RUN RUN SHAW SCIENCE BUILDING

逸夫科學大樓

## Campus Area

137.3 hectares

## Building on Campus

Number of Buildings: 168

Total Gross Floor Area: 709,916.61 m<sup>2</sup>

## Year of Establishment

# 1963

(through amalgamation of  
Chung Chi College, New Asia College  
and United College)

## Motto

# 博文約禮

Through Learning and  
Temperance to Virtue

## Our Vision

To be acknowledged locally, nationally and internationally as a first-class comprehensive research university whose bilingual and multicultural dimensions of student education, scholarly output and contribution to the community consistently meet standards of excellence.

## Our Mission

To assist in the preservation, creation, application and dissemination of knowledge by teaching, research and public service in a comprehensive range of disciplines, thereby serving the needs and enhancing the well-being of the citizens of Hong Kong, China as a whole, and the wider world community.

## Emblem and Colours

The emblem of the University is the mythical Chinese bird *feng* (鳳) which has been regarded as the Bird of the South since the Han dynasty. It is a symbol of nobility, beauty, loyalty and majesty. The University colours are purple and gold, representing devotion and loyalty, and perseverance and resolution, respectively.

# Campus

## Main Campus

The University's stunning campus commanding panoramic views of the Tolo Harbour and the mountain range nearby is the largest in Hong Kong. Nestled among the greenery are tasteful buildings featuring a mix of Chinese and Western architectural styles. The campus is a haven for many varieties of flora and fauna.

## Prince of Wales Hospital

Situated in Siu Lek Yuen, Shatin, the Prince of Wales Hospital is the teaching hospital of the Faculty of Medicine of CUHK, offering training for medical professionals and the ground for medical research. It also houses most departments of the Faculty and several CUHK research institutes.

## Teaching Centres in Town

The Graduate Law Centre, the MBA Town Centre, and one of the enrolment and learning centres of the CUHK School of Continuing and Professional Studies are housed at the Bank of America Tower in Admiralty, Hong Kong.

## Shenzhen Research Institute

Situated in the Shenzhen Virtual University Park in Nanshan, the Shenzhen Research Institute, wholly-owned by CUHK, was officially opened in November 2011. It serves as a pivotal base for CUHK staff members to conduct research, training and technology transfer in mainland China.

Winner of 'AESOP Best Published Paper Award' of The Association of European Schools of Planning

**1**  
Winner of International Federation of Clinical Chemistry and Laboratory Medicine Young Investigator Award

**1**  
Winner of the Association of Academic Heads of Clinical Biochemistry Departments in the UK Professors' Prize

# Strategic Research Areas and Themes

CUHK's research strategies aim to realize its vision as a centre of excellence for developing cutting-edge research and emerging interdisciplinary strengths that have global impact and significant contributions to society, through translating research findings into practical applications. Riding on our current research strengths, four major research areas incorporating 16 cross-cutting themes have been identified in the *CUHK Strategic Plan 2016–2020*.

## China Studies

- China's Global Challenges
- Roots of Chinese Culture

## Environment and Sustainability

- Smart and Sustainable Cities
- Climate Change
- Plant Molecular, Cell and Agricultural Biology and Food Security
- Renewable Energy and Natural Resources
- Population Studies: Migration, Youth Development and Ageing Management

## Translational Biomedicine

- Genetic, Genomic and Precision Medicine
- Stem Cell Biology and Regenerative Medicine
- Brain and Mind
- Integrative Medicine
- Innovative Medical Devices

## Information and Automation Technology

- Intelligent Reasoning and Cognition
- Big Data and eLearning Research
- Robotics
- Network Coding

# Areas of Excellence

The University Grants Committee (UGC)\* has provided preferential funding to the local tertiary institutions to conduct cutting-edge research. Two such Areas of Excellence (AoE) projects are currently led by researchers at CUHK:

## **Centre for Organelle Biogenesis and Function**

The centre focuses on understanding the biogenesis and functions of three organelles, namely, Golgi, TGN and EXPO. This research will not only address the fundamental questions concerning organelle biogenesis and functions in important biological processes, such as cell wall formation and stress signalling pathways in plants, but will also have potential applications for the biotechnology industry in Hong Kong and China.

## **Centre for Genomic Studies on Plant-Environment Interaction**

With the research foci on the understanding of plant adaptation to abiotic stresses, and the mechanisms of gene regulation relating to plant-environment interactions, the centre aims to identify useful functional genes and effective molecular markers to help generating new adaptive varieties to combat major factors hampering sustainable agriculture, including water scarcity, global warming, and topsoil nutrient depletion. The centre pledges to establish a stable soybean genetic population with precise annotated genomic information and deposit the data in a central portal, and contributes to food security through international collaboration and information sharing.

\* The UGC is an advisory body responsible for advising the HKSAR Government on the development and funding needs of the higher learning institutions in Hong Kong

# State Key Laboratories

## **State Key Laboratory of Translational Oncology (The Chinese University of Hong Kong)**

Backed by a strong clinical base, the laboratory, established in 2006, conducts research into the early detection of cancers particularly prevalent in Asian populations, and seeks to develop novel therapeutics for the treatment.

## **State Key Laboratory of Agrobiotechnology (The Chinese University of Hong Kong)**

The laboratory was established in 2008 with the mission of up-scaling China's agricultural technology to increase agricultural productivity, safeguard food security in China, and improve people's nutrition by combining the traditional wisdom of farmers and breeders and modern biotechnology.

## **State Key Laboratory of Research on Bioactivities and Clinical Applications of Medicinal Plants (The Chinese University of Hong Kong)**

By drawing on the expertise in research into Chinese medicinal plants developed both at CUHK and in the Kunming Institute of Botany, Chinese Academy of Sciences, the laboratory, established in 2009, aims to conduct research into the modernization of traditional Chinese medicine and the application of biotechnology in medical science.

## **State Key Laboratory of Digestive Disease (The Chinese University of Hong Kong)**

Established in 2013, the laboratory aims to promote research and improve the level of diagnosis and treatment of digestive disease by carrying out basic, translational and clinical research on gastrointestinal cancer, peptic ulcer bleeding, chronic liver disease and inflammatory bowel disease.

## **State Key Laboratory of Synthetic Chemistry**

Established in 2010 in partnership with the University of Hong Kong and the State Key Laboratory of Organometallic Chemistry located in the Shanghai Institute of Organic Chemistry, the Chinese Academy of Sciences, the laboratory aims to create and identify novel chemical compounds with important structural and bonding features or with notable potential for practical applications.

# Research Institutes

- The Asia-Pacific Institute of Business
- Asian Institute of Supply Chains and Logistics
- Brain and Mind Institute
- CUHK Jockey Club Institute of Ageing
- CUHK T Stone Robotics Institute
- Hong Kong Cancer Institute
- Hong Kong Hub of Paediatric Excellence
- Hong Kong Institute of Asia-Pacific Studies
- Hong Kong Institute of Diabetes and Obesity
- Hong Kong Institute of Educational Research
- Hong Kong Institute of Integrative Medicine
- Institute for Tissue Engineering and Regenerative Medicine
- Institute of Biotechnology
- Institute of Chinese Medicine
- Institute of Chinese Studies

# Meeting and Outdoor Venues

## ***The Gate of Wisdom* and the Beacon**

The broad rectangular base of the sculpture *The Gate of Wisdom*, also known as the Beacon, is a popular place for student activities, especially public forums and ceremonies.

## **University Mall**

Lined between the University Library and the Science Centre, the University Mall is the most famous icon on campus. It is also the place for the University's annual congregation.

## **Cultural Square**

Outside the Benjamin Franklin Centre, a popular place for student activities including open-air concerts, drama, as well as cultural festivals.

## **Cho Yiu Conference Hall**

The 162-seat conference room is equipped with simultaneous interpretation system and projection screen for video-conferencing. Portraits of past chancellors, council chairmen and vice-chancellors adorn its walls.
