of his Faculty after consultation with the student's Major Department.
11.0 Promotion to Fourth Year

11.1 For promotion to the Fourth Year, a student shall at the end of his Third Year have obtained a pass or a recommended pass in Part I of the Degree Examination.

11.2 A student who is promoted to the Fourth Year shall be put on academic probation if his grade point average in the Third Year is below 1.5.

12.0 Change of Major or Minor Subject

12.1 A student who wishes to transfer from one Major or Minor subject to another shall apply on prescribed forms to both the original Department and the Department he intends to join. If his application is approved by the Chairman of the Departments concerned, the student shall submit the forms with the signatures of approval to the Registrar before a specified date.

12.2 If in considering a student's aptitude, the Chairman of the Department finds that the student should best be transferred to another Department and the other Department agrees to take the student, the Office of the Faculty shall advise the student to transfer accordingly.

13.0 Class Attendance and Leave of Absence

13.1 A student shall attend classes, tests and examinations and complete the work assigned by the teachers of the courses in which he has enrolled.

13.2 A student who cannot attend classes because of illness or other reasons shall report to the Registrar the exact date/s of his absence at the earliest opportunity.

13.3 In case of illness necessitating absence exceeding a week, a student shall inform the Registrar at the earliest opportunity and upon his recovery, submit a certificate signed by the Director of the University Health Service.

13.4 A student who wishes to obtain a leave of absence for more than a week for non-medical reasons shall apply in writing to the Registrar beforehand, stating the reasons for which leave of absence is sought. Such applications shall be subject to the approval of the Dean of the Faculty concerned.

13.5 Under no circumstances shall a student be granted leave of absence for more than one year in the first instance. In case he still finds himself unable to attend after one year's leave, he may apply for the extension of his leave for another year, beyond which no further extension shall be granted.
13.6 A student who has been absent without leave for a period exceeding one month shall be considered as having withdrawn from studies at the University.

13.7 A student who is absent without leave from a course for more than one-third of its scheduled teaching periods shall receive an 'F' grade for the course. If the course in question is a core course, the student shall repeat it in the following year.

13.8 A student whose accumulated leave of absence exceeds one-third of the teaching term shall repeat the term. Under unusual circumstances, however, a special case may be considered on individual merit.

13.9 A student shall be required to take leave of absence if the condition of his health is considered by the Director of the University Health Service as constituting a definite hazard to the University community. The student required to take leave of absence from his studies on medical grounds shall seek necessary treatment as appropriate. At the end of the prescribed period of absence, the student shall apply for a certificate of good health signed by the Director of the University Health Service before he can apply to resume classes.

13.10 In case of classes or tests missed or assignments delayed because of illness or other serious emergencies, application for carrying out make-up work shall be subject to the approval of the teacher concerned.

14.0 Extension of Period of Study for Student Union Presidents

14.1 A student after election to the Presidency of the Student Union of the University or a College may, if he feels that his academic work will suffer through the pressure of his Union duties, apply in writing to the Registrar for permission to take not more than one extra year to complete his undergraduate studies and examinations. The Board of the Faculty concerned after considering each application may make a recommendation to the Senate thereon. No student shall be granted this privilege more than once.

14.2 Such an application shall be made within the first month after the beginning of the teaching term.

14.3 The grant of such permission shall not prejudice the student's eligibility for any academic awards or financial assistance in the student's academic career.

14.4 The said student shall take a minimum of six units of courses in each teaching term during his term of office as Student Union President. Should the student repeat a course in which he has gained a pass grade, the units of that course shall not count
towards the six unit requirement. But he shall not be considered for promotion. Furthermore he shall not take any Degree Examination which immediately follows the teaching term during which he has taken a reduced study load.

14.5 The said student shall be required to pay all prescribed fees.

15.0 Examinations

15.1 There shall be prescribed examinations for each degree of the University which shall be held at times to be determined by the University.

15.2 Examinations may be in the form of written, practical or oral tests, or continuous assessment, or any combination thereof.

15.3 A student who in the first teaching term of the year of Degree Examination has obtained a grade point average of not less than 1.5 may sit for the Part I and Part II of the Degree Examination held at the end of his Third and Fourth Year respectively in accordance with the Regulations for the Degree Examination.

15.4 A student who for medical or other compelling reasons is unable to sit for any course examination or any part thereof shall apply in writing to the Registrar for withdrawal from the examination or any part thereof. Application for such withdrawal for medical reasons shall be accompanied by a medical certificate signed by the Director of the University Health Service, and application for withdrawal for other compelling reasons, by a written request from the student’s parent or guardian if the student is under the age of 21. A student who is absent from a course examination without prior approval for withdrawal shall be considered as failing in that examination.

16.0 Grades

16.1 A student’s performance in his studies shall be assessed on the basis of his performance in any or all of the following; class work, written work, laboratory performance, field work, research papers, tests and examinations and any other method of academic assessment.

16.2 Degree and course grades, converted points and standards used in reporting shall be as follows:

<table>

 | C− | 1.7  
D Pass ............... | D  | 1.0  
E Failure ............ | E  | 0.0  
F Bad Failure ......... | F  | 0.0  

16.3 The grade point average of a student’s course work for a teaching term shall be on a 4-point system in which A=4.0, B=3.0, C=2.0, D=1.0 and E/F=0. To compute the grade point average, one shall divide the total weighted converted points for all courses taken by the total number of units attempted, where:

(a) the weighted converted points are converted points multiplied by the number of units of the course concerned; and

(b) converted points are points converted from the letter grades as indicated in Regulation 16.2 above.

16.4 Incomplete course work must be made up within three weeks immediately following the last teaching day of the term in which it was assigned. Failure to complete the assigned work within the allowed time shall result in an ‘F’ grade.

17.0 Unsatisfactory Performance

17.1 A student who is put on academic probation may be required to take a reduced study load.

17.2 The performance of a student on academic probation shall be reviewed at the beginning of the following teaching term, at which time if he has attained a grade point average of 1.5 or above on all course work attempted, probation shall be lifted.

17.3 A student shall normally be required to repeat a year of study if he cannot meet the necessary requirements for promotion but no student shall repeat the same year of study twice.

17.4 A student required to repeat a year of study shall retake all the courses for that year except those expressly exempted from.

17.5 A student may be required to discontinue his studies at the University, subject to the decision of the Board of the Faculty concerned and the Senate:

(a) if his grade point average is 1.0 or below; or

(b) if his grade point average is still below 1.5 after he has been put on probation for two successive teaching terms; or

(c) if the units of the courses which he fails amount to more than half of the total units taken in any year of study.
18.0 Graduation

18.1 A student shall be eligible for the reward of a degree if:
(a) he has passed both Part I and Part II of the Degree Examination;
(b) he has met the following requirements:
   - pass in 120 units of courses,
   - fulfilment of General Education requirements,
   - pass in General Chinese and General English courses, unless exempted therefrom, and
   - pass in required Physical Education courses;
(c) he is not required to repeat under Regulation 13.7.

18.2 To fulfil General Education requirements a student shall
(a) have registered for and attended all the General Education courses as required;
(b) have obtained a grade point average of not less than 1.5 in
    the required General Education programme, and not have
    any F grade in a course which goes to make up the required
    General Education programme.

18.3 A student who has passed both Part I and Part II of the Degree Examination but has not yet met all the stipulated requirements above shall repeat a year of study in the following year but may be permitted to register for only the course(s) of which he failed to meet the requirement.

18.4 A student shall be required to discontinue his studies at the University from the eighth anniversary of the date of his first registration.

19.0 Transcripts

19.1 An official transcript giving details of all courses taken and examination results of a student shall not be issued to a student or any private individual.

19.2 A student who wishes to apply for transfer or admission to another educational institution or for employment may apply for an official transcript of his academic record to be sent directly to the said institution or prospective employer upon payment of the prescribed fees and postage.

20.0 Disciplinary Action

20.1 The University Senate, Boards of Faculties and College Assemblies of Fellows may take disciplinary action against a student who violates any rule or regulation and/or commits any misconduct such as:
(a) defamatory or assault on or battery against the person of any member of the University;
(b) wilful damage to or defacement of any property of the University;
(c) theft, fraud, misapplication of University funds or property of any kind;
(d) plagiarism in written assignments or cheating in tests or examinations;
(e) an offence in connection with degree examinations or violation of any of the regulations of the Senate governing conduct at examinations;
(f) falsification or serious misuse of University documents or records;
(g) refusal to comply with any regulations or orders by authorized persons and bodies prohibiting any conduct which disrupts teaching, study, research or administration of the University;
(h) any conduct which is detrimental to the reputation and well-being of the University;
(i) an offence of an immoral, scandalous or disgraceful nature of which the student has been convicted in any court of law.

20.2 Disciplinary action referred to in Regulation 20.1 may take the form of any of the following penalties in accordance with the nature and gravity of the offence:
(a) reprimand;
(b) suspension from part or all of the rights, privileges and/or the use of part or all of the facilities of the University for a specified period of time;
(c) demerit — a total of three demerits may result in termination of studies at the University;
(d) repetition of a year of study;
(e) suspension from the University for a specified period of time;
(f) termination of studies at the University.
Penalties (d), (e) and (f) may be imposed only with the approval of the Senate.

20.3 A student, on being informed of a decision to take disciplinary action against him, may within seven days write to request the Senate to review the decision.

20.4 Penalties imposed on a student may be entered into the transcript of his academic record.
GENERAL REGULATIONS
GOVERNING
UNDERGRADUATE MEDICAL
STUDIES

(Potential Medical Major and Pre-clinical Studies Section)

1.0 Rules and Regulations

1.1 Students pursuing undergraduate medical studies shall observe rules and regulations stipulated by the University and College Authorities which are applicable and the General Regulations Governing Undergraduate Medical Studies stipulated by the Faculty of Medicine.

1.2 The General Regulations Governing Undergraduate Studies (hereinafter referred to as Undergraduate Regulations) shall be applicable to the Potential Medical Major and Pre-clinical Students with the exception of the following Regulations:

2.3-2.6 concerning the admission of mature, transfer, associated and auditing students
5.1-5.4 concerning course load
6.2(c) (d) & 6.3 concerning selection of courses
10.1-10.3 concerning promotion to Third Year
11.1 concerning promotion to Fourth Year
17.1-17.9 concerning unsatisfactory performance

2.0 Admission

Application for admission to the University as Medical students shall comply with the "Regulations Governing Admission to Undergraduate Studies". Admission of Potential Medical Major Students to Pre-clinical Year 1 shall be governed by Undergraduate Regulations 8.1-8.3 and 9.1-9.4.

3.0 Length of Study

3.1 A student shall complete the Potential Medical Major programme and the Pre-clinical programme within a period not exceeding four academic years.

3.2 Direct entrants to Pre-clinical Year 1 shall complete the Pre-clinical programme in a period not exceeding three academic years.

4.0 Examinations in the Pre-clinical Years
4.1 Pre-clinical students shall be assessed by the following examinations during the two Pre-clinical years:—
   (a) Departmental assessment around Chinese New Year time during Pre-clinical Year 1;
   (b) Faculty Examination in the subjects of Anatomy, Physiology, Biochemistry and the Introductory Course in Social and Behavioural Sciences at the end of Pre-clinical Year 1; and
   (c) the First Professional Examination in the subjects of Anatomy, Physiology, Pharmacology and Biochemistry held at around Easter time in Pre-clinical Year 2.

4.2 Pre-clinical Departments are free to conduct continuous assessment of students in any format throughout the Pre-clinical programme in addition to the above examinations.

4.3 The pass mark for the Faculty Examination is 50%. A minimum score of 33% in any subject is required. Students obtaining less than the minimum score in any subject or less than 50% overall after moderation will be required to repeat Pre-clinical Year 1. Faculty Examination results may also count towards the First Professional Examination at the discretion of the Department concerned.

4.4 Students are required to pass in each individual subject in the First Professional Examination. The pass mark is 50%.

4.5 Students who fail in one subject only in the First Professional Examination shall be allowed a supplementary examination to be held in June of the same year. Students who fail the supplementary examination or who fail more than one subject in the main examination will be required to repeat Pre-clinical Year 2.

(Clinical Studies Section)

5.0 Length of Study
A student shall complete the Clinical Medical Programme within a period not exceeding four academic years.

6.0 Examinations in the First Clinical Year

6.1 Students shall be assessed by the following examinations during the First Clinical Year:—
   (a) Departmental assessment in the subjects of General Pathology, Junior Medical Clerkship and Junior Surgical Clerkship; and
   (b) the Second Professional Examination in General and Systemic Pathology held at the end of the First Clinical Year.
6.2 The pass mark for the above examinations is 50%. A minimum score of 33% in any subject is required. Students obtaining less than the minimum score in either Junior Medical Clerkship or Junior Surgical Clerkship or in the Second Professional Examination will be required to repeat the First Clinical Year. Students who fail the Second Professional Examination marginally shall be given an opportunity for re-assessment. Students who fail in the re-assessment will be required to repeat the First Clinical Year.
REGULATIONS FOR THE DEGREE EXAMINATION 1984

1.0 General

1.1 The Degree Examination of The Chinese University of Hong Kong, hereinafter referred to as the Examination, shall be conducted in accordance with these Regulations by the Undergraduate Examinations Board, hereinafter referred to as the Board, constituted under the Senate of the University.

1.2 Success in the Examination, in accordance with the requirements laid down by the Board, shall be a prerequisite for admission to the bachelor's degree of The Chinese University of Hong Kong.

1.3 The Examination shall be conducted in two parts: Part I and Part II. The Part I Examination is intended for students who have satisfied the requirements stipulated in Regulation 2.1, and the Part II Examination for students who have satisfied the requirements stipulated in Regulation 2.2.

1.4 The Examination will start in about the first week in the month of May each year.

1.5 Candidates shall be notified through notices displayed on the notice board of the Faculty concerned of the timetable for the Examination and the centres at which the Examination will be held.

1.6 The principal language used in setting the examination papers shall be Chinese.

1.7 Candidates who have passed both Part I and Part II of the Examination and who have met all the stipulated requirements shall be recommended by the Board to the Senate for the award of a Degree in Arts, Science, Business Administration or Social Science, in accordance with their major subjects.

1.8 A list of successful candidates recommended for the award of a degree will be announced by the Board at about the end of July each year.

2.0 Entry Requirements

2.1 For admission to Part I of the Examination, a student shall have
(a) been a third year student of the University,
(b) attended an approved course of study extending over at least
three years as a full-time matriculated student at the University,
except as provided for in Statute 26(4), and
(c) been certified by the Board of the Faculty concerned as an
approved candidate.

2.2 For admission to Part II of the Examination, a student shall have
(a) previously obtained a Pass or Recommended Pass in Part I
of the Examination,
(b) attended an approved course of study extending over at least
four years as a full-time student at the University, except as
provided for in Statute 26(4), and
(c) been certified by the Board of the Faculty concerned as an
approved candidate.

2.3 Any candidate not covered by the above Regulations shall be
eligible for admission to the Examination only if the sanction of
the Board has been obtained.

2.4 Candidates for this Examination must apply to the Registry for
admission to the Examination on the prescribed forms. All
applications shall be forwarded to the Secretary of the Board not
later than 15th February in the year of examination. No applica-
tion shall be accepted after this date.

2.5 A candidate shall not be allowed to change his paper entries after
15th March in the year of examination, but until one week before
the commencement of the Degree Examination, he may be per-
mitted, for justifiable reasons, to withdraw a paper he has entered
for subject to his satisfying the requirement laid down in
Regulation 3.2 or 3.3.

3.0 Number of Papers

3.1 The total number of papers for both Part I and Part II of the
Degree Examination shall not be less than seven and shall not
exceed nine.

3.2 In Part I of the Examination, a candidate shall enter for
(a) one to three papers in the major subject and one to two
papers in one minor subject, or
(b) one to two papers in the major subject and two to three
papers in two approved minor subjects,
as specified for each individual subject, subject to the condition
that the total number of papers entered for in Part I of the
Examination does not exceed four and shall not be less than
three.

3.3 In Part II of the Examination, a candidate shall enter for the
necessary number of papers to satisfy the requirement that the total number of papers which he enters for in both Part I and Part II of the Examination shall be
(a) five or six in the major subject and two or three in one minor subject, or
(b) four in the major subject, two or three in the first minor subject and two in the second minor subject, as specified for each individual subject, unless otherwise directed by the Board.

3.4 Any candidate who intends to submit a thesis, research paper or project in lieu of a degree paper must specify such intention in the application form mentioned in Regulation 2.4. Such thesis, research paper or project should be submitted to the supervisor on a date specified by the Board of Studies concerned.

4.0 Part I Examination

4.1 A candidate who passes all the papers he enters for in the Part I Examination will be awarded a Pass in the Part I Examination.

4.2 A candidate who fails in one or two papers and yet reaches for all the papers he enters for in the Part I Examination an average mark not lower than the pass mark as decided upon by the Board may be awarded a Recommended Pass in the Part I Examination provided that the result of any paper does not fall below a minimum mark determined by the Board.

4.3 A candidate who fails to obtain a Pass or a Recommended Pass may be permitted to repeat a year and enter for the Part I Examination of the following year, in which case he shall be required to sit for all the appropriate papers set for the candidates of that year.

4.4 A candidate who passes the Part I Examination but wishes to repeat his third year owing to change of major/minor subject may be allowed to do so provided that he enters for the Part I Examination of the following year which will be counted as second attempt and that he shall be required to sit for all the appropriate papers set for the candidates of that year unless exemption from taking certain papers has been obtained from the Board on the recommendation of the Boards of Studies or Committee of the candidate's major/minor subject concerned.

4.5 No candidate shall be allowed to sit for the Part I Examination more than twice save under circumstances specified in Regulation 6.2. Any second attempt should be made in the year immediately following his failure, unless permission of the Board for postponement is obtained.
5.0 Part II Examination

5.1 A candidate who passes all the papers he enters for in the Part II Examination will be awarded a Pass in the Part II Examination.

5.2 A candidate who fails in one or two papers and yet reaches for all the papers he enters for in the Part II Examination an average mark not lower than the pass mark as decided upon by the Board may be awarded a Recommended Pass in the Part II Examination, subject to the conditions that the total number of failed papers in the Part I and Part II Examination together does not exceed two and that the result of any one paper does not fall below a minimum mark determined by the Board.

5.3 A candidate who fails to obtain a Pass or a Recommended Pass in the Part II Examination may be permitted to repeat a year and enter for the Part II Examination of the following year, in which case he shall be required to sit for all the appropriate papers set for the candidates of that year.

5.4 When Regulation 5.3 is applied to a candidate failing in only one paper in the Part II Examination, the requirement to sit for all the appropriate papers may be relaxed at the request of the candidate to permit him to sit for only the paper in which he has failed or its substitute paper, if in the opinion of the Board his performance in the other papers is good. If he passes in such an event, he shall be given only the pass mark in that paper.

5.5 No candidate shall be allowed to sit for the Part II Examination more than twice save under circumstances specified in Regulation 6.2. Any second attempt should be made in the year immediately following his failure, unless permission of the Board for postponement is obtained.

6.0 Absence from the Examination

6.1 A candidate who is prevented by serious illness/injury or the death of a parent from presenting himself at the Part I or Part II Degree Examination shall apply at the earliest possible moment to the Board for permission for absence from the particular paper/s missed. Other than exceptional cases, application shall not be accepted later than ten days after the last day of the Examination. In the case of serious illness/injury the application shall be accompanied by a certificate signed by the Director of the University Health Service.

6.2 Such a candidate whose application for absence is successful may be granted permission to make up in the Examination of the following year the paper/s which he has missed, if the Board considers his academic performance satisfactory.
6.3 Under special circumstances a candidate under Regulation 6.1, whose application for absence from the Part II Examination is successful may be recommended for the award of a Bachelor's Degree (Aegrotat), if the Board is satisfied with his academic standard. Acceptance of such a degree by the candidate shall render him ineligible to present himself for any subsequent Examination for the same degree.

6.4 An applicant who fails to obtain permission for his absence shall fail the Examination. Regulation 4.3 or 5.3 shall be applicable to such a candidate.

7.0 Award of Degrees

Degrees awarded to successful candidates shall be classified as follows:
(a) Bachelor's Degree with Honours, 1st Class
(b) Bachelor's Degree with Honours, 2nd Class Upper Division
(c) Bachelor's Degree with Honours, 2nd Class Lower Division
(d) Bachelor's Degree with Honours, 3rd Class
(e) Bachelor's Degree

However, a Bachelor's Degree (Aegrotat) shall not be classified.

8.0 Subjects of the Examination

8.1 The subjects of the Examination shall be as follows:

9.0 Disqualification

9.1 The Board may at its discretion disqualify a candidate who breaks any of the Regulations or Instructions made for the conduct of this Examination.
GENERAL REGULATIONS
GOVERNING
UNDERGRADUATE PART-TIME
DEGREE STUDIES

1.0 Rules and Regulations

1.1 Persons pursuing part-time degree studies shall observe all rules
and regulations stipulated by the University and the Faculty
concerned.

2.0 Admission to Undergraduate Part-time Degree Studies

2.1 Entrance Requirements
Except where otherwise stipulated, an applicant seeking admis-
sion to undergraduate part-time degree studies shall:
(a) (i) have gained in one and the same Hong Kong Higher
Level Examination in 1979 or thereafter Grade E or
above in Chinese Language and Literature, English
Language and three other subjects; or
(ii) possess a Matriculation Certificate of The Chinese
University of Hong Kong issued in 1978 or before;
AND
(b) have had at least three years full-time working experience
and be aged 23 or above by 1st September of the year in
which admission is sought; AND
(c) meet any other particular requirements specified for the
programme concerned.

2.2 Exemption from Entrance Requirements
An applicant may apply for exemption from the entrance
requirements stipulated in Regulation 2.1 (a) if he :
(a) has gained in one and the same Hong Kong Certificate of
Education Examination or equivalent examination Grade C
or above in five subjects including Chinese Language and
English Language, and has had at least four years full-time
working experience;

OR

(b) has gained in one and the same Advanced Level Examina-
tion of the University of Hong Kong or the Hong Kong
Examinations Authority or equivalent examination Grade
E or above in three subjects including Chinese Language
and Literature and has had at least three years full-time
working experience;
OR

(c) has gained in one and the same Advanced Level Examination of the University of Hong Kong or the Hong Kong Examinations Authority or equivalent examination Grade E or above in three subjects not including Chinese Language and Literature, but gained Grade E or above in Chinese Language and Literature in the Higher Level Examination of the Hong Kong Examinations Authority or The Chinese University Matriculation Examination and has had at least three years full-time working experience;

OR

(d) has acquired an International Baccalaureate Diploma (but he may be required to gain Grade E or above in Chinese Language and Literature and/or English Language in the Higher Level Examination of the Hong Kong Examinations Authority);

OR

(e) has received his secondary education outside Hong Kong and has completed at least one year of study at a recognized university (but he may be required to gain Grade E or above in Chinese Language and Literature and/or English Language in the Higher Level Examination of the Hong Kong Examinations Authority);

OR

(f) is aged 29 or over on 1st September in the year when admission is sought, provided:

(1) i) he is able to show either by publication or by other acceptable evidence that he has achieved sufficient competence in his chosen field of study to justify admission, or

   ii) he has shown exceptional ability in appropriate academic or professional field/s; AND

(2) he can produce evidence of at least three years' continuous residence in Hong Kong.

However, a person who can meet the requirements stipulated in (f) above may be granted exemption only if and when his application for admission is accepted.

With the exception of mature persons (aged 29 or over) who may apply for exemption and admission simultaneously in February of the year in which admission is sought, all applicants of other categories may apply for exemption to the University Registrar from 15th April to 15th May of the year in which admission is sought.

A fee is payable on application and is not refundable whether exemption is granted or not.

2.3 Special Entrance Requirements

An applicant may apply for direct entrance to the upper years
of a part-time degree programme, if he meets the special entrance requirements of that programme. If he has not obtained Grade E or above in Chinese Language and Literature and in English Language in the Higher Level Examination of the Hong Kong Examinations Authority or The Chinese University Matriculation Examination, he shall be required to take a test in these subjects.

For the Third and Fourth Years of the Part-time Degree Programme in Social Work, the special entrance requirements are:

(a) Direct entrance to the Third Year
An applicant who holds a diploma in social work awarded by the Hongkong Polytechnic or a certificate awarded by the Institute for Social Work Training of the Government Social Welfare Department may be exempted from entrance requirements and be admitted to the Third Year of the programme if he:
(i) has had three years full-time social work experience after he was awarded the diploma or certificate; AND
(ii) is aged 25 or above by 1st September of the year in which admission is sought.

(b) Direct entrance to the Fourth Year
An applicant who holds a diploma awarded by a recognized post-secondary college or a Joint Diploma awarded by the Chinese Colleges Joint Council may be exempted from entrance requirements and be admitted to the Fourth Year of the Part-time Degree Programme in Social Work, if he:
(i) has had three years full-time social work experience after he was awarded the diploma; AND
(ii) is aged 26 or above by 1st September of the year in which admission is sought.

3.0 Fees

3.1 The fees payable by students shall be prescribed by the University Council and may be varied from time to time at the University Council’s absolute discretion.

3.2 All fees shall be payable on dates specified by the University unless prior permission for deferment is obtained from the University Bursar.

3.3 A student who has not paid his fees on the specified date/s shall pay a daily fine until the fees are paid. He shall have his name removed from the register if he fails to pay up after a lapse of two weeks.

3.4 Caution money shall be payable on first registration as a deposit to make good any outstanding debts to the University incurred
in, for example, damages to University and/or College property. This sum less any deductions made for outstanding debts shall be refunded on discontinuation of studies at the University. For graduating students, subject to no claim being outstanding, caution money shall be converted into graduation fee.

3.5 Apart from caution money, fees once paid shall not be refunded.

4.0 Registration

4.1 An applicant who has been offered admission to a part-time degree programme shall register in person with the Registry on the specified date(s) and shall be deemed to have been admitted to that part-time degree course of study on the date of his first registration, and thereafter, a student shall present himself for registration on the specified date(s) before the beginning of each teaching term.

4.2 An applicant who for special reasons seeks permission for deferment of registration may apply in writing to the Registrar before the specified date(s) for registration.

4.3 An applicant who has been offered admission but is prevented by illness or other sufficient cause from attending a given academic year or teaching term shall apply in writing to the Registrar for postponement of studies for a period not exceeding one year. Such an application shall be made before the specified date(s) for registration. In the case of an applicant desiring postponement of studies on medical grounds, his application shall be accompanied by a certificate signed by a registered medical practitioner.

4.4 Registration shall include the payment of fees due and the selection of courses. An applicant or a student who after a lapse of two weeks from the relevant specified dates fails to pay the fees and select courses shall be considered as having withdrawn from studies at the University.

4.5 A student shall normally retain the name under which he was first registered. Under special circumstances, however, a student may submit to the Registrar an application for a change of his name (including alteration of, addition to or deletion from the name under which he was first registered) together with the following documents:

(a) copy of applicant’s identity card or passport, carrying the new name intended to be registered with the University; AND

(b) copy of applicant’s statutory declaration and/or birth certificate.
4.6 A student shall inform the Registrar immediately of any change of address or other particulars entered in the student's registration form.

5.0 Selection of Courses

5.1 Unless otherwise stipulated, a student shall, after consulting the teacher designated by the Faculty/Department Committee concerned, and after examining the relevant teaching timetable, fill in and submit to the Registrar on the specified date/s, the prescribed form for course selection which shall have the necessary signatures.

5.2 A student shall take the required courses of his chosen programme and the General Chinese, General English, and General Education courses during the year specified by the programme concerned unless written application to do otherwise is approved by the Faculty/Department Committee concerned and a record of such approval is submitted to the Registrar.

5.3 In selecting an elective/optional course, a student shall make sure that there will be no time-table clash with another course taken by him.

6.0 Class Attendance and Leave of Absence

6.1 A student shall attend classes, tests and examinations and complete the work assigned by the teachers of the courses in which he has enrolled.

6.2 A student who cannot attend classes because of illness or other reasons shall report to the Registrar the exact date/s of his absence at the earliest opportunity.

6.3 In case of illness necessitating absence exceeding a week, a student shall inform the Registrar at the earliest opportunity and upon his recovery, submit a certificate signed by a registered medical practitioner.

6.4 A student who wishes to obtain a leave of absence for more than a week for non-medical reasons shall apply in writing to the Registrar beforehand, stating the reasons for which leave of absence is sought. Such applications shall be subject to the approval of the Registrar.

6.5 Under no circumstances shall a student be granted leave of absence for more than one year in the first instance. In case he still finds himself unable to attend after one year's leave, he may apply for an extension of his leave for another year, beyond which no further extension shall be granted.
6.6 A student who has been absent without leave for a period exceeding one month shall be considered as having withdrawn from studies at the University.

6.7 A student who is absent without leave from a course for more than one-third of its scheduled teaching periods shall receive an ‘F’ grade for the course.

6.8 A student whose accumulated leave of absence exceeds one-third of the teaching term shall repeat the term. Under special circumstances, however, certain cases may be considered on individual merit.

6.9 In case of classes or tests missed or assignments delayed because of illness or other emergencies, application for carrying out make-up work shall be subject to the approval of the teacher concerned.

7.0 Course Withdrawals and Additional Course Selections

7.1 Application for course withdrawals and additional course selections shall be made on a prescribed form which shall have the signature of approval from the teacher designated by the Faculty/Department Committee concerned and shall be submitted to the Registrar. Such an application shall be made within a specified time after the beginning of the teaching term.

7.2 Under special circumstances, the Chairman of the Faculty/Department Committee concerned may, at his discretion after examining the student’s written application, grant him permission to withdraw from a course or enrol in a new course after the specified date for withdrawal and addition of courses.

7.3 A student who withdraws from a course without going through the prescribed procedure shall be given an ‘F’ grade for the course.

8.0 Course Load

8.1 A student shall normally take no less than 18 units and no more than 27 units over the three teaching terms of an academic year.

8.2 With the exception of students of the Part-time Degree Programme in Chinese-English, a student, unless exempted, shall be required to take six units of General Chinese and six units of General English in the first two years of the First Part of a part-time degree programme.

8.3 Unless otherwise stipulated in the programme, a student shall be required to take six units of General Education courses in his First Part of a programme, and a further six units of General Education courses in his Second Part of a programme.
9.0 Length of Study and Number of Units for Graduation

9.1 The normal length of study of a part-time degree programme shall be six years, with an exit point at the end of the First Part (Third Year) of a programme upon the completion of 60 or more units of course work as stipulated for the individual programmes.

9.2 A student shall proceed at once to the Second Part of a programme following completion of the First Part of his studies, unless he is granted a leave of absence by the Registrar.

9.3 In the Second Part of a programme, a student shall pursue a further three years of study completing a further 60 or more units of courses as stipulated for the individual programmes.

9.4 The First Part or Second Part must each be completed within a maximum of five years, which shall include any leave of absence.

9.5 With the exception of those students who have been granted direct entrance to the upper years of a part-time degree programme, a student shall complete at least 120 units of courses in order to graduate.

10.0 Award of Certificate and Conferment of Degrees

10.1 Upon completion of the required number of units of course work in the First Part of a programme and upon passing a Certificate Examination prescribed for the programme concerned, a student will be awarded a Certificate for his achievement in the First Part of the programme.

10.2 Upon completion of at least 120 units of course work, unless exempted, in the First Part and Second Part of his study and upon satisfying all other requirements, including the Degree Examination requirements, specified for the programme concerned, a student will be recommended to the Senate for the conferment of a Bachelor's Degree, which will be classified as follows:
   (a) Bachelor's Degree with Honours, 1st Class
   (b) Bachelor's Degree with Honours, 2nd Class Upper Division
   (c) Bachelor's Degree with Honours, 2nd Class Lower Division
   (d) Bachelor's Degree with Honours, 3rd Class
   (e) Bachelor's Degree

11.0 Assessment and Grades

11.1 A student's performance in his studies shall be graded and assessed on the basis of his performance in any or all of the following: class work, written work, laboratory performance,
field work, research papers, tests and examinations and any other method of academic assessment.

11.2 Degree, Certificate and course grades, converted points and standards used in reporting shall be as follows:

11.3 The grade point average of a student's course work for a teaching term shall be on a 4-point system in which A=4.0, B=3.0, C=2.0, D=1.0 and E/F=0. To compute the grade point average, one shall divide the total weighted converted points for all courses taken by the total number of units attempted, where:

(a) the weighted converted points are converted points multiplied by the number of units of the course concerned; and

(b) converted points are points converted from the letter grades as indicated in Regulation 11.2 above.

11.4 An Incomplete Grade (I) shall signify that a course has not been completed in the prescribed period. A grade shall be assigned upon the completion of the course work.

11.5 Incomplete course assignment/s must be made up within three weeks immediately following the last teaching day of the term in which it was assigned. Failure to complete the assigned work within the allowed time shall result in an 'F' grade.

12.0 Promotion and Unsatisfactory Performance in the First Part of a Programme

12.1 A student's academic progress in the First Part of a programme shall be monitored in terms of grade point averages.

12.2 For promotion to a higher year in the First Part of a programme, a student shall at the end of an academic year:

(a) have met the requirements, if any, specified for the programme concerned;
(b) have obtained an overall grade point average of not less than 1.5; and
(c) have failed not more than half of the units of courses taken.

12.3 A student who has obtained a grade point average of below 1.5 but not less than 1.2 at the end of the academic year may normally be considered for "recommended promotion" to a higher year in which case he shall be put on probation, subject to his satisfying all the other stipulated requirements.

12.4 A student who is put on probation may be required to take a reduced study load.

12.5 The performance of a student who is put on probation shall be reviewed at the end of the first teaching term.

12.6 Probation shall be lifted when a student has attained a grade point average of 1.5 or above on all course work attempted in the first teaching term.

12.7 A student may be required to discontinue his studies at the University, subject to the decisions of the Board of the Faculty concerned and the Senate:
(a) if his grade point average is 1.0 or below; or
(b) if his grade point average is still below 1.5 after he has been put on probation for two successive teaching terms; or
(c) if the units of the courses which he fails amount to more than half of the total units taken in any year of study.

12.8 A student shall normally be required to repeat a year of study if he cannot meet the necessary requirements for promotion but no student shall repeat the same year of study twice.

12.9 A student required to repeat a year of study shall retake all the courses for that year except those expressly exempted from.

12.10 For the Part-time Degree Programmes in Chinese-English and in Music, there shall be an examination at the end of the First Year in the First Part. A student who fails in this examination shall be required to discontinue his studies at the University.

13.0 Certificate Examination

13.1 There shall be a Certificate Examination at the end of the First Part (Third-year) of each of the part-time degree programme.

13.2 A student who has completed the prescribed course work in the First Part of a programme will be permitted to sit for the Certificate Examination.

13.3 A student who has obtained a pass in the Certificate Examination will be permitted to proceed to the Second Part of the programme.
13.4 A student admitted directly to the Third-year of the Part-time Degree Programme in Social Work shall not sit for the Certificate Examination. However, he is required to complete the prescribed course work and to satisfy the other requirements laid down for the programme, before he is permitted to proceed to the Second Part (Fourth Year) of the programme.

14.0 Degree Examination and Promotion in the Second Part of a Programme

14.1 There shall be a Degree Examination in three successive years during the Second Part of a part-time degree programme.

14.2 A student who has pursued the prescribed course work in each academic year in his Second Part of a programme will be permitted to sit for the Degree Examination.

14.3 Normally, a total of seven or eight degree papers is required for a student in the Second Part of a programme, as prescribed for the programme concerned.

14.4 Except as stipulated in the examination scheme of a particular programme, a student normally shall not be allowed to take less than two degree papers at the end of each academic year in his Second Part of a programme.

14.5 If a student fails in any course covered by a degree paper but passes the relevant paper in the Degree Examination, he is deemed to have obtained a bare pass for the grade of that course.

14.6 A student who fails in one degree paper at the end of the Fourth or Fifth Year in the Second Part of a programme may be promoted to the Fifth or Sixth Year. He will be allowed to resit that paper or take a substitute paper where feasible a year later.

14.7 A student who fails in two or more degree papers in the Fourth or Fifth Year in the Second Part of a programme shall be required to repeat the year of study and retake all the courses for that year except those expressly exempted from, but no student shall repeat the same year twice.

14.8 A student who fails in one or two degree papers in the Sixth Year and yet reaches for all the papers he has entered for in the Degree Examination in the Second Part of his programme an average mark not lower than the pass mark as decided upon by the Undergraduate Examinations Board may be awarded a Recommended Pass, subject to the conditions that the total number of failed papers in the Degree Examination of the Second Part of his programme together does not exceed two and that the result of any one paper does not fall below a minimum mark determined by the Board.
14.9 A student who has failed twice in any degree paper shall be required to discontinue his studies at the University. A failure in one degree paper and a failure in its substitute paper in a subsequent year shall be counted as two failures in the same degree paper.

15.0 Examinations in General

15.1 The Certificate and Degree Examinations shall be conducted by the Undergraduate Examinations Board, constituted under the Senate of the University.

15.2 Candidates for Certificate and Degree Examinations must apply to the Registry for admission to the examination on the prescribed forms by a specified date.

15.3 Students shall be notified through notices displayed on the notice boards of the timetable for the Certificate or Degree Examination, and the location at which the examination will be held.

15.4 A student who is prevented by serious illness/injury or the death of a parent from presenting himself at a Certificate or Degree Examination shall apply prior to the examination or at the earliest possible moment to the Undergraduate Examinations Board for absence from the particular paper/s. Only in exceptional cases may such an application be accepted later than ten days after the last day of the examination. In the case of serious illness/injury the application shall be accompanied by a certificate signed by a registered medical practitioner.

15.5 A student who fails to obtain permission for his absence shall be deemed to have failed the examination.

16.0 Transcripts

16.1 An official transcript giving details of all courses taken and examination results of a student shall not be issued to a student or any private individual.

16.2 A student who wishes to apply for transfer or admission to another educational institution or for employment may apply for an official transcript of his academic record to be sent directly to the said institution or prospective employer upon payment of the prescribed fees and postage.

17.0 Disciplinary Action

17.1 The University Senate and Boards of Faculties may take disciplinary action against a student who violates any rule or
regulation and/or commits any misconduct such as:
(a) defamation of or assault on or battery against the person of
any member of the University;
(b) wilful damage to or defacement of any property of the
University;
(c) theft, fraud, misapplication of University funds or property
of any kind;
(d) plagiarism in written assignments or cheating in tests or
examinations;
(e) an offence in connection with Degree or Certificate
Examinations or violation of any of the regulations of the
Senate governing conduct at examinations;
(f) falsification or serious misuse of University documents or
records;
(g) refusal to comply with any regulations or orders by author-
ized persons and bodies prohibiting any conduct which
disrupts teaching, study, research or administration of the
University;
(h) any conduct which is detrimental to the reputation and
well-being of the University;
(i) an offence of an immoral, scandalous or disgraceful nature
of which the student has been convicted in any court of
law.

17.2 Disciplinary action referred to in Regulation 17.1 may take the
form of any of the following penalties in accordance with the
nature and gravity of the offence:
(a) reprimand;
(b) suspension from part or all of the rights, privileges and/or
the use of part or all of the facilities of the University for
a specified period of time;
(c) demerit — a total of three demerits may result in termina-
tion of studies at the University;
(d) repetition of a year of study;
(e) suspension from the University for a specified period of
time;
(f) termination of studies at the University.
Penalties (d), (e) and (f) may be imposed only with the approval
of the Senate.

17.3 A student, on being informed of a decision to take disciplinary
action against him, may within seven days write to request the
Senate to review the decision.

17.4 Penalties imposed on a student may be entered into the trans-
cript of his academic record.
GENERAL REGULATIONS
GOVERNING POSTGRADUATE STUDIES

1.0 Rules and Regulations

1.1 All postgraduate students have an obligation to be conversant with and to observe all rules and regulations of the University.

2.0 Admission to Postgraduate Courses

2.1 Requirements for Admission

(a) An applicant before being admitted to a PhD programme shall have in principle

(i) obtained a degree of Master from a recognized university and the consent of two qualified scholars in the proposed field of study from recognized universities to be named as referees; or

(ii) obtained a degree of Bachelor with Second Class Honours in the upper division or above and have been registered in a course of study for the degree of Master at this University for at least one year and have demonstrated his/her research ability in the opinion of the Graduate Division/Board concerned; or

(iii) obtained the degree of MB ChB or equivalent or under special circumstances, the degree of Bachelor; and

(iv) passed the Chinese Language Admission Test conducted by the Graduate School; and

(v) obtained satisfactory results in the Test of English as a Foreign Language (TOEFL) or in the test of any other language that has direct relevance to his/her proposed research area; and

(vi) possessed additional or special qualifications required by the Graduate Division/Board concerned; and

(vii) submitted a study plan to the Graduate Division/Board concerned at the time of application for admission.

(b) An applicant before being admitted to a master’s programme shall have:

(i) graduated from this University or other recognized universities possessing a Bachelor’s degree normally with honours not lower than Second Class, or
(ii) graduated from other recognized universities possessing a Bachelor's degree and achieving an average grade of not lower than "B" in his/her undergraduate courses, or

(iii) completed a course of study in a tertiary educational institution and obtained professional or similar qualifications equivalent to an honours degree; and

(iv) passed the Graduate School Entrance Examination; and

(v) obtained satisfactory results at the Test of English as a Foreign Language.

(c) An applicant before being admitted to the one-year full-time Diploma-in-Education course shall have:

(i) graduated from this University or other recognized universities possessing a Bachelor's degree with a major/minor subject in an area of study within the secondary school curriculum; and

(ii) satisfied other entrance requirements laid down by the School of Education.

(d) An applicant before being admitted to the two-year part-time Diploma-in-Education course shall

(i) have graduated from this University or other recognized universities possessing a Bachelor's degree with a major/minor subject in an area of study within the secondary school curriculum; and

(ii) be an in-service secondary school teacher; and

(iii) have satisfied other entrance requirements laid down by the School of Education.

2.2 Application for Admission

2.3 Applicants for admission to an approved course of advanced study or research leading to a certificate, diploma or higher degree of the University shall apply by completing a prescribed application form which shall reach the Office of the School concerned on the specified dates. Supporting documents shall be submitted as specified in the application form.

2.4 Entrance Examination and Interview

(a) Unless otherwise stipulated, applicants for admission to an approved course of advanced study or research leading to a certificate, diploma or higher degree of the University shall take the TOEFL, sit for an entrance examination which includes the Chinese Language Admission Test and any other subject tests as required by the Graduate Division/Board or School concerned, and/or attend an interview.
(b) (1) Exemption from taking the Chinese Language Admission Test may be granted to those candidates:
   (i) who have obtained a pass grade in Chinese Language and Literature in the Higher Level Examination or Advanced Level Examination; or
   (ii) who hold a Bachelor's degree in a branch of Chinese Studies from a recognized university; or
   (iii) who have obtained a pass in or been exempted from the First-Year General Chinese of this University.

(2) Exemption from taking the Test of English as a Foreign Language may be granted to those candidates:
   (i) who have obtained a pass grade in English Language in the Higher Level Examination or the Use of English in the Advanced Level Examination; or
   (ii) who hold a Bachelor's degree in English from a recognized university; or
   (iii) who have obtained a pass in or been exempted from the First-Year General English of this University.

(c) An overseas applicant applying for exemption from the entrance examination and interview shall submit the following credentials to the Office of the School concerned not later than 15th April of the year in which admission is sought:
   (i) acceptable credentials testifying to the applicant's proficiency in Chinese and English;
   (ii) a letter of recommendation signed by a scholar of international standing testifying to the applicant's research ability.

(d) Graduates with a degree of Bachelor with First Class Honours from this University may be exempted from the major subject test of the entrance examination if they continue their study in the same field as their undergraduate Major.

(e) Applicants for admission to the PhD degree who can produce acceptable credentials testifying to their proficiency in the respective language may be granted exemption from the requirements of the language tests as specified in Regulation 2.1 (a) (iii) and (iv). Other exceptional cases may be considered on an ad hoc basis.
2.5 **Associate Students**

(a) An applicant whose educational standard is considered adequate by the Graduate Division/Board or School concerned may be admitted upon the approval of the Council of the Graduate School as an associate student to pursue an approved course of advanced study or research not leading to a certificate, diploma or higher degree of the University.

(b) Unless otherwise stipulated, application for admission as an associate student shall be supported by a certified true copy of academic record and made to the Office of the School concerned before 1st July or 1st November preceding the academic term for which admission is sought.

(c) No associate student shall be allowed to change his status to that of a candidate for a certificate, diploma or higher degree of the University unless he has already satisfied the University's requirements for admission to an approved course of advanced study or research leading to a certificate, diploma or higher degree of the University and unless the change of status is specially recommended by the Graduate Division/Board or School concerned and the Council of the Graduate School and approved by the Senate.

2.6 **Auditing Students**

(a) An applicant whose educational standard is considered adequate by the Graduate Division/Board or School concerned may be admitted as an auditing student.

(b) Unless otherwise stipulated, application for admission as an auditing student shall be made to the Office of the School concerned before 1st August or 1st December preceding the teaching term for which admission is sought.

(c) An auditing student will not receive any grade or other academic recognition for the course(s) taken.

3.0 **Fees**

3.1 The fees payable by students shall be prescribed by the University Council and may be varied from time to time at the University Council's absolute discretion.

3.2 All fees shall be payable on dates specified by the University unless prior permission for deferment is obtained.

3.3 A student who has not paid his fees on the specified date(s) shall pay a fine of five dollars a day until the fees are paid and shall have his name removed from the register if he fails to pay up after a lapse of three weeks.
3.4 Caution money shall be payable on first registration as a deposit to make good outstanding debts to the University incurred in, for example, damages to University and/or College property. This sum less any deductions made for outstanding debts shall be refunded on discontinuation of studies. For graduating students, subject to no claim being outstanding, caution money shall be converted into graduation fee.

3.5 Apart from caution money, fees once paid shall not be refunded.

4.0 Registration

4.1 Unless otherwise stipulated, an applicant who has been offered admission to an approved course of study or research shall register in person with the Office of the School concerned on the specified date(s) and shall be deemed to have been admitted to the approved course of study or research on the date of his/her first registration, and therefore, a student shall present himself/herself for registration on the specified date(s) before the beginning of each teaching term.

4.2 Permission for deferment of registration for a period not exceeding two weeks from the specified date(s) may, in special cases, be granted on prior application in writing to the Office of the School concerned.

4.3 An applicant who has been offered admission but is prevented by illness or other unavoidable cause from registering for an academic year or a teaching term shall apply in writing to the Office of the School concerned for postponement of studies for a period not exceeding one year. Such an application shall be made before the specified date(s) for registration. In the case of an applicant desiring postponement of studies on medical grounds, his/her application shall be accompanied by a certificate signed by the Director of the University Health Service or a registered physician.

4.4 Registration shall include the selection of courses and the payment of fees due. An applicant or a postgraduate student who fails to register on time or who fails to complete registration shall be considered as having withdrawn from studies at the University after a lapse of two weeks from the specific dates.

4.5 A postgraduate student may not be registered simultaneously with another institution as a full-time student except by the permission of the Senate.
4.6 A postgraduate student registered for a full-time course of study or research shall not take up any full-time employment, paid or unpaid, during term time except by the permission of the Senate.

4.7 A postgraduate student shall normally retain the name under which he/she was first registered. Under special circumstances, however, a student may submit to the Office of the School concerned an application for a change of his/her name (including alteration of, addition to or deletion from the name under which he/she was first registered) together with the following documents:

(a) applicant's written application;
(b) written consent from the applicant's parent or guardian, if the applicant is under the age of 21;
(c) copy of applicant's identity card or passport, carrying the new name intended to be registered with the University;
(d) copy of applicant's statutory declaration and/or birth certificate.

4.8 A postgraduate student shall inform the Office of the School concerned immediately of any change of address or other particulars entered in the student's registration form.

5.0 Course Load

5.1 A student pursuing a postgraduate programme leading to a certificate, diploma or higher degree shall take the required number of units in any academic year as specified in the individual programmes of studies.

6.0 Selection of Courses

6.1 A student reading for a higher degree shall, after consulting his/her academic adviser and after examining the programme of studies and the time-table of the Division/Board concerned, fill and submit to the Office of the Graduate School, on the specified date(s), the prescribed form for course selection which shall have the signature of the Head of the Division/Board concerned.

6.2 A postgraduate student shall take the required courses during the year as specified in the programme of studies unless written permission to do otherwise is obtained from the Head of the Division/Board concerned/Director of School of Education.
7.0 Course Withdrawals and Additional Course Selections

7.1 Application for course withdrawals and for additional course selections after the specified date/s shall be made on a prescribed form which shall have the signature of approval from the Head of the Division/Board concerned and submitted to the Office of the Graduate School. Such applications shall be made within two weeks after the beginning of the teaching term.

7.2 Only in special cases, the Head of the Division/Board concerned may, at his discretion after examining the student’s written excuse, grant a student permission to withdraw from a course or enroll in a new course after the second week of the teaching term.

7.3 A postgraduate student who withdraws from a course without going through the prescribed procedure shall be given a failure grade for that course.

7.4 Normally no postgraduate student shall withdraw from a year course in the second teaching term. But, in case a postgraduate student has obtained a failure grade for a non-required year course in the first term and does not wish to take it in the second term, he/she may seek approval from the Head of the Division/Board concerned to withdraw from the course. The failure grade received in the first term shall, however, remain in the student’s records.

8.0 Class Attendance and Leave of Absence

8.1 A postgraduate student shall follow all the courses in which he/she has enrolled and shall attend all their tests and examinations.

8.2 Unless otherwise stipulated, a postgraduate student who cannot attend classes because of illness or other reasons shall inform the Office of the School concerned of the exact day(s) of his/her absence at the earliest opportunity.

8.3 In case of illness necessitating absence exceeding a week, a postgraduate student shall submit an application for sick leave to the Office of the School together with a certificate signed by the Director of the University Health Service.

8.4 A postgraduate student who wishes to obtain a leave of absence for more than a week for non-medical reasons shall apply in writing to the Office of the School concerned beforehand stating the reasons for which leave of absence is sought. Such applications shall be subject to the approval of the Dean/Director of the School concerned.
8.5 Under no circumstances shall a postgraduate student be granted leave of absence for more than one year in the first instance. In case after a year's leave, he/she still finds himself/herself unable to attend, he/she may apply for extension, of his/her leave for another year beyond which no further extension will be granted.

8.6 A postgraduate student who has been absent without leave for a period exceeding one month shall be considered as having withdrawn from studies at the University.

8.7 A postgraduate student who is absent from a course for more than one-third of its scheduled teaching periods shall receive an "F" grade for the course.

8.8 A postgraduate student shall be required to take a certain leave of absence if he/she suffers from a contagious disease which is considered by the Director of the University Health Service as harmful to the University community. At the end of the prescribed period of absence, the said student shall apply for a certificate of good health signed by the Director of the University Health Service before he/she can resume classes.

8.9 In the case of tests missed or assignments delayed because of illness or other serious emergencies, application for make-up work shall be subject to the approval of the teacher concerned.

8.10 Unless otherwise stipulated by the School of Education, the above rules shall normally apply.

9.0 Examinations

9.1 There shall be prescribed examinations for each certificate, diploma or degree of the University held at times to be determined by the School or Division/Board concerned.

9.2 Examinations may be in the form of written, practical or oral tests, or continuous assessment, or any combination thereof.

9.3 No postgraduate student shall be admitted to any examination unless he/she shall have satisfied such attendance requirements as may be laid down for his/her course of study.

9.4 A postgraduate student who for medical or other compelling reasons is unable to sit for any examination or any part thereof shall apply in writing to the Office of the School concerned for withdrawal from the examination or any part thereof and the School concerned will determine what follow-up action is required. Application for such withdrawal for medical reasons
shall be accompanied by a medical certificate signed by the
Director of the University Health Service. A postgraduate student
who is absent from an examination without prior application
for withdrawal shall be considered as failing in that examination.

10.0 Grades

10.1 A postgraduate student's performance in his/her studies shall be
assessed on the basis of his/her performance in any or all of the
following: class work, written work, laboratory performance, field
work, research papers, tests and examinations and any other
method of academic assessment.

10.2 For postgraduate courses other than those offered by the School
of Education, the course grades, converted points and standards
used in reporting shall be as follows:

10.3 An Incomplete Grade (I) shall signify that a course has not
been completed in the prescribed time period. A grade shall
be assigned upon the completion of the course work.

10.4 An incomplete work must be made up within three weeks
immediately following the end of the teaching term in which it
was assigned. Failure to complete the assigned work within the
allowed time shall result in an ‘F’ grade.

11.0 Unsatisfactory Performance

11.1 A postgraduate student registered for a higher degree, diploma or
certificate programme shall be required to withdraw from the
programme:
(a) if he/she receives a failure grade in the cumulative average
    of the courses taken, or
(b) if he/she receives failure grades in two courses, or
(c) if he/she fails to satisfy additional requirements which are
    laid down specially for the programme by the Division/Board/School concerned.
11.2 A postgraduate student required to withdraw from a programme of studies may repeat the whole programme in special circumstances if permission is granted by the Council of the Graduate School on the recommendation of the Division/Board/School concerned.

11.3 A postgraduate student receiving a failure grade in a course must repeat the course or take an approved substitute course.

11.4 A postgraduate student whose thesis is found not up to the required standard shall be required to re-write it and re-submit the thesis to the satisfaction of the Thesis Committee before he can be recommended for the award of a degree.

12.0 Period of Study

12.1 A student registered as a full-time student for a PhD programme shall follow a course of advanced study and research on an approved topic for a minimum period of three years and a maximum of seven years from the date of first registration. However, the minimum period for a student holding a Master's degree in a closely related field of studies as that for the PhD programme may be reduced to two years. The minimum residence requirement will normally be two years for a student without a Master's degree and one year for a student with a Master's degree. Any recommendation by a Graduate Division/Board in regard to shortening the minimum length of study at the request of an exceptionally outstanding student must be endorsed by the Graduate Council for Senate approval.

12.2 A Master's degree holder who registered as a part-time student for a PhD programme shall follow a part-time course of advanced study and research on an approved topic in a closely related field of study as his/her Master's programme for a minimum period of four years and a maximum of eight years from the date of first registration. There shall not be any residence requirements for such students.

12.3 A student registered as a full-time student for the degree of Master of Philosophy, Master of Divinity or Master of Social Work shall follow an approved course of study and research under one or more supervisors for a period extending over not less than two academic years. A thesis or dissertation for the said degree shall not be accepted later than four academic years after the date of first registration. In special circumstance, a thesis for the degree of Master of Divinity may be accepted in the fifth academic year if so recommended by the Head of the Division concerned.
12.4 For the part-time MPhil or the three-year part-time day-release MSW programme, a student shall follow an approved course of study and research extending for at least three academic years. A thesis or dissertation for the said degree shall not be accepted later than five academic years after the date of first registration.

12.5 A student registered for the degree of Master of Arts or Master of Science shall follow an approved course of study and research under one supervisor for a period extending over not less than one calendar year. A thesis or dissertation for the said degree, if stipulated in the programme of study, shall not be accepted later than three calendar years after the date of first registration.

12.6 For the one-year full-time MA (Education) programme either by course work only or by thesis plus course work, a student shall follow an approved course of study (and research, if by thesis) for a period extending from a minimum of one to a maximum of three calendar years. A thesis, if specified, for the said degree shall not be accepted later than three calendar years after the date of first registration.

12.7 For the two-year part-time MA (Education) programme either by course work only or by thesis plus course work, a student shall follow an approved course of study (and research, if by thesis) for a period extending from a minimum of two to a maximum of four calendar years. A thesis, if specified, for the said degree shall not be accepted later than four calendar years after the date of first registration.

12.8 For the two-year full-time MBA programme, a student shall follow an approved course of study and research for a period extending for not less than two academic years. A thesis or research paper for the said degree shall not be accepted later than four academic years after the date of first registration.

12.9 For the three-year part-time MBA programme, a student shall follow an approved course of study and research for a period extending for at least nine trimesters. With special permission of the Head of the Division concerned, the student will be allowed to proceed at a slower pace but each student will be required to complete the programme within five consecutive years in order to qualify for the MBA degree.

13.0 Transcripts

13.1 An official transcript giving details of all courses taken and examination results of a student shall not be issued to a student or any private individual.
13.2 A postgraduate student who wishes to apply for transfer or admission to another educational institution or for employment may apply for an official transcript of his academic record to be sent directly to the said institution or prospective employer upon payment of the prescribed fees and postage.

14.0 Disciplinary Action

14.1 The University may take disciplinary action against a postgraduate student who violates any rule or regulation and/or commits any misconduct such as:
(a) defamation of or assault or battery against the person of any member of the University;
(b) wilful damage to or defacement of any property of the University;
(c) theft, fraud, misapplication of University funds or property of any kind;
(d) plagiarism in written assignments or cheating in tests or examinations;
(e) an offence in connection with degree, diploma, or certificate examinations, including violation of any of the regulations of the Senate governing conduct at examinations;
(f) falsification or serious misuse of University documents or records;
(g) refusal to comply with any order prohibiting any conduct which disrupts teaching, study, research or administration of the University;
(h) any conduct which is detrimental to the reputation and well-being of the University;
(i) an offence of immoral, scandalous or disgraceful nature for which the student has been convicted in any court of law.

14.2 Disciplinary action referred to in Regulation 14.1 may take the form of any of the following penalties in accordance with the nature and gravity of the offence:
(a) reprimand;
(b) suspension from part or all of the rights, privileges or the use of part or all of the facilities of the University for a specified period of time;
(c) demerit which would be recorded in his/her transcript (a total of 3 demerits would result in expulsion from the University);
(d) repetition of a year of study;
(e) suspension from the University for a specified period of time;
(f) expulsion from the University. Penalties (d), (e) and (f) may be inflicted only with the approval of the Senate.

14.3 A postgraduate student, on being informed of a decision to take disciplinary action against him/her, may within seven days write to request the Senate to review the decision.

14.4 Penalties on a postgraduate student may be entered into the transcript of his/her academic record.
GENERAL RULES FOR
POSTGRADUATE STUDIES
LEADING TO THE DEGREE OF
DOCTOR OF PHILOSOPHY

PhD 1 General

1.1 The University shall introduce a postgraduate studies pro-
gramme leading to the degree of Doctor of Philosophy (PhD) in any discipline on the recommendation of the Graduate
Council and with the approval of the Senate.

1.2 In principle, a PhD programme in a discipline shall be administered by the appropriate Graduate Division which also administers master programme(s) in the same discipline.

1.3 Where a PhD programme in a major area involves more than one discipline, it shall be administered by a Graduate Board consisting of representatives from the Graduate Divisions concerned which may independently run their own master programmes in the respective disciplines.

1.4 A Graduate Board set up in accordance with Rule 1.3 above shall have a Graduate Panel similar to that of a Graduate Division, and the functions of a Graduate Board and its Graduate Panel shall in principle be exactly the same as those of a Graduate Division and its Panel in regard to the operation of the appropriate postgraduate programmes.

PhD 2 Conditions of Admission

2.1 An applicant seeking admission to a PhD programme must in principle

(i) have obtained a degree of Master from a recognized University and the consent of two qualified scholars in the proposed field of study from recognized universities to be named as referees; or

(ii) have obtained a degree of Bachelor with Second Class Honours in the upper division or above and have been registered in a course of study for the degree of Master at this University for at least one year and have demonstrated his/her research ability in the opinion of the Graduate Division/Board concerned; or

(iii) have obtained the degree of MB ChB or equivalent or under special circumstances, the degree of Bachelor.
2.2 Unless otherwise stipulated, the applicant must have passed the Chinese Language Admission Test (CLAT) conducted by the Graduate School of the University and obtained satisfactory results in the Test of English as a Foreign Language (TOEFL) or in the test of any other language that has direct relevance to his/her proposed research area.

2.3 (i) Exemption from taking Chinese Language Admission Test may be granted to those candidates:—

(a) who have obtained a pass grade in Chinese Language and Literature in the Higher Level Examination or Advanced Level Examination; or

(b) who hold a Bachelor’s degree in a branch of Chinese Studies from a recognized university; or

(c) who have obtained a pass in or been exempted from the First-Year General Chinese of this University.

(ii) Exemption from taking the TOEFL may be granted to those candidates:—

(a) who have obtained a pass grade in English Language in the Higher Level Examination or the Use of English in the Advanced Level Examination; or

(b) who hold a Bachelor’s degree in English from a recognized university; or

(c) who have obtained a pass in or been exempted from the First-Year General English of this University.

2.4 Exemption from the requirements of the CLAT and the TOEFL may also be granted to applicants who can produce acceptable credentials testifying to their proficiency in the respective languages. Other exceptional cases may be considered on an ad hoc basis.

2.5 The applicant must also possess additional or special qualifications required by the Graduate Division/Board concerned.

2.6 Only in very special circumstances and with the approval of the Senate on the strength of the evidence of acceptable research experience shall admission be granted to an applicant who does not satisfy the requirements of Rule 2.1 above.

2.7 The applicant must submit a study plan to the Graduate Division/Board concerned at the time of application for admission.
PhD 3 Length of Study

3.1 Normally, a student admitted to a PhD programme shall pursue a full-time course of advanced study and research on an approved topic for a minimum period of three years and a maximum of seven years from the date of registration. However, the minimum period for a student holding a Master's degree in a closely related field of studies as that for the PhD programme may be reduced to two years. The minimum residence requirement will normally be two years for a student without a Master's degree and one year for a student with a Master's degree.

3.2 Master's degree holders may also be admitted to pursue a part-time course of advanced study and research on an approved topic leading to the PhD degree in a closely related field of study as that of their Master's programmes. There shall not be any residence requirement for such students and they shall follow a part-time course of study for a minimum period of four years and a maximum of eight years from the date of first registration.

3.3 Any recommendation by a Graduate Division/Board in regard to shortening the minimum length of study at the request of an exceptionally outstanding student must be endorsed by the Graduate Council for Senate approval.

3.4 In special cases, the Graduate Council may grant a student leave of absence from his/her course of study and research. The period of such leave, not exceeding 12 months, shall not be counted as part of the prescribed length of study.

3.5 Any extra period approved for revision or re-submission of thesis or re-examination under Rule 9 shall not count towards the maximum period of study.

PhD 4 Supervision

4.1 A student shall be assigned a Supervisor to be appointed by the Graduate Council on the recommendation of the appropriate Graduate Division/Board.

4.2 The student shall meet his/her Supervisor at regular intervals. A report on the progress of the student’s work shall be submitted annually by the Supervisor through the Graduate Division/Board concerned to the Graduate Council.

4.3 The Supervisor shall (i) advise the student on the fulfilment of his/her course work requirements; (ii) ensure that an appropriate research topic is chosen by the student; and (iii) advise the student on the preliminary drafts of his/her thesis.
4.4 If at any time, the Supervisor should be firmly of the opinion that a student is not making satisfactory progress or unlikely to attain the standard required for the degree, he/she may advise the student to transfer to a course of study for a Master's degree as provided in Rule 6.1 or make recommendation that he/she be required to discontinue his/her studies in the Graduate School.

PhD 5 Candidature for PhD Degree

5.1 Advancement to PhD candidature is conditional upon the successful completion of the following:

(i) Study of a language other than Chinese and English where deemed necessary by the Graduate Division/Board concerned.

(ii) Course work of varying scope deemed necessary for the partial fulfilment of degree requirements.  

These requirements must be satisfied within two to three years after the initial date of registration, depending on the length of postgraduate training previously received by the student and the nature of his/her discipline.

5.2 A special examination may have to be taken and passed by students for advancement to PhD candidature.

PhD 6 Transfer of Candidature

6.1 A student who has been registered in a course of study for the PhD degree may be permitted, on the recommendation of the Graduate Division/Board concerned, and with the approval of the Graduate Council, to transfer to a course of study for a Master's degree provided that such a transfer takes place before the thesis is submitted.

6.2 A student who has been registered in a course of study for a Master's degree and has completed the first year of his/her studies may be permitted, on the recommendation of the Graduate Division/Board concerned and with the approval of the Graduate Council, to transfer to a course for the PhD degree provided that the student meets the entry requirements as specified under Rule 2.

6.3 A student who has been registered for the Master's degree and who subsequently becomes a student for the PhD degree in the same field of study shall be permitted to date his/her period of study from his/her initial date of registration for the Master's degree.
PhD 7  Thesis

7.1  On successful completion of the requirements under Rule 5, and having been admitted to PhD candidature, the candidate shall submit for examination a thesis embodying the results of his/her research which shall substantially be an original contribution to the knowledge of the subject concerned.

7.2  Before the submission of the thesis for examination, the candidate must submit the exact title of his/her thesis for approval by the Graduate Council on or before a date prescribed in the Graduate School Calendar. After the title of the thesis has been approved, it may not be changed except with the approval of the Graduate Council.

7.3  In non-science subjects, the length of the thesis shall normally not exceed 150,000 characters in Chinese or 100,000 words in English, while in science subjects, it shall normally not exceed 75,000 characters in Chinese or 50,000 words in English.

7.4  Each candidate must submit four copies of a thesis, including the original, all properly type-written or printed or copied and bound in a form approved by the Graduate Council. He/She must also submit five copies of abstract of the thesis of not exceeding 800 characters in Chinese or 500 words in English.

7.5  The candidate shall not be permitted to submit a thesis which has been previously submitted to this or any other University for a degree conferred on him/her; but he/she shall not be precluded from incorporating part of a previous study for a thesis covering a wider field.

7.6  The candidate must indicate in a written declaration how far the thesis embodies the result of his/her own research and to what extent he/she has availed himself/herself of the work of others.

7.7  A thesis may be submitted at any time after admission to candidature. Notice of intention to submit a thesis, embodying the title, shall be given to the Dean of the Graduate School on or before a date prescribed in the Graduate School Calendar.

7.8  If, on the recommendation of the Thesis Committee provided in Rule 8.1, a candidate is required to re-submit a revised thesis, such re-submission must be made within one year from the date of the notice by which he/she is informed officially of the result of the first examination.
PhD 8  Thesis Committee

8.1  For the assessment of a candidate's thesis there shall be a Thesis Committee composed of at least two Internal Examiners including the Supervisor and one External Examiner to be nominated by the Graduate Division/Board concerned for the approval of the Graduate Council. Where it is impracticable for the External Examiner to be present at the oral examination, an additional External Examiner who can attend shall be appointed.

8.2  Members of the Thesis Committee shall read the thesis and conduct the thesis examination, and shall each make a separate written report on the merits of the thesis and the grounds upon which the candidate is or is not recommended for the degree.

PhD 9  Conduct of Thesis Examination

9.1  The eligibility of a candidate for the conferment of the PhD degree shall be assessed by the Thesis Committee on the basis of:
   (i)  a thesis, and
   (ii) an oral and/or written examination.

9.2  For the purpose of the oral or written examination held in connection with his/her thesis, the candidate shall be required to present himself/herself at such place and time as the Graduate Council may direct. Normally, such an examination shall be held within four months after the submission of the thesis.

9.3  The oral or written examination shall cover not only the subject matter of the candidate's thesis but also the knowledge in related fields deemed essential to his/her field of specialization.

9.4  If the thesis is considered adequate and of an acceptable standard but the candidate fails in the oral or written examination held in connection therewith, the Thesis Committee may recommend another oral or written examination within a period not exceeding 12 months. A candidate who fails a re-examination shall not be eligible for any further examination.

9.5  If the thesis is found of sufficient standard, yet needing minor revisions, the Thesis Committee, if satisfied with the results of the oral/written examinations taken by the candidate, may require that such revisions be satisfactorily carried out by the candidate within 12 months without requiring re-examinations.
9.6 If the Thesis Committee finds a candidate's thesis to be poor in quality or his/her examination results totally unsatisfactory, it may recommend that the candidature be discontinued.

PhD 10 Results of Examination

10.1 On the recommendations of the Thesis Committee and of the Graduate Division/Board concerned, the Graduate Council may

(i) recommend that the PhD degree be conferred on a candidate;
(ii) request the Thesis Committee to further advise the Graduate Council;
(iii) appoint additional Examiners to settle cases in dispute;
(iv) require a candidate to revise his/her thesis for re-examination; or
(v) recommend that the PhD degree be not awarded.

10.2 Each candidate shall be notified of the results of the examination after the approval of the Senate.
REGULATIONS OF THE UNIVERSITY LIBRARY SYSTEM

The University Library System consists of the University Library in the central area of the Campus and the branch libraries at the Colleges and at the teaching hospital. The University Library houses an extensive research collection as well as many undergraduate materials and the pre-clinical portion of the medical collection. The branch libraries contain reference and curricular materials, some special subject collections according to the needs of the Colleges, and books and periodicals to support general education. These regulations apply to all the libraries. The Senate Committee on the University Library System reserves the right to revise these regulations at any time.

The hours of opening are posted at the entrance of each Library and are adapted to the semester schedules.

Library Privileges

Library privileges are personal and individual. They may not be transferred to, or used on behalf of, other persons.

Privileges of the Library fall into three categories:

1. **Borrowing**

   Borrowing privileges are extended to all registered students and academic/administrative staff of The Chinese University of Hong Kong.

   Others may apply to the University Librarian for special Borrowers' Cards. Clerical staff, technicians and spouses of the faculty and administrative staff of the University may also apply to the University Librarian for borrowing privileges.

2. **Reading**

   The privilege of reading is extended to visiting scholars, to researchers and to graduates of this University upon application to the University Librarian. Reserve books, however, are for the exclusive use of students and faculty of the University.

3. **Privileges of special facilities**

   Carrels: Not reserved for any category of Library user, carrels are available for the convenience of all.
Study Rooms in the University Library: On application to the University Librarian, Assistant Lecturers (and above) and PhD students may reserve a room for three months, renewable if its use justifies it. Others who are engaged in research may also apply. These study rooms may not be transferred.

Seminar Rooms in the University Library: Upon application to the University Librarian, a Seminar Room may be reserved for a lecture or for a series of lectures or meetings which would benefit from the use of library materials and resources.

Photocopying: Coin-operated photocopying machines are available in all libraries. A reader may obtain at cost photocopies of materials, provided there is no infringement of copyright.

Interlibrary loans: The reference librarians will attempt to obtain from other libraries books and other materials which are not owned by the University Library System and which cannot be readily purchased.

Admission to the Libraries

Every user of the Libraries must show a University Identification Card, or a Reader’s Card at the Entrance. Applications for Borrowers’ Cards and Readers’ Cards are made at the Circulation Desk.

Loss of a Borrower’s Card must be reported to the Library immediately; a duplicate card may be issued two weeks after the loss is reported. Only one duplicate will be granted within a semester. Change of address should also be reported to the Library as soon as possible.

Borrowing Regulations

Borrower Categories

Users of the University Library System to whom the borrowing privilege is accorded are grouped into the following categories:

1. Registered students of The Chinese University of Hong Kong.
   (a) Undergraduate students.
   (b) Graduate students; tutors/demonstrators who are registered students working part-time.

2. All teaching staff, including teaching assistants, full-time tutors/demonstrators.

3. Administrative staff: administrative assistants and above.

4. CUHK graduates: Upon payment of a fee of $100 per annum.

5. Special categories:
   (a) Clerical staff and technicians, with the recommendation of their division heads.
(b) Spouses of the faculty and administrative staff.
(c) Others, upon special application.

**Borrowing Limits**

Individuals may borrow within the limits of the following schedule:

Category 1(a). Undergraduate students: 10 volumes (books) for two weeks.

Category 1(b). Graduate students, graduate assistants, part-time tutors/demonstrators: 15 volumes (books) for one month.

Categories 2-3. Teaching and administrative staff: 30 volumes may be borrowed for one semester, although they should be returned as soon as they are no longer required. *Bound periodicals* and non-current single issues may be borrowed for periods of three days. *Current periodicals* may be borrowed for overnight use only.

Category 4. CUHK graduates: 5 volumes (books) for two weeks.

Category 5(a). Clerical staff and technicians: 5 volumes (books) for two weeks.

Category 5(b). Spouses of the faculty and administrative staff: 3 volumes (books) for two weeks.

Category 5(c). Others, according to special arrangement.

All books taken from the bookstacks must be charged at the Circulation Desk. Reserve Books must be charged at the Reserve Book Desk: there are varying borrowing limits on these books.

Books obtained on interlibrary loan are borrowed through the courtesy of other libraries and their restrictions as to loan period and renewal are therefore observed. Usually the loan period is two weeks and the books may have to be used only in the Library. Photocopies of periodical articles may be obtained at cost.

Reference books, rare books, microforms and other audio-visual materials do not circulate.

**Renewals**

Borrowers may renew loans for two additional periods. To avoid fines, renewals must be made on or before the last date of the initial loan period. Borrowers, with the exception of Categories 2–3, must renew their loans at the Circulation Desk of the issuing Library.

Faculty members and administrative staff who require a book for more than one semester may renew it in writing. After two renewals, however, the book must be returned to the library shelves so that it may be available to others.

No book may be renewed if it is required by another person.
Recall

Circulating books and journals to be put on reserve for courses are subject to recall at any time. All other loans are subject to recall after two weeks (the initial loan period). Borrowers should respond to a recall promptly.

Overdue

The last date of the loan period is stamped on the date due slip at the back of each book loaned. When the loan period expires, an overdue notice is sent to all categories of borrowers. However, the responsibility of returning books on time lies with the borrower.

Fines

All categories of borrowers except 2 and 3 who keep books beyond the loan period are subject to a fine of HK$1.00 per book per day. A fine of HK$1.00 per hour will be charged for each reserve book overdue.

Losses

Borrowers who fail to return books or who return books damaged beyond repair will be charged the cost of replacement (including binding) in addition to the processing cost of HK$20.00 and any accumulated fine. Damaged books and marked pages should be reported to the Librarian as soon as noticed.

Category 2 and 3 borrowers who fail to return or renew books after 2 terms and 3 recalls will be subject to the above charges, which will be sent to the Bursar's Office for collection.

Control Counter

Under normal circumstances, all parcels, brief cases, bags, umbrellas, cameras, etc., should be deposited on entering the Library. No food or beverages may be taken into the Library. On leaving the Library, all books, etc., must be inspected.

Loss of Privileges

Infractions, such as smoking, shouting and other disturbances, are forbidden in all parts of the Libraries. The Librarian or an appointed deputy may expel from the library building for the remainder of the day any person who is acting to annoy others or who is damaging books or other property. Payment must be made to cover all damages.

A gross breach of the Regulations may subject the borrower to a loss of library privileges.

(a) Overdue books — After normal recall procedures, a written warning will be sent. If this is ignored, borrowing privileges
will be withheld in all the Libraries until the return of the book(s) and the payment of accrued fines.

(b) Payment of charges — If a person refuses to pay any outstanding charges (fines, replacement costs of damaged book or repair of damaged property), all the Libraries will withhold his borrowing privileges until the account is cleared.

Repeated offenses may lead to a total loss of the privilege of using the Libraries.
