The Chinese University of Hong Kong Calendar 1986-87 contains information as at August 1986.
The emblem of the University is the mythical Chinese bird *feng* (鳳), which is chosen because of its symbolism as Bird of the South since the *Han* Dynasty. It is also a symbol of nobility, beauty, loyalty and majesty.

The University colours are purple and gold, representing devotion and loyalty (purple), perseverance and resolution (gold).

The motto of the University is ‘博文約禮’ (po-wen yueh-li): ‘博文’ is to broaden one’s intellectual horizon; ‘約禮’ is to keep within the bounds of propriety.

These words of Confucius have long been considered a principal precept of his teaching. It is recorded in the *Analects of Confucius* that the Master says, ‘By extensively studying all learning, and keeping himself under the restraint of the rules of propriety, one may thus likewise not err from what is right.’ (Legge’s version of the *Four Books*)

In choosing ‘博文約禮’ as its motto, the University is laying equal emphasis on the intellectual and moral aspects of education.
INTRODUCTION

The Chinese University of Hong Kong was incorporated in October 1963 under a Hong Kong Ordinance ‘to establish a university with a federal constitution in which the principal language of instruction shall be Chinese’.

The constituent Colleges of the University are Chung Chi College (founded 1951), New Asia College (founded 1949), and The United College of Hong Kong (founded 1956). In December 1976 a new Ordinance was enacted, making important changes in the constitution governing the University and the Colleges. Ordinance of a new constituent College, Shaw College, was enacted in July 1986. The new College is expected to become operational in 1988.

The University is a self-governing corporation drawing its income mainly from grants made by the Hong Kong Government, supplemented by fees and donations from private sources.

The governing and executive body of the University is the Council, which has the management and control of the affairs, purposes and functions of the University. The Senate has the control and regulation of instruction, education and research.

A wide range of full-time undergraduate programmes leading to the BA, BBA, MB ChB, BSc and BSSc degrees are offered by various Departments under the Faculties of Arts, Business Administration, Medicine, Science, and Social Science. There are four part-time degree programmes leading to the degrees of BA, BBA and BSSc.

Postgraduate programmes leading to the MD, PhD, MPhil, MA, MA(Ed), MBA, MDiv, MSW degrees as well as the Diploma in Social Work, and full-time and part-time programmes leading to the Diploma-in-Education are offered by the Graduate School through the twenty-five Graduate Divisions, one Graduate Board and the School of Education.

The total enrolment of the University in the academic year 1985-86 was 6,957, including 5,667 undergraduate and 1,290 postgraduate students.

The University has three research institutes, under which are a number of research centres. The Institutes are: the Institute of Chinese Studies, the Institute of Science and Technology, and the Institute of Social Studies.

Extensions of the University include the Department of Extramural Studies and the New Asia -- Yale-in-China Chinese Language Centre.

Establishment
UNIVERSITY ORDINANCE AND STATUTES

The Chinese University of Hong Kong was incorporated in October 1963 under a Hong Kong Ordinance 'to establish a university with a federal constitution in which the principal language of instruction shall be Chinese'. It is a self-governing corporation drawing its income mainly from grants made by the Hong Kong Government, supplemented by fees and donations from private sources. The principal medium of instruction is Chinese; English is also widely used. Indeed, the majority of the teaching staff are bilingual (Chinese/English) and have studied and/or taught in major universities all over the world. The University is international in outlook and enjoys a close association with many universities, foundations and organizations abroad.

In December 1976, a new Ordinance was enacted, repealing and replacing the previous Chinese University of Hong Kong Ordinance. The aims of the University, however, remain unchanged. The new Ordinance (No. 86 of the Laws of Hong Kong 1976) and the Statutes of the University are printed on the following pages.
THE CHINESE UNIVERSITY OF HONG KONG ORDINANCE 1976

An Ordinance to repeal and replace The Chinese University of Hong Kong Ordinance, to repeal the Chung Chi College Incorporation Ordinance, the Board of Trustees of The United College of Hong Kong Incorporation Ordinance and the New Asia College Incorporation Ordinance and to make new provision concerning the Chung Chi College, The United College of Hong Kong and the New Asia College, and for purposes connected therewith.

Preamble. WHEREAS—

(b) the constituent Colleges of the University are Chung Chi College, New Asia College and The United College of Hong Kong;

(c) it is considered desirable that some of the powers and functions conferred on the said Colleges under their respective constitutions and Ordinances should be vested in The Chinese University of Hong Kong and that the principal role of the said Colleges be the provision of student-orientated teaching under the direction of The Chinese University of Hong Kong.

(d) it is also considered desirable to make certain alterations in the constitution of The Chinese University of Hong Kong;

(e) it is declared that The Chinese University of Hong Kong, in which the principal language of instruction shall be Chinese, shall continue to—

(ii) provide regular courses of instruction in the humanities, the sciences and other branches of learning of a standard required and expected of a University of the highest standing;

(iii) stimulate the intellectual and cultural development of Hong Kong and thereby to assist in promoting its economic and social welfare:

General Information
THE UNIVERSITY

Origin

The University has its origin in three Post-Secondary Colleges: New Asia College (founded 1949), Chung Chi College (founded 1951), and The United College of Hong Kong (founded 1956), which drew, in their early days, a sizable proportion of their teachers and some of their students from Mainland China.

In 1957, these three Colleges came together to form the Chinese Colleges Joint Council with the object of securing Government recognition for their efforts in providing higher education for the students of Hong Kong. In 1959, Mr. John S. Fulton (later Lord Fulton of Falmer) was invited to advise on general lines of development for the three Colleges as a whole. In 1960, the Government introduced the Post-Secondary Colleges Ordinance and Regulations, which approved financial support to the three Colleges with a view to raising their standards to a higher level.

In 1961, a University Preparatory Committee, chaired by Dr. the Hon. Sir Cho-Yiu Kwan, was appointed to advise on sites and buildings and matters relating to the establishment of the University. A group of advisers from Britain and the United States visited Hong Kong in the same year to advise the Colleges on development to university level of courses in arts, science, commerce and social science. The report of these advisers was encouraging, and so in 1962, the Government appointed a commission under the chairmanship of Mr. John S. Fulton to consider and determine whether and how a Chinese university should be created.

The Report of the Fulton Commission, known as the Fulton Report and published in April 1963, recommended the establishment of the new University. The Report was approved in principle by the Government shortly after its publication. A Provisional Council was set up in June 1963, and The Chinese University of Hong Kong Ordinance and Statutes were enacted in September 1963. On 17th October, 1963 the University was formally inaugurated.

The New Ordinance

In November 1975, the Governor, in his capacity as Chancellor of the University, appointed an external commission to review the constitutional arrangements governing the University and its constituent Colleges. Lord Fulton of Falmer was again invited to serve as Chairman of the Commission.
The second Fulton Report was submitted to the Chancellor in March 1976 and published in May. The Report recommended important changes to the constitutional arrangements governing the University and the Colleges. Under the new arrangements proposed by the Commission, the University would be responsible for academic and development policy, financial management, the matriculation of students, the appointment of staff, the determination of curriculum, the conduct of examinations and the award of degrees. The participation of senior academics in the governing bodies of the University would be strengthened. In addition, the Report also recommended that the teaching of the University should reflect a balance between 'subject-orientated' teaching and small group 'student-orientated' teaching, and that the latter should be implanted in the Colleges. This 'student-orientated' teaching would be designed to build in the students habits and aptitudes of mind characteristic of the expert in their chosen fields and relevant to the solution of the kind of problems they are likely to encounter later in life; it would also be designed to equip students for meeting the challenges in a rapidly changing world.

A new Ordinance to give effect to the recommendations in the Fulton Report was enacted in December 1976. The Ordinance (No. 86 of the Laws of Hong Kong 1976) and the Statutes of the University are printed on pp. 11-49 of this Calendar.

Academic Structure and Policy

The Chinese University of Hong Kong is a growing university offering a range of full-time and part-time courses which lead to Bachelor's degrees, Master's degrees and Doctorates.

There are now five Faculties, namely, Arts, Business Administration, Medicine, Science and Social Science; and forty-seven Departments offering thirty-two Major subjects and thirty-four Minor subjects for full-time undergraduate students and four Part-time Degree Programmes for working adults.

Postgraduate programmes including fifteen doctoral programmes and thirty-nine master's programmes are offered by the Graduate School through its twenty-eight Graduate Divisions and the School of Education. The latter also offers full-time and part-time postgraduate programmes leading to the Diploma-in-Education.

The Senate has the control and regulation of instruction, education and research. The Faculties advise the Senate through the Faculty Boards on the programmes of studies recommended by the Boards of Studies. The Boards of Studies are responsible for subject-orientated
teaching. The Colleges, in turn, are responsible for pastoral counselling and student-orientated teaching and also provide residential accommodation. The teaching staff and undergraduate students are assigned to one of the constituent Colleges.

Undergraduate Studies

Since its inception the University curriculum has been based on a combination of credit unit system and degree examination system. After a two-year comprehensive curriculum review, the Senate ruled that a new curriculum structure be adopted for students admitted in 1986 and thereafter. The essential elements are: (a) abolishing degree examination system, (b) strengthening general education, (c) making Minor programme optional and (d) emphasizing the standard of Chinese and English languages. To this effect, appropriate revisions to the full-time and part-time undergraduate programmes are made. All the existing full-time undergraduate programmes will phase out in three years’ time and those of the part-time studies will become obsolete after five years.

Full-time Undergraduate Studies

The University endeavours to provide a wide variety of Major and Minor programmes to meet the various needs of society and its students. The major thrust of the past five years is the launching of the Faculty of Medicine in 1981 which offers a five-year professional programme leading to the degree of MB ChB. In September 1982, the Faculties of Science and Social Science introduced the Major programmes respectively in Statistics and Psychology. The Faculty of Business Administration also started to offer an Internship Programme in Accounting in 1984-85 to provide students an opportunity to receive practical training in the field.

Apart from the programme revisions in response to the curriculum review, the main development of the full-time undergraduate studies in the academic year 1986-87 is the introduction of an integrated BBA programme by the Faculty of Business Administration. This faculty-based integrated programme will replace the various Major and Minor programmes previously offered by individual departments of the Faculty, providing students a more balanced exposure to all business functional areas. At the same time, the Faculty will continue to offer the Professional Accountancy Programme for interested students who wish to develop in the profession.
**Part-time Undergraduate Studies**

The Part-time Degree Programmes, launched in 1981-82, are specifically designed for working adults aged twenty-three or above who had earlier in life missed the opportunity for university education. The four Part-time Degree Programmes offered are Business Administration, Chinese and English, Music, and Social Work. The programmes normally require six years to complete, although entry to upper years is allowed in certain cases. With the exception of the Social Work Programme, which also has a special day-release arrangement, the other programmes are offered in the evening.

**Postgraduate Studies**

Doctoral programmes of the University were first introduced in 1980-81. To date there are fifteen doctoral programmes. Master's programmes were first offered in 1966-67. With the introduction of the MPhil programmes in Biotechnology and Psychology, the MSc programme in Clinical Biochemistry and the Specialization MBA programme in Organization and Policy Studies in 1986-87, the total number of master's programmes has increased to thirty-nine.

**Finance**

Apart from fees which are comparatively low, the main source of income for recurrent expenses and capital equipment is the Hong Kong Government. In addition, the University and its constituent Colleges have small endowment funds at their disposal and also receive contributions from private donors and interested associations for scholarships, research and other designated purposes.

Negotiations between the University and the Government are conducted by the University and Polytechnic Grants Committee, established in 1965. This Committee advises the Government on the financial requirements of the University.

The total capital cost of buildings on campus amounts to HK$413 million at June 1985. Whereas the majority of the fund comes from the Government, the University also receives generous support from private donors which stands at HK$76 million at 1985, representing about 18% of the total capital cost.
Lands and Buildings

The University has under lease from the Hong Kong Government a tract of land measuring some 133.8 hectares located north of the Shatin New Town in the New Territories. The site overlooks the beautiful Tolo Harbour to the north and Tide Cove to the east.

The campus varies in elevation from 4.4 to 140 metres above sea level and was carved from a rocky promontory into four plateaux in the late sixties to provide the sites for buildings of the University and the three constituent Colleges. The central activities buildings are located mainly at the mid-level, with Chung Chi College at the lower level and New Asia College and United College at the highest level. The expanse of land in the valley next to the University Station of the Kowloon-Canton Railway has been the campus of Chung Chi College since 1956. United College and New Asia College moved from urban Hong Kong and Kowloon to their present sites in 1972 and 1973 respectively. Each of these Colleges has its own administration and teaching blocks, library, staff/student amenities building, student hostels and staff quarters.

Around the impressive tree-lined University Mall and the University Square, the following major central buildings cluster: the University Administration Building; the University Library; the Institute of Chinese Studies and the Art Gallery; the Sui-Loong Pao Building and the Pi-Ch’iu Building (two teaching blocks); the Y.C. Liang Hall (a lecture hall complex); the Sir Run Run Shaw Hall (a 1,500-seat multipurpose auditorium); the Science Centre Complex; and the Choh-Ming Li Building for Basic Medical Sciences.

Other buildings scattered at the periphery of Central Campus include the Benjamin Franklin Centre (an amenities building for staff and students); the Health Centre; the Sports Centre; the Li Dak Sum Building and Fung King Hey Building (both teaching facilities); the Fong Shu Chuen Building (a Chinese language centre); the Marine Science Laboratory; the Estates and Maintenance Building; the Postgraduate Hall Complex (a dormitory mainly for postgraduates); the guest houses and a Transport and Security Depot. And to the north disseminated down the hilly slopes stand many blocks of staff quarters.

In the last fifteen years, some seventy buildings have been erected on the once barren hillside. More recent additions include the Fung King Hey Building, an extension to the Basic Medical Sciences Building and the Hang Seng Hall which provides accommodation for 300 students.

Building projects under construction or active design comprise the School of Education Building, another academic building at the University Mall for Sciences facilities, an extension to the Institute of Chinese Studies building, a new staff/student centre at central campus,
and several premises for a new residential-type college (the Shaw College). Many utility and supportive services installations are in the course of being renovated or expanded whilst more teaching and amenities facilities are being planned to cope with the University’s projected development.

The Clinical Departments of the Faculty of Medicine are housed in the Clinical Sciences Building at the Prince of Wales Hospital, the regional hospital of Shatin, about eight kilometres from the main campus. An extension to the student hostel there is being constructed.

Residential Accommodation

The University provides a variety of accommodation for staff members, academic visitors and students.

Staff Housing
Staff quarters are allocated by the University to appointees who are eligible for staff housing. There are approaching 300 senior staff flats on campus in multi-storey apartment buildings plus some 100 flats for single teachers and other staff, and several blocks of quarters for minor staff.

The Inter-University Hall provides fully-furnished and self-contained accommodation for academic visitors coming to The Chinese University for periods of one to two years.

Guest Houses
The University operates three guest houses which provide room and board facilities for guests on short periods of stay in the University. The Yali Guest House, completed in 1974, is a gift from the Yale-China Association. The University Guest Houses I and II began operation in 1980.

Student Hostels
The University and its constituent Colleges operate a number of hostels for students who wish to live on campus.

The Postgraduate Hall Complex, consisting of Sir Cho-Yiu Hall, Lady Ho Tung Hall, and the Postgraduate Hall, provides 250 places for graduate students as well as 3rd- and 4th-year undergraduates. Chung Chi College has seven hostels: Ming Hua Tang, Wen Lin Tang, Ying Lin Tang, Hua Lien Tang, Theology Building, Madam S.H. Ho Hall and Wen Chih Tang. Together they accommodate a total of 784 students. At New Asia College, the Chih Hsing Hall, Xuesi Hall and Grace Tien Hall
can accommodate another 770. At United College, the Adam Schall Residence, Bethlehem Hall and Hang Seng Hall also have a combined capacity of 770.

With the exception of the Postgraduate Hall Complex which has 120 single rooms, most student hostels in general provide shared accommodation in the form of twin-bed rooms. They are available to all undergraduates except where specified. Because competition for residential places is very keen, interested students are advised to apply early to their respective College authorities.

In addition, the Faculty of Medicine operates the Madam S.H. Ho Hostel for Medical Students at the Prince of Wales Hospital at Shatin, the teaching hospital of the Faculty, to provide accommodation for senior Clinical students. It has a capacity of 100, which is being extended to 140.

Hostel fees range from HK$650 to $1,425 a term, depending on the type of accommodation. Special rooms for married students without children are available at HK$815 to $1,095 per month. Detailed information on hostel fees is listed on p. 257.

Liaison with the World of Learning

The University has since its inception in 1963 striven to enhance the cross fertilization of Chinese and Western cultural traditions. To this end, the University has over the years established and maintained connections with a large number of overseas bodies, including universities, institutes and centres of learning, governmental agencies, and in particular, with regional and international association of universities.

The University enjoys a close relationship with numerous overseas universities. Under an agreement drawn up in 1965, it arranges annually for an exchange of students and staff with the University of California. In recent years, the number of students in the two universities participating in the exchange has been around 20 each year. There are also student exchange programmes with New York University, the University of Missouri, Brown University and the University of Wisconsin-Milwaukee in America. Staff exchanges are also maintained with a number of French universities through the arrangement of the government of France, the majority of the outgoing staff members being China specialists. In Japan, a short-term staff visit programme with the Soka University and a student exchange programme with the Tsukuba University have been established. Beginning in 1982, further exchanges have taken place through the International Student Exchange Programme (Washington, D.C.), of which the University is now a member.

The University’s constituent Colleges, too, have cultivated links with certain universities abroad. New Asia has close relations with the Yale-China Association, Chung Chi with the Wellesley-Yenching Committee and the Princeton-in-Asia Committee, and United with Williams College and Indiana University. For the exchange of undergraduates/graduates, Chung Chi has special arrangements with Redlands
University, Washington and Lee University, International Christian University, Keio University and Soka University; New Asia with Asia University (Tokyo); and United with Williams College, Indiana University and Soka University.

In response to the growing demand of overseas students and scholars for Chinese and Asian studies, the University launched the International Asian Studies Programme (IASP) in 1977 in cooperation with the Yale-China Association. The Programme makes it possible for participants to take credit-earning courses on China and Asia taught in English and Chinese, as well as courses on Chinese language. So far over four hundred participants from twenty-two countries have joined the Programme. Owing to the growing of exchange programmes, the Office of the International Asian Studies Programme was renamed the Office of International Studies Programmes in 1985. It manages University exchanges and coordinates exchange programmes of the constituent Colleges, and continues to operate the International Asian Studies Programme. For details of admission to the Programme, see p. 251 of this Calendar.

The facilities at the University for international conferences and seminars have continued to attract scholars from far and wide. The Luce Scholars Programme administered by The Asia Foundation, for example, has been conducted in the University for several years. In recent years, the University has been the venue for many regional conferences or gatherings of international stature. Some of these were organized with local organizations, others were co-sponsored with institutions abroad including the United Nations Educational, Scientific and Cultural Organization, the Inter-University Consortium for International Social Development, the International Association of Schools of Social Work, the International Public Relations Association, the Association of Commonwealth Universities, the Josiah Macy Jr. Foundation in America, the International Development Research Centre in Canada, French National Centre of Scientific Research, the Association of Southeast Asian Institutions of Higher Learning, and the Southeast Asian Mathematical Society.

The international character of the University has been significantly enhanced by foreign government contributions to the language and literature instruction programmes. Visiting lectureships have been provided by the governments of France, West Germany, Italy and Japan for instruction in their respective languages, and many graduates of the University have obtained fellowships for advanced studies in these countries. In addition, the University has since its very early days benefited from grants from various foundations for staff development, research, scholarships and exchange programmes. These foundations include the Lingnan University Board of Trustees in New York, The
Asia Foundation, the Yale-China Association, the Harvard-Yenching Institute, the World Health Organization, the Leverhulme Trust and The Japan Foundation.

Cooperation with other universities has always been encouraged and maintained through various associations of universities. Today, the University is a member of the Association of Commonwealth Universities (ACU), the Association of Southeast Asian Institutions of Higher Learning (ASAIHL), and the International Association of Universities (IAU). It has also been closely associated with the Committee for International Co-operation in Higher Education (CICHE) in the United Kingdom.

Over the years, the University and its staff have developed academic links and research collaboration with many educational and research institutions in China. As a result of the recent open-door policy in China, such exchange activities have been stepped up considerably. Each year, the University received several hundreds of academic visitors from all parts of China, representing virtually every academic discipline. They participate in research work, give lectures and seminars and attend staff development courses. Formal exchange agreements have been concluded by the University or its individual departments with the Peking University, Tsinghua University and Academic Sinica in Beijing, the Hebei Academy of Sciences, the Northeast University of Technology in Shenyang, the Fudan University in Shanghai, the Zhongshan University, the South China Normal University in Guangzhou and the Nankai University in Tianjin. The University has also offered courses on international trade and management development for universities and Ministries of China. Teachers of the University have served as honorary professors, advisers and consultants for various Chinese institutions.
THE CONSTITUENT COLLEGES

With the reorganization of the University following the enactment of The Chinese University of Hong Kong Ordinance 1976, the Board of Trustees of the three original Colleges viz Chung Chi College, New Asia College and the United College of Hong Kong has been reconstituted. Duties are mainly concerned with the management of the movable property vested in the Board and of certain College buildings and, through fund-raising campaigns, the promotion of scholastic and cultural activities of the College.

An Assembly of Fellows chaired by the Head of the College assumes responsibility for making and implementing decisions on all other matters relating to the College.

With the expansion of the University, the facilities of the three original Colleges have reached almost maximum utilization level. The possibility of a fourth college was explored with a view to coping with the further development of the University. In January 1986, the University received a generous donation of HK$100 million from Sir Run Run Shaw, a long-time friend and benefactor of the University, for the establishment of the fourth college in the University. The University Council subsequently decided that the new college be named “Shaw College” and invited Sir Run Run to become its Patron. To give legal effect to such a development, ‘The Chinese University of Hong Kong (Declaration of Shaw College) Ordinance 1986’ was enacted in July this year. The new College is expected to receive its first students in 1988.

Chung Chi College

Chung Chi College was founded in October 1951 by representatives of Protestant churches in Hong Kong to meet the need for a local institution of higher learning that would be both Chinese and Christian. In 1955, it was formally incorporated under an Ordinance of the Hong Kong Government.

The College had a very modest beginning with only 63 students in the first year. It used borrowed and rented premises, first in the Cathedral Hall and St. Paul's Co-educational College, then in Caine Road and Lower Albert Road. Expansion was made possible by financial help from North America through the United Board for Christian Higher Education in Asia and the Trustees of Lingnan University and from Britain through the Asia Christian College Association. Local churches, firms and private individuals also gave considerable
support. In 1956 the College moved to its permanent site in the New Territories, in the beautiful Ma Liu Shui Valley. Between 1959 and 1963 the College received the bulk of its funds from the Hong Kong Government. In 1963 the College was incorporated as one of the three Colleges of The Chinese University of Hong Kong.

Theological Training
From 1957 religious education and theological training have been part of the academic programme of Chung Chi College. Since the establishment of The Chinese University of Hong Kong in 1963, training in religious studies has received government funds for teachers' salaries, while training of Christian ministers was, from 1963 to 1968, on an affiliated basis through the Chung Chi Theological Seminary. In 1968, the Seminary as such ceased to exist and its function was transferred to a new Division of Theology in the Department of Philosophy and Religion. The new Division, under a Theological Council, is financed independently by church gifts, but academically is a recognized part of the College and the University. Students enter by fulfilling the University’s entrance requirements, and University degrees are awarded to those who qualify. A small number of selected non-degree students are also trained, but with a separate curriculum.

Academic and Cultural Activities
The College spares no effort in fostering a cultural environment for staff and students. It organizes periodic seminars and staff-student get togethers to discuss topics of general and educational interest. Regular gatherings include the ‘College Life Committee Luncheon’, ‘Tolo Nocturne’ and the weekly assembly. The College also invites distinguished scholars to visit the College on a short-term basis to meet with staff and students to broaden their horizons. For this purpose, a ‘Siu Lien Ling Wong Visiting Fellows Programme’ has been established.

To encourage students' study and research, scholarships, grants, prizes, summer research assistance are offered, and exchange programmes with universities abroad are arranged.

Students and Extra-Curricular Activities
In academic year 1985-86 Chung Chi College had a student enrolment of 1,768, of whom 954 were men and 814 were women. Most of the students were born in Hong Kong, but a few of them are overseas Chinese. About one third of the students are Christians.
Student activities of all sorts are organized by the Chung Chi College Student Union and a host of student societies. Together they are responsible for the many cultural, athletic and extracurricular activities that serve to provide a social meeting ground for students from different hostels and different faculties.

New Asia College

New Asia College was founded in 1949 by its former President, Dr. Ch'ien Mu, and a small group of scholars from China. Their purpose was to preserve traditional Chinese culture and to balance it with Western learning so that students might at once have a thorough knowledge of their cultural heritage and be prepared to cope with the modern world.

The College began humbly in impoverished circumstances, but soon attracted support both locally and from overseas. Since 1954, it has had the cooperation and support of the Yale-China Association which had been active in educational development in China for many years.* It has also received support from other educational institutions and foundations, notably the Harvard-Yenching Institute, The Asia Foundation, the Rockefeller Foundation, the British Council, the Mencius Foundation, the Ford Foundation, and the Ming Yu Cultural Foundation, Hong Kong. As a grant College from 1959 to 1963, and now as a constituent College of the University, it has received generous financial support from the Hong Kong Government.

Academic and Cultural Activities

The cultural and academic activities of New Asia College are many and are held throughout the year. Distinguished international scholars are invited to visit the College under different programmes. They include the Ch'ien Mu Lecture in History and Culture Programme, the New Asia Ming Yu Foundation Professorship Programme, and the New Asia S.Y. Chung Visiting Fellows Programme. To increase scholarly and cultural interchange with various parts of the world, the College has also awarded faculty members the New Asia Ming Yu Research and Visiting Grants to enable them to present papers at international conferences or to pursue professional interest abroad. Prominent members of the local community are also frequently invited to talk to faculty and students on cultural or general topics at monthly dinner gatherings and biweekly assemblies.

Students and Extra-Curricular Activities

In academic year 1985-86 New Asia College had a student enrolment of 1,652, of whom 961 were men and 691 were women. Over 60% of the

* The Yale-China Association resumed activities in Changsha and Wuhan in 1980.
student population received scholarships, bursaries or other forms of financial assistance.

Extra-curricular activities form an important part of student life in the College and are freely organized by the New Asia College Student Union and a host of student clubs and societies. Students of the College are offered at least a year of hostel residence in their undergraduate years so that they may appreciate more deeply the value of mutual help and cooperation in community life.

**United College**

The United College was founded in 1956 by the amalgamation of five Post-Secondary Colleges (namely, Canton Overseas College, Kwang Hsia College, Wah Kiu College, Wen Hua College, and Ping Jing College of Accountancy) which decided to pool their resources so as to better provide higher education for local students. It was incorporated under an Ordinance of the Hong Kong Government in 1957 with a Board of Trustees as its governing body.

In 1962, the College Board of Trustees was broadened to include representation from the local community, and Dr. the Hon. Kenneth Ping-fan Fung was elected Chairman. In July 1962, Mr. T. C. Cheng, then Chief Assistant Secretary for Chinese Affairs, accepted the Board of Trustees' offer of appointment as President, and assumed office in January 1963. The United College became a constituent College of The Chinese University of Hong Kong in October 1963. Since then, the College has made rapid progress which is reflected by the rapid increase in enrolment, the improved quality of staff and students, as well as by a general enlivening in all aspects of college life.

In March 1971, foundation stones were laid for the five new buildings for the College in Shatin. Late in December in that same year, the College moved from the premises at Bonham Road to the new campus.

In May 1972, Sir Kenneth resigned from the Chairmanship of the College to take up his appointment as a member of the University and Polytechnic Grants Committee. He was succeeded by Dr. the Hon. P. C. Woo. In November 1983, Dr. the Hon. P. C. Woo resigned as Chairman of the College, following his appointment to the membership of the University Council. Sir Run Run Shaw, Deputy Chairman, was then elected Chairman, and the consequential vacant post of Deputy Chairman was filled by the Hon. Poon Wing-cheung, a Trustee of the
College. In October 1985, the Hon. Poon Wing-cheung resigned from the Vice-Chairmanship and the Treasurership of the College, to take up his appointment as the University Treasurer. He was succeeded by Dr. Ho Tim, a Trustee of the College, as its Vice-Chairman; and by Dr. Peter Chan Po Fun, also a Trustee of the College, as its Treasurer.

Academic and Cultural Activities
To develop a congenial cultural and intellectual environment for staff and students, the College introduced various schemes and a lecture series.

The College introduced in September 1978 the Ivory Tower Lecture Series on specialized topics after it had successfully organized tea discussions for a year. Speakers invited to lecture in the series include scholars and experts in various academic disciplines/professional fields of the University and from outside. In early 1979, the College initiated the ‘annual workshop’ scheme, providing an arena for interaction between students and staff.

Mainly financed by the College Endowment Fund, the Distinguished Visiting Scholar Scheme came into being in 1979. Scholars of international stature invited to lecture under this scheme include Professor C. N. Yang, Professor S. Schram, Professor Ezra Vogel, Professor Samuel E. Finer, and Professor Edward J. Lau.

The Resident Fellowship Scheme, also financed by the College Endowment Fund, was established in 1982 to enable scholars from the neighbouring countries of Hong Kong to visit the College to promote intellectual/community life on campus.

Students and Extra-Curricular Activities
In the academic year 1985-86, a total of 1,821 students were assigned to United College, of whom 1,201 were men and 620 were women. 909 students received interest-free loans and grants from the Government. Students received a total of 310 awards in the form of prizes, scholarships, fellowships and bursaries administered by the College and the University.

Inaugurated in 1963, the United College Student Union is a statutory body representing all the students of the College. Various student organizations are registered under the Student Union. They include faculty and department societies, non-residential halls and various interest clubs. Every year, students organize a wide range of activities, including academic, athletic and other social functions.
Shaw College

Shaw College is being built on 4.5 hectares of land at the northern part of the campus. Site formation work has already started and it is expected that most of the major buildings will become operational in two years' time. Like the three original Colleges, there will be teaching blocks, offices, reading rooms, computer laboratories, canteens, large lecture theatres as well as other amenities. Apart from undergraduates, student hostels in the new College will also accommodate postgraduate and exchange students. While organized in the same pattern as the three existing Colleges, Shaw College is expected to emphasize new disciplines being developed in the University such as engineering studies.

A Planning Committee has been constituted under the chairmanship of the Vice-Chancellor to work out details for establishing the new College. Members of the Planning Committee are: Professor Hsu Bay-sung (also as Deputy Chairman), Professor D.C. Lau, Dr. Ng Lee-ming, Dr. Richard Y.C. Wong, Mr. Vincent Chen and Mr. T.L. Tsim (also as Secretary). Meanwhile, the University has invited Dr. the Hon. Q.W. Lee, Dr. T.K. Ann, Mr. H.J. Shen and Mr. Louis Page to serve as advisers to the Planning Committee.
Part III
Programmes of Studies
FULL-TIME UNDERGRADUATE STUDIES

General Information
Starting from 1984-85, a new admission scheme became effective. Applicants can apply for admission to the first year courses leading to a Bachelor's degree of the University through either one of the three channels: Provisional Acceptance Scheme, Hong Kong Higher Level Examination and Hong Kong Advanced Level Examination or obtaining exemption under Sections II, III, IV and VII of the Regulations Governing Admission to Undergraduate Studies (Full-time). In addition to satisfying the entrance/exemption requirements mentioned above, applicants shall be required to satisfy the relevant Faculty Admission Requirements in Sections V and VI of the Regulations Governing Admission to Undergraduates Studies (Full-time) which are printed on pp. 327-330 of this Calendar.

The University's five Faculties of Arts, Business Administration, Medicine, Science, and Social Science offer a wide range of courses leading to the BA, BBA, MB ChB, BSc, and BSSc Degrees. Programmes of Studies leading to these degrees are printed on pp. 112-203. General Regulations Governing Full-time Undergraduate Studies and General Regulations Governing Undergraduate Medical Studies are respectively printed on pp. 331-360 and pp. 361-365 of this Calendar.

Major and Minor subjects offered by the Faculties are as follows:

Faculty of Arts

Faculty of Business Administration

For students admitted in 1986-87 and thereafter: Integrated Business Administration.

Faculty of Medicine
The faculty offers no Major/Minor programmes but a single professional undergraduate course in Medicine.
Faculty of Science
Biochemistry, Biology, Chemistry, Computer Science, Electronics, Mathematics, Physics, and Statistics.

Faculty of Social Science

A student who satisfies the conditions for graduation shall be awarded a Bachelor's degree with one of the following classifications: First Class Honours, Second Class Honours Upper Division, Second Class Honours Lower Division, Third Class Honours and Pass. For students admitted before 1986-87, the Bachelor's degrees (except MB ChB) are awarded on the basis of results obtained in the Degree Examinations taken at the end of the third and fourth years. With the abolition of degree examination system, for students admitted in 1986-87 and thereafter, honours assessment shall be based on the four-year grade point average and also results of the Comprehensive Examination or its equivalent. The MB ChB Degree, however, is awarded on the basis of Professional Examinations taken at the end of the Second Pre-clinical year and each of the three Clinical years.

Curriculum Structure
The normal length of studies for a full-time programme is four years with the exception of Medical Studies and some professional programmes which have prescribed otherwise. A first-year student is admitted on a Faculty basis and upon successful completion of the first year will be admitted to a Major programme.

The curriculum structure (except Medical Studies) is based on a combination of credit unit system and degree examination system since the inception of the University. After a two-year comprehensive curriculum review, the Senate ruled that a new curriculum structure be adopted for students admitted in 1986 and thereafter. The main thrusts of the new structure are to: (a) abolish the degree examination system, (b) strengthen the General Education programme, (c) make the Minor programme optional, and (d) raise the standard of Chinese and English languages.

To this effect, appropriate revisions to the undergraduate programmes have been made. All the existing full-time undergraduate programmes will be phased out in three years' time. In the meantime, both structures will be in operation. A comparison of the old and new structure is presented below.
New Structure
For graduation, a student shall successfully complete 120 units of courses and shall normally take no less than 12 units but no more than 18 units in any teaching term. He is required to sit for course examinations at the end of each term. If Comprehensive Examination or Graduation Thesis/Project is prescribed by a Major programme, the student shall take it at the end of the fourth year.

The 120 units of courses shall include:
(a) General Education (18 units),
(b) General Chinese (6 units unless exempted),
(c) General English (6 units unless exempted),
(d) Physical Education (2 units)
(e) Faculty required courses (0-15 units),
(f) Major programme (normally 60-72 units),
(g) Minor and/or elective courses (the remaining units).

A student who opts to take a Minor programme shall formally register for his Minor subject, preferably in the second or third year. A Minor programme normally requires 18-30 units of courses. If approval has been obtained from the Major and Minor departments concerned, a student may elect two minor subjects provided that the total number of units of the Major and the two Minor programmes does not exceed 102 units.

The programmes under the new curriculum structure offered to students admitted in 1986-87 and thereafter can be found in pp. 112-157 of the Calendar.

Old Structure
A student shall successfully complete before graduation at least 120 units of courses and shall normally take no less than 12 units and no more than 21 units of courses in any teaching term. He is required to pass in the Part I and Part II Degree Examinations held respectively at the end of the third and fourth years.

The 120 units of courses shall include:
(a) General Education (11-15 units),
(b) General Chinese (6 units unless exempted),
(c) General English (6 units unless exempted),
(d) Physical Education (2 units),
(e) Faculty required courses (0-15 units),
(f) Major programme (normally 54-70 units),
(g) Minor programme (normally 18-30 units); and
(h) elective courses (the remaining units).

Students majoring in Biochemistry, Chemistry, Electronics, Mathematics and Statistics may, with a reduced Major programme,
choose to take a double minor upon prior approval of the Major
department.

The programmes following the old curriculum structure offered to
students admitted before 1986-87 can be found in pp. 158-203 of this
Calendar.

Medical Studies
The Faculty of Medicine offers a single non-unit-based professional
programme consisting of two Pre-clinical years and three Clinical years
of study. A medical student shall normally enter the Science Faculty as
Potential Medical Major and be admitted formally to the Medical
Faculty in the next year. Besides taking the professional courses
required by the Faculty, the student shall also complete in compliance
with University requirements the General Education Programme,
General Chinese and General English Programmes (unless exempted)
and Physical Education programme.

A Medical student shall pass both the Professional Examinations
and periodic assessment of individual subjects for admission to a
Bachelor’s Degree. The First and Second Professional Examinations will
be held respectively at the end of the second Pre-clinical year and the
first Clinical year. The Third Professional Examination consists of parts
I and II, to be taken at the end of the second and third Clinical years
respectively. The three Clinical years of study will have classes held at
the teaching hospital in Shatin in the various Clinical Departments.
The student is also required to serve one year’s internship at a recogniz-
ed hospital after graduation.

The programme of the Medical Faculty can be found in
pp. 131 and 177 of this Calendar.

Programmes

Explanatory notes on Course Codes
Letters of the alphabet stand for the subjects (e.g. CHI, ENG, BIO,
stand for Chinese, English and Biology respectively).

The first Arabic numeral stands for the years of study in which the
course is to be taken (1=1st year, 2=2nd year, 3=3rd year, 4=4th year,
5=1st year, Graduate School, 6=2nd year, Graduate School); and the
course code starting with 0 stands for Student-orientated Teaching with
its second Arabic numeral standing for the year of study in which the
course is to be taken. Normally, first year courses are introductory
courses for potential Major students; second year courses are basic
courses for Major study; and third and fourth year courses are upper
division courses. However, for the sake of flexibility, most courses are
also open to students of other years.
Explanatory Notes on Signs Used

A ‘†’ Sign before a course code stands for core course, which may be a core required or a core optional course.

A ‘‡’ sign before a course code stands for a required course.

A ‘*’ sign before a course code denotes that the course is not offered in the academic year 1986-87.
Programmes for students admitted in 1986-87 and thereafter.

GENERAL EDUCATION

The General Education programme is designed to broaden the interests of students, give them a wider perspective, and cultivate in them the ability to face the issues of contemporary life. The challenge of rational inquiry, discussion and personal commitment is also emphasized. Besides the common/required courses, students may, over their four years of study, elect from a wide range of courses as offered by their College. The General Education programme of each College normally totals 11-15 units, not including Physical Education. First year students should not take more than a total of five units.

PHYSICAL EDUCATION

(Same as for students admitted in 1986-87 and thereafter. See pp. 156 of this Calendar)
PART-TIME UNDERGRADUATE STUDIES

General Information
The University offers four part-time degree programmes (pp. 206-218); Business Administration, Chinese and English, Music, and Social Work, leading to the BBA, BA and BSSc Degrees. General Regulations Governing Part-time Undergraduate Studies are printed on pp. 376-404 of this Calendar. In 1985-86, the Music Programme admits students to the first and fourth years; and the Social Work Programme admits students to the first, third and fourth years. The other two Programmes admit students to the first year only. Eligibility for admission is conditional upon fulfilling entrance requirements or obtaining exemption therefrom in accordance with Section 2.0 of the General Regulations Governing Part-time Undergraduate Studies. Degrees are awarded on the same basis as those of the full-time programmes described in pp. 108.

Curriculum Structure
The normal length of study of a part-time programme is six years, with three terms in each year. Beginning 1986-87, the Business Administration, Chinese-English and Music Programmes will consider permitting first-year entrants of that year and thereafter to follow a faster pace of study and graduate in five years subject to the fulfilment of the prescribed requirements.

For graduation, a first-year entrant shall complete at least 120 units of courses. As the University adopts with effect from the first-year intake of 1986-87 a credit unit system in its undergraduate curriculum in which course assessment will be greatly strengthened, first-year entrants of that year and thereafter will not sit for a Degree Examination at the end of a programme. However, students who were admitted before 1986-87 are still required to take the Degree Examination at the end of the fourth, fifth and sixth years.

Apart from completing requirements of the major subject, students are also required to take language and general education courses and/or elective courses in other disciplines. (Please also see Curriculum Structure of the full-time programmes in pp. 108-110.)
Programmes

Explanatory Notes on Course Codes
To distinguish Part-time Degree Programmes from their full-time counterparts, 'P' is always used as the third alphabet in the course code. The other two letters are to stand for the subject (e.g. BAP, CHP, ENP, MUP, SWP for Business Administration, Chinese, English, Music and Social Work.)

The first Arabic numeral stands for the year of study in which the course is to be taken (1=1st year, 2=2nd year, 3=3rd year, 4=4th year, 5=5th year, 6=6th year). Normally, first, second and third year courses are introductory and basic courses in a programme and fourth, fifth and sixth year courses are upper division courses. However, for the sake of flexibility, most courses are also open to students of other years.

Explanatory Notes on Signs Used
A '+' sign before a course code stands for core course (required or optional).

A '*' sign before a course code denotes that the course is not offered in the academic year 1986-87.
## General Chinese and General English

All students other than those of the Chinese-English Programme are required to take in the first two years six units each of General Chinese and General English unless exempted.

## General Education

The General Education programme is designed to broaden the interests of students, give them a wider perspective, and cultivate in them the ability to understand the major issues of contemporary life. The challenge of rational inquiry and discussion is also emphasized. These courses are an important part of university education.

1 Only offered to 4th, 5th and 6th year students of 1986-87
POSTGRADUATE PROGRAMMES OF STUDIES

The University first introduced programmes at the postgraduate level with the establishment of the School of Education in 1965. In the following year, the Graduate School was formally founded to undertake research training of graduate students leading to the award of Master's degrees. In 1980, the University advanced into the realm of doctoral education.

The Graduate School at present offers instructions through twenty-eight Graduate Divisions.

In the current academic year, the Doctor of Medicine (MD) Programme and postgraduate programmes leading to the degree of Doctor of Philosophy (PhD) in the field of Basic Medical Sciences, Biochemistry, Biology, Chemistry, Chinese History, Chinese Language and Literature, Chinese Philosophy, Clinical and Pathological Sciences, Economics, Electronics, Marketing and International Business, Mathematics, Physics and Sociology are offered. For a PhD degree, a full-time student shall normally spend a minimum of three years (or two years for one holding a Master's degree in a closely related field) and a maximum of seven years. A part-time student shall normally spend a minimum of four and a maximum of eight years. General Rules for Postgraduate Studies Leading to the Degree of Doctor of Philosophy are printed on pp. 418-424 of this Calendar.

Four types of programmes leading to the award of Master's degrees are offered: (1) two-year full-time programmes leading to the award of the degrees of Master of Philosophy (MPhil), Master of Business Administration (MBA), Master of Divinity (MDiv) or Master of Social Work (MSW); (2) one-year full-time programmes leading to the award of the degrees of Master of Arts (MA) or Master of Science (MSc), (3) three-year part-time programmes leading to the award of MPhil in Basic Medical Sciences, Clinical and Pathological Science or Master of Business Administration (MBA) or Master of Social Work (MSW) and (4) two-year part-time programmes leading to the award of Master of Arts (MA) and Master of Science (MSc).

Courses on education are conducted by the School of Education established in 1965 to provide professional training for graduates of approved universities to serve in local secondary schools. The School offers (1) a one-year full-time course and a two-year part-time course leading to the Diploma in Education (DipEd), and (2) a one-year full-time and a two-year part-time programme leading to the degree of Master of Arts in Education (MA (Ed)).
Persons who have graduated with good honours degrees from recognized universities and who have the capacity for research may apply for admission to the above postgraduate programmes. General Regulations Governing Postgraduate Studies are printed on pp. 302-314 of this Calendar.

Business Administration

The University offers two types of postgraduate programmes leading to the degree of Master of Business Administration (MBA): (1) a two-year programme (full-time), and (2) a three-year programme (evening).

The two-year Programme had previously been operated by the Lingnan Institute of Business Administration established with substantial initial financial support from the Lingnan University Board of Trustees in New York in 1966. The three-year Programme was launched in 1977 with generous financial support from the local business community. In February 1981, the name “Lingnan Institute of Business Administration” was replaced by “the Division of Business Administration of the Graduate School” which is responsible for both the two-year and the three-year Programmes.

The major objective of the MBA Programmes is to prepare men and women for responsible administrative and executive positions in business, Government and other organizations. The three-year Programme, which is conducted in the evening in town, is designed to provide practising managers with the opportunity to learn new concepts of business management without interruption of their careers.

Under the Two-Year MBA Programme, there are three programmes of studies: a General Programme, a Specialization Programme in Marketing and International Business and a Specialization Programme in Organization and Policy Studies. Admission to the General Programme is open to graduates of recognized colleges and universities, both in Hong Kong and abroad, who hold a Bachelor's degree in any field of study, or to those who have professional or similar qualifications equivalent to a degree. Admission to the Specialization Programmes is open only to holders of bachelor's degrees in business administration. Undergraduates who expect to receive their Bachelor's degrees in the current academic year may also apply for admission to the Two-year General/Specialization Programme.
Qualifications for admission to the Three-Year MBA Programme is identical with that of the Two-Year General Programme except that applicants are also required to have at least three years of full-time work experience after obtaining their Bachelor's degrees or recognized professional qualifications.

**Two-Year MBA Degree Programme**

**General Programme**
Completion of the two-year curriculum usually takes four semesters in full-time residence. Each student must complete a minimum of 54 credits in order to graduate. A student who is allowed to waive one or more of the core courses must take substitute courses to meet the 54-credit graduation requirement.

Second year courses include Organizational Behaviour, Business Systems II, Business Systems III and three elective courses. Students are also required to complete either a Master's Thesis or a Business Research Report plus the Business Research Methods course.

**Specialization Programme in Marketing and International Business**
Completion of the two-year curriculum usually takes four semesters in full-time residence. Each student must complete a minimum of 54 credits in order to graduate.

Students are required to complete 18 credits of core courses and/or functional seminars, 9 credits of integrative courses, 3 credits of elective courses and 18 credits of specialized courses in Marketing and International Business. They are also required to complete a Master's Thesis or a Business Research Report plus the Business Research Methods course.

**Specialization Programme in Organization and Policy Studies**

SCHOOL OF EDUCATION

Programme Leading to Diploma in Education

The School of Education was established in 1965 to provide professional training for graduates of recognized universities to serve in local secondary schools. Programmes offered by the School cover a broad spectrum of teacher education and aim at developing professional competence in teaching. The up-to-date teaching facilities of the School include a language laboratory, a science laboratory, a counselling laboratory, an instructional materials unit, an audio-visual workshop and an educational technology unit equipped with a close-circuit system.

The School offers the following programmes:

1. Programmes leading to the Postgraduate Diploma in Education:
   - One-year Full-time Programme — a pre-service secondary school teachers training programme.
   - Two-year Part-time Evening Programme — an in-service secondary school teachers training programme.

2. Programmes leading to the Degree of Master of Arts in Education (MA(Ed)).
   (See pp. 236-237 of this Calendar.)

Applicants for the Diploma in Education programme should be graduates of recognized universities and those who wish to apply for the two-year part-time programme must be, in addition, serving secondary school full-time teachers. In very special cases, applications from educational workers in related fields with very strong and valid grounds may also be considered.

The programme includes the following courses:
- Subject Curriculum and Teaching with micro-teaching: Major Teaching Subject
- Educational Thought
- Sociology of Education
- Psycho-social Development of the Adolescent
- School Guidance
- Psychology of Learning and Teaching
- Evaluation and Test Construction (Elective)
- Educational Communications and Technology (Elective)
- Subject Curriculum and Teaching: Minor Teaching Subject (Elective)
School Administration (Elective)
Educational Research and Statistics (Elective)
Extracurricular Activities (Elective)
Education in China (Elective)
Health Education (Elective)
Adult Education (Elective)
Effective Teaching in the Medium of English (Elective)
Individual Project (Elective)

In addition to course work, full-time students are required to complete an eight-week (normally 15 sessions per week) supervised practice-teaching assignment in secondary schools; whilst part-time students, who are already in-service teachers, will teach under supervision at their own schools.
INTERNATIONAL ASIAN STUDIES PROGRAMME

In keeping with the University's distinctive educational mission of promoting cultural exchange between East and West, an International Asian Studies Programme was launched at the University in 1977 with the support of the Yale-China Association. This Programme is open to a selected number of students, research scholars and academic staff from overseas who wish to take advantage of the University's academic resources and research facilities in the broad area of Chinese and Asian studies, including the Chinese language training programme offered by the New Asia – Yale-in-China Chinese Language Centre.

The International Asian Studies Programme is fully integrated into the regular academic structure of the University, under the Office of International Studies Programmes. Programme participants from overseas and local students live in the same hostels. Some courses in Asian and Chinese studies are taught in English for the benefit of both programme participants and local students. Courses given in Chinese at the University are open to those programme participants who have the language competence to benefit from them.

There are three categories of participants: (1) associate students: undergraduates and graduate students taking a full load (12-18 units per term) of language and area studies; (2) research students: graduate students primarily undertaking research or writing their masters' theses or doctoral dissertations; and (3) special scholars: academic staff members or other learned scholars, normally of post-doctoral status, pursuing research, refresher or advanced courses.

Programme fees and financial aid for participants are respectively printed on p. 257 and p. 279 of this Calendar.

The Programme is a yearly programme (September to April). Application for single term participation are subject to availability of places. SCHOLARSHIPS AND FINANCIAL AID TO STUDENTS

To help needy students meet part of the cost of their university education, the Government has made provisions for grants and interest-free loans through the Joint Committee on Student Finance. In academic year 1985-86, a total of 31 million dollars were allocated to 49% of the student population, who depended on this scheme for financial support. The University and its three constituent Colleges also administer their own scholarships, bursaries, loans and campus work schemes. As a form of recognition of the academic endeavours of the part-time undergraduates and to help the needy ones to defray part of the cost of their university education, the University has established especially for them a number of scholarships and interest-free loans as from the 1985-86 academic year.

Part V
Research Units and
University Extensions
RESEARCH INSTITUTES AND CENTRES

The University is directly responsible for providing faculty members with research facilities so as to enable them to keep up with the latest developments in their own fields and to contribute to them. For this purpose the University has established three Institutes, namely, the Institute of Chinese Studies, the Institute of Science and Technology, and the Institute of Social Studies.

Institute of Chinese Studies

The Institute of Chinese Studies was established in 1967 on the basis of a broad but unified concept of Chinese studies. It includes what is traditionally identified as Sinology, but emphasizes the application of scientific methodology, characterized by quantitative and comparative approaches, and the use of experimental methods wherever possible.

The objectives of the Institute are: to promote Chinese studies by serving as an international centre capable of effectively assisting other academic and research institutions and scholars in this field, and maintaining continuing communication and cooperation with them; to provide interested local and visiting academic members of the University with training facilities as an aid to teaching and research; and to encourage the exchange of knowledge and experience in Chinese studies through publications, academic conferences and research seminars.

Under the Institute of Chinese Studies are the Art Gallery, the Centre for Chinese Archaeology and Art, the Ng Tor-tai Chinese Language Research Centre and the Research Centre for Translation. Each of these units is responsible for the promotion of research in its own field. The Institute also provides grants to support research undertaken by members of the University, regularly sponsors seminars, and invites research fellows and visiting scholars from abroad to give lectures in their specialization. The Reference Library of the Institute, including the collection of the late Mr. Wong Pao-hsie, contains some 32,000 volumes of books and 160 titles of periodicals.

The Institute publishes annually a volume of The Journal of the Institute of Chinese Studies of The Chinese University of Hong Kong. More recently, the various units under the Institute have been issuing their own monograph series, studies series and other academic publications.
Art Gallery

The Art Gallery, established in 1971, serves both as a teaching museum for the Fine Arts Department and as a centre of research on Chinese art and archaeology. As an active gallery which mounts special exhibitions of Chinese art at regular intervals, it also provides a valuable service to the community of art enthusiasts in Hong Kong.

Apart from the general collection for teaching purposes, the Art Gallery houses a photographic archive and several important research collections of Chinese art and antiquities. Notable amongst the latter are a collection of 1,300 paintings and calligraphy by Guangdong artists and scholars dating from the Ming to recent periods, over 300 bronze seals of the Warring States to Han periods, more than 400 pieces of Chinese jade flower carvings, about 1,200 rubbings of ancient inscriptions and a comprehensive collection of Chinese ceramics.

The Art Gallery published fully illustrated catalogues to accompany the special exhibitions. In addition, studies on the Art Gallery collections and related research topics are published as monographs.

The Art Gallery has a Conservation Annex which provides technical support for the Gallery. This includes the restoration and conservation of work of art, the mounting and restoration of Chinese paintings; woodwork and photographic services. Recently a Yeung Shui Sang Laboratory for Thermoluminescence Research in Ancient Chinese Ceramics has also been set up under the joint auspices of the Art Gallery and the Physics Department to do research and render service in ceramics dating.

Centre for Chinese Archaeology and Art

This Centre was established in 1978 to undertake research projects in Chinese Archaeology and Art. The purpose is to pool the resources of the Art Gallery and the Departments of History and Fine Arts together, laying a solid foundation for research in this field, and to promote cooperation with museums and universities abroad in research programmes. A computerised database of the publications and Data Archives on the subject is being compiled and already in service. The Centre has also been issuing (I) Publication Series, (II) Monograph Series, (III) Studies Series, and (IV) Bibliographical Series.

The Ng Tor-tai Chinese Language Research Centre

The Centre has its origin in the Chinese Linguistics Research Centre, first established in 1966. It was enlarged in early 1979 under the name of Chinese Language Research Centre, and in 1980 it was renamed The Ng Tor-tai Chinese Language Research Centre.
The main objective of the Centre is to engage in comprehensive research on the Chinese Language, including such fields as the Chinese script, pronunciation, grammar and vocabulary, and to make available to the public in general and teachers of Chinese in particular the results of its research in the hope that this will contribute towards the raising of the standard of Chinese Language teaching in Hong Kong.

**Research Centre for Translation**

In 1971, a Centre for Translation Projects was established with a grant from The Asia Foundation. It was renamed Research Centre for Translation in 1983 as a result of reorganization. The Centre has concerned itself with research and publication involving English-Chinese and Chinese-English translation.

In translating from Chinese into English, the Centre concentrates mainly in the areas of literature, history and philosophy. A continuing vehicle for this is the English-language journal, *Renditions*, published semiannually since 1973. Included in the Centre’s projects are a series of *Renditions Books*, of which twelve titles have been published since 1976. The English-Chinese portion of translation work concentrates on standard works related to the social sciences and the humanities; ten titles have been published since 1972. To strengthen studies in translation, the Centre is introducing a *Renditions Paperbacks* series.

In recent years, the Centre has established exchanges and cooperation with major research institutions in China, which has led to collaboration with the Research Centre for Translation at Nankai University, Tianjin, China on a computer-based bibliographic project, “Index of Translations”. The index covers translations in the humanities and social sciences between the Chinese and English languages. At the same time, the Centre is providing editorial assistance to an English language journal on translation published under the auspices of The Research Centre for Translation of Nankai University.

**Institute of Science and Technology**

The Institute of Science and Technology was established in 1965 for the purpose of promoting interdisciplinary research in the Science Faculty with particular emphasis on projects with long-term regional significance or applied value. It is also an important vehicle of the University for co-operation in scientific research and consultation with industries, government departments and other universities.
Chinese Medicinal Material Research Centre

The Research Centre has its origin in the Research Unit on Chinese Medicinal Material which was established in 1975. It was enlarged in 1979. Research personnel come from Biochemistry, Biology, Chemistry, Pharmacology, Physiology and other departments. The basic objective is to undertake laboratory investigation of certain rationally selected Chinese medicinal herbs in order to evaluate their true therapeutic value on a scientific basis. The Research Centre has received local support for the establishment of a Chinese Medicine Research Fund and an interdisciplinary Research Laboratory was completed in 1984.

In 1980, a partnership agreement was made with the IBM to computerize an enormous amount of information on Chinese medicines. This will facilitate cross reference, retrieval and link-up with Western computerized medical and scientific data base. The first stage of this project was completed by the end of 1982, establishing a unique computerized data base on Chinese medicines. Abstracting information from current Chinese scientific journals in this field is in progress. An international quarterly journal in English entitled Abstracts of Chinese Medicines (ACME) will be published beginning from July 1986.

In 1985, a research grant totalling HK$6,047,000 for three years was awarded to the Research Centre by the Hong Kong Jockey Club on a cardiovascular/tranquilizer research project based on strong clinical evidence of using Chinese herbs.

Institute of Social Studies

The Institute of Social Studies was established in September 1982. It consists of two research units, namely, the Centre for Hong Kong Studies and the Centre for Contemporary Asian Studies.

The Institute's overall objective is to promote and coordinate interdisciplinary studies on socio-political and economic development in Hong Kong and other Asian societies. Participating in the research activities of the Institute are mostly teaching staff in the fields of social science, business administration, education and languages studies. A policy of the Institute is to provide research opportunities for teaching staff so as to help integrate research and teaching at the University. Moreover, since the teaching departments might be primarily interested in research along a single disciplinary line, another policy of the Institute is to promote research collaborations among different departments and faculties. To implement these policies, the Institute and its two Centres, besides organizing empirical research, also sponsor monograph series, workshops and symposia.
Centre for Hong Kong Studies
Major activities include building a computerized system of social and economic indicators, developing interdisciplinary research programmes on major and urgent social problems, analysing political developments, conducting selected investigations on factors that impinge upon Hong Kong’s economic performance, evaluating existing public policies and devising alternative policy instruments. In all these activities, the application of social scientific knowledge to the solution of practical problems is underscored.

Centre for Contemporary Asian Studies
The major objectives are to promote and to coordinate interdisciplinary studies of Asian countries, especially China and East Asian countries. Currently, the Centre sponsors seven research programmes, i.e. Chinese Law Programme, Overseas Chinese Archives, China’s Open Policy and Special Economic Zones Programme, China’s Special Economic Zones Data and Research Unit, Chinese Economic Research Programme, Chinese Population Programme and Chinese Society Programme. In addition, the Centre currently sponsors sixteen individual research projects conducted by teaching and research staff on campus. It serves as a bridge between overseas scholars of Asian studies and the teaching and research staff of the University.
DEPARTMENTAL RESEARCH UNITS

Comparative Literature Research Unit
First established as a Division of the Comparative Literature and Translation Centre in 1978, the Comparative Literature Research Unit has become affiliated to the Department of English since 1983.

The Unit also engages in cooperative projects with scholars from other institutions locally and abroad, in order to focus attention on areas of mutual interest.

Psychiatric Epidemiology Research Unit
The Psychiatric Epidemiology Research Unit was established under the Department of Psychiatry in April 1981 with a grant from the Keswick Charity Foundation. Its primary goal is to study the frequency and distribution of psychiatric morbidity in the Shatin District, both cross-sectionally and longitudinally. Information generated will provide a better understanding of the characteristics of mental illnesses in a Chinese community and help to develop reliable rating scales for Chinese, establish a psychiatric morbidity register for the Shatin District, and evaluate local psychiatric services.

Following a pilot study of methodology for community survey in Taipo, the Research Unit is at present carrying out a large-scale community psychiatric survey in Shatin, which is within the defined catchment area of the Prince of Wales Hospital where both the Department and the Unit are housed.
Hung On-To Research Laboratory
The Hung On-To Research Laboratory has its origin in the Hung On-To Research Centre for Machine Translation first established in 1978. It was renamed in 1982 and placed under the Department of Computer Science. The main objectives of the Research Laboratory are to study the translation of natural language by computational techniques and to develop a computer-based Chinese information processing system. The facilities provided in the Research Laboratory include a PDP 11/34 computer system, a microcomputer development system and several microcomputer systems designed and built by the Research Laboratory for Chinese information processing research.

Marine Science Laboratory
The Marine Science Laboratory, established in 1970 as a research centre for advanced studies in marine science, is under the supervision of the Department of Biology. The present research emphasis is on the physiology of marine organisms, especially of fish and shrimps, in relation to mariculture.

The Laboratory is equipped with a physiology laboratory, an air-conditioned aquarium, a hatchery house with six enclosed tanks (13 m² x 2, 11 m² x 2, 4 m² x 2), four large outdoor tanks (26 m² x 2, 40 m² x 2) and fourteen smaller tanks, and a speed boat (5 m).

Research Laboratory for Food Protein Production
The Research Laboratory for Food Protein Production, under the Department of Biology, aims at the production of high quality food protein from wastes and achieving pollution control simultaneously through interdisciplinary research cooperation. There are two main streams of research: (1) the production of food protein from sewage wastes by intensive aquaculture through successive steps in the food chain of algae, shrimp, fish, etc. and through vegetable crop production from sewage sludge; (2) the production of straw mushroom and other edible mushrooms from cotton wastes, sawdusts and used tea leaves. In addition, the protoplast-based techniques for genetic manipulations in microorganisms have also been developed.

The Yeung Shui Sang Laboratory for Thermoluminescence Research in Ancient Chinese Ceramics
The Yeung Shui Sang Laboratory for Thermoluminescence Research in Ancient Chinese Ceramics, under the Art Gallery and the Department of Physics, is established in 1986 with the generous donation of the Yeung’s brothers.
The Laboratory aims at researching and refining the methods of thermoluminescence dating of ancient ceramics on the one hand and extending the thermoluminescence dating service on a certificate-issuing basis to the public on the other.

Statistical Consulting Services Unit (SCSU)

The SCSU is a consulting unit established in 1984 and being operated under the umbrella of the Department of Statistics. Its objective is to encourage the proper use of statistical methodology and to provide a channel, whereby statistical expertise may be made available to colleagues on campus and to outside organizations. Statistical areas in which consultation may be provided include data analysis, design of experiments, analysis of categorical data, medical statistics, multiple logistic regression, social and business statistics, structure equation models, regression analysis, quality control and time series analysis.

New Asia -- Yale-in-China
Chinese Language Centre

The New Asia -- Yale-in-China Chinese Language Centre offers courses designed primarily for non-native speakers of Chinese. Founded in 1963 under the joint auspices of New Asia College and the Yale-China Association, the Centre became a part of the University in 1974.

Every year over two hundred students from different parts of the world are admitted to the Language Centre. These students range from absolute beginners to trained sinologists who wish to polish their spoken Chinese or learn a Chinese dialect. Courses are offered at all levels so that any student can find training which suits his needs. The Language Centre also regularly teaches Mandarin to hundreds of local Cantonese-speaking residents, including students of The Chinese University. The faculty of the Language Centre prepares a significant portion of their own teaching materials and audio-visual aids for the students, Chinese and foreigners alike.

Courses offered by the Language Centre follow a two-term and a summer session system, each term lasting fifteen weeks and the summer session ten weeks. Students may register for admission in any term. There are beginners courses at the beginning of each term. The intensive programme of fifteen hours of classroom instruction per week constitutes the maximum course load. Students may also register for six or nine hours, depending on the courses being offered in any one term. The maximum class size is eight students, while most classes average
between four and five. In exceptional cases, private tutorials are available. Tuition fees for Language Centre courses are printed on p. 256 of this Calendar.

The Language Centre has a full complement of tapes for teaching purposes. Language laboratory facilities are available.

The Language Centre gives credits according to the American system and issues grades and transcripts. Courses taken at the Centre have been recognized by major universities for degree credit. For students from institutions not using the credit system, transcripts are prepared in sufficient detail to present a clear picture of the work accomplished by each student.

Copies of an information brochure are obtainable free on request. All correspondence should be addressed to the Director, New Asia -- Yale-in-China Chinese Language Centre, The Chinese University of Hong Kong, Shatin, New Territories.

The Library System

The University Library System, introduced in 1963 with the establishment of the University, coordinates the collections and services of the University Library (founded 1963) and the branch libraries: the Chung Chi College library (founded 1951), the New Asia College library (founded 1949), the United College library (founded 1956), and the Medical library (founded 1981). The administration of the University Library System is centralized under the University Librarian. Borrowing privileges are extended to all members of the University.

The University Library, which started operation in rented premises in Kowloon, was accommodated temporarily in the Benjamin Franklin Centre from 1969, and moved into the spacious new library building in 1972. This five-storey building, which has a floor space of 7,993 square metres, can house over 400,000 volumes of books and accommodate 500 readers. It is one of the most modern academic libraries in East Asia, fully equipped with the usual study rooms and carrels for readers, conference and seminar rooms, an audio-visual room, a photographic laboratory, microfilm facilities, a rare book room and a book bindery.

The University Library is primarily a reference and research library for the use of staff and students of the University and visiting scholars. The branch libraries at the three Colleges are basically undergraduate libraries but each has some unique features. Elisabeth Luce Moore Library of Chung Chi College holds strong collections in music and in religious studies. Ch’ien Mu Library of New Asia College houses good collections in Chinese literature, fine arts and philosophy. Wu Chung Library of United College has a Hong Kong Collection as well as a notable Modern Drama Collection. Medical collections are housed in two different locations, with the pre-clinical materials in the University Library and the clinical materials in the Li Ping Medical Library, which is a part of the teaching hospital complex in the Shatin New Town. The Medical Library also offers audio-visual services to the Faculty of Medicine.

All acquisitions and cataloguing activities are carried out in the University Library, which maintains a union catalogue of the holdings of the entire System. The holdings of the University Library System as of 30th June, 1986 are:
Books and bound volumes of periodicals 446,624 447,175
Current journal titles 2,117 4,424

Large sets of Chinese classical books in the traditional format of silk-stitched fascicles, as well as many important journals for Chinese studies in both Oriental and Western languages, have been acquired for research purposes. The Western language collection is also growing steadily stronger, particularly in bibliographic and reference materials.

In 1977, the University Library System began to publish its Bibliographical Series. The following seven numbers have so far been published, covering aspects of both the collections of the System and Hong Kong publications: *Union Catalogue of Serials* (1977); *Union Catalogue of Audio-Visual Materials* (1979); *An Annotated Guide to Serial Publications of the Hong Kong Government* (1979); *Serials of Hong Kong, 1845-1979* (1981); *Newspapers of Hong Kong, 1941-1979* (1981); *History of Medicine: An Annotated Bibliography of Titles at The Chinese University of Hong Kong* (1984); and *Asian Fine Arts Collections: Union Catalogue, The Chinese University of Hong Kong* (1984).

For cataloguing purposes, the Library of Congress system has been used since 1969 for Western language materials and since 1971 for Oriental materials. Medical books are classified according to the National Library of Medicine scheme. An on-line circulation system was introduced at the University Library in December 1980, and at the United Library in Summer 1983.

By using modern telecommunication and computer technology, the University Library is now able to search electronically through files of databases and locate within seconds or minutes precisely the periodical or book citations and abstracts needed. The University Library's Information Retrieval Service is connected by terminals through a telecommunications satellite to a database vendor in the United States – DIALOG in California.

The Chinese University Press

After a decade of publishing activities, chiefly under the Publications Office, the University established The Chinese University Press in 1977. Reflecting the distinctive character of The Chinese University of Hong Kong, the Press publishes books in Chinese and in English, and often in both languages. Although it publishes books in almost all disciplines, more than half of its publications are in Chinese studies.
Last year, the Press published thirty-five titles including books in special series such as the Hong Kong studies series, Renditions Books series and the English-Chinese glossaries. It also published the *Journal of the Institute of Chinese Studies* and the *Hong Kong Journal of Business Management*.

The Press has good connections with university presses and learned societies both in Hong Kong and overseas. It has co-published books with the university press of Harvard, Columbia, Princeton and the University of Washington. It has also entered into joint publication arrangements with commercial publishers in the United States. Today, The Chinese University Press is a member of the Association for Asian Studies (AAS), the International Association of Scholarly Publishers (IASP) and the Society for Scholarly Publishing (SSP). It is also an international member of the Association of American University Presses (AAUP).

**Computer Services Centre**

The Chinese University Computer Services Centre provides services to students, faculty, research and administrative computer users of the University. The Centre houses an IBM 4381 mainframe system and a PDP 11/70 minicomputer.

The Centre is organized into four units: the User Support Unit, the Technical Support Unit, the Operations Unit and the Administrative Unit. The services provided by the four units include:

(a) Basic computer time for job processing on the above systems;

(b) Computer programming consultation services and technical advice for users with programming problems;

(c) Application packages programme services and consultation on appropriate packages and software systems to meet particular application requirements;

(d) Programming services in support of specially approved applications;

(e) Seminars on the use of different computer systems and packages; and

(f) Reference manual and other documentation services.
The Chinese University Computer Services Centre is an integral component of the Universities and Polytechnic Computer Centres (UPCC) System. This System comprises an advanced data communications network linking the computer facilities of The Chinese University, Hong Kong University, and Hong Kong Polytechnic. The facilities of this entire system are available to members of the University community.

Health Service

The University Health Service is charged with the responsibility of meeting the health needs of students, staff and their dependents. Special emphasis is being placed on developing a comprehensive primary care service to handle the many medical, dental, psychological and social needs and problems of students.

The University Health Centre, serving as the physical basis for the operation of the health programme, is a gift of the Yale-China Association. Officially opened in September 1971, it has been specially designed and built as a student health centre with provisions for the practice of preventive care, health education and personal medical services.

The Health Centre is open from 8:50 a.m. to 5:00 p.m. Mondays through Fridays and from 8:50 a.m. to 12:30 p.m. on Saturdays. Services include:

(a) Health consultations for diagnosis, counselling, preventive, curative and rehabilitative treatment;
(b) Health maintenance, promotion and other out-reach activities;
(c) 24-hour service with nurse on duty Monday through Saturday morning;
(d) In-patient care for students in need of observation, isolation, diagnosis and treatment of minor to intermediate illness of short duration;
(e) Dental consultation, restorative, preventive and emergency treatment;
(f) Periodic physical examination for certification purposes; and
(g) Coordination of access to diagnostic laboratory and x-ray services, referrals to appropriate specialists, treatment centres or hospitals if and when necessary.

No charges are levied on any of the clinical services provided directly by the University Health Service with the exception of house visit and dental service.
SUPPORT FACILITIES AND SERVICES 315

It is hoped that through the unique educational opportunities generally available in the University and its constituent Colleges, and the numerous contacts students may have with the Health Service, they will have ample chance to gain for themselves adequate knowledge of good health attitudes and habits and will be well oriented to accept appropriate responsibilities to look after their most valuable personal asset in life — HEALTH.

Information Management Unit

The Information Management Unit was established in October 1980. It provides programme and systems development services for University administration applications. The aim of this Unit is to serve as a management information centre for all the departments within the administration and to provide them with systematic and timely information for planning and decision-making. Efforts are being made to further computerize administrative procedures and develop an effective management information system. In centralizing and coordinating the University’s data, the Unit pays particular attention to data collection, validation, efficient data processing and elimination of redundant data.

The Instructional Development Office

The Office aims to support good teaching and learning throughout the University. It has three areas of activities: (1) Communication and Information: the Office produces bibliographies, news-sheets and occasional papers on instructional matters for teaching staff. It also operates an informal referral service, and maintains communication and exchange with others concerned with university teaching in Hong Kong and throughout the world. (2) Consultation and Support: the Office provides information on curriculum design and evaluation, university teaching methods, learning and study skills and the development of teaching resources (with special reference to Computer Assisted Instruction (CAI) using microcomputers). Help can be provided with the development of an individual’s teaching skills. Seminars, workshops and short courses are organized from time to time for staff. The Office administers a programme of mini-grants for projects concerned with the development and improvement of teaching. (3) Research: on its own initiative and by request, the Office conducted developmental research on issues that lead to the improvement of teaching and learning.
The University Instructional Media Services

The Unit provides services for teaching, research and special functions to members of the University. It has four audio-visual teaching rooms, a sound studio, a preview room and dark rooms and runs language laboratories in each of the three constituent Colleges. The Unit has its own photographer and graphic artist who are available to assist staff in the production of teaching materials. There are also facilities to enable staff to prepare their own materials. The following services are provided for teaching, research and administration at the University:

(a) Provision of audio-visual aids, including projects, sound reproduction equipment and television play-back;
(b) Single camera closed circuit television facilities;
(c) Basic photographic, graphic and some reprographic services, including audio and video-tape copying;
(d) Consultation services on lay-out and equipment for teaching areas;
(e) Maintenance and repair of audio-visual equipment;
(f) Administration of audio-visual rooms and language laboratories;
(g) Training in the operation of audio-visual machines; and
(h) Providing studio service for video recording of instructional programmes.

In conjunction with the Instructional Development Office, the University Instructional Media Services also provides information and consultation services on the development and use of audio-visual equipment in teaching.

Student Service and Student Activities

The Office of Student Affairs attends to student welfare and helps students take full advantage of their university education. The activities of the Office are administered through its six sections: the Appointments Service, the Psychological Counselling Unit, the Student Activities Section, the Scholarships and Financial Aid Section, the Student Amenities/Benjamin Franklin Centre Management Section and the Statistics, Research and Publication Unit.

The University Appointments Service is a centre and clearing house of employment information; it is responsible for initiating and developing job opportunities for graduates of the University, for organizing career guidance programmes, and for helping employers with their recruitment of staff at the graduate level. It also administers guidance services to students who intend to further their studies after graduation.
The Student Activities Section coordinates university-wide student activities; liaises with the Student Unions and their affiliated societies and provides assistance and advice for various student functions and activities.

The Scholarships and Financial Aid Section administers scholarships, bursaries, emergency bursaries and loans from private donations and assists in the administration of the Government Financial Aid Scheme.

The role of the Psychological Counselling Unit is two-fold, namely, to attend to individual needs through individual counselling and group programmes and to promote better mental health among the students.

The Student Amenities/Benjamin Franklin Centre Management Section is responsible for managing student amenity facilities in the Benjamin Franklin Centre. It also coordinates policies on catering services and student hostels.

The Statistics, Research and Publication Unit undertakes research and statistical work related to the career development of graduates and the general characteristics and need assessments of students. It also coordinates the editing and production of all official publications of the Office such as Student Affairs, Appointments Service News Bulletin, Student Activities Handbook, Graduate Careers Handbook, etc.

Counselling on social, psychological, financial as well as academic problems is also provided by the Dean of Students' Offices at each of the three Colleges. These Offices administer College scholarship and bursary awards and also play a vital role in the enrichment of college life. In close cooperation and collaboration with the College Student Unions and their affiliated societies, the Dean of Students' Offices also oversee the execution of college-wide student activities.

At present, there are four Student Unions in the University, one each for the three constituent Colleges and one for the University as a whole. The latter maintains close links with the College Unions and coordinates university-wide activities. All year round, a wide range of activities, including academic, athletic, cultural as well as social functions are organized by the Student Unions. These include the Freshmen Orientation Camp, the Swimming Gala, and the University Track and Field Meet.
Sports Facilities

To promote students' interest in physical education, the University provides a variety of sports facilities, including two sports fields, three gymnasias, a swimming pool, eight tennis courts, and several multi-purpose courts.

The sports fields are built on the lowlands facing the shore to the east. The University Sports Field, with covered spectator stands (with a seating capacity of 2,800), provides a 400-metre all weather track, a soccer pitch and a handball court, while the Chung Chi Sports Field provides a 400-metre track, a soccer pitch, a basketball court and a volleyball court. Each of the three indoor gymnasias (New Asia, United and University) houses badminton courts, basketball/volleyball courts, dancing rooms and table-tennis tables. Adjacent to the Benjamin Franklin Centre, the staff-student amenities building, is an outdoor Olympic-size swimming pool.

The Sir Run Run Shaw Hall

The Sir Run Run Shaw Hall, a well-equipped auditorium of modern professional standard, provides an ideal place for the University's cultural activities. It is designed for holding ceremonies, assemblies, meetings, lectures, exhibitions and examinations, and for staging concerts, plays and cinema shows. In addition to the provision of a venue and its services, Sir Run Run Shaw Hall utilizes its own Cultural Activities Fund to present and sponsor high-quality stage performances and film shows, as well as to organize activities such as talks and workshops related to the performing arts.

13.3 A student who has gained grade ‘D’ or above in a course shall earn the units of that course. However, the units of a course which a student has passed but is required to repeat shall count only once towards the fulfillment of 120 units for graduation.

REGULATIONS FOR THE DEGREE OF DOCTOR OF SCIENCE

1. **Conditions for Award of Degree**
   1.1 The degree of Doctor of Science (DSc) may be awarded for an original and distinguished contribution which adds substantially to knowledge or understanding of any branch of science. A candidate shall produce evidence from published work that he has made such a contribution.

2. **Conditions for Admission into Candidature**
   2.1 A candidate for the degree shall be either:
   
   (a) a graduate of this University of at least seven years standing; or
   
   (b) as provided in paragraph 10 of Statute 26 of the University Ordinance, a graduate of another approved University of at least seven years standing who has been a full-time member of the academic staff of this University for at least three years.

3. **Application for Admission to Candidature**
   3.1 Having satisfied the conditions as laid down in Regulation 2 a potential candidate shall apply to the Graduate School for admission to candidature. Such application may be made at any time during the academic year.

   3.2 An applicant shall be required to pay an application fee as prescribed by the University and to present:
   
   (a) a statement of his degrees and of other qualifications and research experience, so to establish his eligibility under Regulation 2;
   
   (b) three copies of the published papers and/or books which he proposes to present for the degree;
   
   (c) a written statement on how far the work embodies the result of his own research and, if necessary, to what extent he has availed himself of the work of others in case of joint authorship or work done in collaboration with others.

   3.3 Works for which a degree or other equivalent academic qualifications has/have been awarded, or works which are under consideration by another institution for the award of a degree or equivalent academic qualification shall not be accepted under 3.2(b) above. They may, however be submitted as supporting documents if necessary, to illustrate the development of the candidate's career in research. In such a case, precise indications of their previous use must be given.
3.4 Upon the applicant's completion of the above procedures, the Dean of the Graduate School, in consultation with the Dean of the Faculty concerned, shall nominate two to three members from within and/or outside the University for appointment by the Vice-Chancellor to form a Perusal Committee to advise whether admission to candidature shall be granted.

3.5 If all the members of the Perusal Committee are against admission, the applicant shall be so informed by the Graduate School and be advised that he may seek admission again after a minimum period of two years from the date of submission of application.

3.6 If at least one member of the Perusal Committee recommends admission of the applicant, candidature shall be granted. In such case where the opinion of the Perusal Committee is not unanimous, the applicant shall be so informed and be given a chance to withdraw his application.

4. **Registration**

4.1 An applicant who has been recommended for admission into candidature shall be permitted to register forthwith. Registration shall include the payment of an Examination Fee as prescribed by the University.

5. **Presentation of Publications for Examination**

5.1 Within six months after registration, a candidate shall submit four copies of the published work that he proposes to present for the degree in a form approved by the Graduate Council.

6. **Conduct of Examination**

6.1 The work submitted by the candidate shall be examined by a Board of Examiners whose membership shall have been nominated by the Dean of the Graduate School in consultation with the Dean of the Faculty and the Division Head/s concerned for endorsement by the Graduate Council, and endorsement or approval by the Senate.

6.2 The Board of Examiners shall comprise three scholars of repute in the field. At least two shall be appointed from outside the University.

6.3 Having read the publications, the Examiners shall report individually to the Dean of the Graduate School on the merit of the work as a contribution to learning, and recommend as follows:

(a) submitted work justifies award of the degree; or
(b) submitted work would justify award of the degree after a written amplification on certain specified aspects of the work has been submitted to the satisfaction of the Examiners; or
(c) submitted work does not justify award of the degree.

7. **Results of Examination**

   7.1 If the Examiners are unanimously in support of the award of the degree, the Graduate Council shall recommend to the Senate that the Degree of Doctor of Science be conferred. The candidate shall be informed by the Graduate School after approval for the award of the degree has been granted by the Senate.

   7.2 If at least one of the Examiners is against the award of the degree, the candidate shall be considered unsuccessful. The Graduate School shall report accordingly to the Graduate Council and shall then inform the candidate.

8. **Second Attempt**

   8.1 A candidate whose work has not been considered by the Board of Examiners as worthy of the degree may apply for admission to candidature again after a minimum of three years following the date on which he was notified of the result by the Graduate School. If he should fail in the second attempt, he may not offer himself again for the degree.

9. **Library**

   9.1 Two copies of the work presented under Regulation 5.1 by a candidate who is awarded the Degree shall be deposited at the University Library for circulation and archival purposes. One copy of the work shall be retained by each Division concerned.
REGULATIONS OF THE UNIVERSITY LIBRARY SYSTEM

The University Library System consists of the University Library in the central area of the Campus and the branch libraries at the Colleges and at the teaching hospital. The University Library houses an extensive research collection as well as many undergraduate materials and the pre-clinical portion of the medical collection. The branch libraries contain reference and curricular materials, some special subject collections according to the needs of the Colleges, and books and periodicals to support general education. These regulations apply to all the libraries. The Senate Committee on the University Library System reserves the right to revise these regulations at any time.

The hours of opening are posted at the entrance of each Library and are adapted to the semester schedules.

Library Privileges

Library privileges are personal and individual. They may not be transferred to, or used on behalf of, other persons.

Privileges of the Library fall into three categories:

1. **Borrowing**
   
   Borrowing privileges are extended to all registered students and academic/administrative staff of The Chinese University of Hong Kong.

   Others may apply to the University Librarian for special Borrowers’ Cards. Clerical staff, technicians and spouses of the faculty and administrative staff of the University may also apply to the University Librarian for borrowing privileges.

2. **Reading**
   
   The privilege of reading is extended to visiting scholars, to researchers and to graduates of this University upon application to the University Librarian. Reserve books, however, are for the exclusive use of students and faculty of the University.

3. **Privileges of special facilities**
   
   Carrels: Not reserved for any category of Library user, carrels are available for the convenience of all.

   Study Rooms in the University Library: On application to the University Librarian, Assistant Lecturers (and above) and
PhD students may reserve a room for three months, renewable if its use justifies it. Others who are engaged in research may also apply. These study rooms may not be transferred.

Seminar Rooms in the University Library: Upon application to the University Librarian, a Seminar Room may be reserved for a lecture or for a series of lectures or meetings which would benefit from the use of library materials and resources.

Photocopying: Coin-operated photocopying machines are available in all libraries. A reader may obtain at cost photocopies of materials, provided there is no infringement of copyright.

Interlibrary loans: The reference librarians will attempt to obtain from other libraries books and other materials which are not owned by the University Library System and which cannot be readily purchased.

Admission to the Libraries

Every user of the Libraries must show a University Identification Card, or a Reader’s Card at the Entrance. Applications for Borrowers’ Cards and Readers’ Cards are made at the Circulation Desk.

Loss of a Borrower’s Card must be reported to the Library immediately; a duplicate card may be issued two weeks after the loss is reported. Only one duplicate will be granted within a semester. Change of address should also be reported to the Library as soon as possible.

Borrowing Regulations

Borrower Categories

Users of the University Library System to whom the borrowing privilege is accorded are grouped into the following categories:

1. Registered students of The Chinese University of Hong Kong.
   (a) Undergraduate students.
   (b) Graduate students; tutors/demonstrators who are registered students working part-time.

2. All teaching staff, including teaching assistants, full-time tutors/demonstrators.

3. Administrative staff: administrative assistants and above.

4. CUHK graduates: Upon payment of a fee of $100 per annum.

5. Special categories:
   (a) Clerical staff and technicians, with the recommendation of their division heads.
   (b) Spouses of the faculty and administrative staff.
   (c) Others, upon special application.
**Borrowing Limits**

Individuals may borrow within the limits of the following schedule:

- **Category 1(a).** Undergraduate students: 10 volumes (books) for two weeks.
- **Category 1(b).** Graduate students, graduate assistants, part-time tutors/demonstrators: 15 volumes (books) for one month.
- **Categories 2–3. Teaching and administrative staff:** 30 volumes may be borrowed for one semester, although they should be returned as soon as they are no longer required. **Bound periodicals** and non-current single issues may be borrowed for periods of three days. **Current periodicals** may be borrowed for overnight use only.
- **Category 4. CUHK graduates:** 5 volumes (books) for two weeks.
- **Category 5(a).** Clerical staff and technicians: 5 volumes (books) for two weeks.
- **Category 5(b).** Spouses of the faculty and administrative staff: 3 volumes (books) for two weeks.
- **Category 5(c).** Others, according to special arrangement.

All books taken from the bookstacks must be charged at the Circulation Desk. Reserve Books must be charged at the Reserve Book Desk; there are varying borrowing limits on these books.

Books obtained on interlibrary loan are borrowed through the courtesy of other libraries and their restrictions as to loan period and renewal are therefore observed. Usually the loan period is two weeks and the books may have to be used only in the Library. Photocopies of periodical articles may be obtained at cost.

Reference books, rare books, microforms and other audio-visual materials do not circulate.

**Renewals**

Borrowers may renew loans for two additional periods. To avoid fines, renewals must be made on or before the last date of the initial loan period. Borrowers, with the exception of Categories 2–3, must renew their loans at the Circulation Desk of the issuing Library.

Faculty members and administrative staff who require a book for more than one semester may renew it in writing. After two renewals, however, the book must be returned to the library shelves so that it may be available to others.

No book may be renewed if it is required by another person.

**Recall**

Circulating books and journals to be put on reserve for courses are subject to recall at any time. All other loans are subject to
recall after two weeks (the initial loan period). Borrowers should respond to a recall promptly.

Overdue

The last date of the loan period is stamped on the date due slip at the back of each book loaned. When the loan period expires, an overdue notice is sent to all categories of borrowers. However, the responsibility of returning books on time lies with the borrower.

Fines

All categories of borrowers except 2 and 3 who keep books beyond the loan period are subject to a fine of HK$1.00 per book per day. A fine of HK$1.00 per hour will be charged for each reserve book overdue.

Losses

Borrowers who fail to return books or who return books damaged beyond repair will be charged the cost of replacement (including binding) in addition to the processing cost of HK$20.00 and any accumulated fine. Damaged books and marked pages should be reported to the Librarian as soon as noticed.

Category 2 and 3 borrowers who fail to return or renew books after 2 terms and 3 recalls will be subject to the above charges, which will be sent to the Bursar's Office for collection.

Control Counter

Under normal circumstances, all parcels, brief cases, bags, umbrellas, cameras, etc., should be deposited on entering the Library. No food or beverages may be taken into the Library. On leaving the Library, all books, etc., must be inspected.

Loss of Privileges

Infractions, such as smoking, shouting and other disturbances, are forbidden in all parts of the Libraries. The Librarian or an appointed deputy may expel from the library building for the remainder of the day any person who is acting to annoy others or who is damaging books or other property. Payment must be made to cover all damages.

A gross breach of the Regulations may subject the borrower to a loss of library privileges.

(a) Overdue books — After normal recall procedures, a written warning will be sent. If this is ignored, borrowing privileges will be withheld in all the Libraries until the return of the book(s) and the payment of accrued fines.
(b) Payment of charges — If a person refuses to pay any outstanding charges (fines, replacement costs of damaged book or repair of damaged property), all the Libraries will withhold his borrowing privileges until the account is cleared. Repeated offenses may lead to a total loss of the privilege of using the Libraries.
