The Chinese University of Hong Kong Calendar 1985-86 contains information as at August 1985.
The emblem of the University is the mythical Chinese bird *feng* (風), which is chosen because of its symbolism as Bird of the South since the *Han* Dynasty. It is also a symbol of nobility, beauty, loyalty and majesty.

The University colours are purple and gold, representing devotion and loyalty (purple), perseverance and resolution (gold).

The motto of the University is ‘博文約禮’ (po-wen yüeh-li): ‘博文’ is to broaden one’s intellectual horizon; ‘約禮’ is to keep within the bounds of propriety.

These words of Confucius have long been considered a principal precept of his teaching. It is recorded in the *Analects of Confucius* that the Master says, ‘By extensively studying all learning, and keeping himself under the restraint of the rules of propriety, one may thus likewise not err from what is right.’ (Legge’s version of the *Four Books*)

In choosing ‘博文約禮’ as its motto, the University is laying equal emphasis on the intellectual and moral aspects of education.
INTRODUCTION

The Chinese University of Hong Kong was incorporated in October 1963 under a Hong Kong Ordinance 'to establish a university with a federal constitution in which the principal language of instruction shall be Chinese'.

The constituent Colleges of the University are Chung Chi College (founded 1951), New Asia College (founded 1949), and The United College of Hong Kong (founded 1956). In December 1976 a new Ordinance was enacted, making important changes in the constitution governing the University and the Colleges.

The University is a self-governing corporation drawing its income mainly from grants made by the Hong Kong Government, supplemented by fees and donations from private sources.

The governing and executive body of the University is the Council, which has the management and control of the affairs, purposes and functions of the University. The Senate has the control and regulation of instruction, education and research.

A wide range of full-time undergraduate programmes leading to the BA, BBA, MB ChB, BSc and BSSc degrees are offered by various Departments under the Faculties of Arts, Business Administration, Medicine, Science, and Social Science. There are four part-time degree programmes leading to the degrees of BA, BBA and BSSc.

Postgraduate programmes leading to the MD, PhD, MPhil, MA, MA(Ed), MBA, MDiv, MSW degrees as well as the Diploma in Social Work, and full-time and part-time programmes leading to the Diploma in Education are offered by the Graduate School through the twenty-five Graduate Divisions, one Graduate Board and the School of Education.

The total enrolment of the University in the academic year 1984-85 was 6,516, including 5,362 undergraduate and 1,154 postgraduate students.

The University has three research institutes, under which are a number of research centres. The Institutes are: the Institute of Chinese Studies, the Institute of Science and Technology, and the Institute of Social Studies.

Extensions of the University include the Department of Extra-mural Studies and the New Asia -- Yale-in-China Chinese Language Centre.

Part I
Establishment
UNIVERSITY ORDINANCE AND STATUTES

The Chinese University of Hong Kong was incorporated in October 1963 under a Hong Kong Ordinance 'to establish a university with a federal constitution in which the principal language of instruction shall be Chinese'. It is a self-governing corporation drawing its income mainly from grants made by the Hong Kong Government, supplemented by fees and donations from private sources. The principal medium of instruction is Chinese; English is also widely used. Indeed, the majority of the teaching staff are bilingual (Chinese/English) and have studied and/or taught in major universities all over the world. The University is international in outlook and enjoys a close association with many universities, foundations and organizations abroad.

In December 1976, a new Ordinance was enacted, repealing and replacing the previous Chinese University of Hong Kong Ordinance. The aims of the University, however, remain unchanged. The new Ordinance (No. 86 of the Laws of Hong Kong 1976) and the Statutes of the University are printed on the following pages.
THE CHINESE UNIVERSITY OF HONG KONG ORDINANCE 1976

An Ordinance to repeal and replace The Chinese University of Hong Kong Ordinance, to repeal the Chung Chi College Incorporation Ordinance, the Board of Trustees of The United College of Hong Kong Incorporation Ordinance and the New Asia College Incorporation Ordinance and to make new provision concerning the Chung Chi College, The United College of Hong Kong and the New Asia College, and for purposes connected therewith.

(d) it is also considered desirable to make certain alterations in the constitution of The Chinese University of Hong Kong;

General Information
THE UNIVERSITY

Origin

The University has its origin in three Post-Secondary Colleges: New Asia College (founded 1949), Chung Chi College (founded 1951), and The United College of Hong Kong (founded 1956), which drew, in their early days, a sizable proportion of their teachers and some of their students from Mainland China.

In 1957, these three Colleges came together to form the Chinese Colleges Joint Council with the object of securing Government recognition for their efforts in providing higher education for the students of Hong Kong. In 1959, Mr. John S. Fulton (now Lord Fulton of Falmer) was invited to advise on general lines of development for the three Colleges as a whole. In 1960, the Government introduced the Post-Secondary Colleges Ordinance and Regulations, which approved financial support to the three Colleges with a view to raising their standards to a higher level.

In 1961, a University Preparatory Committee, chaired by the late Dr. the Hon. Sir Cho-Yiu Kwan, was appointed to advise on sites and buildings and matters relating to the establishment of the University. A group of advisers from Britain and the United States visited Hong Kong in the same year to advise the Colleges on development to university level of courses in arts, science, commerce and social science. The report of these advisers was encouraging, and so in 1962, the Government appointed a commission under the chairmanship of Mr. John S. Fulton to consider and determine whether and how a Chinese university should be created.

The Report of the Fulton Commission, known as the Fulton Report and published in April 1963, recommended the establishment of the new University. The Report was approved in principle by the Government shortly after its publication. A Provisional Council was set up in June 1963, and The Chinese University of Hong Kong Ordinance and Statutes were enacted in September 1963. On 17th October, 1963 the University was formally inaugurated.

The New Ordinance

In November 1975, the Governor, in his capacity as Chancellor of the University, appointed an external commission to review the constitutional arrangements governing the University and its constituent Colleges. Lord Fulton of Falmer was again invited to serve as Chairman of the Commission.
The second Fulton Report was submitted to the Chancellor in March 1976 and published in May. The Report recommended important changes to the constitutional arrangements governing the University and the Colleges. Under the new arrangements proposed by the Commission, the University would be responsible for academic and development policy, financial management, the matriculation of students, the appointment of staff, the determination of curriculum, the conduct of examinations and the award of degrees. The participation of senior academics in the governing bodies of the University would be strengthened. In addition, the Report also recommended that the teaching of the University should reflect a balance between ‘subject-orientated’ teaching and small group ‘student-orientated’ teaching, and that the latter should be implanted in the Colleges. This ‘student-orientated’ teaching would be designed to build in the students habits and aptitudes of mind characteristic of the expert in their chosen fields and relevant to the solution of the kind of problems they are likely to encounter later in life; it would also be designed to equip students for meeting the challenges in a rapidly changing world.

A new Ordinance to give effect to the recommendations in the Fulton Report was enacted in December 1976. The Ordinance (No. 86 of the Laws of Hong Kong 1976) and the Statutes of the University are printed on pp. 9-47 of this Calendar.

Academic Structure and Policy

The Chinese University of Hong Kong is a growing university offering a range of full-time and part-time courses which lead to Bachelor's degrees, Master's degrees and Doctorates.

There are now five Faculties, namely, Arts, Business Administration, Medicine, Science and Social Science; and forty-seven Departments offering thirty-one Major subjects and thirty-three Minor subjects for full-time undergraduate students and four Part-time Degree Programmes for working adults.

Postgraduate programmes including thirteen doctoral programmes and thirty-four master's programmes are offered by the Graduate School through its twenty-five Graduate Divisions, one Graduate Board and the School of Education which also offers full-time and part-time postgraduate programmes leading to the Diploma-in-Education.

The Senate has the control and regulation of instruction, education and research. The Faculties advise the Senate through the Faculty Boards on the programmes of studies recommended by the Boards of Studies. The Boards of Studies are responsible for subject-orientated
teaching. The Colleges, in turn, are responsible for pastoral counselling and student-orientated teaching and also provide residential accommodation. The teaching staff and undergraduate students are assigned to one of the three constituent Colleges.

Undergraduate Studies (Full-time)

In full-time Undergraduate Studies, the major thrust of the 1981-84 triennium was the launching of the Medical Faculty which offers a five-year professional programme leading to the degrees of MB ChB. Potential Medical Majors and Preclinical Year 1 students were first admitted in September 1981.

The only new undergraduate programme in the academic year 1984-85 was the Internship Programme in Accounting, which is optional. Accounting students may apply for participation in the programme after completing the third year. Students will receive twelve months of formal experiential training as interns at Certified Public Accounting firms with an assessment at the end of the period. The course work required under this five-year scheme is identical in all respects with that of the existing four-year programme. This new programme is basically in line with the existing five-year Work-Study Programme in Electronics which has been revised with effect from 1985, with fifteen months of continuous industrial training under close supervision.

Undergraduate Studies (Part-time)

The Part-time Degree Programmes, launched in 1981-82, are specifically designed for working adults aged twenty-three or above who had earlier in life missed the opportunity for university education. The four Part-time Degree Programmes offered are Business Administration, Chinese and English, Music, and Social Work. The programmes normally require six years to complete, although entry to upper years is allowed in certain cases. With the exception of the Social Work Programme, which also has a special day-release arrangement, the other programmes are offered in the evening.

Postgraduate Studies

Doctoral programmes of the University were first offered in 1980-81. With the introduction of the four new programmes in Chemistry, Clinical and Pathological Sciences, Marketing and International Business, and Mathematics in 1985-86, the total number of PhD programmes become twelve. The MD programme is offered for the first time in 1985-86.

Of the thirty-four Master's programmes, the only new addition of 1985-86 is that of Clinical and Pathological Sciences.
Finance

Apart from fees which are comparatively low, the main source of income for recurrent expenses and capital equipment is the Hong Kong Government. In addition, the University and its constituent Colleges have small endowment funds at their disposal and also receive contributions from private donors and interested associations for scholarships, research and other designated purposes.

Negotiations between the University and the Government are conducted by the University and Polytechnic Grants Committee, established in 1965. This Committee advises the Government on the financial requirements of the University.

The total capital cost of buildings on campus amounts to HK$365 million at June 1984. Whereas the majority of the fund comes from the Government, the University also receives generous support from private donors which stands at HK$73 million at 1984, representing about 20% of the total capital cost.

Lands and Buildings

The University has under lease from the Hong Kong Government a tract of land measuring some 133.8 hectares located north of the Shatin New Town in the New Territories. The site overlooks the beautiful Tolo Harbour to the north and Tide Cove to the east.

The campus varies in elevation from 4.4 to 140 metres above sea level and was carved from a rocky promontory into four plateaux in the late sixties to provide the sites for buildings of the University and the three constituent Colleges. The central activities buildings are located mainly at the mid-level, with Chung Chi College at the lower level and New Asia College and United College at the highest level. The expanse of land in the valley next to the University Station of the Kowloon-Canton Railway has been the campus of Chung Chi College since 1956. United College and New Asia College moved from urban Hong Kong and Kowloon to their present sites in 1972 and 1973 respectively. Each of these Colleges has its own administration and teaching blocks, library, staff/student amenities building, student hostels and staff quarters.

Around the impressive tree-lined University Mall and the University Square the following major central building cluster: the University Administration Building; the University Library; the Institute of Chinese Studies and the Art Gallery; the Sui-Loong Pao Building and the Pi-Ch’iu Building (two teaching blocks); the Y.C. Liang Hall (a lecture hall complex); the Sir Run Run Shaw Hall (a 1,500-seat multi-purpose auditorium); the Science Centre Complex; and the Choh-Ming Li Building for Basic Medical Sciences.
Other buildings scattered at the periphery of Central Campus include the Benjamin Franklin Centre (an amenities building for staff and students); the Health Centre; the Sports Centre; the Li Dak Sum Building and Academic Building I (both teaching facilities); the Fong Shu Chuen Building (a Chinese language centre); the Marine Science Laboratory; the Estates and Maintenance Building; the Postgraduate Hall Complex (a dormitory mainly for postgraduates); the guest houses and a Transport and Security Depot. And to the North disseminated down the hilly slopes stand many blocks of staff quarters.

In the seventies, over sixty new buildings have been erected on this once barren hillside. Buildings completed more recently include another sizable Academic Building near the Li Dak Sum Building at the Central Campus, an extension to the Basic Medical Sciences Building, a student hostel for 300 at United Campus and 103 flats of senior staff quarters on four building blocks.

Building projects under construction or in an advanced stage of design comprise building for the School of Education and another extension for the Science Centre complex. Many utility and supportive services installations are in the course of being renovated or expanded whilst more teaching and amenities facilities are being planned to cope with the University’s projected development.

The Clinical Departments of the Faculty of Medicine are housed in the Clinical Sciences Building at the Prince of Wales Hospital, the regional hospital of Shatin, about eight kilometres from the main campus.

**Residential Accommodation**

The University provides a variety of accommodation for staff members, academic visitors and students.

**Staff Housing**

Staff quarters are allocated by the University to appointees who are eligible for staff housing. There are approaching 300 senior staff flats on campus in multi-storey apartment buildings plus some 100 flats for single teachers and other staff, and several blocks of quarters for minor staff.

The Inter-University Hall provides fully-furnished and self-contained accommodation for academic visitors coming to The Chinese University for periods of one to two years.

**Guest Houses**

The University operates three guest houses which provide room and board facilities for guests on short periods of stay in the University. The Yali Guest House, completed in 1974, is a gift from the Yale-China Association. The University Guest Houses I and II began operation in 1980.
Student Hostels

The University and its constituent Colleges operate a number of hostels for students who wish to live on campus.

The Postgraduate Hall Complex, consisting of Sir Cho-Yiu Hall, Lady Ho Tung Hall, and the Postgraduate Hall, provides 250 places for graduate students as well as 3rd- and 4th-year undergraduates. Chung Chi College has seven hostels: Ming Hua Tang, Wen Lin Tang, Ying Lin Tang, Hua Lien Tang, Theology Building, Madam S.H. Ho Hall and Wen Chih Tang. Together they accommodate a total of 784 students. At New Asia College, the Chih Hsing Hall, Xuesi Hall and Grace Tien Hall can accommodate another 770. At United College, the Adam Schall Residence, Bethlehem Hall and the newly completed third hostel also have a combined capacity for 770.

With the exception of the Postgraduate Hall Complex which has 120 single rooms, most student hostels in general provide shared accommodation in the form of twin-bed rooms. They are available to all undergraduates except where specified. Because competition for residential places is very keen, interested students are advised to apply early to their respective College authorities.

In addition, the Faculty of Medicine operates the Madam S.H. Ho Hostel for Medical Students at the Prince of Wales Hospital at Shatin, the teaching hospital of the Faculty, with a capacity of 100, to provide accommodation for senior Clinical students. Plans are in hand to expand the capacity of the hostel to 140.

Hostel fees range from HK$425 to $1,350 a term, depending on the type of accommodation. Special rooms for married students without children are available at HK$615 to $1,035 per month. Detailed information on hostel fees is listed on p. 197.

Liaison with the World of Learning

The University has since its inception in 1963 striven to enhance
the cross fertilization of Chinese and Western cultural traditions. To
this end, the University has over the years established and maintained
connections with a large number of overseas bodies, including universi-
ties, institutes and centres of learning, governmental agencies, and in
particular, with regional and international association of universities.

The University enjoys a close relationship with numerous overseas
universities. Under an agreement drawn up in 1965, it arranges
annually for an exchange of students and staff with the University of
California. In recent years, the number of students in the two univer-
sities participating in the exchange has been around 20 each year. There
are also student exchange programmes with New York University, the
University of Missouri, Brown University and the University of
Wisconsin-Milwaukee in America. Staff exchanges are also maintained
with a number of French universities through the arrangement of the
government of France, the majority of the outgoing staff members
being China specialists. In Japan, a short-term staff visit programme
with the Soka University and a student exchange programme with the
Tsukuba University have been established. Beginning in 1982, further
exchanges have taken place through the International Student Ex-
change Programme (Washington, D.C.), of which the University is now
a member.

The University’s constituent Colleges, too, have cultivated links
with certain universities abroad. New Asia has close relations with the
Yale-China Association, Chung Chi with the Wellesley-Yenching
Committee and the Princeton-in-Asia Committee, and United with
Williams College and Indiana University. For the exchange of under-
graduates/graduates, Chung Chi has special arrangements with Redlands
University, Washington and Lee University, International Christian University and Keio University, New Asia with Asia University (Tokyo), and United with Williams College and Indiana University.

In response to the growing demand of overseas students and scholars for Chinese and Asian studies, the University launched the International Asian Studies Programme (IASP) in 1977 in cooperation with the Yale-China Association. The Programme makes it possible for participants to take credit-earning courses on China and Asia taught in English and Chinese, as well as courses on Chinese language. So far over four hundred participants from twenty-two countries have joined the Programme. Owing to the growing of exchange programmes, the Office of the International Asian Studies Programme was renamed the Office of International Studies Programmes in 1985. It manages University exchanges and coordinates exchange programmes of the constituent Colleges, and continues to operate the International Asian Studies Programme. For details of admission to the Programme, see p. 192 of this Calendar.

The facilities at the University for international conferences and seminars have continued to attract scholars from far and wide. The Luce Scholars Programme administered by The Asia Foundation, for example, has been conducted in the University for several years. In recent years, the University has been the venue for many regional conferences or gatherings of international stature. Some of these were organized with local organizations, others were co-sponsored with institutions abroad including the International Association of Schools of Social Work, the International Public Relations Association, the International Development Research Centre in Canada, the Josiah Macy Jr. Foundation in America, the Association of Commonwealth Universities, the Southeast Asian Mathematical Society, the Association of Southeast Asian Institutions of Higher Learning, and the Inter-University Consortium for International Social Development.

The international character of the University has been significantly enhanced by foreign government contributions to the language and literature instruction programmes. Visiting lectureships have been provided by the governments of France, West Germany, Italy and Japan for instruction in their respective languages, and many graduates of the University have obtained fellowships for advanced studies in these countries. In addition, the University has since its very early days benefited from grants from various foundations for staff development, research, scholarships and exchange programmes. These foundations include the Lingnan University Board of Trustees in New York, The Asia Foundation, the Yale-China Association, the Harvard-Yenching Institute, the World Health Organization, the Leverhulme Trust and The Japan Foundation.
Cooperation with other universities has always been encouraged and maintained through various associations of universities. Today, the University is a member of the Association of Commonwealth Universities (ACU), the Association of Southeast Asian Institutions of Higher Learning (ASAIHL), and the International Association of Universities (IAU). It has also been closely associated with the former Inter-University Council for Higher Education Overseas (IUC) in the United Kingdom.

Over the years, the University and its staff have developed academic links and research collaboration with many educational and research institutions in China. As a result of the recent open-door policy in China, such exchange activities have been stepped up considerably. Each year, the University received over 100 academic visitors from all parts of China, representing virtually every academic discipline. They participate in research work, give lectures and seminars and attend staff development courses. Formal exchange agreements have been concluded by the University or its individual departments with the Peking University, Tsinghua University and Academia Sinica in Beijing, the Hebei Academy of Sciences, the Northeast University of Technology in Shenyang, the Fudan University in Shanghai, the Zhongzhan University and the South China Normal University in Guangzhou. The University has also offered courses on international trade and management development for universities and Ministries of China. Teachers of the University have served as honorary professors, advisers and consultants for various Chinese institutions.
THE CONSTITUENT COLLEGES

With the reorganization of the University following the enactment of The Chinese University of Hong Kong Ordinance 1976, the Board of Trustees of the constituent Colleges has been reconstituted. Duties are mainly concerned with the management of the movable property vested in the Board and of certain College buildings and, through fund-raising campaigns, the promotion of scholastic and cultural activities of the College.

An Assembly of Fellows chaired by the Head of the College assumes responsibility for making and implementing decisions on all matters relating to the College.

Chung Chi College

Chung Chi College was founded in October 1951 by representatives of Protestant churches in Hong Kong to meet the need for a local institution of higher learning that would be both Chinese and Christian. In 1955 it was formally incorporated under an Ordinance of the Hong Kong Government.

The College had a very modest beginning with only 63 students in the first year. It used borrowed and rented premises, first in the Cathedral Hall and St. Paul's Co-educational College, then in Caine Road and Lower Albert Road. Expansion was made possible by financial help from North America through the United Board for Christian Higher Education in Asia and the Trustees of Lingnan University and from Britain through the Asia Christian College Association. Local churches, firms and private individuals also gave considerable support. In 1956 the College moved to its permanent site in the New Territories, in the beautiful Ma Liu Shui Valley. Between 1959 and 1963 the College received the bulk of its funds from the Hong Kong Government. In 1963 the College was incorporated as one of the three Colleges of The Chinese University of Hong Kong.

Theological Training

From 1957 religious education and theological training have been part of the academic programme of Chung Chi College. Since the establishment of The Chinese University of Hong Kong in 1963, training in religious studies has received government funds for teachers' salaries, while training of Christian ministers was, from 1963 to 1968, on an affiliated basis through the Chung Chi Theological Seminary. In 1968,
the Seminary as such ceased to exist and its function was transferred to a new Division of Theology in the Department of Philosophy and Religion. The new Division, under a Theological Council, is financed independently by church gifts, but academically is a recognized part of the College and the University. Students enter by fulfilling the University’s entrance requirements, and University degrees are awarded to those who qualify. A small number of selected non-degree students are also trained, but with a separate curriculum.

**Academic and Cultural Activities**

The College spares no effort in fostering a cultural environment for staff and students. It organizes periodic seminars and staff-student get-togethers to discuss topics of general and educational interest. Regular gatherings include the ‘College Life Committee Luncheon’, ‘Tolo Nocturne’ and the weekly assembly. The College also invites distinguished scholars to visit the College on a short-term basis to meet with staff and students to broaden their horizons. For this purpose, a ‘Siu Lien Ling Wong Visiting Fellows Programme’ has been established.

To encourage students’ study and research, scholarships, grants, prizes, summer research assistantships are offered, and exchange programmes with universities abroad are arranged.

**Students and Extra-Curricular Activities**

In academic year 1984-85 Chung Chi College had a student enrolment of 1,668, of whom 970 were men and 698 were women. Most of the students were born in Hong Kong, but a few of them are overseas Chinese. About one third of the students are Christians.

Student activities of all sorts are organized by the Chung Chi College Student Union and a host of student societies. Together they are responsible for the many cultural, athletic and extracurricular activities that serve to provide a social meeting ground for students from different hostels and different faculties.

**New Asia College**

New Asia College was founded in 1949 by its former President, Dr. Ch’ien Mu, and a small group of scholars from China. Their purpose was to preserve traditional Chinese culture and to balance it with Western learning so that students might at once have a thorough knowledge of their cultural heritage and be prepared to cope with the modern world.
The College began humbly in impoverished circumstances, but soon attracted support both locally and from overseas. Since 1954, it has had the cooperation and support of the Yale-China Association which had been active in educational development in China for many years.* It has also received support from other educational institutions and foundations, notably the Harvard-Yenching Institute, The Asia Foundation, the Rockefeller Foundation, the British Council, the Mencius Foundation, the Ford Foundation, and the Ming Yu Cultural Foundation, Hong Kong. As a grant College from 1959 to 1963, and now as a constituent College of the University, it has received generous financial support from the Hong Kong Government.

Academic and Cultural Activities
The cultural and academic activities of New Asia College are many and are held throughout the year. Distinguished international scholars are invited to visit the College under different programmes. They include the Ch’ien Mu Lecture in History and Culture Programme, the New Asia Ming Yu Foundation Professorship Programme, and the New Asia S.Y. Chung Visiting Fellows Programme. To increase scholarly and cultural interchange with various parts of the world, the College has also awarded faculty members the New Asia Ming Yu Research and Visiting Grants to enable them to present papers at international conferences or to pursue professional interest abroad. Prominent members of the local community are also frequently invited to talk to faculty and students on cultural or general topics at monthly dinner gatherings and biweekly assemblies.

Students and Extra-Curricular Activities
In academic year 1984-85 New Asia College had a student enrolment of 1,559, of whom 958 were men and 601 were women. Over 60% of the student population received scholarships, bursaries or other forms of financial assistance.

Extra-curricular activities form an important part of student life in the College and are freely organized by the New Asia College Student Union and a host of student clubs and societies. Students of the College are offered at least a year of hostel residence in their undergraduate years so that they may appreciate more deeply the value of mutual help and cooperation in community life.

United College
The United College was founded in 1956 by the amalgamation of five Post-Secondary Colleges (namely, Canton Overseas College, Kwang Hsia College, Wah Kiu College, Wen Hua College, and Ping Jing College of

Accountancy) which decided to pool their resources so as to better provide higher education for local students. It was incorporated under an Ordinance of the Hong Kong Government in 1957 with a Board of Trustees as its governing body.

In 1962, the College Board of Trustees was broadened to include representation from the local community, and Dr. the Hon. Kenneth Ping-fan Fung was elected Chairman. In July 1962, Mr. T. C. Cheng, then Chief Assistant Secretary for Chinese Affairs, accepted the Board of Trustees' offer of appointment as President, and assumed office in January 1963. The United College became a constituent College of The Chinese University of Hong Kong in October 1963. Since then, the College has made rapid progress which is reflected by the rapid increase in enrolment, the improved quality of staff and students, as well as by a general enlivening in all aspects of college life.

In March 1971, foundation stones were laid for the five new buildings for the College in Shatin. Late in December in that same year, the College moved from the premises at Bonham Road to the new campus.

In May 1972, Sir Kenneth resigned from the Chairmanship of the College to take up his appointment as a member of the University and Polytechnic Grants Committee. He was succeeded by Dr. the Hon. P. C. Woo. In November 1983, Dr. the Hon. P. C. Woo resigned as Chairman of the College, following his appointment to the membership of the University Council. Sir Run Run Shaw, Deputy Chairman, was then elected Chairman, and the consequential vacant post of Deputy Chairman was filled by the Hon. Poon Wing-cheung, a Trustee of the College.

**Academic and Cultural Activities**

To develop a congenial cultural and intellectual environment for staff and students, the College introduced various schemes and a lecture series.

The College introduced in September 1978 the Ivory Tower Lecture Series on specialized topics after it had successfully organized tea discussions for a year. Speakers invited to lecture in the series include scholars and experts in various academic disciplines/professional fields of the University and from outside. In early 1979, the College initiated the 'annual workshop' scheme, providing an arena for interaction between students and staff.

Mainly financed by the College Endowment Fund, the Distinguished Visiting Scholar Scheme came into being in 1979. Scholars of international stature invited to lecture under this scheme include Professor C. N. Yang, Professor S. Schram, Professor Ezra Vogel and Professor Samuel E. Finer.
The Resident Fellowship Scheme, also financed by the College Endowment Fund, was established in 1982 to enable scholars from the neighbouring countries of Hong Kong to visit the College to promote intellectual/community life on campus.

Students and Extra-Curricular Activities
In the academic year 1984-85, a total of 1,773 students were assigned to United College, of whom 1,260 were men and 513 were women. 949 students received interest-free loans and grants from the Government. Students received a total of 323 awards in the form of prizes, scholarships, fellowships and bursaries administered by the College and the University.

Inaugurated in 1963, the United College Student Union is a statutory body representing all the students of the College. Various student organizations are registered under the Student Union. They include faculty and department societies, non-residential halls and various interest clubs. Every year, students organize a wide range of activities, including academic, athletic and other social functions.
Part III
Admission and Programmes of Studies
UNDERGRADUATE ADMISSION
AND DEGREES

Full-time Degree Programmes

Starting from 1984-85, a new admission scheme became effective. Applicants can apply for admission to the first year courses leading to a Bachelor's degree of the University through either one of the three channels: Provisional Acceptance Scheme, Hong Kong Higher Level Examination and Hong Kong Advanced Level Examination or obtaining exemption under the provisions II, IV, VI and VII of the Regulations Governing Admission to Undergraduate Studies (Full-time). In addition to satisfying the entrance/exemption requirements mentioned above, applicants shall be required to satisfy the relevant Faculty Admission Requirements in Sections V and VI of the Regulations Governing Admission to Undergraduate Studies (Full-time) which are printed on pp. 253-260 of this Calendar.

The University's five Faculties of Arts, Business Administration, Medicine, Science, and Social Science offer a wide range of courses leading to the BA, BBA, MB ChB, BSc, and BSSc Degrees. Programmes of Studies, General Regulations Governing Undergraduate Studies, and General Regulations Governing Undergraduate Medical Studies are respectively printed on pp. 106-154, pp. 261-274 and pp. 275-278 of this Calendar. Major and Minor subjects offered by Faculties other than the Faculty of Medicine are as follows:

Faculty of Arts

Faculty of Business Administration

Faculty of Science
Biochemistry, Biology, Chemistry, Computer Science, Electronics, Mathematics, Physics, and Statistics.

Faculty of Social Science
Except for those in the Internship Programme in Accounting and Work-Study Programme in Electronics which require five years to complete, students of the four Faculties listed above follow a four-year programme. First-year students are admitted on a Faculty basis. They do not have to make a firm choice of Major subject until they have completed their first year of study. Students must pass the Degree Examination in partial fulfilment of the requirements for admission to a Bachelor's degree. The Examination consists of Parts I and II, to be taken at the end of the third and fourth years of study respectively. Graduates are eligible for honours degrees awarded on the basis of their Degree Examination results. Regulations for Degree Examination are printed on pp. 279-288 of this Calendar.

Faculty of Medicine

The Faculty offers no Major/Minor programmes but a single professional undergraduate course of Medicine instead. Students are admitted on a Faculty basis and must complete the two Pre-clinical years of professional courses and the three Clinical years of study and pass both the Professional Examinations and periodic assessment of individual subjects for admission to a Bachelor's Degree. Graduates in Medicine are also required to serve one year's internship at a recognized hospital.

Each of the two Pre-clinical years is of about thirty-three weeks in duration and divided into two terms. The curriculum will be integrated as far as possible between subjects and the teaching will be by means of lectures, laboratory classes and tutorials. All students will be required to take courses in General Education, General Chinese, General English and Physical Education in compliance with University requirements. Assessment of individual subjects will be made periodically throughout the course. Towards the end of the first Pre-clinical year, an examination will be held on all subjects and the introductory courses. The First Professional Examination will be held at the end of the second Pre-clinical year and will include the four main subjects, namely, Anatomy, Physiology, Pharmacology and Biochemistry.

The three Clinical years of study will have classes held at the teaching hospital in Shatin in the various Clinical Departments. Each academic year is of about eleven and a half months' duration from July to June next year. Further Professional Examinations will be held at the end of each Clinical years.

Part-time Degree Programmes

The University offers four part-time degree programmes: Business Administration, Chinese and English, Music, and Social Work. In 1985-86, the Music Programme admits students to the first and fourth years;
and the Social Work Programme admits students to the first, third and fourth years. The other two Programmes admit students to the first year only.

Eligibility for admission is conditional upon fulfilling entrance requirements or obtaining exemption therefrom in accordance with paragraph 2 of the General Regulations Governing Undergraduate Part-time Degree Studies (see pp. 289-301 of this Calendar).

A programme consists of two parts, each extending over three years. Students will be awarded a Certificate upon completion of the required number of units of course work in the First Part of a programme and upon passing a Certificate Examination. The Degree Examination consists of three parts, to be taken at the end of the fourth, fifth and sixth years. Bachelor's degrees or Bachelor's degrees with honours are awarded on the basis of Degree Examination results. Details concerning the Certificate Examination and Degree Examination can be found in paragraphs 13 and 14 of the General Regulations Governing Undergraduate Part-time Degree Studies.
UNDERGRADUATE (Full-time) PROGRAMMES OF STUDIES

The normal length of study for a full-time programme is four years, with two terms in each year. The Work-Study Programme of Electronics Department, the Internship Programme of the Department of Accounting and Finance and the MB ChB Programme of the Medical Faculty, however, require five years to complete.

First-year students are admitted on a Faculty basis. All undergraduates (other than Medical students*) are required to choose their Major and Minor subjects when they proceed to their second year of study. Students majoring in Biochemistry, Chemistry, Electronics, Mathematics and Statistics may choose two Minor subjects upon the prior approval of the Board of Studies concerned.

For graduation, all students other than the medical students shall complete at least 120 units of courses and pass the Part I and Part II Degree Examinations at the end of the third and fourth years respectively. A student shall normally take no less than 12 units and no more than 21 units of courses in any teaching term. The 120 units of courses shall include:

(1) Common Courses: General Education (11-15 units), General Chinese (6 units, unless exempted), General English (6 units, unless exempted), and Physical Education (2 units);
(2) the Faculty required courses (if any) in the first and second years; and
(3) the Departmental requirements for Major and Minor Programmes.

Students shall normally take no less than 12 units and no more than 21 units of courses in any teaching term.

Explanatory notes on Course Codes

Letters of the alphabet stand for the subjects (e.g. CHI: ENG, BIO, stand for Chinese, English and Biology respectively).

The first Arabic numeral stands for the year of study in which the course is to be taken (1=1st year, 2=2nd year, 3=3rd year, 4=4th year, 5=1st year, Graduate School, 6=2nd year, Graduate School); and the course code starting with 0 stands for Student-orientated Teaching with its second Arabic numeral standing for the year of study in which the course is to be taken. Normally, first year courses are introductory courses for potential Major students; second year courses are basic courses for Major study; and third and fourth year courses are upper

division courses, most of which lead to Degree Examination papers. However, for the sake of flexibility most courses are also open to students of other years.

**Explanatory Notes on Signs Used**

A ‘†’ sign before a course code stands for core course (required or optional).

A ‘*’ sign before a course code denotes that the course is not offered in the academic year 1985-86.

GENERAL EDUCATION

The General Education programme is designed to broaden the interests of students, give them a wider perspective, and cultivate in them the ability to face the issues of contemporary life. The challenge of rational inquiry, discussion and personal commitment is also emphasized. Besides the common/required courses, students may, over their four years of study, elect from a wide range of courses as offered by their College. The General Education programme of each College normally totals 11-15 units, not including Physical Education. First year students should not take more than a total of five units.

UNDERGRADUATE (Part-time)
PROGRAMMES OF STUDIES

The normal length of study of a part-time degree programme is six years, with three terms in each year. Each programme consists of two parts, each extending over three years. For graduation, a student shall normally complete at least a total of 120 units of courses and pass the Certificate Examination at the end of the third year and also the three parts of the Degree Examination which are to be taken at the end of the fourth, fifth and sixth years respectively.

A student shall normally take no less than 18 units and no more than 27 units in an academic year and shall complete 60 or more units of course work at the end of the First Part and a further 60 or more in the Second Part of a programme. All students other than those of the Chinese-English Programme are required to take in the first two years, six units each of General Chinese and General English unless exempted. However, all are required to take 6 units of General Education courses in each Part of a programme.

Explanatory Notes on Course Codes

To distinguish Part-time Degree Programmes from their full-time counterparts, 'P' is always used as the third alphabet in the course code. The other two letters are to stand for the subject (e.g. BAP, CHP, ENP, MUP, SWP for Business Administration, Chinese, English, Music and Social Work).

The first Arabic numeral stands for the year of study in which the course is to be taken (1=1st year, 2=2nd year, 3=3rd year, 4=4th year, 5=5th year, 6=6th year). Normally, first, second and third year courses are introductory and basic courses in a programme and fourth, fifth and sixth year courses are upper division courses leading to Degree Examination papers. However, for the sake of flexibility most courses are also open to students of other years.

Explanatory Notes on Signs Used

A '†' sign before a course code stands for core course (required or optional).
A '*' sign before a course code denotes that the course is not offered in the academic year 1985-86.

POSTGRADUATE PROGRAMMES
OF STUDIES

The University first introduced programmes at the postgraduate level with the establishment of the School of Education in 1965. In the following year, the Graduate School was formally founded to undertake research training of graduate students leading to the award of Master's degrees. In 1980, the University advanced into the realm of doctoral education.

The Graduate School at present offers instructions through one Graduate Board and twenty-six Divisions.

In the current academic year, the Doctor of Medicine (MD) Programme is introduced and postgraduate programmes leading to the degree of Doctor of Philosophy (PhD) are offered in the field of Chinese Studies, Basic Medical Sciences, Biochemistry, Biology, Chemistry, Clinical and Pathological Sciences, Economics, Electronics, Marketing and International Business, Mathematics, Physics and Sociology. For a PhD degree, a full-time student shall normally spend a minimum of three years (or two years for one holding a Master's degree in a closely related field) and a maximum of seven years. A part-time student shall normally spend a minimum of four and a maximum of eight years. General Rules for Postgraduate Studies Leading to the Degree of Doctor of Philosophy are printed on pp. 315-321 of this Calendar.

Four types of programmes leading to the award of Master's degrees are offered: (1) two-year full-time programmes leading to the award of the degrees of Master of Philosophy (MPhil), Master of Business Administration (MBA), Master of Divinity (MDiv) or Master of Social Work (MSW); (2) one-year full-time programmes leading to the award of the degrees of Master of Arts (MA), (3) three-year part-time programmes leading to the award of MPhil in Basic Medical Sciences or Master of Business Administration (MBA) or Master of Social Work (MSW) and (4) two-year part-time programmes leading to the award of Master of Arts (MA).

Courses on education are conducted by the School of Education established in 1965 to provide professional training for graduates of approved universities to serve in local secondary schools. The School offers (1) a one-year full-time course and a two-year part-time course leading to the Diploma in Education (DipEd), and (2) a one-year full-time and a two-year part-time programme leading to the degree of Master of Arts in Education (MA (Ed)).
Persons who have graduated with good honours degrees from recognized universities and who have the capacity for research may apply for admission to the above postgraduate programmes. General Regulations Governing Postgraduate Studies are printed on pp. 302-314 of this Calendar.

Business Administration

The University offers two types of postgraduate programmes leading to the degree of Master of Business Administration (MBA): (1) a two-year programme, and (2) a three-year programme (evening).

The two-year Programme had until recently been operated by the Lingnan Institute of Business Administration established with substantial initial financial support from the Lingnan University Board of Trustees in New York in 1966. The three-year Programme was launched in 1977 with generous financial support from the local business community. In February 1981, the name “Lingnan Institute of Business Administration” was replaced by that of “the Division of Business Administration of the Graduate School” which is responsible for both the two-year and the three-year Programmes.

The major objective of the MBA Programmes is to prepare men and women for responsible administrative and executive positions in business, Government and other organizations. The three-year Programme, which is conducted in the evening in town, is designed to provide practising managers with the opportunity to learn new concepts of business management without interruption of their careers.

Under the Two-Year MBA Programme, there are two programmes of studies: a General Programme and a Specialization Programme in Marketing and International Business. Admission to the General Programme is open to graduates of recognized colleges and universities, both in Hong Kong and abroad, who hold a Bachelor’s degree in any field of study, or to those who have professional or similar qualifications equivalent to a degree. Admission to the Specialization Programme is open only to holders of bachelor’s degrees in business administration. Undergraduates who expect to receive their Bachelor’s degrees in the current academic year may also apply for admission to the Two-year General/Specialization Programme.

Qualifications for admission to the Three-Year MBA Programme is identical with that of the Two-Year General Programme except that applicants are also expected to have at least three years of full-time work experience.

Two-Year MBA Degree Programme

Sociology

Fields of Study
The Division offers supervised research and reading courses in the following areas: Advanced Theory, Advanced Methodology, Aspects of
Sociology, Chinese Society, Hong Kong Society and Graduate Seminar.

MPhil Degree Programme
The Sociology Division offers a two-year programme leading to a MPhil degree. The programme is organized to enable the students to devote the first year to course work and to spend the major part of the second year writing a Master’s thesis. Each student and his supervisor will plan a programme of studies at the beginning of the first year. This programme will consist of required graduate courses and elected reading courses chosen in the light of the student’s needs and interests. In some cases, students may be required to take advanced courses in the undergraduate curriculum which are relevant to the students’ thesis topic or which will strengthen the students’ general sociological background. In addition, each student will be required to attend Graduate Seminar which meets every week. The purpose of this Seminar is to provide a forum for the exchange of views among graduate students, faculty and visiting specialists in relation to a number of selected topics in current sociology and anthropology. Students are required to choose their thesis topic in the second term of the first year and, if possible, to initiate at least exploratory research during the summer months.

SCHOOL OF EDUCATION

Programme Leading to Diploma in Education

The School of Education was established in 1965 to provide professional training for graduates of recognized universities to serve in local secondary schools. Programmes offered by the School cover a broad spectrum of teacher education and aim at developing professional competence in teaching. The up-to-date teaching facilities of the School include a language laboratory, a science laboratory, a counselling laboratory, an instructional materials unit, an audio-visual workshop and an educational technology unit equipped with a close-circuit system.

The School offers the following programmes:

1. Programmes leading to the Postgraduate Diploma in Education:
   - One-year Full-time Programme — a pre-service secondary school teachers training programme.
   - Two-year Part-time Evening Programme — an in-service secondary school teachers training programme (classes take place at six o'clock three evenings a week).
   - Two-year Part-time Day Programme — an in-service secondary school teachers training programme (classes mainly take place on Saturdays during the year in addition to the summer school holidays).

2. Programmes leading to the Degree of Master of Arts in Education (MA(Ed)).
   (See pp. 178-179 of this Calendar.)

Applicants for the Diploma in Education programme should be graduates of recognized universities and those who wish to apply for the two-year part-time programme must be, in addition, serving secondary school full-time teachers. In very special cases, applications from educational workers in related fields with very strong and valid grounds may also be considered.

The programme includes the following courses:
- Subject Curriculum and Teaching with micro-teaching: Major Teaching Subject
- Educational Thought
- Sociology of Education
- Psycho-social Development of the Adolescent
- School Guidance
- Psychology of Learning and Teaching
- Evaluation and Test Construction (Elective)
Educational Communications and Technology (Elective)
Subject Curriculum and Teaching: Minor Teaching Subject (Elective)
School Administration (Elective)
Educational Research and Statistics (Elective)
Extracurricular Activities (Elective)
Education in China (Elective)
Health Education (Elective)
Adult Education (Elective)
Effective Teaching in the Medium of English (Elective)
Individual Project (Elective)

In addition to course work, full-time students are required to complete an eight-week (normally 15 sessions per week) supervised practice-teaching assignment in secondary schools; whilst part-time students, who are already in-service teachers, will teach under supervision at their own schools.
INTERNATIONAL ASIAN STUDIES PROGRAMME

In keeping with the University's distinctive educational mission of promoting cultural exchange between East and West, an International Asian Studies Programme was launched at the University in 1977 with the support of the Yale-China Association. This Programme is open to a selected number of students, research scholars and academic staff from overseas who wish to take advantage of the University's academic resources and research facilities in the broad area of Chinese and Asian studies, including the Chinese language training programme offered by the New Asia - Yale-in-China Chinese Language Centre.

The International Asian Studies Programme is fully integrated into the regular academic, administrative and social structure of the University. Programme participants from overseas and local students live in the same hostels. Some courses in Asian and Chinese studies are taught in English for the benefit of both programme participants and local students. Courses given in Chinese at the University are open to those programme participants who have the language competence to benefit from them.

There are three categories of participants: (1) associate students: undergraduates and graduate students taking a full load (12-18 units per term) of language and area studies; (2) research students: graduate students primarily undertaking research or writing their masters' theses or doctoral dissertations; and (3) special scholars: academic staff members or other learned scholars, normally of post-doctoral status, pursuing research, refresher or advanced courses.

Programme fees and financial aid for participants are respectively printed on p. 196 and p. 213 of this Calendar.

The Programme is a yearly programme. (September to April). Application for single term participation are subject to availability of places. Previous course-work on Chinese language or Asian studies is not required for admission, but undergraduate applicants must have normally completed at least two terms of university study and graduate applicants must hold a BA degree. Research students and special scholars with genuine research or scholarly interest are especially welcome.

All inquiries and applications should be addressed to the Office of International Studies Programmes at The Chinese University of Hong Kong except those from America and Canada which should be addressed to the Programme's North American representative: The Yale-China Association, 905A, Yale Station, New Haven, Connecticut 06520, U.S.A.

Cost of University Education

In addition to the prescribed fees listed above, all full-time students
are advised to set aside funds for other items including meals, books,
transport, personal and other expenses.

The cost of meals on campus is about HK$4.00 for breakfast and
$7.00 each for lunch and dinner. It is estimated that books and
stationery and other incidental expenses would be in the region of
$2,200 a year. In addition, a commuting student may have to spend
between $2,000 to $3,000 a year on transport. Personal and other extra
expenses are entirely at the discretion of the individual student con-
cerned.

In all, taking into consideration all fees and expenditure set out
above, a student will probably need between $15,000 to $18,000 a year
to support his education at the University.
SCHOLARSHIPS AND FINANCIAL AID TO STUDENTS

To help needy students meet part of the cost of their university education, the Government has made provisions for grants and interest-free loans through the Joint Committee on Student Finance. In academic year 1984-85, a total of 22 million dollars were allocated to 48% of the student population, who depended on this scheme for financial support. The University and its three constituent Colleges also administer their own scholarships, bursaries, loans and campus work schemes. As a form of recognition of the academic endeavours of the part-time undergraduates and to help the needy ones to defray part of the cost of their university education, the University has established especially for them a number of scholarships and interest-free loans as from the 1985-86 academic year.

Part V
Research Units and
University Extensions
RESEARCH INSTITUTES AND CENTRES

The University is directly responsible for providing faculty members with research facilities so as to enable them to keep up with the latest developments in their own fields and to contribute to them. For this purpose the University has established three Institutes, namely, the Institute of Chinese Studies, the Institute of Science and Technology, and the Institute of Social Studies.

Institute of Chinese Studies

The Institute of Chinese Studies was established in 1967 on the basis of a broad but unified concept of Chinese studies. It includes what is traditionally identified as Sinology, but emphasizes the application of the methodology of social sciences, characterized by its quantitative and comparative approaches.

The objectives of the Institute are: to promote Chinese studies in Hong Kong and overseas by serving as an international centre for Chinese studies capable of effectively assisting other academic and research institutions and scholars in this field and maintaining close and continuing communication and cooperation with them; to provide interested local and visiting academic members of the University with the necessary training facilities as an aid to teaching and research; and to encourage the exchange of knowledge and experience in Chinese studies through an effective programme of publications, academic conferences and research seminars.

Under the Institute of Chinese Studies are the Art Gallery, the Centre for Chinese Archaeology and Art, the Ng Tor-tai Chinese Language Research Centre and the Research Centre for Translation. Each of these units is responsible for the promotion of research in its own field. To encourage research in Chinese studies, the Institute also provides for grants to support research undertaken by members of the University. At the same time, seminars are sponsored periodically and research fellows and visiting scholars from abroad are invited to give lectures in their specialization. The Reference Library of the Institute, including the collection of the late Mr. Wong Pao-hsie, contains some 32,000 volumes of books and 151 types of periodicals.

The Institute publishes annually a volume of The Journal of the Institute of Chinese Studies of The Chinese University of Hong Kong. More recently, the various units under the Institute have been issuing their own monograph series, studies series and other academic publications.
Art Gallery

The Art Gallery, established in 1971, serves both as a teaching museum for the Fine Arts Department and as a centre of research on Chinese art and archaeology. As an active gallery which mounts special exhibitions of Chinese art at regular intervals, it also provides a valuable service to the community of art enthusiasts in Hong Kong.

Apart from the general collection for teaching purposes, the Art Gallery houses photographics archive and several important research collections of Chinese art and antiquities. Notable amongst the latter are a collection of over 1,300 paintings and calligraphy by Guangdong artists and scholars dating from the Ming to recent periods, over 250 bronze seals of the Warring States to Han periods, a collection of more than 400 pieces of Chinese jade flower carvings, over 300 rubbings of ancient inscriptions and a comprehensive collection of Chinese ceramics.

The Art Gallery has a Conservation Annex which provides technical support for the Gallery. This includes the restoration and conservation of work of art; the mounting and restoration of Chinese paintings; woodwork and photographic services.

Centre for Chinese Archaeology and Art

This Centre was established in 1978 to undertake research projects in Chinese Archaeology and Art. The purpose is to pool the resources of the Art Gallery and the Departments of History and Fine Arts together, laying a solid foundation for research in this field, and to promote cooperation with museums and universities abroad in research programmes. An updated Bibliographical Index to the publications and Data Archives on the subject have been compiled and are ready for service. Results of various research will continue to be published in The Journal of Institute of Chinese Studies and other learned journals. The Centre has also been issuing (I) Publication Series, (II) Monograph Series, (III) Studies Series, and (IV) Bibliographical Series.

The Ng Tor-tai Chinese Language Research Centre

The Centre has its origin in the Chinese Linguistics Research Centre, first established in 1966. It was enlarged in early 1979 under the name of Chinese Language Research Centre, and in 1980 it was renamed The Ng Tor-tai Chinese Language Research Centre.

The main objective of the Centre is to engage in comprehensive research on the Chinese Language, including such fields as the Chinese script, pronunciation, grammar and vocabulary, and to make available to the public in general and teachers of Chinese in particular the results of its research in the hope that this will contribute towards the raising of the standard of Chinese Language teaching in Hong Kong.
Research Centre for Translation

In 1971, a Centre for Translation Projects was established with a grant from The Asia Foundation. It was renamed Research Centre for Translation in 1983 as the result of reorganization. The Centre has concerned itself with research and publication involving English-Chinese and Chinese-English translation.

In translating from Chinese into English, the Centre concentrates mainly in the areas of literature, history, and philosophy. A continuing vehicle for this is the English-language journal, Renditions, published semiannually since 1973. The current double-issue Nos. 19/20 is entitled Chinese Literature Today. Included in the Centre’s Projects are “Renditions Books,” of which eleven titles have been published since 1976. A new title, The Brotherhood of Song: Chinese Poetry and Poetics, is now under active preparation. The English-Chinese portion of translation work concentrates on standard works related to the social sciences and the humanities; ten titles have been published since 1972.

Institute of Science and Technology

The Institute of Science and Technology is established for the purpose of promoting interdisciplinary research in the Science Faculty with particular emphasis on projects with long-term regional significance or applied value. It is also an important vehicle of the University for cooperation in scientific research and consultation with industries, government departments and other universities.

Chinese Medicinal Material Research Centre

The Research Centre has its origin in the Research Unit on Chinese Medicinal Material which was established in 1975. It was enlarged in 1979. Research personnel come from Biochemistry, Biology, Chemistry, Pharmacology, Physiology and other departments. The basic objective is to undertake laboratory investigation of certain rationally selected Chinese medicinal herbs in order to evaluate their true therapeutic value on a scientific basis. The Research Centre has received local support for the establishment of a Chinese Medicine Research Fund and an interdisciplinary Research Laboratory was completed in 1984.

In 1980, a partnership agreement was made with the IBM to computerize an enormous amount of information on Chinese medicines. This will facilitate cross reference, retrieval and link-up with Western computerized medical and scientific data base. The first stage of this project was completed by the end of 1982, establishing a unique computerized data base on Chinese medicines. Abstracting information from current Chinese scientific journals in this field is in progress.
Institute of Social Studies

The Institute was established in September 1982, as a result of the reorganization of the former Institute of Social Studies and the Humanities. There were six research centres under the former Institute, viz. the Centre for Communication Studies, the Centre for East Asian Studies, the Economic Research Centre, the Geographical Research Centre, the Public Affairs Research Centre and the Social Research Centre. These six centres have been grouped into two centres under the present Institute, viz. the Centre for Contemporary Asian Studies and the Centre for Hong Kong Studies.

The Institute's overall objective is to promote and coordinate interdisciplinary studies on social-political and economic development in Hong Kong and other Asian societies. Participating in the research activities of the Institute are mostly academics in the fields of social science, business administration and education. Besides organizing empirical research, the Institute and its two centres also sponsor monograph series, workshops and symposia.

Centre for Hong Kong Studies

Major activities include building a computerized system of social and economic indicators, developing interdisciplinary research programmes on major and urgent social problems, conducting selected investigations on factors that impinge upon Hong Kong's economic performance, evaluating existing public policies and devising alternative policy instruments. In all these activities, the application of social scientific knowledge to the solution of practical problems is underscored.

Centre for Contemporary Asian Studies

Emphasis is currently placed on promoting interdisciplinary studies on major developments in modern China, including the development of legal system, the demography of family life cycle and problems of fertility control, the systems and practices of enterprise management, socioeconomic change stemming from the open economic policy, and overseas Chinese archives.
DEPARTMENTAL RESEARCH UNITS

Comparative Literature Research Unit
First established as a Division of the Comparative Literature and Translation Centre in 1978, the Comparative Literature Research Unit has become affiliated to the Department of English since 1983.

The Unit also engages in cooperative projects with scholars of Mainland China in Chinese-Western comparative literature and in comparative language/linguistic studies.

Psychiatric Epidemiological Research Unit
The Psychiatric Epidemiology Research Unit was established under the Psychiatry Department in April 1981 with a grant from the Keswick Charity Foundation. Its primary goal is to provide a large-scale continuous monitoring of the distribution and frequency of psychiatric morbidity in the Shatin Community. Information generated will provide a better understanding of the characteristics of mental illnesses, and current available services can be evaluated and future administrative measures may be planned.

The Research Unit is carrying out an epidemiological survey of the frequency and type of mental illnesses in Shatin, which is within the defined catchment area of the Prince of Wales Hospital, where the Unit is housed. Experience and findings resulted from this survey will enable the establishment of a permanent psychiatric morbidity register for the Shatin region and the development of reliable rating scales for Chinese psychiatric patients.
Hung On-To Research Laboratory

The Hung On-To Research Laboratory has its origin in the Hung On-To Research Centre for Machine Translation first established in 1978. It was renamed in 1982 and placed under the Department of Computer Science. The main objectives of the Research Laboratory are to study the translation of natural language by computational techniques and to develop a computer-based Chinese information processing system. The facilities provided in the Research Laboratory include a PDP 11/34 computer system, a microcomputer development system and several microcomputer systems designed and built by the Research Laboratory for Chinese information processing research.

Marine Science Laboratory

The Marine Science Laboratory, established in 1970 as a research centre for advanced studies in marine science, is under the supervision of the Department of Biology. The present research emphasis is on the physiology of marine organisms, especially of fish and shrimps, in relation to mariculture.

The Laboratory is equipped with a physiology laboratory, an air-conditioned aquarium, a hatchery house with six enclosed tanks (13 m² x 2, 11 m² x 2, 4 m² x 2), four large outdoor tanks (26 m² x 2, 40 m² x 2) and fourteen smaller tanks, and a speed boat (5 m).

Research Laboratory for Food Protein Production

The Research Laboratory for Food Protein Production, under the Department of Biology, aims at the production of high quality food protein from wastes and achieving pollution control simultaneously through interdisciplinary research cooperation. There are two main streams of research: (1) the production of food protein from sewage wastes by intensive aquaculture through successive steps in the food chain of algae, shrimp, fish, etc. and through vegetable crop production from sewage sludge; (2) the production of straw mushroom and other edible mushrooms from cotton wastes, sawdusts and used tea leaves. In addition, the protoplast-based techniques for genetic manipulations in microorganisms have also been developed.

New Asia -- Yale-in-China
Chinese Language Centre

The New Asia -- Yale-in-China Chinese Language Centre offers courses designed primarily for non-native speakers of Chinese. Founded in 1963 under the joint auspices of New Asia College and the Yale-China Association, the Centre became a part of the University in 1974.

Every year over two hundred students from different parts of the world are admitted to the Language Centre. These students range from absolute beginners to trained sinologists who wish to polish their spoken Chinese or learn a Chinese dialect. Courses are offered at all levels so that any student can find training which suits his needs. The Language Centre also regularly teaches Mandarin to hundreds of local Cantonese-speaking residents, including students of The Chinese University. The faculty of the Language Centre prepares a significant portion of their own teaching materials and audio-visual aids for the students, Chinese and foreigners alike.

Courses offered by the Language Centre follow a two-term and a summer session system, each term lasting fifteen weeks and the summer session ten weeks. Students may register for admission in any term. There are beginners courses at the beginning of each term. The intensive programme of fifteen hours of classroom instruction per week constitutes the maximum course load. Students may also register for six or nine hours, depending on the courses being offered in any one term. The maximum class size is eight students, while most classes average between four and five. In exceptional cases, private tutorials are available. Tuition fees for Language Centre courses are printed on p. 196 of this Calendar.

The Language Centre has a full complement of tapes for teaching purposes. Language laboratory facilities are available.

The Language Centre gives credits according to the American system and issues grades and transcripts. Courses taken at the Centre have been recognized by major universities for degree credit. For students from institutions not using the credit system, transcripts are prepared in sufficient detail to present a clear picture of the work accomplished by each student.

Copies of an information brochure are obtainable free on request. All correspondence should be addressed to the Director, New Asia -- Yale-in-China Chinese Language Centre, The Chinese University of Hong Kong, Shatin, New Territories.

SUPPORT FACILITIES AND SERVICES

The Library System

The University Library System, introduced in 1963 with the establishment of the University, coordinates the collections and services of the University Library (founded 1965) and the branch libraries: the Chung Chi College library (founded 1951), the New Asia College library (founded 1949), the United College library (founded 1956), and the Medical library (founded 1981). The administration of the University Library System is centralized under the University Librarian. Borrowing privileges are extended to all members of the University.

The University Library, which started operation in rented premises in Kowloon, was accommodated temporarily in the Benjamin Franklin Centre from 1969, and moved into the spacious new library building in 1972. This five-storey building, which has a floor space of 7,993 square metres, can house over 400,000 volumes of books and accommodate 500 readers. It is one of the most modern academic libraries in East Asia, fully equipped with the usual study rooms and carrels for readers, conference and seminar rooms, an audio-visual room, a photographic laboratory, microfilm facilities, a rare book room and a book bindery.

The University Library is primarily a reference and research library for the use of staff and students of the University and visiting scholars. The branch libraries at the three Colleges are basically undergraduate libraries but each has some unique features. Elisabeth Luce Moore Library of Chung Chi College holds strong collections in music and in religious studies. Ch'ien Mu Library of New Asia College houses good collections in Chinese literature, fine arts and philosophy. Wu Chung Library of United College has a Hong Kong Collection as well as a notable Modern Drama Collection. Medical collections are housed in two different locations, with the pre-clinical materials in the University Library and the clinical materials in the Li Ping Medical Library, which is a part of the teaching hospital complex in the Shatin New Town. The Medical Library also offers audio-visual services to the Faculty of Medicine.

All acquisitions and cataloguing activities are carried out in the University Library, which maintains a union catalogue of the holdings of the entire System. The holdings of the University Library System as of 30th June, 1985 are:
Books and bound volumes of periodicals 431,714 428,227
Current journal titles 1,819 4,425

Large sets of Chinese classical books in the traditional format of silk-stitched fascicles, as well as many important journals for Chinese studies in both Oriental and Western languages, have been acquired for research purposes. The Western language collection is also growing steadily stronger, particularly in bibliographic and reference materials.

In 1977, the University Library System began to publish its Bibliographical Series. The following seven numbers have so far been published, covering aspects of both the collections of the System and Hong Kong publications: Union Catalogue of Serials (1977); Union Catalogue of Audio-Visual Materials (1979); An Annotated Guide to Serial Publications of the Hong Kong Government (1979); Serials of Hong Kong, 1845-1979 (1981); Newspapers of Hong Kong, 1941-1979 (1981); History of Medicine: An Annotated Bibliography of Titles at The Chinese University of Hong Kong (1984); and Asian Fine Arts Collections: Union Catalogue, The Chinese University of Hong Kong (1984).

For cataloguing purposes, the Library of Congress system has been used since 1969 for Western language materials and since 1971 for Oriental materials. Medical books are classified according to the National Library of Medicine scheme. An on-line circulation system was introduced at the University Library in December 1980, and at the United Library in Summer 1983, with the hope of extending it to the other two branch libraries at Chung Chi College and New Asia College in the next triennium.

By using modern telecommunication and computer technology, the University Library is now able to search electronically through files of databases and locate within seconds or minutes precisely the periodical or book citations and abstracts needed. The University Library's Information Retrieval Service is connected by terminals through a telecommunications satellite to a database vendor in the United States — DIALOG in California.

The Chinese University Press

After a decade of publishing activities, chiefly under the Publications Office, the University established The Chinese University Press in 1977. Reflecting the distinctive character of The Chinese University of Hong Kong, the Press publishes books in Chinese and in English, and often in both languages. Although it publishes books in almost all disciplines, more than half of its publications are in Chinese studies.
Last year, the Press published twenty-six titles including books in special series such as the Hong Kong studies series, Renditions Books series and the English-Chinese glossaries. It also published the *Journal of the Institute of Chinese Studies* and the *Hong Kong Journal of Business Management*.

The Press has good connections with university presses and learned societies both in Hong Kong and overseas. It has co-published books with the university press of Harvard, Columbia and the University of Washington. It has also entered into joint publication arrangements with commercial publishers in the United States. Today, The Chinese University Press is a member of the Association for Asian Studies (AAS), the International Association of Scholarly Publishers (IASP) and the Society for Scholarly Publishing (SSP). It is also an international member of the Association of American University Presses (AAUP). Locally, it is a sponsoring member of The Anglo-Chinese Textbook Publishers' Organization Ltd. when the Organization was established in 1982.

**Computer Services Centre**

The Chinese University Computer Services Centre provides services to students, faculty, research and administrative computer users of the University. The Centre houses a PDP 11/70, a Wang VS minicomputer, two IBM mainframe 3031 systems, one of which is provided to the University through the partnership programme on a three-year rental-free agreement for academic research.

The Centre is organized into four units: the User Support Unit, the Technical Support Unit, the Operations Unit and the Administrative Unit. The services provided by the four units include:

(a) Basic computer time for job processing on the IBM, the PDP, and the Wang System;

(b) Computer programming consultation services and technical advice for users with programming problems;

(c) Application packages programme services and consultation on appropriate packages and software systems to meet particular application requirements;

(d) Programming services in support of specially approved applications;

(e) Seminars on the use of different computer systems and packages; and

(f) Reference manual and other documentation services.
The Chinese University Computer Services Centre is an integral component of the Universities and Polytechnic Computer Centres (UPCC) System. This System comprises an advanced data communications network linking the computer facilities of The Chinese University, Hong Kong University, and Hong Kong Polytechnic. The facilities of this entire system are available to members of the University community.

Health Service

The University Health Service is charged with the responsibility of meeting the health needs of students, staff and their dependents. Special emphasis is being placed on developing a comprehensive primary care service to handle the many medical, dental, psychological and social needs and problems of students.

The University Health Centre, serving as the physical basis for the operation of the health programme, is a gift of the Yale-China Association. Officially opened in September 1971, it has been specially designed and built as a student health centre with provisions for the practice of preventive care, health education and personal medical services.

The Health Centre is open from 9:00 a.m. to 5:00 p.m. Mondays through Fridays and from 9:00 a.m. to 1:00 p.m. on Saturdays. Services include:

(a) Health consultations for diagnosis, counselling, preventive, curative and rehabilitative treatment;
(b) Health maintenance, promotion and other out-reach activities;
(c) 24-hour service with nurse on duty and doctor “on call” Monday through Saturday morning; daytime nursing service during weekends and holidays;
(d) In-patient care for students in need of observation, isolation, diagnosis and treatment of minor to intermediate illness of short duration;
(e) Dental consultation, restorative, preventive and emergency treatment;
(f) Periodic physical examination for certification purposes; and
(g) Coordination of access to diagnostic laboratory and x-ray services, referrals to appropriate specialists, treatment centres or hospitals if and when necessary.

No charges are levied on any of the clinical services provided directly by the University Health Service with the exception of house visit and dental service.
It is hoped that through the unique educational opportunities generally available in the University and its constituent Colleges, and the numerous contacts students may have with the Health Service, they will have ample chance to gain for themselves adequate knowledge of good health attitudes and habits and will be well oriented to accept appropriate responsibilities to look after their most valuable personal asset in life — HEALTH.

Information Management Unit

The Information Management Unit was established in October 1980. It provides programme and systems development services for University administration applications. The aim of this Unit is to serve as a management information centre for all the departments within the administration and to provide them with systematic and timely information for planning and decision-making. Efforts are being made to further computerize administrative procedures and develop an effective management information system. In centralizing and coordinating the University’s data, the Unit pays particular attention to data collection, validation, efficient data processing and elimination of redundant data.

Instructional Development Office

The Office aims to support good teaching and learning throughout the University. It has three areas of activities: (1) Communication and Information: the Office produces bibliographies, news-sheets and occasional papers on instructional matters for teaching staff. It also operates an informal referral service, and maintains communication and exchange with others concerned with university teaching in Hong Kong and throughout the world. (2) Consultation and Support: the Office provides information on curriculum design and evaluation, university teaching methods, learning and study skills and the development of teaching resources (with special reference to Computer Assisted Instruction (CAI) using microcomputers). Help can be provided with the development of an individual’s teaching skills. Seminars, workshops and short courses are organized from time to time for staff. The Office administers a programme of mini-grants for projects concerned with the development and improvement of teaching. (3) Research: on its own initiative and by request the Office conducts developmental research on issues that lead to the improvement of teaching and learning.
The University Instructional Media Services

The Unit provides services for teaching, research and special functions to members of the University. It has four audio-visual teaching rooms, a sound studio, a preview room and dark rooms and runs language laboratories in each of the three constituent Colleges. The Unit has its own photographer and graphic artist who are available to assist staff in the production of teaching materials. There are also facilities to enable staff to prepare their own materials. The following services are provided for teaching, research and administration at the University:

(a) Provision of audio-visual aids, including projects, sound reproduction equipment and television play-back;
(b) Single camera closed circuit television facilities;
(c) Basic photographic, graphic and some reprographic services, including audio and video-tape copying;
(d) Consultation services on lay-out and equipment for teaching areas;
(e) Maintenance and repair of audio-visual equipment;
(f) Administration of audio-visual rooms and language laboratories; and
(g) Training in the operation of audio-visual machines.

In conjunction with the Instructional Development Office, the University Instructional Media Services also provides information and consultation services on the development and use of audio-visual equipment in teaching.

Student Service and Student Activities

The Office of Student Affairs attends to student welfare and helps students take full advantage of their university education. The activities of the Office are administered through its six sections: the Appointments Service, the Psychological Counselling Unit, the Student Activities Section, the Scholarships and Financial Aid Section, the Student Amenities/Benjamin Franklin Centre and Temporary Hostel Management Section and the Statistics, Research and Publication Unit.

The University Appointments Service is a centre and clearing house of employment information; it is responsible for initiating and developing job opportunities for graduates of the University, for organizing career guidance programmes, and for helping employers with their recruitment of staff at the graduate level. It also administers guidance services to students who intend to further their studies after graduation.
The Student Activities Section coordinates university-wide student activities; liaises with the Student Unions and their affiliated societies and provides assistance and advice for various student functions and activities.

The Scholarships and Financial Aid Section administers scholarships, bursaries, emergency bursaries and loans from private donations and assists in the administration of the Government Financial Aid Scheme.

The role of the Psychological Counselling Unit is two-fold, namely, to attend to individual needs through individual counselling and group programmes and to promote better mental health among the students.

The Student Amenities/ Benjamin Franklin Centre and Temporary Hostel Management Section is responsible for managing student amenity facilities in the Benjamin Franklin Centre, coordinates policies on undergraduate hostels and oversees the management of the Temporary Hostels.

The Statistics, Research and Publication Unit undertakes research and statistical work related to the career development of graduates and the general characteristics and need assessments of students. It also coordinates the editing and production of all official publications of the Office such as Student Affairs, Appointments Service News Bulletin, Graduate Careers Handbook, etc.

Counselling on social, psychological, financial as well as academic problems is also provided by the Dean of Students' Offices at each of the three Colleges. These Offices administer College scholarship and bursary awards and also play a vital role in the enrichment of college life. In close cooperation and collaboration with the College Student Unions and their affiliated societies, the Dean of Students' Offices also oversee the execution of college-wide student activities.

At present, there are four Student Unions in the University, one each for the three constituent Colleges and one for the University as a whole. The latter maintains close links with the College Unions and coordinates university-wide activities. All year round, a wide range of activities, including academic, athletic, cultural as well as social functions are organized by the Student Unions. These include the Freshmen Orientation Camp, the Swimming Gala, and the University Athletic Meet.
Sports Facilities

To promote students' interest in physical education, the University provides a variety of sports facilities, including two sports fields, three gymnasia, a swimming pool and eight tennis courts.

The sports fields with covered spectator stands (with a seating capacity of 2,800 in the case of the University Sports Field) are built on the lowlands facing the shore to the east. The University Sports Field provides a 400-metre track, which is in the course of being reconstructed with all-weather surfacing, a soccer pitch and a handball court, while the Chung Chi Sports Field provides a 400-metre track, a soccer pitch, a basketball court and a volleyball court. Each of the three indoor gymnasia (New Asia, United and University) houses badminton courts, basketball/volleyball courts, dancing rooms and table-tennis tables. Adjacent to the Benjamin Franklin Centre, the staff-student amenities building, is an outdoor Olympic-size swimming pool.

The Sir Run Run Shaw Hall

The Sir Run Run Shaw Hall, a well-equipped auditorium of modern professional standard, provides an ideal place for the University's cultural activities. It is designed for holding ceremonies, general meetings, lectures, exhibitions and examinations, and for staging concerts, plays and cinema shows. In addition to the provision of a venue and its services, Sir Run Run Shaw Hall utilizes its own Cultural Activities Fund to present and sponsor high-quality stage performances and film shows, as well as to organize activities such as talks and workshops related to the performing arts.

1.2 In principle, a PhD programme in a discipline shall be administered by the appropriate Graduate Division which also administers master programme(s) in the same discipline.

1.3 Where a PhD programme in a major area involves more than one discipline, it shall be administered by a Graduate Board consisting of representatives from the Graduate Divisions concerned which may independently run their own master programmes in the respective disciplines.

1.4 A Graduate Board set up in accordance with Rule 1.3 above shall have a Graduate Panel similar to that of a Graduate Division, and the functions of a Graduate Board and its Graduate Panel shall in principle be exactly the same as those of a Graduate Division and its Panel in regard to the operation of the appropriate postgraduate programmes.

PhD 2 Conditions of Admission

2.1 An applicant seeking admission to a PhD programme must in principle

(i) have obtained a degree of Master from a recognized University and the consent of two qualified scholars in the proposed field of study from recognized universities to be named as referees; or

2.4 Exemption from the requirements of the Language Test may also be granted to applicants who can produce acceptable credentials testifying to their proficiency in the languages. Other exceptional cases may be considered on an ad hoc basis.

2.5 The applicant must also possess additional or special qualifications required by the Graduate Division/Board concerned.

2.6 Only in very special circumstances and with the approval of the Senate on the strength of the evidence of acceptable research experience shall admission be granted to an applicant who does not satisfy the requirements of Rule 2.1 above.

2.7 The applicant must submit a study plan to the Graduate Division/Board concerned at the time of application for admission.
PhD 3 Length of Study

3.1 Normally, a student admitted to a PhD programme shall pursue a full-time course of advanced study and research on an approved topic for a minimum period of three years and a maximum of seven years from the date of registration. However, the minimum period for a student holding a Master’s degree in a closely related field of studies as that for the PhD programme may be reduced to two years. The minimum residence requirement will normally be two years for a student without a Master’s degree and one year for a student with a Master’s degree.

3.2 Master’s degree holders may also be admitted to pursue a part-time course of advanced study and research on an approved topic leading to the PhD degree in a closely related field of study as that of their Master’s programmes. There shall not be any residence requirement for such students and they shall follow a part-time course of study for a minimum period of four years and a maximum of eight years from the date of first registration.

3.3 Any recommendation by a Graduate Division/Board in regard to shortening the minimum length of study at the request of an exceptionally outstanding student must be endorsed by the Graduate Council for Senate approval.

3.4 In special cases, the Graduate Council may grant a student leave of absence from his/her course of study and research. The period of such leave, not exceeding 12 months, shall not be counted as part of the prescribed length of study.

3.5 Any extra period approved for revision or re-submission of thesis or re-examination under Rule 9 shall not count towards the maximum period of study.

PhD 4 Supervision

4.1 A student shall be assigned a Supervisor to be appointed by the Graduate Council on the recommendation of the appropriate Graduate Division/Board.

4.2 The student shall meet his/her Supervisor at regular intervals. A report on the progress of the student’s work shall be submitted annually by the Supervisor through the Graduate Division/Board concerned to the Graduate Council.

4.3 The Supervisor shall (i) advise the student on the fulfilment of his/her course work requirements; (ii) ensure that an appro-
appropriate research topic is chosen by the student; and (iii) advise the student on the preliminary drafts of his/her thesis.

4.4 If at any time, the Supervisor should be firmly of the opinion that a student is not making satisfactory progress or unlikely to attain the standard required for the degree, he/she may advise the student to transfer to a course of study for a Master's degree as provided in Rule 6.1 or make recommendation that he/she be required to discontinue his/her studies in the Graduate School.

PhD 5 Candidature for PhD Degree

5.1 Advancement to PhD candidature is conditional upon the successful completion of the following:
(i) Study of a language other than Chinese and English where deemed necessary by the Graduate Division/Board concerned.
(ii) Course work of varying scope deemed necessary for the partial fulfilment of degree requirements.

These requirements must be satisfied within a maximum length of time after the initial date of registration, as specified in the programme of studies or as decided by the Graduate Division/Board concerned depending on the length of postgraduate training previously received by the student and the nature of his/her discipline.

5.2 A special examination may have to be taken and passed by students for advancement to PhD candidature.

PhD 6 Transfer of Candidature

6.1 A student who has been registered in a course of study for the PhD degree may be permitted, on the recommendation of the Graduate Division/Board concerned, and with the approval of the Graduate Council, to transfer to a course of study for a Master's degree provided that such a transfer takes place before the thesis is submitted.

6.2 A student who has been registered in a course of study for a Master's degree and has completed the first year of his/her studies may be permitted, on the recommendation of the Graduate Division/Board concerned and with the approval of the Graduate Council, to transfer to a course for the PhD degree provided that the student meets the entry requirements as specified under Rule 2.
6.3 A student who has been registered for the Master's degree and who subsequently becomes a student for the PhD degree in the same field of study shall be permitted to date his/her period of study from his/her initial date of registration for the Master's degree.

PhD 7 Thesis

7.1 On successful completion of the requirements under Rule 5, and having been admitted to PhD candidature, the candidate shall submit for examination a thesis embodying the results of his/her research which shall substantially be an original contribution to the knowledge of the subject concerned.

7.2 Before the submission of the thesis for examination, the candidate must submit the exact title of his/her thesis for approval by the Graduate Council on or before a date prescribed in the Graduate School Calendar. After the title of the thesis has been approved, it may not be changed except with the approval of the Graduate Council.

7.3 In non-science subjects, the length of the thesis shall normally not exceed 150,000 characters in Chinese or 100,000 words in English, while in science subjects, it shall normally not exceed 75,000 characters in Chinese or 50,000 words in English.

7.4 Each candidate must submit four copies of a thesis, including the original, all properly type-written or printed or copied and bound in a form approved by the Graduate Council. He/She must also submit five copies of abstract of the thesis of not exceeding 800 characters in Chinese or 500 words in English.

7.5 The candidate shall not be permitted to submit a thesis which has been previously submitted to this or any other University for a degree conferred on him/her; but he/she shall not be precluded from incorporating part of a previous study for a thesis covering a wider field.

7.6 The candidate must indicate in a written declaration how far the thesis embodies the result of his/her own research and to what extent he/she has availed himself/herself of the work of others.

7.7 A thesis may be submitted at any time after admission to candidature. Notice of intention to submit a thesis, embodying the title, shall be given to the Dean of the Graduate School on or before a date prescribed in the Graduate School Calendar.
7.8 If, on the recommendation of the Thesis Committee provided in Rule 8.1, a candidate is required to re-submit a revised thesis, such re-submission must be made within one year from the date of the notice by which he/she is informed officially of the result of the first examination.

**PhD 8 Thesis Committee**

8.1 For the assessment of a candidate's thesis there shall be a Thesis Committee composed of at least two Internal Examiners including the Supervisor and one External Examiner to be nominated by the Graduate Division/Board concerned for the approval of the Graduate Council. Where it is impracticable for the External Examiner to be present at the oral examination, an additional External Examiner who can attend shall be appointed.

8.2 Members of the Thesis Committee shall read the thesis and conduct the thesis examination, and shall each make a separate written report on the merits of the thesis and the grounds upon which the candidate is or is not recommended for the degree.

**PhD 9 Conduct of Thesis Examination**

9.1 The eligibility of a candidate for the conferment of the PhD degree shall be assessed by the Thesis Committee on the basis of:

(i) a thesis, and

(ii) an oral and/or written examination.

9.2 For the purpose of the oral or written examination held in connection with his/her thesis, the candidate shall be required to present himself/herself at such place and time as the Graduate Council may direct. Normally, such an examination shall be held within four months after the submission of the thesis.

9.3 The oral or written examination shall cover not only the subject matter of the candidate's thesis but also the knowledge in related fields deemed essential to his/her field of specialization.

9.4 If the thesis is considered adequate and of an acceptable standard but the candidate fails in the oral or written examination held in connection therewith, the Thesis Committee may recommend another oral or written examination within a period not exceeding 12 months. A candidate who fails a re-examination shall not be eligible for any further examination.
9.5 If the thesis is found of sufficient standard, yet needing minor revisions, the Thesis Committee, if satisfied with the results of the oral/written examinations taken by the candidate, may require that such revisions be satisfactorily carried out by the candidate within 12 months without requiring re-examinations.

9.6 If the Thesis Committee finds a candidate's thesis to be poor in quality or his/her examination results totally unsatisfactory, it may recommend that the candidature be discontinued.

PhD 10 Results of Examination

10.1 On the recommendations of the Thesis Committee and of the Graduate Division/Board concerned, the Graduate Council may
   (i) recommend that the PhD degree be conferred on a candidate;
   (ii) request the Thesis Committee to further advise the Graduate Council;
   (iii) appoint additional Examiners to settle cases in dispute;
   (iv) require a candidate to revise his/her thesis for re-examination; or
   (v) recommend that the PhD degree be not awarded.

10.2 Each candidate shall be notified of the results of the examination after the approval of the Senate.

REGULATIONS OF THE UNIVERSITY LIBRARY SYSTEM

The University Library System consists of the University Library in the central area of the Campus and the branch libraries at the Colleges and at the teaching hospital. The University Library houses an extensive research collection as well as many undergraduate materials and the pre-clinical portion of the medical collection. The branch libraries contain reference and curricular materials, some special subject collections according to the needs of the Colleges, and books and periodicals to support general education. These regulations apply to all the libraries. The Senate Committee on the University Library System reserves the right to revise these regulations at any time.

The hours of opening are posted at the entrance of each Library and are adapted to the semester schedules.

Library Privileges

Library privileges are personal and individual. They may not be transferred to, or used on behalf of, other persons.

Privileges of the Library fall into three categories:

1. **Borrowing**
   Borrowing privileges are extended to all registered students and academic/administrative staff of The Chinese University of Hong Kong.

   Others may apply to the University Librarian for special Borrowers' Cards. Clerical staff, technicians and spouses of the faculty and administrative staff of the University may also apply to the University Librarian for borrowing privileges.

2. **Reading**
   The privilege of reading is extended to visiting scholars, to researchers and to graduates of this University upon application to the University Librarian. Reserve books, however, are for the exclusive use of students and faculty of the University.

3. **Privileges of special facilities**
   Carrels: Not reserved for any category of Library user, carrels are available for the convenience of all.

   Study Rooms in the University Library: On application to the University Librarian, Assistant Lecturers (and above) and
PhD students may reserve a room for three months, renewable if its use justifies it. Others who are engaged in research may also apply. These study rooms may not be transferred.

Seminar Rooms in the University Library: Upon application to the University Librarian, a Seminar Room may be reserved for a lecture or for a series of lectures or meetings which would benefit from the use of library materials and resources.

Photocopying: Coin-operated photocopying machines are available in all libraries. A reader may obtain at cost photocopies of materials, provided there is no infringement of copyright.

Interlibrary loans: The reference librarians will attempt to obtain from other libraries books and other materials which are not owned by the University Library System and which cannot be readily purchased.

Admission to the Libraries

Every user of the Libraries must show a University Identification Card, or a Reader’s Card at the Entrance. Applications for Borrowers’ Cards and Readers’ Cards are made at the Circulation Desk.

Loss of a Borrower’s Card must be reported to the Library immediately; a duplicate card may be issued two weeks after the loss is reported. Only one duplicate will be granted within a semester. Change of address should also be reported to the Library as soon as possible.

Borrowing Regulations

Borrower Categories

Users of the University Library System to whom the borrowing privilege is accorded are grouped into the following categories:

1. Registered students of The Chinese University of Hong Kong.
   (a) Undergraduate students.
   (b) Graduate students; tutors/demonstrators who are registered students working part-time.

2. All teaching staff, including teaching assistants, full-time tutors/demonstrators.

3. Administrative staff: administrative assistants and above.

4. CUHK graduates: Upon payment of a fee of $100 per annum.

5. Special categories:
   (a) Clerical staff and technicians, with the recommendation of their division heads.
   (b) Spouses of the faculty and administrative staff.
   (c) Others, upon special application.
Borrowing Limits

Individuals may borrow within the limits of the following schedule:

Category 1(a). Undergraduate students: 10 volumes (books) for two weeks.

Category 1(b). Graduate students, graduate assistants, part-time tutors/demonstrators: 15 volumes (books) for one month.

Categories 2–3. Teaching and administrative staff: 30 volumes may be borrowed for one semester, although they should be returned as soon as they are no longer required. Bound periodicals and non-current single issues may be borrowed for periods of three days. Current periodicals may be borrowed for overnight use only.

Category 4. CUHK graduates: 5 volumes (books) for two weeks.

Category 5(a). Clerical staff and technicians: 5 volumes (books) for two weeks.

Category 5(b). Spouses of the faculty and administrative staff: 3 volumes (books) for two weeks.

Category 5(c). Others, according to special arrangement.

All books taken from the bookstacks must be charged at the Circulation Desk. Reserve Books must be charged at the Reserve Book Desk; there are varying borrowing limits on these books.

Books obtained on interlibrary loan are borrowed through the courtesy of other libraries and their restrictions as to loan period and renewal are therefore observed. Usually the loan period is two weeks and the books may have to be used only in the Library. Photocopies of periodical articles may be obtained at cost.

Reference books, rare books, microforms and other audio-visual materials do not circulate.

Renewals

Borrowers may renew loans for two additional periods. To avoid fines renewals must be made on or before the last date of the initial loan period. Borrowers, with the exception of Categories 2–3, must renew their loans at the Circulation Desk of the issuing Library.

Faculty members and administrative staff who require a book for more than one semester may renew it in writing. After two renewals, however, the book must be returned to the library shelves so that it may be available to others.

No book may be renewed if it is required by another person.

Recall

Circulating books and journals to be put on reserve for courses are subject to recall at any time. All other loans are subject to
recall after two weeks (the initial loan period). Borrowers should respond to a recall promptly.

Overdue
The last date of the loan period is stamped on the date due slip at the back of each book loaned. When the loan period expires, an overdue notice is sent to all categories of borrowers. However, the responsibility of returning books on time lies with the borrower.

Fines
All categories of borrowers except 2 and 3 who keep books beyond the loan period are subject to a fine of HK$1.00 per book per day. A fine of HK$1.00 per hour will be charged for each reserve book overdue.

Losses
Borrowers who fail to return books or who return books damaged beyond repair will be charged the cost of replacement (including binding) in addition to the processing cost of HK$20.00 and any accumulated fine. Damaged books and marked pages should be reported to the Librarian as soon as noticed.

Category 2 and 3 borrowers who fail to return or renew books after 2 terms and 3 recalls will be subject to the above charges, which will be sent to the Bursar's Office for collection.

Control Counter
Under normal circumstances, all parcels, brief cases, bags, umbrellas, cameras, etc., should be deposited on entering the Library. No food or beverages may be taken into the Library. On leaving the Library, all books, etc., must be inspected.

Loss of Privileges
Infractions, such as smoking, shouting and other disturbances, are forbidden in all parts of the Libraries. The Librarian or an appointed deputy may expel from the library building for the remainder of the day any person who is acting to annoy others or who is damaging books or other property. Payment must be made to cover all damages.

A gross breach of the Regulations may subject the borrower to a loss of library privileges.
(a) Overdue books — After normal recall procedures, a written warning will be sent. If this is ignored, borrowing privileges will be withheld in all the Libraries until the return of the book(s) and the payment of accrued fines.
(b) Payment of charges — If a person refuses to pay any outstanding charges (fines, replacement costs of damaged book or repair of damaged property), all the Libraries will withhold his borrowing privileges until the account is cleared.

Repeated offenses may lead to a total loss of the privilege of using the Libraries.
